UNIVERSITY OF IDAHO, MOSCOW, FRIDAY, JANUARY 31, 1919

NUMBER 14

FLU BAN FLOATS FROLIC TO FOLLOW

City Health Officer Sanctions Senior Ruff—First All-College Affair in Three Months.

OTHER AFFAIRS TO FOLLOW

Junior Prom and Military Ball Big University Functions Released by Raising of Ban.

"The quarantine has been lifted from University activities! The reign of flu is over, and dances and parties may be given." This statement was made last night by Dr. W. A. Adair, City Health Officer.

This means that the Senior Ruff, long postponed, along with other University social affairs, will be staged in the gymnasium Saturday night.

Students Only. "Only registered University students, however, will be allowed to attend social functions," warns Dr. Adair. "All outsiders are barred. Infractions of this ruling will necessitate the replacement of the ban again."

The second quarter has been marked by a total absence of the influenza. However, an unceasing watch will be kept for signs of the disease and regulations more drastic than ever will be imposed should the epidemic re-occur.

First Dance in Three Months.

The Senior Ruff Saturday night will be the first University social gathering since the ban was placed upon all public gatherings last November. Even private parties and dances at sorority houses have been forbidden.

The Junior Prom, Freshman Glee, Military Ball, and Foresters' Ball, are among the big all-college dances scheduled for the gym in case there is no re-appearance of the influenza.

IDAHO WILL RETURN TO SEMESTER BASIS

PRESENT QUARTER SYSTEM INVOLVES TOO MUCH EXPENSE AND READJUSTMENT

The University of Idaho will return to the semester basis next year. This was the vote of the faculty Wednesday afternoon, despite the fact that many of the colleges and universities are going to retain the quarterly system.

This matter has been under consideration for some time, and caused much discussion when it was brought up for final decision.

The quarter system involves a much greater expense than the present system. To operate it successfully, there would have to be four quarters in the college year. The enrollment of the summer session, it is felt, would not be sufficiently large to maintain the full running force of the University.

The quarter system would also involve a complete change in all the college courses. The readjustment would be tremendous, and at present it is not thought advisable to make these changes.

UNIVERSITY MAY CLOSE WEEK EARLY

OPENING OF NEXT COLLEGE YEAR SET FOR SEPTEMBER 15, 1919

The present college year may close Saturday, June 14, instead of June 21, as previously scheduled. This is the recommendation which the faculty voted to submit to the State Board of Education. In this week examinations will be held during the week of June 9-14. Commencement will be on June 11.

It is especially desirable to close college earlier than June 21, if summer school is held at the University. It is not definitely known whether there will be a summer session here, until after the legislature has considered it, but in case there is, a fairly early date for its opening is desired.

The opening of the next college year has been scheduled for September 15 and 16 with Monday and Tuesday devoted to registration. This is no innovation, but merely a return to the college schedule pursued before the war.

SIXTY SAMSONS COMPETE IN BETTERMENT CONTEST

"P. E." and Boxing Classes Draw Large Attendance.

The physical betterment contest has already attracted 60 men to the examinations and shows prospects of bringing 90 per cent of college men to the fray. The Gymnasium class in "P. E." and boxing is also starting with a large enrollment, 50 men now taking the course. The instructors hold hopes for a class of at least 100 men.

The straightest line so far charted in the contest was recorded by E. R. Werry. Roy Thompson has the highest strength per cent, with Nell Irving second.

WAR GIVES FARMING GREATER IMPORTANCE

Significant Issues Arise at Agricultural Conference, Says Dean Iddings.

Dean E. J. Iddings of the College of Agriculture has recently returned from attending the annual meeting of the American Association of Agricultural Colleges and Experiment Stations, held at Baltimore, Maryland. He states that this meeting was considered of unusual significance this year, on account of the ending of the war and the rapid rise in importance of the problems of reconstruction.

Foreign Commission Appointed.

"It had been especially announced," Dean Iddings says, "that there would be a report before the association of a commission composed of experts sent to Europe to investigate the agricultural situation and the needs of the nations affected most directly by the war, particularly with reference to such surplus agricultural products as might be spared from America."

Significance of Meeting Important.

"The entire session was one of the most helpful," according to the statements of older men, in college and station work, "that has been held, for many years." Those who took an active part in the program seemed to feel fully the significance and importance of the unusual period through which we are passing, and this had an unquestioned influence upon the utterances of those who took a leading part in the proceedings.

Idaho Dean Especially Interested.

Dean Iddings was particularly interested in the report given by the three men who made the trip to Europe. President Thompson of Ohio State University, President Pearson of the Iowa State College, and George M. Rommel, head of the Animal Husbandry Division of the Bureau of Animal Industry.

"President Thompson spoke of the political and economic phases of the great struggle in France and Belgium. He pointed to the great work that had been done by the allied nations and laid special emphasis upon the great part that had been played by the English navy."

Many Important Conclusions Reached.

"This commission came to five conclusions with reference to the devastated districts. 1. The damage done by Germany was deliberate, to hinder the economic future of France. 2. The removal of buried explosives and the repair of damage is the problem not of the French farmers primarily, but of the entire allied group. 3. German prisoners of war should be used to restore the devastated regions. 4. If prisoners are returned soon to Germany, leaving France to remedy the damage, the economic advantages would rest with Germany. 5. No more reconstruction or indemnity can adequately meet the situation."

Trip a Benefit to Idaho as Future.

Upon his return from the meeting Dean Iddings stopped in Washington, D. C., and had personal conferences with men in charge of federal work in agriculture. As a result more cordial relations were brought about and in some cases direct financial support was secured for certain phases of Idaho work, especially in the field of agriculture.

Forestry School to Supply Trees.

In accordance with its policy to encourage the planting of trees in Idaho by supplying the stock in limited quantities to prospective planters, the School of Forestry offers trees for sale. All of the trees offered have been thoroughly tested, are choice stock, and will be shipped under an inspection tag. Directions for planting the trees will be sent with each order when shipped.

VANDALS OUTSCORE GONZAGA HOOPERS

Win Rough Contest 34-3—Fail to Show Old-time Form.

Outplaying Gonzaga in every department of the game, Idaho made it two straight by registering a 34 to 13 win in a rough affair at the local gym Saturday night. Except for flashes, the speed and team work, which characterized the play of the Vandals a year ago was missing.

Lack of real competition so far may explain the indifferent play of the first two games and the fans are looking for a return to form in the Whitman and O. A. C. contests.

The game started out like a whirlwind affair and for ten minutes looked like any man's win, but by superior floor work, Idaho pulled away and the first half ended 18 to 10 in her favor. Campbell's consistent work under the basket and McAteer's spectacular shots from the center of the floor were the outstanding features of the first half. Every man on the Idaho team but Campbell registered a personal foul during this period and the Gonzaga guards each contributed two.

The second half was a landslide during which Gonzaga added only three points to her score. After the first few minutes of play, Coach Bleamaster began running in the second string men and at the end of the game had the whole second team on the floor.

For Idaho, Campbell and Hunter starred, while Gehres and McAteer divided the honors for Gonzaga.

The line-up follows:

Idaho	Gonzaga
Campbell	Gehres
Moe	McAteer
Hunter	Logan
Romig	Walterskirchen
Lindley	Meehan
Substitutions: Idaho—Perrine for Campbell; Brigham for Moe; Irving for Hunter; Cozier for Romig; Carter for Lindley.	
Gonzaga—Malloy for Gehres; Benolken for Walterskirchen.	
Field Goals: Idaho—Campbell, 6; Moe, 2; Hunter, 5.	
Gonzaga—Gehres, 2; McAteer, 2; Meehan.	
Free throws—Hunter 6 in 12; Campbell, 2 in 2; Gehres, 1 in 5; Logan, 2 in 3.	
Referee—Hulbert.	

IDAHO FIVE LEAVES FOR THREE GAMES

Double Header With Whitman and Game With Walla Walla "Y" Weeks' Schedule.

CAMPBELL MAY NOT PLAY

Idaho Captain Suffers From Injury Received in Gonzaga Contest—Line-up Uncertain.

Idaho Varsity Vandals will slip the first real college games off the platter when they pull against the Whitman Missionaries in a two-game schedule tonight and tomorrow at the Indian city. The local team will be weakened by the temporary loss of "Drom" Campbell, captain and center, who is out of the game with an injured shoulder.

Missionaries Scrap.

Coach Bleamaster predicts hard games that will highly tax the efforts of the Idaho men. The Whitmanites are of a recognized fighting calibre, and never go down to defeat without a real struggle. Last year the Vandals took a four-game count from the Washington college.

The Walla Walla Y. M. C. A. will furnish a third game for the team. Stars on "Y" Team.

They have an especially strong lineup, with Bohler, former W. S. C. star, and Zaring of Walla Walla high school on the quintet.

The following men make the trip: Moe, Hunter, Lindley, Romig, Irving, Cozier, Perrine, Brigham and Carder. O. A. C. Next Week.

The Vandals will return Sunday to get in shape for a double-header with the Oregon Aggies on Tuesday and Wednesday nights of next week. The O. A. C. quintet has not yet participated in the conference meet this year, but will undoubtedly figure strongly in the championship. The recent return of several of their undefeated quintet of last year gives them hope for victory over the Vandals at Moscow.

GAIL PUBLISHES RESEARCH RESULTS

Issues Pamphlet on Factors Governing Distribution of Fucus—High Economic Value.

Professor F. W. Gail, head of the Botany Department at the U. of I., has recently issued a pamphlet dealing with the distribution of Fucus, a sea plant from which potash, iodine and other chemicals of both military and economic value are obtained. This plant grows in abundance at certain points on the Pacific coast.

Held Biological Positions.

Professor Gail held a position at the Puget Sound Biological Station during the summer of 1918. While there he attempted to determine some of the factors governing the local distribution of Fucus. Studies were made on San Juan Island, Brown Island, and some of the Lucia Islands and Twin Rock. Professor Gail observed in a general study of the various kinds of shores that little Fucus grows on shores under overhanging trees and none on north exposures with a high shore line. Exposures that abound in Fucus have none under wharves or station laboratories. The darker a cove is, the less Fucus on its shores.

Growth Experiments Tried.

Professor Gail next experimented to determine the effect of different light intensities on Fucus and the amount necessary for its growth. The effects of submergence were then studied. After these results other experiments were tried to determine the effects of submergence under different light intensities.

Professor Gail first experimented with sporlings. He found that mature Fucus plants are more resistant to lower light intensities than are sporlings.

Fucus do not grow to their natural size on gravel. There is a tendency for them to dry up and die before maturing.

It was discovered, too, that reduced light intensities cause the death of well grown plants at a slight distance below the surface of the water. Less than one-fourth total light causes them to become darker in color, and decomposition takes place.

Valuable Piece of Work.

This piece of research work gives information of the utmost value to large companies who are raising this plant for commercial use. It determines definitely where Fucus will grow and will not grow to the best advantage. Professor Gail states that he expects to return to Puget Sound next summer and do further research work.

BASKET TOURNEY STARTS WITH ZIP

Betas, Alphas, Kappa Sigs and Phi Deltas Win Openers—Champs Lose

RESULTS FIRST GAMES
INTRA-COLLEGE
BASKET TOURNEY

Betas 16; Zeta Chis 10.
Phi Deltas 31; Sigma Nus 8.
Kappa Sigs 14; Barbs 7.
Aises 10; Short Ags 4.

The intra-college basket ball league is romping off the first games of the schedule in a lively manner that promises some real excitement for the finish. The Beta, Phi Delt, Kappa Sigma and A. K. E. quintets have grabbed their first games in a seemingly easy manner, and have teams that will furnish a hard scrap for the finale. But the teams which suffered defeat all show great chances of improvement, and are not out of the running.

Phi Deltas Come Back.

The most significant contest was the 31-8 beating which the Phi Deltas gave the Sigma Nus. The Sigma Nus won the cup last year, and must repeat this year in order to hold it permanently. The Phi Deltas were in the cellar last season.

Beta 16—Zeta Chi 10.
Scott F Paffney
Miller F Bailey
McCrea C O. Thompson
Wright G L. W. Thomson
White G King
Goals: Beta—Wright, 2; Miller, 2; Scott. Zeta Chi—O. Thompson, 4; Gaffney.
Free throws—Scott, 5; Miller; Bai-

TO DISCUSS SALESMANSHIP

Extension Conference Program Interests Moscow Merchants.

The Extension Division Conference which meets at the State University the week of February 17 will bring a program of unusual interest to the salesmen of Moscow.

Mrs. Brown of Twinn Falls, Idaho, will lecture on "Salesmanship" and Miss Elwell, state textile specialist, will speak on the subject of "Textiles."

Managers of Moscow stores are very much interested in the series of lectures and are urging their clerks to attend.

TO CREDIT SERVICE WITH ARMY AND NAVY

Faculty Votes Four Hours Per Month To Successful O. T. S. Candidates.

FIX MILITARY CREDIT SCALE

Soldiers and Sailors May Substitute Service for Fact of Basic R. O. T. C. Course.

College credit at the rate of four credits per month within a certain limit are to be given men who served in officers training schools and received commissions. One-half this amount of credit will be given men who did not receive commissions.

This was a ruling passed by the University faculty Wednesday afternoon, upon the recommendation of a special military committee.

The exact amount of credit to be given is twelve credits for three months O. T. S. and eight credits for two months O. T. S., providing a commission has been received.

Six credits for three months O. T. S. and four credits for two months O. T. S. will be given where no commission has been received.

Military Credit Also.

The University faculty also passed a series of rulings regarding military credit to be given men who served in the U. S. Army or Navy.

The University has returned to its former plan of military training, and as heretofore, all first and second year students are required to pursue the basic course of the R. O. T. C. for two years. The completion of the basic course of the R. O. T. C. is based upon actual time served and not merely on college credits granted.

Six Months Worth Year.

Six months service in the U. S. Army or in the U. S. Navy, or three months' service in an officers training school will be counted as equivalent to one year of the basic course. The attendance at an R. O. T. C. camp or an S. A. T. C. (such as those at the Presidio) but not at educational institutions, will be counted as equal to service at an officers training school for a similar period. Services for greater or less periods will be prorated on the above basis. National Guard service, other than that in the active service of the U. S. will be counted, as heretofore, at the rate of three years for one year of the basic course of R. O. T. C.

Will Not Bring Pay.

It is essential that students do not construe the above mentioned provisions as constituting the prescribed work of the basic course of the R. O. T. C. for the purpose of receiving pay in the advanced course of the R. O. T. C. and receiving pay from the federal government. The two years of the basic course are necessary in order to register in the advanced course and other military service cannot be substituted.

PULLMAN TAKES LEAD IN CONFERENCE ROLE

U. of W. and Oregon Fall Before W. S. C. Basketeers—O. A. C. May Spring Surprise.

The first week of the conference basket ball season finds Washington State College making the strongest bid for championship. The Pullman hoopers are now engaged in a tour of the coast basket centers. A double victory at the University of Washington, and an even pull at Eugene with the U. of Oregon, gives them a decided early season boost.

Oregon Aggie material will be brought to light tonight and tomorrow when W. S. C. goes to Corvallis.

(Continued on page 4.)

DR. E. H. LINDLEY TELLS OF HIS TRIP

PRESIDENT OF UNIVERSITY SPEAKS TO STUDENT ASSEMBLY OF THE FUTURE

A warning against relaxing our patriotism after the war and assurance that the price of farm products will not be lowered for the next year were the key notes of an address delivered by President Lindley at the student assembly this morning.

"The world is in a post war condition," said President Lindley. "We are tired of fighting and are apt to turn too quickly toward personal pleasure and to forget the great things we have been fighting for."

"If the war has meant anything, it has meant national unity, it has meant facing the individual with the state. We dare not now turn toward individual aggrandisement. We must still face the big problems of Americanization and of social justice."

President Lindley has recently returned from a convention of land grant colleges held in Baltimore where the larger problems of reconstruction were discussed by the heads of all the big agricultural colleges of the United States.

How the university can help the farmer, the S. A. T. C., the attitude universities should take toward reconstruction problems were discussed in detail by the members of the convention.

"A feeling of solidarity grew out of the meeting," said President Lindley. "By getting together and talking over our common problems we were able to formulate uniform plans of action that will make our work more successful in the future."

President Lindley rode east on the same train with William Jennings Bryan. While in Washington he met several Idaho alumni who are doing government work there.

EXECUTIVE BOARD APPORTIONS FUNDS

Athletics Receive Largest Share of Associated Student Money.

Members of Board and Faculty Advisor to Receive Passes to Student Events.

Athletics received \$331.60, the largest slice of the A. S. U. I. fund, at a meeting of the executive board of the A. S. U. I. Saturday. The Argonaut was allotted \$152.20; Glee Club, \$113.40; Debate, \$125.00, and the miscellaneous fund, \$37.80. A motion was carried to apportion the second quarter receipts on the regular per cent basis prescribed by the A. S. U. I. constitution. Athletics, 66 per cent; Argonaut, 12 per cent; Debate, 10 per cent; Glee Club, 9 per cent, and the Miscellaneous fund, 3 per cent.

Action was also taken to draw \$50 on the Athletic fund and give to Boyd Cornelson in payment of a loan advanced him to pay for the Spokane University game.

"P" Sweaters Paid For.

The cost of football sweaters will be drawn from the miscellaneous fund, \$199.10 to be used for this. Anne Glindeman was instructed to draw a check as per contract for Henri Scott and also to draw a check on the Glee Club fund for the sum of \$113.40. This will be paid on the note held by the Glee Club at the First Trust and Savings Bank of Moscow.

Board Favors Return of Zoellners.

The A. S. U. I. board favors the return of the Zoellners and every effort is being made by Professor E. O. Bangs to have them here about the first of April. On account of the flu epidemic the Zoellners were unable to fulfill their last engagement at the University.

Executive board members and the faculty advisor, Professor H. T. Lewis, will receive passes to all events which A. S. U. I. tickets admit. This is equivalent to an A. S. U. I. student ticket. There are seven members of the board.

In the absence of the A. S. U. I. president the meeting was called to order by Professor H. T. Lewis. The following officers and members were present: H. T. Lewis, Ann Glindeman, A. A. Kinney and Boyd Cornelson.

(Continued on page 4.)

THE UNIVERSITY ARGONAUT

Published Every Week by the Associated Students of the University of Idaho.

Rates: Per year, \$1.25, except subscriptions outside the United States, which are \$1.75.

Entered at the postoffice at Moscow, Idaho, as Second Class Mail Matter.

The joy aroused by the lifting of the "flu ban" is almost sufficient to wipe out the memories of the monotony of the last few school months. There is also the greater satisfaction which lies in the knowledge that the University of Idaho and Moscow have thus far one of the most remarkable influenza records in the country.

When compared with statistics from other colleges and cities the death toll here is so small as to be well-nigh miraculous. When the energy and persistency with which the people of Moscow have fought the disease is considered it is comprehensible.

The influenza still runs rampant in many colleges. Some are suffering worse than in the fall. There is safety in our isolation, but, particularly now that there are no restricting regulations, every indication of a "flu" germ must be watched for.

A. S. U. I. MEETING WEDNESDAY MORNING

President Rettig Schedules Open Club for Next Assembly Period—Many Issues Up.

The A. S. U. I. will again become active as a student forum at a meeting to be held next Wednesday morning during the assembly period. A large number of important student issues which have been hanging fire since last year, and one or two new problems developing from the war will probably be discussed.

"More Life," Says Rettig. Edwin Rettig, who succeeded to the presidency as a result of the departure of Homer McDonald, announces a policy bringing the A. S. U. I. close to the students.

"It is my intention," says President Rettig, "that there shall be more A. S. U. I. meetings in order that the students of the University may come to realize the benefit of such an organization, and that they will thus become more interested in student affairs in general."

ENGLISH CLUB MEETS FEB. 12

R. D. Jameson to Discuss Younger Generation of Poets.

The first social meeting of the English Club will be held February 12. One of the main features of the evening's entertainment will be an informal discussion of poetry by Mr. R. D. Jameson of the English department.

"The organization of my material is not definite at this time," said Mr. Jameson, "but I shall doubtless give something from Walter Bynner, Edna St. Vincent Millay, Carl Sandburg, Edgar Lee Masters, and others of the younger group of poets who stand for the big ideals which have been emphasized through the war, and from whom alone we can get the true meaning of Americanism."

Refreshments will be served at the close of the evening.

This Week's Short Story.

Silent was the night—except for the automobiles on the road, the frogs in the pond, and the whispering of the leaves. There was no moon, but the mellow rays of the street light which fell upon the front street light which fell upon the front porch were just as bad.

There, on the porch, in a chair—er—in two chairs (one apiece) the two sat. George Van Cryster sighed. She sighed.

And, as he looked into her eyes, dark brown, shining, vivacious, vaguely conscious of the red lips, the dark hair, and the rounded throat, he murmured fervently:

"Mabel, you are The One Girl."

Intermission.

It was another night, silent except for the soft strains of the jazz band which floated from the adjacent room (the strains, we mean). A light gleamed brightly from afar, and in a near-by room, her dad was snoring.

George Van Cryster sighed. She sighed.

And, as he looked into her light blue eyes, quiet, demure, vaguely conscious of the red lips, the golden hair, and the rounded throat, he murmured:

"Violet, you are The One Girl."

Dean Hulme to Lecture at Pullman.

Dean E. M. Hulme of the History department of the University will deliver a lecture Saturday, February 1, at Pullman. His subject will be "St. Francis of Assisi."

DELTA GAMMA GIVES TEA

Solicits Support in Aid of Dutch Orphanage.

Nu chapter of Delta Gamma invites the student body and the public of Moscow to a Silver Tea, Wednesday, February the fifth, from two to five o'clock p. m. This is a part of the scheme to help raise fifteen thousand dollars in support of the Delta Gamma Orphanage located in Assendrecht, Holland. This orphanage has been in operation for over a year and as this work is as vital, since the declaration of peace, as before, the fraternity solicits your support.

STUDENTS FAVOR WELFARE MOVEMENT

Twenty-three Undergraduates Organize to Forward Y. M. C. A. Missionary Campaign.

The University of Idaho is to be included in a world-wide social welfare movement to spread the enlightenment of civilization in the Orient. This was the step taken at a recent meeting where twenty-three people gathered to discuss this religious and educational movement.

This meeting included, besides faculty members and city pastors, two prominent visitors, Rev. David R. Porter and Rev. Ralph McAfee.

Rev. David R. Porter, international secretary of the students department of the Y. M. C. A., said: "The aim of the movement is to spread everywhere the fruits of democracy and Christian brotherhood. The plan will mean that the college will send one or more of its best men into some country, low in ideals and devote his life to instructing the people in religion and educational lines."

Dean Eldridge says: "The war has opened to the nations a new concept of life. We no longer are slaves to narrow, selfish motives, but are glad to consider all peoples our brothers and equal partners of the earth."

Princeton Graduates in Ceylon.

Several of the larger eastern universities already have their representatives abroad. As a concrete instance, the student body of Princeton is supporting some of its strongest graduates in Ceylon.

Plan is Three Fold.

The plan as described by Professor Ph. Soulen is three fold in its nature. The first step is to select students who have the manly qualities and inclination necessary for missionary labors.

Second, there must be provided proper training and instructing for work in social welfare problems.

And third, the problem of financing the missionaries when in the field must be considered.

Colleges are given the privilege of taking over some definite territory and confining their operations to that field or pointing a group of colleges who jointly become responsible for some country.

Continue "Y" Work.

Rev. S. J. Chaney claims this movement is really a continuation of the Y. M. C. A. classes organized the first quarter, but owing to the flu ban and the demobilization of the S. A. T. C. they have not been resumed.

The Y. is planning to have many classes of men devoting some of their time and class work to studies—art, social welfare and religion.

The work will be based on the unit plan. There will be groups of ten with one of the number acting as leader. He will be held responsible for interesting the other nine.

To Develop Leaders.

As soon as possible all of the bible classes will be conducted by the students instead of faculty. For all class leaders there will be a normal class arranged to instruct them in their work as leaders.

This college movement is not in any way antagonistic to or attempting to usurp the activities of church missionaries. The churches are welcoming it and giving aid. The college and church missionary are to be co-workers but each has a definite service to perform.

ADVANCE COURSE MEN RECEIVE \$146 ANNUALLY

All third and fourth year men enrolled in the R. O. T. C. are to be allowed commutation at the rate of forty cents a day, according to orders just received by Captain Felker.

This is to be arranged on a basis of 365 days a year and will total \$146.

This is the first important change in connection with the Reserve Officers Training Corps, regulations which have been under consideration by the war department since the demobilization of the S. A. T. C.

Olive—Why do you think he receives many letters from her?

Bernice—When he opened that letter just now he knew just where to look for the second page.—Illinois Siren.

PHI U'S PREPARE AFTER-WAR PROGRAM

Home Economics Sorority Has Bright Future Says President—Canteen a Success.

Phi Upsilon Omicron, the professional fraternity of Home Economics, installed here last spring, has a very bright year ahead, according to a statement made by the president, Miss Cora Mae Jones.

Miss Elwell, who will be here with the county agents in February, has arranged to consult with the fraternity members and it is believed that she will be able to assist greatly in determining the particular after-war problems which should be considered by the local fraternity in addition to their Red Cross work for which definite plans have been completed.

Friday afternoon of last week the members of Phi U sold coffee and sandwiches in the lower hall of the Administration Building. A hungry and enthusiastic bunch of students soon devoured the wares and asked for more.

The sale was a decide success financially and the members are planning to repeat it in the near future.

IDAHO GRADUATE HIGHLY HONORED

Dr. Lawrence H. Gipson, First Idaho Rhodes Scholar to Write With Noted Historians.

Dr. Lawrence H. Gipson, the first Idaho graduate to obtain a Rhodes scholarship, who is now professor of history and political science at Wabash College, Indiana, has been given the honor of being requested to cooperate with some of the most noted historians in the world in the writing of "The Expansion of the Anglo-Saxon Nations," which is to be issued by the A. T. C. Black and company, publishers of London. Dr. Gipson's work will be one of the most important parts of the publication, the original history of the first 13 colonies and the subsequent history of the United States from 1713 to the present time.

Professor Gipson has already written a number of short studies in the field of American and Anglo-Saxon history that have won the attention and favorable comment of several American and English scholars.

Dr. Gipson is the son of Mr. and Mrs. A. E. Gipson of Caldwell, Idaho. At Caldwell he attended and graduated from what was then College of Idaho. He then came to the University of Idaho, where he obtained a degree and became the first student in the University to be honored with the Rhodes' scholarship. Dr. Gipson also has a doctor's degree from the Yale University.

R. O. T. C. REPRESENTATIVE CONFERS WITH HEADS.

Plans Broader Military Training With Summer Camps.

Capt. J. E. McNeil of the district R. O. T. C. headquarters was at the University last Tuesday and Wednesday, in conference with Captain Felker and Dean Eldridge.

Capt. McNeil was formerly with the S. A. T. C. and is now arranging the R. O. T. C. work for the coming year.

Capt. McNeil declares the S. A. T. C. work to have been very successful both from military and academic standpoints. Though demobilization came before the work was fully started, every indication was for perfect success had the armistice not changed the plans of the department.

Plans are being formulated for either four or six weeks summer camps, where more of the practical training for an officer will be gone into.

The University of Idaho is operating on a peace basis. In facing the new problems that confront the state and the nation, the University is giving—as it has in the past, to its utmost of time and energy. The training of men and women to carry on the business of citizenship is proceeding with the same enthusiasm as the training of soldiers. The University can help every citizen of the state to solve the special technical problems that confront him. Write for information to the Dean of the College of Forestry, Mines, Engineering, Agriculture, Law, or Letters and Science.

Society Gossip

Chi Delta Phi entertained Miss French, Dean Gill, Norma Dow, Howard Hatfield, Bertha Paney and Lieutenant Hale at dinner Wednesday evening.

Dean and Mrs. Thompson were entertained at dinner Tuesday evening at the Chi Delta Phi house.

Marie Freehafer, Effie Swanson and Madeline Wall visited in Pullman Saturday.

Wednesday evening Kappa Kappa Gamma entertained at dinner in honor of Norma Cowgill, Phyllis Orford, Carol Stenborg, Sigma Carlson and Mary Ford.

Zeta Chi Alpha announces the pledging of Clyde A. Gaffney of Weippe.

Zeta Chi Alpha called on Gamma Phi Beta Phi Beta Sunday.

Leon Perrine spent Sunday and

PLAN STUDENT BIBLE STUDY

"New Testament Ideals for Present World Tasks" to be Used in All Classes.

Plans for the student bible classes for the quarter were laid at a meeting which was held at the Methodist church January 24th by ministers, Sunday school superintendents, Sunday school teachers and the teachers for student and high school classes. The classes are to be carried on with the same teachers, but with the view of developing leaders, selecting teachers for future classes, and organizing student leaders into normal classes for special bible study.

The book to be used for the quarter is "The New Testament Ideals for Present World Tasks."

The classes will be held at the various churches at 9:45 on Sunday morning.

Wal. Mason Stuff.

While I sit and try to study and a guy stands by my side. Oh I wish his nose was bloody; on his frame I'd like to ride. For he talks and keeps a talking and he keeps my brain a balking, and I can't learn a plonking thing—his young neck I'd love to wring.

I want to get my lesson, for the facts I wish to know, but it surely keeps me guessin', and my modest thoughts won't go.

Oh, he talks about the women, and he says so-and-so's a dear, I would like to take a lemon and slam him in the ear. And when the teacher asks me why I didn't learn, I wish that guy was in a place where he could not talk—just burn!—EX.

Tractor Course Postponed.

The Tractor Short Course, planned by Professor J. C. Wooley, head of the Department of Agricultural Engineering, has been indefinitely postponed.

Monday in Spokane on business.

Alpha Kappa Epsilon announces the pledging of Philip Buck of Filer, Bernard Friedman and Alexander Fox of Moscow.

Mrs. Thomas and daughters, Esther Hilda and Georgia and son, Joseph, were Sunday dinner guests at the Alpha Kappa Epsilon House.

Alpha Kappa Epsilon entertained Friday evening at a non-dancing party. The guests were Dr. and Mrs. G. M. Miller and Misses Ayers, Byrnes, Marjorie Smith, Putnam, E. Thomas, Friedman, H. Thomas, Malloy, Sweeney, York, Jackson, Kerr, Adelman, Oylear, Bloom, Pehance, Snyder, Christian, Gano, McCormack, and Neville.

Miss Elizabeth Bridge of Berkeley, California will visit at the Gamma Phi Beta House next week. Miss Bridge is visiting delegate of the western division of Gamma Phi Beta and will come to Moscow from Seattle, Wash.

Sigma Nu fraternity announces the pledging of Harry Ellis Emerson of Genesee.

Carl Nagel was a dinner guest at Sigma Nu House Tuesday.

Sigma Nu fraternity gave a dinner party at their house Friday evening. After dinner the Freshmen entertained with a stunt that was appreciated by all present. The remainder of the evening was spent at the Orpheum theatre, where Chas. Ray entertained. Ices and pastry were served at Children's afterwards. The guests were Dean and Mrs. Thompson, Misses Crump, Edgecomb, Allebaugh, Sims, Brown, Frantz, Callaway, Burns, Sanger, McCrear, Glindeman, Sholes, McDaniels, Jones, Meecham, Adair, Anderson and Coffey.

McKinley Helm, '17, has recently received a commission in the Sanitary Corps. He is at present attached to Evacuation Hospital No. 1.

Word has been received that "Dutch" Downing has received a commission as major in the Field Artillery.

Dean and Mrs. Hulme and Mr. and Mrs. T. D. Matthews were dinner guests at the Kappa Sigma House Sunday.

Kappa Sigma announces the pledging of Gus Hays of Kellogg.

Kappa Sigma entertained informally at supper Sunday for Mrs. Matthews, callers. The Misses McKenna, Dermott, McCray, Bowers, Sampson, Salter, Meacham and Allebaugh were present.

Mr. and Mrs. T. D. Matthews and "Jimmie" were Kappa Sigma guests over the week-end.

Howard Knudson and Frank Marler spent the week end in Spokane as the guests of Mr. Knudson.

Capt. J. E. McNeil was a Kappa Sigma guest at dinner Tuesday evening.

A Large Sorority.

"Yes," said the principal of the young ladies' seminary to the proud parent, "you ought to be very happy, my dear sir, to be the father of so large a family, all the members of which appear to be so devoted to one another."

"Large family! Devoted!" gasped the old gentleman, in amazement. "What on earth do you mean, ma'am?"

"Wey, yes, indeed," said the principal, beaming through her glasses. "No fewer than 11 of Edith's brothers have been here this term to take her out, and she tells me she expects the tall one with the blue eyes again tomorrow."—Tit Bits.

ENGINEERS INSPECT SPOKANE POWER PLANTS

Make Two-Day Tour of Industrial Centers—Hear Big Bend Project Report.

A tour of Spokane's large industrial and power plants was conducted last week by the heads of the engineering departments. The visit was planned for observation of the principles and theories of class work in actual operation.

During their two-day visit at Spokane the party attended the lecture of Mr. J. C. Ralston, speaking before the members of the engineering and technical societies.

Mr. Ralston discussed the surveys and general outlook for the Big Bend Irrigation Project that is expected to open for farming over 2,000,000 acres in southeastern Washington.

The students who made the inspection trip were Leonard Helland, Senior Mechanical Engineering; E. G. Nettleton, Senior Civil Engineering; Victor Pearson, Senior Electrical Engineering; all of Moscow.

HENRI SCOTT HAS PLEASING CONCERT

Renders Varied Repertoire in Applauded Manner—Tour is Delayed.

A large and enthusiastic audience greeted Henri Scott, the celebrated New York Metropolitan bass-baritone Wednesday evening in the University Auditorium. All of his numbers were well rendered and he received much applause. The singers' interpretation of all of the numbers was good and his powerful voice filled the hall.

Varied Repertoire.

"The Drum Major" from "The Cady" by A. Thomas, was Henri Scott's first number. He sang it dramatically and with power. In the Modern French songs Scott's fine enunciation could clearly be heard. "The Toreador Song Carmen," was applauded and as an encore Mr. Scott sang "By the Waters of Minnetonka." As a closing number, "I Love You," was sung.

The quarantine regulations requiring that every other row be vacant were observed.

BILL INTRODUCED FOR MINES BUREAU

Thirty Thousand Biennium Appropriation Asked for State Bureau of Mines and Geology.

A bill establishing a bureau of mines and geology for the state has been introduced in the legislature, according to F. A. Thomson, dean of the School of Mines. The bill carries an appropriation of \$30,000 for the biennium, and is to be under the direction of a state board of control.

The bill provides for a board to consist of the governor of the state who is to act as chairman and the dean of the School of Mines, who shall act as ex-officio secretary.

The other members of the board are to be the state mine inspector, the head of the department of geology at the University and the president of the Idaho Mining Association. These men are to serve without pay.

The \$30,000 appropriation is to be divided as follows: \$15,000 is to be used for cooperation with the federal bureau; \$10,000 with the geological survey and \$5,000 for geologic and economic investigations for two years.

The office of the bureau is to be at the University of Idaho where the secretary of the controlling board is located. The board is to meet annually in Boise on the first Monday in April.

SINGER LAUDS UNIVERSITY

Has Nothing But Admiration for Town and Institute—Praises Auditorium.

Moscow was praised very highly by Henri Scott, the famous New York Metropolitan bass-baritone whose concert Wednesday evening was enjoyed by a large crowd at the University Auditorium.

"I think Moscow is one of the cleanest and nicest towns I have yet visited," said Mr. Scott. "It is a delightful place. This afternoon I visited your town and university. I have appeared before many college audiences and I like to sing for them. The University here is splendid."

Concert Tour Delayed.

Mr. Scott's concert tour has been delayed for three months. He is now keeping his November engagements. Moscow is his third town since he left New York. He came here direct from Helena, Montana, and from here he will go to Portland and will make a tour of the coast.

"Music is keenly appreciated in the west. There is a hunger and enthusiasm for it here," said Mr. Scott, "that we do not find in the east."

Has Had Long Experience.

The popular baritone has been with the Chicago Grand Opera Company for three years. He has also been with the New York Metropolitan Opera Company for years and when he has finished his concert-tour of the west he will resume his work with them.

Pleased With Auditorium.

"The acoustics of the auditorium are fine. I am very much pleased with your hall," said Mr. Scott. "The halls I am used to singing in accommodate four or five thousand persons but I believe I filled your auditorium, did I not?"

PULLMAN TAKES LEAD IN CONFERENCE ROLL

(Continued from page 1.)
on the last leg of the western circuit. Whitman basket ball prospects have also escaped publicity. The University of Montana is still wavering between none of the hoop game at all, or a late season schedule.
Pullman Forwards Fast.
In Rocky and McIvor, Pullman has two of the speediest forwards which the northwest has seen for some time. Both are accurate shooters, sioring nearly all of the points in the 43-32 victory over the University of Washington.

DELTA GAMMA ORPHANAGE

Oregon a Nut.
The second Seattle game was a hard-fought contest, which Pullman edged over by a 29-23 score. On Monday the U. of Oregon quintet, virtually the same as represented that institution last season, gave the Palousers a taste of defeat. Tuesday night brought a reversal, however, and a 36-35 overtime battle to the Pullman win column.

O. A. C. East Next Week.
The O. A. C.-W. S. C. encounters this week, and the O. A. C. eastern tour next week, during which she will meet Whitman, Idaho, and Pullman, will undoubtedly lend a more certain light to the championship race.

Soulen Has Presbyterian Class.
It was stated in the Argonaut last week that Dean J. G. Eldridge was in charge of the Presbyterian Red Triangle class. He has charge of the school, and Prof. Ph. Soulen is conducting the student class.

ALDRICH HOSPITAL STILL DESERTED

Temporary "Flu" Infirmary May Become Permanent University Institution.
The Aldrich house, used as a temporary hospital, still stands empty and deserted. No influenza has made its appearance since the return of the students, January 6th. The stage is set and everything is in readiness for the flu germs, which it is hoped will never appear. Twelve cots smothered with blankets and

sheets, silently, grimly wait for patients.
There is a movement, however, to retain the infirmary as a permanent institution and continue to keep it in readiness for any epidemic which might occur. This would include everything from flu to smallpox.
"Girls from out of town approaching a nervous breakdown, who were not sick enough for the town hospital, could be taken care of in the University infirmary for a few days and thus avert a four or five weeks' serious illness," said Professor H. T. Lewis, chairman of the health and housing committee.
"The University needs a permanent hospital and unless the state decides to cut expenses, the hospital will become a permanent part of the 'U.'"

With Apologies to the "Bill Board Song."

As I was walking down the hall
The bulletin met my eye,
The notices 'twere written there
Would make you laugh or cry.
The wind had come along that day
And blown a part away;
The other part remaining there
Would make that bulletin say,
Pres. Lindley will teach dancing
In the gymnasium tonight,
The library won't be open;
The deans have had a fight.
Dean French is going to chaperon
Sneak dates and dances too;
Sister Gale will referee
In basket-ball alone.
Miss Stevens will examine
All dust pans and express;
George Morey will give shower baths
To freshmen in distress.
The water on the second floor
Is running a picture show,
And all who have the symptoms
Are not allowed to go.
Faculty meeting at eight o'clock
To decide if we can dance;
Dean Hulme will conduct a game of
cards,
If fate's against our chance.

University Enrollment for Summer and Fall Largest in History.

The University enrollment for last summer and last quarter reached a total of 1278. Of these, 432 were vocational men not in the University S. A. T. C., doing regular academic remainder, a total of 647, were men, S. A. T. C. men and men not in the S. A. T. C., doing regular academic work in the University.

PROFESSOR C. J. MILES RETURNS TO LAW DEPT.

Professor C. J. Miles, instructor in the law department has been discharged from the training camp where he was taking instruction as a candidate for a commission in artillery. He has returned, after his leave of absence to resume his work at the University.
Dean J. J. Gill, head of the law department said, concerning Professor Miles: "We are mighty glad to have him back—the students as well as myself."

Vacation a Question.
The matter of spring vacation for this year is still a subject of uncertainty. A week's recess between the second and third quarters was scheduled at the beginning of the year, but if the present college year is shortened, this may have some influence upon the schedule. According to Dean Eldridge, the recess may be shortened, but not wholly eliminated.

Lieut. Miller Visits University.

Lieutenant R. R. Miller, a graduate of the College of Agriculture, paid the University a visit on his way back to Kansas City, Missouri, where he will resume his former position as assistant to the Secretary of the Herford Breeders' Association.
Mr. Miller enlisted for war service, but did not realize his ambition to cross to the fighting front, because Uncle Sam made use of him in the training camps here.
He states that he is glad to be back in civil life again and appreciates the opportunity of pursuing his old work.

The college recommendation committee, the duties of which are to suggest names of students qualified for teaching certificates and to aid them in landing positions is ready to take up its work for the year.
Prof. F. M. Erickson, chairman of are working for the provisional or

state certificate, to check their courses with the requirements for these certificates.

Persons who expect to ask the committee for its help and those working for certificates, are requested to obtain the proper blanks at once from the education department.

Prof. Erickson predicts next month will bring many inquiries for next year teachers.

In speaking of past experiences, Prof. Erickson states that there are so many calls for men and women capable to teach science courses that the college can not supply the demand.

NEW CZECHO-SLOVAK ENVOY

Charles Pergler was accredited as the Czech-Slovak diplomatic representative in the United States following the departure of Thomas G. Masaryk to Europe. For several months he has acted as Doctor Masaryk's secretary and for four years previously had been the most noted worker for his people in this country. Pergler was educated in the United States, but spent much of his youth in France. He was later engaged in newspaper work in Chicago and then became a lawyer, practicing in Iowa.

CHINESE WOMEN PAWN GEMS

Slant-Eyed Beauties Buy Diamonds on Installment Plan and Then Hock Them.

San Francisco.—"Alla same white women. Just hock dillmond. Whatta malla?"
Yip Shee, Lee So and Lan Sook, Chinese women, residents of San Francisco's oriental quarter, lisped the foregoing, following their arrest on a charge of embezzlement by ballees preferred by the Brilliam Jewelry company. Then they told their story. Desirous of setting off their charms they purchased diamonds valued at \$1,200 from the jewelry concern, agreeing to pay on the installment plan. Then the need for ready cash was experienced by these three slant-eyed beauties. A local pawnshop got the gems. Yip Shee, Lee So and Lan Sook spent the money. Then came the police.

Women Husking Corn.

Rantoul, Ill.—A survey of the corn fields of Illinois by air shows many women have gone out to help in the corn husking. One of the aviators here reports seeing hundreds of women doing their part to save the corn crop.
