BOHLER QUINTET TAKES HOT FRAY

Final Contest of Local Basketball Season Saturday-Floor Battle; Score Is 42-31

GRAY AGAIN IDAHO LUMINANT Varsity Ex-Captain and Forward Plays Sensationally in Last Home Game of Career.

"Basketball As She Is Played," a feature film production by "Doc" Bohler and "Hec" Edmundson, was the headline attraction at the gymnasium last Wednesday evening.

Idaho Played Hard Game. With Captain Hyde, "Tiny" Martinson and Charlie Gray playing their last game for Idaho, and Al Blackmer and Al Davis giving everything they had, Idaho played with a determination and fierceness that brought a thrill to the crowded galleries.

Martinson was unusually effective in breaking up plays. The big fellow got away with everything at center and his long passes were all accurate.

But it was Charlie Gray, all northwest forward, who was the outstanding star of the Idaho five. He played all over the floor, mixing in everything, shooting five field goals and converting ten out of 12 free shots.

Thursday Game a Rout. The following night at Pullman was disastrous for the Idaho quintet. The boys were lost in the maze of brilliancy exuded by the Washington aggregation.

The summary follows: Idaho. W. S. C. Blackmer Moss Gray Price

Field goals: Idaho, Gray, 5; Blackmer, 4; Hyde, 1; Davis, 1. Free throws—Gray, 10 out of 12. W. S. C., Moss, 6; Price, 4; Copeland, 2; Sorenson, 2; Bohler, 2. Free throws—Bohler, 12 out of 14.

ANNUALS STILL OBTAINABLE. Reports to the contrary notwithstanding 1918 annuals may be still signed up for.

COACH "HEC" LABORING HARD WITH UNTRIED SHOT-PUTTERS

Eight Men Working on Form in Attempt to Find Possible Filler of Bill Bohm's Shoes.

The task of filling the shoes of "Big Bill" Bohm, varsity shot-putter of the 1916 season, is perhaps the most appalling one confronting Coach "Hec" Edmundson at the present time.

Martinson, Wylie, Boekel, Carnahan, Plastino, Pierson, Barber and Perrine are among the men who have been essaying the niceties of form the coach has outlined for them and although no attempt has been made to measure any of the shoves, reasonably good early season distance has been attained.

Between 42 and 50 men have been reporting to Coach "Hec" every night for the limbering up exercises he is prescribing, but several veterans have yet to appear in suits.

A dual with Gonzaga may be held during the last week in April, if arrangements can be made. The first scheduled contest comes May 12 when Montana will be met at Bozeman.

FOURTH JUDGING DAY SUCCESSFUL

Many Undergraduates Take Part In Praising Contests Held In Different Departments

BANQUET IS WELL ATTENDED. President Presides as Toastmaster; Prizes Given Donated by Moscow Business Men.

The students and faculty of the Agricultural college had a holiday, a judging day and a banquet last Friday. The occasion was the fourth annual judging day and practically every student in the Agricultural college entered one or more of the judging contests that were held during the forenoon.

Business Men Liberal. Professor Shafer of W. S. C. acted as judge in the farm crops contests, Fred Veatch served the same capacity for the horticultural department and John L. Smith of the Hazelwood company of Spokane acted as judge for the animal husbandry department.

The banquet was held at the Christian church with President Brannon presiding as toastmaster. Plates were fifty cents and the attendance well surpassed the one hundred mark.

SERIES OPENS FRIDAY AFTERNOON

COACH "HEC" EDMUNDSON'S QUINTET TAKES SECOND PLACE IN CONFERENCE

Basketball Critics Agree That Only Pullman Champions Had Material Edge on Varsity Five; Argonaut Writer Urges Martinson As All-Northwest Center Instead of Dement of Whitman, Picked by Bohler

Characterized the "second best team in the Northwest" by Coach J. Fred Bohler of W. S. C., Referee Hinderman and other basketball authorities, Coach "Hec" Edmundson's varsity quintet has just completed the most successful season that has been the lot of an Idaho five for several years.

Charlie Gray, varsity ex-captain, and for four years an Idaho star, was an almost unanimous choice for a berth at forward on the mythical all-northwest quintet.

The early-season games were a bit farcical, Whitworth college and Lewiston Normal being defeated by top-heavy scores. A contest staged on the Gonzaga floor was a real battle, Idaho grabbing an unwilling palm when "Nuts" Romig shot a deciding field goal.

While they're all doing it, permit the writer to horn in with an all-northwest selection. One change should in my opinion, be made in the official selection of "Doc" Bohler, who picks a mythical five for the Spalding guide.

Bohler places Dement of Whitman at center on his all-northwest team. Dement is undoubtedly fast and he has a fair basket eye but in the Idaho-Whitman series at least he looked far less capable than the ever dependable "Tiny" Martinson.

"Tiny" may be a cumbersome one in some of his movements but he can out-jump any man in the conference and he is probably the best interceptor of passes the northwest has ever seen.

These four men are remarkably speedy. Each is abundantly able to both shoot baskets and guard an opponent closely. Martinson could grab the tip-off consistently and he could be depended upon to strangle any near basket shots.

That team might be beaten. There is also a possibility that Billy Sunday might go unshoutingly through an entire sermon.

CHARLIE GRAY, IDAHO FORWARD AND EX-CAPTAIN, WHO RECEIVES PLACE ON ALL-NORTHWEST TEAM

"HORSEHIDE, OLD TOP, MEET MR WILLOW,"—COACH BLEAMASTER

Old Friends Urged to Come Together "Easy," However, When Candidates Begin to Swing.

The 1917 re-introduction of those old friends, Messrs. Willow and Horsehide was effected by Coach Bleamaster Monday afternoon when he opened the regular spring batting practice by putting his varsity aspirants through an hour session of mild clouting.

A few of the candidates began to have home-run thoughts, however, the minute they were given an opportunity to whang away and several shins were cracked before "Blea," with his admonitions of "easy, easy, just meet that old ball," was able to calm the swatsmiths who were overexcited by the succulent appearance of a fat ball in the groove.

A little fielding practice was indulged in Friday and Saturday, when the candidates first assembled in Lewis court but most of the early work has been confined thus far to clouting attempts.

All of this pre-season "lab" work has been graphically illustrated by the coach himself, proper fielding methods as well as correct batting form being actively explained before any of the men demonstrated their own ability or inability.

While definite arrangements have yet to be made, there is a possibility that the baseball squad will accompany cadet battalion to Fort Wright and perhaps play a few practice games, with the Spokane Northwestern league team.

STUDENTS HEAR CANDID ADDRESS

Bishop W. T. Sumner Strikes From the Shoulder In Talk on "Efficient Citizenship"

THREE REQUISITES DETAILED "Necessary Qualities Are Intelligence, Loyalty and Action," Says Speaker.

Bishop W. T. Sumner of the Episcopal church of Portland, Oregon, delivered an assembly address Friday morning on the subject of "Efficiency in Citizenship."

Bishop Sumner in part said: "Because of the keen competition of the present day in all things, citizenship included, a man must look to it that his output to the community and to humanity is not small in comparison to the benefits he receives from the community and from humanity.

Mail Order Houses Rapped. "The second quality of citizenship is loyalty. Everyone is securing through some community, a living, and he owes that community something in return.

"The third requisite is action. Indifference in public matters is deplorable. A man is very selfish who will not contribute his knowledge to the community by not allowing himself to be elected to office.

"I shall now deal with one of the community's greatest problems, and at the same time the community's and nation's greatest asset, namely, the child. Every business man from a shoe-string peddler and banana-cart pusher up, before he can operate must

Continued on page four.

EIGHT FAST TEAMS WILL BATTLE FOR SCHOLASTIC TITLE

Moscow, Nez Perce and Post Falls Five Are, On Past Form, Most Likely of Contestants

COACH EDMUNDSON REFEREE

First Game Will Be Called at 1:30 Friday Afternoon; Others to Follow at Hour Intervals.

WHERE TEAMS WILL STAY.

The following arrangements for the entertainment of the interscholastic basketball tournament contestants were made at a meeting of fraternity representatives held Friday afternoon: The Bonners Ferry team will stay at the Zeta Chi Alpha house, Post Falls and Lewiston at the Kappa Sigma house, Wardner-Kellogg at the Beta Theta house, Nezperce at the A. K. E. house, St. Maries at the Sigma Nu house and Wallace at the Phi Delta Theta house.

Moscow, Post Falls, and Nezperce are, if advance information is reliable, the three high school quintets which will, in all probability, finally battle for the northern Idaho title in the interscholastic tournament which opens at the university gymnasium Friday afternoon. Post Falls and Nezperce are both unbeaten and Moscow has lost but a single contest.

The St. Maries, Wardner-Kellogg, Bonners Ferry, Wallace and Lewiston fives are all speedy aggregations, however, and form disruptions are more than possible. Several of the teams entered have performed sensationally in some affairs after slumping in others and a little sustained brilliancy may result in the elevation of a dark horse.

"Hec" to Referee.

Coach "Hec" Edmundson, who will referee all the games played, announced Tuesday that the first contest of the series will start Friday afternoon at 1:30 and will be followed, at hour intervals, by three other preliminary scraps.

The four winners will play two games Friday night, the first to begin at 8 o'clock and the two survivors of these semi-finals will meet Saturday afternoon at three to finally determine the championship.

Post Falls Team Fast. Post Falls has a husky quintet said to boast a remarkable collective basket-shooting ability and the Nezperce five is another aggregation of big men. The Moscow team places its main dependence in speed and unusually good passing. Sensational basketball should result from a pairing of these title aspirants.

The drawing to determine places in the first round will be held immediately preceding the opening of the tourney Friday afternoon.

Lineups Received. The following lineups had been received by Coach Edmundson at Argonaut press time:

Moscow—Hunter and Evans, forwards; Thompson, center; Brigham and Cozier, guards. Coach, Wiley.

Lewiston—Pearce and Burns, forwards; Lee, center; Kerin and Whitcombs, guards. Coach, Hayden.

Bonners Ferry—Collins and Bond, forwards; Norton, center; Luse and Stewart, guards. Coach, Plummer.

Nezperce—Perrine and A. Fox, forwards; Hines, center; R. Fox, and Miller, guards. Coach, Burns.

Wardner-Kellogg—Brown and Stout forwards; Moe, center; McDougall, Waltman and Pollard, guards. Coach, Jacobi.

St. Maries—Mulrooney and Gallagher, guards; Ennis, center; Gregory, and Martinson, guards. Coach, Hofstetter.

Post Falls—Johnson, Percy and Brewer Lindeberg, forwards; Barto and Warren, centers; Coles, Ben Lindeberg and Herring, guards.

IDAHO VISITORS.

Between 50 and 75 high school students will be campus visitors Friday and Saturday. They represent the cream of northern Idaho's younger athletic generation and both courtesy and self-interest imperture for them a not inconsiderable degree of cordiality.

Arrangements have been made for the entertainment of the different teams at campus fraternity houses but cordiality of that particular nature will not suffice. The Idaho spirit must be impressed upon every high school visitor.

It may be rather hard to impute each of them with an appreciation of the university's really remarkable campus democracy and of the spirit that gave birth to the slogan "Idaho Fights" but a willingness to mix and an eagerness to talk university until garulity accusations are made will further the work wonderfully.

Let's effect the transmutation of "Idaho visitors" into "Idaho boosters."

SECOND PLACE.

Although the fact does not seem to be generally realized, Idaho led this season a remarkably good basketball team. Beaten by the miraculous Fullman five the team "Hec" Edmundson coached found itself and displayed sufficient form to entitle it to second place in the Northwest conference. Second place is no mean honor and it is, by the way, a remarkable skyward leap when the 1916 record is recalled.

Team basketball was played by Idaho this year and the battling spirit was evinced in every game. The season was, in the main, a real success and affords an accurate forecast of the things Coach "Hec" will accomplish next year with proper student support.

"BONESY" ADORNS WINDOW.

Laboratory Skeleton Greets 8 o'clock Hill-Climbers.

A skeleton may not have a sense of humor but the Zoological laboratory "Bonesy" certainly seemed to appreciate the jest involved in being framed by one of the third floor Administration building windows, for she grinned a cheerful greeting at each early Friday morning hill-climber and showed all her six teeth.

It is not definitely known who took the old girl from her accustomed closet, even suspicion having, as a matter of fact, failed to center upon anyone. The moving cause of her brief notoriety must, it seems, remain as much of a mystery as is her past.

TWO Y. M. C. A. SPEAKERS COME

I. B. Rhodes, To Be Here Friday, While Raymond Robins Will Appear Later.

Two Y. M. C. A. speakers, I. B. Rhodes, sectional secretary for the Association in the northwest, and Raymond Robins, a "Y" field organizer, will give a series of talks to university undergraduates within the coming two weeks. Mr. Rhodes will be a campus visitor Thursday and Friday and Mr. Robins will follow him in about a fortnight.

The latter worker is perhaps best known as the chairman of the Pro-

gressive party convention of 1916. He is making a college-inspecting tour through the northwest. Idaho being, with a single exception, the smallest institution of college in the northwest. Each will have a brief stop to form the different campus groups.

FORT WRIGHT MAY BE SCENE THIS YEAR'S ENCAMPMENT

Commandant Announces That Henceforth Four Regular Drills Will Be Held Each Week.

Captain Cummings has applied to the war department for permission to hold the annual encampment of the Idaho Cadet Battalion at Fort Wright, near Spokane. The department has not yet replied to Captain Cummings' request but will, in all probability, grant him permission to hold the encampment at Fort Wright.

"If I am granted permission," said Captain Cummings, "we will be quartered in the regular quarters just the same as two regular companies, and the department will lend every assistance, such as furnishing cooks, and enlisted men to help with the instruction of the men. The program for the work during encampment I have not yet made out but there will be enough to keep every one busy."

It is thought that expenses will be about seven dollars per man. This will cover railroad fare and "chow." Captain Cummings also stated that from now on there will be four drills a week and punishment drill will be held on Saturday from one till two.

The Frosh at Colorado Ag. college have a happy custom of ducking some of their members occasionally during the assembly hour and as far as can be determined, the ducking is impartial and no reason required or given. The president of the Freshman class was ducked there last week after an oration on the evils of forgetting to wear green caps. The manner of ducking is of interest. The Frosh make free with a large tank that is used in summer to dip mangy sheep, move it up to the main building and fill it with nice cold water. Then when the fun starts, the drink is all ready.

The Freshman rule is in operation at many of the western colleges and Colorado Ag. college has found a way to get the Freshmen to turn out and scrap the regulars. At the end of the season, class sweaters are presented to those Freshmen who have turned out for practice regularly during the season, and who are otherwise deemed deserving of the honor. At the end of the past season fourteen sweaters were passed out.

MILITARY FUNERAL IS HELD.

Full Honors Rendered Corporal W. H. Crow By Cadet Squad.

A squad of university cadets under the command of Second Lieutenant

Stillinger took part Friday afternoon in the military funeral accorded Corporal W. H. Crow, late of the 143rd Coast Artillery. Corporal Crow, who had seen service both in the Philippines and on the Mexican border, was for a number of years a Moscow resident.

The usual military salutes were fired at the grave and "Taps" were played by E. J. Carey, leader of the university military band.

Iowa Gets Giant Footballer. Among the candidates expected to try for the University of Iowa football team next fall is Bernard H. Hoyle of Des Moines. He will try for the center berth. Hoyle's shoes measure 28 size; he is 19 years old, weighs 275 pounds and is 7 feet 9 inches tall.

Michigan Adopts Honor System. The students of the University of Michigan recently adopted the honor system of examinations and put it in effect on their midyear examinations last month. The vote stood 2700 to 1800 in favor of its adoption.

Illinois Gets New Buildings. The University of Illinois is at present erecting three buildings and a fourth is being remodeled at a cost of \$36,000. These buildings represent the beginning of a large building program planned for the next ten years.

VENUS 10c PENCIL
 No matter what course you're taking you need this famous pencil!
 BECAUSE of the superlative quality of material and workmanship, VENUS is admittedly the finest pencil it is possible to make.
 If you like a thick soft lead that marks so that you can read the writing half way across the room, choose the soft degrees 6B-5B-4B.
 For short-hand notes or easy writing 3B-2B-B (medium soft) are popular.
 For sketching, general writing purposes, etc. HB-F-H-2H (medium) will prove desirable.
 For drafting, a medium hard pencil gives the best results an dyou'll like 3H-4H-5H-6H.
 For very thing, narrow lines for extremely accurate graphical charts, maps, details, etc., 7H-8H-9H are available
 Look for the distinctive water mark on each of the 17 black degrees and hard and medium copying.
 Your professors will confirm these statements as to the merits of VENUS pencils.
 For sale at the College Book Store.

A MIGHTY good doctor says to me once: "When it comes to curing folks, Nature is the real M. D.--I'm only her assistant." That's the way I feel about curing tobacco.
Scout! I'm saving this for VELVET!
MOTHER NATURE Protects Your Tobacco IF You Smoke VELVET
 She sees to it that Velvet's mellowness and aroma are not created by artificial methods, but by her very own. That is--
 A complete natural curing for two years, during which time the tobacco remains, untouched, in its original wooden hogsheads. At the end of two years it is made into Velvet and is as smooth as the name implies.
 Men have tried--and will try--to beat this method by quick curing or artificial processes, but Mother Nature's way--the Velvet way--remains the very best.
 It costs us more money to prepare Velvet in this way--it will cost you only 10 cents to prove Velvet, at the first store you come to!

Society Gossip

YELL, GENTLE SPRING!

Spring, Spring, where art thou? If winter sitteth upon thee, and holdeth thee down, cry out for help. Perhaps a rule can be made preventing winter from behaving in such a manner unseemly. (Rules have been proven to be most effective.)

In the meantime what are we to do? If spring doesn't come we can't have the spring fever; if we can't have the spring fever, we haven't any excuse to stop grinding; if we have to grind, what's the use of living? Oh! Spring, have a heart!

Impromptu Party Given.

A small but altogether enjoyable party was that given Saturday by Talbot Jennings in honor of his brother, Charles, who is a campus visitor. The guests were Mr. and Mrs. Homer Youngs, Mr. and Mrs. Gail, the Misses Eagleson, Douglass, Denning and Barnes, Gerald Hamilton, Robert Johannesen, and Fred Graf.

No, We We Can't Hear Yuh.

That rare and unfortunate student, who has enjoyed neither the mumps, the measles, or the whooping cough, may as well sink into a dark corner and stick his head in the sand. No one will listen to his feeble voice. Testimonials are the vogue nowadays, aren't they, Gwendolyn?

Why Not "Vanity Fair."

They say "Life" is the most generally read magazine in the library. That's strange, when people come to college for the express purpose of getting high or higher or high-power knowledge. We feel that we should head a movement for more serious reading in spare hours—something elevating and soul-stirring!—something noble and inspiring.

Personally we are in the habit of reading "The Theater."

Dancing and Billiards Enjoyed.

A party of young people enjoyed a delightful evening at the home of Mr. and Mrs. Max Griffith on Saturday. Dancing and billiards were indulged in, and a unique luncheon was served. Those present were the Misses Bowers, Babcock, Latta, Bodler and McKenna, and Messrs: Evans, Nielson, C. Hyde, E. Hyde, Erb and King, Mr. and Mrs. Howard David, Mr. and Mrs. Cliff Edmundson and Mr. and Mrs. Max Griffith.

Kappa Sigs Dance at House.

The Kappa Sigmas entertained at an informal dance at the house Saturday evening. The party was chap-

eroned by Doctor and Mrs. Dodd, Dr. Hills, and Mr. and Mrs. T. D. Matthews.

The other guests present were the Misses Cornwall, Forbes, Mellison, Burke, Wiperman, Swan, McCrean, Taggart, Carrithers, Miller, Pearson, McGirt, Johnson, Sampson, Cowgill, Scullen, Franz, Chrisman, Richardson, Willis, Davidson, Kerr, and Pierce, and Messrs. Vernon Brown, Dean A. Iarno, David Matthews, and Harold Decker of Pullman, and R. C. Hitchcock.

D. G. Initiates Entertained.

The Delta Gamma alumnae of Moscow entertained Friday at the Guild hall in honor of the chapter initiates. Hand-painted programs in the fraternity colors were a feature. Lida Brannon and Dorothy Parsons served punch. The guests were Florence Frazier, Marie, Anderson, Florence Pierce, Lilly Olson, Ellen Peterson, Messrs: Hammond, Adleman, Atwood, Samms, McDonald, Moore, Carnahan, York, Nielson, Darling, Hays, Butterfield, Groninger, Boyd, Thomas, Wood, Weber, Dingle, Taylor, A. Johnson, Emmett, Richmond, Denecke, Vincent, Glindeman, Lewis, Christ, Shields, Priest, E. David, Thompson, Chapman, Hamilton, A. V. McCormack, Greene, Graf, Brashears, C. N. Johnson, Wade, Swan, F. Youngs, Roberts, Montague, Keane and Morris.

Kappa Sigs Open New Home.

The Kappa Sigmas established a precedent Saturday when they opened their new home, which the Star-Mirror characterized as an "Eveless Eden," with an informal reception to the students and faculty of the University and the townspeople. More than three hundred invitations were mailed and from two o'clock until six a continuous stream of visitors passed through the new house and met the members of the fraternity. The guests were met at the door and introduced to such members as were available after which they were taken through the house. A suite of rooms on the first floor, newly furnished by the alumni and utilized as a guest suite, was especially commented upon as completing an otherwise well arranged fraternity home. Finally, punch and wafers were served in the spacious dining room.

A number of business men were unable to be present because of the press of afternoon business but such as were there and the entire student and faculty body expressed themselves as being well pleased with the commodious quarters that the Kappa Sigma fraternity has provided for a portion of the students who attend the University of Idaho.

pervisor for the Potlatch Lumber company. Mr. Munson will have his headquarters at Bovill, Idaho.

Sophs Promise Novelty.—The Sophomores have promised a series of Terpichorean novelties for their annual "Ruff," which has now been set for St. Patrick's day, March 17, a week from the coming Saturday. They are not yet ready, however, to divulge any of their plans.

Certificates Granted Specials.—Beginning with this year, short course students in Mining and Forestry are to receive certificates of their attendance and work at the university. This is an innovation which may prove popular with the "specials."

Star-Mirror Gets Catalog.—The contract for printing the university catalog for the present year has recently been let. The Star Mirror, winning over a score of other concerns throughout the state. An interesting fact in this connection is that owing to the increased price of paper, the lowest bid was almost fifty per cent larger than the lowest bid of last year.

Miller Gets Appointment.—Ronald Miller, '16, a graduate of the department of animal husbandry, has been appointed superintendent of the Hereford stock farm of Senator N. J. Camden at Versailles, Kentucky. Senator Camden has a very fine tract of land in the region near Versailles, and has a fine foundation herd of Herefords, costing several thousand dollars. Mr. Miller has the satisfaction of being in charge of one of the largest Hereford herds in the United States.

PERSONAL MENTION.

- Earl Duthie spent the week end in Troy.
- Sigmund Sieler spent th week-end in Spokane.
- Helen Stanton was a dinner guest of Gamma Phi Beta Tuesday evening.
- Mr. Cowgill and his daughter were guests of Gamma Phi Beta Sunday.
- William Newland was a dinner guest of Sigma Nu Sunday.
- Ann McMonigle, '16, is spending the week at the Delta Gamma house.
- Othel Martin Seaverns, '15, spent Monday at the Kappa house.
- Jessie Smith spent last week end at her home in Coeur d'Alene.
- Florence Frazier of Colfax spent the week-end at Delta Gamma house.
- Verner Clements and Tom Lommason were Colfax visitors last week.
- Charles Jennings, of Nampa, is a Phi Delta Theta guest this week.
- Mrs. G. A. Chapman of Colfax and her daughter, Ruth, dined at the Beta house Monday evening.
- Sam Morrison, Verner Clements,

Ronald Every and Charles Owens were Beta dinner guests Wednesday.

Giles Carpenter, Tom Lynch, Orin Phillips and Z. B. Parsons dined at the Beta Theta Pi house Tuesday.

Frances Bailey was called to Spokane Wednesday by the serious illness of her mother.

Lillian Wagon attended the Sigma Phi Epsilon formal held at Pullman Saturday evening.

Raymie Forbes is spending the week at her home in Lewiston on account of illness.

Professor and Mrs. Burrill and daughter, Josephine, were dinner guests of Gamma Phi Beta Sunday.

Sergeant W. H. Abendroth was a Kappa Sigma dinner guest last Tuesday.

William Carder was a guest at the Kappa Sigma house Thursday.

The Messrs: Martinson, Holden, Stenger, Illingworth, and Wilson were at the Kappa Sigma dance in Pullman Friday evening.

The Messrs: Morse, Chrisman, Hawley, and Illingworth went to Pullman returned Sunday afternoon.

Mr. and Mrs. C. C. Bowerman of Pocatello were guests of Delta Gamma last week.

Dr. and Mrs. G. A. Chapman of Colfax are visiting their daughter, Ruth.

Elizabeth Bowerman accompanied her parents to Spokane to see "The Bird of Paradise."

Harry Hawley, Aden Hyde and Harold King were dinner guests of Phi-Delta Theta this evening.

Stanley Brown, '16, with his Astin high school basketball squad, where Phi-Delta Theta house guests Saturday.

Roscoe Kipp, '15, Charles Fohl and Carl Lewis were Phi Delta Theta visitors last week.

Messrs: Brigham, B. Keane, Cornelison and Fallquist were dinner guests of Phi Delta Theta Sunday.

The members of the Lewiston high school basketball team, including Messrs: Whitcombe, Pearce, Krin, Proctor, Lee, F. Mustoe, H. Mustoe, Muller and Coach Hayden were house guests of Phi Delta Theta Friday and Saturday.

Messrs: Jackson, Agee, and Walter Thomas were at dinner at the Phi Delta Theta house Wednesday.

Professors Hitchcock and Ray were dinner guests at the Zeta Chi house Sunday afternoon.

McKinley Helm went Thursday to Lewiston where he has been confined

to his home with a severe attack of gripe.

H. L. Krippner of Cleveland, is a guest of the Zeta Chi Alpha.

President Brannon, Miss Benton and Misses Eleanor and Lida Brannon were Sunday dinner guests of Beta Theta Pi.

The Spring Hats Are Here

When we buy hats for you, we have always in mind the two points of primal importance—Style and Quality.

They are broad terms but they include everything worth while to you and to us.

Mallory Hats

combined style and quality in an unusual degree. They are the product of a factory which has experience and a reputation for hat-making ninety-three years long.

So if you want a Spring hat that will look well on you and enjoy the satisfaction that comes from possessing a thoroughly good and stylish hat, come in and say "Mallory" to us.

DAVIDS

IDAHO EXPERIMENT STATION PREPARES 20 BULLETINS.

Carl M. Eklof Placed in Charge of Extensive Work Carried On at Caldwell.

The experiment station, under the direction of J. S. Jones, is rounding out one of the most successful years of its existence. The annual report for 1916, which recently appeared, presents every phase of the work in which the different units were engaged.

The work at the different demonstration farms and the central plant at Moscow has been marked by steady and rapid progress, and in a recent interview Director Jones made the statement that "never before had the work been as efficiently organized as at present."

Besides the experimental data obtained, the material results consist of a series of pamphlets and bulletins, about 20 of which have been submitted for publication. This series deals with all phases of agricultural work in Idaho, and is by far the largest number ever produced in one year. Several of these are already in print, "Experiments With Small Grains Under Irrigation," "Management of Farm Flocks in Idaho" and "Experiments With Legume Crops." The list also includes two by the Forestry department, "Methods of Clearing Logged Off Land," and "Forest and Shade Trees and Basket Willows Recommended for Planting in Idaho."

The Caldwell demonstration farm has recently been put under the management of C. M. Eklof, '16, a graduate in farm crops, and this year an assistant in the College of Agriculture. Mr. Eklof is exceptionally well fitted for the position, having had two years' experience on the Aberdeen farm, and being thoroughly conversant with the different details of the work. The farm consists of 320 acres, approximately 40 per cent of which is under cultivation. It is used primarily for research work in small grains, soils and small fruits, although some work in animal husbandry is also being done, along the lines of the food values of different forage crops.

Some entirely original work is being conducted to determine the pork producing value of different green feeds, such as clover and alfalfa, in terms of pounds per acre.

Owing to the expiration of the lease on the Gooding farm, the irrigation research being conducted there will be transferred to the farm at Caldwell.

C AND E CLUB "DISPOSES" OF INTERNATIONAL PROBLEMS

Professor Lewis Prophesies That Japan and Russia Will Be Leagued in Next War.

The regular meeting of the Commerce and Economics club was held at the Beta house Thursday evening. L. F. Thorns of Coeur d'Alene, L. F. Thomas of Coeur d'Alene, the speaker of the evening, being detained, an informal discussion of the present international situation was substituted for his address, Professor Bond leading.

The possibility of Germany's investigating Mexico to attack United States and Japan's probable mode of attack if she should join with Germany against the United States and the Entente were "disposed of." It was "decided" that Japan would not seek a war with Germany against the United States because she wants to keep Russia's friendship, an important factor in her expansion into China.

Professor Drucker also added that Japan would not be in a position to stand the financial strain of a war alone and she would not be able to obtain help from the other countries. Professor Lewis pointed out that the question of Japan's participation in the present war is one of prime importance. Japan is actuated by motives of expediency and is striving to become supreme in the Orient. Professor Lewis prophesied that the next great war will be waged with Russia and Japan on one side and the remaining great powers on the other.

Berkeley "Bulls" Badgered.

Juniors at the University of California are working hard every evening on the junior play which is to be given soon. The rehearsal was progressing in fine shape in one of the fraternity houses—the villain was shot—the hero was only wounded—everybody else was shot except the heroine—when a passerby, hearing the shots and the screams, became excited and called the police headquarters. An auto load of cops surrounded the house and with guns drawn suddenly burst in. "The police are working on the clue."

Harold—What have you been doing the last two years?
Walter—I have been working in a bank most of the time.
Harold—What were you doing there?
Walter—Oh, simply shoveling gravel.—Squib.

COMPANY A BATTALION'S BEST. Captain "Evo" Everly Receives Drill Contest Sword.

A competitive drill to determine the most efficient company of the Idaho Cadet battalion was held Saturday in Lewis court. Captain F. J. Osterman and Lieutenant R. W. Ashbrook from Washington State college were the judges and inspecting officers.

Company A was in the best form and won the sword for Captain Everly by a margin of three and five-tenths points. Company B stood second, and Company C third. The final score stood Company A., commanded by Captain Everly, 35 points; Company B, commanded by by Captain Hudelson, 31.5 points, and Company C, commanded by Captain Davidson, 31 points.

The drill consisted of close order drill, extended order drill, firing, and knowledge of targets. Captain Osterman of W. S. C. stated after the drill that the whole battalion showed a marked improvement over last year.

Conductor—Looky here fellers, you know its wrong to match nickels on the street cars.
Roughrider—Oh, I dunno—its no more than fare.—Yale Record.

FOURTH JUDGING DAY SUCCESSFUL.
(Continued from page one.)

- S. E. Hill; 4—Donald Hardin; 5—R. Everly.
 - Horticultural Department.
1—Oliver Campbell; 2—Ira Mouton; 3—E. Schmid; 4—R. Gronniger; 5—E. Lowry.
 - Poultry.
1—E. Hunt; 2—F. Wehr; 3—C. Raney; 4—R. Reiersen; 5—S. Hill.
 - Dairy.
1—R. Largent; 2—Roy Smith; 3—Z. B. Parsons.
- There were only three contestants in the Dairy contest but the others were popular, the animal husbandry contests and those of the farm crops department drawing an especially large number of students.

STUDENTS HEAR CANDID ADDRESS.

(Continued from last page.)

have a citizen to vouch for him, but marriage, the most sacred of all contracts can be entered into with practically no restrictions. This fact is a material one in causing the United States to expend over \$200,000,000 a year in keeping up insane asylums, penal institutions, and alms houses, while very little is being done to prevent the propagation of the unfit. Many of the large eastern churches have made rulings that they will not marry parties who will not furnish health certificates. This matter is loudly calling for state legislation. At present nine states have passed laws requiring health certificates and in sixteen others legislation is pending. All can make each determine to bring as clean a life to his wife as he can

expect of her, and see that the call to fatherhood is as high as the call to motherhood.

Home Life Breaking Down.
"The home life, the bulwark of the nation is to-day breaking down because of the indifference of parents. The home in many cases is little more than a hotel and, as a result, the children are thrown on the street. The crisis has come and it is a question whether we are a nation strong enough to meet it or not. As a rule we are too prone to starve with gold, ease and frivolity."

"We hear a great deal about keeping children off the streets, but very little is done to make the streets fit places for children. Pool rooms, picture shows, and dance halls are among the most prolific sources of downfall to boys and girls. Using the school building as a social and political center will do much to meet the problem of keeping children off the street. The delinquency of children is where it belongs when it is placed at the door of the parents."

Schools Praised.
"I maintain that morals and character can, and are being taught in schools. There is not a more clean and patriotic group of people that the teachers of our public schools. Out of a group of 700 teachers in Chicago, during six years, only three were guilty of misdemeanors, which is a better record than can be shown by any other class of people of the same size. The constant influence of people of this type upon children is

bound to build better characters. As some cities have vocational bureaus to ascertain what work a man can do best and place him in that position, so every school child should be guided in his proper line of work. And, instead of "Back to the Farm," the slogan should be "Keep the boy back ON the farm" so he will not be attracted by the glitter of the city where the prizes are not found."

A thoroughly enjoyable piano solo played by Lois Warner preceded the address of the morning.

Why Go To "Idaho"

The choice of a university or college to be attended by a student should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2nd, a competent faculty; 3rd, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

- Purpose and Field—**
Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Home Economic, and Educational matters not only to students in residence but also to all who desire it throughout the State.
- Faculty—**
The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are fifteen workers in the agricultural extension division and six agricultural county agents.
- Equipment—**
Its equipment is ample. It has a library of over 39,000 volumes, excellent facilities for teaching. Literature, Philosophy, and the Social Sciences, and well provided laboratories for the natural and applied sciences.
- Students—**
Its students numbered eight hundred and seven in the school year of 1915, 1916 and were earnest, wide-awake, and democratic. A large number of them earned their own way. Its alumni now occupy high positions and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The four colleges and the central agricultural experiment station are located at Moscow; the main agricultural extension office is located at Boise, and the agricultural sub-stations and demonstration farms at Sandpoint, Clagstone, Moscow, Gooding, and Aberdeen.
