NO. 25.

COMPANY B SQUADS WIN

First Place in Platoon Drill, Wall Scaling Contest and Tug-of-War

Although the weather was not the most favorable, a large crowd witnessed the military tournament held on the campus last Thursday. Company B won most of the glory although some of its firsts were secured by very narrow margins.

The platoon drill contest was won by a picked platoon from Company B. It consisted of close and extended order drill and Butt's manual. Lieutenant Faris commanded the platoon and it consisted of: Sergeants Bessee and Garby; Corporals Hollingshead, Kroh and Teed; and Privates Carlson, Ellis, Griner, Garber, Foester and Campbell. The percentages made in this contest were Company B, 86.75 per cent, Company A, 83.25 per cent, and Company C 76.66 per cent.

A squad drill came next in which the honors were reversed, Company C's squad winning first place. This squad which was drilled in the competition by Corporal Henley consisted of the following privates: Brown, Heer, Crawford, Guernsey, Carlson, Bourne, Davis and Smith. They went through all the drill prescribed of the squad and the result was Company C, 91.3 per cent, Company A, 88 per cent and Company B, 86.4 per cent.

In the wall-scaling contest Company B was again victorious although the fact should be mentioned that an accident hindered the work of Company A who after making up their lost time were only one fifth of a second behind the winners. The wall was a little over nine feet high and was scaled by Company B's squad in twenty one seconds, by Company A's in twenty one and one fifth and by Company C's in forty seconds. The men in the winning squad were: McInturff, Hollingshead, Teed, Ellis, Carlson, Anderson, Garber and Foester.

Company C did not enter into the tug-of-war which was won in two heats by Company B. The heroes of this contest were: Bennett, Garby, Bessee, Caro, Pails, Griner, Ball and Anderson. It was very close.

On account of the lateness of the hour the military obstacle race was postponed until the following Tuesday.

Captains Stokesbury, Edmundson and Perkins, retired cadet officers, judged the contests.

WASHINGTON DEFEATS IDAHO

Oregon Wins Triangular Debate and Idaho Gets Third Place for First Time

In the Fifth Annual Triangular Debate which took place last Friday night Idaho was defeated by both Oregon and Washington which gives her third place for the first time since the league was formed. During the last four years she has received two first places and two second places. Each of the other universities has had its turn at the bottom of the list.

A large number of students and townspeople attended the debate held here and considerable enthusiasm was displayed. The question although much too heavy for undergraduates was pretty well threshed out. It was: "Resolved, That all corporations should be required to take out a federal charter. Concessions: 1—Such legislation is constitutional; 2—A federal license shall not be available as an alternative solution."

Both with Washington and Idaho by far the greater part of the work was left for the last speakers, Black and Rock respectively. These two men acquitted themselves like experienced debaters which they are. The fight was hard and close,—not fast and furious but a fight that required deep clear thinking and exact delivery and one that had required months of hard persistent study. It is not meant to disparage the work of the first four speakers. Their work was good but it was so far outdone by their respective leaders that it seemed secondary in comparison.

That the contest was close is shown by the decision of the judges which was Washington two and Idaho one.

The speakers were:
Paul Durrie Affirmative Idaho
Ray Clifford Negative Washington
Ira Tweedy Affirmative Idaho
Reuben Hilen Negative Washington
John Rock Affirmative Idaho
Lloyd Black Negative Washington
Speaker in Rebuttal
John Rock Affirmative Idaho
Chairman Prof. John F. McLane
Judges, Hon. T. T. Kerl, Hon. J. L. McClear, Hon. H. P. Knight.

REMEMBER
THE PREP SQUALL
APRIL FIRST

MR. VANDER VEER
Idaho's Track Coach.

Manager Griner is arranging with Washington State College for the annual meet between the two schools to be held about April 27, a week before the triangular meet in which Washington, Oregon and Idaho participate. If this plan is effected it is likely that there will be an exhibition race between Nelson of W. S. C. and Idaho's great runner, Clarence Edmundson.

The faculty has voted in favor of Mr. Griner's taking a team to California for the great meet on May 14, and the prospects of such a trip have increased the interest of the track men. Probably ten men will be taken.

Among the new men the following are showing up well on the track: Case, who did some running for a Minnesota high school is promising; Watts, from the Boise high school, is developing consistently; Hoobler, from Clarkston, is out for the quarter-mile, low hurdles and high jump; Buffington, of Murphy, Idaho, is working with the discus and is training for the quarter-mile; Hunter who won the fifty yard dash for Spokane High last year is showing up well in the 100 and 220 yard dash; Parker, also of the Spokane High and a winner in the high jump, is practising daily. Dunkle, of Fredonia, N. Y., promises well in the mile.

Among the experienced men, Captain Montgomery is working into good condition; Strohecker is training for the pole vault, high jump, and broad-jump; Price, a consistent point-winner for Idaho last year, is training for the mile and two-mile; Driscoll is working with the high hurdles; Denning is out for the half-mile; Jessup for the quarter-mile; and Beckner for the half-mile. Edgett, a former foot ball star, Ream and Olesen are training for the weights.

GOVERNOR BRADY

Idaho's Governor Addresses Students at Special Assembly

The University, availing itself of Governor Brady's presence in the city, secured him as speaker in last week's assembly. The battalion of cadets escorted the Governor to the gymnasium, and, after the band ceased playing, the Mandolin Club opened the hour by rendering several selections.

Governor Brady first acknowledged his surprise and pleasure at the royal reception which had been tendered him upon his arrival in the city by the University and his delight in the splendid appearance made by the cadets, whom he had had the pleasure of reviewing before at the A. Y. P. exposition.

Governor Brady spoke at length upon educational matters. He said, "The question of education is a broad one that has absorbed the minds of the people. It is broadening out to reach all classes of people in every department. Your position in life is determined by your environment and surroundings and the education we give you. There are today 86,000 children in our common schools. Beside the common schools we have several higher institutions: the academy at Pocatello, two splendid normal schools for training teachers, and the University and Agricultural College here for higher and more finished learning.

My sympathies are always with the agricultural classes. I was born and raised on a farm, and hope to be permitted to pass my last days there. Agriculture is an occupation upon which all others depend. Some of your instructors seem to have the brown badge of health stamped upon their cheeks so I must conclude that they were raised on the farm also. A committee has recently been appointed to study the various phases of country life; how rural life may be encouraged, be made more useful and pleasant."

Governor Brady spoke in highest terms of the mining department at Idaho. He said, "Young men from the engineering department of Idaho can receive a position within twenty four hours after graduation. There is no department of work that is not carried on successfully here. The institution is a credit to the state and the nation also. I believe in the integrity of the University. I

Concluded on page three.

Trip for M. E. Students

Profs. McCaffery and Chedsey with several of the mining students will spend the spring vacation from April 9 to 17 in and around the mines and smelters at Rossland and Trail, B. C. The party will leave Moscow on the evening of April 8 and expect to arrive in Rossland April 9. At Rossland the Center Star and War Eagle mines will be visited, and at Trail the lead and copper furnaces.

This trip to British Columbia was chosen in preference to the Coeur d'Alene trip, as first proposed, in order to get the benefit of both mining and smelting operations. This trip is expected to be very interesting and instructive as the mines and smelters are operated with the most modern methods. At the mines a new steam hoist has been installed and all underground haulage changed to electrical. At the smelters, the Huntington-Herbelain process of roasting and an electrolytic lead refinery have been recently installed.

Those who will take the trip, with the possibility of several more, are: Profs. McCaffery and Chedsey, C. I. Cook, G. G. Stearns, C. H. Loux, C. Annet, E. G. Lewis, Geo. Rember, C. M. Edgett and H. E. Marsh.

Cadets to Camp at Lewiston

Arrangements are being made to hold the annual encampment at Lewiston. Lieutenant A. W. Smith met the Commercial Club when he was there about a week ago, at luncheon and was at that time formally invited to bring the U. of I. cadets there for the encampment. A committee has been appointed to prepare the grounds, which will be near the high school building, to receive the cadets and to look after their entertainment while there. Tents will be secured from F. O. Berg & Co., of Spokane. They will consist of about twenty-one conical and thirteen wall tents. The cadets camped in Lewiston three years ago and have wanted to camp there every spring since. They are looking forward to the trip with a great deal of satisfaction.

News From Washington.

Several hundred students watched the work of publishing the Daily at an "Open House" given yesterday by the staff, as a belated housewarming for the plant which is the only complete college newspaper printing office in the United States. Every phase of the work was shown from the reporters bringing in their copy to the sternly censorial editors, to the big rumbling Optimus presses. Chief points of interest were the refreshment tables, the linotype, and the composing stone tables.

Miners' Meeting

At a recent meeting of the Associated Miners election of officers was held the following being the result of the election:

President, Clarence Edgett; vice president and general manager, J. Gwinn; consulting engineer, Prof. McCaffery; superintendent, G. Rember; assistant superintendent, E. Barnard; foreman, A. E. Anderson; shift bosses—freshman, Annette; sophomore, Holmberg; junior, Strohecker; senior, Chaffins.

After the election of officers Prof. Chedsey spoke on "The Last Few Months of the Senior Year at Golden."

The greater part of the talk was on the trips taken by the senior miners and as an example Mr. Chedsey spoke in detail of the trip taken by the senior class of which he himself was a member.

He said in part: At Golden the seniors practically finish school by the end of March and spend the remainder of the time until commencement in taking trips to the various mines, mills and smelters, also taking notes on and discussing the general geology of the different parts of the country visited.

The senior class of which Mr. Chedsey was a member took a rather extensive trip and gained much valuable information. The class first visited the mills at Colorado Springs and from there went to Leadville, Glenwood Springs, Shoshone, Salt Lake City, Brigham Canyon, Garfield, Utah, Butte and Anaconda.

In conclusion Mr. Chedsey said the trip was not only instructive, but the party had considerable enjoyment socially.

Resolutions

Wendell, Idaho, March 17, 1910.
Farmer's Institute,

Care of President of the University of Moscow, Idaho.

Dear Sir:

At the regular meeting of the Wendell Commercial Club, by unanimous vote, the Secretary was instructed to express to you the thanks and appreciation of the members of the Club, for sending Prof. Frandson and Prof. Don H. Bark to Wendell.

Although the day was stormy many farmers turned out and were repaid for their trouble, as both of the professors were greatly interested in their subjects and communicated their enthusiasm to their audience.

We trust that we shall have the pleasure of having them again with us.

Respectfully yours,
R. W. Childs, Secretary.

GOVERNOR BRADY

Continued from first page.
Believe in keeping it intact. If
we are going to move it, let us
take the whole institution and set
it off in another place."

Governor Brady spoke with
pride of the rapid progress of
Idaho as a state. He said, "At
first we had parts of Washington,
Oregon, Montana and Wyoming,
but they took this away piece by
piece until we have only the pre-
sent area left. But our progress
has been steady. We have re-
sources to back us. We have
more timber than Michigan and
Wisconsin combined. Forty per
cent of the land is found in Idaho.
There is more water taken from
the Snake River for irrigation
purposes than from any other in
the world. No state has made so
glorious a record. Idaho has al-
ways sustained an advanced moral
atmosphere. No other state has
done so much to lay the environ-
ment for characters of high moral
excellence."

The address was closed by a
few remarks addressed directly to
the students. "You are the young
men and young women," he said,
"and what we have to look for-
ward to is to build the standard.
The sometimes have wearisome
tasks. I understand it well as
I have gone through the common
school, high school and college,
and I have taught three years.
When I went to bed last night in the
world for my dinner one day, I
thought that I would
one day stand before you here as
your state's chief executive.
Ninety-nine per cent of you have
a better chance than I had.
Don't sleep. Whatever you do, do
with your mind. The way to do
anything is to go ahead and do it
with determination in every
thing. If you are in a cane-rush,
run. Whatever you do, do right.
That is the spirit. I hope to see
you live up to higher and better
things. There has been no time
that you weren't looking to
higher and better things. We
hope to make this institution one
of the best in the west. Let us
feel that the various departments
are moving on to one harmonious
whole in this splendid nation of
ours."

Students' Matinee Musicale

The weekly Symposium given
by the music department of the
University was given Wednesday
afternoon in the Y. M. C. A. room.
The program was as follows:

- | | |
|-----------------------------------|-----------|

W. S. C.

S. Elroy McCaw

The first ball game of the season resulted in a score of 6-5 for W. S. C. against the Pullman Cubs. Arrangements have been made for several tryout games with the Cubs so that Coach Kienholtz can see his men in real action. The town team is mostly composed of ex-stars, and some good games are promised.

"Charley's Aunt" was staged last night by the senior elementary science department class, under the able direction of Professor Kreager. The proceeds are to be applied toward the purchase of a new piano for the "Prep" chapel.

Several changes have been announced in the Cadet Corps officers. Among them are the resignations of Col. V. G. Shellman and Captains Leidl and Maloney and the promotion of Lieut.-Col. Clint Inus to Colonel, Major F. E. Eck to Lieut.-Col. and Captain C. L. Inus to Major. No definite selection has been made for Commandant Mitchell's successor.

At the tryout for intercollegiate orator, Burgess '10, won with his oration on "America's Failures", taking the cities for examples, and Harrison '12, won the Freshman-Sophomore contest with an oration on the "Progress of Alaska." Burgess will represent this college at Corvallis in the intercollegiate contest with Whitman and O. A. C.

A Reunion

Out over the Pacific Ocean in the Sun parlor at Long Beach, Cal., occurred some weeks ago quite a unique and a most delightful affair, a Moscow picnic. There were assembled some 38 people from this town, either in California temporarily for the winter months or else had moved to the coast for good. The University was represented by many old students and alumni and it was very delightful to see how keen an interest even those who had been away for years took in their Alma Mater. Dr. Curtis Brigham, ex '04, now a most successful practicing osteopathic physician, Gifford Fawcett '09, studying osteopathy in Los Angeles, Sydree Reeves ex '07, Los Angeles, Ivy Curtis ex '07, Ada Gosselin ex '07, Mrs. Harry Moore ex '99, Trula Keener '04, Berney Yency ex '10, nee Lelia Layman ex '07 and Constance Henderson '09 were among those who had attended the 'Varsity at one time or another and who enjoyed immensely this opportunity of renewing old friendships and talking over college days.

The Empire Hardware Co.

Carries Everything in Hardware Lines and would be glad to have your trade.

Indoor Rifle Competition

Despite the fact that the Spokesman Review reported W. S. C. to have won the intercollegiate championship about two weeks ago, the competition for this championship took place during the week ending March 26th.

Idaho had lost Tate who has left the University, but Myrick did good work in his place. Although some of the boys did much worse than usual, others came bravely to the rescue and the grand total was two higher than the club has shot at any previous contest.

The score follows:

	Prone	Standing	Total
Crom	96	93	189
Johnson	96	90	186
Smith E. E.	93	85	178
Lefler	97	91	188
Jessup	96	87	183
Carlson	96	80	176
Smith H.	96	82	178
Keller	93	85	178
Myrick	95	85	180
Stewart	94	76	170

Grand Total 1806

This ends the indoor target practice for the year and work will be conducted on the outdoor range from now on.

Agricultural

Invitations are out for an Agricultural social for Saturday evening, April 2. This is given by the Agricultural Club and all students of the department and members of the faculty are invited. Refreshments will be served and an informal social will take place. Prof. Carlyle, director of the Experiment Station, will deliver a lecture.

The Agricultural Club has elected the following officers for this semester: President, J. R. Maughan; vice president, Amos Hitt; secretary, Jos. Sudweeks; treasurer, Carl E. Johnson. Ray Lyman was elected editor of the Student Farmer for next year and J. R. Maughan was chosen as business manager.

A short time ago the department of veterinary science and animal husbandry received the complete skeletons of the horse, cow, sheep and pig. These are excellent specimens. They are mounted in the classroom, ready for inspection and study.

There are now 44 students enrolled in the Agricultural College. These are classified as follows: seniors, 9; juniors, 5; sophomores, 7; freshmen, 14; dairy students, one year course, 8; unclassified, 1. Fourteen students are in the forestry department. The Farmers' Short Course this year enrolled 5.

The following Short Course Dairy students have already accepted positions: J. T. Hollingshead as manager of the Hazelwood station at Pullman, B. F. Jarman as buttermaker of the Baker City, Ore., creamery, and Glen F. Heard with the Nampa creamery.

Students:—See Simpson and Mann about your barbering. Successors to Graham. We treat you all right and especially welcome students. Come in and get acquainted.

The Sophomores and Freshmen at the University of Syracuse are to engage in a snow rush. They line themselves up on either side of a walk on the campus and strive to keep their opponents from their territory.
