

Hqrs U of I

US Army Training Detachment-

Moscow, Idaho

8/27/18.

From: Commanding Officer-
To: President Lendley, University.
Subject: Hospital room,

1.

These Hqrs are in receipt of a communication from Washington DC in re. the proper taking care of the sick soldiers of the detachment. As winter draws near our sick will increase in number and in view of same these Hqrs deemed it wise to address you in the premises.

2.

The surgeon recommends that room for at least eight men be provided for as soon as possible. The Government will furnish the beds and blankets and sheets etc.

3.

We have now two cases bordering on pneumonia. Our present arrangements are quite sufficient to take care of this number.

Geo. W. Edgington,
Capt INF US Army.
