MOSCOW, IDAHO, SEPTEMBER 2, 1905

NUMBER 1

THE LEWISTON HIGH DEFEATED

The First Practice Game of the Season Is an Easy Victory for the Idaho Team.

The Lewiston Eleven, Although Out of Its Class, Puts Up a Fast, Gritty Game from Start to Finish.

University of Idaho, 42. Lewiston High School, 2. The University team may be justly credited with doing their best. Though slow on the start, after a few knocks and shin kicks, warmed to the game wonderfully.

The time schedule was arranged for fifteen and twenty minute halves. The first half started off rather slowly. Idaho kicked to Lewiston who lost the ball on downs. Idaho's first two plays put ginger into their opponents by fumbling the first two passes. On regaining the ball, through a tackle around tackle play, Rogers made a 25 yard gain. The ball was steadily worked down the field for a touch down, Lewiston showing poor defense. Middleton kicked goal. Score 6 to 0.

Lewiston kicked to Middleton who is downed on the 45 yard line. Smith makes 15 yards around right end; Keyes through right end for 5 yards; Small 6 yards through l. t.; Keyes 6 yards through l. t.; Oakes around r. e. for 3 yards; Small through r. t. for 2 yards; Larson through r. t. to goal; Middleton kicks goal. Score 12 to 0.

Lewiston kicks to Idaho: Larson recovers the ball; Keyes through r. t. for 2 yards; Oakes around l. e. for 8 yards; Smith makes big gain of 8 yards through r. t.; Oakes gains 2 yards through r. e.; Magee 4 yards around r. e.; Larson 8 yards through l. t.; Oakes makes 9 yds. around r. e. for touchdown; Mid. kicks goal. Score, 18 to 0.

Idaho kicks to White who fumbles; ball returned to 15 yard line; ball to r. t. for no gain. Lewiston punts to Middleton who fumbles; Lewiston regains ball, but loses on downs; Keyes goes through r. t. for 10 yards; Larson 1 yard through r. t.; Small punts, ball recovered by Smith; Larson failed to gain through r. t.; Keyes advances the ball 4 yards through l. t.; 7 yards through r. t. by Oakes; Myers fumbles on second pass and Lewiston gets ball; Pierstoff goes through r. t. for 2 yard gain; Idaho gets ball on downs; Rogers 6 yards through r. t.; Small 3 yards through l. t.; Keyes carries ball over line. Middleton kicks goal. Score 24 to 0.

Lewiston kicks to Idaho; Larson secures touchdown; Middleton kicks goal. Score 30 to 0. Lewiston scores safety through Keyes' fumble. Score 36 to 2. Idaho kicks to Lewiston; Keyes 5 yard gain around r. e.; Larson receives ball on fumble, advances

ball to goal for touchdown. Middleton kicks goal. Score 42 to 2. The Lewiston eleven, though outclassed in every way, played a snappy game. Prieststoff, captain of the team and left tackle, played the "whole" game and whenever opportunity permitted made wonderful tackles.

NATIONAL FRAT. ENTERS IDAHO

Kappa Sigma Installs Seventy-Fourth Active Chapter, Gamma Theta, at the State University.

Last Saturday was a day of rejoicing in the circle of the local society, Sigma Delta Alpha. The event was the extinction of the local and the birth of a new chapter of the strong national fraternity, Kappa Sigma, which replaced the local. The installation of Gamma Theta Chapter of Kappa Sigma was the crowning success of the constant effort of the body of petitioners who two years ago formed themselves into a local society for the mutual benefit of its members and the determination to become members of a national fraternity.

Fred J. Perry, of San Francisco, District Grand Master, assisted by Fred J. Carver and Philip Tindall, of Seattle, and W. K. Roosevelt, B. L. Trost and V. O. Hurlbut, of the Stanford chapter, performed the installation. During the afternoon and evening twenty-two were initiated into the mysteries of the fraternity. After the close of the installation the new chapter and the installing officers enjoyed the festivities of a banquet in the Moscow Hotel.

Kappa Sigma is one of the strongest national fraternities in the United States. Throughout the leading Universities and colleges there are seventy-four active chapters. Of these there are five on the Pacific coast, one at each of the Universities of Stanford, California, Oregon, Washington and Idaho.

The First Assembly.

The first assembly of the year was held on Monday the 25th. The auditorium was almost filled by the many new and old students and the rather unusual spectacle of a row of chairs on the platform entirely filled with college professors was presented to the gaze of the students. After old familiar "Holy, Holy, Holy," was sung, the Rev. Wm. H. Fry of the First M. E. church of Moscow made the opening prayer.

According to custom the first address was made by the President of the University. Dr. MacLean announced that he

THE NEW FACULTY MEMBERS

Summer Sees Many Changes in the Faculty and Many New Professors Greet Students.

An English Department Unexcelled in the Northwest—Other Departments Also Strengthened.

During the summer nine vacancies in the faculty have been filled. The Board of Regents and President McLean have been hard at work in their endeavors to secure the best instructors available to come to Idaho. The corps is now more complete than ever before. All of the new members have enviable college records and come from America's leading institutions. Below is published a brief description of the college records of each of the new members of the faculty.

B. E. Janes, the head of the Department of Mining Engineering laid the foundation for his education by practical mining work. For three years he was in the employ of the Mercur Mining Co. Mercur, Utah. The Mercur Company has the most complete cyaniding plants in use today hence Mr. Janes had the opportunity of working with one of the most modern of processes. He entered the University of California and graduated in 1900. He spent one of his vacations in the Klondyke region. Since graduation he has spent one year in Mexico, one year in South America, and two years in British Columbia. During this time he has been in some of the best mills in the country.

Mr. Janes is prepared to teach the practical side of mining as well as the theoretical. He is a man of many and varied experiences. Although a young man, he has demonstrated, by his past record and by the enthusiasm with which he has taken up the work, that he is the man for the place.

Dr. Henrietta E. Moore has been selected to succeed Prof. D. Parham in the department of English. Dr. Moore began her college course in the University of Oregon. She entered the University of California and graduated with the degree of M. A., in 1896. After graduation, Dr. Moore taught four years in the State normal at Los Angeles.

In 1904, Dr. Moore received her Ph. D. from Columbia University. Since coming to Idaho Dr. Moore has added several new courses to her department.

Ubas. E. Lewis, Professor of Biological Sciences (ad interim) received his B. A. and M. A. degrees at the University of Indiana. In 1903 and 1904 Mr. Lewis was a fellow and assistant in the sciences at Cornell, and received his Ph. D. from Cornell in 1905. During the past summer Mr. Lewis has been a member of the Botanical Staff at the Indiana State University.

Mr. B. S. Allen, newly elected instructor in preparatory classes, is another California graduate, having received his A. B. in 1908 and his M. A. in 1905. During his collegiate course, Mr. Allen was assistant to Prof. Gayley, well known to every preparatory and high school student.

Miss Elizabeth, successor to Miss Dora Porter in the Department of Domestic Science, received her early training at high school and the Hackley Manual Training School of Muskegon, Mich. She then entered the Pratt Institute at Brooklyn, and graduated in 1903. For the past two years she has been the instructor in domestic economy at the Colorado Agricultural College. Miss Ryan occupies a similar position at Idaho, and is also household manager.

Miss Agatha J. Sonna, Instructor in English Language, is coming to the University of Idaho for the second time. Miss Sonna held a similar position in the preparatory department in 1901 and 1902. Miss Sonna took her M.A. at Columbia, receiving her B. A. at Wellesley, taking the former degree in 1903.

O. R. Fountain, Associate Professor of Physics, graduated from the University of Oregon with the degree of B. A. in 1901. He entered Columbia in 1902 and is now a candidate for Ph. D. at Columbia. In 1903, 1904, and 1905, Mr. Fountain was an assistant in Physics at Columbia University. Mr. Fountain takes the chair in Physics, which has been vacant for two years.

First Lt. Geo. Steunenburg, 18th Cavalry, has been detailed as Professor of Military Science and tactics. Lieut. Steunenburg was a member of the First Idaho, which made such an excellent record during the Philippine War. After the volunteers were mustered out, Lieut. Steunenburg enlisted as a private in the regular army, and by efficient service has risen to the position he now holds.

Francis Jenkins, the new Bursar, is well known throughout the state. Mr. Jenkins was for two terms the county treasurer of Shoshone county. He represented Latah county in the seventh session of the state legislature and was a candidate for governor in 1904. Mr. Jenkins is a man with extraordinary clerical ability, and has made personal sacrifices in accepting the position.

Resolutions.

Whereas; it has pleased Divine Providence to bring to a close the life of our dear friend and classmate, Herbert K. Shaw, and Whereas; we, his classmates feel that in his death we have sustained the loss of a promising and useful life, be it

Resolved; That we extend our sincere and heartfelt sympathy to his parents and relatives that a copy of the same be entered on the minutes of the class, and published in the University Argonaut.

Ella Hawley,
O. P. Darwin,
A. R. Thomas.

FOOTBALL PROSPECTS FOR '05

Coach Griffith and the Old Stars Back and Work Has Been Going for Some Time.

The Material Gives Abundant Promise of a Bright Future for Idaho on the Gridiron This Year.

Football prospects for the University are exceedingly encouraging. A squad of thirty-five men are turning out for practice which at present is light. The first two weeks has been spent falling on the ball, punting and learning signals with occasionally a scrimmage. Most of the first team is back and there is plenty of good new material with which to fill the vacancies.

Some of our hopes have been blasted by the refusal of Roosevelt, the giant guard, to enter the game. During the summer the students have planned on seeing "Teddy" in the game, but parental objection prevents his playing. Fogle, of last year's team, is out of the game on account of injuries he received in the mines last summer. Sheridan, his team mate, is out at present on account of an accident to his arm. He may be able to enter the game later in the season. Both men are good players and their positions would be hard to fill.

It is conceded that Snow, last years center, will again do the passing. Snow is a good heady center, a sure passer and a tower of strength on defenses. Verne Hurlbut and H. Smith are trying for Fogle's position. Hurlbut is a 220 pounder. Smith played as substitute last year. Rogers and Lawson are after the tackle positions. Oakes, Armstrong, Thomas, and Magee are trying for the ends. Jewel, a freshman, is also showing up well. Idaho has two positions to fill which will be a hard task. She has lost Russell and Miller, the two dashing half backs of last year. They were both great offensive men. For one of these positions, O. Smith will make a bid. Swall, the new recruit from the Lewiston High School, is out for a half back position. Small played a star game for the L. H. S. last year and is a likely candidate here. He weighs 165 pounds, is fast, and is a kicker of exceptional ability. Myers, the sprinter, is also trying for a half back, and Captain Middleton is holding down the quarter back position. These are the men who are practicing with the first team at present.

Coach Griffith is determined to put out a strong second team this year and spends much of his time with them. At the present time we have the strongest second team in the history of the college. Although light, it is composed of young players who are going to do or die. Howard

RATES—One Dollar per Year.

Entered in the postoffice, Moscow, Idaho, as second class mail matter.

The eighth volume of the University Argonaut greets the students, old and new. As in the past, it will serve the interests of the University and the student body. In turn, it expects the support of the entire institution. One of the most valuable ways in which it can be supported is by contributed articles from the students. The Argonaut is the mouth piece of the students. If any one has anything to say let that one say it through the columns of the University paper. Many positions on the staff are open to competent applicants. Everybody is urged to try for a place on the editorial staff.

We regret the necessity of announcing in the first issue the death of one of our most promising freshmen. To the family and relatives of Mr. Shaw the Argonaut, in behalf of the student body of the University of Idaho, extends a heartfelt sympathy in the present bereavement.

Idaho at Portland.

The feats of the Idaho representatives at the Lewis and Clark championship track meet, held at Portland, June 16th and 17th, exceeded all expectations. Edmundson, the boy wonder, broke two college records and one northwest record, making ten points. Matthews took seven points. He did the pace making and generated the races, and such beautiful exhibitions of skill have never before been exhibited in the northwest. Murphy added three points and swelled the total to twenty.

Idaho took second place in the meet with a team of three men. O. A. C. scored sixty points, but she had ten men at the fair. When it is considered that Idaho's athletes traveled 400 miles through a hot, dusty country, the showing is one of which Idaho may well be proud.

In the first day's sports Edmundson and Matthews had an easy time with Gates of Pacific in the mile. Edmundson won in 4:35 2-5, with Matthews a close second. This time is within four seconds of the coast record, and breaks the college record of 4:42, set by Charlie King in 1897.

The following is the write up of the second days sports as it appeared in the Portland Oregonian of June 18:

"Edmundson, of the University of Idaho, made a new Northwest record in the half mile at the Exposition games yesterday afternoon, lowering that made by Barney Burnett of the Multnomah Club in 1897 of 2:02 1/2 to 2:01.

This was a neck and neck race between Edmundson and Greenhaw of the O. A. C., and made a beautiful finish."

"But the race of the day from

the point of sport was the two mile race, the first ever run in the Northwest. Gates of Pacific and Matthews of Idaho were the only entries and Gates, leading all the ten laps, was closely followed by Matthews throughout, and at the finish pushed almost off his feet. After the long race the spurt at the finish was a fearful test of endurance. Both men in the first 100 yards were running a dead heat, with Gates constantly forging half a body ahead and on one of those extra little sprints he won out at the tape. The time 10:28 2-5 establishes a Northwest record in this event. "The pole vault went to Swan of the O. A. C. with Murphy formerly of Multnomah now of Idaho second, both men making 10 feet six inches."

DIED.

Herbert K. Shaw, '09, died on Wednesday night at the Stuart home on West First St., of acute Bright's disease complicated with typhoid fever. He was 20 years old and a graduate of Boise High School in the same class with Geo. Wyman, M. F. Morrow and J. Ross Good, and other U. students. The body was taken back to Boise on the 2:35 train on Thursday by D. S. Whitehead. The cadet battalion escorted the body to the O. R. & N. station.

The Joint Reception.

A large majority of the students turned out on last Friday night for the annual joint reception to the students, given by the Young Men's and Young Women's Christian Associations, at the Armory and Gymnasium. This is the first social occasion each year in which all the students of the University, boys and girls alike, are given an opportunity to meet each other. The occasion was taken advantage of in the fullest manner on Friday night. A very simple expedient was resorted to by which to "get things moving." Everybody was given cards and a pencil and instructed to get the names of all those whom he or she met in the course of the evening. A prize was offered to the one turning in the longest list of names. The plan worked very successfully. When the cards were turned in and the lists counted it was announced that Wm. Schultz, who had succeeded in getting 160 people to write their names for him, was the winner of the prize.

A short program of speaking and music followed. Miss Knepper began the program with a piano solo. The Rev. Wilson Aull spoke, in a very humorous way at first, and closed with a serious and earnest presentation of Christian ideals for the student. Miss McCallie recited a selection from Thos. Dixon's "The Leopard's Spots," which told with much humor of the misfortunes of an original darkey. Miss McCallie's selection was followed by a vocal solo by Mr. Oakes, and some brief remarks from Prof. Morley closed the program.

Sherbet in limitless quantities was served as the final feature of the evening's entertainment.

Miss Margaret McConnell returned to school last week.

Miss Amanda Moerder is a new resident of Ridenbaugh Hall.

Miss Margaret Bush, of Boise, has entered the Freshman class.

Miss Bess Gibson has moved into the dormitory for the school year.

Chas. A. Montandon, president of the A. S. U. I., registered last Thursday.

Mrs. Arthur Pearey, nee Emma Strong was a visitor at the dormitory last week.

Joe Russell, the left half of the 1904 football team, was at the Varsity last week.

Miss Zoia Clark, a former student, has returned to resume her work with the '06's.

R. W. Overman, an alumnus of Idaho, was in town the latter part of the first school week.

Miss Jessie Rowton a former student is expected this week at Ridenbaugh Hall and will register '08.

Chas. Smith, last year's brilliant half-back, has entered school and has donned the mole skin.

E. S. Herman, ex-'07, was at the college last week visiting chums and also seeing the football game.

President MacLean went to Seattle last week with his sister, who is returning to her home in Ontario.

The Y. W. O. A. has changed its regular hours of weekly meeting from Tuesday at 4:40 to Sunday at 4.

Alpha Delta Pi entertained informally at the home of Miss Constance Henderson last Friday evening.

Thirty-three girls are rooming at Ridenbaugh Hall, which number is the largest the hall has ever boasted.

Word has been received that George Davidson is bedfast with typhoid fever at his home in Kendrick.

Miss Wagner, of Simpson College, Iowa, has registered as a Senior and taken rooms at the dormitory.

The Alpha Delta Pi's were at home to their friends Saturday, Sept. 30, at their rooms in the Brown Block.

Ridenbaugh Hall initiated the new school year with the Y. W. O. A. reception to the young ladies of the college.

Stewart P. Campbell and John McFall returned from their summer vacation last week and have joined their respective classes.

Phil Darlington and Merrill Yothers have returned to school after a year's absence and have entered the Junior class.

The football management last week secured a complete new outfit, consisting of union suits, shoes and helmets for the team.

Norman B. Adkison arrived Thursday last and has re-entered

the Junior class. Mr. Adkison is the editor-in-chief of the 1907 annual.

B. E. Bush, '08, returned last week from Wallace where he has been in the employ of the Hecla mine. Mr. Bush will remain in Moscow this winter.

Prof. I. J. Cogswell has sent word that he will leave for America about the 30th of September, and will arrive in Moscow about October 15.

Fred Miller of Lewiston, formerly a student at the University, was a visitor at the college last week. Mr. Miller took in the L. H. S. Idaho football game.

Clarence Edgett, one time center on the football team, is in the city. Clarence still has the love for the college game and was an Idaho rooter Saturday.

The band resumed work last week under the leadership of Geo. Horton. It is uncertain yet whether J. Ross Good, last year's band leader, will return to school.

Miss Rosa Forney, Instructor in Languages, returned from an extended tour of France and Germany last week. Miss Forney spent three weeks in Paris and the rest of the time studying in Germany. On her return she spent a week in England.

Bible Study Rally.

The campaign for Bible Study, annually carried on by the Young Men's Christian Association, was launched on the first Sunday of the school year. The meeting was held at 3 o'clock in the Y. M. C. A. Rest Room, on the third floor of the Administration building. The men present were addressed by Prof. Beach, of the Washington State College, at Pullman. He made his remarks on the subject of the Bible in literature, and upon the method to be pursued in the study of the Bible. He pointed out, among other things, the effectiveness of Biblical knowledge in oratory, and the thoroughness with which Scriptural allusions and thought permeate all literature. In regard to Bible study, Prof. Beach emphasized the utter fallacy of adherence to chapter and verse divisions, and argued for the study of Biblical topics and divisions of the Bible independent of all such arbitrary features. The ideas that he advanced along this line were out of the ordinary and decidedly valuable.

After Prof. Beach's address, several of the old students who had taken the Y. M. C. A. course spoke of the good they had derived therefrom, and urged all new students to take up the study. Cards were passed through the audience and nearly every one present registered for Bible study in the Y. M. C. A. classes. These classes will be organized and text books provided as soon as possible and the work will soon be well under way.

FOOTBALL PROSPECTS FOR '05
Continued from page 100

stein is doing nice work at center and worries the veteran Snow, not a little. Stokesberry, Perkins, and Nesbit play the guards, and are rapidly coming to the front. McPherson and Danton, Schitzke and Howard, are a combination of tackles that make holes in the first team line as if it were of reeds. McPherson is an exceptionally aggressive player. Danton is big, strong fellow and has had several years experience on high school teams. The second team has several good ends. Armstrong and Jewell are enigmas to the first team tackle. Armstrong is fierce when it comes to defense and Jewell is a spectacular tackler. These two men may be hailed as owners and it is safe to say that they will some day be the variety ends. Ed Magee is also doing well in this position.

For the back field there is plenty of material. Billy Robertson is playing quarter and making good. Balderson and Savidge, new men from the Boise high school, are playing the back field positions like veterans. Savidge is a fearless player and can carry the ball or play defense equally well. Balderson is a fierce line plunger and always makes a hole. James Frazier completes the trio. Frazier is fleet of foot and as slippery as an eel.

Time and space will not permit a writeup of each man. It will suffice to say that no first team man has a cinch. There is an eager and dangerous opponent for every position.

It is too early to make predictions for the season, but this we do know, Idaho has good prospects and will endeavor to put forth a good team. And why should she not? She has good material, a first-class coach, and her captain is second to none on the coast as a leader or as a player.

Assistant Manager Simpson has the schedule almost completed. The schedule as proposed is a heavy one. Most of the games will be played on the home grounds. The following is the probable arrangements of the games: Oct. 7, Montana Agricultural College, at Moscow; Oct. 11, Blair Business College, at Moscow; Oct. 14, Willamette University at Salem; Oct. 17, Oregon Agricultural College, at

would defer the usual exhortation, "Be good and be happy," until occasion called for it. He devoted his time to a summary of changes in the faculty, improvements to the buildings, and to other events of the summer bearing upon the University's welfare. He said that the decision of the supreme court of the state in the matter of the bond issue to provide for the erection of a Domestic Science building, would postpone for at least two years the erection of such a building. It was his opinion, however, that the decision may, in the end, be promotive of the University's best interests.

Another part of Dr. MacLean's address which was received with great interest by old and new students, was that relating to hazing and to the annual Sophomore Freshman combat. The President announced that the faculty would not tolerate in any degree, anything in the way of hazing, and he said further that any mistreatment similar to the baths inflicted upon some Freshmen last year fell under this category. The class fight on St. Patrick's day, in the opinion of the President, is quite permissible, if it be held within proper bounds, and carried on under definite regulations.

Other sections of the address are covered by other articles and need not be mentioned here. The program was concluded by a piano solo by Miss Knepper.

The Stag Social.
On Saturday, Sept. 23, the Y. M. C. A. gave its annual social for the men of the University at the Gymnasium. The attendance was large and represented all classes and interests of the student body. A large number of new students were in evidence, taking advantage of this, the first opportunity to 'break the ice' and form acquaintance with the students in general. The usual highly informal games were going full tilt for most of the even-

ing. These were finally stopped for the speech making. The Rev. Aull, Registrar Jenkins, Prof. Morley, President MacLean and several students spoke. The students were Middleton, who urged a vigorous interest in and support for the football team; Galloray and Holman, who spoke as representatives of the debating interests, and Myers, who championed the cause of track athletics and made a forceful plea for a large number of candidates for the track team.

After the speech making and some announcements by Goble relative to Y. M. C. A. matters, the crowd was lined up and served with refreshments. A huge raid on the grab during the speaking had diminished the supply but all were bountifully supplied. All in all the stag jubilee was a great success. It served very well its main purpose of making the new students feel at home and give them some introduction to the Y. M. C. A., and to the University social life in general.
