ANNUAL SCRAP BETWEEN IDAHO AND PULLMAN STAGED SATURDAY

McLean Field Will be Scene of Year's Greatest Gridiron Tussle; Teams in Good Shape

"FIGURES" FAVOR PULLMAN

Dietz Machine Has Advantage in Weight and Experience, with Eight Veterans in Lineup.

Saturday next will witness episode 20 in the well known serial, Idaho vs. Pullman, and according to prognostications of coaches and players of both rival camps, the one short hour will be jammed with more excitement and thrills to the square minute than the wildest yellow-back ever dared to disclose. Dietz is coming to Moscow prepared to fight a hard battle. Blewmaster is prepared to give him one. To any one knowing the two coaches these two statements are sufficient explanation of the fireworks which will start on McLean field at 2:30 November 3rd.

Dope Says "37 to 0." Dope, as usual, favors Pullman. Both elevens have played two games to date, and of these the college has won both, while Idaho has lost an equal number. The only basis on which to compare the relative merits of the two groups is in their showings against Oregon, and these point to a duplication of the fiasco of 1915. Thirty-seven points is the margin which the "figgers" show, and these "figgers" have formed a disagreeable habit, in the two seasons just past, of playing true to form.

Pullman has eight of last year's team in the lineup, the majority of them stars of the first order. Captain Zimmerman and Ex-Captain Bangs are all northwest men, and Doane, Herreid, Stites, and the two Hanleys are right on their heels. The weight is there as well, despite numerous stories to the contrary, and the team will easily average over the 170-pound mark. The array of weight and speed in the line complemented in the backfield by a set of four human pile drivers, better known as Bangs, Doane, Hanley and Wexler. Bangs and Doane have made their places in the northwest as two of the hardest line smashing backs in years. Hanley and Wexler are new men, but their performances in the two games this season mark them as worthy companions of the first named duet.

Line Must Scrap. The main burden of stopping these men rests on the Idaho line, and they should prove fully able to do it. In the two games so far it has proved well high unpuncturable, the touchdowns being the results of lucky breaks and long runs.

Breshears and Robinson at the ends form as good a combination on the wings as university students have seen since the days of Dingle and Gerlough. Both are good at diagnosing plays, fast, handle the pass, and fighters to the core. Zimmerman and Hanley will have their hands full. At the tackles, Carnahan and Captain Jackson are not as heavy as the occupants of the positions in former years, but if fighting spirit and resolve to win count for anything, they are the equal of any pair that ever worked for the silver and gold. This contest will be Tom's last game against W. S. C. and he will give his last ounce to make it the best.

Guards Are Fighters. In Pearson and Hartwell, Blewmaster has a pair of guards which would do credit to any team. Neither of them tips the scales at much over 170 pounds, but each one of these 170 pounds counts when they hit their man, and what's more, keeps on counting thruout the game, without a let-up. "There's no 'we'll-wait-till-the-last-quarter-to-start' spirit in them.

Plastino at center is playing a wonderful defensive and offensive game. Plasti was taken out of the

Come on time and in your nightie.

FRESHMEN TAKE 28 TO 6 BEATING

Micks Put Over Three Touchdowns in Fifteen Minutes. Irving Makes Sensational Run

Idaho's football teams sustained a double walloping last Saturday, when the Gonzaga University team took the Freshmen down the line in a bitterly contested game. The final score was 28 to 6, the Frosh hanging up their six points when Irving, the fullback, picked up a fumble, tore his way thru the Gonzaga team, and ran 95 yards for a touchdown.

The damage, as usual, was done in the first quarter when the daring Gonzaga backs hit the light and inexperienced line of the first year men for three touchdowns. But with the prospect of a three-figure score staring them in the face, the Frosh tightened, and started a drive for the enemy goal posts, which was cut short by the ending of the first half.

Irving Runs the Hundred. The Catholics returned to the field in the third quarter with an abundance of fight, and soon had the Freshmen fighting on their own five yard line. But here Dame Fortune intervened. A Gonzaga back fumbled the ball, and Irving scooped it up on the run and got away 95 yards for his team's only touchdown. Goal was not kicked.

Gonzaga added another touchdown in the third quarter, merely for good measure.

The game showed up the long-suspected weakness in the line, and proved that the backfield is one of the best combinations seen on a "U." field for years. Irving, fullback, appeared as a real find. He bore the heaviest part of the attack, and backed up the line in varsity fashion. Brigham and Ryans also played well, altho the quartet was greatly handicapped by the loss of Cornelison, right half.

The Lineup.
Gonzaga (28). Freshmen (6)
Walterkirchen.....C. Graff
Benolken.....R. E. McDonald
Kearney.....R. G. Lewis
Meekan.....L. Oilcar
Mertz.....L. G. Stephens
Cumley.....R. T. Macey
Gadan.....L. Kinney
Garrecht.....Q. Ryan
McAtee.....R. H. Schetzle
Condon.....L. H. Brigham
Garrity.....F. Irving
Substitutions—Idaho, Schader for Schetzle, Stuart for Ryan. Gonzaga, McGowan for Garrity, McCollum for Condon, Ozanne for McCollum, Garrity for Ozanne, Flaherty for Mertz, Scherr for McGowan.
Touchdowns—Garrity, McAtee, McGowan, Garrecht, Irving.

IDAHO SOLDIERS LOCATED
Deans Compile List of Former University Men Now in National Service.

A list has been published of the former university students who are now actively engaged in military duty. This list is as yet incomplete. All additional information regarding the boys addresses should be contributed, as it is the wish of those in charge of the work to make this list as comprehensive as possible.

BAYONET PRACTICE ADDED TO COURSE

Rooks to Learn the Gory Act on Straw Filled Dummies

Plans are being made by Lieutenant Felker to introduce a number of new features in the military work. He states that there is a remarkable interest being taken by the members of the cadet battalion this year and that the marked improvement and progress made by the battalion is an indication of this interest. He proposes to keep this interest alive by so arranging the courses that there will be no monotonous repetition of work. Within the next week the apparatus will be ready and a course in bayonet combat will be started for all second year men. This course will be the one that is now being used in the training camps thruout the country. It was developed by the English, based on their experience in the army to meet requirements here. There is but little drill or precision of movement but a thorough instruction in how to use a rifle and bayonet efficiently. Dummy figures are used in the practice.

Course in Map Making Given. Another interesting feature that will be offered this year to third year men is a course in military sketching. Dean Little and Professor Collier of the engineering school will have charge of classes. The aim of the course is to so instruct the men that at the end of the course they will be able to make a detailed map of any country over which they may be marching. Lieutenant Felker is also looking for a farmer near the university, who wants a bridge built and if he finds his man this work will be made a part of the practical engineering work. The bridge will be built of any material furnished.

First Parade Held. The first parade of the year was had on Friday and moved off with precision and snap. Parade will be a regular feature of the drill period every Thursday from this time on, weather permitting.

MUCKERS ELECT NEW OFFICERS

Large Number of Mining Students Meet to Elect Officials and Lay Plans for Year

A meeting of the Associated Miners of the University of Idaho, commonly known as "Muckers," was held at the Metallurgy building last Tuesday evening. It was an annual get-together meeting for the purpose of electing officers and effecting a permanent organization. Sam S. Bloom was elected president; Lloyd McDougal, vice president, and Jess Wade, secretary-treasurer. About 20 members were present. Dean Thomson, C. A. Wright and S. S. Bloom were chosen as a program committee to arrange programs for the regular bi-monthly meetings that will be held. Papers on mining and allied subjects will be presented at the meetings.

Jenkins Speaks. Bursar Jenkins, one of the pioneer mining engineers in the northwest, was present and spoke. He took occasion to congratulate the members present on their new school of mines and expressed great faith in its future.

Mr. C. A. Wright spoke of the experiments being carried on by the Bureau of Mines staff here, mentioning particularly the graduate fellowships conducted jointly by the School of Mines and the bureau, and suggested that the members of the freshman class should look forward to these fellowships as a goal to be attained after graduation.

Big Future Forecasted. Professor Livingstone said that he was glad to be again allied with the mining work of the university. He said that he saw no reason why the Idaho school of mines should not rank with that of Colorado and other famous mining schools.

Dr. Goodrich congratulated the members on their excellent turn-out.

(Continued on last page.)

HEALTH INSURANCE MAY BE CONTINUED

Was a Success Last Year, Benefiting Many Students

The Health and Housing committee of the faculty has put it up to the student body whether the students will again pay a health fee as they did last year. Professor Lewis, chairman of the committee, in speaking of the work done by the committee last year, stated that between 60 and 75 per cent of the students paying the fee benefited thereby. That there were 76 persons, 53 men and 23 women, who paid the fee and made use of their privileges. That there were 46 students for whom claims of from \$1 to \$3 were paid; 18 claims of from \$3 to \$6; 7 claims of 6.50 to \$10, and 5 persons for whom claims of \$10 to \$20 were paid. A total of \$291 was paid out of this fund to 8 physicians for these 76 students.

Vote Taken.

Slips of paper were handed out to the students and faculty at last week's assembly, asking for an expression of their opinion on the matter, and Mr. Lewis said only about 95 persons expressed themselves as favorable to the plan, the most of these being students who were here last year. He said the committee had, of course, learned much by their experience of last year and that there were some changes which would be made if the plan is put in operation again this year, but that if no larger number than 95 were in favor of the plan he did not believe it could be worked out. He suggested that perhaps the Freshmen had not understood the proposition because of the brief way in which it was stated in the assembly and that it would be put up to the Freshmen alone at their next convocation, when he hoped to get some general expression from the student body. The fee paid last year was \$1, but the committee is asking that it be increased to \$1.25 this year, as they found themselves running a little short at the end of the year.

LOAN CAMPAIGN A REAL SUCCESS

Total Subscriptions Among University Groups Runs Into Five Figures; Quota Raised

The University of Idaho has done her share in the drive toward the successful termination of the second Liberty Loan campaign. This is the story told by the figures compiled in the Bursar's office, and in the activities of various faculty members who spent time and energy to make the campaign in this county a success.

The propaganda part, which was begun two weeks ago, was carried on under the direction of Professor Soulen. He sent out speakers in pairs to all the near-by towns, Juliaetta, Kendrick, Troy, Potlatch, Bovill, and other towns, besides conducting a vigorous speaking campaign in Moscow, delegating some to appear in the different theaters and urge the patrons to swear off movies and invest in bonds. Professor Soulen stated that the response had been very gratifying. Those engaging in the work besides Professor Soulen were Dean Iddings, Professor Miller, Professor Lewis and Professor Angell.

"U." Invests.

Besides these activities, a large amount was subscribed by members of the university. Many individual subscriptions were made, but the real culmination of the drive came Friday afternoon when A. C. Price, auditor of the State Board of Education, addressed a group of students, faculty and employes and outlined a plan which would enable them to purchase bonds on a less rigorous basis than the government demanded. These arrangements, he said, allowed one to purchase the bonds on a 10-month installment plan, whereby 10 per cent was paid each month. No interest will be charged, and in case of inability to meet payments on account of sickness or other reasons, all

"EAT LESS" SAYS FEDERAL AGENT

Edward Rosenheim of Boise Advises Students to Take Up a Notch in Their Belts

A large crowd of students gathered Wednesday morning in the auditorium to hear the government representative, Mr. Edw. W. Rosenheim of Boise, deliver a talk on one of the big problems of the war, food conservation. The Star Spangled Banner, led by Mr. Storer, was lustily sung at the opening of the meeting. The morning's special music was contributed by Miss Tuller.

Professor Lewis in a brief talk set forth the work of the Health and Housing committee in the past years. He stated that the committee is again desirous of knowing the number of students who are interested in the insurance phase of the work. Members of the faculty are also eligible to participate in the benefits of the Health and Housing Insurance fund.

Rosenheim Speaks.

Mr. Rosenheim in part said: "I am here in an earnest endeavor to deliver a message from our government. I have relatives in England, France, and Germany. If I should attempt to assume a position in this war on such grounds, I should be at a total loss. But I am an American first. I wonder if we are all Americans first—not necessarily eligible to The Daughters of the Revolution, not that our forefathers came over in the Mayflower, or that we are Plymouth Rocks, if you please. This is no time for full-bloods, but red bloods.

"Who are these people called pacifists living among us, and these German-Americans who think that the war can be fought with a shotgun in one hand and an olive branch in the other? It can't be done. These people who are criticizing the government are prolonging the war.

A Hoosier Come-Back.

"When one of our diplomats was sent to deliver a five-word message to the kaiser, he was asked if his name was not German. 'Yes,' he answered, 'but I was born in Indiana.'

"There are 9000 men in America like you. What will they do if war is declared against Germany?"

"They will do the same as I would do—fight under the Stars and Stripes." Royalty turned his back on him.

"President Wilson plainly saw that the volunteer system was manifestly unfair. The conscription supplanted it. We were told that a million men would spring to arms, but we weren't told what arms or where from. There have been altogether too many exemptions filed by our men for industrial and other reasons. Will we have to actually see the wounded men from the front and the mutilated children before we wake up?"

Conservation Second Defense Line.

"The first line of defense is our boys at the front, and the second is the people at home producing and conserving food for them. Four million men have been taken from productive activities and as a result a great food void has been created. We must feed the neutral nations, our allies, and ourselves. We can't do

(Continued on last page.)

Outplayed and Outfought, Lemen Yellow Wins 14-0, Thru Two Fumbles in Second Half

ROBERTS AND THOMPSON STAR

Line Plunging and End Running of Brilliant Pair Roll Up Most of Idaho's Yardage.

Idaho lost to Oregon Saturday in Eugene, playing a beautiful offensive game and having all the best of every period, puzzling the Webfooters with a dazzling array of smashing line plunges and sweeping end runs. In the first quarter Idaho started a march down the field with Dingle and Roberts playing the chief roles. Things began to look bad for the Bezedek proteges but Idaho failed to score. The tables were turned in the second quarter, and Bill Steers, husky Oregon quarterback, started on a wild rampage down the field, scoring on a fake end run.

Thompson Batters Line.

After an off day at O. A. C. last Saturday, owing to a bruised shoulder, Thompson went in the second period feeling like a quarter horse; time after time he crumpled the heavy Oregon defense and it was largely due to his line smashing and Roberts' long end runs that Idaho was able to make her yardage. The Idaho juggernaut fought its way to the lemon yellow's territory on three occasions and were continually on the offensive but failed to score, owing to fumbles.

The second Oregon score came in the third period when Steers booted the ball to the five yard line and Couch went tearing after it. The Idaho men yelled to Roberts that it was a side kick but the Idaho fullback ruffed to hear and Couch grabbed the ball, carrying it for the second touchdown.

Breshears and Roberts Are Good Combination.

In the final quarter Idaho resorted to an aerial attack that threatened to overwhelm the Oregon defense. With the ball on the 30 yard line Roberts shot a forward pass to Breshears, who made a wild dash toward the Oregon line, but again Bill Steers butted in, grabbing him and tearing his jersey completely off his back. This was Idaho's last chance to score.

Bezedek Gives Commendation.

In an interview with Coach Blewmaster, Coach Bezedek said, "It is no honor to win this game because your team played better football than my team ever could."

Captain Jackson and Coach Blewmaster were well satisfied with the showing of the team. Coach Blewmaster said tonight, "My team fought every minute of the game and showed loyal spirit to a man." The Idaho team worked like a machine thruout the game. The offensive stars were Breshears, Roberts and Thompson, while on the defensive Captain Jackson, Carnahan and Robinson were the shining lights.

The Lineup and Summary.

Idaho Oregon
Robinson.....L. E. Anderson
Capt. Jackson.....L. T. Williams
Pearson.....L. G. Maddock
Plastino.....C. Leslie
Hartwell.....R. G. Tregilgas
Carnahan.....R. T. Nelson
Gowen.....R. E. Wilsoa

Idaho Fights.

Idaho's football team will take the field Saturday to engage in the bitterest fight of the year. The odds against them are heavy, for they must fight against a heavier, more experienced team, and the apathy of their own student body. Where they turn to look for loyal, unflinching support, they find only careless indifference, and a casual interest in the size of the score.

These men have given unstintingly of their time and energy in an endeavor to uphold Idaho's honor in athletics. All they ask is an even chance, and they are refused that.

There is no incentive to fight for such a student body. None whatever. Some, to be sure, have enough spirit to hope that the team will hold Pullman to a close score. Yes, some of us have, but the team hasn't. They are going out to win. The idea of holding to a close score contains the germs of defeat, it reeks with disloyalty and yellowness. For some of these men the Saturday game with Pullman will be the last. They want to win. They have worked to win, and in their hour of need, when they should find every student pulling behind them, they must fight their fight alone.

Wake up! Forget the dope! Get it out of your heads that we're licked. Were not! Catch the spirit of the team and come out Saturday with the determination to give whatever you have of loyalty and enthusiasm to the support of the team. It is not their battle. It's yours. Make them feel your confidence in them. Make them know that you know they can win and expect them to. What if they are scored on once. A touchdown isn't defeat, as long as the team and their supporters keep eternally fighting. Kick out the question "Will we win?" and substitute for it "We will win." "Idaho fights," has long been a glorious tradition, they say. Tradition be dashed. MAKE IT REALITY.

Dead?

Something is decidedly the matter with the managing of Idaho's student body. This week is the fifth that school has been in session, and until Tuesday afternoon there had been no student assembly. No yet readers had been chosen to succeed last year's incumbents, and the big game is but two short days off. Idaho students elect a student body president to handle its affairs, and a corps of officers to assist him. They should have attended to matters three weeks ago.

Such a state of affairs would not be tolerated in any business corporation, and Idaho's students, in effect a corporation, should not tolerate it either. Let us hope they make up for lost time.

Free Speech.

Of the many varieties of idiotic utterances for which war "patriotism" is responsible, none are more silly than the outbursts against free speech, such as was heard at assembly last Wednesday. To follow the policy advocated, to refrain from all criticism of governmental policy, would be absolute folly. The "my country — right or wrong" attitude taken by such men is far more inimical to freedom and liberty than all the anarchists and kassiers who ever existed. Graft and inefficiency thrive in this atmosphere of secrecy which such a course would bring to be.

An outgrowth of the above are the tirades against La Follette and others who openly disagree with the government. It takes moral courage of a high order to brave the storm of adverse criticism, yet speakers persistently insult the intelligence of their audience by calling these men "rowards, slackers, and similar names. Our assembly speakers should remember that they are addressing a group that is intellectually independent, and should weigh their utterances accordingly.

Appointments.

Several new names appear in the list of staff members this week, these men having proved their right to the positions in the tryouts.

E. K. Lindley, '20, has been elected by the staff to succeed Howard Hatfield as associate editor. Mr. Lindley has had practical experience on the staffs of high school and college papers, and is the logical man for the place.

Frank Illingworth, who is appointed to the position of news editor, served his apprenticeship on the paper last year in the capacity of reporter and assistant news editor. He has proved himself a thoro, reliable man, during his service on the sheet, and his appointment was won by hard, careful work.

Lloyd McCarthy, sporting editor, is a new man, but has shown ability in his handling of recent stories.

A new feature this year is the addition of a cartoonist to the staff. Edwin Bradley, '21, has agreed to furnish cartoons on timely subjects, the first to appear next week. These will appear every two or every four weeks, according to the decision of the staff. Mr. Bradley has attended professional schools in pursuing his study, and his work will be appreciated by the campus.

Tryouts for reporterships will continue for one week more. A number of aspirants are trying out, but there is room for more. Those desirous of "making" the staff will write stories on one of the following assignments. Stories must not exceed 300 words in length, and may be upon any of the following subjects:

- Campus Improvements.
 - Military Drill for Women.
 - The Pullman Rally.
 - How the Bonfire is Built.
 - The Athletic Ball.
- Stories will be judged by the English department. The following rules should be followed as closely as possible:

- I. Write legibly.
- II. Write upon one side of the paper.
- III. Do not abbreviate words in your copy which you do not want abbreviated in print. The printer is expected to follow copy.
- IV. Be consistent in the use of capitals. Do not use capitals unless they are really necessary. Capitals are for emphasis.
- V. Be sure of the spelling of proper names.

VII. Be more than careful with punctuation marks.

VII. Write the news. News is anything timely that interests a number of people.

VIII. If you use more than one sheet of paper let the topic be mentioned on each sheet. Copy has a habit of getting out of order, but it should be an easy matter to get it in order again. It will be easy if each sheet has a heading and a number.

IX. Don't use the same old expressions even tho you are writing of similar events.

X. Be sure that the event you write up so fully and so fluently, actually has taken place.

XI. Use discretion in the length. Use details but do not try to simply fill space.

XII. Discriminate between news and local items. If Mr. Blank goes somewhere on private business, the notice is local. If he goes on public or college business, find out why, when, where, etc. The notice is news.

XIII. Note the difference between a news story and a narrative. A news story prints the climax first and details later. A narrative has the climax near the end.

XIV. Be consistent in that. Do not begin with a news story and end the article like an editorial.

XV. Copy should be in, if good space is desired, as soon as possible. Events between Wednesday and Friday should be reported by Saturday. Saturday events may be reported Monday. All copy must be in Tuesday at 10 o'clock.

Copy may be left in the "Argonaut" box in the main hall, or in the drawer labelled "Copy" at the Idaho Post.

CARD OF THANKS
* I wish to thank you for expressions of sympathy and beautiful flowers received in our recent bereavement.
* MRS. A. F. CURTIS
* AND FAMILY.

"It's An Ill Wind, Etc."

At two universities in the west formal affairs are to be dropped for the year on account of the war. At the University of Wisconsin a committee for the regulation of activities has been formed under the women students' war work council and this committee has put the ban on all formal parties.

Why Go to "Idaho"

The choice of a university or college to be attended should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2nd, a competent faculty; 3rd, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

1. Purpose and Field—

Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Home Economics, and Educational matters not only to students in residence but also to all who desire it throughout the State.

2. Faculty—

The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are fifteen workers in the agricultural extension division and six agricultural county agents.

3. Equipment—

Its equipment is ample. It has a library of over 39,000 volumes, excellent facilities for teaching Literature, Philosophy, and the Social Sciences, and well provided laboratories for the natural and applied sciences.

4. Students—

Its students numbered one thousand and nine in the school year of 1916-1917 and were earnest, wide-awake, and democratic. A large number of them earned their own way. Its alumni now occupy high positions and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The four colleges and the central agricultural experiment station are located at Moscow; the main agricultural extension office is located at Boise, and the agricultural sub-stations and demonstration farms at Sandpoint, Moscow, and Aberdeen.

PROF. SOPER DEAN OF MINES SCHOOL AT O. A. C.

Former Idaho Man Has Good Position in Oregon Institution.

Dr. E. K. Soper, who comes from the University of Idaho to assume the position of dean of the school of mines, has taken up his duties in the mines building, succeeding H. M. Parks, who resigned in order to devote all his time to the directorship of the Oregon State Bureau of Mines.

Dean Soper is a graduate of Leland Stanford University, from which institution he received his bachelor's and master's degrees. He pursued graduate work in the University of Minnesota, where he was given his doctor's degree.

Since graduation he has held positions on the faculties of Stanford, Cornell, Minnesota, and Idaho universities, besides a great deal of work as consulting engineer and one year spent in Mexico as assistant to George H. Garrey, chief geologist for the American Smelting and Refining Company.—O. A. C. Barometer.

Ouch!

Great gloom prevails among the officers of the R. O. T. C. Sergeant Abendroth announced that there was a typographical error in the communication from Washington, D. C., relative to the remuneration of cadet officers. Commutation is 30 cents per day instead of 50 cents, as first announced. This rate, however, will be paid thruout the year, vacations included.

Y. W. Girls Again.

Last Monday afternoon at four o'clock a large assembly of girls met in the auditorium to formulate plans for sending a bit of Christmas cheer of our boys at the front. Cora May Jones opened the meeting by urgently requesting the girls to help in this work, both with their time and money. She explained that a box of candies and cookies was to be sent to each Idaho soldier. Beginning last Friday, the girls are to work, under supervision, in groups of 10, preparing these boxes.

Former Commandant Retired.

Captain Steunenberg, recently stationed at Fort George Wright, in Spokane, and at one time commandant of cadets at the university, has been retired from active service because of disability. Captain Steunenberg began his military career as a second lieutenant of volunteers in the Spanish-American war.

HOME-COMING DAY WILL BE HELD ON SATURDAY

Saturday will be the third annual Home-Coming day at Idaho as well as the date for the Pullman game. This day was inaugurated two years ago and proved a success.

Many alumni are coming back and students are expected to meet the trains, greet the old timers, and make them feel as much "at home" as possible.

SENATOR BORAH PAYS VISIT

Idaho Solon Spends Two Days on University Campus; Addresses Assembly.

William E. Borah, senator from Idaho to the national congress, visited the campus Monday and Tuesday of this week. While here he spoke at assembly. The senator is strongly in favor of conscription of wealth, as well as of men.

Girls Purchase Bonds.

The members of Gamma Phi Beta Sorority have purchased individually 01 Liberty Bonds.

PRESIDENT LINDLEY BACK

Returns From Two Weeks' Speaking Tour thru Southern part of State

President Lindley returned Wednesday from his two weeks' trip thru southern Idaho. On the trip Dr. Lindley spoke at two teachers' institutes, delivering a series of special lectures, and spoke before many chambers of commerce and other commercial organizations as well. According to reports received, Dr. Lindley met with a hearty welcome, and is well pleased with the progress being made by South Idaho.

The south is particularly pleased to know that efforts are being made to bring the university closer, and have pledged their cooperation in the work.

HALL GIRLS ELECT OFFICERS

Elsa Voss Will Head Domitory Organization This Year; New System Is Adopted.

The girls of Ridenbaugh Hall met a short time ago and elected officers for the coming year. A new plan was adopted this fall, the old system of president, vice president, etc., being thrown into the discard, and a plan similar to the commission form of government substituted. This consists of a number of committees, having charge of social affairs, discipline, and so forth, the chairmen of which form the executive committee.

The president of this executive committee corresponds to the president in the old order. Miss Elsa Voss, a Junior, was made chairman of this executive board.

The girls at the hall number about 30 at present, and more are expected when the short course in home economics opens. Those residing there at present are: Lillian Warren, Irene Gould, Bertha Percy, Naomi Liberty, Leta Sabin, Sylvena Pechance, Myrna Kenwood, Gertrude Sabin, Elsa Voss, Sarah Lynch, Thelma Hofer, Evaleen Kerr, Judith Olson, Lilly Olson, Anna Sund, Katherine Styker, Ruth Blomquist, Beatrice Blomquist, Alice Sheffield, Esther Howard, Marie Cramer, Eulalie Byrne, Eula Badger, Jean Orr, Ellen Waring, Julia Smith, Mrs. Acuff, Olive Chapman, Gertrude Walter, Georgia Cole, and Marian Chubbock.

Miss Bertha Percy has succeeded Ruth Fauble as manager of the Hall. Another change is in the force of waiters, the men "hashers" who formerly sported the tray and apron being supplanted by girls.

K. U. FINDS USE FOR TURTLES

State "U." Used Amphibian As Weed-Eradicator, But Too Much Curiosity Proved Fatal.

A new labor saving device has recently been discovered by the gardener of the Kansas University, in the shape of a turtle. The turtle, or Bill, as he was known on the campus, was shipped to the museum from Florida as a unique specimen. Among his peculiarities was a pronounced penchant for dandelion greens, his epicurian appetite refusing everything else. So Bill's keeper got a bright idea. He turned Bill loose on the campus, where the weeds grew in abundance.

Bill thrived greatly for a spell, and proved a great attraction to the students between classes. Bill's campus clean-up movement was followed with interest. Then one day Bill tried to cross the road in search of green fields, and an automobile ran over him, and his friends are mourning his death.

JUDGES OF SUPREME COURT MAKE SHORT VISIT AT IDAHO

Chief Justice Budge and Justice Morgan in Moscow for Short Will Visit Law School.

Chief Justice Budge of the Idaho supreme court, and Associate Justice Wm. M. Morgan will visit Moscow for three days this week to confer with President Lindley and members of the faculty. While here they will visit the Idaho law school.

DE SMET CLUB HOLDS INITIAL MEETING

The first meeting of the De Smet Club of the University of Idaho was in the nature of a reception for the new members. It was held last Friday evening in the Guild hall, over 30 being present. The first part of the meeting was devoted to the election of officers and the business of the club, after which a program and social hour was enjoyed. Miss French gave an address of welcome, and expressed her pleasure at viewing such a good turnout. Professor Gill favored the gathering with a talk. Miss Geothals and Miss Stephens of the university faculty and Mr. Werrell of the high school were also present.

The program consisted of vocal solos by Miss Yangel, accompanied by Misses Friedman and Sweeney, and a piano solo by Miss Friedman. The next meeting of the club will be held at the dormitory.

Kappa Official Pays Visit.

Mrs. Charles W. Leapheart, grand registrar of Kappa Kappa Gamma, visited the chapter house from Tuesday until Friday of last week. While here Mrs. Leapheart was honored by a delightful luncheon given by Miss French on Thursday noon. Thursday evening Mrs. Hutton was hostess at a dinner party honoring Mrs. Leapheart, and Friday noon she was entertained at the home of Mrs. Lindley.

Hay Foot! Straw Foot!

The non-coms in charge of quarters put in their first appearance last Friday when Ernest Lindley made the rounds of his class room resplendent in belt and bayonet. This is in accordance with the new ruling made by the commandant, and the side arms must be worn at all times while on the campus.

Electricals Return.

Leo Walston Maguire, graduate in electrical engineering, 1911, visited the campus a week ago, and was much impressed by the improvements added since he left. After visiting a few days with friends and relatives, he left for Spokane, where he entered the signal corps of the U. S. army, stationed at Fort Wright. Since his graduation, Mr. Maguire has been with the General Electric Company, and later worked on the electrification of the Chicago, Milwaukee and Puget Sound railway thru Montana.

Leon G. Nichols, another graduate of the electrical engineering department, of the year 1907, was a campus visitor last week. Mr. Nichols is now educational director of the Y. M. C. A. at Portland Ore.

COMMERCIAL CLUB HAS FIRST MEETING

Statisticians Congregate in Ridenbaugh Hall for Semi-Weekly Talk; Ericson Speaks.

The commerce and Economics Club held its first meeting of the year last week, 35 members meeting in Ridenbaugh Hall to formulate plans and hold an informal discussion. Helen Davidson, the president, presided. The talk of the evening was given by Professor Ericson, who spoke on vocational guidance. After the talk a lively discussion was held.

One interesting feature was the reply to a question, put by Professor Ericson, as to which they would prefer to attend, if they had it to do over again, the old style high school, with its required courses, or the newer, with its freedom of choice. The vote was almost unanimous in favor of the old style school.

The next meeting is to be held this coming week at the home of Professor Lewis. Father Brogan of Gonzaga has been invited to speak. The meeting next following will be held at the Gamma Phi house. Efforts are being made to secure as speaker Professor Beach of Washington State College, formerly of the U. of Washington.

Professor Lewis expects the club to have an exceptionally successful year, as the increased interest has already resulted in a growth in membership.

STUDENTS HOLD REUNION

Graduates and Former Students of University at Teachers Institute Hold Get-to-Gether.

The students and alumni of the University of Idaho, in Pocatello, during institute week, held a very successful banquet at the Hotel Yellowstone and had a joyous time singing the old college songs and telling stories of the Idaho "spirit and pep." President Lindley was the guest of honor along with Miss Ethel Redfield, state superintendent of instruction, President Miles F. Reed, and Miss Fowler, state club agent.

President Lindley spoke a few minutes on the fine spirit of loyalty shown by the alumni to the university and to himself and asked for further support. Miss Redfield also made a few remarks on the value of such gatherings and their influence.

Those present were: Esther Swensen, ex-20, of Eden; Charles Eichelberger, '07, Blackfoot; Charles Cone, ex-19, Pearl; Doris Gregory, ex-19, Rupert; Harrison Ison, ex-18, Blackfoot; Vera McGuire, ex-18, Pocatello; W. T. McCall, '14, Boise; Veda Stoddard, Melba Verne, Lee Taylor, '14, Pocatello; Mildred Anthes, '15, Downey; Chester Vincent, '17, Blackfoot; Flora Loomis, '17, Aberdeen; Miles F. Reed, '01, Idaho Tech.; Kathryn Keane, '16, American Falls; Lois Jones-Bedwell, ex-17, Pocatello; Harry Burke, '17, Blackfoot; Margaret De Witt, Pocatello; Charles A. Chandler, ex-17, Rupert; Melvin Ison, ex-17, Blackfoot, and Norman B. Adkinson, '01, Idaho Tech.

PICTURES MUST BE TAKEN AT ONCE, SAYS MGR. OTT

Short Ags and Frosh to Eggan's, Upper Classmen, Sophs, and Faculty to Sterner's.

A business meeting of the annual staff was held last Thursday, and routine matters gone over. Alvin Denman was appointed to succeed Talbot Jennings as associate editor.

Business Manager Ott also announced that arrangements have been made at the two photo studios, and all students must have their photographs taken AT ONCE. Getting the pictures taken in time will result in better prints, better cuts, and a better annual. Photographers have time now, before the Christmas rush begins, and stepping in now will save trouble and kicks about poor likenesses later on. The fee is 75c this year, due to the 3 or 400 per cent increase in the cost of chemicals and materials. Short course students and Freshmen go to Eggan's, Sophs and upper classmen to Sterner's. The last date for the acceptance of any pictures has been set at December 20. No old cuts will be used, and people not having their photographs in by that date will not appear in the 1919 year book. Beginning with next week schedules will be posted, which are to be followed rigorously.

How will it stand on Saturday night?

UNIVERSITY BATTALION NOW ORGANIZED EFFICIENTLY

Rules and Regulations for Non-Coms; Work Is Progressing Well.

Idaho's battalion is becoming more and more efficient. With the continued good weather, great advances have been made in close order drill, and target work is also being prosecuted, although a shortage in ammunition may hamper this for a while. The cadet band of 30 pieces is now practicing diligently, and to quote the commandant, "things are progressing."

Another plan this year was inaugurated, when arrangements were made to have a regular officer of the day, and to put a non-commissioned officer in charge of quarters. The rules and regulations which they must follow are appended.

1. Will attend all formations the day on duty, but will not be required to actually drill.

2. Officer of the day will inspect the armory when equipment is put away, and see that the equipment in each locker is put away after using and that it is neatly arranged.

3. Officer of the day will wear side arms at all times during his tour of duty, when on the university grounds.

4. The tour of duty for the officer of the day and non-commissioned officer in charge of quarters will be for 24 hours, from 11 a. m. to 11 a. m. each day, except that on days when no drill occurs he will be relieved without reporting.

5. The officer of the day will see that the schedule of drills as published for each period are carried out and that no instruction is given other than that prescribed. The non-commissioned officer in charge of quarters will assist in carrying out this regulation, reporting on such parts of instruction where non-commissioned officers are in charge.

6. The non-commissioned officer in charge of quarters will report to the officer of the day upon going on duty and upon being relieved. He will act as an assistant to the officer of the day and will wear his belt and bayonet at all times when on the university grounds.

7. All men who are sick and desire to be excused will report to the officer of the day and leave their names entered on sick report.

The non-commissioned officer in charge of quarters will then take them to the physical director with the sick report, and return the sick report to the adjutant's office.

COMMISSIONER SISSON MADE PRESIDENT OF MONTANA "U."

Dr. E. O. Sisson Formally Inaugurated at the University. Many Prominent Men Attend.

Dr. E. O. Sisson, formerly commissioner of education in Idaho, was inaugurated president of the State University at Missoula. President Sisson succeeds President Scheuch, who has been acting president since the dismissal of President Craighead. The inauguration was well attended by the leading educators of the state, among whom were President J. M. Hamilton of Montana State College, President J. E. Monroe of the State Normal College, and Superintendent John Dietrich of the Helena schools. Governor S. V. Stewart was also present.—M. A. C. Weekly Exponent.

A Fact.

Willis: "What makes a man always give a lady a diamond ring?" Gillis: "The lady."—Orange Peel.

READ THESE SAYINGS OF IDAHO'S COACHES AND FOOTBALL MEN, AND THEN TURN OUT TO THE GAME, FILLED WITH THE SPIRIT WHICH THEY SHOW

Coach Bleamaster: "The fellows are going to play all the time"

"Hec Edmundson: "They did it in 1907 and again in '10. They can do it now."

Tom Jackson captain, and president of the A. S. U. I.: "I believe this will be the best Idaho-W. S. C. game in several years."

"Bunt" Breshears: "You may be discouraged; we're not."

Clive Roberts: "We're going to fight. I think I voice the sentiment of the whole team when I say that. If the student body shows their pep, we'll show them ours."

"Chick" Evans: "They're not unbeatable by any means. The dope is against us, but the score won't be. If we have an even break in luck the score will be pretty close."

Warren Barber: "All the fellows are in fine condition. Everybody on the team feels that we have a good chance. The dope is going to be upset badly. We are going to make a good showing."

"Phil" Plastino: "I'll give 'em all I've got."

"Rom" Kennedy: "We're going to give 'em a mighty good fight. I look for a mighty close score."

"Pip" Dingle: "We will be fighting all the way. I think it will be an interesting game myself."

Roy Thompson: "The team has shown lots of fight in the last two games. If thing keep on improving we'll have a good chance. It will be a great old game one way or the other."

Fred Graf: "Whether we even stop W. S. C. depends upon the students. We've got the fight. If the students get behind we'll beat W. S. C."

Harry Hartwell: "The team is fighting harder than it did last year. I won't say what I think the outcome will be, but I will say that Idaho will put up a game fight."

Emory Knudson: "We're going to stay with 'em all the time. We're going to fight every minute, and then fight some more."

"Stew" Ross: "We're going to win it. We're due for a break in luck Saturday, and if we go in and fight we're going to win."

"Gub" Mix: "If Idaho goes in and plays like she ought to, if every man looks out for himself, we're going to win. There is no reason in the world why we can't put it over them."

"Cap" Horton: "We want to win. I've watched practice, and if they play the football that they know, we're going to win. W. S. C. isn't invincible by any means."

Bill Lee: "We have been down and out for some time, but we've won before when they didn't think we would. I think Idaho will win."

A. J. Priest: Why not? There have been more startling reversals of form in past years. I only hope that the Idaho crowd thrills with the battling spirit of the players themselves."

Brose Johnson: "I am quite optimistic about the prospects. I have confidence in the fellows. If we get pep behind them, they'll do their part."

Charles Darling: "We're going to wallop 'em."

Perry McMillan: "I look for a close score. I hate to see the kind of pessimism which some of Idaho's students have been displaying lately."

Dean Eldridge: "I have seen Idaho beat W. S. C. before when according to all human calculations they couldn't."

Ole Robertson: "They can't lick us; and if they can beat us they've got to show me."

Alvin McCormack: "Idaho's speedy backs are going to run W. S. C. ragged Saturday."

Jess Wade: "It isn't going to turn out the way the dope has it. I look for a close score."

Sporting Editor McCarthy: "This will be the most hotly contested game that the Idaho or W. S. C. will play this year."

Gene Hyde: "One or two touchdowns either way will decide it."

Duddy Gowan: "The European war will be child's play and what Sherman said will be paradise when compared with what W. S. C. will run into."

Bursar Jenkins: "Are we going to win? Why, we're bound to win. These two defects have made us all the stronger."

Shorty York: "It looks like hell."

IDAHO SONGS

On Idaho.
On old Idaho, on old Idaho.
Plunge right through that line;
Pass the ball clear round old Pullman,
Touchdown sure this time.
On old Idaho, on old Idaho.
Fight right for her fame;
Fight, fellows, fight, and we
Will win this game.

Alma Mater Idaho.
The poet sings of classic Yale, fair
Harvard's stately ivied walls,
Columbia's star is sung afar and
Princeton's stately storied halls;
To Oxford, England's college old,
proud odes with tribute glow,
But we acclaim Alma Mater's name,
our own, our Idaho,
But we acclaim Alma Mater's name,
our own, our Idaho.
Idaho! Idaho! Rah! Rah! Idaho!
Idaho! Rah! Rah! My Idaho!

Chorus:
We love every inch of her campus green,
Each view of her crested hill;
We love every man that reveres her name,
Our glasses to her we fill.
She's the hope of this proud young mountain State,
Our varsity's the best, she's the Queen of the west, our own, our Idaho.
Allegiance we freely owe,
of the west, our own, our Idaho.

The poet sings of Illinois, tamed
Berkeley's charming, graceful hills,
Every loyal man of Michigan with
true heart-felt devotion thrill;
Chicago's sons her charm relate and
wide her glories grow,
But we acclaim Alma Mater's name,
our own, our Idaho,
But we acclaim Alma Mater's name,
our own, our Idaho.

Chorus.
Idaho Style.
They say that old Idaho ain't got no style;
Got style all the while, got style all the while;
They say that old Idaho ain't got no style,
Got style all the while, all the while;
They say that old Idaho ain't got no jazz,
But we know she has,
But we know she has.

(Repeat)
Her Name.
I remember the day and the evening;
'Twas cool and clear overhead;
I remember the park and the arbor
And the numerous things that we
said.

I remember you nestled beside me;
I whispered, "I love you, dear;"
You gave me a passionate hand-press,
Just then a policeman came near.
I purchased sweet chocolate bon-bons,
And theater tickets a score,
We worried your father and mother
And horrified neighbors next door.
But love seems to change with the seasons;
You moved to a town up the line,
We wrote every day for a fortnight,
Then passion began to decline.
I wonder how Fortune has served you.
I'm well and hope you're the same.
I'd write you a card or a letter,
But, alas, I've forgotten your name.
—C. E. CONE, Ex-19.

Heard at the Class Fight.
Freshman Girl: You needn't feel so smart because you beat us wrestling; our boys are going to come out on top of the heap.
Sophomore Girl: Yes, the scrap heap.

FORESTRY PROFESSORS RETURN FROM TRIP TO SEATTLE

Dean Miller and Professor Cook Attended Logging Congress at Seattle; Saw Camp Lewis.

Professor Cook and Dean Miller attended a meeting of the Western Foresters' Conservation Association and Pacific Logging Congress, held at Seattle October 15-20. Both organizations comprise the five north-western states, and hence it was a very representative meeting. It was brought out there that the lumbermen are not able to get out lumber fast enough and in sufficient quantities to supply the present government demand. Sitka spruce is the best lumber for aeroplane construction. Not only our government but France and England have placed orders for 1,500,000 board feet. Only a small part of the tree can be used and Sitka trees occur only here and there throughout the forests. The difficulty of getting the spruce lumber out in quantities has been emphasized by the labor situation. Lumbermen are on their tip-toes trying to supply the demand. One of our generals made the statement that he could win the war in 60 days if he had 10,000 aeroplanes. It was voted at the lumber congress that every man, even if he had only one tree, should make every effort to get it into the hands of the government and not quibble about the price. The Idaho professors visited the Seattle ship yards and also Camp Lewis while on their trip.

GEN. McCAIN GIVES ADVICE TO COMMISSION SEEKERS

Shows Wherein the Majority of Those Rejected Have Been Found Lacking in Camps.

In a letter to President E. O. Holland of Washington State College, Adjutant General H. P. McCain of the U. S. army outlines some of the causes for failure among applicants for commissions in the training camps.

Chief among these was "slouchiness, mental and physical, which manifests itself in careless carriage and hazy, nebulous thinking, which are both fatal to the efficiency of an officer."

Next in order he places the inability to articulate well, and to enunciate commands with sufficient clearness to be heard throughout the body of men receiving the command.

A serious mental fault, with which many were afflicted, was the habit of indcision and the habit of stating things indefinitely.

The last element which was lacking, he named "grit." By this was not meant physical courage, but the tendency to quit after having received a sharp rebuke.

In concluding, General McCain said:

"The true training school should endeavor to inculcate that indomitable spirit that enables one to get out of self, to keep one's eyes fixed upon the goal rather than upon the roughness of the path, to realize that one unable to rise above the hard knocks with equanimity can not stand the tremendous responsibilities of the officer under modern conditions of warfare. This ideal of grit belongs in the school room as well as upon the campus."

FOSTER LECTURE CALLED OFF

W. S. C. Football Game Results in Cancelling of Talks Scheduled for Friday.

The Idaho-Pullman football game has brot about the cancellation of the talks by President W. T. Foster, which were to be given on Friday and Saturday of this week. President Foster had three stops arranged on this trip, Spokane, Moscow, and Pullman. Moscow was to be favored Friday, and Pullman the day following, but the game put the Saturday talk out of the question. Since President Foster must be in Tacoma on Sunday, he deemed it inadvisable to make the trip to this section without being able to speak at both institutions.

The chairman of the Speakers' committee of the Red Cross, under whose auspices Dr. Foster is lecturing, telegraphed that all preparations should cease for the present. It is probable that he will speak sometime in the near future.

Too True.

First Stude (speaking of the physical prowess of George Washington)—"And once he threw a dollar across the Potomac river."

Second Ditto—"Yes, but a dollar went farther in those days."—Ex.

ATHLETIC BALL, November 3. Informal, Price \$1

Society Gossip

Y. W. Girls Have Walkout.
The notice of the "walkout" on the bulletin board in the Ad building last week caused much excitement and curiosity on the part of the fellows. "Were the girls going to strike?" Oh, pshaw, why not tell a fellow what it means?
At any rate the "walk out" was a success. It was held under the auspices of the Y. W. C. A., on Thursday evening, for the purpose of acquainting the new girls and the old. It was something new here, and every one entered into the spirit of it, from the outset, when the girls found their partners at the Dorm, and also their "tin cups." And then down the hill and up again, around "Crowe's Lane," where two huge bonfires were built. Of course, there was a "weenie roast," and after the picnic was enjoyed, Idaho songs were sung. Then after a scramble for forks and spoons and "tin cups" the "walkout" walked in.

Gamma, Phi Beta.
The annual "Pledge dance" of Gamma Phi Beta Sorority was held on Friday night at their house on Blake avenue. The entire lower floor and porches were thrown open for dancing, which was enjoyed during the evening. The music was furnished by the Kappa Sigma stringed orchestra. After the dancing the guests were conducted to the fourth floor, which was decorated with autumn leaves and Jack o'lanterns, where the usual Hallowe'en stunts were indulged in. Those present were: Miss Green of Pullman, Miss Sander of Seattle, Misses Leone Hamilton and Moody, and Messrs. Poe, Deneke, Haynes, Stevens, Bullock, Turnbow, Kenney, Wade, Ray Smith, LeRoy Smith, Howard Sanborn, Lewis, Moe, Irving, Rosenbaum, Johnneson, Southerland, Fox, Taylor, Ambrose Johnson, Cox, Scott, Ott, Lloyd, Newlin, Fraf, McLaughlin, Bloom, C. Hyde, E. Hyde, Barber, Stenger, Chrisman, Whelan, Leland Johnson, Shetzle, Bivens, Bucher, Bowers, J. B. McDonald, Hammond and Lindley, Mr. and Mrs. Clarence Edmundson, Mr. and Mrs. Cliff Edmundson, Mr. and Mrs. F. D. Matthews, and Mrs. Winifred Gunn.

Gamma Phi Beta entertained informally on Saturday afternoon at a tea, in honor of Miss Green of Pullman and Miss Sander of Seattle.
D. Pattee and Grover Turnbow visited Phi Delta Theta Monday.
Mr. Richard of Syracuse University visited Phi Delta Theta Monday.
Miss Dorothy Sander, Gamma Phi Beta, from the University of Washington, is a guest of Gamma Phi Beta Sorority.

Hon. Burton L. French was a guest of Phi Delta Theta on Monday evening.
Beta Theta Pi and Zeta Chi Alpha fraternities called at the Gamma Phi Beta house Sunday afternoon.
First Dance of Year Success.
The Senior Ruff held in the gymnasium on Saturday evening was delightfully informal and much "pep" was displayed on the part of the dancers, owing to the "peppery" music, furnished by the "College Jazz band."
Delicious punch, which lacked nothing but quantity, was served during the evening.
In the receiving line were Miss French, Mr. Butterfield, A. J. Priest, Miss Ruth York, Mr. and Mrs. Hills and Dean and Mrs. Thomson.

Putman Weds.
Professor Putman, professor and head of the department of bacteriology, was married in Spokane Monday to Miss Ruth Brewer. Miss Brewer was for several years assistant librarian in the university library.
AND YET ANOTHER WEDDING
J. M. Pond, '15, Returns From Panama to Wed Genesee Girl; Was Well Known on Campus.

The Genesee News says: The marriage of Miss Dorothy Lorraine Driscoll and Joseph Martin Pond was solemnized at St. Mary's church in Genesee, Wednesday at 6:30 a. m., the Rev. Fr. F. M. Becker officiating. Lohengrin's wedding march was played by the church organist.
The wedding was quiet and was hastened by the fact that the groom's number has been drawn in the draft.
The bride is the daughter of Mr. and Mrs. Timothy Driscoll of Genesee, where her father has been

prominent for many years in banking and business circles. She was a student at the University of Idaho in 1915. A greater part of the past two years has been spent in Los Angeles and New Orleans.

Mr. Pond is a graduate of the University of Idaho with the class of 1915. He has been connected with a business enterprise in Panama.

PERSONAL MENTION

Beta Theta Pi called at Kappa Kappa Gamma Sunday.

Zeta Chi Alpha announces the pledging of Marcel Malige.

Naomi Morley of Colfax visited Delta Gamma last Thursday.

LeRoy Smith went to Spokane Saturday to visit with his parents.

Clarence Hyde spent Friday and Saturday of last week in Spokane.

Gamma Phi Beta announces the pledging of Gladys Clark of Spokane.

Gamma Phi Beta announces the pledging of Gladys Clark of Spokane.

J. H. McCrea and L. A. MacDougall spent the week-end in Lewiston.

Beta Theta Pi announces the pledging of Ronald Roming, '19, of Moscow.

Mary Erb and Kathryn McCormack spent the week-end at their homes in Lewiston.

P. A. Richmond returned Sunday from a three days' visit at his home in Lapawi.

Jack Rogers visited the Phi Delta house last week on his way back from Camp Lewis.

Margaret Costley spent the week-end in Pullman as the guest of Mrs. Grover Turnbow.

The non-fraternity men and Phi Delta Theta called on Ridenbaugh Hall Sunday.

United States Senator Wm. E. Borah was a Monday dinner guest at the Beta house.

Alpha Kappa Epsilon and Zeta Chi Alpha fraternities were Delta Gamma callers Sunday.

Gladys Duthie spent the eweek-end at her home in Troy, accompanied by Ernestine Drennen.

Mrs. J. E. Wodsedalek left last Sunday for Wisconsin, where she will visit relatives and friends.

Alpha Kappa Epsilon and Phi Delta Theta called at the Gamma Phi Beta house on Sunday afternoon.

A meeting of the Foresters' Association was held at the Kappa Sigma house last Thursday evening.

Earl Hall left last week for the University of North Dakota, where he will attend the medical school.

Gladys Jones left for her home in Spokane Wednesday on account of illness. She expects to return today.

Mrs. C. B. Morley, Mrs. G. A. Chapman and Mrs. Howard Bramwell, all of Colfax, were guests of Delta Gamma Sunday.

Messrs. Edw. Rosenheim of Boise, Dr. Hills, Cliff Edmundson, and Professor Ray were dinner guests at the Kappa Sigma house Thursday evening.

Mr. William Stuart of the Horticulturists' Bureau of Plant Industry, Washington, D. C., was a dinner guest at the Kappa Sigma house Wednesday evening.

Miss Marjorie Green, Gamma Phi Beta, from the University of Nebraska, who is connected with the physical education department at W. S. C., was a week-end guest at the Gamma Phi Beta house.

Kappa Kappa Gamma entertained at dinner Wednesday evening in honor of Mrs. Charles W. Leapheart. The invited guests were: Miss French, Mrs. Hutton, Mrs. Von Ende, Gertrude Stephenson and Helen Patton.

Beta Theta Pi entertained informally at a house dance Friday evening. Those in attendance were Professor and Mrs. Howard T. Lewis and Misses Parsons, Wagon, York, Dingle, Bailey, Cole, Morley, Taggart, McDaniels, R. Blomquist, B. Blomquist, Brown, Anderson, and Jones.

KAPPAS SET PACE

Kappa Kappa Gamma was the first of the fraternities on the campus to buy a Liberty Bond.

Athletic Ball November 3rd

SHORT FORESTRY COURSE OPENS DOORS THIS WEEK

Winter Course for Ambitious Timber Beasts Begins Sixth Year November 1.

The short course in forestry opens November 1. Correspondence indicates a good attendance in spite of the war.

Nineteen-seventeen marks the sixth annual session of the short course in forestry. This will be a very practical course, designed to be of special assistance to forest rangers, or guards desiring to increase their efficiency, or others who wish to fit themselves for such positions. The course is also especially adapted to the needs of young men engaged in wood work, sawmills, lumber salesmanship, or logging engineering, who are seeking promotions, and for those wishing to prepare themselves for any of these lines of work.

Altho high school training is highly desirable, it is not necessary, and any able bodied man will be eligible for entrance whose preparation will enable him to carry the work with profit to himself. The session this year will close April 1, 1918.

Green Caps.

The Daily Kansan, official organ of K. U., publishes a list of the Freshmen who refuse to wear the Freshmen caps. Due to the wholesale ducking of the men of 1921 last week, such a thing will probably be unnecessary at Idaho.

Chem Profs Please Note.

The students at the University of Washington are attempting to economize on the paper they use. Consequently they have circulated a petition to force all instructors to shorten their lectures while the price of loose-leaf book paper is at its present height.

MUCKERS ELECT

NEW OFFICERS

(Continued from page one.)

and made a few appropriate remarks. Mr. Thomas S. Varley, in charge of the Bureau of Mines work in the northwestern states, was a visitor. He expressed himself as being very well pleased with the progress that has been made in the co-operative work to date. He also expressed the opinion that before long the work at Moscow would reach the state of an independent station of the Bureau of Mines.

The meeting was closed with a few remarks by Dean Thomson.

"EAT LESS" SAYS

FEDERAL AGENT

(Continued from page one.)

this if the \$7,000,000 waste from our kitchens every year is not eliminated. Candy must be relegated to the background. There is not enough sugar in France to constitute a daily ration. Each American consumes 90 pounds of sugar a year, while the Englishman gets only 42. We are going to send France 100,000 tons of sugar, and as a result there are going to be some "Out of Sugar" signs at home. In some places at present sugar is being sold in restricted quantities.

Sacrifice Necessary.

"Our government is asking us not only to substitute, but to actually eat less of certain foods. If a few of us do not do this more stringent measures will be taken and all will have to suffer because of the neglect of a few. Liberty Bonds will furnish money to buy the necessary arms and ammunition, but they can not furnish food that has not been produced. Let us make a small sacrifice and help the government in this food conservation work. It is an opportunity to do a real service. Anything worth while is born in sacrifice. Would that our country asked us to make a real sacrifice.

"The Prussian system is clogging the wheels of 20th century civilization, and we must, in the words of Admiral Dewey, 'Go through it.'"

DR. BRANNON CLIMBS STACK

Former Idaho President, Now at Beloit, Views College.

BELOIT, Wis.—These have been busy days for Dr. Melvin A. Brannon, formerly of the University of Idaho, since he came to Beloit college to be its third president, and he has had but little time to spend viewing the surrounding country. Accordingly, he donned a khaki coat and climbed to the top of the new smokestack at the college heating plant, from which he could obtain an aerial view of the geography around Beloit.

The inside scaffolding of the structure is about to be torn down, so Dr. Brannon seized the opportunity by the forelock. Miss Varelle Wickham and Miss Mary Eastrop, clerks in the college office, also took the climb.

ANNUAL SCRAP BETWEEN IDAHO AND PULLMAN

(Continued from page one.)

backfield, where he was buried last season, and stationed at his old post covering the ball.

Backfield All Fighters.

The Idaho backs average 15 pounds lighter than their Pullman opponents. Thompson, smashing full back, is in fact the second heaviest man on the team. He is a 10-2 man in spikes, and is scarcely less fast in football cleats. His line work was one of the features of the Oregon game, and coach and students are expecting big things of him. Tommy got his first taste of battle in the W. S. C. game of 1915, and at one time carried the ball to within a yard of the Pullman goal. This year he'll pack it across.

Dingle, quarter, is light, but fast. The other backs, Roberts and Evans, are broken field runners of more than ordinary ability. Both are fighters from the jump and fighters all the time.

Outlook Not Bright.

The one redeeming feature of the outlook for the game lies in the spirit of the team. They will go into the game outweighed, and handicapped by inexperience. But whatever happens, they will not be outfought. This fighting Idaho spirit has spilled dope before in a disconcerting manner, and this year looks ripe for another reversal.

Lineup for the two teams have not yet been announced.

LOAN CAMPAIGN

A REAL SUCCESS

(Continued from page one.)

money paid in will be refunded. A large number took advantage of the offer, a total of almost \$7000 being subscribed at the meeting. This amount, when added to that already pledged, put the figure for the university total at \$12,000. This sum is credited to the state at large.

Classes Purchase.

Several organizations fell into line also and purchased bonds. The junior class again came to the fore, and headed the list by purchasing a \$50 bond. The vote in favor of this action was unanimous.

The 81 members of the class will pay a pro rata assessment. The bond will be held in trust in the presidents office until maturity, at which time the proceeds will be turned over to the university to be used in improvement of the college plant.

The seniors and sophomore classes followed suit, purchasing bonds of the \$100 and \$50 denominations, respectively.

Soulen to Speak at Sandpoint in Joint Teachers' Institute.

Professor Phillip Soulen, head of the school of education, has been requested to speak at the joint teachers' institute of Boundary and Bonner counties, which is to be held at Sandpoint November 5 to 9. Professor Soulen will attend for three days, delivering a series of special lectures.
