

THE UNIVERSITY ARGONAUT

Idaho State University

Volume IV

Moscow, Idaho, November 15, 1901

Number 1

Our New Professors

As we have with us this year five new Professors, the ARGONAUT will endeavor to give a brief sketch of the life of each.

CHAS. A. PETERS

recently elected by the board of regents as Professor of Chemistry in the U. of I., was born in 1875. He graduated with the degree of B. S. from Mass. Agricultural College and Boston University in 1897. During the years '97-98, Dr. Peters was Assistant Chemist in Massachusetts Agricultural College. From 1898-1901 he studied at Yale, taking leading courses in chemistry, physics and mineralogy, and engaging in research work, the results of which have been published from time to time in the leading chemical journals. During the years 1899-1901 Dr. Peters was assistant to Prof. F. A. Goach in Yale College. Last spring he received the degree of Ph. D. from Yale. The University of Idaho should certainly feel very proud to count a man of Dr. Peters' ability among her teachers.

DR. LITTLE

Dr. C. N. Little, recently elected to the chair of Civil Engineering in the U. of I., comes to us eminently fitted for his position, both by years of study and experience. Dr. Little was born May 19, 1858. In 1879 he graduated from the Nebraska State University taking

the degree of A. B. In 1884 he received his A. M. from that institution. For four years from 1880 to 1884 Dr. Little was Instructor in Mathematics and Civil Engineering in the Nebraska State University. The following year (1885) he received the degree of Ph. D. from Yale University. From 1885-1890 he held the position of Associate Professor—in charge of the Department—of Civil Engineering at the Nebraska State University and from 1890-1893 held the Chair of Civil Engineering there. From Nebraska he went to Leland Stanford Jr. University where he was Professor of Mathematics from 1893-1901. His Sabbatical year of 1898-99 was spent in Germany. Dr. Little has written and had published a number of articles. Three of these appeared in the Transactions Royal Society, Edinburgh, two in Johns Hopkins' Journal of Mathematics and one in the Transactions Connecticut Academy. The Civil Engineering Department is an important one in our University and the securing of Dr. Little to take charge of this Department will certainly tend to strengthen the entire institution.

NINA ALLENE WILBER

A Department which counts for much in our College is that of Elocution and Oratory. When Miss Henry resigned last June we al-

THE UNIVERSITY ARGONAUT

most wondered who could take her place. But no longer do we fear and wonder, for from one of the most noted institutions of the East comes our new Professor fully equipped and competent to take the vacant chair.

Nina Allene Wilber was born at Howell, Michigan, April 4, 1876, graduated from the high school of her native town in 1894. In 1898 she took the degree of A. B. from the University of Michigan. Then followed two years of special preparation for the line of work she wished to follow, in the Emerson College of Oratory, Boston, Mass, from which she graduated in 1900. We welcome Miss Wilber most heartily and congratulate the regents on the selection they made when they elected Miss Wilber to the chair of Elocution and Oratory in the University of Idaho.

DR. PARHAM

To the chair of English in the University the regents have called Dr. Parham. Dr. Parham is a Southerner by birth. He took his M. A. degree from Randolph Macon College, Virginia. Instructor R. M. C. For four years he held the chair of Latin and Greek in St. Louis Conference College. After this followed three years graduate work in Johns Hopkins University. He was an honorary Scholar in English in Johns Hopkins University for two

years. After finishing his work in the University Dr. Parham for two years successfully filled the chair of English in the Florida State College and it is from there that he comes to us. A thorough scholar, Dr. Parham will certainly fill with great credit to the Institution, the chair of English, having already shown himself very capable the short time he has been with us.

JAY GLOVER ELDRIDGE

Prof. Eldridge's college days were spent at Yale University and there too he did his graduate work. In 1896 he received his B. A. degree. From 1896 to 1901 he did graduate work receiving his M. A. in 1899. Prof. Eldridge's ability was recognized and he was appointed Instructor in German, Scheffield Scientific School of Yale University in 1897. From 1899 to 1901 he held the position of Instructor in Yale College, when he was appointed to the Chair of Modern Languages in our own institution. Our University should be proud to count among its instructors a man who has taught in one of the principal educational institutions of the Union.

With such a corps of instructors as our University can now boast of, she should rapidly take her place among the leading educational institutions of the West.

An Interesting Game—Moscow 5, Pullman 0

On a beautiful Friday in October,
A college from over the way
Came to warble and shout in our city,
But they didn't have much to say.

For after the ball was over;
After the game was won;
After Pullman was vanquished;
After we scooped in their "mon."
Many the hearts that were breaking—
O! wasn't Pullman sore
After there was five-to-nothing,
After the game was o'er.

Before the largest crowd ever gathered to

witness an athletic contest in Idaho, on Friday, Nov. 25, the U. of I. clearly outplayed her worthy rivals, the W. A. C. team, in an exciting game of football, the score at the finish being 5 to 0. The game was played on the local gridiron and was the most stubbornly contested game ever played in Moscow. With Strong's 35-yard run pandemonium began;

THE UNIVERSITY ARGONAUT

horns of every description, size and style, cowbells—out of tune—and human voices cheered the home team on to a brilliant victory. The Pullman rooters were confident of victory, and though their boys were outplayed from the beginning, hope never deserted them until the call of time rang out.

Moscow won the toss and chose the north goal. Pullman kicked off to our 10-yard line, where the ball was downed. After a couple of unsuccessful plays, Idaho lost the ball on a tumble. With the ball on our 10-yard line and in possession of the opponents, the Pullman rooters were at their best. Pullman tried an end buck but was tackled so hard that they lost the ball to Idaho. Horton kicked for 10 yards. W. A. C. was held for downs and Horton kicked for another 10-yard gain, W. A. C. forced the ball back to the 15-yard line, where Idaho secured it on downs. Horton kicked for a gain of 25 yards; Idaho secured the ball on our 40-yard line; by brilliant line bucking the ball was landed in the center of the field where it was passed to Strong for a buck between guard and tackle, but McLeod and Larson made such an opening that he passed through, dodged the quarter, the half and full backs and, aided by the splendid interference of Griffin, made a gain of 35 yards before he was pulled down by Pullman's fast end. Idaho's work was now fast and furious. Capt. Gibb was sent into the line time and again, always for gains. Harry Smith and as McLeod each bore their brunt of the work, Pullman's heavy players felt themselves being steadily forced toward their goal. They steeled themselves for the final stand. Idaho's line bucking was irresistible, and Gibb was sent over for a touchdown. Horton failed at goal. There remained only half a minute to play, and the first half closed with the kickoff.

The second half—Idaho kicked the ball to their 20-yard line. Here W. A. C. would advance the ball a few yards, then it would pass to Idaho who would work it back. The entire half was played between Pullman's 10 and 30 yard lines.

Idaho's defensive work was far above anything ever witnessed in the northwest.

Pullman played a hard, consistent game, but everyone admits that the best team won.

Both sides made costly fumbles. But, eliminating these fumbles, the score would have been the same. At end, Barton and Hague's work was of the highest order—not a single gain being recorded around either end.

McLeod and Smith played tackle with a vengeance that would indicate "do or die." They were over their opponents, around them, under them and through them. The way they handled their men was one of many features of the game.

Our light iron clad guards, Larson and Tweedt's playing was a revelation to football admirers. Blocking their men when Pullman assailed our line, and forcing them back when we bucked for gains.

With Edgett—our sure passer—at center, and Larson and Tweedt as his guards, no team could force our central point.

Our backs, Captain Gibb, Strong, Griffin and Horton, are the most consistent ground gainers, and the fastest backs ever seen on the local gridiron.

Captain Gibb had good control of his men at all times. The pace he set for them to follow was so terrific that W. A. C. could do nothing but fall back. Gibb as a half-back stands preminent.

Strong, who played with us for the first time in this game, is an excellent player, standing second only to Gibb. His long run

THE UNIVERSITY ARGONAUT

was the feature of the game, and started the home team for a touchdown.

Griffin, our wiry quarter, played a "heady" and careful game. His tackling was of the highest order, and anything that might be

said would not be undeserved. Last on the list, but not least, is full back Horton, our noted punter. He is so well known in football circles that it is only necessary to add that he played his usual game.

First Game First Victory

The first game of the season to be played by our foot ball team was with the Lewiston Normal team on Saturday, Oct. 13. The result was a victory for the U. of I. by a score of 11 to 6. The Lewiston Normal played good ball but it was evident throughout the game that their team was outclassed by the 'Varsity eleven. The feature of the game was the fumble by the 'Varsity team which allowed Lewiston to score, soon after a 40 yard run by Cox. The game was refereed by Coach Herbold while Koons of Pullman acted as umpire.

The time of first half was fifteen minutes, second half, ten minutes, time of game, fifty minutes. The first touchdown was made by U. of I. in five minutes. Lewiston made its score in eight minutes. Time was called with the ball in the center of the field in Lewiston's possession.

The 'Varsity made a touchdown in the second half in three minutes. Horton failed to kick goal and the score stood 11 to 6. Game closed with ball in possession of the 'Varsity in Lewiston's territory.

Captain Cox was Lewiston's star player and never failed to gain for his team.

Among the 'Varsity players Capt. Gibb played his usual "terrible" football and was well supported by his whole team. To mention one without doing so with each individual would be an injustice.

Among the rooters "yell master Lee" was

easily the star. Assisted by the small crowd present Mr. Lee kept up enthusiasm to the last.

The attendance was not what it should have been, partially on account of the fact that the faculty had arranged for a hunting trip and could not attend the game.

Line up was as follows:

U. OF I.	LEWISTON
Edgett	center.....B. Cox
Gilbert.....	L. G.....Milier
Twedt.....	R. G.....Patterson
McLeod.....	L. T.....Rusk
Smith.....	R. T.....Harrington
Barton.....	L. E.....McVerrist
Hogue.....	R. E.....Culver
Griffin	}Q. B.....Thomas
Ghormley	
Larson.....	L. H.....Cox(capt)
Gibb(Capt).....	R. H.....McKissick
Horton.....	F. B.....Emmett

Lewiston's sentiment is expressed in the following article taken from the Normal Review:

"The football event of the season up to the present writing was the trip our team made to Pullman and Moscow on the 18th and 19th of October. Two stubbornly contested games were played on two successive days and yet our boys came out of it with hardly a scratch.

"The game at Pullman was disappointing. The players would use stronger language than that. From the coach, up or down, as you please, to the manager there were no pleasant remembrances carried away. The long wrangle before the game, the inefficiency of the

THE UNIVERSITY ARGONAUT

officials, and the tactics of the players all conspired to cause the game to linger long in the memories of the participants from this end of the line; but it will linger as an unsavory odor lingers. The score was better than the Lewiston boys expected. Sixteen to nothing in favor of the Pullman boys, does not tell the story of the game. The losing of the game is not what distressed our boys but it was the manner of losing it that would not down.

Oregon, O, Idaho, O

Tells the tale of the finest exhibition of open foot ball ever witnessed by an Idaho audience. The question of whether or not the University of Idaho foot ball team is in the same class as the Southern Coast team is no longer an open one. The score would indicate that the two teams were evenly matched, but the spectators saw the game played in Oregon territory. Only once was the Idaho goal in danger. The game was an open, punting contest in which the crowd had a splendid opportunity to appreciate the superb punting of Idaho's famous fullback. While Oregon did splendid kicking an impartial spectator would say that Horton easily outranked his opponent.

FIRST HALF

Idaho kicked off to the 15 yard line; Oregon fumbled the ball. By hard line bucking Idaho placed the ball over Oregon's 5 yard line, here Idaho lost the ball on the second down, which prevented our team from scoring.

Oregon kicked to the center of the field. By persistent line bucking and end runs Oregon forced the ball to Idaho's 5 yard line, This was the only critical time of the game for Idaho. The Idaho rooters went wild when they saw Larson leap over the Oregon line and

"The Moscow boys met our team at the depot with our own yell and from that time to the pulling out of the train for Lewiston nothing was left undone to make the boys 'play ball' and feel at home. For many courtesies received Manager Mix has our lasting goodwill and that prince of sportsmen Herbold, Moscow's gentlemanly coach, has nothing but very best wishes."

down the quarter back in his tracks. At this stage of the game Griffin, our nervy quarter, entered the arena, and by a series of line bucks our team forced the ball to the 30 yard line when time was called.

SECOND HALF

Oregon kicked the oval to the 5 yard line, Gibb advanced the ball to the 25 yard line. After a couple of line bucks, Horton sent the ball through 45 yards of space and Oregon took possession on the 20 yard line. Oregon kicked back to the 45 yard line, Horton caught the ball and was downed on the spot. Oregon held our team for downs and secured the ball. Oregon kicked again, this was the only time during the game that the ball passed into Idaho territory, and it only stayed there until Idaho could get it into shape for a kick. Idaho must have been in good shape for Horton sent the ball through 55 yards and it fell on the 15 yard line. Oregon attempted to kick but her line could not hold our team and the ball and 10 yards were lost to Idaho. After a series of plays Idaho tried a placed kick for goal. The kick was well made but the ball refused to go between the goal posts. Oregon kicked from the 25 yard line, the ball was advanced 5 yards by Griffin, Idaho then kicked to the 10 yard line, Oregon then kicked to the 40 yard line,

THE UNIVERSITY ARGONAUT

after a series of line bucks in which small gains were made and lost time was called with the ball on the 40 yard line in Idaho's possession.

The game was full of exciting events. One team playing to maintain a reputation long established. The other playing to establish a reputation long desired. The score would indicate that both succeeded. Our team was in the play at all times, each player did his work well, to mention one would be an injustice to the others. The way Capt Gibb, Griffin, Hague, McLeod, Barton, Larson, Strong, Horten, and in fact the whole team, played, can only be appreciated by those who witnessed the game. The speed put into the game by our team would make a projectile from a 13 inch gun look pale. But the swift players was not all on our team, that Oregon had a splendid team no one will doubt. The Oregon team was weakened by the loss of McBride and Murphy.

A Move in the Right Direction

Thursday afternoon a well attended meeting of the students was held to consider ways and means of maintaining THE ARGONAUT during the coming year. After some discussion the following resolutions were adopted:

WHEREAS, College papers are the most po-

tent factors in enlisting the interest of the young people of the state in the advantages and importance of an education; and,

WHEREAS, A creditable paper is a recognized essential in all leading schools, being their most efficient advertising medium, and bringing the people, especially parents, in closer touch with the work of our great educational institutions; and,

WHEREAS, The necessity of maintaining THE ARGONAUT as a creditable representative of the University of Idaho requires the expenditure of much time and considerable money; therefore, be it

Resolved, By the students of the Idaho University, that hereafter we shall give preference to those business men of Moscow who, by their support, make the publication of THE ARGONAUT possible.

The students intend to patronize those who patronize their college paper. That such means are necessary seems very strange in face of the fact that the business men of Moscow get annually thousands of dollars from the students. Every new student means the expenditure of not less than \$150 annually in Moscow. Therefore, the maintaining of a good college paper is one of the very best of investments. It is to be hoped business men will see it in that light and give THE ARGONAUT the liberal patronage it deserves.

Alumni Notes

Joseph L. Gilbreth '97—1st Lieut. in 14th Inf. U. S. A. is now at home in Moscow on a month's leave of absence. Lieut. Gilbreth's regiment landed in San Francisco from Manila in August and were later removed to Ft. Snel-

THE UNIVERSITY ARGONAUT

ling, Minn., (near St. Paul,) where they are stationed at present.

Miles F. Reed '01 was married to Maud Kinkaid (an old U. of I. girl) of Grangeville, the last of June, and is now in the chair of Chemistry and Physics in the Lewiston Normal. THE ARGONAUT wishes them well.

Burton L. French '01, after taking in the Pan American, has taken up his work in the University of Chicago, where it will be remembered he has a fellow-ship.

Chas. B. Simpson '98 spent about one week in the middle of October in Moscow, before returning to his work in Washington.

Thos. Burke '01 is connected with the engineering department of the Silver City Consolidated Mining Co. at Boise.

Edna A. Clayton '00 after a pleasant visit in Grangeville, has accepted a good position in the Wallace schools.

Marcus W. Barnett '98 is enjoying a visit from his mother and brother in Washington this winter.

Rosa A. Forney '01 is assistant in the department of Music of her Alma Mater this year.

Claud W. Gibson '01 is in the law department of Columbia University, New York.

Jesse L. Rains '01 is registered in the Jefferson Medical College of Philadelphia.

J. A. Coffey '97 spent a part of the summer on the coast and at his Oregon home.

Chas. L. Kirtly, '96 has his M. D. shingle hanging in Salmon, Idaho, we hear.

Henry Sweet '01 is business manager of The Cheyenne Leader a goodly newspaper.

Charles A. Armstrong '00 is teaching in the schools of North Yakima, Wash.

Margaret B. McCallie '98 spent the vacation months in "Sunny Tennessee."

Gainford Mix '01 is graduate manager of the foot ball team.

Carrie A. Tomer '01 is teaching at Nezperce.

Lucile Fisher '01 is teaching in Juliaetta.

Minor Events *Paraphrastically Told*

The Athletic Association met last week and elected the following officers: President, B. E. Bush; vice president, Hal Tilly; sec'y. E. S. Barton, treasurer, Louis Tweedt. Following students are to represent their classes on the board of directors: Senior class, J. A. Gibb; Junior class, Robert Ghormley; Sophomore class, Art Strong; Freshman class, Geo. Horten; Prep. Department, Gus Larson; while Prof. Bonebright was chosen from the faculty. Much of our success in athletics depends on the interest shown by the officers and with the

above named officers our success is assured.

The class of '02 does not number so many as the class which preceded it in numbers, but in view of the fact that the class of '01 is out of college it will now be safe to say that the present class is a strong one. All of the students that were in the class last year have returned except Mr. Hanzen. To say that we miss him would not do justice to one who has spent six years with us. The class met last week and elected the following officers: President, Miss Cuddy; vice president, W. M.

THE UNIVERSITY ARGONAUT

Howland; secretary, A. P. Peterson; treasurer, Henry Lancaster. The class colors are sky blue and old gold.

Prof. and Mrs. Bonebright and Prof. and Mrs. Henderson entertained the faculty at the home of the former on Friday evening. During the evening Prof. Cogswell and Miss Forney rendered pleasing piano solos, Miss Wilber gave some charming readings and Prof. Eldridge entertained the guests with some vocal solos. Beside the faculty were Pres. Graves and Prof. Meany, of University of Washington.

Prof. Padelford, who holds the chair of English Literature, comes from the University of Idaho, where he taught successfully for two years. He is a graduate of Colby, and received his Ph. D. at Yale.—Pacific Wave.

A large delegation went to Pullman last Friday p. m. to witness the foot ball game between Pullman and U. of W. Pullman won in the game the score being 11 to 0.

THE ARGONAUT is authorized to announce that the Watkins gold medal for oratory will be awarded this year as usual.

Miss Allie Swinnerton has moved and is now living on Van Buran street with Miss Mamie Hunter '01.

Robt. Tweedy will enter school in a week or ten days, we are all glad to welcome you back Robert.

Misses Mamie and Helen Rhodener, formerly of Wallace, visited college last week.

Miss Olive Regan returned from Boise this week and will enter school at once.

Coach Herbold is taking a course in assaying with the Juniors.

Pres. Wilson of the Elensburg Normal was a visitor last week.

Notes

Miles Reed, '01, and wife were visiting relatives here last week.

Mr. B. L. Kerns, a former student, came from Lewiston to see the foot ball game with W. A. C.

Miss Moore would have her class in mathematics know that to add too much to a geometrical proposition is as much wrong as having too little. This failing is quite general.

The Senior Preparatory class organization has been completed and the following named students elected as class officers: President, Norris Pollard; secretary, Ethyl Williams; class editor, George Davidson. The class is not large in members, but the class work is much greater in proportion.

Miss Poe's Iliad class thinks football is a great thing for English teachers. Not that any classes were omitted by reason of football, but that Miss Poe's supply of English was so nearly exhausted after Friday's game, she has devoted more time to class reading and writing than to questions since. All are excused, however, from any defects of the voice when we have victorious football.

Miss Moore entertained a few of her friends and fellow-members of the faculty at her home on Friday evening, October 18th. The evening was devoted to games and other social pastimes, and it is needless to say that all who were present made merry. After dainty refreshments had been served the guests departed with many polite congratulations for their hostess and the royal manner in which they were entertained. The guests were: Mr. and Mrs. Eldridge, Misses Wilber, Poe and Edna Moore, Messrs. Peters, Beans and David.

THE UNIVERSITY ARGONAUT

Miss Ora Cooper is teaching school near Kendrick.

Maud Woodworth is teaching school near Moscow. Her term began last Monday.

Miss Zoa Clark is not in school at present, but is spending the winter in Iowa with relatives.

WANTED—Story writers for THE ARGONAUT. Who will volunteer to write a story for the Christmas number? Don't all speak at once.

Our new buildings are just nearing completion and will soon be ready to be occupied. THE ARGONAUT will have an extensive write up of each in the next issue.

The senior mining students will build a complete concentrating mill during the year. Work will be started soon and it is expected the class will be treating ore by the end of this semester.

Dr. Avery is Prof. of Chemistry in the University of Nebraska and is well pleased with his position. The University of Idaho feels that she has lost one of her strong men, but all can join Nebraska University in congratulations for her wise selections.

President MacLean left last week for Washington, D. C. to attend the meeting of the presidents of state universities and agricultural colleges. Dr. MacLean will be absent several weeks. Prof. Aldrich will be acting president during the president's absence.

Quite a large delegation of Varsity students went to Pullman last Saturday to witness the foot ball game between W. A. C. and U. of O. The game was rather disappointing from the "rooters" standpoint. The score 16 to 0 in favor of Pullman is a fair representation of the relative strength of the teams.

Mr. Turley has an article in the Canadian Elamologist for November.

Mr. Chas. Montandon has returned to college, he is accompanied by his younger brother and sister.

Prof. Carnahan is teaching in the University of Illinois at Champaign. Prof. Carnahan was the first on the list of subscribers for THE ARGONAUT.

Hallowe'en passed off very quietly in Moscow and any one would not be able to tell by the appearance of the street the next morning that there was a college here.

A "Spectacle Club" is to be organized in the University soon. The requirements for membership is that you wear glasses, at least when you study, which need not be much of the time.

The Junior class has elected the following officers for the year: President, R. Ghormley; vice president, D. Cornwall; secretary, Mattie Dunbar. The class has a membership of about 39. Misses Grant, Eldred, Booth and Mr. Gipson being new members. Miss Booth and Mr. Gipson having come up from the '04 class.

President MacLean is in receipt of a letter from The Mining and Engineering Journal congratulating the University on the recognition gained at the Pan American Exposition. This recognition is due to the industrial efforts of F. C. Moore and Ralph Jameson, graduates in the mining department, for the bronze medal awarded the stamp mill built by them while students of the University. These two students have advertised the University more by that mill than has been done by any other means, and it is very gratifying to know that the mill built by them, competed with a similar mill built by the Union Iron Works, costing \$3000 and receiving the same medal.

ESTEL HUNTER

WITH this issue THE ARGONAUT enters upon the fourth year of its existence. During the past three years the progress of the paper and the interest displayed by the students in advancing the paper have been gratifying. The editors, while acknowledging their weakness, will take for their standard the excellent work already done by former editors, and will do all in their power to make the present year the most successful in the history of the paper. Whether or not our efforts shall be crowned with success at the end of the year will depend largely upon the spirit shown by the students and those to whom we have a right to look for our support.

Institutions of learning, like individuals, have characters, also reputations to maintain. The former we are not qualified to deal with. But for the reputation of a college, the paper which it is represented by is largely responsible, especially at this time when the college is

known only by its representative, the college paper.

For the paper which is to represent the University of Idaho, you, fellow students, are directly responsible. You elect your editor. He selects his associates. But the responsibility of the student does not end with this. Each student and every one connected with the institution should at least subscribe and pay for the paper. It may not be edited according to your ideas of a college paper. The paper used may not be as good as you would like, or the cover may not suit you. It may occur to you that you can remedy this by paying the Business Manager your subscription. In case such an idea should come to you, you will not be discouraged under the rules of the present management.

But the duty of the student does not cease when he has paid a year's subscription. To conduct a college paper requires work. It is not the spirit of the constitution by which the Argonaut Association is governed that this work should be done by a few students, but by the association of students comprising not any class, or body, but by all.

WHILE this issue of THE ARGONAUT is not a fair specimen of what we want to make the paper, we make no apology for its appearing. A copy of THE ARGONAUT will be sent to each student, or former student, and to every one who, we think, takes interest enough in the University to subscribe for the paper. If it is not wanted you are expected to return the paper stating that you do not care to take it. Otherwise you will be considered a subscriber and the paper will be sent you till you settle for the same. In doing this the editor is only doing what all papers are allowed, by law, to do, and it is the only method to reach

THE UNIVERSITY ARGONAUT

all students. In case any student is overlooked a postal card addressed to the business Manager will get you a sample copy.

CARROL L. SMITH, '01, is attending the Medical School at the Northwestern University. Mr. Smith was one of four to secure a scholarship at that institution and his many Varsity friends may well feel proud of him. The scholarship gives the winner great prestige and the University is fortunate to secure one of the four honors.

OUR friend and former student Harley E. French, is editor of The Evergreen. The form of our esteemed contemporary has been changed and presents a very neat appearance. The fact that Mr. French is at the head of the Evergreen assures the W. A. C. of a good paper for the year.

Y. W. C. A.

The Young Women's Christian Association is doing active work this fall. The opening reception for University girls, given at the home of Miss Playfair, was well attended and served to promote the acquaintance of the association members and the new students.

Since the reception about twenty new members have been received. The week-day prayer meeting is held Monday noon in the Amphictyon Hall. These meetings are made both helpful and interesting. A special missionary program is prepared once a month. The first one, given last Monday, consisted of a song by Miss Ghormley and Miss Parks, and a reading on settlement work by Miss Moore. It is intended to make the missionary meetings especially attractive for interest in

missions and in foreign work is sorely needed. The most important work of the organization is the Bible study class which meets at the home of Mrs. Eldridge every Sunday afternoon. The study outlined for the winter is "The Life of Christ" and "Harmony of the Gospels". The association is very fortunate in having Mrs. Eldridge as leader of these meetings and it is hoped that every girl will avail herself of the opportunity to study with so efficient a leader.

Y. M. C. A.

The Y. M. C. A. has its work now progressing very well. Together with the Y. W. C. A. it has issued a very neat hand-book which has been greatly appreciated by all students. During the first week and a half of school this fall a committee met all trains and assisted new students to find suitable rooms and get settled.

Regular meetings are now being held and a very encouraging interest has been manifest. The meetings have been very helpful and instructive. One very interesting missionary meeting has been held at which the work of Mr. John R. Mott, the Secretary of the World's Christian Student Federation, was discussed.

The association is preparing to send a delegate to the Pacific Grove Students' Conference which will be held at Pacific Grove, Cal. from Dec. 27 to Jan. 5.

A Bible Study Class is now being formed and it is hoped that a large number of students will avail themselves of this opportunity to study the Bible systematically.

Devotional meetings are held each Sunday afternoon at which all young men of the institution are urged to be present.
