MOSCOW, IDAHO, FEBRUARY 19, 1907

NUMBER 19

THE LEGISLATORS FINALLY ARRIVE

Reaching Moscow After a Journey of 1700 Miles, the Legislative Committee Is Given a Royal Reception

A SPECIAL ASSEMBLY IS HELD FRIDAY

Senators Rich and McCutcheon and Representatives Abbot and White Speak in Glowing Terms of the University and the Work That It Is Accomplishing

On Friday at 10:20 a special assembly was held for the purpose of welcoming the committee from the legislature. Nearly every student in the University as well as many townspeople crowded the gymnasium.

Senator Rich of Bear Lake county was the first visitor to speak. He said that it gave him great pleasure to speak to the students of the University. "You have the promise of a great University," he continued. "The report of the loss by fire last March of the old administration building brought a great calamity upon the entire state.

"Some of the richer classes send their children to the large colleges. The students sent to college under these conditions do not always take advantage of the great and precious opportunities that lie before them. It is the poorer classes, which often attending the smaller colleges, that take hold of these golden opportunities. I believe that the students of the University of Idaho are seizing the great advantages which this school offers to them."

Senator Rich congratulated the Agricultural College upon the work that it is doing. He spoke in particular of the Farmers' Institutes. When these are held down in Southern Idaho the farmers show intense interest in them. The farmers get much needed information from these institutes.

In conclusion he said: "Idaho expects much from the students who graduate from the University. I trust that the University will grow and prosper, and that its students may become useful citizens of this great state."

Senator McCutcheon Speaks

Senator McCutcheon of Fremont county, chairman of the committee on education in the senate, was the second speaker. He said that the committee had travelled over 1640 miles in order to reach the University, or farther than the wanderings Ulysses.

He said: "Any school can only give an opportunity to study. It is the work that the boys and girls do that makes the school. In speaking of advice he said that that was the most beautiful thing that one can give or receive. "The circumstance or ability of self-control is the difference between the savage and the civilized being. Control the appetites and the passions and then the helpful results of human existence may be realized. All teaching must come to good advice. I wish you God speed in your noble work."

Representative Abbott

Representative Abbott, of Lincoln county, spoke of the benefits which the students are receiving from the state through the University. "You are enjoying this magnificent school at the expense of the state," he said. "The people of Idaho are looking for the time when you may come forth with your faculties well trained, so that you may be of benefit to the state. Society is gaged by the educational standard which it maintains. Our educational institutions are developing at a great speed, so we expect the society of this state to be bettered by our college graduates."

Representative Killpack Speaks

Representative Killpack of Fremont county opened his brief remarks with a glowing tribute to the students of the University. "Our walks in life, our success, depend," he said, "upon our education and our training. However, it is not 'all of life to live, nor all of death to die,' as the poet has said."

Chairman White Speaks

Mr. Willard White, representative from Ada county and chairman of the educational committee in the House, said that 'righteousness exalts a nation.' A nation depends upon its men and women and not so much upon its institutions as a class.

Support for University

Mr. White spoke in very emphatic terms of his desire to rebuild the old administration building. He said: "I had rather see the iron beams and girders of the new capital, which is under construction, receive the baptism of the winter rains and the summer winds and heat than allow the needs of the University to be neglected."

Professor Cogswell, Miss Cannon and the University Quartette rendered several selections during the special assembly which were greatly appreciated. The meeting concluded shortly before twelve and the visitors from the legislature left on the noon train.

REGULAR ASSEMBLY

Rev. Baer Delivers a Very Interesting Address

The regular assembly was held last week. Prof. Tor Van Pyk favored the audience with a very much appreciated solo. Rev. Baer of the Episcopal church delivered the assembly address. He took as his subject the "Getting of an Education." He said that in every community there are pupils who stand

out pre-eminently above the average class in that community. These are the ones who seek a college education. For this reason, then, the students of the universities form a select class. When one starts to get an education some people say that he is lazy and, therefore, trying to find an easier way of making a living. This is not however, the motive which causes one to go to college. The idea of an education is that it develops the latent powers of the individual who is fortunate enough to receive it. It develops the reasoning faculties, the sense of beauty, and the sense of justice until one's personality becomes one whole being.

He said that no man had reached the flower of manhood until he had acquired a fair knowledge, at least, of religion and the principles which lie beneath it.

A university is a miniature world in which the student is being pre-paring for the larger world of later years. Great questions are luminating the horizon of today. We are living in a great age, a passing age. The world demands practical things. This is the commercial spirit which permeates the affairs of the world today. A student will have to face this commercial era when he leaves college. He will have to meet the condition in which the few own most of the wealth. The commercial world demands keen minds. The majority of the people demand leadership. From now on the great men of our country will be, undoubtedly, the men who have endeavored to serve the masses.

In conclusion the speaker said that civilization should be the product of evolution rather than of revolution.

BANQUET AT THE DORMITORY

Business Men's Association Tender Banquet to the Legislative Committee

On Thursday evening the Business Men's Association of Moscow tendered a banquet to the legislative committee. Ninety persons were present, including the legislative committee, the faculty and many business men from Moscow.

The full program was as follows: Address of Welcome—Wm. M. Morgan, Mayor.

Response—Senator W. C. White-well.

Social Atmosphere of a College Town—Rev. W. H. Fry.

Response—Representative Willard White.

The Legislature and the University—M. E. Lewis.

Response—Representative A. C. Abbott.

"Faith In Idaho"—President McLean.

Response—Representative J. D. Killpack.

"The Effects of the Fire on Instruction in the University and on the College Spirit"—Prof. W. S. Morley.

Response—A. B. Huddelson.

The banquet was held under the auspices of the Domestic Science department and was served, by the young ladies from the University.

FAST TEAM FOR SILVER AND GOLD

Idaho Will Have a Base Ball Team that Will Keep the Local Fans Guessing and the Colleges Going

Over Forty Men Will Be on the Diamond in the Near Future, Training for a Winning Team. A Number of Good Games Already Scheduled.

Never before in the history of the institution have the prospects been so bright for a good base ball team as in the present year. Over two score athletes will be at work on the diamond as soon as the weather permits. Four batting cages will soon be erected and manager Jellick states that the "White Socks" from Idaho will certainly be a prize-winning collection.

The basket ball season is over. We must have some athletic game in which to show Idaho spirit and energy. Let those who will and who can go in for track work, and let them go in hard for they are needed, but those who can play base ball should get out and enjoy the great game of the spring season. At least try for the team and try with all the nerve, all the vigor that you possess, for the half-hearted man forever did nothing in the past life of deeds and defeats. We need your assistance. At least help the good work along by supporting the team. If we cannot all play base ball we can certainly all "root" and help the team to play. Let's give what aid we can in any way. It's all in a good cause—Idaho and the spirit that never dies. Let's boost.

All of the contestants for places cannot be mentioned in this limited space, but the leading players and their positions will be mentioned below. All of the old places that were in the least weak will be filled by men of training, who can hit as well as stop any ball. The place of catcher is as yet the weakest point on the team, but a good man may be developed from the large amount of material on hand. For this place the principal aspirants are Paul and Leigh Savidge, both players from Boise; and Baderston also from Boise. Men who will twirl the little sphere from the box are Hansen and Reeves, two young growing athletes with long speedy wings; Dippel, a good man with a wonderful drop, from Blackfoot; Hayden, a promising young twirler from Grangeville, and Lee Samuels, one of the best pitchers the Spokane Athletic Club ever had.

The men who want to hold down the first bag are Small, Johnson, Hunter and Nichols, all men of considerable experience who have fought for Idaho before, and Hupp from Sioux Falls College.

In the contest for second base are White, from Boise; Wheeler, from Weiser, and Robertson of old-time fame.

Men out for third are Curtis, Crom of Lewiston Normal, and Jellick of Idaho Fall.

For short stop, Young and Case of Boise will contest, with honors about equal.

In the field, Magee, Fluharty of Lewiston Normal, Wyman of Boise, Stevens of Lewiston Normal, and Burley will cover the ground easily enough, and gather in all the balls that pass the in-field.

The best men with the stick are Hansen, Samuels of Spokane, Hunter, Small, Case, Magee, Fluharty, who won the trophy for best batter of the last season's successful Lewiston Normal's, and Wyman.

Griffith, assisted by Prof. Axtell of Chicago, and Samuels of Spokane, will coach the team in both pitching and batting. Special attention will be given to training in batting. The following schedule has been practically assured:

- March 30—Coeur d'Alene H.S. at Moscow.
- April 6—Lewiston Normal at Moscow.
- April 13—Cheney Normal at Moscow.

- April 24—Oregon at Moscow.
- May 3—W. S. C. at Pullman.
- May 9—Whitman at Moscow.
- May 16—Washington at Moscow.
- May 18—W. S. C. at Moscow.
- May 25—W. S. C. at Pullman.

The following trip to South Idaho is almost a surety:

- June 10—Whitman at Walla Walla.
- June 11—"Yellow Kids" at Athena.
- June 12—Pendleton at Pendleton.
- June 13—Baker City at Baker City.
- June 14—Weiser at Weiser.
- June 15—Caldwell at Caldwell.
- June 17—Boise High School.
- June 18—Boise League.

With the great number of men who are going to try for the team, and with good coaches, Idaho should have a team that will put up a peach of a game in the spring. There will be six or seven teams at work all the while, which, with the local team, should afford plenty of practice for Manager Jellick's boys in white sox.

Boost the good work along.

The Strike is Off

Last Wednesday, the workmen who are employed at finishing up the interior of the Agricultural Building, and who had been on a strike for some time, returned to work. The difficulty had been on account of the contractor's failure to pay his employees on time, if the reports on the matter are true. The cessation of work postponed for a couple of weeks the installation of the preparatory department in its quarters in Morrill Hall. The finishing up will now be carried on vigorously and the preps. hope shortly to move to the new location.

Entered in the postoffice, Moscow, Idaho, as second-class mail matter.

Correspondence from members of the Alumni solicited.

The legislative committee has come and gone. The members were given a royal reception. Although their sojourn was not of long duration we feel that they were very favorably impressed with the University. Many of them expressed themselves as being deeply impressed with the excellent work that is being done by the University. Several of the members said that they realized for the first time the extent of the great calamity that was brought upon the University and the state by the destruction of the old administration building last March. The University is certainly handicapped without a central building. We need such a building and we must have it if the high standard of work which the university is now accomplishing is to be continued in the immediate future.

Many people fail to realize the importance of their University until some great calamity befalls it. Let us take an inventory of our University and compare it with the average state university. The first pleasing fact is that we have a school which has a standard well above that of the average run of such universities and equal to that of many of the Eastern universities. The next great fact to consider is that our University is not segregated. This fact overshadows every other one in the consideration of a really great University. The student life at such a University is much more conducive to all 'round culture as well as at the same time preserving the technical training. In other words a student who takes a technical course at a university where all the colleges are centralized gets not only the benefit of the life of the special college in which he matriculates but also the benefit of the association with all the students from all the other colleges.

It is much cheaper to run a University where all the colleges are united. It goes without saying that this has been the result where segregated and centralized universities have been compared. Then where the university is separated, one town having the agricultural college, another the school of mines, and still a third the university proper, we find that there is a great deal of animosity and much unnecessary wire pulling. All this takes place within a state that is supposed to have a unified state pride in its institutions. We ask the legislature to remember these facts when making an appropriation for the University.

Remember that if the University was divided into two colleges, as many of the state universities are, that each of these would now be asking for at least as large a sum of money as our entire University is asking for. For this reason the University should, be believe, receive a very liberal appropriation at this critical period in its career.

The committee will soon make its report to the legislature at Boise and then the legislature will decide what it will do for the University. It will probably be a few days before the final vote is taken upon this matter. In the meantime we believe that each student should write to the representative of his home district and present the needs of the University to him. Say that although the University is asking for a larger appropriation than usual, that this is absolutely necessary in order that the work of the University may not be stifled and probably blighted for a number of years.

NOT A SQUARE DEAL

The Rev. James Dixon, in Address to the Christian Association Meeting, Says the Indian Has Not Been Treated Fairly

The Y. M. C. A. and Y. W. C. A. met in joint session Sunday to listen to an address by the Rev. James Dixon, a Nez Perce Indian, who has graduated from Carlisle and from the Moody Bible Institute at Chicago. A large number of students were present and listened with great interest to what the speaker had to say.

Mr. Dixon reviewed the history of the dealings of the white man with the Indian since their first contact. He maintained that the first attitude of the red man to the white settlers on the Atlantic Coast was one of kindness. The Indians moved from their best land to give it to the whites. It was when jail-birds and other adventurers from England treated the Indians unfairly that they began that policy of retaliation which they followed always afterward. When the foreigners, as the speaker styled them, gained the upper hand they herded the Indians into reservations, often transferring northern tribes to the south, eastern tribes to the west, and making other arbitrary changes in the Indian's condition which explain his rapid decline of late years.

On their reservations at present the Indians are winning a bare living, or even less; toiling in ignorance of the methods which are necessary for gaining a livelihood from the soil. Moreover, they are yielding rapidly to the deteriorating influences which unscrupulous white neighbors bring to bear upon them.

The speaker closed his address with an expression of the hope that the white students would grant to those who are grappling with the Indian problem at least the favor of their active interest. He himself is to go among his people in the Nez Perce and Umatilla reservations. The best wishes of the many Idaho students who heard him yesterday accompany him in his work.

W. S. C. Freshmen Are Victorious

Last Tuesday night the W. S. C. Freshmen basket ball team defeated the Idaho Freshmen in the W. S. C. gymnasium, to the tune of 30 to 10. Only for the first five minutes did it look like the Idaho boys could

win. Henry Smith threw two baskets in quick succession. Then W. S. C. secured three. After that Idaho had no hopes of winning.

Dollquist at forward was the star of the evening. He threw baskets from any position. Crane at center and Faucher at guard, both played star games.

Case and Small for Idaho played the best game.

The Idaho boys are loud in their praise of the treatment which they received from their opponents.

The W. S. C. management took them to Ferry Hall, where they were shown every courtesy.

After the game a reception was given at the girl's dormitory, for the Cheney Normal and W. S. C. girls basket ball teams and the U. of I. and W. S. C. Freshmen teams.

After an enjoyable dance the boys were taken to the home of a Freshman for a feed. In order that it might be all the more informal all were instructed to take off their coats.

Before leaving the table each one was called on for a toast. All seemed anxious to help wipe out the old feeling of enmity which has existed between the two institutions.

When all was over it was realized that the clock registered the wee hours of the morning. Each class gave its yell and started home, feeling that a new feeling of sympathy is existing between the two institutions.

The only thing to mar the occasion was the accident which befell Clifford Edmundson, who ran into a barb wire fence just after the game.

I thought I knew it all,
But now I must confess
The more I know I know I know
I know I know the less.

Mr. Banks left last Saturday afternoon for Boise.

The Military Ball has been postponed by the commandant.

Mr. Schraeder has registered in the Preparatory Department.

Edward Atchison is now at his home in Kendrick down with Pneumonia.

Charlie—What fish do you consider the best?

Jim—Herring.

Mr. J. R. Middleton, '06, who is now with the A. P. Wright Co. of Spokane, was a Moscow visitor last Friday.

Charles Deane, '10, has recovered from a slight illness which has prevented his attendance at classes for some days past.

Umbrellas recovered. New handles and all kinds of repairing. Rubber stamps made to order at the Moscow Bicycle Works.

The student who forgets to attend the concert of the Williams Jubilee Singers on Wednesday evening, at the M. E. church, will make a big mistake. Admission 50 cents.

It is pleasing to note that a larger number of young ladies are taking advantage of gymnasium exercises since the services of Mrs. Dr. Aspray as the girls' physical director have been secured. Mrs. Aspray is a staunch supporter of physical culture for girls and by her enthusiasm has created quite an interest among the young ladies.

Special Holiday offerings.—Indian and Mexican handicrafts, Chamois pillow tops and blankets, Mexican drawn work and other novelties. Leave your orders with Mrs. FOGLE, 916 Deakin Ave.

Mr. H. S. Peterson, '07, left for Genesee last Friday to attend a local reunion of the alumni of Luther College of Iowa. The reunion was held at the home of Rev. O. C. Aellekson. Prof. Egge, W. S. C., Pullman, and Rev. Norgard, of Spokane, were among those present. A very pleasant evening was spent in singing college songs and telling stories.

LAST CALL!

Pictures for the Annual Must Be Taken This Week. Contract Has Been Let for the Printing

Seniors, Juniors and Sophomores are hereby given notice that their pictures for the Junior Annual must be taken by Saturday of this week. No class picture taken after that date will be printed. The staff is engaged now in gathering copy as rapidly as possible. The contract for printing the Gem of the Mountains '08 will go to the Journal of Moscow. This arrangement will make possible a close supervision of the book by the editors, and will be likely to result in both a better annual and an annual on the market sooner. The cuts will be made by the American Engraving Co. of Spokane.

JUBILEE SINGERS COMING

Concert of Unusual Value at M. E. Church. Wednesday Evening Under Auspices University Y.M.C.A.

In the Williams Jubilee Singers, which company will appear at the Methodist Church, Wednesday even-

ing of this week. The Y. M. C. A. has secured an entertainment of well known worth and one which is expected to be well attended by the students of the University. The company has received the endorsement of Chatangas all over the country, of the chairman of the faculty lecture course committees at Pullman, and of Capt. Christman, when he was chairman of the lecture course committee at Idaho. Colored singers are always given a good hearing, when experience has demonstrated the value of the individual entertainment, and a large turnout of 'Varsity students is expected Wednesday night.

Webs Elect

At their first meeting after examinations held Saturday morning, the Websterians enjoyed a program of some originality, consisting of a debate on the question: "Resolved that the Sophomore and Freshman classes should this year hold the regular St. Patrick day rush." Ray Mason and Bennett Williams supported the affirmative but were unable to get the decision against J. H. Frazier and T. E. Smith on the negative. The negative sprung this winning argument by showing the judges that St. Patrick's day comes on Sunday this year. After the program the following officers were elected for the present semester: president, Jewett D. Matthews; vice-president, Charles Kincaid; secretary, T. E. Smith; treasurer, T. E. Lukens; chairman of the program committee, James H. Frazier.

Death of Dr. Condon

In the death of Dr. Thomas Condon, Oregon University loses one of her most able and devoted professors. Dr. Condon has been a professor at the University for 28 years, and besides his regular work he has written some very valuable geological works. He was one of the first teachers in America to see the truth of evolution, and in consequence of his belief he endured much severe criticism. He never faltered in his faith, because he believed it the truest evidence of the existence of God. Throughout his life he devoted his time and energies to the application of the principles of evolution to the science of geology. In his death not only Oregon but the whole country loses a noted scientist, a noble man and a Christian without compare.

more charity for all, a little more devotion, a little more love; with less bowing down to the past, and a silent ignoring of pretended authority; a brave looking forward to the future with more faith in our fellows, and the race will be ripe for a great burst of light and life."

—Fra Elbertus.

The registration of the U. of W. is now 1120.

"What's that you have on?" asked pa with a frown, And the daughter replied, "'Tis my coming-out gown." Then he studied her closely and added "My dear, It won't do to come any further, I fear."

At the U. of W. five crews of ten men each are trying out for places on the first team.

Michigan is about to withdraw from the "Big Nine," because she wishes to unite with the larger institutions of the East.

The U. of W. is practically assured that her shell crew will go to Wisconsin next season.

Prof. William James of philosophy in Harvard University has retired from active University work. Prof. James is perhaps the leading psychologist of this country.

The U. of W. is to have a song book of its own. The book will contain words and music and songs always in use, and in addition many entirely new ones.

IF YOU WANT CASH

For Your REAL ESTATE or BUSINESS

I CAN GET IT

No Matter What Your Property Is Worth, or in What Town, City, State or Territory it is located

If I do not have the ability and facilities to sell your property, I certainly could not afford to pay for this advertisement. This "ad" (like all my other "ads") is practically sure to place on my list a number of new properties, and I am just as sure to sell these properties and make enough money in commissions to pay for the cost of these "ads," and make a good profit besides. That is why I have so large a real estate business today.

Why not put your property among the number that will be sold as a result of these "ads?"

I will not only be able to sell it—some time—but will be able to sell it quickly. I am a specialist in quick sales. I have the most complete and up-to-date equipment. I have branch offices throughout the country and a field force of men to find buyers.

I do not handle all lines usually carried by the ordinary real estate agents. I MUST SELL real estate—and lots of it—or go out of business. I can assure you I am not going out of business. On the contrary, I expect to find, at the close of the year, that I have sold twice as many properties as I did the last year, but it will not be necessary for me to "list" more properties. I want to list YOURS and SELL it. It doesn't matter whether you have a farm, a home without any land, or a business; it doesn't matter what it is worth, or where it is located. If you will fill out the blank letter of inquiry below and mail to me today, I will tell you how and why I can quickly convert the property into cash, and will give you my complete plan

FREE OF CHARGE

and terms for handling it. The information I will give you will be of great value to you, even if you should decide not to sell. You had better write today before you forget it.

If you want to buy any kind of a farm, house or business, in any part of the country tell me your requirements. I will guarantee to fill them promptly and satisfactorily.

David P. Taff, The Land Man, 415 Kan. Ave., Topeka, Kan.

If you want to sell fill in, cut out and mail today:

Pullman First Class and Pullman Tourist Sleeping Cars
Dining Car Night and Day and Observation Car

It is the train of little luxuries: hot baths, barber's services, library private smoking compartments; clothes pre-sing service, all the little things that add to the comfort of a journey. Its beautiful observation car is a revelation. The dining car service is superior, the menu varied and satisfying. From end to end it is pleasing, comfortable and beautiful—a train which makes friends and keeps them.

Wonderland 1905 can be had for six cents postage on application to A. M. CLELAND, G. P. A., St. Paul, Minn., or A. D. CHARLTON, A. G. P. A., 255 Morrison Street, Portland, Ore.

Any information desired as to routes east, etc., will be gladly furnished on application to
R. W. MORRIS, Agent,
 Moscow, Idaho.
