

# The University Argonaut

VOLUME 15

UNIVERSITY OF IDAHO, MOSCOW, IDAHO, OCTOBER 15, 1912

NUMBER 3

## TAU ALPHA PLEDGES NAMED

Twelve Members of the Class of 1914 to be Initiated into Junior Honor Society.

The red and white ribbons which twelve of the men of the junior class are wearing on their lapels signify that the possessor of such ribbons has been elected a member of Tau Alpha, the junior honor society.

Tau Alpha was formed at Idaho last year by the more prominent members of the class of 1913, and the number was limited to twelve.

The purpose of the organization was never made known to the public, but in it were included members of the class who were most prominent along different lines of student activity.

Included in the members of the present junior class who were elected to Tau Alpha are eight "I" men and several honor students.

The twelve fortunate juniors are Virgil Samms, Walter Scott, Stephen Regan, Fay Robinson, Vernon Fawcett, Albert Knutsen, Rex Curtis, Banks Kinnison, George Scott, Clarence Favre, Harry Soulen and Roy F. Tuttle.

### New Track Coach.

Clarence S. Edmundson, who graduated with the degree B.S. (Agr.) in 1910, better known as "Heo" to the old timers around school, has been appointed as one of the instructors in the school of practical agriculture. This means that he will have charge of the track work in the spring.

Edmundson is one of the best track men that Idaho has ever produced. His races were the four-fourty and the eight-eighty and he holds the Idaho record in both of them, and the Northwest in the eight-eighty. Also he ran in the Olympic races at Stockholm this last summer in both the four-fourty and the eight-eighty, winning his heat in both races and getting into the finals. He ran under the colors of the Seattle Athletic club.

Mr. Van der Veer, physical director of the university is delighted with the idea of having an assistant. It means that Edmundson will handle the track work, and that Mr. Van der Veer will have more time to devote to his physical education classes.

Mr. Edmundson is married to a former university student, Miss Zona Sobulitz, one of the members of the old Beta Sigma sorority. Mr. Edmundson is a member of Kappa Sigma fraternity.

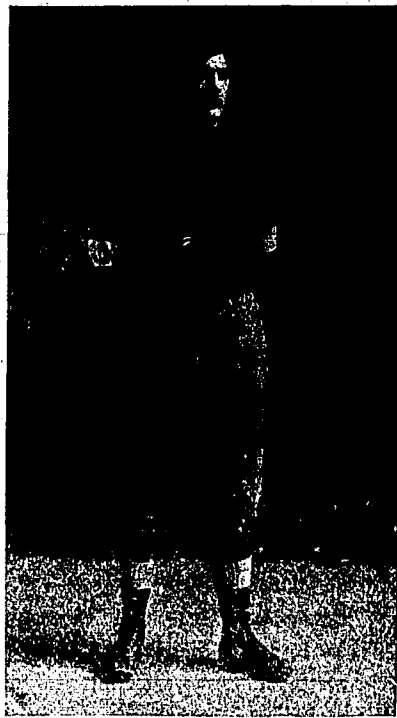

## IDAHO'S FOOTBALL TEAM IN BAD CONDITION

### Prospects for Winning from W. S. C. Badly Impaired—Hospital List Is Very Large.

With Leusohel, Johnson, Samms, and Buffing'on on the hospital list, and Knutsen ineligible on account of his studies, things do not look nearly as bright for winning from W.S.C. as they did a week ago. Leusohel was wearing his shoulder in a sling all last week, Johnson was hurt in scrimmage Saturday and is unable to use his legs, Samms has a weak ankle and Buffington a painful felon on one of his fingers.

In the scrimmage with the second team last week the varsity team was outplayed on many occasions and either the second squad is exceptionally strong or

Idaho's defense is woefully weak. Time after time the second team would tear through the varsity line for long gains. Enoch Perkins and Bobby Burns are playing the best game for Idaho at the present writing. Perkins should get away for some long runs, as he is the best open field runner among the Inland Empire colleges. Burns has improved greatly over his last year's form, and is doing some really good drop kicking. It is possible that his toe may have something to do with the deciding of the game. Two years ago on Roger's field it was Bill Hillman's kicking that won the game for

Banks Kinnison, Guard.

Robert Burns, Halfback.

## UNIVERSITY WINS MORE PRIZES

Stock takes blue ribbons at Spokane Interstate Fair.

Among other prizes won by University and Latah County exhibits at the Spokane Interstate Fair are those for livestock, for which the finest stock of the Northwest entered in competition.

The Hereford steer, owned by the University, which won at the California and Oregon fairs, also took the championship at Spokane. The Hereford calf took second, the yearling steer first, and the two-year old steer first. A blue ribbon was also taken by the Shorthorn bull.

A Duroc boar owned by the University won first, a Duroc boar sold from the Varsity drove last year won first on yearlings, and a Polard China boar sold by the University was the grand champion of the show.

Idaho, in the first two minutes of play.

With Buffington in shape, Idaho has two of the best tackles in the conference as Buck Phillips is a tower of strength in himself. With Leusohel and Samms in shape, there would be no question as to the strength of the ends as both of these men are putting up a great game, but the trouble is that they are not now in shape and are not very likely to be in the best of condition by Friday.

A game between the first and second teams was called for Saturday afternoon, but after looking over the situation Coach Griffith decided that it would be better to hold a secret practice so, ordered everyone off the field. A good scrimmage was held.

Sunday morning "Pink" called the team together for an hour and a half at the Commercial club rooms down town and went over the rules with them, the matter of training, etc.

Pullman according to all reports has as strong a team as they had last year. With the two Harters they have a foundation for an excellent line. Moeser, last year's quarter back, is having a hard time to make a place on the team. According to the Spokesman-Review, Pullman money will not be lacking at the game Friday.

Secret practice will probably be held the remainder of this week. The usual rally will occur Thursday night on Idaho field, the big heap of wood burned, and rousing speeches made.

DON'T FORGET ABOUT

## THE ATHLETIC BALL

Saturday, October 19

at Eggan's Hall. A good chance to celebrate after the big game.

All men who play in the big game will be admitted free. All others \$1.50.

GRAND MARCH PROMPTLY AT EIGHT O'CLOCK

## ATHLETIC BALL SATURDAY NIGHT

Big Annual Social Event to be Held in Eggan's Hall This Year.

The Athletic board have arranged to hold the Athletic Ball on the night following the day of the W.S.C. game on account of being unable to secure the hall for Friday night, on account of the lecture course having spoken for it first, the night it is customary to hold the dance.

Louie Jessup, who was elected to the Athletic Board in place of Ernest Loux who did not return to school this year, is chairman of the Athletic ball committee. The floor in the gymnasium is hardly fit to hold a dance on, so it was decided to have the Athletic ball in Eggan's hall. The decorations will be rather elaborate. It is planned to have goal posts at each end of the hall, with a possibility of the ceiling being marked off into a gridiron, if arrangements can be made. Many more features will be presented by the committee composed of Louie Jessup, John Hayden and Banks Kinnison.

The dance will begin sharply at eight o'clock in order to have four hours of perfectly good dancing on a superb floor.

The admission will be the usual dollar fifty. Any one desiring invitations to send to friends may secure the same by handing in the names to Louie Jessup or John Hayden.

### Wilson Leads.

The standing of the straw ballot on president which is being conducted by George Donart on behalf of the democratic committee, is as follows:

Wilson	130
Roosevelt	43
Taft	14

Albert Anderson, '16, took in the Lewiston fair last week.

There was a sparse sprinkling of students present at the Borah meeting in Eggan's Hall Friday night.

BEFORE THE BONFIRE LAST YEAR.

Will the class of 1916 be able to collect a larger heap than that collected by last year's freshmen. The class is considerably larger than ever before, but the question is, have they "per"?

### Good Openings for Idaho Mining Graduates.

E. A. Barnard, '11, E. W. Ellis, '12, Hugh Maguire, '12, graduates in mining engineering, are at the present time employed by the Amalgamated Copper Co., at Anaconda, Montana.

Their work at present consists principally in the testing of the different machines used in the concentrator and smelter, in order to obtain figures for comparing the efficiencies of these machines. In this work they are able to obtain most valuable experience in the working of the machines they are testing and they are also expected to make themselves thoroughly familiar with all the phases of the work going on at the plant.

The company also possesses a good technical library and the men in the testing department are expected to devote a certain amount of their time each day to reading in the library and to keep up to date on any new mining or metallurgical improvements described or discussed in the technical journals.

The hours of work are not long and Saturday afternoons and Sundays are free.

There are technical graduates from other schools employed at the same work but it is pleasant to note that two of the Idaho men were recently sent for by the company, which speaks well for the opinion they must have framed of the school from the work done by Barnard, the first Idaho man employed there in this work.

The more up to date of the large mining companies are finding it increasingly necessary, on account of greater depths and lower grades of ore, to get down to an efficiency basis and are using young technical graduates to do the testing necessary to obtain this basis. The probability is that there will be an increasing field in this line of work in the future and from this branch of work advance of the best men is certain to follow and the University of Idaho is fortunate in having obtained a footing in this field for her mining graduates.

Carl Loux, another 1912 graduate has recently gone to Rossland, B. C. to work for the Consolidated Mining & Smelting Co. of Canada, in either the sampling or surveying department. This is another company that believes in technical graduates and advances them if their work deserves it, whenever an opening occurs.

We hope that the work done by these graduates will be such as to bring the name of the University of Idaho to the front both in Montana and British Columbia and still further increase the field for graduates from the mining school.

Horace Chamberlain, '13, Law, is expected to return to school this week.

Louis G. Wilkins, the Amwaco fraternity jeweler, is visiting the different houses about school.

Collier H. Baffington, '12, is secretary of the Republican county committee of Latah County.

Roy Johnson '12, a graduate of the Idaho Law school went to Lewiston last Friday to take the Bar Examination before the Supreme Court of the State.

Margaret Brandt '14, who was called home by the death of her sister, will not return to school until next semester.

F. W. Theriault, '15, registered Thursday.

The agricultural college is making preparations for a large attendance of short course students this year.

Oscar Bjurklund, ex-'15, returned to school last week and registered with the class of '16.

Bert P. Woolridge, '14, was taken to Carithers' Hospital, Wednesday with a threatened attack of typhoid fever.

Mr. and Mrs. Wiley of Spokane visited with their daughter at the Delta Gamma house last Saturday.

Carl Paulsen returned from Boise yesterday where he had been called to act as a witness in a civil suit.

The contractors estimate that the new auditorium will be ready for the seats about the middle of November.

Thos. Doyle, '14, assistant business manager of the Argonaut, has resumed his school work. He has been carrying mail for the past two weeks.

Lieutenant Franklin is much pleased with the manner in which the cadets are drilling this year.

Miss Nancy Ellen Watts of Mountainhome arrived here last week to register in the special Home Economics course.

Waldorf Pendleton, the Utopian barber, had his valuable pedigreed dog poisoned last week. The remains were presented to the biology department for use of the advanced classes. He has been unable to find out who poisoned the dog.

# SOCIETY

## IDAHO RUSHING SEASON OVER

### Different Greek Letter Organizations Announce Their Pledges.

The "rushing" season at Idaho is practically at an end. One new feature inaugurated this year in that no girls could be pledged until after the first Sunday after school began. The different sororities then sent written invitations for dinner on that date and the ribbons were distributed at that time.

The rule that no person could be pledged to a fraternity or sorority until he had attained sophomore standing was not carried into effect.

Following are the "finds" of the season:

Kappa Sigma—Harold J. Adams, Boise; Raymond J. Safford, Moscow; George Tabor, L. O. Beamer, Wallace; J. R. Numbers and Sherman Gregory, Boise.

Theta Mu Epsilon—Victor Jones, Kellog; Wm. Gowan, Caldwell; Gilbert McCormick, Roswell; Howard Holoday, Moscow; Seth Freer, Minnesota.

Phi Delta Theta—Ray Brookhart, Pocatello; Jas. Lookhart, South Dakota; Don David, Moscow; Carl A. Shipkey, Arthur S. Jardine, Great Falls, Montana; Victor Sieler, Spokane; James J. Keane, Genesee; Stanley T. Brown, Palouse; Thomas Hedley Dingle, Coeur d'Alene; Charles H. Owens, Boise; David A. Eaves, Lewiston; Charles M. Ankoorn, Palouse; Ross B. Cartee, Boise.

Zeta Delta—Clarence Sylvester, George Sylvester, Roy Mitchell, Rathdrum; David Albert, Payette; Fred Babcock, Coeur d'Alene; Glenn Darnell, Payette.

Gamma Phi Beta—Constance Gyde, Anne Wilmot, Wallace; Ruth Motie, Spokane; Helen Pitcairn, Katherine Pitcairn, Twin Falls, Lorraine Rank, Spokane; Alta Taylor, Majorie Zumbhof, Moscow; Edwina Yearian, Lemhi.

Delta Gamma—Edith Bailey, Hester Pettijohn, Walla Walla; Gertrude Denecke, Boise; Muriel Leigh, Spokane; Hazel Hammermeister, Blackfoot; Anna McMonizle, Hailey and Henrietta Safford, Moscow.

Omega Pi—Alice Hartley, Emmett; Grace Holoday, Tess Keane, Moscow; Valborg Kjosness, Spokane; Lesetta Lubken, Boise; Othel Martin, Davenport, Washington; Edna Mellison, Mary Mellison, Everett, Washington; Bertha Sylvester, Dorothea Wenz, Rathdrum.

The Ladies Guild of the Episcopal church gave a dance last Friday evening which many University students attended.

### Freshman Party.

About one hundred freshmen congregated at the Gymnasium last Friday evening to make an effort to get acquainted. The evening was spent in playing juvenile game and in dancing. A few short talks were made by the class officers.

Saturday evening Mesdames Carithers and Hodgins entertained in Hodgins Hall, at a most delightful dancing party complimentary to Delta Gamma sorority. About thirty couples were present.

Sunday afternoon Kappa Sigma called informally on each of the sororities, — Omega Pi, Delta Gamma, and Gamma Phi Beta.

George W. Armstrong, a former student at the University, a football man and a member of the Phi Delta Theta fraternity was married a week ago Friday at the Presbyterian parsonage to Miss Gladys Nevitt. Mr. Armstrong is at present engaged in farming near Genesee.

Phi Delta Theta will celebrate Alumni day by a smoker, to be held in the chapter house, tonight.

Lieutenant and Mrs. Franklin were dinner guests at the Phi Delta Theta house Sunday.

Mrs. M. E. Lewis, Mrs. J. J. Day, Misses Charlotte Lewis and Lucile Dermot were dinner guests at the Gamma Phi Beta house Wednesday evening.

Senator W. E. Borah was the guest of Theta Mu Epsilon Friday evening.

Eight of the Omega Pi girls and their friends spent an enjoyable evening in dancing and toasting marshmallows at the chapter house, on Elm Street last Saturday night.

"I never did say very much before a game. I don't know what to expect from W. S. C., except that I think they have a very fast bunch. Idaho has got to put up all the scrap she ever did have to give them a battle. Idaho's team is better this year than last, but W. S. C.'s team is much better. I would like to see two nights of good, live rooting done. Lots of townpeople don't know there is to be a game. We ought to have a rally Wednesday night and one Thursday night. This not only makes the students more enthusiastic, put it peppers up the team."

COACH J. G. GRIFFITH.

"I think we will win the game, but we have got to have all kinds of backing. The students have got to go down to Pullman and show that they are backing the team. The team will play a whole lot better if they have a big gang behind them."

G. L. LARSON,  
Graduate Manager.

## THE UNIVERSITY ARGONAUT

The office of The Argonaut is in the publicity office, next door to the bursar's office. A member of the staff may be found in the office any afternoon except Tuesday. All contributions gladly received up until Monday noon of each week. Paper goes to press Tuesday.

For the benefit of all new students, it is the custom for the freshmen to gather material for a huge bon fire which will be set on fire the night before the day of the Idaho-W. S. C. football game which means this year Thursday night of this week.

The strong showing of the Idaho squad this year would justify one of the largest fires in the history of the institution. Every Idaho student and supporter should attend the rally which will begin about seven o'clock on Idaho field and every one that attends the rally should attend the game next day. Speeches will be made by the football men and the student body leaders at the fire, yells and songs will be practiced, and then a serpentine will in all probability be formed around the burning heap and then march up town and rush the picture shows.

And don't forget to bring your pajamas or nightshirts or you might feel a little out of place.

For once, forget about your lessons for next day.

Tau Alpha was organized last school year by twelve men of the Junior Class for the purpose of forming an honorary society. In due time the organization petitioned for recognition by the faculty. At a regular faculty meeting, recognition was denied them. No definite reason was given for denying recognition, although it has been suggested that the scholarship of some of the members was not as high as it should be if they were to belong to a "Honorary Society". Another reason why it was turned down was probably because certain members of the faculty thought there was not enough room for a society of this kind at Idaho. At any rate Tau Alpha received no faculty recognition.

Nevertheless, this year the charter members of Tau Alpha who returned to school proceeded to elect twelve men of the Junior Class who will be known as members of the honorary society of the class of 1914.

A number of fraternity and sorority rules and regulations were passed by the faculty in 1910. One of these reads as follows:

"No group of students shall organize a local fraternity or sorority or apply for or receive a charter from a national or-

ganization unless authorized to do so by vote of the university faculty on recommendations of the committee on student organizations."

In the strictest sense Tau Alpha probably could not be considered as a fraternity, but inasmuch as it has petitioned for recognition and has been denied the same, it is either up to Tau Alpha to disband, or else up to the faculty to recognize it for what it stands for.

Not a sign of the green caps. One freshman, when asked when he was going to start wearing a green cap, was forced to admit that he did not know much about the matter. He said that he understood the freshmen were going to make their own caps this year, and that he guessed it would be quite a while before he started wearing his cap, and that he didn't suppose it would be very good looking then.

Who is supposed to notify the freshmen that they are supposed to appear with the required decorations on or before a certain date? The president can hardly be held accountable. At least the constitution doesn't provide for such contingency, as it states that the president shall preside at all meetings of the Association and of the Executive Board, \* \* \* and he shall also perform all other duties usually appurtenant to the office, with no mention of a freshman being supposed to provide himself with a green cap

In the old days the Ohadi Club, the Senior Honor Society, took it upon itself to tend to such important matters, but that Society is no more. Why not let the Tau Alpha organization attend to it?

But we would like to see the green caps.

So far we have been unable to find out whether or not there will be a freshman-sophomore football game. For the past two years games have been played between these two teams, and there is no apparent reason why there should not be one this year. The two games that have been played, were both good exciting games, the score in each case resulting in a tie, the first year, nothing to nothing, and last year, six to six.

### Receives Arctic Insects.

Professor Aldrich has received a collection of insects made by a member of a government surveying party working along the east line of Alaska, from the Arctic Ocean southward. The collection was made by J. M. Jessup, a geologist accompanying the engineers. It contains about 300 specimens of the insects of that region, many hundreds of miles from any point where insects had been collected before. Professor Aldrich will probably publish a report in one of the scientific journals on the species found by Mr. Jessup.

## STUDENT AFFAIRS

### Borah Speaks.

Senator Borah delivered a short address to the students and faculty of the university at the gymnasium on Friday afternoon of last week. A hearty demonstration of welcome was given to the senator on his arrival, and a few selections were rendered by the college orchestra.

Everybody seemed to appreciate the fact that the senator had a difficult audience to speak to under the circumstances, and were anxious to know just what he would say. His address was very short but to the point. He spoke of the increasing popularity of the University in all parts of the state and complimented the institution on its growth. "I always feel a sharp interest in the university," said the senator, "and, therefore, make it a point to find out where ever I go just how the people look upon it, and find universally that it is increasing rapidly in popularity."

He spoke of the prevalent idea of first getting a fortune laid away and then taking up duties politic. "This idea is entirely wrong," said Mr. Borah, "Education should benefit county, state and nation, rather than business alone."

The senator further expressed the idea that we want young energetic men in politics rather than retired business men who seek merely honor and leisure, if not private interests.

### Pacific Debate.

The third and perhaps the last annual debate between Idaho and the Pacific university will be held somewhere about Christmas time. The question which has been chosen for debate reads as follows: "Resolved, That Labor Unions Should be Incorporated."

A meeting of all aspirants for debate honors is being held today. The purpose of the meeting is to analyze the question and give the new debaters an outline on which to work. A try-out debate will be held in the near future for the purpose of selecting members for the two teams. The team representing the negative will go to Forest Grove while the affirmative will defend Idaho's laurels at home.

We won a unanimous decision over Pacific last year, and there is no reason why we cannot do it again. But if we are to do it, some one has got to get out and work, and if you are a debater at all consider that some one as being yourself. Those who wish to know more about the subject might see Prof. Hulme, who will coach the teams as usual.

Mark Anderson, '15, is expected to return to school this week.

### At Assembly.

The address at assembly last week was given by Mr. Smook, progressive candidate for congress. The subject of Mr. Smook's address was "The Three Ps' of Education."

"Every man," said Mr. Smook "to make a success in this life ought to have a well defined purpose, a friendly star to which he can look for guidance and energetic progress."

His discussion was filled with interesting illustrations, and funny stories. Mr. Smook proved himself to be a fine story teller as well as an interesting speaker.

### Requirements for the Master's Degrees.

#### 1. Conditions of Candidacy:

A graduate of one of the colleges of this university, or of another institution in which the requirements for the first degree are equivalent, may become a candidate for the corresponding master's degree by making an application on a blank form provided for the purpose. The application must be submitted for approval to the committee on graduate instruction and degrees not later than October 15th.

2. Nature and Amount of Work: The minimum requirement shall be twenty-four credits in addition to the thesis, at least one-half to be graduate in character. Not less than twelve credits may be in the major department.

3. Residence: One year's resident work is required of every candidate who has not received a first degree at this university. Graduates of the University of Idaho may be permitted, in special cases, to spend one semester at some other approved institution.

4. Examinations: Final examinations are required upon the completion of each subject.

5. Thesis: A thesis upon some subject connected with the major study is required, unless waived by the committee, upon recommendation of the major professor. This subject must be submitted for approval to the chairman of the committee on graduate instruction and degrees before Nov. 15th. Two typewritten copies of the thesis in specified form shall be deposited in the university library.

6. Degrees: The degrees offered are—Master of Arts, M.A.; Master of Science, M.S.; Master of Science in Agriculture, M.S. (Agr.) and Master of Science in the respective branches of engineering, M.S.(C.E.), etc.

7. Fees: Before receiving his degree the candidate shall pay a diploma fee of ten dollars and any unpaid laboratory fees.

# SPORTS

## Football Notes.

Lots of scrimmage last week.

A good defense seems to be the coach's first desire. After the defense comes the offense with him.

Last year Idaho was weak on ends. This year there are about five men who are better than the best of last year.

Shipke, who has been playing end due to the injuries to Samms and Leuschel, has been doing some fast work in breaking up plays and picking his man behind the line. He is easily varsity material.

The following men were found ineligible by the faculty athletic committee on account of their scholastic standings: Hughart, Keefe, Knutson and J. Gerlough. Knutson will in all probability have his work in shape in time to play in the W.S.C. game.

Bill Main, captain of last year's team at Oregon, is now assistant coach at that institution.

Graduate Manager Larson turns out each night in a uniform and plays with the second team. Gus has a little extra weight on him but considering the time he has been out of the game he does remarkable work.

Instructors Bibby and Hayden also turn out every night to play with the second team. Bibby is a South Dakota man and Hayden comes from South Carolina. Both are big men and bust up many plays.

The game with W.S.C. is on a guarantee basis this year. That is Idaho will receive \$1055.00 in cold cash, no matter how great the crowd. That is the exact amount they received from the game here last year.

The special train will leave the N. P. depot at one o'clock and return after the game. The round trip will be the usual sixty cents, and the admission to the game is one dollar.

Mr. Larson is trying to make arrangements so that the band may get into the grounds free at Pullman. Owing to the guarantee basis, the graduate manager has no complimentary tickets at his disposal.

Virgil Samms has been troubled with a weak ankle lately and has taken no part in the scrimmage during the past week. He has, however, taken part in all signal practice and will, no doubt, be able to go into the W.S.C. game.

The second squad that Idaho has had this year would not have a great deal of trouble in defeating a team of Idaho's strength last year.

## In the Gymnasium.

In the cross country run held last Saturday under the direction of Physical Director Van der Veer, Lyle Rowell finished first with Homer Youngs a very close second. About six men took part in the run. The course was about three and one-half miles. First prize was an Idaho fob; second prize, an Idaho button.

Miss Stephens will hold her first dancing class Saturday morning from eleven to twelve instead of from eight to nine as announced last week. The walking club will sally forth but once a month and on that day, the lesson will probably be given from eight to nine in the morning. All college men and women who do not dance are cordially invited to attend these lessons. There is absolutely no fee connected with the course.

The walking club under the tutelage of Miss Isabel Stephens, head of the Women's physical department, walked over to Gene-see ridge and back Saturday. The club was eighteen strong. Upon their return lunch was served in Miss Stephen's rooms.

L. J. Thometz, the aggie who made such a wonderful record on the dynamometer two years ago, registered today in the school of practical agriculture.

The short course aggie seems to take much more interest in gymnasium work than does the ordinary college student.

Some of last year's basket ball team have begun to limber up a little in the gymnasium.

The democrats of Southwest Moscow precinct, in which the university is located, are not satisfied with having a good man at the head of their ticket, but have placed a couple of good ones way down at the bottom, nominating Harvard Query for constable and John M. Boyle for justice of the peace. Mr. Query is student in the agricultural college, residing with his mother and sisters just north of Morrill Hall. Mr. Boyle is in the second year of his law course in the university, married and living with his family at 713 S. Adams, south of the M. E. Lewis house in the eastern part of town. Both are worthy of the honors proposed, and will probably be elected if the students who vote do not forget to go clear down to the bottom of the ticket. There is nothing partisan about the matter, as it is understood that one man is a democrat and the other a republican. The precedent may be of considerable importance.

The Rhodes examinations began this morning under the personal supervision of Dean Eldridge. Five men are taking the examination which will last two days.

## LECTURE COURSE A GOOD ONE

Six High Class Entertainments  
To Be Given in Moscow  
This Winter

Through the efforts of Superintendent Otis Randall of the Moscow Public Schools, the students of the University will have an opportunity to hear some of the great musicians and speakers of the country during the winter.

Season tickets may be obtained for two dollars. To attend all of these without a season ticket will cost at least \$3.50. The first entertainment comes Friday of this week which is

### THE BERGEN-MARX COMPANY.

Four notable artists comprise the Bergen-Marx Company, the biggest musical attraction booked under Redpath management this year.

Alfred Hiles Bergen is a native born American who has had a decidedly meteoric career. He has studied with some of the greatest American vocal teachers and has also done special work in German lieder with George Henschel of London. His repertoire comprises some 900 songs and several oratorios.

Leon Marx appeared with the Theodore Thomas Orchestra for ten years. At the age of twenty he held the position of first violinist in this famous organization and later on played solos accompanied by the Thomas Orchestra. Mr. Thomas has joined in the applause for an encore for Marx solos.

While in Berlin Mr. Marx competed with forty-eight musicians for a scholarship under Dr. Joachim and won the prize. Less than a year ago Mr. Marx

was appointed assistant concert master of the Chicago Grand Opera Company, one of the highest positions that can come to a violinist in this country.

Hans Dressel, the violoncellist with this company, was born in London. He appeared at an early age as a pianist in both public and private recitals and later continued his studies abroad, going to Welmar, where he eventually made the violoncello his principal instrument with the world renowned Grutzmacher for his master. Making great progress, he soon went to London, and while at the Guildhall School of Music he became first winner of the Libotton prize for the violoncello.

Mr. Machlin, the pianist with this company, received his first training in the cathedral choir at Salisbury, England. He studied the piano and composition under Dr. Clark's ward for some six years. He went to Winnipeg, Canada, in 1905, where he taught for a number of years, continuing his studies in technique with John Sebastian Ambler.

Better try some of that varsity sherbet for your Sunday dinner. Phone your orders to the U. of I. creamery before Saturday noon.

Don't fail to attend assembly tomorrow (Wednesday). Big rally will take place.

Rex Curtis, '15, prominent varsity athlete will not return to school this year.

## LETTER FROM FIRST RHODES SCHOLAR

Lawrence H. Gipson Now Head  
of Department of History  
in Wabash College.

Dean J. G. Eldridge,  
The University of Idaho,  
Moscow, Idaho.

Dear Professor Eldridge:

It really seems a great while since I was a student at the University. In fact, it will be in a short time ten years since the day of my graduation. When looking over the catalogue, the names of but four or five of the faculty are familiar. What a change time does make with even such a permanent thing as a university. Within these ten years, I have had the Oxford and European experience, the years at the College of Idaho, the work at Yale, and now I am at Wabash, with plans in the process of realization for getting my doctorate at Chicago,

The past summer at Chicago was most enjoyable. We saw a good deal of Prof. Cogswell while there, for he was rooming on the same street and only about five blocks away. Of course I should like to have my degree from Yale, but no summer work is offered there. There is a spirit about Yale that is finer than anything that I have ever seen in any other school. She is grand, old Yale to me, and the treatment that I received from the faculty was the finest possible. Not only did the Department of History offer to renew my fellowship, but they pushed me strongly for posts at Amherst, the University of Manitoba and Wabash respectively. Wabash was the first to make an offer of a post, so without waiting to hear from the other institutions, I wrote my acceptance.

The past year's work here was full of interest for me. Like Yale, Wabash is a men's school with a student body that numbers about three hundred and fifty. All its work is of college grade. The college is a strenuous place and on the field our athletes are called "the Little Giants" by the students of other institutions. It is hard for me to realize that I am now working as full professor, side by side with some few men of national reputation, such as Kingery in Latin and Garner in Chemistry.

Smith, head of the Department of Chemistry at Columbia, and Coulter, head of the Department of Botany at Chicago, were drawn away.

Sincerely yours,  
LAWRENCE H. GIPSON.  
607 S. Water St., Crawfordsville Ind.  
September 16, 1912.

The Moscow Boy scouts will march to Pullman Friday to attend the big game.

Miss Margaret Stolle, who is teaching this year in Culesac high school spent the week-end at the Gamma Phi Beta house.

If you shave yourself it's a safe bet you don't enjoy it. Try Russel & Rowland's Barber shop for a good shave.

# EXCHANGES

The changes which have been made since last season in the rules of football have not yet been fully tested, and not even the men who drafted the new regulations know exactly how they will affect the play. But the common impression is that the additional down given to the side carrying the ball will encourage what is known as "line-busting" and will tend to make the game what it was several years ago, before an unusual public demand had forced the "open game" on the rules-makers, almost all of which were aimed at reduction of rough play. The increase in the number of points scored by a touchdown is another bit of evidence that the other men, who are responsible for football, would like to get back to the days when there was nothing on the game except a continuous series of plunges into the line.

It is evident that 2 or 3 the scores in the past few years have been made the excuse for reorganization in the game. Apparently the influential men in football want to eliminate chances and to make it certain that the team which has the heaviest players will nearly win with that object in view they have abandoned the "on-side" kick, one of the greatest plays of the game, have given more value to the touchdown, so as to discourage long-kicking, and have increased the number of downs in order to make it possible to score by short passes through the line. That development will not make the game more interesting or more popular, and if they accomplish what they were designed to bring about the sooner they are abandoned the better it will be for the players and spectators.

After all, matters of this kind cannot be decided in a hurry, but the thing to aim for is a new game, like American football, in the physical point and the

E. D. Farquar, leader of the new wing of the Administration Building at the University, suffered a severe injury of the head and spine Wednesday, from a fall. The elevator which is used to bring building material to the top of the eighth and Farquar went up to remedy the difficulty. The most serious cause has been found to be an old iron bar. The bar of the head and spine and a contract is being considered. He is still hospitalized at the hospital.

See Russell & Howard for first class shirts and trousers.

presence of the players, not the reputation of the coaches.—Harvard Alumni Bulletin.

Following financial difficulties encountered in the management of the "Eyes", the University of Washington issued a statement which, as an expert, meant was issued over a few months in a whole last year. Columbia University's "Eyes" has recommended that the management of the book be turned over to the Board of Trustees.

For the first time in the history of Montana State College, the students will not have green caps this fall.

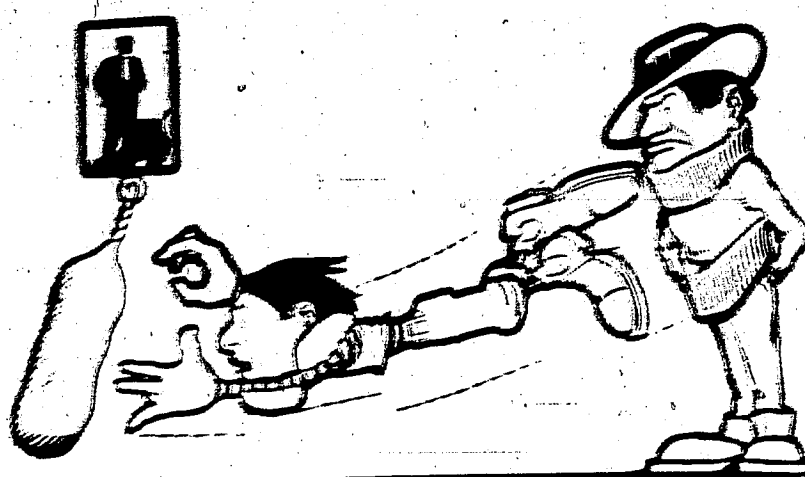

The University of Montana reports a record registration of 225 students this year. The Freshman class numbered 104.

At the University of Oregon, the resolution passed by the faculty that the "Council of Management at the expense of the student body, demanding reduction of the best maintained and it should be discontinued." It was the intention of the faculty to merely get on record against that practice and not to prevent it.

Theta Kappa, social society at W.S.C. has received a charter from Alpha Delta Psi. Installation was held a week ago Saturday. Theta Kappa was organized October 5th, 1906, by eight charter members. Alpha Delta Psi is present composed of engineers, active members. While not having a large chapter, it is nevertheless a strong society in every respect.

The meeting was held at the gymnasium at W.S.C. in the annual football game a week ago Saturday by a score of two to nothing. Regular time was played on both halves.

At a meeting of the Northwest section of the Institute of Mining Engineers at Spokane last week, Joseph H. Hartley of the Forestry department read a paper on the "Treatment and Preservation of Mine Timber." Professor Sewell, of the Forestry department, spoke on the "Application of Micro-organisms in Mining Geology." Professor E. S. McCaffery, head of the Mining department, was received chairman of the section.

There's a right and a wrong way to do everything. It's the same with reaching the summit, as it is with selling clothes. It's all in knowing how, when, and where.
