

### Spokane Eleven Shows Knowledge of Game and Gets Last Breaks

### McISAACS PROVES BRIGHT STAR Varsity's Only Touchdown Scored in Third Period on Long Pass From Thompson to Evans.

BY FRANCIS BISTLINE.  
In a game played Saturday with Gonzaga University of Spokane, the University of Idaho went down to defeat, 21-6. This is the first time in history that this has happened. "Micks" and "Pats" were scrapping machines and are to be congratulated for the game they played. What they lacked in weight, they made up in speed. Flukes and fumbles were on the program for Idaho, and two of Gonzaga's touchdowns were practically gifts, due to misunderstandings and misinterpretations of signals on the part of the Idaho crew.

The game started at two o'clock—Idaho kicking to Gonzaga. The first points were made by Gonzaga after about 12 minutes of play. They came after several line bucks and long runs by McIsaacs, ending with a twenty yard run around left end. The goal kick was successful.

The second touchdown of the game was registered in the same quarter about two minutes later. Gonzaga kicked off to Idaho, Brashear receiving the ball and returning it about 7 yards, putting the ball on the 15 yard line. On the first down, apparently a mixup in the signals caused Captain Hays to heave the pigskin into a vacant lot. Captain Nowlin picked it up and with two long strides in a southerly direction increased the score to 18. A successful goal kick, and the game stood fourteen-love.

In the second quarter, Idaho showed enough scrap and pep to keep the Irishmen from scoring. Nobody started for Idaho during this period, but McIsaacs was the whole Gonzaga team.

The team came back onto the field in the third quarter, after the conventional serpentine by the loyal rooters, and showed some real football stuff. Idaho kicked off to Gonzaga, the ball being returned about 15 yards. After two line bucks and an incomplete pass, Gonzaga punted, and Dingle, receiving the leather, was downed in his tracks.

Here is where the march started. Alternately Thompson went over right tackle, and Moser over left tackle for good gains, making yardage for three successive times. Idaho had Gonzaga guessing as to what play was coming next. Then after being held for three downs a spectacular forward pass was pulled off from Thompson to Evans, which resulted in the first touchdown of the season for Idaho. An attempt was made to punt out to secure a better position for a goal kick, and it resulted in being merely an attempt.

It looked as if another touchdown for Idaho wouldn't be impossible this quarter, and when the backs could refrain from fumbling the ball they made good gains. However, there were no more points added to either score during the period. It didn't appear that Gonzaga would score in the last quarter, but our line held like a sieve, and on the five yard line "Turk" punted a distance of three feet into Nowlin's mitts, and the Irish captain made another touchdown. McIsaacs kicked the goal. Score 21-6.

With about 10 seconds left to play, Gonzaga kicked off to Idaho, Eddie Moser receiving on the 5 yard line. He tore off a fifty-five yard run, being downed just as time was called.

Following is the lineup:  
Gonzaga Position Idaho  
Kripley LE Gerlough  
Nowlin (Capt.) LT Carnahan  
Hatch LG Boekel  
Berry C Hays (Capt)  
Moran RG Martinson  
Pike RT Groniger  
Riche RE Keane  
McIsaacs Q Dingle  
Burgeos LH Brashear  
Prince RH Moser  
Condon F Thompson  
Summary: Scoring—Gonzaga—touchdowns, McIsaacs, Nowlin, 2; Idaho, Evans. Field goals—McIsaacs 3. Substitutions, Evans for Keane.

(Continued on last page.)

### Fat Steers and Huffy Wethers Register Series of Successes at Boise and Caldwell Fairs.

The university live stock exhibit, consisting of eight fat steers and eight fat wethers, has returned from south Idaho where it was shown at the Boise State fair, which was held in Boise, and the Idaho State fair at Caldwell. The exhibit consisted of the best animals from the university show herd, and attracted wide attention wherever shown.

This is the first time in the history of the college of agriculture that it has been represented at these fairs by an exhibit of live stock, and so favorable was the impression created that the exhibit may be sent each year. The herd was not entered for competition in either of the fairs, as it was sent solely for the purpose of demonstration.

This is the same herd which was entered in the Spokane Interstate fair, where it made practically a clean sweep, winning over W. S. C. and other schools in almost every case where competition was met. The best fat steer and best fat wether won the distinctions of being grand champions of the northwest in their respective classes.

Incidentally, this is the first time in four years that the university has not entered a herd for competition in the various state fairs of Washington and Oregon.

On the trip south the herd was in charge of G. Watts, headman, and John Booth, a senior in the college of agriculture.

### CURRENT ENCOURAGES ELECTRICAL ENGINEERS FOLLOW LEAD OF "MUCKERS" AND CHOOSE OFFICERS FOR COMING YEAR.

Stirred to action by the example of their more enterprising brethren, the Muckers, the Association of Electrical Engineers met Wednesday evening at the home of Professor Corbett and elected officers to fill the vacancies left by those not returning to school this year.

Donald Neakervis was made chairman, Howard Waterman, was retained as secretary and senior representative, Marvin Fry, junior representative, Allan Eddy, sophomore representative while Clark Rush was picked from the freshmen.

After the business was finished refreshments were served. The next meeting will be held late in November.

### FORESTER COUNTS 162 RINGS.

Eyesight of Idaho Hiker Then Fails and First Aid Work Becomes a Necessity.  
About twenty members of the university hiking club took part in the excursion to Viola last Wednesday under the leadership of Professor A. E. Burrill. It was originally planned to make the trip in automobiles, but Professor Burrill exercised his diplomacy with such success that not only did the Inland Empire Railway offer to allow a special rate and to delay its noon train for ten minutes, but it backed the train up a siding near the school to meet the hikers halfway.

As a result, the party went by train to Viola and hiked home across the country, covering a distance of about twelve miles. A detour was made to secure a close view of the forest fire which for some days has been visible from Moscow.

A group of forestry students who were with the expedition attempted to count the annual rings on an old pine stump. One of them succeeded in reaching 162, but there his eyesight failed and he had to be led home.

In the meantime some enterprising engineers measured by triangulation the height of the largest tree they could find. After much trigonometry they decided it stood between 75 and 100 feet. One of the group maintained that it was only 50 feet high, but as he was cross-eyed, his opinion was overruled.

One of the hikers was Phillip Drucker, the six-year-old son of Professor A. P. R. Drucker. Young Drucker held up his end of the hike like a man, and seemed to be as fresh at the finish as any of the party.

LOWELL MAKES GIFT.  
Dr. Percival Lowell's compensation for the remarkable lecture on Mars given at a recent assembly was fixed at \$50 but Bursar Jenkin's check for that amount never left the Administration building. Dr. Lowell contributed the entire sum to the university library fund. The books purchased with the gift will undoubtedly bear the great astronomer's name.

### LEARN PROVES STUDENT CHOICE

Shows Anti-Bolshevik Margins Strong at Idaho

### ARGONAUT AMENDMENTS READ

Committee of Three Appointed to Make Arrangements for "Is" on Big "Water Barrel."

The first meeting of the Associated Students was held last Wednesday morning. The meeting was poorly attended and such business as came up was quickly disposed of. The secretary read some proposed amendments to the constitution covering the election of Argonaut staff members by a board rather than by popular vote of the Student Body. There was no discussion.

Some one called attention to the fact that the beefy Vigilance committee is apparently unable to enforce the green caps tradition and also informed the freshmen that the regulation head gear might be procured at Creightons or Davids'. A motion was passed providing for the election of two yell leaders at the next Student Body meeting to fill the positions now held by Homer Hudelson and Harry McDougal who have, according to custom, completed their terms of office. A committee of three to investigate the proposition of painting "Is" on the new "water barrel" consisting of Roy Groniger, chairman, Z. B. Parsons and Ray Agee was appointed.

Preceding adjournment, a straw vote on the presidential candidates was taken. President Wilson received 175 votes, to 114 for Hughes, while the socialist candidate, Benson, found four supporters.

This straw vote aroused considerable interest among the students, and many of the unavoidable privileges were taken. From the wisecracks, who substituted various expressions of opinion, a number of witticisms appeared. Harold Barger drew the first vote from the box—his only one. Someone else voted for Willie Wilson, another for C. E. Hugs, and a third decided to vote for anyone who would be heard at least six seats back. But the prize ballot bore the following, "I'm for Hughes and the abolition of the tariff on peanuts."

The formal A. S. U. I. meeting was adjourned and the remaining portion of the period was taken up by Dr. J. T. Millen, a Los Angeles psychologist. He briefly outlined the practical basis for his work in character analysis and vocational guidance, dividing the mass of humanity into three general types, the motor, mental and motive.

He gave a general outline of the physical features, dispositions, and typical reactions, of each, and the vocations for which each is best suited. He also arranged for private conferences with those who wished to consult him.

### HOPE, THE ETERNAL, UPROOTED

Visions of Profit From Cadet Unies Dashed by Announcement of Captain Cummings.

Hope, which is said to have a habit of springing eternally in the human breast, was promptly uprooted from the more or less human breasts of the members of the University battalion when Capt. Cummings announced last Thursday that everyone would be expected to purchase his own uniform as in the past.

It was an extremely attentive and solemn audience that heard the statement, and many lines of suffering appeared on fresh young faces under green caps as two hundred students beheld their fourteen iron men fading before their eyes.

It seems that congress has voted to furnish uniforms to members of college cadet organizations, but the funds appropriated for the purpose are not available till next year.

In the meantime, everyone must outfit himself with the regular army service uniform. The cost is not so great as in former years, but where you could formerly buy uniforms from old students, there are now none to be bought, and where you could formerly be reasonably sure of selling your suit for a good price when you were done with it, next years' fresh will have their equipment furnished by the government. Aint it the limit?

### WIGHT ORIGINATED IN PARIS.

Such is Startling Statement Made by Freshman in Year's First Chemistry Quiz.

The class in Chemistry I had its first quiz recently. A few "boneheads" in these Frosh quizzes are expected, but it was never thought that one Freshman could make four such comical blunders out of four questions.

Q.—What is the unit of weight and what its origin?  
A.—The origin of weight is in Paris. It is the hundredth part of anything.

Q.—What is G. S. Density,  
A.—C. G. S. Density is the density found by centigrade, grams and seconds.

Q.—What is a solution?  
A.—Any heterogeneous substance that has volume and weight is a solution.

Q.—Name and define the three physical states of matter.  
A.—The three physical states of matter are work, physical and velocity. Energy is that stress which is put onto work to make it better. Velocity is the space of time in which work is done. These three things are in unity and one is incomplete without the others.

Can you marvel, after reading this, that the Chemistry Professors are all growing prematurely gray? ?

### OSCAR JOHNSON TO LEAD NON-FRATERNITY GROUP

Last Step in Organization of "Barl" Union Taken at Zanda Club Friday Evening.

The final steps in the organization of the Barb union, which was initiated some two weeks ago, were taken last Friday night, when a large number of the non-fraternity men met at the Zanda club, elected officers and outlined a program.

The meeting was called to order with Z. B. Parsons as chairman, and the report of the committee appointed to confer with President Brannon was read.

According to the report, the president is strongly in favor of the union, and made many valuable suggestions. The next in order was the election of officers. Lively debating ensued but when the atmosphere had cleared and the ballots were counted, it was found that Oscar Johnson was the choice for president, Ralph Largent for vice-president, and that Oakley Wylie, had been made secretary-treasurer.

Several other matters were brought before the meeting, the proposed Argonaut amendment being discussed pro and con. The consensus of opinion seemed to be antagonistic toward it if no faculty regulation was provided. No action was taken however, and the discussion was carried over to the next meeting, which is set for Friday.

### STUDENT CLUB HEARS MILLER

Members of Business and Economics Organization Gather Material on Criminal.

The commerce and economics club met at the home of Professor Drucker Thursday evening. After a short business meeting at which the club's name and the dues for the semester were decided upon, Prof. Lewis introduced the speaker of the evening—Dr. J. T. Miller.

Dr. Miller spoke on that phase of public efficiency dealing with the criminal population. He showed the possibilities of decreasing and finally eliminating crime by teaching people how to control their impulses.

Dr. Miller was very accommodating in answering questions which brought out the points which were obscure and in suggesting books for the study of human analysis.

### PRACTICAL AG. SCHOOL OPENS.

Short Course Students Gather for Six Months' Term; Big Increase in Enrollment.

The school of practical agriculture opened Monday. According to Principal Wilson the prospects for the school year are unusually bright. A substantial increase in registration is expected, for the applications of new men for entrance into the school almost equal the total number of new men registered in the course last year, and, the number of applications is several hundred per cent greater this year than it was last.

Although there is nothing very definite on which to base an estimate it is thought that one hundred men will be enrolled in the school this year.

### "Home Ec" for Girls.

This year there has also been added a short course in household economics for young women. This work was discontinued two years ago, but owing to the need for such a course, it has been restored.

The "short course" itself has been somewhat modified, more opportunities being given for taking electives in the second and third years. A new course in rural sociology has been added this year.

### DELTA G'S DANCE INFORMALLY

Sorority and Pledges Entertained by Professor and Mrs. Livingston Saturday Evening.

Professor and Mrs. D. C. Livingston entertained Delta Gamma in honor of her pledges, at a dance given in the gymnasium Saturday evening. Punch and wafers were served by Misses Lyta Brannon and Dorothy Parsons. Music was furnished by a four-piece orchestra. The programs were brown folders with pink and blue ribbons stamped with the Delta Gamma seal in bronze.

Those present were Misses Gretchen Appel, Anna Appel, Elizabeth Bowerman, Gail Taggart, Grace Taggart Pauline Fields, Edna Couets, Margaret Ross, Thelma McGill, Katharine Logan, Lois Miller, Lois Parsons, Agnes Peterson, Miriam Chittenden, Violet Johnson, Claire Sullivan, Doris Morley, Mary Wymman, Florence Frasier, Jean Orr, Eleanor Brannon, Hyde, Stevens,

(Continued on last page.)

### WHITMAN FROM COMES FROM

Coach Bleamaster's Grid Warriors Will Start Thursday Morning for Missionaries' Camp.

TEAM'S TRAIN LEAVES AT 8:45

All Students Urged to Be On Hand for Hearty Send-off and Expression of Confidence.

The football team will leave Thursday morning for Walla Walla to give battle to the Missionaries at Whitman College. This game will probably settle all disputes as to who will finish in the cellar of the Northwest conference, although predictions may be upset by a traditional Idaho "come-back."

Whitman has but few old men back this year, and the team that Idaho goes against Friday will be made up of recruits who are playing their first conference game. "Butch" Hoover, the Missionaries' captain and all Northwest quarter for the 1915 season is about all that Whitman has to rely on. New men who have broken into print are Bloomquist and Wylie.

Idaho has the advantage of Whitman in having had previous games. Whitman has not had any practice games, and according to "dope" should put up a battle about like Idaho's against O. A. C.

As to the Idaho bunch that will go to Walla Walla, a general shake-up is expected in the team this week after the exhibition of last Saturday. It is impossible to predict just what changes will be made, but any that are will no doubt be made to advantage.

Practice for the next week will be open to the public, and Coach Bleamaster invites and wants the students to get down on the field and watch the team in action in practice. He says "I want all students that possibly can to get out and watch practice for the coming week. Get down on the field, and yell, crab, criticize, in fact, do anything, but get over the white lines on the gridiron. We're going to make that team beat Whitman Saturday."

Harold Purdy, Tom Jackson and Jim Keane may be used in Friday's game. Both Purdy and Keane are getting into shape rapidly and with their previous experience, and general knowledge of the game might contribute considerable to the morale of the Idaho team. "Tom" Jackson's right arm is slowly improving from the steam burn recently received, and the scrappy center should be able to get into the fray.

Little Eddie Moser, one of Idaho's most brilliant backs, may be unable to make the Whitman trip. He has a bad case of "water on the knee" which may keep him out of the balance of the season's gridiron conflicts.

The train which will bear the team toward Walla Walla leaves Moscow at 8:45 Thursday morning. Nothing could help Coach Bleamaster's men more than an enthusiastic, confidence-inspiring farewell. Let "Idaho Fights" ring in the ears of these punishers of the pigskin as they are carried into Washington territory "Come-backs" in sport are rare but not impossible things. The team can play football. Show its constituent parts that you believe it will play in Walla Walla.

### AMENDMENT VOTE SCHEDULED.

Final Consideration of Argonaut Board Proposition Set for 4:15 On Wednesday Afternoon.

The vote on the proposed Argonaut board amendment read at the last student body meeting will be taken at a meeting set for 4:15 Wednesday afternoon. Considerable interest in the amendment has been aroused by recent discussion and a large turnout of A. S. U. I. members is expected.

The amendment as proposed provides for the election of members of the Argonaut board within the board itself, the current staff selecting its own successors. The purpose of the amendment is to remove the university paper from politics, and through a system closely resembling the civil service, continually select the best men for its various offices, the theory being that it is much easier to disseminate the knowledge of a man's capabilities among a small group than among the entire student body.

Yell leaders for the coming year will be selected at Wednesday's meeting as soon as the Argonaut matter is disposed of.

### ARGONAUT AMENDMENTS READ

Committee of Three Appointed to Make Arrangements for "Is" on Big "Water Barrel."

The first meeting of the Associated Students was held last Wednesday morning. The meeting was poorly attended and such business as came up was quickly disposed of. The secretary read some proposed amendments to the constitution covering the election of Argonaut staff members by a board rather than by popular vote of the Student Body. There was no discussion.

Some one called attention to the fact that the beefy Vigilance committee is apparently unable to enforce the green caps tradition and also informed the freshmen that the regulation head gear might be procured at Creightons or Davids'. A motion was passed providing for the election of two yell leaders at the next Student Body meeting to fill the positions now held by Homer Hudelson and Harry McDougal who have, according to custom, completed their terms of office. A committee of three to investigate the proposition of painting "Is" on the new "water barrel" consisting of Roy Groniger, chairman, Z. B. Parsons and Ray Agee was appointed.

Preceding adjournment, a straw vote on the presidential candidates was taken. President Wilson received 175 votes, to 114 for Hughes, while the socialist candidate, Benson, found four supporters.

This straw vote aroused considerable interest among the students, and many of the unavoidable privileges were taken. THE COME-BACK SPIRIT.

"We are only temporarily defeated, not licked!" That is the message which Coach W. C. Bleamaster carried to every one of his men and to many rather spiritless members of the student body Sunday evening. Little "Blea" has yet to learn that Webster contains the word "quit" and his fire is seizing players and students alike. "I feel," says the coach, "that the student body is closer to the team than it has ever been before. The support is there. Friday's game will see an improvement in the work of the eleven." True it is that the bitter cup of defeat has been drained to its dregs. The Gonzaga fiasco was the ultimate word in Idaho's humiliation. The road ahead is a long and hard one but, praise be, its every foot lies up, not down the hill. Idaho teams have, when the fight

through the papers but unless some personal work is done on the part of a large proportion of the value of the publicity is lost. Granted, then, that we must have personal work, we must find now the best method of applying that work. It appears to us that local organizations, say one to each county, offer great possibilities. At one time in the history of the university there were several such organizations, but because of lack of encouragement, they were allowed to become defunct. The county clubs might also do well to remember that this winter there will be two or more legislators from every county assembled at Boise and that upon the action of this legislature depends the future of Idaho for the next few years. This legislature will have to say whether Idaho must grind on in the old rut that has possessed her for the past two years because of "insufficient funds" or whether she will be enabled to commence the expansion so long deferred.

COUNTY CLUBS.

The university is just now inaugurating a news campaign over the state which involves publicity in most of the newspapers of Idaho. This is a most important development and if handled with proper enthusiasm can be made to work to great advantage for Idaho, but advertising alone never has been able to and cannot now get results. There must also be the right kind of personal element involved to clinch the deal, and this never applied more forcibly than in the case of the university's publicity. We can harp at great length on the glories of Idaho

ASSEMBLY SONGS.

H. H. Conwell, who has this year taken over the arrangement of programs for assembly periods, has a plan which should meet with hearty student approval. Briefly, it is to substitute appropriate college songs for the hymns now commonly used as

the musical portion of the assembly program. He expresses a wish that a satisfactory collection of representative college songs might be selected and the more widely known and popular songs be utilized. In the past, arising presumably from the fact that this is essentially a non-partisan institution there has been a slight tendency to criticize the practice of utilizing a hymn in conjunction with assemblies. The substitution of college songs would eliminate this trifling objection. In addition, it would probably exercise a considerable influence in attracting half-hearted assembly attenders to

the auditorium. No real college student will forego the opportunity of familiarizing himself with the songs of other colleges.

THE NEW STUDENTS.

The short course students appeared upon the campus Monday. The enrollment in the practical agriculture school is unusually large this year and many of those who have decided to try its curriculum are Idaho newcomers.

To all workers in the six months' course but to the new students in particular Idaho extends a hearty welcome. Your selection, as all good sorority girls tell their rushees, is one

that you will never regret. You may have heard of Gold student body. You may have heard of you. You may have heard of invitation to your college. You may have heard of us, on the feet of her women at her dances and live laborious days in her class rooms.

Reasons Why Hughes Should Be Elected

- BECAUSE he stands for Protection, Prosperity, Preparedness and Patriotism.
BECAUSE he will not permit partisanship to triumph over Patriotism.
BECAUSE his speech of acceptance expresses his desire to cooperate with labor for its advantage, not to exploit it for his own.
BECAUSE he will command the respect of Europe and Asia and win the friendship of Latin-America.
BECAUSE he will never by proclamation deny the right of Americans to pursue their business in other lands under the protection of the American flag.
BECAUSE he will not repudiate the American flag in any land.
BECAUSE he will not put action into words, but words into action.
BECAUSE, as Theodore Roosevelt well says, he has high sentiments of justice and dignity, is upright and straightforward, is an incontestable master of judicial matters, and always translates his words into deeds.
BECAUSE he is a strong, sure, courageous man, with a clear-cut program before him and with the courage, intelligence and determination to carry it out and bring to our country self-respecting peace and world-wide respect.
BECAUSE as Governor of New York he has already proved that he dared to do the right thing, and is prepared to further do and dare when called into a wider field.
BECAUSE he is not a dreamer and not a quitter.
BECAUSE he is a firm friend of preparedness for the United States and not for preparedness through political expediency.
BECAUSE he will not burden us with war taxes in time of peace.
BECAUSE we need a tariff not founded upon free trade, nor for "revenue only," but to protect American labor and American industry from the deadly competition of the foreigner.
BECAUSE he is a red-blooded American. His policy will be "America first, America efficient."
BECAUSE he will protect this country against being flooded with the cheap manufactures of Europe after the war.
BECAUSE he is the chosen head of a party which has long fathered all great constructive legislation which experience has proved to be wise and which has invariably been opposed by the Democratic party.
BECAUSE a business man is going to be especially needed in the next few years. In consequence of the European war a tremendous readjustment of the world's business is ahead. The United States must be economically prepared. It must not, as now, be left defenseless. It must not have a president with an untrained business mind, ever changing. Mr. Hughes made a remarkable record as a business governor of New York. He has extraordinary ability to see all sides of a question. Not from him, as from Wilson, will be heard any declaration that he will hang business men "high as Haman" if they do not agree with him.
BECAUSE he is a man of forward vision, of practicability and firmness, not a mere rhetorician and theorist.
BECAUSE he stands for the protection of American lives and property abroad as well as at home.
BECAUSE through him the whole nation will be in the government. It will not be ruled by one section, nor by one man.
BECAUSE he is for an effective, not an unsound and sham system of rural credits to help the farmer and for a wise conservation of natural resources.
BECAUSE he is for a Federal workingmen's compensation law suitable for the employees of the Government and those employees engaged in interstate commerce and subject to hazard of injury.
BECAUSE he favors investigating before legislating.

Reasons Why Wilson Should Be Defeated

- BECAUSE, to cite Representative Fitzgerald, Democratic Chairman of the Appropriations Committee of the House, during his administration the Democratic Congress has been the most extravagant that has ever met in the capital.
BECAUSE he insists on his shipping bill—an indefensible piece of folly which would destroy such merchant marine as we now have.
BECAUSE, although he says "he kept us out of war", the story of Mexico, San Domingo and Hayti refutes him.
BECAUSE he runs anti-climaxes. He marches in only to march out again.
BECAUSE he signed the seamen's bill, which practically has wiped out shipping on the Pacific Coast.
BECAUSE he attempted to scuttle from the Philippines and was defeated only by twenty patriotic Democrats who voted with the Republicans of the House.
BECAUSE he appointed as Secretary of State William J. Bryan after denouncing him a pest who should be "knocked into a cocked hat."
BECAUSE he made possible Villa, murderer of men and despoiler of women, and Carranza, the fatuous and futile "First Chief."
BECAUSE Wilson's text book statesmanship and grape-juice diplomacy have made the United States an international laughing stock.
BECAUSE he appointed "deserving Democrats" to the diplomatic corps, displacing experienced men at a time when it was essential to the foreign trade and honor of the United States to retain competent, experienced men.
BECAUSE he is incompetent to lead, and veers like a weather vane whenever a zephyr of public opinion seems to blow against him.
BECAUSE his "one-track mind" has too many turn-tables.
BECAUSE he lifted the embargo of arms so that the Mexican desperadoes have used American ammunition to murder American soldiers and civilians.
BECAUSE the promised "pitiless publicity" has been replaced by private, special, secret negotiations by personal agents and representatives appointed by President Wilson without "the advice and consent of the Senate."
BECAUSE he reverses himself so rapidly that the entire country is seasick from the motion.
BECAUSE he is for free trade, direct taxes and an empty treasury—the same old Democratic trinity.
BECAUSE if the Payne-Aldrich law had been in operation in the last nine months of 1915 we would have collected \$91,656,161 more than we did under the Underwood law. It would have met the treasury deficits and have avoided war taxes. The foreigner selling in our market got the entire benefit of the \$91,656,161.
BECAUSE DURING the first ten months of the Wilson-Underwood law there were more unemployed being fed by charity than during any ten months in our history, excepting under the Wilson-Gorman act.
BECAUSE of his inconsistency on the immigration bill. In his "History of the American People," vol. 5, p. 213, he wrote: "The Chinese were more to be desired as workmen, if not as citizens, than most of the coarse crew that came crowding in ever year at the Eastern ports."
BECAUSE he has not reduced, as he promised, the high cost of living, but has actually made it higher.
BECAUSE he was pledged to a single term by the Baltimore convention, but before the type was cold he was building up his fences for another.
BECAUSE, although posing as an advocate of civil service, every act of his as president in connection with civil service has been adverse to its principles, obstructive and destructive of its bonafide practice.

Mrs. Whitbeck of Colfax, was in Moscow Sunday to visit her sons, Gamit and Robert.  
Mrs. Tom Matthews and young son, Jimmie, spent the week end at the Gamma Phi Beta house.  
Miss Gladys Duthie was a dinner guest at the Delta Gamma house on Tuesday.  
Mrs. G. A. Chapman spent the week end with her daughter Ruth at the Delta Gamma house.  
J. Lawrence Hodgins returned to college Wednesday. He has registered in the law school.  
Alpha Kappa Epsilon announces the initiation of John E. Gilman of Halley.

The chief event of any social importance last week was a full moon. The arc lights (usually such popular spots in the strolls of nice young couples) were completely outdone and de-populated by the moon. Even a few of the mighty upperclassmen were tempted into moonazing, and the sizzling of plebian wienies over a smoky blaze in the conventional way.  
We would suggest, as a cure for this moonlight madness, a good illustrated lecture on the moon. All interest in the Winter Derby would immediately fall below par.

Sigmars entertained a number of their friends at an informal house dance. The guests were the Misses: Wall, Dwight, Gertrude Hays, Pam Hays, Bodler, Frantz, Willis, Babcock, Criesman, Bowers, McKenna, Letta McMahon, Cowgill, Florence Richardson, Ferol Richardson, Dewey, Mr. and Mrs. Clifford Edmundson, Mr. and Mrs. Don Prestlar, and several couples from Pullman.

Gamma Phi Beta gave a tea on Friday from four to six to the patronesses, town girls, workers, and alumnae members of the chapter. Bathaline Cowgill and Freda Soulen gave several musical numbers during the afternoon.

Mrs. C. B. Morley, Misses Doris Morley, Mary Wyman and Florence Frasier of Colfax, motored up for the Delta Gamma pledge dance.  
Mrs. George A. Chapman and Mrs. C. B. Morley were dinner guests at the Beta Theta Pi house, Sunday.  
Mrs. Otto Conner (formerly Miss Margaret Fawcett) was a guest at the Chi Delta Phi house Sunday and Monday.

There is one phase of social intercourse, which has been sadly neglected at Idaho. This neglect has not been on the part of the earnest young students, however. It can be traced to higher sources. The library which should be a place of conviviality and joy, has become a regular cemetery as far as a peppy ol' time is concerned. Why not let youth enjoy itself? In other words, why not serve free lunches on the oak tables, and provide an orchestra for people who like to dance? There wouldn't be half as much ink cast at the valuable floor and the covers of the books would maintain a perfect condition. "What's a library for, if you can't enjoy it?" inquired a learned man once. This is food for thought, if you have a good digestion.

Learning Russian—Several of the university faculty, together with a few townspeople have organized an evening class in Russian, which meets on Tuesday nights at the home of Professor Lewis. Those from the university are Professor and Mrs. Drucker, Professor and Mrs. Kostalek, Professor and Mrs. Lewis.

Judges at Lapwai.—Dean Iddings Professor Ray, of the college of agriculture, acted as judges in the community fair held at North Lapwai last Saturday.  
"Run" of Jewelers.—The campus has been fairly overrun with fraternity jewelers during the past week. Probably the best known of the visitors was Raeman T. Fleming, an Oregon Sigma Chi who is very much at home in any college in the northwest.

**IDAHO PEP!**

Nordby Stock Judged.—The Junior and Senior Animal Husbandry classes, accompanied by Professor Hickman and Dr. Hahner, motored to the Nordby farm, near Genesee, Friday afternoon, where they judged a number of classes of Mr. Nordby's pure-bred stock. The purpose of the expedition was to prepare the students for their competitive judging contests with W. S. C. and O. A. C. at stock shows this fall. The team to represent the university has not yet been chosen.

**WHY YOU**  
should attend  
**Creekmur's Business College**

First:  
It has competent and experienced teachers.  
Second:  
It costs you less money.  
Third:  
Creekmur has made good as an instructor turning out graduates who knew how, and could hold the job.  
Fourth:  
He always finds the job for his graduates.  
115 E. Third Street, Moscow, Idaho.  
Address T. N. CREEKMUR, Box 246.

**Express Arrival Evening Pumps**  
We are featuring an unusual high class collection of the later day evening pumps for women. The prevailing long, narrow toe vamps are much in evidence, made of white or black satin, patent or gun metal leathers, some having the dainty beaded effects. College girls who have trouble in securing their lasts will readily select their models from A A A to B. The new line is bound to convince the most skeptical, having to your advantage an experienced SHOE MAN who KNOWS HOW and gives you a dainty foot.

The patronesses were Miss Hoover and Mesdames Addy, Morley, Chapman, Hulme, Parsons and Brian.

### CAMPUS BREVITIES.

**Debate Teams Formed.**—Frank Koch, Clarence Taylor and Ernest Poo will form the Idaho team which will journey to Pullman on the night of December 8 to uphold the negative of the recently chosen literacy test debate question. The affirmative team, composed of Charles Darling, Richard Ott and Ralph Morse will meet the W. S. C. negative in the auditorium on the same evening.

**Knudson Returns.**—Albert Knudson, '14, a former Idaho football star returned to see the O. A. C. game and spent several days in Moscow. He is contemplating a business trip to Salt Lake in the near future. According to an already outlined plan, he will be in Salt Lake two days, and will stop off at Boise for an incidental visit of two or three days.

**Night School Opened.**—The community night school, a project which has been under consideration for some time, has finally been established with Professor Drucker, of the college of commerce. The faculty will consist of four of the members of the university faculty. It is expected that a large number of townspeople will avail themselves of this opportunity. The majority of courses offered will be in commerce and in modern languages. Spanish will be stressed on account of the business opportunities in the countries of Central and South America.

**Lewis Addresses Farmers.**—On the evening of Saturday, October 14, Professor Lewis addressed a meeting of the farmers' tri-county union, held at Nezperce. His subject was the federal rural credit law which has attracted such universal attention from farmers all over the United States.

**Barnard a Visitor.**—Nathan Barnard was at the Kappa Sigma house Sunday. He is to return to California shortly, where he has been greatly benefited since his illness of two years ago. Next fall will probably see "Nat" back at Idaho to complete his college work.

**Forester in Utah.**—A recent letter from Herbert Johnson carries the information that he will be unable to return to college until the beginning of the year. He is at Cedar City, Utah, engaged in topographical work on the Sevier national forest. Other members of his party are Bill Schofield and Harry Malmsten, both Idaho men. These men are carrying on very creditably work which a number of Idaho foresters have taken up successfully on other reserves during the past few years. All turned out a product which is rapidly giving the Idaho Forestry school an enviable reputation for the development of practical foresters.

Sigma Nu and Phi Delta Theta called on Delta Gamma Sunday.
