# UNIVERSITY MAY CLOSE

## FOUNDERS' DAY PLANS OUTLINED

Committee Considering Big University Exhibit Showing History of Institution.

### OLD TIME PHOTOGRAPHS ASKED

Pageant May Possibly Be Staged; Cadet Battalion to Go Through Varied Maneuvers.

The committee on "Founders' Day" has plans well under way for a fitting ceremony in commemoration of the men who were responsible for the establishment of the university. Speeches from Founders Planned. Several speakers have been asked to give addresses during the day, but the committee has withheld the names until the list is complete. It is the plan to have as many as possible of the men or women, who really had a part in the establishing of "Idaho" present, and to have them speak from actual experience of the founding of the university.

The committee has arranged for an extensive exhibit of the university's work in research and in all other lines from her establishment up to the present time. This will include the College of Agriculture as well as the departments of letters and sciences.

### Committee Asks Photos.

The committee is desirous that all who have old time pictures, depicting campus scenes in the early days of the university's life, would loan them for the exhibit. They may be left with Dean Eldridge or Miss Stevenson. It is planned to have these pictures portray the university's history, step by step, up to the present.

There is a possibility that a pageant may be staged to typify the life and growth of the university from its founding until the present time. Owing to the great amount of time and work required to organize such a pageant, it has not yet been fully decided as to whether or not it will be given.

### Cadets Will Maneuver.

The battalion of university cadets will be asked to go through various maneuvers, which will be closed with a dress parade and inspection. There will also be an open-air concert by the orchestra and band.

The entire program will be given outside except the showing of the campus pictures by means of a reflectoscope, which, of course, will have to be given indoors. The exhibits of research work will also necessarily be placed inside.

### Lunch To Be Served On Campus.

Lunch will be served on the campus at noon for all participating in the program.

It is very likely that a baseball game will be scheduled during the afternoon between members of the faculty and alumni.

The plans have not been fully decided upon as yet and there are likely to be several changes made. The committee is anxious to receive suggestions from faculty, students or townspeople that will help to make the day a success.

The exact date has not yet been determined upon but it will fall some time within commencement week.

## "Y. W." ELECT CORA MAE JONES

Presidency of Women's Organization Falls to Sophomore.

The Y. W. C. A. held its regular meeting last Wednesday, led by Ruth Cochran. Miss Wilson of the Moscow schools talked on "Missions in Egypt." After the meeting she showed many curios brought from the Nile valley.

The association elected officers for the coming year. They are: President, Cora Mae Jones; vice-president, Ruth Cochran; membership, Elizabeth Bowerman; social, Verna Johansson; conference, Pearl Morgan; posters and publications, Clorinda Bodler; music, Norma Dow; secretary, Lois Warner; treasurer, Lenora Harbke.

## VARSIITY VS. INDIANS FRIDAY.

First Home Game of Season to Be Played With Northwest Leaguers.

Friday afternoon at 4 o'clock, the first ball game of the season will be played on the home lot. The contest will probably be staged on the fair grounds diamond, the university athletic field being in no shape for battle at present.

Coach Bleamaster will send a scrapping team onto the diamond to do battle with the Indians. Brashear will probably climb the hill for the Varsity, Captain Barger calling signals behind the log. Jim Almqvist holding down the initial sack, Charlie Gray and "Chick" Evans on either side of the pivotal peg, and "Nip" Neilson on the third corner will form the infield. Bistline, Grove Evans and Keane will probably be garden-tenders.

The Indians have not started north from Portland as yet but are expected to put in an appearance for this game at Idaho and one in Pullman, before opening the league season in Spokane next Tuesday.

## "SONGS ONLY," SAY CHAIRMEN

Stunts Will Probably Be Eliminated From Annual Fest.

At a meeting of the chairmen of the different class song and stunt committees called by Student Body President Aden Hyde Tuesday afternoon it was decided that it would be best for all concerned to eliminate the usual "stunts" from the fest annually held as a climax to interscholastic week. The exigencies of the present national crisis and the increased demands upon all college students form the principal "reasons why" for the action taken.

The general consensus of opinion was, however, that the song contest should be held and it was suggested that the successful class employ the \$50.00 prize as the nucleus of a fund to be used for the publication of an Idaho song book. The honor of publishing the book would, of course, fall to the class winning the contest.

## COACH SHORT OF '19-'20 ARTISTS

More Men Needed to Fill Out Events in Class Meet; Arthur Chapman Makes Good Jump

April 28, the date set for the '19-'20 track meet is but ten days off and finds only a fair representation of the two classes working for their individual and class honor. The men laboring are showing some ultra-promising form and insure good competition in the events which will be pulled off. A few more entries to crowd the field are highly desirable this week and next.

Field events are rapidly assuming the appearance of assets. Poe, Duff, Jones and Davis cleared the bar at 5-2 in the high jump in an early practice. Duff and Cassidy are working to good advantage on the pole-vault. These events are still being practiced in Lewis court, and it is safe to say that outdoor performances will be even more encouraging.

### Chapman Shows Great Form.

Art Chapman fastened a tape to his heels Saturday and dragged it out 19 feet-11 inches in a practice jump. This is five inches further than the broad went for in the indoor conference meet two years ago. Art promises to make the 22-foot mark before the season is over.

Captain "Turk" Gerlough is clipping the 880 in better than 2:10 and Ennis Massey is tearing up the turf in mid-season form in the 220 and 440 events. Tom Jackson, two-miler, is romping around in great shape. Oliver Campbell is having no trouble

## GREAT FOOD CAMPAIGN THREATENS ACTIVITIES

### BOARD OF EDUCATION WILL WEIGH MOMENTOUS QUESTION

The university may close its doors within a fortnight. This is the possibility which may attain a more than probable stage after the report of a committee organized Wednesday morning is made to the state board of education. The committee, which is composed of Dean E. J. Iddings of the college of agriculture, O. D. Center, state director of agricultural extension and J. S. Jones, director of the university experiment station, will at once begin an exhaustive and detailed survey of the state's resources. Its report will be made to the board of education within ten days and the board's first step may be the closing of all Idaho's public schools from the eighth grade through the institutions of higher learning.

"The demand for labor is quite likely to cause such an action to be taken," said O. D. Center Wednesday afternoon. "This problem is indeed urgent and the plan proposed seems the one most feasible for meeting the difficulties which have arisen."

"Students between the ages of 16 and 20 will probably be put on the farms, it being possible that many will be taken from non-productive to productive labor. Younger children will be put at garden making under the direct supervision of agricultural experts."

President Brannon telephoned Wednesday afternoon to Evan Evans, president of the state board of education, who is now at Grangeville, asking for a special meeting of that organization to be held some time in the near future.

## IDAHO RED CROSS UNIT ORGANIZED

University Co-eds Meet and Decide to Form Separate Group; Four Courses To Be Given

CAMPUS DAY COMES MAY 18 Suggestion for Patriotic Demonstration Eagerly Acted On; Several Talks Are Made.

A meeting of the Women's league was held Tuesday afternoon to decide what action should be taken in reference to forming a Red Cross organization.

Dean French spoke to the co-eds present about the responsibilities they must assume and the need of definite action. The theme of her talk was "conservation," and by giving figures to show the immense loss in money yearly through waste of food-stuffs, she illustrated how much the women can save the nation by the economic buying and preparation of foods.

"Remain at Home," Says Dean. "As young women, the students of Idaho must conserve their own energies at this time and expend them along that direction in which they will do the most good," said the Dean. "It is not the duty of the young college women to rush to the front with ideas of winning glory and alleviating suffering, but it is their duty to remain at home and do their part in their communities as leaders."

It was for this reason that she urged the girls to either affiliate themselves with the Moscow chapter of the Red Cross as an auxiliary or form an independent organization for the study of those subjects taught by the Red Cross.

Four Classes Offered. Following Dean French, Miss Jessie Hoover outlined the differences between an auxiliary to the Red Cross and an independent organization. She explained that in order to become

### ELDRIDGE SPEAKS AT PULLMAN

Dean Assisting in State College "Follow-up" Meetings.

Dean J. G. Eldridge speaks at Pullman this evening before a State College Y. M. C. A. meeting arranged as a "follow-up" for the Raymond Robins series of lectures. His subject is "The College Man and Religious Education."

It is possible that several meetings of a similar nature will be held on the campus.

### Report Starts Action.

The organization of this committee, with its possibilities of tremendously important activity, resulted from a report made this, Wednesday, morning, by O. D. Center, who has just returned from a recent conference of representatives from agricultural institutions in seven western states held in Berkeley.

The following are the four principle recommendations of the Berkeley conference as reported by Mr. Center:

First—A request by the state for Federal funds to prosecute its campaign for greater food production to a successful conclusion.

Second—The mobilization of the agricultural college, experiment station, experiment station and extension forces of the state under the active direction of a committee composed of one man from each division of the service.

Third—The prosecution of all work in close harmony with the four phases of activity outlined at the great St. Louis agricultural conference.

Fourth—The organization of all possible allies, as the schools, churches, commercial clubs, women's clubs, farmers' organizations and banks into one harmonious whole.

### \$85,000 Will Be Asked.

At a meeting of the committee held in the late afternoon, it was decided to ask the federal government for \$85,000.00 to carry on the campaign planned. Messages containing the request were wired at once to Secretary of Agriculture Huston and Idaho's senators and congressmen.

The entire agricultural force is now under the direct control of Secretary Huston, according to Dean Iddings. "As all members of the agricultural faculty receive money from Federal funds," he said, "the secretary could at this time order anyone on the force to any part of the United States if the interests of the department demanded such action."

The four high-light phases of the St. Louis conference, under which the Idaho work will be carried forward are: Production and Labor, Distribution and Prices, Economy and Utilization and Effective Organization.

The work of bringing different state organizations into line with the committee's campaign has already been begun. Various commercial organizations have been approached and the schools have been made ready for possible action.

"Several university students who gave proof that they were really needed on the farm have already been dismissed for the balance of the semester," said Dean Iddings, "and others will be allowed to go if they can demonstrate that their cases merit consideration."

It is of interest to note that the Utah authorities have already taken the action contemplated in Idaho and

## VARSIITY SPLITS OPENING SERIES

Bleamaster's Men Lose Second Contest After Tying It Up In Ninth With Seven Runs

### BLACKMER HURLS GOOD BALL

AI, the Attenuated, Used As Relief Pitcher in Both Frays; Charlie Gray Gets Five Blows.

Idaho went 50-50 with Montana in the first series of the 1917 baseball season at Missoula last Friday and Saturday. The first game was won with two runs in the ninth after the Bruins had tied the score in the eighth. The second contest went to Montana with a score of 10-9 after twelve innings of fast baseball. Both engagements were characterized by heavy slugging.

### Early Season Showing Good.

Coach Bleamaster liked the looks of the Idaho men in the initial series. "The boys played better baseball in both games than did Montana," he said. "The second game should have been ours, bad breaks being responsible for the defeat. I'm well pleased with the way they hit and their fielding was very good when you consider we have had no practice at home this season."

"Nip" Neilson, Charlie Gray, Captain Barger, Jim Almqvist, Grove Evans and Jim Keane were unusually effective with the willow, many of their hits going for extra sacks. Rettig and Blackmer worked on the slab the first game, Blackmer also finishing the second contest after Keane was taken out in the third inning. He allowed but three runs in the nine full innings he worked in this fray.

### First Game Wrongly Reported.

A mis-read telegram and a fertile imagination resulted in an erroneous report of the first game in Saturday's Argonaut. Idaho was leading until the seventh inning when the Grizzlies tied the score with three runs. Rettig was retired in this frame in favor of Blackmer, one run being charged to AI. In the eighth Varsity crowded two more onto the

(Continued on page four.)

### Three Fail to Respond.

Because they refused to rise during the singing of "The Star Spangled Banner" three girls of Hunter college are in danger of expulsion and the college is in a turmoil. The girls are said to defend their action on the ground that they dislike any flag and any government.

## RESERVE CORPS ATTRACTS MANY

Captain Cummings Swamped With Flood of Applications for Chance To Be Examined

### JUNIORS ARE NOW ELIGIBLE.

Recent Advice From Department Makes Possible Admission of Qualified Third Year Men.

### EXAMINATION WAIVED.

Juniors in College who have had two years' military training may be recommended for the rank of second lieutenant in the reserve corps without undergoing the usual military examination and juniors or seniors who have had three years' drill, one of which was performed as a cadet officer, may be recommended, without examination, for first lieutenantcies. This was the announcement made Tuesday evening by Captain Avery D. Cummings upon advice from the war department. Freshmen and sophomores have been urged by the captain to enlist for the officers' Reserve corps training camp work to be held during the summer. It will be possible for such men to take the reserve corps examination in the fall.

The following men have passed both the mental and physical reserve corps examinations: R. G. Harding, W. A. Boekel, T. O. Boyd, R. W. Everly, H. S. Youngs, N. McDougall, H. D. McGirr, F. C. Erb, Chas. H. Owens, and A. M. Boyd. None of the men have yet received their commissions.

The principal campus evidencing of the martial spirit has been found in the persistent attempts of almost every upperclassman in college to find an excuse for breaking into the officers reserve corps. The large stipend which falls to even second lieutenants, and the emoluments concomitant with a commission have proved extremely attractive.

This reserve corps was created by act of congress last June to fill the urgent need for trained men to take charge of the army of volunteers which it has been proposed to raise, and authorizes a total of 50 commissions to every congressional district. This allotment will give Idaho 100.

### College Men Called.

The plan has found immediate favor among college students and civilians. Applications are coming in daily, with no signs of cessation.

The commissions range in rank from second lieutenants to that of major, and may be had in one of several branches of the service, such as the infantry, cavalry, and the field and coast artillery. In addition to these commissions as "officers of the line," professional men may obtain offices in the medical, signal, engineering and similar corps. All enlistments are for a period of five years, subject to reappointment or promotion within the prescribed age limits.

### 15 Day Service.

In the medical and similar corps, the limits do not apply. Except in time of "real or threatened hostilities the actual service required of the reserve officers will not exceed 15 days each year. This will consist of work in the training camps and practical maneuvers, and may be extended to thirty days if the men so desire. The pay has been made equal to that of the corresponding ranks in the

**A WISE CHOICE.**

Eclectic indeed was the Sophomore class impulse which resulted in the selection of Frank B. Sutherland as editor-in-chief of the 1919 "Gem of the Mountains."

If conscientiousness, sincerity and genuine eagerness for journalistic toil make for achievement in the matter of year books, the 1919 annual should, under Sutherland's molding, carve a deep niche in the campus publications hall of fame. Its editor-elect is possessed of real ability to handle English as "she is not did by George Ade," plus sound judgment seconded by a lively sense of humor.

The campus may look forward with a deal of pleasurable anticipation to the appearance next spring of the 1919 year book effort.

**RESERVE CORPS ATTRACTS MANY.**

(Continued from page one.)

regular service, and covers all time spent in camps, as well as the time consumed in travelling to and from the place of assembly. The uniforms and equipment will be supplied by the government.

The conditions for eligibility are unusually liberal, any citizen of the United States, who is at least 21, and is not an officer of the national guard or regular army, being allowed to make application. This includes enlisted men of both the national guard and army. Other requirements are the passing of a physical and mental examination.

**Mental Exam Comprehensive.**

The mental examination covers theoretical and practical work. It includes drill, field service and spring regulations, administration, guard duty, military law, and topography (map making and reading). In regard to the detailed requirements the bulletin says:

9.—If an applicant has attended or pursued a regular course of instruction in any military school or college of the United States, or has graduated from any educational institution to which an officer of the Army or Navy has been detailed as superintendent or professor pursuant to law, he shall, if a graduate, be required to present a diploma or certificate of graduation from such military school, college, or educational institution, or, if not a graduate, a certificate showing the amount and character of training, theoretical or practical, satisfactorily completed thereat.

10.—Examinations are being expedited for applicants for commission as reserve officers of the line, with special reference to the following requirements

- 1.—Character and sobriety.
- 2.—Personality, address and force.
- 3.—Reputation and standing in his community.
- 4.—Whether or not he is likely to command respect of officers and enlisted men.
- 5.—Whether or not he has adequate education.

If an applicant is found qualified under the above, the grade in which he shall be recommended for commission will be determined by the amount and character of his military training,

together with the prescribed age limits.

In the event that the applicant has had no military training, or military training of little value, he may nevertheless be recommended for commission as second lieutenant (subject to the 32 year age limit), provided he is a college graduate, or senior in college, or clearly a well-educated man, and provided he has demonstrated in business, athletics, or other activity, that he possesses, to an unusual degree, the ability to handle men.

As a measure of the results the War Department desires to obtain, an effort is being made to secure the appointment of 40 or 50 reserve officers of the line in each congressional district. The matter of military training affects the grade to be given, but does not, of itself, admit to the Reserve corps.

**Captain Examining Board.**

Captain Avery D. Cummings, commandant of the cadet battalion, constitutes the examining board for Idaho, and has complete authority to pass on all men making application for the rank of first or second lieutenant. All higher grades must be applied for to General Liggett, in charge of the Western department.

Concerning the corps, Captain Cummings said, "A great deal of interest has been aroused in the subject and application and inquiries are coming in daily. It is probable that some will be disappointed on account of failing in physical requirements, others on account of failing in the general educational requirements. While several men have already passed the examinations, the papers have not been sent in, nor have I made any recommendations as to commissions. However as soon as definite word is received in regard to the commissions the men will receive instructions to report at the different training camps.

"In order that there may be no misunderstanding, the following changes have been made in the conditions for eligibility with respect to college students: No freshmen or sophomores are eligible, while only seniors and especially qualified juniors may make applications. All graduates are of course eligible."

**ARTICLES OF HISTORY OF WEST PENNED BY MARSHALL**

One Deals With Famous Santa Fe Expedition; Other With Trade On Trail of That Name.

Professor Marshall of the department of history, has recently received copies of reprints of two interesting articles he has written. The most recent appeared in the January number of the South Western Historical quarterly, and is entitled, "Commercial Aspects of the Texan Santa Fe Expedition."

The expedition was sent out in 1841, while Texas was yet an independent republic. The government at that time was heavily in debt, and the main object of the expedition was to liquidate this debt and stimulate business conditions by diverting the Santa Fe trade, which amounted to several millions annually, from the United States to Texas. To this end a commercial alliance was effected with Cuba, then a colony of Spain. In order to realize the desired result President Lamar authorized this expedition, its purpose being to capture Santa Fe, and take possession of the territory east of the Rio Grande, thus taking over the trade and establishing Texas as the third great republic on the continent. The expedition ended disastrously, however, and five years later Texas was annexed by the United States.

The second paper is one of several read at the convention of the American Historical Association, held in San Francisco in 1906. These papers

have been incorporated in a volume entitled "The Pacific Ocean in History," containing monographs by such eminent historians as H. M. Stephens, Herbert E. Bolton, Theodore Roosevelt, Joseph Schafer, and F. Golder.

It is entitled "St. Yrain's Expedition to the Geld in 1826," and deals with the early trade over the old Santa Fe trail, which sprang into prominence when Mexico attained her independence in 1821. The usual conception of this trade is that it was legitimate merchandising but in this paper, Prof. Marshall proves that, prior to 1830, when the beaver were practically exterminated, the primary consideration was illegitimate fur trading. This amounted to several thousand dollars each year. The paper tells the story of one of these fur trading expeditions.

Material for the two articles was gathered from old papers and documents. Professor Marshall has received much favorable criticism upon them.

Miss Isabel Stephens spoke briefly on the advantages of the independent organization but encouraged the girls to enter the Red Cross associations of their respective towns at the close of the school year.

**Independent Group Formed.**

The girls voted on the question and decided not to co-operate with the Moscow Red Cross but to act independently as university students.

Gertrude Hays, as chairman of the Campus Day committee, suggested that Campus Day be used as a day for an immense patriotic celebration. She advised that this day be the one set aside by President Wilson for a national celebration, probably May 18. The league voted to act on this suggestion.

have dismissed all school children in the seventh grade and above.

Six Months' Campaign Planned. "Our campaign for increased food production and agricultural mobilization will be at least six months in extent, and if, during our active work, it becomes evident that a continuance of our labors is necessary, plans can be laid accordingly," said Mr. Center just before leaving for Boise. "Federal funds are a necessity if we are to achieve any material progress."

Dean Iddings left with Director Center for Boise on the late afternoon train. They will confer with Governor Alexander and the state board of examiners relevant to the securing and expenditure of the federal funds asked.

**The Choice of a Bank**

When you select a bank, you should exercise your best judgment and choose one that will serve your needs. The accommodating and progressive institution, when there is ample Capital and Resources, is usually one that serves the needs of its customers. It is the Aim of the Officers of This Bank to Exercise Every Precaution in Serving its Customers.

**Leahey's Heatless Trousers Press Valet Service**

is a wonderful little wardrobe appliance. It's a Presser, Creaser, Stretcher and Hanger, COMBINED IN ONE, WITHOUT THE USE OF THE HOT IRON that scorches the life out of fabrics, shortens their life, and makes them shiny. It's only a Dollar for a Lifetime Service.

**West Pointers Trousers Are Never Shiny**

The West Point Cadets are the best uniformed—best dressed men in the army. Their method of pressing is similar to ours. Their trousers are never touched by a hot iron. On parade, people marvel at their uniforms. Their trousers are pressed and creased perfectly, always looking like new and wear longer. A TROUSERS PRESSER, CREASER, STRETCHER AND HANGER ALL IN ONE FOR ONLY \$1. BUY YOURS TODAY.

**This Wonderful Invention**

has revolutionized the entire clothing question for men. By its use you can, IN FIFTEEN MINUTES, secure a knife-edge crease from belt to boot on trousers that at the same time are properly stretched and made absolutely free from wrinkles.

**Cut Out Tailor's Bills**

Just figure out what it costs to have your trousers pressed twice a week at 15c or 20c a pressing. Then figure the cost of the new trousers you have to get so much oftener than is necessary. In pressing cost alone you save over fifteen times the price of the Leahey Press in a single year—and it's good for a Lifetime Service.

**At Home or While Traveling**

it is equally indispensable. Takes up no more room in your suitcase than a shirt. Presses your trousers while you are on the trip. Folds up with the trousers in it. It doesn't matter where or how you live or what your occupation is—you ought to have one.

# Society Gossip

**Delta Gamma "Smokeless Smoker."**  
On Saturday evening the Delta Gammass and Gamma Phis were "tuff" at a smoker, given at the Delta Gamma house. Ice-cream cigarettes and pipes lit up the stunts, and were dainty enough for any fastidious co-ed, who loathes smoke and ashes.

The first stunt, given by some of the Gamma Phis, was a faculty meeting, in which Miss French, Dr. Moore, Wilkie Collins, Professors Gail and Wodesdalek, Misses Brashar and Stevens and others were ably and properly represented in conclave over the naughty students.

After this Thelma McGirr rendered a heart-rending ballad with the appeal of a hippodrome queen. Unfortunately the spot-light was all too dim.

Anne Appel and Elizabeth Bowerman gave a clever dialogue called "Auntie at the Opera." The last stunt was a series of pages from the Popular Players magazine, in which Marguerite Clark, Fritz Scheff, Big Bill Hart, Billie Burke, Theda Bara, and other favorites bowed and smiled to an admiring audience.

The rest of the evening was spent in dancing and witnessing marvelous track meets and boxing matches. Fruit salad, sandwiches and coffee replaced the renowned crackers and limburger; and after a few more impromptu stunts the party reluctantly looked at the clock and broke up in righteous haste.

**Whoopless Whiskey Next.**

We've often heard of patent jokeless poker, and jaded jokeless jokers, but we believe that social smokeless smokers are quite an innovation. They should be encouraged.

**Voise Libre—Yoi!**

If spring would only come  
Ah — — — — —!  
Somebody might give a party,  
Or there might be a picnic  
Or any old thing might happen—  
But alas!  
Spring does not come.

If the birds  
Would sing  
Some young man's fancy might  
turn to  
Giving away his frat pin,  
There might be news— — — — —  
But alas!  
There is no news.  
Spring does not come.  
Alas! — — — — —  
(N. B.—This is free verse,—it doesn't cost anybody a red copper cent.)

**Phi Deltis Entertained.**

President Brannon entertained the active members of Phi Delta Theta and a number of the Moscow alumni of the fraternity at his home Sunday evening. Several readings were given and Victrola music was enjoyed. Refreshments were served later in the evening.

**Kappa Sigs and Betas Puff Together.**

Kappa Sigma and Beta Theta Pi jointly embraced Lady Nicotine at the Beta house Saturday night. The usual smoker boxing bouts, hot-hand games and inroads upon cider and canines were cheerfully achieved. All the sororities on the campus were serenaded after the conclusion of the festivities.

**CAMPUS BREVITIES.**

**Stone First Lieutenant.**—Word has been received that Lawrence Stone, '15, who is stationed "somewhere in Arizona," has been promoted from second to first lieutenant. Stone is serving directly under Captain Don Henley, another former Idaho student, who went from the university to West Point.

**Visitors Tour Campus.**—A crowd of delegates to the meeting of the Latah County Sunday School association, which was held here Tuesday, was guided over the campus on a tour of inspection Tuesday afternoon. Dean J. G. Eldridge is county president of the association.

**Lieutenant Fooks Promoted.**—It has just been announced that Lieutenant Herbert C. Fooks, for three years university commandant, has been advanced to the rank of captain. He will soon take examinations for entrance into the judge advocate general's department.

**Engineers Seek Commissions.**—The following civil engineering graduates from Idaho have applied for positions in the Officers' Reserve corps: Alfred Kettenbach, '11, highway engineer; L.

W. Jordan, '12, water service of U. S. Geological survey, Salt Lake City; Carl J. Paulsen, '13, same service at Tacoma; C. R. Buffington, '15, Federal Mining and Smelting company, Wallace.

**Chemists Meet Here.**—The Western Intermountain section of the American Chemical Society held its annual meeting and election of officers in Moscow last Saturday. Various scientific papers were read, and a business meeting was afterwards held. Professor Holaday is secretary of the organization. It is of interest to note that Professor Julius Streglitz of U. of Chicago, and president of the society has offered the services of the entire organization to President Wilson.

**Tree Planting Done.**—Dean Shattuck visited Samuels last week, and supervised work in tree planting being done there.

**Camp Problems Explained.**—Captain Cummings made short talks to the battalion Monday and Tuesday. His subjects were camps, and camp organization and sanitation, and the problems of caring for troops on the march.

**PERSONAL MENTION.**

Clive Roberts returned Thursday from his home in Colfax.

Roscoe Jones and George Frederickson returned Sunday from Polkath, where they spent the past week.

Brooks Weber and Lloyd McDougall made the trip to Lewiston Friday to attend the Normal school Junior prom.

Professor H. H. Conwell and Miles S. Johnson of Lewiston were Beta lunch guests Friday.

Dr. Edward O. Sisson, J. M. McCroskey and T. A. Turnley of Colfax and Stanley Fenton of Lewiston were dinner guests of Beta Theta Pi Friday.

"Bob" Cowgill, Gladys Dwight, Grace Eagleson, Nora Faris, Mary McKenna, Lorene Latta, Marian Barnes, Gertrude Hays and Permelia Hays spent spring vacation in Spokane.

Maude Bonham spent last week-end with her sister, Ola Bonham, at the Gamma Phi Beta house.

Jessie Smith and Ethel Babcock spent spring vacation in Coeur d'Alene.

Marie Bonham spent spring vacation at her home in Wardner.

Miss Bertha Povey is spending the

week with Chi Delta Phi.

Mrs. D. C. Van Ostrland has left college and taken up her residence in Winchester.

Elma Millgarde spent spring vacation in Colfax.

Harold Decker, Sam Bloom, Harold King, Ordo Chrisman, Clarence and Eugene Hyde, and Clyde Humphries were dinner guests of Gamma Phi Beta Sunday.

Gamma Phi Beta announces the initiation of Nona Faris and Gladys Dwight.

Misses Morley, Chapman, Spaulding and Pearson were dinner guests of Chi Delta Phi Monday evening.

Annette McCallie spent the week-end in Spokane.

Vivian Allen, '16, who is teaching in Troy, spent Thursday and Friday at the Kappa house.

Esther Swan has returned from Wallace, where she was called by the illness of her mother.

Alice Hartley spent spring vacation in Elk River with Dorothea Weng.

Donald McGirr was a dinner guest of Delta Gamma Friday.

Delta Gamma entertained Dr. and Mrs. J. A. Dodd at dinner Sunday.

Gladys Kauffman of Orofino spent the week-end with Verl Oliver at Ridenbaugh hall.

The Zeta Chi Alpha announces the pledging of Claude Kreisher.

Alfred McConaughy of Kendrick and Harold Kreisher were dinner guests of Zeta Chi Alpha Sunday.

Messrs. Carpenter and Harold were dinner guests of Sigma Nu Monday.

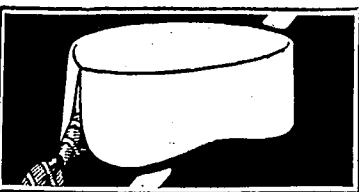

Don Bressler of Genesee was a week-end guest at the Sigma Nu

## HULME TELLS OF GONZAGA DEBATE

Story of How Idaho Men Won Unanimous Decision Last Friday in Spokane; Breshears Clever Speaker

The debate in Spokane was held in the parish hall at Gonzaga university. The first speaker for the affirmative, Paul F. McKenna, contended that the present means of suppressing domestic violence are inadequate and that it is therefore necessary to give the president power to interfere without waiting for a request to do so from the state. He is not a pleasing speaker and displayed an unmistakable dictatorial temper.

**Morse Polished Speaker.**  
Ralph Morse opened the negative case. He devoted a considerable part of his time to direct rebuttal of the preceding speaker. He was by far the most polished speaker of the evening. His gestures were always effective and sometimes eloquent. He spoke calmly, with confidence, and his explanations seemed to carry conviction.

The second Gonzaga speaker, Fabian J. McCarthy, was the most pleasing debater on the affirmative team. He and the two other members of the affirmative team quoted the names of many cases in which they contended that only state interests were involved and in which they asserted that the state had failed to afford adequate protection to life and property; but all three of the Gonzaga speakers failed entirely to produce any concrete evidence that these cases were of the kind they asserted them to be; and when they were challenged to produce such evidence they attempted to avoid the task with a joke.

**John Cramer Effective.**  
John Cramer, the second debater who carried on the Idaho case, did quite effective rebuttal work. He seized upon the essential weaknesses of his opponents' case and exposed them clearly and effectively. Particularly good was his answer to the statement of the speaker who had just preceded him that the constitutionality of the question was insignificant and that the central thing was whether the proposed power was for the public good. His delivery was somewhat too tame; but with additional experience he is certain to improve.

Sylvester Garvin continued the affirmative case. He, too, indulged in mere assertion. He named a number of cases in which, so he asserted, the state had failed to give adequate protection to life and property when it was its duty to do so. And he, too, failed to produce any specific evidence whatsoever to substantiate his assertions regarding those cases. Then he read from a number of supreme court cases, from the time of Gibbons vs. Ogden to Luther vs.

Borden to prove that the president already has the power that was being debated. It is needless to say that not one of his cases substantiates his contention.

**Serious Evils Laid Bare.**  
The last speaker for Idaho was Ralph Brashears, who struck promptly and in an incisive manner at the fundamental weakness of the affirmative case. He made it clear that the affirmative had completely failed to prove cause for action. And, in a telling manner, he showed the serious evils that would inevitably follow the proposed action. He showed a fine sense of evidence and an effective delivery.

The judges were John E. Blair and Alfred M. Craffen, lawyers of Spokane, and George W. Fuller, the city librarian of Spokane. They promptly rendered a unanimous decision in favor of Idaho.

### COACHES FORM ASSOCIATION.

W. C. Bleamaster and Miss Stephens Honored in Organization Embracing Northwest.

The Northwest Physical Directors' association was formed recently in Spokane with Coach W. C. Bleamaster as president and Miss Isabel Stephens secretary-treasurer. The association comprises the states of Idaho, Montana, Oregon and Washington and has some 150 members to start with. Its efforts will be directed toward the closer organization of athletics among the high schools and colleges of the northwest.

President Bleamaster expects the organization to do some great work in the future. At present the work of organizing the various schools and securing their co-operation is taking the most of the time but next fall should see them lined up in a way that will insure the greatest harmony and efficiency in the arrangement of schedules, eligibility and competition regulations.

District vice-presidents were elected as follows: T. G. (Van) Cook, Butte; Miss C. Marie Francis, Spokane; Robert Krohn, Portland; and Miss Irene Pray, Seattle. Christian Brocar, Spokane, was elected delegate to the National Education convention to be held in Portland in June.

### POTLATCH COMPANY FORMED.

Captain Cummings Brings Volunteers Together: Spirit High.

A volunteer company with a prospective membership of 100 men was organized at Potlatch last Saturday by Captain Cummings. The town has become enthusiastic over the proposition and drill will start immediately. Captain Cummings appointed officers while there. All have been active service, the captain having been through the Boer war, the 1st lieutenant putting in five years at Idaho, the 2nd lieutenant for three years a member of the regular army, and the 1st sergeant a veteran of the Spanish-American war. The Potlatch lumber company has donated

\$1,000 to be used in purchasing arms and equipment. The purpose of the organization is to give military training and to act as a home guard. It will be supervised by Captain Cummings and others of the military staff here.

### RICHARDSON MADE ARCHITECT.

Moscow Man to Draw Plans for New Campus Structures.

It has just been announced that Curtis Richardson, a Moscow architect, has been appointed to draw plans and specifications for the many new campus structures authorized by the state legislature. Bids on all buildings will be asked as soon as the plans are submitted and approved.

An even \$112,000 will be spent on various improvements, including the new Ad building wing, a dairy building, several farm barns and buildings, fencing and tiling on the farm, paving along Blake avenue and repairs on every building on the campus. It is estimated that the new wing will cost between \$60,000 and \$70,000.

### PACIFIC COAST RECORDS MADE.

In the annual track meet of Stanford and the University of California two new field records were hung up. Bihlman, heaving the shot for Stanford, broke the record of 46 feet, 7 1/2 inches, established by Rice of California, with a put of 47 feet, 8 3/4 inches. In the broad jump, Jackson of California broke the Stanford record of 23 feet, 7 1/2 inches, with a leap of 23 feet, 8 1/2 inches.

House of Stanford tied the record set up last year by Norton of Stanford, of 24.1 in the low hurdles. The high sticks went in 15.1 and the pole vault was taken at 12 feet.

Stanford won its fifth consecutive victory in track from California with this meet. Score, 67-55.

### WEST POINT TO KEEP SPORTS.

Annapolis' Will Also Continue Present Athletic Schedules.

The wisdom of the athletic department of the university in the matter of the abandonment of all collegiate athletics for the remainder of the season has been amply proven by a recent statement made by Major General Wood, who said when questioned in regard to the matter, that there was absolutely no reason as yet for the colleges to break away from the usual procedure.

In spite of the fact that some of the larger institutions of the east have given up their athletic work for the rest of the school year, a recent meeting of a large number of the more important colleges last week decided to proceed with the schedules as they stand. The fact that the Army and Navy schools are progressing with their regular work is sufficient proof that military authorities do not believe that the war is going to interfere to any great extent with present athletic schedules. The majority of coaches hold the same opinion.

### VARSITY SPLITS SERIES.

(Continued from page one.)

score board and Montana followed suit in her half of the inning.

Keane was the first man up for Idaho and was thrown out at first. Blackmer also failed to reach the first bag. Grove Evans connected with a single, stole second and scored a moment later when Almqvist smashed a double to the right gardens. "Nip" Neilson drove a hot one through second, scoring Almqvist. Blackmer pitched tight ball in the last half, fanning Vitt, the Montana twirler, for the third down.

### Bears Win on Saturday.

Untimely errors and Montana having the best of the breaks cost Idaho the second game. Bistline dropped one in centerfield, allowing two men to score. A boot by Gray came at a time when it could least be afforded. Jim Keane started on the mound but had trouble getting started. Blackmer replaced him in the third but the score was 7-1 with Montana on the right side of the board when the session was over. He held them and pitched good ball for the remaining nine innings.

Charlie Gray got five hits in six times to the rubber and pilfered five sacks. Barger, Neilson and Almqvist played up in good shape.

### The Detailed Dope.

At the time of going to press the Argonaut has not been able to get the complete box score on the second game. A later issue may contain it for the benefit of the dopesters. The official report on the first entanglement follows:

Idaho	AB	R	H	PO	A	E
Gray, 2b	5	0	1	3	2	1
Evans, P. ss	5	0	0	3	2	0
Barger, c	4	2	1	8	1	0
Keane, cf	5	1	2	1	0	0
Blackmer, rf-p	4	1	0	0	0	0
Evans, G. lf	5	2	1	1	0	1
Almqvist, 1b	5	1	2	11	0	1
Neilson, 3b	4	1	4	0	4	0
Rettig, p	2	0	0	0	2	0
Bistline, rf	2	1	0	0	0	0
	49	9	11	27	11	3

Montana	AB	R	H	PO	A	E
Grossman, 3b	4	1	4	1	3	1
Loranger, 2b	5	1	2	1	2	4
Beebe, cf	5	1	0	0	0	0
Sanderson, ss	5	0	1	0	4	0
Reardon, 1b	5	0	0	16	0	1
Vitt, p	5	1	2	0	7	0
Jones, c	3	0	0	8	2	0
Peak, lf	4	1	1	1	0	0
Brown, rf	4	2	2	0	0	0
	40	7	12	27	18	6

Score by innings—  
Idaho ..... 1 0 0 0 4 0 2 2—9  
Montana ..... 0 0 0 1 1 0 3 2 0—7

### Summary.

Struck out—By Rettig, 6; by Vitt, 5; by Blackmer, 1. Bases on balls—Off Vitt, 5. Hit by pitcher—Jones, Barger. Wild pitches—Vitt, Rettig. Passed balls—Jones. Three-base hits—Keane, Grossman. Two-base hits—Neilson, 2; Vitt, Almqvist, Gray. Stolen bases—Barger, Keane, Blackmer, G. Evans, Beebe, Brown. Sacrifice hit—Grossman. Umpire—Owen Kelly.

## Why Go To "Idaho"

The choice of a university or college to be attended by a student should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2nd, a competent faculty; 3rd, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

### 1. Purpose and Field—

Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Home Economic, and Educational matters not only to students in residence but also to all who desire it throughout the State.

### 2. Faculty—

The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are fifteen workers in the agricultural extension division and six agricultural county agents.

### 3. Equipment—

Its equipment is ample. It has a library of over 39,000 volumes, excellent facilities for teaching Literature, Philosophy, and the Social Sciences, and well provided laboratories for the natural and applied sciences.

### 4. Students—

Its students number one thousand and one in the school year of 1916-1917, and are earnest, wide-awake, and democratic. A large number of them earned their own way. Its alumni now occupy high positions and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The four colleges and the central agricultural experiment station are located at Moscow; the main agricultural extension office is located at Boise, and the agricultural sub-stations and demonstration farms at Sandpoint, Clagstone, Moscow, Gooding, and Aberdeen.

For information apply to  
THE UNIVERSITY OF IDAHO  
Moscow, Idaho.
