

The University Argonaut.

VOLUME 15

UNIVERSITY OF IDAHO, MOSCOW, IDAHO, MARCH 5, 1913

NUMBER 21

COACH GRIFFITH CHOOSES ALL-STARS

Places Two Washington, Two O.A.C., One W.S.C. Player on Mythical Five.

The All-Northwest basketball team as chosen by the Argonaut last week does not quite suit coach "Pink" Griffith. Instead of placing Walker and Lowery on the team as forward and guard respectively, he chooses Anderson and Dewey. In commenting on his selection, Coach Griffith says:

"Byler is the cleverest forward in the conference. He is a good dribbler and a pretty shot. There is no question about his deserving the place. Anderson is fast and exceptionally good on floor work. From the middle of the season on, he did fine goal shooting and was consistent at it, getting four or five, or even more every game."

"Savage is the most consistent performer at center. He is valuable both as an offensive and a defensive player. He did good defensive work and under the basket was dangerous on account of his height. Darling of O. A. C. and Fenton of Oregon deserve mention. Darling usually got the best of the jump-off in all his games, I am told. Fenton, on account of sickness, did not come up to the form he has shown during the past two years.

"Sampson is easily the best guard. He is a good dribbler and a sure shot, both at field goals and free throws. I feel that O. A. C. deserves recognition on account of their work this season and I place Dewey as the other guard. He plays close and is good on field goals; he is a fast, experienced player.

"In this combination I would have Savage play a defensive game. He was the most effective defensive player on the Washington team. Sampson and Dewey both play a good floor game and break away for frequent goals.

"Other men who deserve special mention are Keane of Idaho, McFee of Washington, Lowery of W. S. C. and Walker of Oregon. Keane is a remarkably consistent player and is just about the best defensive guard in the conference. McFee is especially clever at breaking away and slinging in baskets. Lowery's dribbling is worthy of mention.

Winifred Brown, Rose Sieler, Mabel Rudisell, Othel Martin, Bertha Sylvester and Mrs. Clarke were the guests of Phi Delta Theta at dinner Sunday.

KATHRYN SMITH who has a prominent part in "In The Sleeping Car" Fri. night at Eggan's hall.

SENIOR PLAY ON FRIDAY NIGHT

Farce Comedy and Vaudeville Entertainment to be Given in Eggan's Hall.

Manager Herbert Whitten of the Senior play has arranged for the staging of the performance for Friday night March 7th. The entertainment will take place in Eggan's hall, and very popular prices will prevail. Instead of the regular seventy-five cent or dollar seats, Manager Whitten figures it will be more profitable to charge but thirty-five and fifty cents, thus insuring a larger attendance. "Because we are charging such popular prices, it is no criterion of the performance, for it will be some class entertainment," says the business manager.

In addition to the one act farce, "In the Sleeping Car," in which Kathryn Smith and Enoch Perkins will have the leading parts, there will be some really clever sketches, vocal and instrumental music. There will also be some fancy dancing and some clog dancing.

The proceeds will go to help out on the deficit caused by the 1912 "Gem of the Mountains." The class is about four hundred dollars in the hole and it will be necessary to make this up before the members of the class will be granted their diplomas. An informal dance was given last fall by the class, but it was very poorly attended, only a small sum being netted.

The cast for the comedy "In the Sleeping Car," was chosen by a committee consisting of Proctor K. Perkins, chairman, Clyde Cornwall and Kathryn Smith, follows:

Mrs. Roberts—Kathryn Smith; Mr. Roberts—Ted Watts; Californian—E. Perkins; Willis Campbell—L. I. Case; Aunt Mary—Winifred Brown; Conductor—Claude Heard; Porter—Roy Armstrong.

ENOCH PERKINS who has a leading part in "In The Sleeping Car," Friday night at Eggan's hall.

MAY HAVE BASKET BALL SERIES

Graduate Manager Larson Trying to Arrange a High School Tournament.

Graduate Manager G. L. Larson has been corresponding with the Genesee, Nezperce, Wallace and Moscow high schools in an attempt to arrange a four team tournament for the championship of northern Idaho to be played in the gymnasium next Monday and Tuesday night, March 10th and 11th. Wallace is the only team against the proposition, as they claim it will be impossible for them to attend. No definite arrangements have been made pending their final answer.

Genesee defeated the Moscow high last Friday night with ease, by a score of 47 to 19. Saturday afternoon they played against a team headed by Jim Keane in the Idaho gym and again were successful, piling up eighteen points to the scrub team's fourteen. Genesee has some good men in the Gray brothers, Wardrobe and Martinson. Martinson is about six feet two and weighs close to two hundred pounds, stripped. The Rathdrum team which last year played Genesee to a standstill, did not show up very well this season. Three of last year's team are registered in the university, McNett, Mitchell and Sylvester.

W. S. C. will hold a high school basketball tournament the end of this week. All of the best high schools in eastern Washington and northern Idaho will participate. It is the intention of Mr. Larson to have the Nezperce and Wallace teams come over directly from W. S. C. instead of going home and then returning.

MR. SHUEN AD- DRESSES Y. M. C. A.

Distinguished Chinese Student Speaks of Religion in China.

Liszt hall proved too small for the large number of men who came out to hear Mr. Shuen speak on conditions in his native country. This distinguished Chinese scholar will take the bachelor's degree in electrical engineering at the University of Idaho next June.

Besides having a wide knowledge of affairs in China, Mr. Shuen possesses a surprising command of English. He first treated of the chief native religions of China and then dwelt at some length on the high place which the Y. M. C. A. holds in both the mission and the government schools of China. The Y. M. C. A. not only has a high place in the influential circles of the new republic, but is destined, says Mr. Shuen, to soon occupy a much higher and more useful position throughout the Chinese nation. As in this country, the Y. M. C. A. in China has the advantage of being an inter-denominational organization and also makes a wide appeal to young men who wish to develop the three-fold nature—mind, body and spirit. The two phases of Christian missions which have most impressed the Chinese people were the relief of distress caused by famine and the work of the Red Cross society in caring for the sick and wounded during the Chinese revolution.

After this main talk, Mr. Shuen answered in a most interesting manner several questions put by members of the audience. As a striking evidence of the determination of the new government to carry out thorough going reforms is the law providing for the summary execution of any persons convicted of opium smoking.

Professor Stafford and Professor Shinn of the U. of O. are perfecting a continuous process for the preparation of acetic acid, alcohol and tar from shavings, sawdust and the refuse of lumbering camps. If they are successful, they will create an industry of great value in the northwest.

HARVARD.—Before students can be promoted to the junior class they must pass an oral examination in French and German. Many men who could write good examinations fall down on this oral work, it is said, and many of the cases of probation by which the athletic teams are embarrassed are caused by this rule.

The office of The Argonaut is in the publicity office, next door to the burzar's office. A member of the staff may be found in the office any afternoon except Tuesday. All contributions gladly received up until Monday noon of each week. Paper goes to press Tuesday.

After a bitter struggle, the Robinson bill providing for the removal of the agricultural college to Twin Falls has been killed in the legislature. Members of the legislature, we desire to thank you for your action in preventing the segregation of the different colleges. To have separated the agricultural college from the university proper would have set back higher education in the state several years. The agitation to move the mining school to Wallace never came to a head. Even if the university must be moved from Moscow, let the state school of higher education be kept intact.

The committee on state institutions have been very liberal in their recommendations for the financial support of the school. One hundred and fifty-four thousand dollars have been recommended for the maintenance of the school for the next two years. This is more money than has ever been received from the state for this purpose. Eighty thousand dollars have been recommended for the women's building, and forty thousand for the equipping of the forestry building which is to be built at the expense of the lumber interests of northern Idaho. Also a recommendation has been made that several thousand dollars be appropriated for poultry buildings.

The University of Idaho has no grounds for complaint for the treatment it has received from the hands of the incumbent legislators of the state of Idaho. Everything looks bright for the future.

Every student of the University of Idaho should attend one of the teas which are being given under the direction of the Home Economics club. It is an excellent place to widen your acquaintance. These teas are something in college life that you should not miss. It makes no difference whether you are girl or boy, fraternity or non-fraternity, attend these teas.

More Pink Teas.

Similar to the custom of two years ago when the pink teas were held in Ridenbaugh Hall, the Home Economics club have arranged to give a tea every Tuesday afternoon between four thirty and five thirty in the women's rest room in the Administration building. The arrangements are in charge of a committee composed of Miss Iva Emmett, chairman; Edna Larsen and Gertrude Denecke.

"The purpose of the teas," said Miss Emmett, "is to promote a better acquaintance among the university students. We are selling tickets for the remainder of the season, which will entitle the holder to one cup of tea at each of the thirteen teas, for the nominal sum of twenty-five cents."

Tickets have been placed in the hands of several students, and every one is urged to take advantage of the opportunity to get acquainted with each other at these gatherings. The first tea was held Tuesday afternoon.

Dorothy Bovill, who has been visiting the University for the past week left Friday for her home in Coeur d'Alene. Harriet Wildenthaler and Margit Waale accompanied her and will be her week end guest.

The students at the U. of W. are circulating a petition requesting that the Liberty bell be held for a visit at the campus on its way to the San Francisco fair.

DEAN M'UTCHEON HOST AT DELIGHTFUL PARTY

One of the truly delightful affairs of the social season was that

last Friday evening when Dean O. E. McCutcheon entertained a company of friends, largely from the university circle, at a most unique and pleasant evening in the Guild hall.

The guests were received by Dean McCutcheon, Mrs. J. A. MacLean, Rev. Jonathan Watson, Mrs. W. A. Carlisle, Dean and Mrs. J. G. Eldridge, Dean and Mrs. C. N. Little, Dr. and Mrs. J. M. Aldrich, Dr. and Mrs. C. L. von Ende, Professor and Mrs. H. P. Fishburn and Mrs. Isaacson.

The formal reception was followed by some delightful musical numbers, Professor Collens playing the Chopin-Sarasate Nocturne Op. 9, and Professor E. H. Storer in splendid voice singing the beautiful Thomas song "Winds in the Trees." Both graciously responded to the enthusiastic applause with charming encores.

From 9:30 until 11 o'clock the guests indulged in dancing, and at 11 the ladies of St. Mark's Guild served the delicious refreshments.

The luncheon was followed by a spoon and apple race for men, won by Professor C. A. Stewart, with Professor Lyman P. Wilson distinguishing himself as a classy also-ran, and this by the whistling race, in which at a signal the ladies raced to their partners who whistled a measure in their ears. The lady who distinguished and named the air first, and raced back to her position was winner. This was Mrs. Fishburn, while Mrs. McCaffery won the consolation.

At midnight there was presented an allegorical representation of March, which upon the stroke of 12 came in like a lamb. The lamb was Miss Stevens, who danced a few measures during the passing of the 31 days, and was frightened away by the arrival of the lion, Professor Lehman. Both were masked and costumed appropriately and the little allegory was a most delightful entertainment.

The guests were: Mrs. J. A. MacLean, Mrs. W. A. Carlisle, Dean and Mrs. Little, Dr. and Mrs. Shattuck, Dr. and Mrs. J. M. Aldrich, Dr. and Mrs. C. L. von Ende, Rev. Jonathan Watson, Lieutenant and Mrs. Franklin, Professor and Mrs. McCaffery, Judge and Mrs. Truitt, Dr. and Mrs. Stewart, Mr. and Mrs. Collens, and Miss Regan, Mr. and Mrs. Frevert, Mr. and Mrs. Fishburn, Mr. and Mrs. Wilson, Dr. Moore, Mrs. Isaacson, the Miss Sweet, Miss Schermerhorn, Miss Shearer, Miss Holoday, Miss Brewer, Miss Hoover, Miss Stevens, Miss Hostetter, Dr. Steinman, Dr. Garney, Dr. Kostalek, Mr. Wilbur, Mr. Butterfield, Mr. Lehman, Mr. Hall and Mr. Storer.

Regrets were sent by Judge and Mrs. Steele, Miss French, Mr. and Mrs. M. E. Lewis, Dr. Patterson and Professor Larson.

SPORT GOSSIP.

The track championship of the conference will probably lie between Whitman and Oregon.

Bowman has been elected captain of the University of Washington track team in place of Courtney, the sprinter, who did not return to college.

"Jim Lookhart will not be eligible for the track team this year," says Graduate Manager Larson. "The one year residence rule prevents him from taking part in meets with the other colleges of the conference."

Many of the men students of the college are taking advantage of the opportunity to obtain exercise by playing basketball. Almost any afternoon, there are four or five games played in the gym.

Sheridan, the distance runner, who took two firsts in the last indoor meet, will probably be ineligible for track on account of his scholarship. It is understood that besides being back in his school work, he is in bad with the military department.

Coach Griffith has a nice little squad of baseball men out in Lewis Hall each afternoon warming up. He is placing special emphasis on the batting. "I wonder what it would seem like to have a good bunch of stickers," said the coach. "As long as I have been at Idaho I have never had a first class hitting team."

The coach should not worry greatly about his pitching or catching staff this year. Among the men working out for the box are Hayden, Jardine, Gerlough, Kinnison, Keane and two or three freshmen. Hayden is the only "I" man. Robinson and J. Sigurt Anderson, both caught first class ball in the interclass series last year. Anderson showed up especially well in his batting.

Dr. Steinman's Book in Second Edition.

Dr. Steinman has just received word from his publishers that his book on "Suspension Bridges and Cantilevers," published last year, is all sold out and a second edition is called for. The author is now busy going over the book to make minor changes and to bring the bibliography and tables up to date.

We congratulate Dr. Steinman upon the marked success of this book, which is rather unusual for works of such technical character. We are eagerly awaiting the publication of his new book on the "Theory of Arches," which is soon to appear.

Dr. W. N. Ferrin, president of Pacific University, has recently tendered his resignation to the board of regents of that institution. During the time required to fill his position, a committee will not in his capacity.

Professor E. J. Iddings left Friday morning for Nampa.

G. D. Turnbow, '16, spent the week end at his home in Palouse.

Lawrence O'Neill, '14, spent the week end at his home in Lewiston.

Fred Babcock, '16 law, spent the week end at his home in Coeur d'Alene.

Dorothy Boville was the dinner guest of Delta Gamma Friday evening.

Miss Mary Sylvester was the dinner guest of Omega Pi Friday evening.

Professor G. E. Frevert left for Spokane Thursday on a brief business trip.

Roy Mitchell, '16, who has been confined to his room with sickness is able to attend school again.

Ursel Strohecker and Jessie Coram were the guests of Delta Gamma at dinner Monday evening.

Misses Johnson and Turnbow of Palouse were the guests of Ruth Hill at the dormitory last week.

Mrs. J. E. Gyde and daughter, Miss Sallie Gyde of Wallace spent the week end with Constance Gyde, '16.

R. D. Leeper, '13, has returned to school. He was called home by the death of his mother two weeks ago.

Mrs. Gyde and daughter Sally of Wallace have been visiting Constance Gyde at the Gamma Phi Beta House.

Mrs. J. E. Gyde, Constance Gyde and Anna Wilmont were the guests of Zeta Delta to dinner Friday evening.

Marie Kettenbach returned Sunday from her home in Lewiston, where she was called last week by the sudden illness of her mother.

Miss Hoover entertained informally Saturday afternoon in honor of Althea Ott, Edna Larsen, Iva Emmett, Kathryn Smith and Elizabeth Hayes.

Katherine Pitcairn, accompanied by her mother, left Monday morning for her home in Twin Falls, being forced to leave college on account of ill health.

Miss Mary Sylvester of Minneapolis and Ernest Sylvester of Rathdrum are visiting their sister Bertha Sylvester and their brothers George and Clarence Sylvester.

Zeta Delta entertained at dinner Sunday the Misses Mary Sylvester of Minneapolis and Zella Bigbam, Vivian Allen, Fern Berry, Hazel Woods, and Dorothy Wenz; and Ernest Sylvester of Rathdrum.

The Law edition of the Argonaut has been postponed from the 12th of March until some time in April on account of the senior laws having to take the bar examination at Lewiston on March 17th.

AT ASSEMBLY

The musical number at assembly last week was a vocal solo by Miss Audrey Carr. The address was by Professor Iddings of the Agricultural Department. The lecture was on the "Live Stock Industry in Idaho." "There are three reasons," said the Professor, "why I have chosen to speak upon the subject: first, it affords variety; second, it is a subject of great importance; and third, it is the subject upon which I am most fitted to talk."

The Professor spoke of the mining, forestry and horticultural industries of Idaho and after speaking of their importance he said, "Giving due credit to these industries and others which might be mentioned, I believe that the future of Idaho depends more upon the live stock industry than upon any other."

In his enthusiasm over the great produce of this section of Idaho, Mr. Iddings declared, "If you were to take all the wheat that grows in one year in this section of Idaho, and after milling it into flour, were to make a pancake of it and spread it out, it would cover the broad territory of this grand United States, a portion of Europe and on over to furnish food for generations of the heathen Chinese; if you were to take all the cattle which are raised in this part of the state and transform them into one cow, she could be able to eat laurels off the equator and knock icicles off the north pole with her tail; and if you were to take all the chickens raised in this district and concentrate them into one old hen, so large would be her frame and so mighty her feet that she would be able to scratch on the Panama canal in less than twenty-four hours."

The Professor then went on to show that the countries which have made the greatest success in agriculture, have been where live stock have been raised in connection with farming, the reason being that the life of the soil is not shipped to another country but is returned as a fertilizer to the soil, which makes it ever richer and better than before the industry was taken up. He went on to point out that there were many of the lands now in the United States where the products had always been transported that will hardly produce the seed that is planted, because of the constant withdrawing of the life of the soil and no restoration given. Further on in seeking of the market which was afforded the industry here in the west he said, "over \$25,000,000 of western money was sent last year east of the Rockies for pork, poultry and butter." He went on to show that we are out the expense of sending our products east, and having the stock raised there consume them and then sell us the

stock with good profit. Hence we have the transportation to pay both ways, plus the commission of the middle men who make the profits.

Mr. Iddings then dealt with the natural adaptability of this country for the live stock industry, mentioning the suitable climate, the abundance of potatoes which make good hog feed and alfalfa which is fine feed for dairy cattle as well as for other stock.

In closing the Professor gave a discussion of the relative merits of the horse, the cow, the hog, and the chicken. And it is well to note that the pancake is still growing, the cow is still eating, and the old hen is still at her task.

IN THE GYMNASIUM

The trophy case which has been needed by Physical Director Van der Veer for so long, is now ready to be placed and filled. The dimensions are practically the same as the one now in his office.

The second awarding of prizes for the man best in competitive floor drill among the short course age will be made very soon by the Physical Director Van der Veer.

Tennis prospects for this year are bright as many new players of considerable ability and the older players of the University are working regularly in Lewis court preparatory to spring practice on the outside courts. The list of the players now working out included Misses Hays, Brown, Seiler, Kettenbach and Anett. R. B. Wright of Lewiston is expected to make a good showing among the men.

On the 29th of the present month the girls of the gymnasium classes will give a performance for the benefit of the Moscow play grounds. This event will be given under the management of the Play Ground Supervision class. It is planned to have a series of folk and national dances presented by the girls in costumes suited to the particular dance. If the lights for the new auditorium have arrived by that time, it will be held there.

"Although the indoor track meet was postponed last Friday," says Physical Director Van der Veer, "it was by no means my intention to abandon the idea of having a meet. The captains of the teams are, however, very slow in turning in their list of entries. These lists must be in very soon so that the handicap can be arranged and each man given a fair chance. If there are not a sufficient number of entries given me by Thursday, the meet will be declared off and the men will simply go on with their regular work. The list of events will be posted and the captains should make arrangements to hand in their entries at once."

Attention, Seniors.

Sample caps and gowns can be found in the Bursar's office. If you wish either, sign up. On the bulletin board you will find prices and correspondence in regard to the above. Your preference is wanted at once, if you please.

Clvde F. Cornwall.

Y. M. C. A. Elects Officers.

The Y. M. C. A. has elected the following men to direct the work of this organization during the coming year. President, Chester Simth; vice president, George Isa-mon; secretary, Marvin Monroe;

treasurer, Archie Hawley. The chairman of the standing committees, who are also members of the cabinet, are selected by the president. These men invite the hearty co-operation and support of the men of the univeristy, in order that its activities may benefit as many as possible.

"The Art of Dancing."

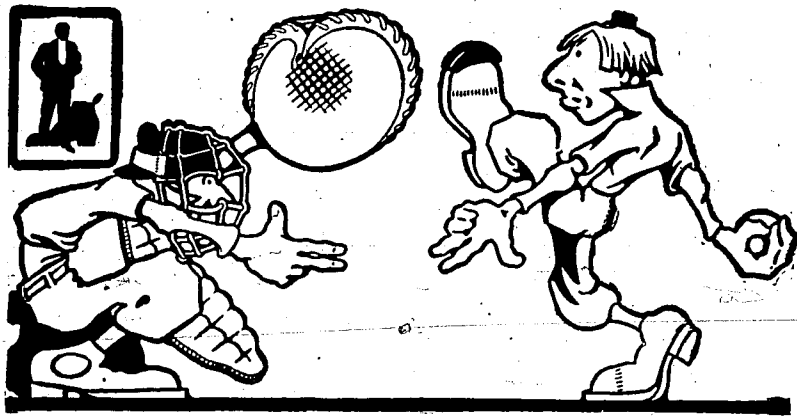

"Some of us make lots of fun of the dancing class in the Gym. But in reality it is a mighty fine thing and the girls who are doing the work are more public-spirited than most of us would-be wits.

"Here at Ohio State dancing is the all-imporant social diversion. Here, too, is society open to all. To get the full benefits of the University the social side of the life should not be neglected. And so in order to mix around with the rest dancing is the one thing best suited and most easily accomplished.

"The Freshman who is awkward and timid and ill at ease when he gets in too close proximity to the rerepresentatives of co-education—though we must confess they are mighty few—ought to drop over to the Gym on Mon-

day nights and allow the ladies to tow him about until he is able to put on sail and steer about the hall without ballast."—Ohio State Lantern.

The rules of Whitman college provide that no student may be pledged to a fraternity until he has been in residence at least one semester, has cleared off all entrance examinations, and has attained a standing of at least 70 per cent in fifteen hours of class work. The eligible list was presented to representatives of the fraternities by the registrar immediately after the exams. It is said that many disappointments were the result.

Whose Fault?

Facts that Count

If your clothes do not fit you perfectly, they will not hold shape; and if they do not hold shape they will not wear. That's the whole argument in a nutshell.

Garments will only fit and retain their shapeliness when they are cut, fashioned and tailored from your individual measurements—from your own form.

Why then spend your money for clothing not made for you when, for nearly the same amount, we will study your build, take your measure and deliver you a suit—your suit—made by
