COEUR D'ALENE WINS MEET

MEDALS AND CUPS TONIGHT

Presentation to be at Senior Play-- Seats Reserved for Athletes.

The cups and medals which were won this afternoon will be presented to the winners this evening at the performance of the annual Senior play which will be in the Crystal theatre. They will be presented by President MacLean. Arrangements have been made to admit all those interscholastic athletes whose expenses are paid by the management of the meet without charge. Seats have been reserved for them at the theatre.

The play is entitled "Why Smith Left Home." It is a comedy and is full of humor and amusing situations. Some of the character parts are also most entertaining. The players have been working steadily, rehearsing every afternoon and evening for the past week.

The college orchestra and the Kappa Sigma quartette will furnish music tonight. Saturday night, besides the excellent music by both these organizations, an Irish reel will be rendered by six young ladies of the University under the direction of Miss Wold, the ladies' physical director.

Company Gives Us Phone.

The Moscow & Rural Telephone company installed a phone on the athletic field today for the use of the Argonaut. This service is freely given and we wish to publicly thank the proprietor, Mr. T. A. Meeker, for his kindness. The use of this phone was invaluable to us in putting out this extra edition of the paper. Mr. Meeker deserves the greatest praise and commendation for his kindness.

EVAN T. SAGE

Chairman of the faculty committee which is managing the interscholastic track and field meet this week.

"Hec" Edmundson's Team Defeats Lewiston By One Point---Boise Third---Phillips Individual Star.

The track team of the Coeur d'Alene High School won the Interscholastic track and field meet here this afternoon. This speaks well for their coach, "Hec" Edmundson, Idaho's great runner and a graduate from the U. with last year's class. He has coached the team all through the year for all branches of athletics from football to track and the results of the contest today show how well he has succeeded.

The winner of the individual medal is Phillips of Lewiston. Phillips is an unusually well proportioned and well developed athlete. He took 21 points in the meet.

The preliminaries to the Idaho Interscholastic track and field meet were begun at 1:30 Thursday afternoon with about 120 athletes trying to place. The events were run through in good order, some of the less interesting features being doubled up. The weather turned off fine for the preliminaries. The rain of the day before settled the ground and left the track in the best condition it has been this year.

As expected, Shaw of Lewiston, Cook of Coeur d'Alene, and Gano of Moscow qualified for their events without difficulty. None of these worked very hard in the preliminaries. Carley of Boise was a surprise to some of the northern schools on the first day. He took first in several of the preliminary dashes. Carley was entered in the Whitman meet last year, but as he had to contend with Shaw of Lewiston and Cook of Ellensburg, both individual cup winners, in every event, he did not make any great showing there.

In the two finals held Thursday, Lewiston made ten points, Phillips taking first in both the hammer throw and discus. Cook won four points for Coeur d'Alene, getting second in the hammer and third in the discus. Goff

won second in the discus and third in the hammer, counting four points for Colfax.

The meet today began promptly at 1:30 and the first three events were pulled off in about a half an hour. The first race was the 440 yard dash. It was won by Dewald of Coeur d'Alene. Marhofer of Mountain Home came in second and third place went to Barnes of Coeur d'Alene. The time was 55 2-5.

This was followed by the mile run in which first was taken by Henry of Palouse, time 4, 59 3-5. Gerlough of Boise won second and Bonneville of Coeur d'Alene took third.

The 50 yard dash was taken by Carley of Boise, time 6:2. Carley has surprised all the "dopsters." His time is remarkably good. Shaw of Lewiston holds second place in this race, and Smith from the Lewiston Normal holds third.

In the shot put Phillips of Lewiston took first, Cook of Coeur d'Alene second and Goff of Colfax third, distance 43:3.

The 100 yard dash did not lessen the time set yesterday. Carley of Boise was first, Shaw of Lewiston second and Gano of Moscow third, time 10:3.

The big Lewiston man, Phillips, threw the javelin a distance of 143.6 feet, taking first in that event. Cook of Coeur d'Alene and Ingersoll of Wardner took second and third places respectively. This record is only 17 inches less than the distance which took first place at the big Pacific Coast Collegiate meet at Berkley two weeks ago tomorrow.

The running broad jump was won by Gano of Moscow. Purdy of Coeur d'Alene took second and Thompson of Lewiston third. The distance was 19 feet, 5 1 2 inches.

Carley of Boise again came out first in the following event. This was the 120 yard hurdles. Chapman of Colfax and Jones of Wardner won second and third respectively. The time was 17:4.

In the half mile run, which came next, Dewald of Coeur d'Alene crossed the finish in 2:13 3-10 seconds, taking first in this event. Second and third went to Pack and Gerlough respectively. Both these men are from Boise. Carley continued the surprising

THE NEW IDAHO SONG

Professor is Author of New College Song--Sung in Public Tonight.

Tonight at the Crystal theatre between acts of the senior play the Kappa Sigma quartette will sing the new Idaho song which has been written by Prof. C. C. Tull. The song is entitled "Alma Mater Idaho." Prof. Tull has been at work on it for some time, but only recently got it in shape that suited him. The music was arranged by Miss Edna Campbell, '13.

record he had started, when he took first place in the 220 yard dash, adding another five points to Boise's score. Cook of Coeur d'Alene took second and was closely followed by Smith of the Lewiston Normal. The time in this race was 24 seconds.

The pole vault was won by Bradbury of Rathdrum. Brown of Moscow took second. Foresman of Wallace won third place, height 9:2. At first there was a tie between Brown and Bradbury, but that was worked off just before the relay race.

The 220 yard hurdle race was taken by Smith of the Lewiston Normal. Chapman of Colfax took second place, and Shaw of Lewiston took third. The time was 28:4.

The last event of the regular meet was the high jump. It was the last because the relay race which was the only following attraction, did not count in the scores. Bartges of Coeur d'Alene won first. Welker and Phillips, both of Lewiston, took second and third places respectively. The height was 5 feet and 2 inches.

The day's program closed with the relay race, which was won by the victors of the meet, the lads from Coeur d'Alene. The team was composed of Thompson, Dewald, Colquhoun, and Cood. For some reason the time was not announced. Thirteen teams entered the race.

PROF. C. C. TULL

whose new college song "Alma Mater Idaho" will be rendered in public for the first time tonight.

R. D. Bistline, '13 Geo. O'Donnell, '12

We wish to greet the high school students who are our visitors, in behalf of the entire student body, for the associated students are the publishers of the Argonaut. You are welcome as our guests and we hope to see most of you here in the near future not as guests or visitors, but as members of our "family."

Plug.

You Freshmen who weigh 14 pounds to the foot, and who can't run fast enough to catch a cold, don't get discouraged if a Senior runs rings around you. He wasn't as fast as you are when he bought his first chapel ticket. If you don't believe it, go and ask him, and when you have learned the truth, why—

Just Plug!

The fellow who, by iron logic, strung up a victory for the old school, or won the fellowship of the U., may seem to be, intellectually, on an accessible peak to you, but four years ago his pegs shook so that he could scarcely stand up in society and address the chair, and he was unable to connect two things logically to save his neck. You've got him beat a yard on the start, so—

Just Plug!

Yes, the Senior did make a cracking good speech at Y. M., Sunday. It certainly did make a fellow feel like being better. But four years ago that fellow looked like a forked stick scantily clothed, and his voice sounded like the tune the plumber plays with a hack-saw. Yes, he did do much better than you could have done yesterday, but when he was a Freshman he couldn't speak in the Y. M., as you did so—

Just Plug!

That fellow who wears the track medal will be out next year. If you "pep up," you will wear a better one four years from now. The pigeon holes in your cranium may be filled with a wad of isolated facts. Get them hooked up some way, and it will be you who will, four years from now, convince three judges that there is only one side to the question. Get into that Bible study class and learn how to live, and in four years you will be able to convince others that such work is worth while. You can't discover and get rid of your provincial togs by watching the other fellow. DON'T

stand on the side lines and wish that you could do it. Get busy! "There is no genius but the genius of hard work." Therefore, Plug! Plug!! Plug!!!

—The Cornelian.

Spokane Cartoonist Coming.

Prof. Clyde Tull has made arrangements with Mr. Morris, the well known Spokesman-Review cartoonist, to come to the University on the evening of May 19 to lecture on "The Cartoonist and his Work." The lecture which will be illustrated, will be given in the Y. M. C. A. hall in the Administration building. The English classes which have made a study of current events this year have been much interested in the work of Mr. Morris and it is primarily for their benefit that the lecture has been arranged. The price of admission will be merely nominal—twenty-five cents, as the affair will in no sense be a money-making venture.

Two more games to be arranged with W. S. C.

O. A. C. to Try New Plan.

The authorities at Oregon Agricultural College are planning a new method of advertising the institution. Instead of printing and distributing a very large number of catalogues, a very attractive little booklet will be published and sent out as widely as possible. This will contain many cuts showing the campus and the buildings and various phases of student life. These cuts will be printed by the new duo-tone process which insures beautiful reproductions. Over one-third of the booklet will be devoted to illustrations.

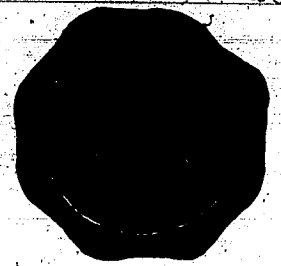

The regular catalogue will also be printed but only a limited number and in an abbreviated form. It will be sent out only upon request. Its purpose will be to give detailed information concerning the school and the courses offered. This plan will reduce expenses very materially and will also very widely and very attractively advertise the school; while all who wish more specific information can obtain catalogues upon request.

Found:—One lady's nice black fur muff, two good umbrellas, one pair gentleman's kid gloves, and two pairs ladies' gloves—one kid and one wool. Owners can get same by applying at the office of the bursar.

Tennis Very Popular.

The game of tennis is becoming very popular at Idaho just now. The courts are always occupied. The girls from Ridenbaugh hall even play before breakfast in the mornings, sometimes getting out on the courts almost before day-break. Several courts have been made by students who do not live very near the campus and these too are in use a large part of the time. Lewis court, the new gym, is the scene of daily games, regardless of the weather. The ground floor of the building makes it ideal for this game, and many girls are learning to play tennis in this big room.

CONDITION IN INDIA

Missionary From India Talks to Student Body—Problem is Serious in Orient.

Mrs. Eddy addressed assembly last Wednesday at the special request of the Y. W. C. A. girls. Mrs. Eddy, who is returned missionary from India, based her talk on the "Political Situation in India," and spoke in defense of the British governmental policy. Mrs. Eddy stated that England is not using funds derived from India as a means of enriching the home country, but that all the money received from India she invests in that country for the purpose of maintaining a standing army there, erecting governmental buildings, constructing roads, and defraying the general expenses of the government.

England maintains schools in India for the education of the natives, and the enlightenment thus received has caused many of the younger men to feel dissatisfied with their lowly condition, so that a feeling of unrest pervades the lower classes of society. The officers appointed by the British government for the administration of affairs are, in general, the best that she can get, but they often become degenerate and do not act for the best interests of the people. The result is continual animosity between the ruling classes and the large, general class of people. For this reason England is justified in maintaining a standing army there. Were it not for England's close control the friction existing between the classes would undoubtedly develop

into a decided outbreak, as occasionally happens now when the two classes are unexpectedly brought together.

Mrs. Eddy said that she would not be surprised to hear of a general uprising any day, but that she did not doubt England's power to get it under control soon. If this should occur the lives of the missionaries would be in great danger, because when the natives are armed they do not stop to discriminate, but are satisfied to wreak their vengeance upon any white face that may be in their power. Of course the officers in control would suffer greatly in such an event.

Mrs. Eddy closed by making a special appeal to college graduates to spend their lives as missionaries in foreign fields should the call ever come to them, saying that she had never regretted the step she had taken. She explained that the great work of the missionaries was educating the masses, and thus raising them to a higher plane, and she firmly believes that the problems that exist in India today can never be solved rightly until this uplifting of the people, both morally and intellectually, has been brought about through the efforts of the missionaries. When this has been done India will be capable of selfgovernment, and England will then hand the reins of government over to India, as she has done in the case of her other colonies.

A team of two men from the U. of W. law school recently won a unanimous decision over a team from the Oregon law school in Portland in a debate on the question of compulsory arbitration.

A Word of Appreciation.

With this issue of the Western Farmer we present an able article from the pen of Prof. J. H. Frandson, head of the department of dairying in the University of Idaho. There is no one in the northwest that has given a greater impetus to the dairy industry than Prof. Frandson. Mr. Frandson is a product of the middle west, having been born and raised on an Iowa farm. A graduate of the Iowa State Agricultural college, at which institution he ably filled a responsible position on the faculty staff, and was granted a degree of Master of Scientific Agriculture in 1904. Shortly after he accepted a position as dairy chemist for one of the largest commercial creameries in the west, which position he held for three years, at which time he took charge of the department of dairying in the University of Idaho. Since engaging in his work at Moscow the dairymen of Idaho and adjoining states have drawn much information from his methods and writings.

His services last year were recognized by the National Dairymen's association when he was selected as a judge of dairy products during the deliberations of the association. The strength of Prof. Frandson's abilities lie in his practical information on dairy topics and his resourcefulness in developing the dairy industry of the northwest as suited to the dairymen of this section.

In a forthcoming issue of the Western Farmer will be found a comprehensive article from his pen on "Dairying in the Northwest." Watch for it.—Western Farmer.

After the Ball Game.

Interested friend to L. G. (a Freshman girl) who has seen the ball game: "Well, how did 'Con' pitch today? Did they hit him much?"

L. G.: "Yes, they did. They hit him hard—right in the side."

VARSITY SOLOISTS HONORED.

Play Before Big Musical Club of Spokane—Press Comments Very Favorable.

The School of Music of the University has been signally honored by the engagement of two of its faculty members as soloists at the Mendelssohn Club concert at Spokane last night. Prof. E. Hellier-Collens, instructor in violin and Miss Fay Hostetter, assistant instructor in piano, left Moscow on the electric train yesterday noon and played before the musical club last night. Prof. Collens played two groups of solos and Miss Hostetter accompanied him and also rendered two piano solos. They will return today.

The Mendelssohn Club is the largest and most important musical club in Spokane and Prof. Collens and Miss Hostetter are to be congratulated upon the opportunity of making their debut in Spokane musical circles under the auspices of this organization.

Clyde Oakes, a former student at Idaho, is a prominent member of the Mendelssohn Club and is largely instrumental in securing the two Idaho artists for the occasion.

The concert was one of the largest of the season. Admission was by invitation only. It was held in the Central Christian church of Spokane.

NEW FRAT FORMED.

Recently a new organization has made its appearance here at Idaho. The appearance of several bachelor buttons in conspicuous places on the wearing apparel of some of our less socially inclined friends led to an investigation by an Argonaut reporter which resulted in the discovery of the following, which is an excerpt from the by-laws of this august body:

"We, the undersigned bachelors, in order to promote the appreciation of single blessedness, to assist our members in avoiding the iniquities of married life, to afford protection against the wiles and snares of matrimonial vultures, do ordain and establish the following rules and by-laws, to-wit:

"Article I.

Section 1. Officers shall consist of First High Mogul, Second High Mogul, First Mighty Scribbler,

Second Mighty Scribbler, First Money Jingler, Second Money Jingler, Official Hotbender, Official Stenographer and Guard of the Holy Sanctum.

"Article II.

Section 1. The official song of this organization shall be "Any Little Girl That's a Nice Little Girl."

Section 2. The official insignia of this organization shall be a bachelor's button.

Section 3. The motto of this organization shall be "Votes for Women."

Article III.

Section 1. Meetings shall be—eto." The attention of different people about our institution is respectfully called to the pernicious effects of such an organization in our midst. Co-eds are warned to be on the lookout for buttons and to see that this organization does not continue to grow (there is already one pledged to the bunch, but for obvious reasons we do not feel at liberty to disclose his name.)

Botany Club Will Picnic.

The Biology Club will go to the summit of Moscow Mountain a week from next Saturday, May 13, on their annual picnic. This is a regular affair with the students of Prof. Aldrich's department and each year a trip is made to the mountains usually about the middle of May. The day will be spent collecting and studying plants and engaging in the usual pursuits of picnickers.

Former Commandant Promoted

Idaho's first military instructor, Captain E. R. Chrisman, who was well known here, having served two terms as commandant of the cadet battalion, has recently been promoted to the rank of major and assigned to the eighth infantry, which is under orders to go to the Philippine Islands in August.

Major Chrisman was formerly Captain in the sixteenth infantry. For the last two years he has been military instructor at the South Dakota State College, where his work was very highly appreciated. The cadet battalion at that place is in the best of condition, better it is said than it has ever been before.

Major Chrisman's regiment is now on the Mexican border.

ANNUAL SOPHOMORE FROLIC.

Underclassmen Have Successful Dance—Music By The College Orchestra.

Last Friday night the class of 1913 gave the annual Sophomore Frolic in Eggan's hall. The dance was successful in every way. The crowd that attended was not so large as it might have been, but it was just big enough that every one had a fine time. There were about sixty couples present.

Dancing began at about 8:30 and continued till after midnight. The music was furnished by the college orchestra under the leadership of Prof. E. Hellier-Collens. The orchestra has established a reputation for itself. Whenever it plays, it furnishes the best of music. It is coming to be recognized as the best orchestra in the city. The music for the dance last Friday evening was of the

kind the college orchestra always provides.

The hall was decorated with evergreens and several cosy corners attractively arranged added much to the comfort and beauty of the room. The ceiling was completely covered with pine and fir boughs and the electric lights were dropped thru and suspended below this network of dark green. The orchestra was concealed behind more evergreens and punch was served in a little room very artistically decorated in rustic style.

The patronesses of the evening were Mrs. F. E. Cornwall, Mrs. F. W. Walker and Miss Nellie Regan.

Peeper had a little rat,

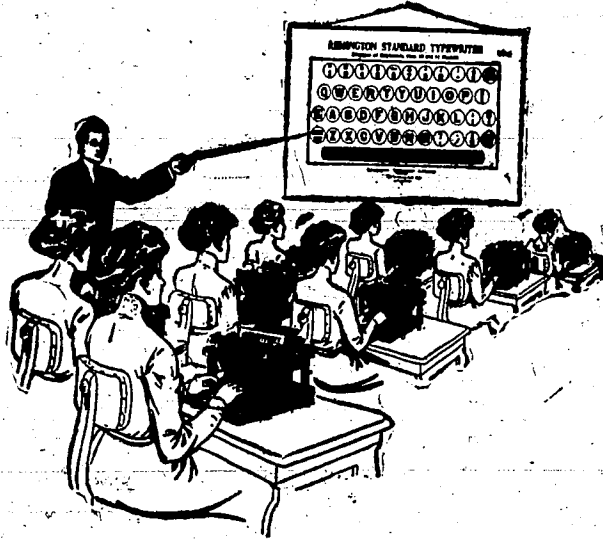

She put it in her hair,

And everywhere that Peeper went;

It peeped out here and there.
