NUMBER 24

FROSH WIN SCRAP ON SOPH DEFAULT

Second Year Men Refuse to Fight Without Kinney and Forfeit.

WARFARE BREAKS OUT EARLY

Soph Offensive on Thursday Brings Forth Frosh Hordes on Following Night.

The Sophomore - Freshman scrap for 1918-1919 is a closed book. The judges have upheld the decision of Pat O'Brien, Master of Ceremonies, in awarding the victory to the Freshmen on the Sophomore default. Both class presidents have agreed on a peace program.
This is what the judges say: W. C. Bleamaster: "There is no question about the decision. The Sophomores forfeited the fight. There could be no other decision under the circumstances."
"Tommy" Mathews: "The Freshmen won simply thru the failure of the Sophomores to appear. If they had put up a fight they would have at least stood a good chance of victory. The Frosh were unquestionably winners the night before."

Thursday evening came round and started just as a hundred other evenings had. All was quiet. The sweet twittering of the little birds, as they sought roosting places among the gently swaying trees, alone broke the twilight's serenity. Blissfully the Frosh pursued their wonted ways. About 9:30 the Frosh president was making his preparations to retire early.

Silently and stealthily the doughty Sophomore clan had gathered. Not silent enough had been their movements, however. A lone Frosh scented trouble and discovered the plot. He phoned the first-year president in time for him to make his escape, though in more or less abbreviated attire.

Baffled in their first objective, the Sophomores began to roam the streets, picking up Frosh as they went along. At every fraternity house telephones began to buzz. "Out! All ye loyal Frosh!" was the cry. "The Sophs are abroad!" The word went thru the peaceful city as a flash of lightning jumps from cloud to cloud. From a hundred hearths and fire-sides the wearers of the green top piece sprang to action. Wildly they rushed down town. Many were caught as they sprang forth and quickly sent to Paradise (creek) by the waiting Sophs.

They banded together down town into one great body. The out numbered Sophomores hung on the outskirts picking up stragglers. The Frosh wandered thru the town, howling at the top of their voices. Finally they went up to the Sigma Nu house, but unable to locate Wood, the Soph chief, they broke up and went to bed.

The wily Sophs were not yet satisfied. Realizing the numerical superiority of their enemy, they had prudently stayed out of reach. About 3 a. m. when the tired Frosh were peacefully slumbering on many a wind blown sleeping porch, the Sophs again bestirred themselves. Numbers of Frosh were rudely awakened from pleasant dreams to be plunged in the muddy rapids of Moscow's sole water course. It was a cold night, too. The night ended with the Sophs as victors.

The next day the Frosh prepared to take the offensive. In the afternoon they met and made their plans. They decided to conceal their president in a place of safety. Jackson was selected to lead the evening's venture. At 9 o'clock they met at the fair grounds primed for trouble. There they broke up into small groups and began to scour the town. The Sophomores had not expected any trouble that night and were taken unawares. Both shows were visited and the victims were beguiled into waiting arms by fake telephone calls.

The Sophomores soon began to realize what was going on. Elmer Roberts with skill worthy of Nick Carter, made his escape thru the whole crowd of waiting Frosh. He tied his overcoat around his waist, borrowed a girl's hat and coat and walked unscathed thru the throng.

Neil Irving, the human battering ram, came to the door and seeing the ravine mob, charged straight at them, head down. The crowd parted before

(Continued on page two.)

PLAN SPRING PLANTING

Campus Improvement Committee Orders Shrubs, Trees and Vines for University Grounds.

The committee on campus improvement is working on plans for the further development and beautification of the university campus. A large number of ornamental shrubs, vines and trees have been ordered for planting this spring.

Particular attention will be paid to the placing of ornamental shrubs and vines immediately about the buildings. Shade trees will be placed alongside the walks and roads.

IDAHO RACKETERS TO ENTER TOURNEY

Two Representatives at Conference Meet in May Will Receive Letters.

Tennis will be recognized at Idaho this year. Two of the best players on the Idaho campus will be sent to the annual conference tennis meet to be held at Pullman, May 23 and 24, and will be awarded letters. A tournament to pick the best players on the campus will be held May 15, 16 and 17.

Freshmen will be barred from playing varsity tennis on account of the universal college ruling prohibiting freshmen from playing on varsity teams.

At the conference meet, Idaho racketeers will enter the doubles and singles. The tryout contest is being held a week early so that the two winners will be able to practice together as a double team. Each man will enter the singles at the conference.

Tennis courts have been filled almost continually during suitable weather for the past ten days. Girls are taking great interest in the game.

The courts are in extremely poor shape and agitation has been started to improve them.

Coach W. C. Bleamaster is anxious to see a large number turn out for the tryout in order to insure a good representation for Idaho at the conference tournament.

WESTERN DELEGATE TO N. Y.

Coach Bleamaster Appointed to Represent Western Department at National Playground Ass'n Meeting.

W. C. Bleamaster, Idaho physical director, has been appointed delegate from the western department of the Playground and Recreation Association of American to the national convention of that association to be held in New York next July.

Professor Bleamaster is a member of the board of directors of the western division, and has been president of the Northwest Association for two years.

He will represent the states of Idaho, Montana, Washington, Utah, California, Oregon, Colorado, Wyoming, and Nevada at the national meeting.

IDAHO GRADS IN ENGLAND

John H. McEvers, '15, and McKinley Helm, '17, Received Army Appointments to English Universities.

Word has recently been received from John H. McEvers and McKinley Helm of their appointment from the American forces abroad, to attend English universities.

McEvers, who graduated in Law in the class of '15, is taking post graduate work in law at the University of London.

Helm graduated in the class of '17, from the College of Letters and Science. He has been assigned to Oxford University for post graduate work in arts. Both men are on detached service and expect to return to America with their respective organizations in July or August.

LEAVE TO ORGANIZE MINES BUREAU BOARD OF CONTROL

F. A. Thompson, dean of the School of Mines, and D. C. Livingston, head of the department of geology at the university, left Monday for Boise for the organization meeting of the board of control for the bureau of mines and geology.

The other members of the board are D. W. Davis, governor of Idaho, who acts as ex-officio chairman; Robert N. Bell, state mine inspector, and Jerome J. Day, president of the Idaho Mining Association.

FIRST PICTURES GO TO ENGRAVER

First Half of Annual Will Be in Printer's Hands On April 15th.

The first large shipment of pictures for the 1919 Gem of the Mountains has gone to the engraver. Work on the entire book is nearing completion. The complete copy for the first half of the publication must be in the hands of the printers by April 15th, and the entire staff is working day and night to handle all of the detail problems which arise at the last moment.

Art Work Best Ever. The art work under supervision of Pearl Morgan, is completed, and ready to go to the engravers. Various critics report that this work is the best that the annual has ever seen. Much credit is accredited by the staff to Miss Zeise for her help in this line.

Want Service Snaps. "The War Activities section promises to be the largest part of the book. Snapshots taken in the service, particularly overseas, are very much desired. Those who are willing to donate any snapshots must turn them in immediately to Helga Anderson or Wilfred Newman.

The business section of the book reports that ads are unusually plentiful. A large number have been secured in Moscow, Lewiston and Spokane.

SENIOR PLAY TO BE GIVEN COMMENCEMENT WEEK

The Senior play, "As You Like It," is to be given Commencement week, according to Professor George M. Miller, head of the English department. A meeting of the class has been called for Thursday afternoon at 4 o'clock. At that time committees will be appointed. The general committee consists of Bernice Bowers, Edwin Rettig and Camille McDaniels. The copies of the play are in the hands of the students who intend to try out.

IDAHOAN DECORATED BY KING GEORGE

Captain L. Brown, '11, Assisted in Mining Operations at Messines.

Capt. Loren L. Brown, B.S.(C.E.), '11, has written Dean N. C. Little of the School of Engineering and explained much of his army work in France and his professional work.

Mr. Brown has been given the very important position of Director of Forest Products Laboratories of Canada, established in connection with the University of British Columbia, Vancouver, B. C.

At Messines Ridge. Mr. Brown's senior thesis was upon the strength of Idaho timber. Some years after graduation he obtained a position as testing engineer in the New Forests Products Laboratories, Montreal, Canada, a position which he gave up in the early months of the war to serve in the British army as a volunteer. He was attached to a mining regiment and had the supreme pleasure of assisting in the explosions of the great land mines of the battle of Messines in June, 1918.

One mine contained some 50 tons of high explosive, which converted the hill into a lake and destroyed the enemy's garrison.

Mr. Brown was returned to Canada in October following, suffering from effects of gas at the battle of Passchendaele. Gas was used to enormous extent in this engagement, 8,000 men being incapacitated in one week in the Ypres salient as gas casualties.

Received English Decoration. Mr. Brown's military career was brilliant. He was promoted rapidly to rank of captain of Engineers, and for bravery in the field, was decorated by King George in person.

As captain, he was invalided out of service last July and then loaned by the Dominion Forestry Service to the Imperial Ministry of Munitions to assist the director of inspection in control of the supply of aeroplane lumber—spruce and fir.

English Club Postponed.

The English Club meeting scheduled for Wednesday, April 9, was postponed until next Wednesday. The program committee has not yet announced its plans, but promises an entertainment of the usual English Club standard.

DEBATERS TO MEET MONTANA IN MAY

Over Fifteen Platform Artists Out For Positions on Three-Man Team.

The University of Montana and the University of Idaho will meet in debate the last week in May. It was definitely announced by Walter Sandelius, debate manager, at a gathering of debaters held last Thursday. Some fifteen speakers with college or high-school experience announced their intention of trying out for the three positions open for this contest.

The Montana debate will be the only one in which the Idaho trio will participate this year. The teams will meet in Moscow and no return date will be secured.

The question agreed on was proposed by the University of Montana. Resolved: "The Government shall continue its operation of the railroads of the country with the ultimate aim of owning them." Montana has one other debate scheduled for this year: with Utah. It will be held before the Idaho-Montana debate and is upon the same subject.

There was a good turnout at the first meeting, although it was not generally known when it was to be held. Some of the old debaters, and several new aspirants for the gold were present. Anyone desiring to enter the tryouts may get material and information from Walter Sandelius.

The tryout will be held in three weeks, after which the coaches, Prof. Miles, Prof. H. T. Lewis and Prof. Miller will start preparations for the big argument.

Nine- or ten freshmen are preparing for the tryouts already. Inez Calloway, a freshman with a good high-school record may enter the race. Old material is also plentiful. Taylor, Ott, Burlee, Darling and Denman, all "I" men, are back this year and will probably enter the contest.

AMERICAN HISTORY VACANCY FILLED

Dr. William J. Trimble, W. S. C. Graduate, Will Teach Here Next Year.

Dr. William J. Trimble, recently professor of history in the agricultural college of North Dakota, has been elected professor of American history at the University of Idaho, starting next fall.

Announcement of the appointment was made this week by Dr. Enoch A. Bryan, commissioner of education for Idaho. Dr. Trimble is now doing historical investigation work at Washington, D. C.

Specialist in Northwest. "Dr. Trimble is well known as a writer on the northwestern history, particularly the development of mining," Dr. Bryan is quoted as saying. "His contributions have been accepted by the Atlantic Monthly and periodicals of similar standing."

Palouse Native. In speaking of Dr. Trimble, Dean E. M. Hulme said:

"Dr. Trimble is a westerner. He came from the Palouse country. He was a student at the Washington State College and later a teacher at the old South Central high school in Spokane when it was the only high school there. He taught one summer at the Washington State College. Later he took post graduate work at Wisconsin. His doctoral thesis deals with this part of the country; with the coming of the mining industry into the Inland Empire. It is an exceptionally fine piece of work, based on the rich collection of newspapers and other documents printed and written in the Inland Empire. It is now in the library of the University of Wisconsin and a copy may be found in our own library.

Successful Teacher. "Dr. Trimble is the best informed man in the history of this part of America. He was highly successful as a teacher in the agricultural college of North Dakota and was held in the highest esteem by his colleagues."

Dean Hulme finished by saying, "There is no doubt but that Dr. Trimble will make a great success at Idaho. It is hoped that in time he will produce a piece of work relative to the history of our own state."

LAWYERS TAKE EXAMINATIONS

Senior Law Class in Lewiston to Tackle State Bar Examinations.

Three seniors of the law department, Richard Ott, Clarence Taylor, and Alvir Denman, left Tuesday for Lewiston, where they will take the bar examination.

Professor A. E. Evans accompanied them and will seek admission by motion to practice law in Idaho. Dean J. J. Gill of the law department will deliver a series of three lectures to the business law class beginning this week.

MUSICAL RECITAL FRIDAY NIGHT

Professor Bangs and Miss Wegman Offer Program in Auditorium at 8:15 o'Clock.

Professor E. O. Bangs and Miss Wegman of the Department of Music of the University of Idaho will give a recital Friday evening at 8:15. This recital, the first of its kind this year, is an annual affair.

Professor Bangs and Miss Wegman are talented artists and it is expected there will be a large audience to hear them. No admission will be charged. Following is the program to be given:

1. Massenet.....O si les fleurs Bach-Gounod.....Ave Maria Weckerlin.....
2. Chantons les amours de Jean Professor E. O. Bangs
3. Beethoven.....Sonata in D Minor (First movement)
4. Spross.....Yesterday and today Ronald.....A little winding road Carpenter.....The sleep that flits on baby's eyes Homer.....Lone dog Professor E. O. Bangs
5. Chopin.....Ballade in G minor Chopin..... Etudes in F major and E major Miss Wegman
6. Treharne.....The terrible robber men Loomis.....A little Dutch garden Messenger.....Long ago in Alcalá Professor E. O. Bangs
7. Strauss.....The beautiful blue Danube (arranged by Schultz-Evler) Miss Wegman

COLT FOR WINNING CAPTAIN

Military Department to Give Automatic Pistol to Captain of Best Drilled Company at Inspection.

A Colt automatic pistol, such as was used by the officers in the U. S. army, has just been purchased by the military department. This pistol will be given to the company commander having the best drilled company in the formal inspection held by the United States Inspector at this station soon. A complete pack has also been purchased and will be awarded the best squad leader.

Clothing outfits are being issued to all members of the battalion this week. Many of the students have uniforms of their own, but soon the entire battalion will don the khaki for all formations.

Opportunity for more field work has been greatly increased by the good weather. In the future, as in the recent schedule, the program will consist largely of field work and signal practice.

JUNIOR PLAY COMMITTEE PUT PLANS ON DEFINITE BASIS

Plans for the Junior play, to be given soon in the auditorium, are taking definite shape. Dean French is to have charge of the coaching of the production. She and the general committee, consisting of Lew Morris, chairman, Bill Denecke, and Vern Clements, are busy selecting the play to be put on.

A special committee to take care of the sale of tickets has been appointed, for the Juniors intend to make this a financial as well as stage success. It consists of Bernard McDewitt, chairman; Charles Darling and Wilfred Newman. They are trying for any mark between 500 and 1000. Pat O'Brien, the president, says he doesn't envy them their job.

FROSH GLEE MAY THIRD

The Frosh intend to give the Glee May 3rd, with no intention of postponement, declares President Abe Goff. The following committees, appointed earlier in the year, are still in charge of it:

General committee chairman, Ralph Davis; music, Gibson Stalker; punch, Evadna Roberts; program, Abe Goff.

SPRING IS HERE BUT FEW PILLISTS

Meagre Supply of Unexperienced Material From Which to Form Varsity Nine.

ONLY ONE MOUND MAN

Bleamaster and Two Infielders Only Remnants of 1918 Combination

Spring is here for sure. Once again the melodious music of wood meeting rawhide pervades the atmosphere of the campus during the late hours of the afternoon and the few remaining unbelievers have to be convinced that she really has "come." The actual arrival of baseball is to many the only true sign and one glimpse over the athletic field between the hours of four and six is proof enough.

Coach Bleamaster issued his annual call for prospective baseball candidates last week and about twenty men responded for the initial practice Monday night. However, nearly half of this number were freshmen who are ineligible for the Varsity, so as yet, prospects for the 1919 season are anything but bright.

Few Varsity Men.

Baseball men of Varsity calibre are hard to find and unless more eligibles show-up it will be a difficult matter to turn out a winning aggregation. The only way that Idaho will be able to come thru in true Idaho style this year is for every man with any experience at all to come to life and get out for practice. Competition for places is the biggest factor in making a team work but with only about one man out for each position the tendency to loaf is more in evidence.

The battery question is well taken care of with a letter man on each end. Captain Rettig is in better shape than ever this year and can be depended upon to come thru with the fiber of hurling that inevitably wins the games. He will be held up by Thomas, ex-Varsity catcher of the 1917 season who has had two years college experience. There are a number of second string pitchers out who are expected to add considerable strength to the heating staff. Of these Sanburg and O'Brien look best.

Moe and Hunter in Infield.

The graduation of Almquist left a big hole to be filled around the initial sack and also took one of the best pill-smackers that has been on an Idaho team in years. Moe, third baseman and Hunter, second sacker, are the letter men around which Bleamaster will have to build his infield. Moe led the team last year in hitting and as a lead-off man was the best in the conference. Among the candidates for infield positions are Almquist, sub second baseman in 1918, McCrea, O'Brien and Moore.

No Fly-chasers.

The outfield is a matter of mere conjecture as yet with no men of college experience trying out for the respective gardens. The need of stickers to hold down the outer positions is most obvious and the hitting ability of any of the prospects is an unknown quantity. Weber, Buescher and Denecke have declared their intentions of doing battle for a fly-chasing job and a number of men trying out for other places may be changed.

The diamond has been raked and rolled and a couple of days of sunshine will put it in excellent condition. The schedule for the first few days consisted mostly of hitting and fielding. Base running will be on tap for next week.

W.S.C. DRAMATIC PRODUCTION WELL RECEIVED IN "Y" HUT

"The Maker of Dreams," a one-act play, was presented by the Washington State College at the university "Y" hut last Friday night. This play was procured thru the cooperation of Mr. Chaney and Mr. Frank Hauser, the "Y" secretary at Pullman, and was given under the auspices of the Y. M. C. A. The play was exceptionally well done, and is to be commended especially, says Mr. W. H. Bridge, on account of the fact that it was prepared in a very short time. The same performance was given by an Idaho cast last year.

Mr. Addison, who played "Pierrot," gave some clever pianologues.

IMPORTANT.

A. S. U. I. meeting Thursday, April 17, 11-12. RETTIG.

THE CAMPUS ROOMER

The last week has been full of that common frivolity called excitement, and the upper classmen acting in the capacity of innocent bystanders have had considerable more fun than is customary at the annual meeting of the Grave Diggers Union.

The first of this very eventful week was full of contests that varied all the way from a Hullahaloo exhibition between the Frosh and a carload of pigs on the railway terminus nearby to the brave forfeit of the annual scrap by the fearless Sophomores.

The wailing of teeth; the howling of wild underclassmen; the splashing of water; and the few annual baths dealt out by the Frosh gave us a good idea of the fun that Stevenson must of had when he was in the act of dealing out beads to the cannibals in Darkest Africa.

We have been trying to figure out for a long time whether the Sophomores that go to this university were looking for a money game in forfeiting the wrist slapping contest to the Frosh or if they have been reading a little literature published by a certain heavy weight champion that makes his home in this famous country.

If some of these birds around here that waste all the youthful energy they possess in masculating the humble paraffine and then littering up the campus with it, would spend some of that energy in athletics there would be some conference records broken so badly they would look like the end of an Elks Picnic in non-prohibition territory.

Al Kinney said that when he took his little trip around the country last week the people in Colfax were wondering and debating among themselves as to whether or not he was an Egyptian mummy or a new style bootlegger that was being exhibited thruout the nearby territory. He was carefully bound with about fifty-seven varieties of pure grade hemp rope; this was probably the cause for the mistake in his identity.

Happy Hatfield and the Senior Class are still worrying about the organ that Happy broke a week ago. This particular organ was made just before the great gold rush in California and considerable difficulty has been found in getting parts for it.

Mr. Fillup D. Squeeza and his band of howling troubadours that filled the arena with its delightful catcalls last Saturday are all suffering with delirium tremens. The only thing that saved them from utter annihilation was the fact that the band broke its instrument.

It is the general consensus of opinion that Pat O'Brien made a wise choice in giving the scrap to the Frosh. It was a case of either being mused up by the Sophomores or entirely obliterated by the Frosh. Life is too short for such unwise decisions. Eh! Pat?

The base ball team has made its appearance and if variety is any sign of luck we sure ought to have some team. The uniforms date back from the base ball scene in the follies of 1914 to a few unies that were confiscated from the Germans in the final drive on the home of weenies and limberger cheese.

Jackson Returns.
"Tom" Jackson, 2nd lieutenant infantry, has returned to school this quarter and will graduate in June from the School of Forestry. Jackson is one of Idaho's star gridiron warriors and captured the 1917 team. 3rd O. T. S. at Camp Funston, Kan.

FROSH WIN SCRAP

(Continued from page 1.)

him as water before the prow of a ship, and he escaped.

Kinney and Richardson were driven back behind the scenes. They placed their backs to the wall and stood at bay.

Confronted by such opposition the wild intruders hesitated and finally stopped irresolute. Kinney's eyes roamed over the faces of the hesitant throng and with an air worthy of any of Scott's heroes, he cried, "I pity the first four who come."

The crowd stood before him uncertain as to what course to pursue. Suddenly some one sprang thru the air from above and landed on Kinney and Richardson, bearing them both to the ground. It was Phillip, who had climbed up above them on some steps. The sea of Frosh surged over them and soon they were held helplessly struggling. Richardson was carried immediately to a watering trough and given a cold bath. A more exacting fate was reserved for Kinney. Realizing the dependence which the Sophs put upon him in the morrow's contest the Frosh decided to spirit him away until after the fracas was over. He was tied and bundled into a taxi. With six good men as a guard the machine started for Pullman. Kinney made several ineffectual attempts to escape and was never finally subdued. Arriving at Pullman, his captors decided they were too close home so they went on to Colfax. They reached there about 1 a. m. and put up for the night at a lodging house. Kinney was carried in still bound and he soon fell asleep.

In the meantime thrills were plentiful in Moscow. After the Sophomore hero had been captured and safely kidnapped the Frosh gathered at the Paradise bridge. Wood was known to be present at the Sigma Nu dance so went the throng. Two figures were found concealed under the steps of the house but on being pulled out were found to be only two small high school boys. At this juncture several of the Sigma Nu upper classmen appeared on the porch and gave an earnest but not very convincing lecture to the mob on the sanctity of a fraternity house. The invaders drew back a little and stood waiting. Word came that Bill Langroise was at the Delta Gamma house. A detail was sent after him. He was found in the cello and summarily carried to a dip in the creek.

Four Sophomores had barricaded themselves in the chapter hall of the Kappa Sigma house. The Frosh made several unsuccessful attempts to get at them and finally desisted.

By this time the Sigma Nu dance was over and taxis began to drive up to carry the guests away. Each couple as they came out were stopped, identified, and allowed to go on. At last Wood appeared but he carried a small deceiver. The Frosh were foolish enough to take him seriously and he went unmolested to the car with his partner, and drove off. The crowd broke up and went home to bed.

At some later hour several overzealous persons painted a number of large first year numerals all over the campus. These caused more trouble in the morning, for the Frosh had to remove them.

Saturday.
The day for the big scrap for supremacy dawned somewhat murky and the sky threatened rain. Everybody went to drill in the morning and at two o'clock the Frosh stood ready for combat in Lewis Court. Some time went by but the monotony of waiting was partially broken by the activities of the skillful and well led Old Guard Band. Their sweet music and exquisite harmony, moved the great concourse almost to tears. Still no Sophomores appeared. Pat O'Brien the master of ceremonies, announced that if they did not appear in ten minutes, the scrap would be forfeited to the Freshmen. The second year president entered and announced to the crowd that since Kinney had not been brot back the Sophomores would not appear.

A groan of disappointment went up and the whole body adjourned to the gym to dance. The Sophomores were conspicuous by their absence.

At five o'clock the train came in from Colfax bearing the now free Kinney. The whole class met their hero at the platform. So ended the great Sophomore-Freshman struggle for supremacy.

Many are the tales now told of brave deeds and narrow escapes. No Frosh will ever forget the trouble with which "Fat" Stevens was crammed into an ordinary sized watering trough, nor how "Hep" Eberle made his successful bluff, as also did "Hod" Decker, and escaped.

Mrs. Jinnett, district president of Kappa Alpha Theta, visited Chi Delta Phi Wednesday and Thursday.

Chi Delta Phi gave a reception Wednesday evening in honor of Mrs. Jinnett.

ECONOMICS CLUB MEETS

Will Strive to Get in Touch With High School Students Interested in Course.

A meeting of the Economics Club was held April 3, at the Gamma Phi Beta house. The members voted at the next meeting of the club to install as members Professor H. T. Lewis, Mr. Rosenberg and Miss Ball. It was decided to have two pages in the annual.

Members of the Economics Club decided to gather the names of high school students who may be interested in Economics. The club will get in touch with these students and endeavor to interest them in the course.

President Lindley was nominated as an honorary member and Ferol Richardson was appointed to write a letter to him informing him of his appointment.

Following the business, dancing and refreshments were indulged in. The next meeting of the club will be held on the 15th.

THE UNIVERSITY of IDAHO

Established in Eighteen Hundred and Eighty-nine.

THE COLLEGE OF LETTERS AND SCIENCE
THE COLLEGE OF AGRICULTURE
THE COLLEGE OF ENGINEERING
THE COLLEGE OF LAW
THE SCHOOL OF MINES
THE SCHOOL OF FORESTRY
THE SUB-STATION OF THE BUREAU OF MINES
THE EXTENSION DIVISION, BOISE
THE AGRICULTURAL EXPERIMENT STATION

MOSCOW

Sandpoint, Caldwell, Aberdeen, Felt

Why Go to "Idaho"

The choice of a university or college to be attended should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2d, a competent faculty; 3d, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

1. Purpose and Field—
Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Mining, Home Economics, Law, and Educational matters not only to students in residence but also to all who desire it throughout the State.

2. Faculty—
The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are more than seventy workers in the agricultural extension division and fifteen agricultural county agents.

3. Equipment—
Its equipment is ample. It has a library of over 40,000 volumes, excellent facilities for teaching literature, philosophy, and the social sciences, and well provided laboratories for the natural and applied sciences and for the technologies.

4. Students—
Its students are earnest, wide-awake, and democratic. A large number of them earn their own way. Its alumni now occupy high positions and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The six colleges, the central agricultural experiment station and the sub-station of the U. S. Bureau of Mines are located at Moscow; the main agricultural extension office is Boise, and the agricultural sub-stations and demonstration farms at Caldwell, Sandpoint, Moscow, Aberdeen and Felt.

CITY CONSULTS LEWIS ON MANAGER PLAN

Idaho Economics Professor Describes Efficient City Government to Chamber of Commerce.

Professor E. T. Lewis of the Economics department of the University of Idaho, is conferring with the Moscow Chamber of Commerce, who are contemplating the installation of a city manager plan. He has worked out a very efficient plan and has given several addresses to the chamber on his plan.

Professor Lewis contrasted the plan now in use with the proposed plan, at the regular Chamber of Commerce meeting last Tuesday, and showed what a benefit the city manager plan would be. He told how it would cut down the expenses of the city, how it would save time and work with more harmony among the town people.

The city manager plan has been adopted by a large number of cities throughout the United States, and has been found to be very efficient and desirable in towns of Moscow's size, as well as smaller and larger cities. Prof. Lewis showed that in comparing one form of government with another the standard of comparison should be the service rendered and not the amount of money expended by the one plan over the other.

Besides his address at the regular meeting of the chamber last Tuesday, Mr. Lewis talked at a special meeting Friday.

Abe Goff, Fresh Chief.

Abe Goff was elected president of the freshman class for the third quarter at a Fresh meeting held last week. The other officers chosen were Maurice Jackson, vice-president; Florence Allebaugh, secretary, and Joel Priest, treasurer.

IDAHO AFTER MOTOR TRANSPORT TRAINING

District R. O. T. C. Inspector Hopes to Install Unit in One Northwest College.

NEW EQUIPMENT HERE SOON
Machine Gun on List—Advanced Signal Course With Radio Apparatus Probable.

District Inspector Lt. Col. S. A. Howard of Spokane, visited the campus and spent Tuesday afternoon, April 8th, investigating the R. O. T. C. situation at this station.

Lt. Col. Howard expressed himself as particularly interested in making the R. O. T. C. a more efficient institution in all schools of the four states of the northwest of which he is inspector. His general plan of inspection is to see that housing of headquarters and equipment is satisfactory, and to carry good methods from one school to the other and discourage customs which are not proving valuable. He stated that the units of the Oregon Agricultural College and the University of Idaho were the only ones doing any work worth while.

The unit located here has been promised all of the equipment that it needs for any branch of training that it now has in its course.

Wants Motor Transport Corps.

Lt. Col. Howard stated that one of his most-eager efforts was to establish a motor transport corps at one of the schools of the northwest. This would mean that there be a complete course offered in motor mechanics. The government will furnish all of the tools, trucks and other necessities for the carrying out of the plan. If the University of Idaho were to be selected for this, all agricultural students would then have available a good course to help them in their gas engine and motor work in practical life.

Also there is a proposed plan to establish in some school a thorough course in signal work. This will involve the formation of a signal corps equipped with wireless and radio apparatus. Should Idaho have this corps also it would afford a good education for all students interested in electrical engineering work. The signal work would be advanced to that now given and would fit those in the signal corps for actual field service in case of need.

Machine Guns, Also.

Lt. Col. Howard assured Captain Felker that all schools would be equipped with at least one machine gun for use in instructing cadets. It seems that all other schools of the district have done as this one in applying for a machine gun for this purpose.

When interviewed, Captain Felker said: "I am certainly very anxious to see the outcome of the motor transport corps, for I believe that if we might get it or the signal corps unit, that it would help a great deal in instilling the interest of the students in their military work. It seems to me that it would afford the various students in agriculture a fine opportunity to get an education in mechanics that otherwise many of them might not venture into."

SECOND MEETING BOISE CLUB

Large Number of Capital City Students Join New Organization.

The Boise club held its second meeting last Tuesday evening at the Gamma Phi Beta house. A large crowd was present.

The organization was formed several weeks ago for the purpose of promoting a good understanding between Boise and the university. Former residents of Boise as well as graduates of Boise High School are eligible for membership. Meetings will be held bi-weekly.

The officers are Henrietta Peasley, president; Charles Darling, vice-president; Inez Calloway, secretary; Ruth Kunewsky, treasurer and Violet Meacham, sergeant-at-arms.

PHYSIOGRAPHY OF IDAHO

Professor Livingston Shows Pictures of Five Regions of State in "Y" Wednesday.

"The Physiography of Idaho," was the subject of the illustrated lecture given Wednesday evening in the "Y" hut by Professor D. C. Livingston, head of the department of geology of the university. This same lecture was given in Boise at a recent meeting of the State Mining Association.

Mr. Livingston discussed the five physiographical features of the state: the lake region of the north, the plateau region of north central Idaho, the mountainous region of central Idaho, the Snake river plains and the parallel mountain ranges of south-eastern Idaho, illustrating his talk with pictures of the different sections.

Betty Barr, '22, spent the week-end at her home in Lewiston.

TEACHERS' MEETING GREAT SUCCESS

Idaho Faculty Who Attended Inland Empire Association Convention Well Pleased.

That the Inland Empire Teachers' Association held at Spokane April 2-4 was a genuine success, was the general feeling of the Idaho educators who attended the session.

In the open general session President E. H. Lindley traced the growth of education and ideals "From Plato to Henry Ford."

Among some of the questions discussed during the session was one related to the better adjustment of pupils to their school work by the utilizing of the army intelligence test or similar tests. Another question was in connection with raising teachers' salaries as well as their qualifications.

The afternoons were occupied with sectional meetings. At the business meeting of the classical section of the association, Dr. H. S. Axtell of the university, was chosen chairman for next year.

The evening of the first day was enjoyed by all at a banquet at Davenport's, where the Hall of the Doges was packed. After the banquet the crowd adjourned to the Marie Antoinette ballroom, where dancing finished the program for the day.

Another banquet of interest was one attended the next evening by President Lindley and Dr. G. M. Miller to which only students or graduates of the University of Indiana were invited.

TO OBSERVE HOLY WEEK

Moscow Churches Unite For Special Memorial Services April 13-18.

The churches of Moscow, in common with churches throughout the world will keep next week (Holy week), April 13-18, as a special week of memorial. Union service will be held each night according to the following schedule:

Monday — Presbyterian church, preacher, Rev. Flora.

Tuesday—Church of the Brethren, preacher, Rev. W. Snoddy.

Wednesday — Christian church, preacher, Rev. Dean Hamilton.

Thursday — Methodist church, preacher, Rev. Quincy Biggs.

Friday—Baptist church, preacher,

ISSUE MINERAL BULLETIN

Contains Results of Professor Livingston's Recent Investigation of Idaho "War Minerals."

The School of Mines has just issued Bulletin No. II, Volume XIII, entitled "Tungsten, Cinnabar, Manganese, Molybdenum and Tin Deposits of Idaho." This embodies the work on the so-called war minerals in the investigation of which Professor D. C. Livingston spent last summer.

The bulletin includes not only a description of the sources of these metals in Idaho, but also a discussion of their production in foreign countries and the United States, together with a brief mention of their uses and methods of extracting them from their ores. It also contains a number of topographic and geologic maps.

In commenting on the report the Wallace Miner says: "The work of Professor Livingston and the publication of his findings will prove an important step in the exploitation of these resources of the state."

The bulletin will be sent to residents of the state upon application to the School of Mines.

MARGARET BYRNS ELECTED PRESIDENT OF Y. W. C. A.

Margaret Byrns, '21, was elected president of the Y. W. C. A. for next year at a meeting held last Thursday. Other officers are Alice Bessie, '19, vice-president; Phyllis Orford, '22, secretary and Leta Saben, '21, treasurer.

Miss Brown, northwest secretary, will come here this week from Seattle, and the club hopes to receive some valuable suggestions from her.

G. E. MAN INSPECTS EQUIPMENT

Considers Lighting Plans — Victor Pearson, '19, Will Attend Electric School Next Year.

Mr. S. E. Gates, representative of the General Electric Company of Schenectady, N. Y., working in the Northwest, visited the Electrical Engineering department of the university last Tuesday.

Mr. Gates inspected the laboratory and equipment and discussed with Prof. Johnson of the department the proposed plan of improvement. He also went over the plans in consideration for lighting the campus.

Mr. Gates explained to the classes and instructors the apprenticeship courses offered by his company in their schools in Schenectady, N. Y. Several Idaho engineers have taken this course and at present there are several planning to attend this school next year. Victor Pearson, '19, has completed all arrangements necessary to admittance and will take up the work next September. Leonard Hellund, '19, may accompany Pearson.

HONORABLE C. J. HUGO TALKS ON LAST LEGISLATURE

The Honorable C. J. Hugo, a representative of the Latah County delegation to the last legislature, was the chief speaker at assembly, Wednesday, April 9. He was introduced by President Lindley, who gave a brief talk on the State University in relation to the people.

Mr. Hugo described the different steps which are necessary in passing a bill and gave the students an interesting account of the work of the state legislature.

IDAHO AFTER MOTOR TRANSPORT TRAINING

District R. O. T. C. Inspector Hopes to Install Unit in One Northwest College.

NEW EQUIPMENT HERE SOON

Machine Gun on List—Advanced Signal Course With Radio Apparatus Probable.

District Inspector Lt. Col. S. A. Howard of Spokane, visited the campus and spent Tuesday afternoon, April 8th, investigating the R. O. T. C. situation at this station.

Lt. Col. Howard expressed himself as particularly interested in making the R. O. T. C. a more efficient institution in all schools of the four states of the northwest of which he is inspector. His general plan of inspection is to see that housing of headquarters and equipment is satisfactory, and to carry good methods from one school to the other and discourage customs which are not proving valuable. He stated that the units of the Oregon Agricultural College and the University of Idaho were the only ones doing any work worth while.

The unit located here has been promised all of the equipment that it needs for any branch of training that it now has in its course.

Wants Motor Transport Corps.

Lt. Col. Howard stated that one of his most-eager efforts was to establish a motor transport corps at one of the schools of the northwest. This would mean that there be a complete course offered in motor mechanics. The government will furnish all of the tools, trucks and other necessities for the carrying-out of the plan. If the University of Idaho were to be selected for this, all agricultural students would then have available a good course to help them in their gas engine and motor work in practical life.

Also there is a proposed plan to establish in some school a thorough course in signal work. This will involve the formation of a signal corps equipped with wireless and radio apparatus. Should Idaho have this corps also it would afford a good education for all students interested in electrical engineering work. The signal work would be advance to that now given and would fit those in the signal corps for actual field service in case of need.

Machine Guns, Also.

Lt. Col. Howard assured Captain Felker that all schools would be equipped with at least one machine gun for use in instructing cadets. It seems that all other schools of the district have done as this one in applying for a machine gun for this purpose.

When interviewed, Captain Felker said: "I am certainly very anxious to see the outcome of the motor transport corps, for I believe that if we might get it or the signal corps unit, that it would help a great deal in instilling the interest of the students in their military work. It seems to me that it would afford the various students in agriculture a fine opportunity to get an education in mechanics that otherwise many of them might not venture into."

SECOND MEETING BOISE CLUB

Large Number of Capital City Students Join New Organization.

The Boise club held its second meeting last Tuesday evening at the Gamma Phi Beta house. A large crowd was present.

The organization was formed several weeks ago for the purpose of promoting a good understanding between Boise and the university. Former residents of Boise as well as graduates of Boise High School are eligible for membership. Meetings will be held bi-weekly.

The officers are Henrietta Peasley, president; Charles Darling, vice-president; Inez Calloway, secretary; Ruth Kunewsky, treasurer and Violet Meacham, sergeant-at-arms.

PHYSIOGRAPHY OF IDAHO

Professor Livingston Shows Pictures of Five Regions of State in "Y" Wednesday.

"The Physiography of Idaho," was the subject of the illustrated lecture given Wednesday evening in the "Y" hut by Professor D. C. Livingston, head of the department of geology of the university. This same lecture was given in Boise at a recent meeting of the State Mining Association.

Mr. Livingston discussed the five physiographical features of the state: the lake region of the north, the plateau region of north central Idaho, the mountainous region of central Idaho, the Snake river plains and the parallel mountain ranges of southeastern Idaho, illustrating his talk with pictures of the different sections.

Betty Barr, '22, spent the weekend at her home in Lewiston.

TEACHERS' MEETING GREAT SUCCESS

Idaho Faculty Who Attended Inland Empire Association Convention Well Pleased.

That the Inland Empire Teachers' Association held at Spokane April 2-4 was a genuine success, was the general feeling of the Idaho educators who attended the session.

In the open general session President E. H. Lindley traced the growth of education and ideals "From Plato to Henry Ford."

Among some of the questions discussed during the session was one related to the better adjustment of pupils to their school work by the utilizing of the army intelligence test or similar tests. Another question was in connection with raising teachers' salaries as well as their qualifications.

The afternoons were occupied with sectional meetings. At the business meeting of the classical section of the association, Dr. H. S. Axtell of the university, was chosen chairman for next year.

The evening of the first day was enjoyed by all at a banquet at Davenport's, where the Hall of the Doges was packed. After the banquet the crowd adjourned to the Marie Antoinette ballroom, where dancing finished the program for the day.

Another banquet of interest was one attended the next evening by President Lindley and Dr. G. M. Miller to which only students or graduates of the University of Indiana were invited.

TO OBSERVE HOLY WEEK

ISSUE MINERAL BULLETIN

Contains Results of Professor Livingston's Recent Investigation of Idaho "War Minerals."

The School of Mines has just issued Bulletin No. II, Volume XIII, entitled "Tungsten, Cinnabar, Manganese, Molybdenum and Tin Deposits of Idaho." This embodies the work on the so-called war minerals in the investigation of which Professor D. C. Livingston spent last summer.

The bulletin includes not only a description of the sources of these metals in Idaho, but also a discussion of their production in foreign countries and the United States, together with a brief mention of their uses and methods of extracting them from their ores. It also contains a number of topographic and geologic maps.

In commenting on the report the Wallace Miner says: "The work of Professor Livingston and the publication of his findings will prove an important step in the exploitation of these resources of the state."

The bulletin will be sent to residents of the state upon application to the School of Mines.

MARGARET BYRNS ELECTED PRESIDENT OF Y. W. C. A.

Margaret Byrns, '21, was elected president of the Y. W. C. A. for next year at a meeting held last Thursday. Other officers are Alice Bessie, '19, vice-president; Phyllis Orford, '22, secretary and Leta Saben, '21, treasurer.

Miss Brown, northwest secretary, will come here this week from Seattle, and the club hopes to receive some valuable suggestions from her.

G. E. MAN INSPECTS EQUIPMENT

Considers Lighting Plans—Victor Pearson, '19, Will Attend Electric School Next Year.

Mr. S. E. Gates, representative of the General Electric Company of Schenectady, N. Y., working in the Northwest, visited the Electrical Engineering department of the university last Tuesday.

Mr. Gates inspected the laboratory and equipment and discussed with Prof. Johnson of the department the proposed plan of improvement. He also went over the plans in consideration for lighting the campus.

Mr. Gates explained to the classes and instructors the apprenticeship courses offered by his company in their schools in Schenectady, N. Y. Several Idaho engineers have taken this course and at present there are several planning to attend this school next year. Victor Pearson, '19, has completed all arrangements necessary to admittance and will take up the work next September. Leonard Helund, '19, may accompany Pearson.

HONORABLE C. J. HUGO TALKS ON LAST LEGISLATURE

The Honorable C. J. Hugo, a representative of the Latah County delegation to the last legislature, was the chief speaker at assembly, Wednesday, April 9. He was introduced by President Lindley, who gave a brief talk on the State University in relation to the people.

Mr. Hugo described the different steps which are necessary in passing a bill and gave the students an interesting account of the work of the state legislature.

"As You Like It"

At our fountain you can always have just what you want, and take your choice of having it served hot or cold.
