

Q U A R A N T I N ER E G U L A T I O N S

1. During fair weather all windows must be kept as completely open as possible. During stormy weather windows must be kept open at least six inches. This applies to laboratory and recitation rooms as well as to living rooms.
2. Influenza is communicated by contact. Crowds or crowding should be avoided.
3. All students of the University are free to go into town but until further notice no one will enter any place of amusement. This includes pool rooms.

President.
