UNIVERSITY OF IDAHO, MOSCOW, SEPTEMBER 29, 1908

No. 1

THE FOOT BALL PROSPECTS GOOD THE UNIVERSITY OPENS FAVORABLY

Conference Rules Do Not Injure University--Much Material Old and New--Promise of Fine Trips.

The prospects for a successful season, in the greatest of all college athletics, Football, has never been brighter, at the Univ. of Idaho than at this, the beginning, of the present season. Financially the season should be successful, and as far as the Championship of the Northwest is concerned no college in the conference has the promising outlook that the Univ. of Idaho.

The Conference rulings seriously cripple W. S. C., costing them one of the most perfect back fields ever seen in the Northwest.

Whitman college loses her captain elect and some of her best men. Oregon loses good men by graduation and the Conference rules. Washington is struggling with almost a new squad.

All of these Universities have new coaches for whom much is claimed, but they are handicapped with new material.

Idaho has eight old team men back, the coach, whom critics say is the greatest in the west, and a determination that will land the Championship.

The old team who reported for practice a week before college opened, were Stokesberry, Pauls, Thornton, Savidge, Small, and Smith. Jewel is trying for center, the place left vacant by Steins' graduation.

Of the new men there is an endless number. George Armstrong brother of last years captain is again in college trying for an end. Montgomery is out for a half. Barrett is trying for a half as is Tolman. Cook is trying for center, Appelman for an end.

The only man on the squad who has no competition is Rodney Small, last years all Northwest quarter who won his place by his heady use of the forward pass and his ability as a field general. He will undoubtedly play his old position.

For center, Jewel and Cook will furnish material to fill Steins' shoes, for guards and tackles there is with Pauls, Stokesberry, Hays, Tolman a number of new men who are putting up a good fight for line positions.

For ends there is Savidge, last years all Northwest end and this years captain, Thornton who was right end last year, Appelman who was sub end last year, George Armstrong who achieved fame

on the 1906 team, Stein of Boise High School fame, Barrett of Minnesota, and numerous others.

In the back field there is Montgomery, Chic Johnson, who will be back within a few days, Tolman who has the reputation of booting the ball over the goalposts on the kick off, and other men whose names are not at this time familiar. Some of the men trying for ends can also be counted upon for back field positions.

The first game comes with Spokane Y. M. C. A. on Oct. 10, in Moscow.

Then a practice game with Lewiston High on the 17th. On the 24th a game with the Lewiston Athletic Club, and on Oct. 31 the first intercollegiate game takes place with the Univ. of Oregon, in Moscow. Last year Oregon beat us in Portland aided by the lower altitude and 6 inches of sawdust. This year on our own dry field things will be different.

Then comes Whitman on the 7th of November. We must repeat the dose administered last year.

The most important game of all, the "W. S. C.," game comes on the following Saturday Nov. 14th. We must have that game.

Spokane "Boosters" are trying to arrange the Idaho-Washington game in Spokane for the 21st of Nov., with some prospects of being successful. It is to be hoped they are successful for an Idaho schedule is not full without the Washington game.

For the thanksgiving game Idaho has departed from her customary stamping grounds and will play the Univ. of Utah in Salt Lake. Utah promises to treat the team royally giving a big dance and reception after the game. Also automobile and trolley rides all over the city and to the surrounding resorts are promised.

This game will complete the schedule of a season that gives every promise of being the most successful ever seen in the Northwest, but to make it so, every student in the "U" must boost for the team. Get out and watch them practice. Come to the preliminary games. Learn the yells and learn how to yell them, and then yell them—not once in a while but all the time.

Twelve New Faculty Members---New Recitation Rooms---Aggies Register Heavily.

The opening days of the University of Idaho portend a most favorable year of work. The faculty has been greatly increased in both numbers and quality. President MacLean is gradually surrounding himself with a body of teachers some of whom have a national reputation in the educational world. The course of study is also being broadened, four new departments being added this year.

The department of Health is an entirely new institution in the University and in fact Idaho is taking the lead of the West in this line. Dr. Eber D. Kanaga has been secured for the head of this department with the title of Associate Professor of Physical Education.

Dr. Kanaga is a graduate of the Posse Gymnasium of Boston and later of the Medical Department of the University of Michigan. He has had several years of actual experience in gymnasium work and athletic camps. His work will consist of lectures, gymnasium exercises including Anthropomology, and corrective exercises.

The department of Modern Languages has been divided into the departments of German and Romance Languages. Dean Eldridge will have charge of the former, Dr. Shanks of the latter, as Associate Professor of Romance Languages. Dr. Shanks is a Cornell man, receiving a Ph. B. in 1899, and a Ph. D. in 1908. Between those degrees he took an A. M. in Columbia and graduate work in both Cornell and Columbia. During the summers of 1902 and 1908 Dr. Shanks studied in Paris. He has several years of experience in teaching both in secondary and college work, coming to Idaho from the position of Instructor in Romance Languages at the University of Wisconsin.

In the department of Mining a similar division has been made. Prof. Terrill comes as Professor of Metallurgy and Prof. Chedsey as Associate Professor of Mining Engineering.

Prof. Terrill is a graduate of the Colorado School of Mines in 1905. For a year after graduation he was employed as Directing Engineer of a large mining company in Cripple Creek after which he was called to the Chair of Mining Engineer in the University of Oregon. He comes to Idaho with the best of recommendations.

Professor Chedsey is also a graduate of the Colorado School of Mines and has had practical experience in mill and assay work, surface and underground surveying. For the two years preceding his position at Idaho he has been Assistant in Surveying at the Colorado School of Mines.

Dr. Carl L. Von Ende, who supplies for Dr. Peters in the Chemistry Department during the latter's leave of absence, graduated from the University of Iowa in 1893 with the degree Bachelor of Science. The following year he took an M. S. from the same

institution and in '99 received a Ph. D. from Goettingen, Ger. From '99 to 1907 he was instructor and assistant chemist at the U. of Iowa and for the last two years has been Research Associate in the Boston School of Technology. This record shows Dr. Von Ende to be a specialist in his line.

As assistants he has Mr. Carl Glycart, Harvard B. S. 1908, and W. Kanada Gwin, an undergraduate at Idaho.

The University is particularly fortunate in securing Miss Permeal French as Dean of Women. Miss French has had several years experience in the public schools of Idaho, was twice elected state superintendent of public instruction. The ladies of Ridenbaugh Hall will find her peculiarly fitted for the position of Preceptress.

The College of Agriculture is likewise increasing and improving its teaching force. Prof. E. E. Elliot, who has for the last ten years been teaching at Washington State College, comes to the University as Dean of the College of Agriculture and Professor of Agricultural Education. Prof. Elliot is a graduate of Monmouth College, Ill. from which school he received the degree Master of Arts in 1883. Later he took a Master of Science degree from the Michigan Agricultural College. Between his two degrees he was engaged in practical farm work in Ohio, where he was also prominent in press and lecture work. Prof. Elliot is thoroughly acquainted with western agricultural problems and we predict large success for that department under his lead.

As Assistant in Civil Engineering, Mr. Stuart Sims, a graduate of the University of Michigan, Department of Civil Engineering in 1903, has been secured. Mr. Sims has had much practical work having been with the United States River and Harbor Commission, the Great Northern, Illinois Central, Chicago and Western railroads. Last year he was an engineer to N. S. Hill, the leading consulting engineer of hydraulic and mechanical engineering of New York City. He has been in charge of surveys and sewer systems for many cities in northern New Jersey and has made estimates on the water supply of Brooklyn—a proposition costing three millions of dollars. From this list of experiences it will readily be seen that Mr. Sims is eminently fitted for the practical work at Idaho.

Mr. Sage during the summer received the degree Doctor of Philosophy (cum magno laude) from the University of Chicago. His Thesis was entitled Pseudo Ciceronian Consulat. That Dr. Sage should receive the latin comment "cum magno laude" the next to the highest mark, speaks much for his knowledge of his work.

Continued on page 4

Idaho's President Resigns

Perhaps it is news to some that the reigns of office have gradually been slipping from the hands of President Mac Lean. During the last year he has suffered two very severe lapses of power. The first came in the form of his giving in to his pet theory that the ideal University President was a confirmed bachelor—the second, in the form of an absolute surrender of position and title to a son on Sept. 13th, 1908.

Young Alexander will reside for the present at the home of Dr. and Mrs. Mac Lean on Elm St. In the future we predict that he will claim the entire campus for a habitat.

To say that President and Mrs. Mac Lean are proud is stating it mildly. Mrs. Mac Lean stoutly maintains that it is the best looking baby ever while the Dr. is more conservative and says that the boy reminds him of Andrew Carnegie.

SPEND YOUR MONEY WITH THE ARGONAUT ADVERTISERS

THE UNIVERSITY ARGONAUT

Published Every Week by the Associated Students of the University of Idaho

Rates: Per year, \$1.00 except subscriptions outside the United States, which are \$1.50.

Toney T. Crooks '09 - Editor in Chief
Frank P. Stewart '10 - Associate Editor
Robert C. St. Clair '08 - Business Manager
Ernest R. Griner '09 - Ass't. Bus. Mgr.

Entered at the postoffice at Moscow, Idaho, as Second Class Mail Matter.

Announcements

The Associated Students' constitution provides for eleven members on the Argonaut staff, ten from the student body and one faculty member. The Editor and associate editor, business manager and assistant are elective offices, the other positions appointive by the editor-in-chief. A system of competition has been established for the filling of these places. Anyone desirous of a place on the college paper will kindly hand in articles to the editor who will choose his staff from this list of applicants. Any student is eligible and it is hoped that there may be a large number who are interested in newspaper work.

The Business Manager announces that for the first two issues the Argonaut will be sent to all old subscribers. After that it will be discontinued unless the subscriptions are renewed.

The contract for printing the Argonaut has again been let to the Idaho Post. Wednesday will be the day of publication. It is hoped that this will meet the approval of all.

THE PACIFIC WAVE, or rather Dean Priest of the University of Washington, is misinformed as to Idaho's views on the Triangular Debate League. Our Debate Council has not requested to have the membership of the Triangular League teams reduced from three to two, and now that our Student Body Association has voted a larger annual allowance for the support of debate it is not likely that such a request will be made. The only thing that could give rise to the statement printed in the Pacific Wave was a statement made here last spring that the Triangular League debates were expensive for us and that some of our students believe it to be advisable to debate with Utah instead. But that is very far from being an official utterance.

AGAIN we welcome the students both old and new to a year of hard, earnest study. May it prove pleasant and profitable to all.

Prep. Meeting

Last Friday the Preparatory Students held their first meeting of the year. Such was the confusion attendant on the gathering that Argonaut reporters scurried to the scene of action confident of columns of exciting news, only to return crest-fallen and with blank pads. But still it was worth the trouble for it couldn't help but make ones blood quicken to see the youthful exuberance and the children running to and fro in innocent glee. When at last law and order prevailed enough to hear one speak the following business was transacted: Ray Curtis was elected to athletic board and Earnest Noble as Argonaut reporter. A committee of three members was appointed to arrange for a Prep. Entertainment. Another committee was appointed to draw up a constitution. After speeches from several members of the Preparatory Faculty the meeting adjourned or more properly bolted.

New Military Rules

General Orders.....No. 41
The following policy in the appointment of officers and non-commissioned officers in the battalion of cadets, is

hereby announced, to be carried into effect during the detail of the present Commandant.

I. Cadet Commissioned officers will, in general, be taken from the junior class and will hereafter be selected by competitive examination from among the members of the sophomore class who have at sometime served creditably as non-commissioned officers in the battalion of cadets.

II. Cadet Sergeants will be selected from the members of the sophomore class by competitive examination, all members of the class being allowed to enter as competitors.

III. Cadet Corporals will be selected from the members of the freshman class by competitive examination, all members of the class being allowed to enter as competitors.

Marriage Notes

The winged little god Hymen has been exceedingly busy this summer and has worked in faculty, alumni and student body alike.

First comes to our notice the marriage of Dr. Axtell, head of the Latin and Greek Department, to Miss Gertrude S. Bouton of Orange, Calif. on June 30. After spending a few weeks in Los Angeles and vicinity, Dr. and Mrs. Axtell went to Topeka, Kansas where they remained during the summer visiting Dr. Axtell's people. They are now at home on North Elm St.

Another faculty member to seek relief from the wounds of Cupid was Miss Carrie Thompson. She was married on Aug. 20th to Rev. W. R. Frarichs, a senior in the Rochester Theological Seminary. Miss Thompson was a member of the 1906 class of the University and for two years past has been instructor in German in the University. After graduation Rev. and Mrs. Frarichs will seek a pastorate on the Pacific coast.

Early in the summer Miss Dorothy Cannon was married to Mr. H. C. Dodge, a dentist in Sprague, Wash. Miss Cannon was a member of the 1910 class in the department of music. She was a member of the Alpha Delta Pi Sorority and during her short time in the University won the hearts of the entire student body by her wonderfully sweet singing.

On June 17, Miss Mary Fogle '04 was married to Mr. E. W. Beimfahr of Aberdeen, Wash. Miss Fogle while in college was prominent in Y. W. C. A. work and a member of the Beta Sigma Sorority. Mr. Beimfahr is engaged in the real estate business and is the head of a business college in Aberdeen, their future home.

Even members of the 1908 class have become entangled in matrimonial snares. Mr. Robert Claye and Miss Jennie Cortright of Orland, Cal., were united in marriage on June 30. Mr. and Mrs. Claye live in Orland, Cal. where Mr. Claye is engaged in business.

Among the alumni and student body announcements tell of the marriage of Miss Grace Grant to Mr. Robert A. McIlvaine on June 16. Miss Grant graduated from the University in 1903 with the degree of Bachelor of Science. She is a sister of Mrs. Sinclair of Moscow, the donor of the Sara Headington scholarship. Mr. and Mrs. McIlvaine are at home in Simnosleo, Oregon.

Debate Council Organized.

The new members of the Debate Council met Friday afternoon and organized with the election of officers for the ensuing year. The following were chosen:
President, R. O. Jones; vice presi-

dent, W. K. Gwin; sec. Rowe Holman; member of A. S. U. I. board, J. D. Matthews; faculty members, Prof. Hulme and Dr. Little.

The council next took up the proposition of resuming debate relations with the University of Montana. The last debate with Montana was held in 1906 and since then there have been no contests because of Montana's heavy schedule. This year, however, she desires the opening of relations again and, although no definite decision was reached Friday by the Debate Council, her proposition will in all probability be accepted. The debate will occur some time in December and in order to reduce expenses to a minimum each University will have two representatives.

Student Meets Accident.

George Wyman '07 met with a very serious accident in the Dickens mine of the Coeur d'Alene district. While working in the mill his clothing was caught in a revolving wheel throwing him into the running machinery. His arm was dislocated and he was badly bruised and torn all over. After a few months in the hospital he is again at work in the mine suffering slightly from stiffness in one arm.

Former Student Drowned.

John Persson, a former student at the University, was drowned while bathing in the reservoir of the Hanford Irrigation company near Kennewick, Wn., last July.

The body was brought to Moscow and the funeral services conducted by Rev. N. J. W. Nelson of the Swedish Lutheran church.

Persson had but one year longer at the University and was earning money to finish the course.

Officers Appointed.

The following appointments and assignments of cadet officers, in the battalion of cadets, have been made:

To be Cadet Major and Assistant Commandant, Cadet Jewitt Matthews.

To be Cadet Major in command of the battalion, Cadet P. S. Savidge.

To be Cadet Captain and Quartermaster, Cadet W. W. Stokesbery.

To be Cadet 1st Lieut. and Adjutant, Cadet C. S. Edmundson.

To be Cadet Captain in command of Company "A," Cadet Herbert Wadsworth.

To be Cadet Captain in command of Company "B," Cadet E. R. Griner.

To be Cadet Captain in command of Company "C," Cadet Chaffins.

To be Cadet First Lieut. and assigned to Company "A," Cadet W. C. Edmundson.

To be Second Lieut. and Chief Musician of Band, Cadet Zeigler.

Results of Co-Education.

The value of co-education was demonstrated in two very clear cut ways last summer.

The first comes in the form of the marriage of Edward M. Murphy to Miss Esther E. Larson of Troy on July 15. Dr. W. S. Morley, head of the Department of Mathematics of the University, performed the ceremony. Mr. and Mrs. Murphy were both prominent in student activities during their college courses. Mr. Murphy graduated in 1905 from the Electrical Engineering Department and was for three years captain and chief point winner of the University track team. Mrs. Murphy graduated in 1907 from the Music Department and was prominent in the social life of the college. The happy

500 student shaves at Hegge's.

Chas. H. Perkins has returned to college and registered with the '1910 class.

Andrew Ludberg '10 will remain out of college a year and finish with the 1911 class.

Miss Ella Hawley after an absence of one year will complete her course with the '10 class.

Visit Hegge the barber near the Crystal Theatre.

Miss Caldwell of the University music department has charge of the music in the Moscow Public schools.

Sol Turley, who has registered at Stanford for the coming college year, expects to return and graduate with the class of '10.

Messrs Frazier and Chas. Eichelberger both members of the 1907 class, have been employed as teachers in the Moscow high school.

The best shave in town at Hegge's, opposite the Boston.

Mr. Clyde Chaffins ex '09 has returned to college and will graduate from the Mining Engineering Department with the class of 1910.

Miss Ott '10 has been elected teacher of Domestic Science in the Moscow schools. She will do this in addition to her regular college work.

Bruce D. Mudgett '08 goes to Columbia University, New York City, to take a graduate course looking towards a Ph. D. in Economics.

C. O. Trumbell, who has been at the University of Michigan in the Forestry Department, will register for some subjects next semester.

Graham's hair cuts are always the latest, try one.

George Armstrong has returned to school after one years work. George played end on the University foot-ball team of 1906 and will make some one hustle for the position again.

Chas. E. Watts, salutatorian of last years Preparatory Graduating class, will remain out of college a year to strengthen his financial foundation. He will return to graduate with the 1912 class it is hoped.

Get wise and shave at Graham's barber shop.

T. E. Smith, ex '09, was recently severely hurt in Alberta, Canada. He had a run-a-way with a team hitched to a dis-harrow by which both his legs were badly cut. He probably will not be able to walk for some time.

The Starvation club, a student boarding club run on the co-operative plan, has again opened at the same place. All students wishing board should see Manager Stokesbury as soon as possible as he can accomodate only a limited number.

Get your hair cut at the H. of S. barber-shop. W. J. Graham, Prop.

Fred E. Lukens, 08, who successfully passed a civil service examination last winter, received notice of an appointment as teacher in the Government schools in the Philippines during the summer. Mr. Lukens declined the offer and accepted the principalship of the Grangeville High school for the winter.

George H. Curtis, the last Rhodes scholar, left his home in Boise Sept. 15 enroute to Oxford, England. In Salt Lake and Denver he joined the Utah and Colorado scholars and the three in company with Mr. Mudgett made the cross continent trip together. They expect to sail from New York City with the Rhodes-Scholar Party on Sept. 26.

Hegge, Hegge, Hegge, Hegge.

At The Dormitory

Though lists are not yet made out, the girls at the Dormitory seem to be composed chiefly of Freshmen and Preparatory students. Sophomores beware of the seventeenth of March!

Miss Hitt, a graduate of the Lewiston State Normal and who has been teaching in Boise, is one of the new Dormitory girls. She enters the University as a special since she expects to remain but one year.

Miss Carsow, who has been away for a year attending High school, has again secured a room at the Dormitory and entered the University as a freshman.

Miss Stevenson's ankle which she sprained on the stone steps of the Agricultural Building is slowly improving.

Miss Ella Woods '11 has been confined to her room with a severe cold.

Miss Martha Hansen, a sister of Etta Hansen, who was well known to us all last year, has become a roomer at the Dormitory and enters the University as a special.

Laura Williamson '09, who has moved with her parents to Santa Rosa, Calif. will complete her college course at the University of California.

The Stag Social

Last Friday night occurred the annual stag social given by the Y. M. C. A. Preparations were far from elaborate but over a hundred boys came together at the Gymnasium and the new students were made to feel that they are really an important part of the University.

A few "stunts" were entered into with much spirit, the principle ones being the pillow fight and the potato race. Despite the fact that there were no potatoes this last event was very exciting. Clyde Heard, for the juniors won first place while Peebler, for the seniors, came in second. Heard will no doubt enter for track work next spring.

After the "stunts" speeches were made by Dr. Little, Mr. Vaughn, Frank Magee, Arthur Thomas and Robert Jones. All emphasized the different departments which they represented and if any of the new students do not have a thorough understanding of what the University represents they were probably absent from the stag social.

Next Friday evening there will be given a joint social at the Gymnasium under the management of the Y. W. and Y. M. C. A. All students are expected to be there.

Y. M. C. A. Meeting

Last Sunday afternoon Kinney Miller of Spokane addressed the men of the University on "Some Reasons for Bible Study." There was a large number out to hear him and almost all signed up for one of the Association courses.

A four years course is maintained, designed to meet the needs of college men. Anyone interested in the work should report to the Bible Study Committee for assignment to a class and course.

Results of Co-education.

Continued from page 2

young couple are at home in Burke, Ida. where Mr. Murphy has a position in a mine.

As a further result of under class acquaintance, Mr. Nicholas C. Sheridan and Miss Zola A. Clarke were married early in the summer.

Mr. Sheridan was a member of the 1905 championship football team while in college. Mrs. Sheridan graduated with the degree Bachelor of Arts and was prominent in the college social life. Their future home is in Nelson, Idaho, where Mr. Sheridan is superintendent of the Snow Storm mine.

University Opens Favorably.

Continued from page 1

In the department of Music, Miss Sadie Stockton is assistant in piano. Miss Stockton graduated from Idaho last year and was immediately sought as an instructor by her Alma Mater.

Prof. Vaughan, who has been specializing in Economics during the summer at the University of Wisconsin, offers a course in Sociology. While this is not an entirely new department still it is a new course in the department of Political science. This may be combined with Political science, Philosophy or History for either a Major or Minor Elective.

In the preparatory department improvements and additions have been made also.

Mr. L. V. Beaulieu of Iowa City, Iowa, has been elected as instructor of Mathematics, Mr. Beaulieu is a University of Iowa man having taken the degrees of B. A. M. A. and L. L. B. He has had six years experience in teaching in secondary schools.

For instructor in German, Miss Nellie A. Regan has been secured. Miss Regan is a graduate of Iowa College and has had several years experience in teaching. She has all of the Preparatory German and the second year college class of two sections.

As a result of the increase in faculty members new rooms had to be fitted up. Dr. Kanaga has been given one of the lower gym rooms in the gymnasium. Dr. Shanks holds recitations in the old Prep. reading room, and Prof. Elliot has an office at the head of the landing on the first floor.

The registration, while not startlingly large, promises a good increase over last year. Particularly in Agriculture is there a marked increase. One item of interest is that students have come from at least one of the only two unrepresented counties in the state last year. The Engineering department still draw the majority of students. Taken altogether the outlook for a successful year is very bright.

Freshmen Elect Officers.

Last Friday afternoon the Freshman class met and elected the following officers for the first semester: President, George Armstrong; Vice Pres., James Thornton; Sec., Kate Sinclair; Tres., Linda Rae; Sargeant at Arms, Madden; Member of Athletic Board, Frank Cooper. Committees on colors, caps, etc. were appointed before adjournment.

Rhodes Exam. Changes Time.

Notice was given out last summer by the trustees of the will of the late Cecil Rhodes that the next qualifying examination for scholars in this country will be held in Oct. of 1909, and elected scholars will take up residence at Oxford in Oct. of 1910.

Candidates will note the change from January to October of these examinations.

Student Rally

The first student rally was held last Wednesday at the regular assembly hour. President Magee called the meeting to order and after a talk on college spirit opened nominations for the position of yell leader. Mr. Thomas '09 was unanimously elected, being the sole nominee. Speeches were then made by Captain Savidge, Manager Savidge, and other football men, the gist of which was "boost for the team." After a few yells the meeting adjourned.

The two local sororities are both pleasantly located in private houses for the coming year. This is the first attempt the girls have made at house managing but they will no doubt be very successful. The Beta Sigma, the older of the organizations, is living at 510 B St. with Mrs. Miracle, a sister of Prof. Aldrich, as matron. Mrs. Manspinner will chaperone the Alpha Delta Pi girls at 807 Ash St.
