75th Anniversary Scholarship Donors' Roll

There is no greater gift than that which helps someone help himself.

The 75th Anniversary Scholarship Fund is an endowment with the goal of \$75,000. Annual interest from the fund will be used for highly flexible, merit-based scholarships to help attract top quality students from high schools and junior colleges. The future quality of natural resources management depends on the College of FWR and other natural resource colleges successfully competing for our nation's most talented young people.

This fund will remain open to future contributions until the goal of \$75,000 is reached. Names of donors contributing \$100 or more will be added to a plaque in the foyer of the Forestry Building.

All donors making contributions prior to March 1, 1985, are listed below in alphabetical order. Contributions of \$75 or more received limited edition prints of Norah Tisdale's painting, *The Snag*. The autographed print numbers received by donors to date are shown next to the recipients' names.

SCHOOL OF FORESTRY

UNIVERSITY OF IDAHO

MOSCOW, IDAHO

THE WHITE HOUSE
WASHINGTON

September 20, 1984

I would like to take this opportunity to congratulate the students, alumni and faculty of the University of Idaho's College of Forestry, Wildlife and Range Sciences as you celebrate the 75th Anniversary of your institution. The college can be very proud of its long tradition of excellence in natural resources education and research.

The expansion of the College of Forestry, Wildlife and Range Sciences over the years has kept the University of Idaho in the forefront of natural resources education. Numerous graduates of the college now provide our public agencies with expertise and leadership in resource management. The creativity and innovation of the college has provided knowledge and opportunities for the State of Idaho and the United States as a whole.

The Federal government has enjoyed many years of cooperation with the Forest Sciences Laboratory, the cooperative research units and the graduate programs oriented toward the major concerns confronting our nation in the management of its great resources.

In recognition of this 75th year, you have my best wishes for even more success in the years to come.

Ronald Reagan

SONG OF THE FROSH FORESTER

*I said, "I'll go to Idaho, Idaho."
And when they asked me why I'd go, why I'd go,
I said, "Just wait four years and see,
When I have studied Forestry."*

Chorus:

*Silviculture I will master,
I will put out fires faster,
I will learn to use the compass and the calipers,
I will learn the names of fish and bugs, of fish and
bugs,
Of birds and butterflies and slugs, flies and slugs,
And the names of trees will never bother me,
When I have studied Forestry.*

*One day I met a lumberjack, lumberjack.
He up and slapped me on the back.
And he said "Young man, before you wear my
pants,
You'll have to have ex-per-i-ence."*

Chorus
