## "THE COLLEGE WIDOW."

This play to be given by the Seniors on Class Day of Commencement Week, promises to be of unusual interest. The play itself is one of the strongest of its kind. In fact George Ade, the author, made his reputation by this production and opened up a new field in the dramatic world. "The College Widow" was the forerunner of a long list of college plays such as "Strongheart," "Dick," as presented by our English club last year, "Higbee of Harvard," and other plays of equal prominence, none of which, however, equals the original production. The writer has made no small royalty off of the play. It has been given with success in colleges all over the country and is this year being given by the Seniors at Oregon and Lewiston State Normal School.

In addition to the merits of the play itself, several members of the senior class have played with distinction in former performances so that the success of this number of the commencement calendar seems assured.

Daily rehearsals began last Monday and will continue till the presentation of the play. The exact time of the performance has not been definitely fixed. It probably will be given in the afternoon of June 8 if no other time is available. The gymnasium can be darkened so that proper light effects can be produced. The cast is as follows:

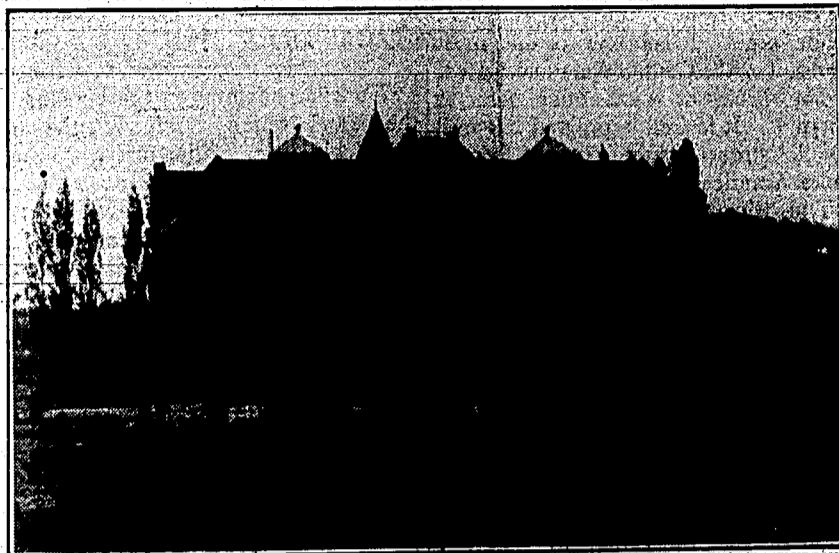

"Billy".....	Bert George
Prexy.....	Jewett Matthews
Larabee.....	Frank Magee
"Bub" Hicks.....	Ludwig Gerlough
Hon. Hiram Bolton.....	Ray Peebler
Hon. Elam Hicks.....	Ed. Strohbehn
Tabot.....	Samuel Vance
"Ollie".....	Willard Gwin
Tibbetts.....	Arthur Pauls
"Stub".....	Charles Johnson
Matty McGowan.....	Robert St. Clair
Dick McAllister.....	Gifford Fawcett
Pearson.....	Leigh Savidge
Hopper.....	Frank Noble
Murphy.....	Jesse Fuller
Jane.....	Icy Curtis
Flora.....	Edna Dewey
Bessie.....	Olive Coram
Mrs. Dalzelle.....	Anna Kiefer
Sally.....	Lotta Manspeaker
Cora.....	Ruth Hunting
Bertha.....	Ora Howard
Luella.....	Mary Gibb
Ruth.....	Ruth Broman

### Some New Faculty Rules.

By a recent vote of the faculty the number of condition examinations allowed in any one subject has been reduced from two to one. This means that one who incurs a condition in June must pass it off on or before the Saturday preceding the opening of college in September or repeat the subject, similarly, one who is conditioned in February must make it up within three weeks.

Ira Cleveland, who left college several weeks ago on account of ill health, is visiting at the University a few days this week. He will not re-enter school this year but expects to take up his work next year.

Cathryn Smith returned Sunday from a week's visit at her home in Potlatch.

The Old School of Mines Building

This building standing under the shelter of the hill on the southern edge of the campus, is now the oldest of the University group with the exception of Ridenbaugh Hall which was completed at the same time in 1902. As its name implies, it was designed for the School of Mines but was occupied by that department only to the time of the fire.

At present its uses are more varied than those of almost any other structure on the campus. It houses the departments of chemistry, physics and civil, electrical and mechanical engineering. These uses are now more or less temporary and it is probable that the building in time, will be devoted to the class rooms and laboratories of the chemistry department—a use for which it is very well suited.

One wing of the third floor is now occupied by a large drafting room which is lighted by sky lights. The other wing is fitted up for an elementary chemistry laboratory. This department also has a large lecture room on the same floor and a splendidly equipped advanced laboratory on the second floor. In connection with this are smaller rooms used for preparation rooms, balance rooms and office. The remainder of the second floor is utilized by the general laboratory, the electrical laboratory of the physics department,

the wood working shops and class rooms of the engineering department.

On the first floor are offices and class rooms including a physics lecture room. This room is equipped with a lecture table to which water, gas and alternating and direct currents are at all times accessible and is provided with a powerful lantern capable not only of projecting lantern slides but also the image of any natural object on the screen. The electrical engineering laboratories with their extensive collection of electrical machinery and apparatus are upon this floor. This includes a steam plant and generators capable of providing electrical current for the whole University.

The Civil Engineering Department has its laboratory and class room upon this floor. The most interesting feature of its equipment is a Tinius-Olsen machine of 200,000 pounds capacity for testing the strength of materials. Iron and steel rods break like threads in this machine and 16 foot bridge timbers are crushed with ease. A very elaborate series of tests are being made on Idaho timber by the department in conjunction with the United States government.

The basement is put to service as well and accommodates the carpenter shops and the heating plant of both this building and Ridenbaugh Hall.

Prof. Vaughn was at Sandpoint last Saturday in consultation with the Bonner County Board of Education. Prof. Hulme is going to Wallace today for the same purpose in connection with the Shoshone county board.

The members of the Senior Cookery class are working on their Senior dinners and dietaries. Lotta Manspeaker is hostess at the first to be given May 6th in the Domestic Science Department.

## W. S. C. WINS BIG ANNUAL MEET

Although Idaho was defeated by a greater number of points in the track meet last Saturday than ever before, yet those who saw the meet were not disappointed in the showing made by the Idaho Athletes.

With but two or three exceptions the Silver and Gold team was composed of new men. And they were not in the best of physical condition because of adverse weather conditions.

The first event was the 880 yard run. W. S. C. won all three places in this event, Johnson tying the northwest record held by Edmundson.

Denning for Idaho ran a good half mile for a new man but the pace was too fast. The hundred yard dash was won by Nelson of W. S. C. in 9 4-5 seconds. This is a new record for W. S. C., they never having had a man before who could do better than 10 1-5. Montgomery was a close second in this race and must have run under 10 seconds.

Stroecker sprung a surprise in the pole vault by doing eleven feet. This is within an inch and a half of the college record, but he refused to try to break it because of the high jump which was soon to follow. In the latter he tied for first with Putman after jumping 5ft 9 in. This makes a new college record for this event.

Putman won the 120 yard hurdles in 16. Driscoll was a close second in this race. He has perfect form in clearing the hurdles but lacks somewhat in speed. The 220 was a pretty race run between Montgomery and Lowery for first place. Montgomery won in 22 1-5 seconds which is one fifth slower than his own record.

Copel of W. S. C. did great work in the distance runs. He ran the mile in 4:31 2-5 without being crowded in the least and broke the northwest record of 4:32 held by Merritt of Whitman. He also broke the northwest record in the two mile run. This event he ran in 10:22. He was pressed close in this race by Price of Idaho who ran a remarkable race. Price finished strong but not with a sprint.

The 440 was run in two heats. The first was between Nelson and Edmundson and was won by the former in 50 1-5 sec. This is also a northwest record. Lowery won the second heat in 53 1-5 seconds and was given second place as Edmundson was not eligible to compete this year.

Montgomery's work in the hurdles was phenomenal. He ran them in 25 2-5 seconds which is two fifths slower than his own record. Yet this was the first time that he had run over more than two at one time thus far during the season.

The relay, won by W. S. C. was a pretty event. McInturff ran first for Idaho and came in a few yards behind. Denning the next man ran a wonderful race for 300 yards and was well in the lead, but the pace was too fast and he weakened coming in several yards behind his opponent. Jessup and Montgomery both ran good quarters and gained on their men but the lead was too great for them.

The day was perfect and put the athletes on their nerve as it was the

Entered at the postoffice at Moscow, Idaho, as Second Class Mail Matter.

### Calendar.

May 8, Saturday—Track meet, Whitman at Moscow.  
 May 6, Thursday—Baseball, Lewiston High vs. Prep., Moscow.  
 May 14, Friday—Track meet, Triangular at Eugene.  
 May 15, Saturday—Base Ball, Whitman at Moscow.  
 May 17, Monday—Track meet, O. A. C. at Corvallis.  
 May 21, Friday—Interstate Oratorical Contest, M. E. Church.

### THE MEET WITH WHITMAN.

On next Saturday Idaho meets the track team from Whitman college on the Idaho field.

Altho our team was defeated by W. S. C. last week yet we do not feel that there is cause for discouragement. When it is considered that Idaho has no track coach and that W. S. C. has a student body practically three times as large as our own, the showing was exceptionally good. From comparative scores the meet next Saturday should be close and interesting. To win, the support of every student and faculty member is needed. We would especially mention the latter as the faculty have not been very fully represented at the athletic events this spring. Let us all see this meet and make it a victorious one.

### Assembly.

Assembly last Wednesday was opened by a beautiful piano solo by Lucille Robards. Prof. Sheldon gave a very interesting talk on his last summer's trip from San Francisco to New York by way of Panama. The trip consumed thirty days. Most of this time was spent on the Pacific side, where about fourteen stops were made. One of the first of the ports visited was San Blas. It is built in a very primitive style of architecture, most of the houses being thatched huts. This place was most interesting because it is an old sixteenth century navy yard and was once demolished by Sir Francis Drake. Some relics of those times still remain. The next port, Manzanillo, was noticeable for its filth and evil smell. The chief attraction here was a large lake full of alligators. At Acapulca, the next place, is an old Spanish Fort, which has been kept up with all the old cannon. None of these are dated later than 1750.

A most interesting part of the trip along the Mexican coast was afforded by the chinese steerage passengers who were trying to get into Mexico in order to sneak across the border into the United States. The Mexican health department were trying to aid our government and whenever a chinaman tried to land the health officer found him afflicted with some disease. But one or two chinamen were generally disposed of at every port. At one place the Captain got rid of three chinamen by bribing the health officer with two drinks of whiskey.

San Jose Guata mala, is interesting because of the mahogany wood which

is so plentiful there. Mahogany is used even for railroad ties and for fuel. Guatamala's president in reality is an absolute monarch who rules the people like a tyrant. Not long ago he executed 150 citizens because they differed from him politically.

Salvador is much farther advanced than Guatamala. It has much cultivated land, is thickly settled and has a stable currency, and an excellent police force. It is one of the most powerful of the Central American states.

The Professor went from here to Panama. It is well kept, and has well paved streets since it has come under American authority.

The trip from the canal to New York was not very remarkable except for a hurricane which came up in the West Indies.

### Sociology Lecture.

Prof. Worthington of the department of economics and sociology at Whitman College spoke before the Idaho Sociological Society at an open meeting last Friday afternoon.

He chose for his subject "The Relation of the Individual to Society". The thought of the whole lecture was that the individual and society are inseparable and that each depends upon the other for existence.

As soon as society absorbs entirely the individual, personality and social types die. Inversely, the community in which the individual recognizes no social obligations degenerates into a savage tribe where socialism of the evil kind is present. The interests of the individual and society are common. Good men tend to produce good societies and good societies tend to produce good men.

This lecture was the last of a series of inter changes between the heads of the sociology departments of the three colleges of the Inland Empire. This plan was started by Mr. Vaughan of Idaho and has evoked favorable comments from all these institutions. Not only are the lectures instructive but the system tends to create a more friendly feeling between the schools represented.

### Law Course Offered.

A three year law course leading to the degree of LL. B. will begin September, 1909. Entrance requirements will be the same as those for the B. A. or B. S. courses in the College of Letters and Sciences.

Registration for the First Semester occurs September 20 and 21, 1909.

Catalogues and admission blanks may be obtained by addressing The Bursar, University of Idaho, Moscow, Idaho.

For this course one professor will be employed during the first year whose name will be given out within a few days. With one man devoting his entire time to the technical side together with the supplementary courses in regular college work the law course promises to be successful and efficient. Instructors will be added each year as the demand increases so that this department will be made one of the strongest in the University. Already there are several students preparing for a law course and the establishment of this school meets a long felt need.

### Prize Shield Awarded.

The Idaho shield offered by Mr. Vaughn for the best poem on some theme distinctively Idahoan, goes to Mr. G. H. Maughan, Senior in the College of Agriculture, for a 15-line poem entitled "Idaho." The poem will be printed first in the "Student Farmer", by special request of the author, of which Mr. Maughan is business manager. Two of the couplets descriptive of Idaho run as follows:

"Her cloudless summer skies, her fragrant spring,  
 Tone life and love anew, and make us sing.  
 For all their rarely tinted evening hues  
 Are not surpassed but by the morning dews.  
 Forrest L. Sower, '11, was awarded second place in the marking of the judges on his verses "In the Castle of Nature."

B. E. Davis, of the Preparatory Department was given third place, with descriptive verses, again under the caption "Idaho"

Work has begun on the leveling of the terrace which surrounded the old "Ad" building. The dirt will be removed to the hollow in front of Ridenbaugh hall raising the level of the present tennis court about six and one half feet. Messrs. Pierce, Savidge and Rogers did the estimating under the supervision of Mr. Sims.

Mrs. MacLean and Miss Sweet went to Spokane Tuesday morning.

Miss Sonna enjoyed a visit from her mother of Boise on last Saturday and Sunday.

The Preparatory committee on Dramatics has made the following disposition of the funds derived from the recent Prep. play. Ten dollars toward permanent dramatic fund; eleven dollars donated to Preparatory School; eighteen dollars for dance given by the cast to the school.

The Idaho Post has printed up a lot of "Idaho" pennant posters suitable or wall decorations and suit case posters which are complimentary to all students who call at the office. This is another indication of the Post's favorable attitude towards the college students. Messrs Ricksecker and Evans, the proprietors, are loyal supporters of all University activities and are the students friends.

The father of George Tolman who left college a few weeks ago, died last Saturday.

Leigh Savidge, '09 was operated on for appendicitis May 1. Mr. Savidge has been suffering for several weeks but had thought the operation could be postponed till college closes. He is rapidly recovering and expects to be out in two or three weeks.

Prof Axtell returned last Saturday from a very satisfactory tour of high schools in North Idaho.

Professors Morley and von Ende returned Friday from an extended visit among the high schools in Southeastern Idaho. During the trip of almost three weeks they covered about a dozen schools and report a favorable outlook for students next year.

Rasmus Anderson left Monday for Bonners Ferry where he will take charge of the city creamery.

L. Sherman Gerlough made a business trip to Genesee last Friday.

Anna and Minnie Kiefer, Georgia and Edna Davis, and Margaret Harmer visited in Colfax, Friday, Saturday, and Sunday.

Lester Albert visited in Lewiston Saturday and Sunday.

The Ridenbaugh Hall girls gave another one of their enjoyable dances Saturday evening. Music was furnished by the piano and drum. Those who did not care to dance made merry in the library at a candy pull.

Ida Carssow was called home last Wednesday on account of her mother's illness.

Vivian Pinney is again in college after a two week's absence on account of illness.

## How to Make a Debate.

Take two parts of wind and two parts of noise, mix thoroughly, and you have a political debate.—Chicago News.

This is a good time to recollect that the diploma shows only the chance you have had, not what you are.—Moderator Topics.

A bill appropriating \$350,000 for the extension of the campus at Minnesota has passed the state legislature.

## ...Students' Matinee Musicale...

Another interesting program was given in Liszt Hall on last Tuesday afternoon. One can hardly realize what it means to young musical students to play for the first time before an audience, unless one has been tried likewise. Among the new pupils the playing of Lottie Works deserves especial mention. She shows marked individuality in her playing.

Grace Prugger played with a careful attention to detail. Miss Johnson hardly did herself justice, as her playing showed a consciousness of the audience. That once overcome, her works can be appreciated as it deserves, because naturally she is very easy at the piano.

Miss Stephenson had the difficult Mazurka theme attractively worked out.

Miss Shultz, one of the best students in the department played the intricate "Weinet Bon-Bons" very well.

Miss Hitt sang for the students for the first time, interpreting the song very daintily.

The group of childrens' songs by Miss Horton was not sung, as Miss Horton was unable to appear.

Program.

On the Meadow.....Lichner  
Rosa Kulhanek (Pupil of Miss Stockton)

## W. S. C. Wins Annual Meet

Continued from first page  
first warm day of the season. As a result three north west records were made—one in the two-mile, the mile and 440 while the 880 record was tied.

Besides these W. S. C. made college records in the 100 yard dash, 120 yard hurdles, the broad jump and the high jump. Idaho's only record was made in the latter. The following is the summary of the meet:

### SUMMARY.

Half-mile run—Johnson, Clark and North, all W. S. C.; time: 2 1-5.

100-yard dash—Nelson, W. S. C.; Montgomery, Idaho; Lowery, W. S. C.; time 9 4-5.

Pole vault—Strohecker, Idaho; Dalquist, W. S. C.; Cagle, W. S. C.; height 11 feet.

Shotput—Halm and Meade, W. S. C.; Jewell, Idaho; 40 feet 9 inches.

120-yard hurdles—Putman, W. S. C.; Driscoll, Idaho; Lafollete, W. S. C.; time :16

220-yard dash—Montgomery, Idaho; Coe and Lowery, W. S. C.; time :22 1-5.

Broad jump—Putman, Thompson and Phillips, all W. S. C.; 22 feet 7 inches.

1/4 mile run—Coeil and Welch, W. S. C.; Hunting, Idaho; time 4:31 1-5.

Hammer throw—Halm, Conover and Dammon, all W. S. C.; 139 feet 2 1-2 inches.

Quarter-mile run—Nelson, Lowery and Bartlett, all W. S. C.; time :50 1-5.

High jump—Putman, W. S. C., and Strohecker, Idaho, tied for first at 5 feet 9 inches and divided the points, each taking four; Van Moulton third.

Discus—Mead and Dinse, W. S. C.; Jewell, Idaho; distance 110 feet 4 inches.

220-yard hurdles—Montgomery, Idaho; Putman and Lafollete; W: S. C. :25 time 2-5.

Two-mile run—Coeil, W. S. C.; Price, Idaho; Stokey, W. S. C.; time 10:22.

Relay won by North, Johnson, Lowry and Coe for W. S. C., who ran in the order named.

Captain Putman of W. S. C. was the star individual point winner. Captain Montgomery was Idaho's best individual point winner. Putman got 17 points to 13 for Montgomery. Halm, Nelson and Cooil, W. S. C., each got 10 points.

### OFFICIALS OF THE MEET.

The officials of the meet were: Referee, Mike Butler of Spokane; judges of weight, Smith, Carpenter, Barnard; judges of jumps, Lund, Magee, Hyslop; judges of runs, Kruegel, Warner, Fawcett; timers, McCausland, Timblin, Chedsey; announcers, Skeels, Savidge, Ira Clark; scorer, Akers, Griner; clerk of course, Wexler; inspectors, Crouch, Deaner, Cliff Edmundson, McCroskey.

Elva Gray visited Gertrude Stevenson at Ridenbaugh Hall, and others in the vicinity of the campus the first part of the week.

Althea Ott was called home Tuesday morning by the death of a near relative. Miss Ott will not return to college this year as her teaching work in the Moscow schools was almost completed and it would not be worth while to again take up the University work this semester.

## W. S. C. WINS IN BASE BALL.

The hoodoo that hangs over Idaho when she plays base ball with W. S. C., coupled with some costly errors by Idaho players, and an overwhelming amount of hard luck was the cause of a defeat for Idaho last Friday by a score of 6 to 2.

Idaho's scores came in the 9th inning when Appelman knocked the ball out for two bases, and Lundstrom and Hanson came home. There were two outs when all this happened but even then Idaho fans had hopes of tying the score, but to no avail.

The features of the game were the pitching of Switzer for W. S. C., a neat double pulled off when Foren knocked one to Appelman who threw to Slack retiring Bradley and Slack throwing to Curtis retiring Foren.

The game played by Idaho was full of errors. Three times some one threw the ball away, twice men dropped the ball and twice they couldn't handle it tho they were pretty fast. Some thing was also wrong with its base running.

The game was an example of what a team is up against when luck is against them and W. S. C. certainly had all the horse shoes last Friday. Twice Idaho had a man on third with no outs.

W. S. C. made her first score in the third, with two men out when Rogers walked and Slack missed a fast one from Buck. "Chic" recovered and threw over McKenzie's head, Rogers scoring.

There was no further scoring till the 8th. Rogers again walked, Buck bunted one in front of the plate and was safe at first, McKenzie throwing high. Cave struck out and McKenzie caught Rogers asleep on second making two outs.

Brown laid down a two bagger bringing in Buck. Herrington brought Brown in with another two bagger and Bradley tried to make a home run out of a long fly to right field that Hanson couldn't get, but was caught at the plate, retiring the side.

Again in the 9th, with a hit, a wild throw, a muffed fly and a stolen base, W. S. C. got in two more runs and the score was 6 to 0.

Idaho came to bat, McKenzie got a hit but was put out at second when Williams went to first on a short hit to pitcher. Lundstrom got a scratch hit and Hansen went to first on fielders choice when Williams was thrown out at second. Appelman brought in Lundstrom and Hansen with a clean two base hit, but went to third when the Umpire said Switzer was delaying the game and died there, Slack striking out.

W. S. C.	Total
Hits, 0 0 0 2 0 1 0 3 1	7
Runs, 0 0 1 0 0 0 0 3 2	6
Idaho	Total
Hits, 0 1 0 1 1 1 0 0 3	7
Runs, 0 0 0 0 0 0 0 0 2	2

3 base hits, Bradley. Two base hits, Appelman, Brown, Herrington. Struck out by Appelman, 6, by Switzer, 11. Base on balls, off Appelman, 4, off Switzer 0. Hit by pitcher, Slack 2, Lundstrom. Double plays, Appelman to Slack to Curtis. Passed balls, Herrington 1. Umpire Curtis. Time of game 1 hr 55 minutes.

### Commencement Exercises.

By action of the Regents all the exercises of Commencement at the University will be advanced one week; the final examinations thus beginning May 31st, and commencement day coming on June 9. The program for the week as announced is as follows: Senior Ball, Friday June 4; Preparatory School Exercises, Saturday June 5; Baccalaureate

Sermon, by the Rev. Chas. A. Edwards of Blackfoot, Sunday June 6; Commencement Concert, Monday June 7; Senior Class Play, "The College Widow," Tuesday June 8; Regents' meeting, June 8; Alumni Banquet, June 8; Commencement Exercises, Hon. Burton L. French delivering the address, Wednesday June 9; University Convocation, 3 p. m, June 9th; Presidents' Reception, evening June 9. This change was made in response to a petition from the officers of the Cadet Battalion on the grounds that many members could not attend the A. Y. P. Exposition if college closed as late as June 16.

### Association Notes.

The regular meeting of the Y. W. C. A. last week was devoted to a general discussion of the topic "Judge Not". Special attention was given to its bearing on the college girls' relations with her fellow students.

The increased attendance at the meetings this spring is a matter of much encouragement to the Association.

Ivan B. Rhodes, state Secretary for Oregon and Idaho addressed the Y. M. C. A. last Sunday on the general topic of student conferences. After the talk several members who have attended these summer gatherings spoke regarding their worth. The Association plans to assist several men to attend each year and this meeting was designed to set before the men the benefits to be derived from such attendance. For further information please see some member of the association.
