

INTERSCHOLASTIC TRACK MEET TO BE HELD AT UNIVERSITY MAY 16

PRELIMINARY CONTESTS TO BE STAGED AT BOISE AND POCA TELLO TO PICK SOUTH IDAHO ENTRIES—SIX MEN WILL RECEIVE EXPENSES—PANHANDLE TEAMS WILL PAY THEIR OWN EXPENSES.

Plans are rapidly getting under way for the Annual All-State Interscholastic Track meet to be held under the auspices of the University of Idaho on May 16. Invitations have been sent out to about 75 schools.

It is planned to make this meet the biggest in the history of the institution. Two preliminary meets will be held in the southern part of the state to eliminate the necessity of bringing whole teams from that section to the university. In the past years a great number of men were brought who never got on in the money and the long distances to come with the attendant expenses creates the need of such elimination meets. These preliminaries will be held at Boise and Pocatello and the three high men from each meet will have their expenses paid to the finals in Moscow May 16. In addition each school can send any number of men it sees fit but must pay the expenses of the extra men itself.

It is too early in the season to be able to gather any dope on the respective merits of the various schools, but all indications point to a record-breaking affair.

The schools of the northern part of the state will stand the entire expense of sending their teams to the meet. However, all the gate receipts over and above the actual expenses connected with staging the event will be distributed among the schools represented upon the basis of distance traveled to Moscow. In this way each

school will get its fair portion of the surplus and will cut down the cost to them for its team. A large attendance is expected, owing to the fact that the interscholastic will be the only track meet staged in Moscow this season and the sport has a great number of followers who will take advantage of this opportunity to witness an event.

The trophy to be given in the interscholastic is a huge loving cup which is at present held by Lewiston. To hold the cup permanently it is necessary for the school to win it three years in succession. Only two teams have held it for two years in a row, Boise and Colfax. Colfax was later ruled out of the meet when it was decided to make it an Idaho affair exclusively. In order to hold the cup, Lewiston will have to take it two times more.

The visiting teams will be entertained at the fraternity houses and a program of sight-seeing, etc., similar to the one given at the time of the basketball tournament will be arranged. Upon the night of the finals the Annual Stuntfest of the university has always been combined with the awarding of the cup and the individual medals, and the tradition will no doubt be adhered to this year.

The meet last year was not up to standard and the students and faculty are anxious to get the annual visit of the high school teams back on the old basis. Committees will be appointed at once to handle the various features of the occasion.

IDAHO-W. S. C. ROOTERS TO COMPETE FOR CUP

Harvard Club of Spokane Offers Prize for Best Stunt on Day of Gridiron Battle.

A loving cup has been offered to the students of the University of Idaho and Washington State College in order to promote fellowship among the two student bodies on the date of the annual foot ball battle between the two schools.

The purpose of the Harvard Club which is offering the cup is to develop college singing and originality. The competition between the two schools will consist of songs and stunts.

The letter outlining the plan reads as follows:

- "My dear President Lindley:
 "Games are played for the love of the sport and for the entertainment of the spectators. He who has been present at the annual foot-ball battle between the teams of the University of Idaho and the State College of Washington knows what good sportsmen the players are and what a pleasure it is to watch them. In order that the students on the grand stands should contribute a little more to the enjoyment of the game, as well as to develop more college singing, originality, and good fellowship among the students, the Harvard Club of Spokane offers to the students in the two schools named above a silver cup to be competed for by them on the following terms:
 "1. The contest is to take place on the afternoon of the game during the time that the visiting team and its friends are in the town where the game is played.
 "2. The contest is to consist of songs and stunts.
 "3. A joint committee of the student bodies should draw up the rules for the contest, make all the arrangements, and select the judges.
 "4. The judges are to give the contestants an equal amount of time and an equal opportunity.
 "5. In making their decision the judges are to take into consideration (a) courteous treatment of opponents (b) quality of the singing (c) originality and beauty of the stunts.
 "6. The judges may withhold the award of the cup if it should seem best by them.
 "If this contest meets with your approval will you be good enough to bring it before your student body for early action.

15 DISTINGUISHED SCHOOLS

Idaho R. O. T. C. Out For Raising in This Group.

Distinguished colleges and universities in the R. O. T. C. are but fifteen in number. Among these are Yale, Harvard, Leland Stanford and Cornell, all of which are schools of marked scholastic standing.

Idaho has tried hard to attain an enrollment with these schools as having an R. O. T. C. of like qualifications.

Keen interest has developed in the Idaho unit in the past three months. The men have entered into the spirit of the work with a firm determination that Idaho should be classed with the best.

Col. James G. Hanna, inspecting official of this division having reported earlier than he expected, the cadets have been cut short of some time for preparation. However, their firm intention to show Idaho as a distinguished school has brought them thru the inspection in good style.

Col. Hanna will make a report within a few days.

DAVIDS OFFER PRIZES

Awards Go to Winners Intramural Baseball and Men's and Women's Tennis Single.

David's store has offered three trophies to be given to the winner of the women's singles in tennis, the winner of the men's singles in tennis, and the organization winning the intramural baseball series this spring. This idea is not entirely new with Idaho boosters, as in years past they have given prizes to winners of the campus tournament.

The Davids have for many years been directly concerned with the athletic affairs of the University. In the days when Idaho was gaining her foothold among the colleges of the northwest Homer David played an active part in baseball and track. Earl David did his bit to help make Idaho in his persistent effort on the gridiron. In more recent years Donald David gave the school a boost in tennis as well in the management of the glee club, which made some very successful tours through the state.

Machine Gun Contest.
 A machine gun and two automatics have been dispatched to the University of Idaho for use in the military department, according to Captain Luther Felker.

G. W. We... Zeta Chi Alpha, has again... his studies after a severe... of tonsillitis.

THE PROPOSED AMENDMENTS

ARTICLE VII. Advisory Board.

Section 1. There shall be a Board of Supervisors consisting of two faculty members and the student manager of the particular activity concerned. The faculty members shall be appointed by the President of the University. The student managers shall be chosen as provided in Article V, Section 1 and Article XI, Section 1.

Section 2. The Board of Supervisors shall have power:

- To have final and complete control over all student finances, now or hereafter authorized by the A. S. U. I., including:
 - In conjunction with the special faculty director to draw up and approve of the budget for each activity for the ensuing year.
 - To authorize all expenditures.
 - To provide for the method of expending the moneys of the A. S. U. I.
 - To provide and install a uniform system of accounting and reporting for the various funds.
- To pass upon all schedules for public activities held under the auspices of the A. S. U. I., subject to faculty approval.
- To pass upon all questions of eligibility.
- To recommend to the general faculty the representatives of the University of Idaho at the athletic conferences.
- To perform such other duties as are necessary or expedient in order to fully guarantee the proper collection and expenditure of such funds as are within the control of the Associated Students.

The title of Article VII of the present constitution shall read "Article VIII." Subsequent articles to be numbered accordingly.

Amend Article IV, Section 4 by adding: "The treasurer shall also act with the Advisory Board and the chairman of the Health and Housing Committee in the management of the health fund." Amend Article IV, Section 4 by eliminating "Executive Board and substituting "Board of Supervisors."

Amend Article VI, Section 1 by omission of "The faculty and alumni members and graduate manager of athletics shall have no votes." Add to the same section "The faculty member of the Executive Board shall be the chairman of the Board of Supervisors. The representative of the alumni association shall be chosen by the alumni."

Amend Article VI, Section 3 by the elimination of "power to audit" and "power to approve of disbursements of A. S. U. I. funds."

Amend Article VII, Section 1 by the elimination of "the graduate manager shall have no vote."

Amend Article VII, Section 5 so that it shall read as follows: "The Board shall have general control and supervision of all athletic activities of the University except in so far as they conflict with the powers and duties of the Board of Supervisors."

Article VIII.—add to the first sentence, "and Advisory Board."

Article XII, Section 2—substitute for "Executive Board" the phrase "Board of Supervisors."

Article XIII, Section 1—add this sentence, "This article shall not apply to the acts of the Board of Supervisors."

Amend Article III of the By-Laws by the elimination of Sections X to XV, inclusive. Substitute "Section X. The method of handling all funds shall be within the jurisdiction of the Board of Supervisors."

Amend Article IV, Section 6 of the By-Laws by the elimination of "\$50.00 contributed by" and substitute "\$25.00 to be paid from miscellaneous fund unless contributed by some individual."

Amend throughout the entire constitution and by-laws by the elimination of "Graduate manager of athletics" wherever it now appears and substitute "athletic manager."

SELECT ONE-ACT PLAY CASTS

Freshmen Predominate Among Successful English Club Candidates

The following casts have been chosen for the English Club plays—the Washington Square farce, "Helena's Husband" and Dunsany's "The Glittering Gate" which are to be produced May 16.

- "Helena's Husband."
 Helena, queen of Sparta.....
 Florence Allebaugh
 Tsumu, her slave..... Clara Kitto
 Menelaus, the king..... Philip Buck
 Analytikos, his librarian.....
 Jack Jimerson
 Paris, a shepherd..... Oscar Weaver
 "The Glittering Gate."
 Jim, lately a burglar, (both)
 Bill, lately a burglar (dead)
 Michael Thometz; Garde Wood.
 Students wishing experience in the production end of drama should see Mr. R. D. Jameson.

A. S. U. I. FINANCIAL SYSTEM INEFFICIENT

Proposed Board of Supervisors Will Give Necessary Centralization, Urges Professor Lewis.

NEED BUDGET AND VOUCHERS

No Check Against Constant Indebtedness Under Present System—Uniform "I" Voted.

"The old system will not work. The finances of the Student Body now are too large to be handled under the present constitution," said Professor Lewis in his talk on the proposed A. S. U. I. amendments at the meeting Wednesday.

"Three years ago it was necessary to have a meeting of the entire executive board to O. K. a bill. Bills went for months unpaid because the executive board seemed unable to meet in sufficient numbers. I proposed that whenever a bill was passed by the treasurer it should be paid at once. This proved much quicker but not very satisfactory.

Ne Vote on Executive Board.
 "The treasurer, the graduate manager, and myself are held responsible for expenditures, yet two of us have no vote on the executive board which authorizes them. Certain contracts were made this year without even consulting the treasurer as to the funds available.

Need Budget.
 "There is no provision for a budget. There is no other department at the University which does not make one out. The A. S. U. I. owes at least twice as much money today as it is likely to raise. We need some real check on the finances.

New Board Controls Finances.
 "The amendment provides for a Board of Supervisors who will have complete control over all student finances. There will be a uniform system of accounting and reporting for the various funds. The Athletic, Glee Club, and Debate managers will go on as before except that they must each make out a budget."

President Endorses Centralization.
 President Lindley spoke briefly on the amendments and closed by saying, "They are designed to centralize the responsibility. It is simply a matter of good business." He announced that the university tennis courts should be repaired.

"I" Amendment Passes.
 Rettig took charge of the meeting and a vote was taken on the "I" sweat amendments. They were carried without a dissenting vote.
 Judge W. F. Morgareidge was introduced and gave a stirring argument for hearty support of the Victory Loan.

POSTPONE "Y" MEETING UNTIL NEXT WEDNESDAY

The Y. M. C. A. meeting planned for last Wednesday evening was postponed because Chaplain C. L. Palmer, who was to speak was called to Camp Lewis. He will come to Moscow at a later date.

A meeting of the men will be held next Wednesday evening at 7:00 in the "Y." Professor Pickett of W. S. C. is expected to speak.

CORRESPONDENCE COURSE REACHES ENROLLMENT OF 74

The correspondence course in "Lumber and its Uses" given by the school of forestry is proving very successful this year. Some 70 students have registered for the course and it is expected that before this time next year the registration will be doubled. Twenty-five states are represented in its enrollment.

SUMMER COURSES COVER WIDE RANGE

Many Departments Mustered for Six Weeks Session, June 16-July 25—Six Credits Possible.

PRESIDENT WILL LECTURE

Two Courses in Social Psychology To Feature Curriculum.

Extensive courses will be offered at the summer session to be held at the university June 16-July 25. A maximum of six semester credits may be earned during the six weeks.

The courses of the summer session are open on the same terms as those of the regular session, to those presenting fifteen units from an approved high school or to adult unclassified students qualified to enter upon the work. No tuition will be charged.

Practically all courses offered are for university credit. A maximum of six semester credits may be earned during the session. Students desiring university credit will be required to pass the examinations given during the closing week of the session. Should Attract Teachers.

Exceptional opportunities will be offered this year in the way of professional courses for teachers. There will be a chance for college graduates to specialize in some field or to begin work for advanced degrees. The state director of Smith-Hughes instruction is a member of the summer session faculty and will give special assistance and advice to those interested in this special line. There is great opportunity for superintendents and principals who wish to acquaint themselves with recent progress in education or to study special problems or for high school teachers who wish to advance in their special line of work.

Chance for Undergraduates.

This will also give opportunity to... who wish to make up work or shorten the period of their college course, or to high school graduates who wish to get in touch with the university before the fall term begins.

The full resources of the university are offered for the summer session in all departments in which courses are given. The university laboratories and libraries are open and offer special facilities for advanced work.

The College of Agriculture is well equipped for instruction in vocational agriculture and by its college farm with its unexcelled flocks and herds of pure-bred stock, offers unusual facilities.

President to Lecture.

A special feature of the session will be two courses of lectures by President E. H. Lindley, one for college credit and the other more general in character. President Lindley has a wide range of lecture courses, but the ones most likely to be given this summer are courses in social psychology or the conduct of life.

In the different departments the following courses will be offered:

- Agriculture—(Animal husbandry, dairying, farm crops, horticulture, agricultural education.)
- Art.
- Biological sciences—(Bacteriology, botany, zoology.)
- Chemistry.
- Economics (including also sociology and commercial geography.)
- Education (School room management, principles of teaching, history of education, school administration, educational surveys, secondary education, school hygiene, methodology, supervision.)
- English.
- General Science.
- History.
- Home Economics.
- Library Science.
- Mathematics (both high school review courses and college courses.)
- Mechanical Drawing and Shop Work.
- Music (Piano, voice, appreciation, community chorus, and teacher's courses in sight singing, ear training and public school music methods.)
- Psychology.
- Physical Education (men and women.)
- Physics.
- Reading.
- Romance Languages (French and Spanish.)
- Short Hand and Typewriting.

Effort is being made to arrange theoretical and practical courses in the operation and repair of automobiles.

MUSICALE IN "Y" HUT SUNDAY AFTERNOON

St. Cecilia Club to Give First Recital—Three Soloists Well-Known.

The St. Cecilia club of the University will give a musicale in the Y. M. C. A. building Sunday afternoon, April the twenty-seventh at four o'clock. The soloists for the day will be Bernadine Adair, Nathalie Tecklenberg, and Florence Allebaugh. The club is under the direction of Professor Bangs. Miss Wegmann will be the accompanist. The musicale is free to the students and general public and it is hoped that there will be a crowded hut to hear the girls. The following program will be given:

- The little gray blue dove, Louis Victor Saar—Miss Tencklenberg and club.
- Slumber song, A. Gretchaninoff; Death and the maiden, Schubert—Miss Adair.
- Cradle song, Brahms—The St. Cecilia Club.
- Villanelle, Del Acqua—Miss Tecklenberg.
- The Lass with the delicate air, Arne—Miss Allebaugh and Club.
- Peer Gynt Suite, Edvard Greig (arranged for ladies voices by Alfred Silver)

- a. Morning Mood
- b. Ase's Death.
- c. Anita's Dance
- d. In the Hall of the Mountain King—St. Cecilia Club.

NEW IDAHO COUNTY BUREAU NUMBERS 500

Dean E. J. Idings of the Agricultural College, spent Saturday, April 19, attending the first annual meeting of the Idaho county farm bureau. Mr. R. R. Groninger, a graduate of the College of Agriculture, has been organizing a farm bureau in Idaho county and it is now well established with a membership of 500.

At the meeting the county commissioners voted unanimously to make an appropriation to support a county agent.

COACHES ANNOUNCE SENIOR PLAY CAST

Camille McDaniel and Jack Richmond to Play Leading Roles in "As You Like It"

The cast for the Senior play, "As You Like It," has been chosen, but the parts may be changed if the coaches see fit, according to Dr. Geo. Morey Miller, head of the English department.

Camille McDaniel will play the leading role. Rosalind. Jack Richmond won the part of Orlando.

- The following parts were assigned:
- Duke, Mr. Biggs.
 - Duke Frederick, Richard Ott
 - Amiens, Bernadine Adair
 - Kaques, Walter Sandelius
 - Le Beau, Hollis McCrea
 - Charles, Howard Hatfield
 - Oliver, Alvin Denman
 - Orlando, Jack Richmond
 - Adam, Edwin Nettleton
 - Touchstone, Henry Christ
 - Coulin, Clarence Taylor
 - Silvius, Angelina Burns
 - William, Ronald Romig
 - Rosalind, Camille McDaniel
 - Celia, Effie Swanson
 - Phebe, Marie Freehafer
 - Audrey, Norma Dow
 - Hymen, Annette McCallie

OFFER SPECIAL COURSE IN GRADING OF GRAIN

The farm crops department of the College of Agriculture has offered this semester a special course in the grading of grain for the purpose of giving the students practical information with reference to federal classification. A trip will be made to the federal laboratory at Spokane for a two-day special course under the supervision of U. S. grain inspectors.

Attends Tractor Demonstration.

Prof. John C. Wooley, head of the department of agricultural engineering of the university, has just left for the big tractor demonstration at Watta Walla. A series of field efficiency tests with tractors will be carried on under his direction.

THE NEW AMENDMENTS.

We believe that the purpose of the amendments to the A. S. U. I. constitution proposed last Wednesday is understood and approved by the student body. With no budget, with no uniform system of accounting, with several different groups and individuals empowered to draw independently from the same funds, it is to be expected that the student body finances should be sadly confused. It has undoubtedly been only the influence of Professor Lewis which has prevented the condition from becoming much worse.

Upon examination it will be found that the key amendment is the new "Article VII." The other changes beginning with "amend Article IV," are for the most part only technical alterations necessary to conciliate the remainder of the constitution with the powers of the proposed Board of Supervisors.

The principal purpose of the Board of Supervisors, stated Professor Lewis in assembly Wednesday, is to give the A. S. U. I. a sound, consistent method of meeting business obligations. The students want that.

It will also be noticed that the new board will assume certain powers formerly vested in the faculty athletic committee: those of passing upon questions of eligibility and recommending representatives to the northwest conference meetings. Why these duties should fall upon a group created to keep the A. S. U. I. financial wheel upright is not quite clear to the Argonaut; perhaps the question is not of importance.

Professor Lewis stated that the Board of Supervisors would be purely administrative; that the control of policy would still rest entirely with the Executive board. Yet the Board of Supervisors, it is proposed, would have "final and complete control over all student finances," and would "draw up and approve of the budget for each activity for the ensuing year." Inasmuch as the A. S. U. I. exists solely for the purpose of handling these same "student finances," what policy is there left for the Executive board to direct?

How can the Executive Board control a board of three to which it has the power to appoint only one member, the student manager? Whatever may have been the intention of those who drew up the amendments, the result will be the turning over into faculty hands of an organization formed by students and supported by their money.

A change in the A. S. U. I. finances is absolutely necessary. The Board of Supervisors seems a likely solution; but trusted with such fundamental duties as it is, it should be under the control of the Executive Board. From the financial standpoint there is no apparent reason for placing two faculty members on the proposed board. One faculty member, the Faculty advisor, is necessary to give continuity to the methods of the A. S. U. I. But why give a second seat to the faculty and leave out the A. S. U. I. treasurer, who is perhaps in the best position to keep track of the condition of the funds?

The students are in favor of putting their finances on a more businesslike basis. They are in favor of the general plan of a Board of Supervisors. But they see no reason for relinquishing control over an organization in which they alone are fundamentally concerned.

WHY BLAME THEM?

Idaho's baseball team deserves no reprimand. The eleven men who cared enough about Idaho's athletic reputation to come out for the nine should have only praise. They are true sportsmen; they accepted one of Idaho's worst defeats; without offering an excuse. They have upheld the Silver and Gold traditions in every way except by losing—and that is not principally their fault.

We knew that the nine would be green and that there was little real material. And, we decided to play ball. Yet when the call came only eleven candidates turned out. Wet weather prevented practice and they went into the opening game with only two or three evenings of work. About a hundred of the student body, including 13 girls, who weren't otherwise occupied, dropped in at various intervals during the performance. They displayed a highly developed ability to criticize and absolute ignorance of the way to win games.

The Inland Empire spring is not favorable to baseball; perhaps it should be dropped from the Idaho inter-collegiate roster. But we decided to put a team in the field this year, let's get behind it.

SMOKING IN THE "Y"

The foremost purpose of the "Y" hut is to bring together the men of the University and thereby create a more democratic spirit. One of the things that bring men together is smoking. Any one that smokes will admit that nothing contributes to the pleasure of a chat than a good cigar or a pipe. There is something extremely companionable in smoking; it tends to add an air of good fellowship.

There is no doubt that if smoking were permitted in the "Y" that it would bring together men of the different groups who probably otherwise would go to their respective houses to smoke. Thus we would have an intermingling of the students that would bring the entire student body into closer harmony. This is the only way in which we can develop a college spirit which is more than yelling at an athletic event.

If one has gone to the hut to play a game of chess why should he not be allowed to pull out that old pipe and light up. To many it adds much to the game to be able to smoke while deeply absorbed in the playing.

There are few college students who do not desire to smoke after dinner. If it is permitted in the "Y" he will go there and meet men from other groups; as long as it is forbidden he will remain within his own circle during the social hour. It seems doubtful if the "Y" hut can accomplish its greatest purpose unless smoking is permitted there.

VURSE

A Plea From the Common People. Say, maybe you you can answer me, Because I am wondering why?

Why do all these women like white sweaters?
Who, but the favored few, wear an "I"?

I tell you these women are funny. I can't even see their excuse. When they say, "O, I think white sweaters are lovely and cute." But—what's the use?

Do they think that they all can wear 'em?

When you and I have sweat in vain. By George, I am in favor of scrapping if they vote against that amendment again.

Why not band together, men, And put your sweaters under lock and key?

No women that votes against them Should ever wear a sweater, believe me.

How about us poor, stiff, duffers Who can't even get out and catch cold?

We don't have a chance with the women, We receive no sweaters from Silver and Gold.

So get a sweater the women don't like For the sake of the halt, the lame and the slow.

Get something they wouldn't be seen in And give the rest of us duffers a show.

THE CAMPUS ROOMER

It has been roomered that the new wing of the Ad. building is to be remodeled into a dance hall and fussing emporium. This surely ought to work fine, and also be popular, as it will tend to eliminate the fussing in the halls. Won't it be great to be able to go to classes without being forced to hide your embarrassment at some of the things that are pulled off between the first and third floors of the Ad. building. The new wing will also be a great aid in moving the club rooms of the Corridor Dogs.

There is still a little discussion flitting around the campus concerning the advent of a Dean of Men. The general sentiment is that this new "light" would be about as popular as rheumatism is to a professional clog dancer. "House papas" would also be in vogue. (They're just about as necessary.)

April 16th will long be remembered as the day that a few of the premed hoodlums, led by their valiant paraffine masticator so courageously stormed the campus with their howlings and bawlings. They have been cited for the "cross de bunk," the highest award given by the Infernal Order of Rowdyism.

The senior girls perambulated over to Pullman last Friday. They got along swell until one of the dear girls stuck here head out the window and get her "ear bobber" tangled up with the differential. They had to back the train up a half a mile to get it unfastened; then she found she had lost one of the sets out of it. They are sure keen girls. The Amazons from the darkest part of German Africa didn't have a thing on you. They grabbed off their men by their jewelry. Lots of luck, you've got a 10 to one chance.

I guess that's what it means when Captain Darling says, "Dress up your ears."

Oh, by the way, the Foot Rest and Bar Association held another meeting and didn't invite the pre-Legals. One of them listened to the "gas" and he said that the main topic of discussion was based upon "the Idiosyncrasies of Bakery Pie, or The Crust that Failed."

The "nine" played two games last week and luck wasn't with them. We will elucidate however, as to how some of those "wise guys" that sat on the bank and hollered out bum advice regarding the way the game should be played, would come out and try it once. You can't run a ball team on hot air and bum advice.

We have wondered if the world of "Multiplicity and change" isn't clearly demonstrated by some Lothario Adonis who has three dates in one week and each one with a different girl.

If he likes them all he's a "hedonist."

If he doesn't he's a "quietist." If they're keen, he shows signs of "classicism."

If he falls in love with one of them, that's romanticism."

If he flunks out of college that's "hard luck."

Donald Payne, called to his home in Boise last Friday, by his sister's death, returned to the city Monday afternoon.

Why Go to "Idaho"

The choice of a university or college to be attended should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2d, a competent faculty; 3d, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

1. Purpose and Field—

Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Mining, Home Economics, Law, and Educational matters not only to students in residence but also to all who desire it throughout the State.

2. Faculty—

The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are more than seventy workers in the agricultural extension division and fifteen agricultural county agents.

3. Equipment—

Its equipment is ample. It has a library of over 40,000 volumes, excellent facilities for teaching literature, philosophy, and the social sciences, and well provided laboratories for the natural and applied sciences and for the technologies.

4. Students—

Its students are earnest, wide-awake, and democratic. A large number of them earn their own way. Its alumni now occupy high positions, and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The six colleges, the central agricultural experiment station and the sub-station of the U. S. Bureau of Mines are located at Moscow; the main agricultural extension office is Boise, and the agricultural sub-stations and demonstration farms at Caldwell, Sandpoint, Moscow, Aberdeen and Felt.

For information apply to

Moscow, Idaho.

PLANT SHADE TREES ON ROAD TO FARM

Campus Improvement Committee Also at Work around Our Mining Buildings.

Forest and shade trees have been planted along the roadway of the university farm. For the sake of uniformity each unit of the road system was planted with a single species. The trees were planted fifty feet apart to avoid crowding as the trees acquire age and size.

The shade trees were furnished by the School of Forestry, and were grown in the school nurseries. The species used were Norway maple, black locust, Norway spruce and black walnut.

Dean E. J. Iddings states that the purpose of the planting is two-fold: to afford shade and shelter for the livestock and to render the roadside more attractive. He believes the idea should be far more generally adopted over the state.

Ornamental trees have also been planted around Morrill Hall and the two mining buildings. This work is being carried on by the committee on campus improvement, being in no way connected with the tree planting along the farm roads.

IN WASHINGTON HOSPITAL

Marvin Monroe, '16, Former Rhodes Scholar Recovering From Wounds.

Marvin Monroe, who graduated from Idaho in '16 and received a Rhodes scholarship, is now in the St. Elizabeth hospital at Washington, D. C., according to a card received from him by Dean Hulme.

Monroe was with the American expeditionary force in France where he was wounded. On his return he was placed for three months in the Walter Reed hospital in Washington, D. C., from which he was transferred to St. Elizabeth's.

The final copy for the university catalog is now being rushed to the printers, according to Professor H. L. Axtell, chairman of the committee of publications. Professor Axtell states that it is hoped that the work will be issued by the second week in May.

MANY HIGH SCHOOLS CALL FOR PRESIDENT

President E. H. Lindley will deliver commencement addresses at many high schools this spring, among which are Boise, Lewiston and Coeur d'Alene. The complete schedule is as follows: Filer, May 12; Gooding, May 13; Twin Falls, May 14; Nampa, May 15; Ontario, Ore., May 16; Coeur d'Alene, May 22; Lewiston, May 26; Kendrick, May 31, and Boise, June 13.

Phi Delt Stage Novel Dance.

Phi Delta Theta entertained at one of the prettiest dances of the year last Saturday evening, the affair being a "Story Book Ball."

Everyone ever heard of in mythical tales seemed to be there, from the king and queen of hearts to Little Boy Blue, from old men to babies, from Charlie Chaplins to Scotchmen. They would have furnished vivid illustrations for the readers of any story book.

The hall was decorated with Phi Delt insignia and a blue and white color scheme was carried out. A noise special, with rattles and horns turning up, a carnation special, a Phi Delt special, a moonlight, with a "regular" moon, a confetti dance in which the confetti poured down from the ceiling of the gym, a serpentine dance which wound up the dancers in a mass of varied colored paper were features. Many Phi Delt Alumni were guests.

The chapter was entertained at a banquet Sunday, given by several members of the house.

Stone-Age Party.

The girls of Kappa Kappa Gamma entertained the Gamma Phi Beta sorority last Friday evening with a prehistoric party. In keeping with ancient customs, the party began at the regular unusual hour and continued until both sides were fagged out. The entrance was made thru an upstairs window by means of a ladder. The house was devoid of all modern conveniences and gave the impression of a forest with concealed caves and an occasional spring of water. Bones and skeletons, hides and furs were muc him evidence. A fare consisting of camouflage of raw meat was handed out. Much of the food grew on trees—oranges, bananas, figs and gum. A bounteous fare was served later in the—morning.

Oregon Strong in Weights.

According to coach "Bill" Hayward the University of Oregon is having a good-sized track turnout, but is weak in the pole vault, jumps, quarter and distances. He has plenty of good men in the weights.

ENGLISH CLUB SWELLS RANKS

Thirty-one Students Gain Entry at Last Meeting.

Thirty-one students were admitted to membership in the English club, Tuesday evening for having attained A grades; for taking part in plays; on specific recommendation by their instructors, or because of Argonaut work.

The following members were admitted; Jack Jimerson, Thomas Maberly, Harold Simon, Gipson Stalker, Alice Hankinson, Ragnar Kulberg, Oscar Weaver, Gladys Beck, Helen Bloom, Agnes Mae Brown, Helen Cochran, Helen Johnston, Irene Johnston, Boyd Cornellison, J. H. McCrea, Marjorie McCrea, Eleanor Faris, Geraldine Nusbaum, Inez Sanger, Lyla Harsh, Carl Norlin, John Gill, Verna Wilkinson, Florence Allebaugh, Rupert Peck, Albert Hylund, Gladys Putnam, Garde Wood, Clara Kitto, Joel Priest.

STATE BUREAU ADOPTS VIGOROUS POLICY

Teton Coal Basin and Low-grade Mineral Deposits to Be Investigated.

The state bureau of mines created by the last legislature, held its initial meeting April 19 in Boise with Governor Davis, F. A. Thomson, dean of the School of Mines, Jerome J. Day, Professor D. G. Livingston and State Mine Inspector Bell present.

A resolution was adopted by the board to the effect that such geological and topographical investigations as will stimulate the development of all districts showing indications of metallic and non-metallic deposits of economic value.

Continuation of the present agreement between the state and United States bureau of mines and the renewal of this contract at its expiration June 30 was recommended. Cooperation with geological survey in securing a topographical survey of the Teton coal basin, the completion of primary control in Clearwater county and the immediate publication of the results of geological work completed in central and northern Idaho during the last two years.

It will be a matter of considerable advantage to the new bureau, according to Dean Thomson, that the law provides for its chief office to be located at the university. As this provision makes available for state use all of the mining, metallurgical and geological laboratories of the School of Mines. This also makes the university library accessible for reference work and makes it possible to consult specialists in all fields of knowledge who are gathered together at the university.

PROMINENT ALUMNUS VISITS SCHOOL OF MINES

James O. Elton, '09, who is now general superintendent of the Great Falls plant of the Anaconda Copper Mining company and probably the highest paid alumnus of the university, was a recent visitor at the School of Mines. He is investigating the electrical metallurgy of zinc.

TARGET PRACTICE TO START AFTER INSPECTION

Target practice is the next problem for the battalion here. Sighting and aiming drills will occupy a part of the early schedule, but before the close of the year each cadet will have fired 200 rounds of ball ammunition in actual competitive shooting.

Many of the sophomores and upper classmen have experience in this work. They received instruction while in service or in the training camp at the Presidio last June.

High School Boys Rebel.

The boys of the Tilden Technical high school of Chicago are threatening to strike unless given their military uniforms at once. The trouble began March 30th on annual "rough-neck day."

The principal, E. C. Rossiter, threatened to suspend 60 of the boys who were leading a "rough-house." "We promised to be good," said one of the boys, "if you gave us our uniforms. You did not so we'll stay out of school until we get them."

O. A. C. Girls Out for Athletics.

Crickets, tennis and baseball are being featured by the co-eds at O. A. C. With the coming of the bright sunny days the sororities have all organized teams. It is thought they will soon be taking as strict training as the men.

Junior R. O. T. C. at Chicago. Chicago has recently organized a Junior unit of the R. O. T. C. There are 14,500 high school boys in the organization.

PINE BLISTER RUST THREATENS WEST

Professors Young and Hungerford Attend Portland Conference to Prevent Spread of Disease.

Professor V. H. Young, head of the department of botany is at Portland, Oregon attending the pine blister rust conference for the west and a meeting of the American phytopathological society. Professor C. W. Hungerford, experiment station plant pathologist who has been in southern Idaho investigating the plant disease situation, especially with regard to potatoes, will go directly to Portland from there.

The pine blister rust conference is a meeting of western plant pathologists in state and government service called by the advisory board of American plant pathologists to perfect an organization for the purpose of guarding against the entrance and spread of the pine blister rust in western pine forests. Pine blister rust, which threatens to wipe out the white pine forests of the Eastern and middle states, has not yet gained entrance in the west but might easily be brought in, and one established would undoubtedly prevent further propagation of five needled pines. Idaho, because of here enormous white pine forests, is greatly interested in this problem and a number of prominent lumbermen are planning to attend the conference.

LOCAL "Y. W." CHAPTER TO RECEIVE HALF OF PROCEEDS

A very successful Y. W. C. A. campaign was brought to a close last Saturday, April 19th, after a week of splendid response on the part of the people of Latah county.

The drive was begun Sunday, April 13th, and for seven days, sixteen college girls gave their spare time to the collection of the sum of money which had been allotted to the university to donate.

The funds procured will be used to extend the Y. W. work in the surrounding country and to form new Y. W. organizations in the neighboring towns. About half of the results from the drive will be turned over to the university organization.

FORESTRY CLUB HEARS TALK ON PHILIPPINES

Prof. James R. Gillis, professor of forestry in the Philippine Island Forest school addressed the Forestry club at its last meeting. Professor Gillis talked of his work in the Philippine Islands mentioning the fact that the islands were exceedingly well forested and the forests contain a large number of species. Many of these trees have great value for general construction purposes and many of them are highly ornamental.

American methods of logging, mill and logging machinery, are being introduced in the islands according to Mr. Gillis. The lumber industry has developed into one of the important industries. The lumber and products are chiefly marketed in China.

Professor Gillis stated that the Philippine University has a normal attendance of about 1500 and is growing rapidly. The students take a great interest in their studies and work for all they can get out of it. American instructors tutor the school.

Professor Gillis is visiting in the United States on a leave of absence and is taking advantage of the opportunity to visit many of the forest schools in this country. He is formally a Sandpoint man.

Chi Delta Phi announces the pledging of Phyllis Orford of Boise.

Law Dance "Swimming" Success. The law dance last Saturday night turned out to be one of the liveliest hops so far this year. The lights were bright, the music was rare and the punch.

The patrons and patronesses were Mr. and Mrs. Evans, Mr. and Mrs. Curtis Richardson, Miss French, Dean Gill and Prof. Miles.

Corporal John Dimond of Havre, Montana, recently returned from France, was a guest of Alpha Kappa Epsilon on Monday.

Mr. and Mrs. C. C. Vincent and family were guests of Alpha Kappa Epsilon at dinner Sunday.

Edwin Hobson of Spokane, was a guest of Alpha Kappa Epsilon Saturday and Sunday.

Miss Alice Brown, Y. W. C. A. secretary for the northwest, was a dinner guest at the Gamma Phi Beta house Tuesday evening.

THE THIRD STREET MARKET L. M. KITLEY, Proprietor Fresh and Cured Meats Phone 248

LAW SCHOOL COURT IN SESSION AGAIN

Justices Ott, Denman and O'Brien Issue Interesting Opinion in Case of McGraw vs. Cycotte.

The case of McGraw vs. Cycotte came on regularly to be heard on appeal before the supreme court of the University of Idaho Law School, Saturday, March 8th. The appellant was represented by Robert Hibbard, the respondent was represented by William Langroise. Both attorney presented their side of the case very elegantly and were at all times prepared to distinguish their cases from those of the opposition.

Attorney Hibbard based his contention upon the two points:

1. That an offer sent by mail implies an acceptance by mail.
2. That the terms of an offer must be followed strictly, and if the offeror specify that he should be notified of an acceptance, such notification should be made in person.

Attorney Langroise met the argument very ably and presented the theory that delivery of the acceptance to the residence of the offeror is constructive delivery to the person. The facts of the case are stated sufficiently in the opinion.

Opinion. Opinion by Justices Ott and Denman, Justice O'Brien concurring—

The facts of the case are briefly as follows:

On June 10th, Cycotte, a league baseball player, sent the following letter to Manager McGraw of the New-York Cubs, "If you desire my services at \$1500 per season let me know by July 1st." Because of a delay in the mails the letter did not reach McGraw until June 28th. McGraw immediately sent his acceptance by telegraph, which was delivered to the residence of Cycotte in Chicago on June 29th. Cycotte was away at the time and did not receive the acceptance in person until July 2nd. The case hinges upon the question whether or not there was a valid acceptance. The appellant bases his entire case upon an assumption that McGraw did not comply strictly with the terms of the offer. The court looks to the intention of the parties and whether or not there was a meeting of minds, upon the essentials of the offer. We construe the words, "Let me know by July 1st," in the absence of any special reason for an unusual construction, as meaning that McGraw should use only a reasonable amount of diligence in conveying his acceptance to the offeror within the specified time. Had the offeror intended that the acceptance should be conveyed to him in person he would not have used language so ambiguous or so uncertain. He would rather have said, "If you accept, convey your acceptance to me in person." Can the court hold that this was the intention of the offeror?

This court believes that it would be establishing a dangerous precedent to hold that there was no valid acceptance in such a case as this, because it would leave the way open for deception. A party might tender an offer in apparent good faith, and escape what would be a valid acceptance by absenting himself deliberately from his place of abode. It would be frivolous to hold that the acceptance must actually be conveyed to the MIND of the offeror. To hold this would mean that the acceptance might be placed in the offeror's hand and yet the offeror would be allowed to deceitfully pocket the acceptance until after the final day and thus avoid the terms of his offer. Such a holding would hamper trade and commerce by injecting into offers made in apparent good faith, the elements of suspicion and mistrust.

In conclusion the court contends that it is immaterial in what manner the acceptance is conveyed to the offeror, "In case you accept, let me know." The essential element is delivery of the acceptance to the offeror and delivery to the residence is constructive delivery to the person. Dissenting opinion by Justices Miles and Taylor, based upon the theory that the offeror can impose any duty upon the acceptor of the offer, that he may desire. And that an offer such as the one above set out implies a notification in person and that a delivery of the acceptance to the house or abode of the offeror is not a sufficient notification.

Mr. and Mrs. Rosenberg were dinner guests of Chi Delta Phi Friday evening.

Society Brand Clothes

**Not So Different
After All—**

Society Brand Clothes

THE new suits for Spring and Summer wear appropriately reflect the clear-cut lines of the uniform. Full-breasted, trim at the shoulders and waist, they are vigorous in every line. The new ACE No. 2 Model is one of the most popular. Of course it's a

Society Brand

You could tell it at once by the smart style, which is tailored in by hand and the careful, studied attention to the smallest details of workmanship—the distinguishing mark of fine tailoring.

The fabric and pattern are varied enough to permit individuality of taste. These all-wool materials hold their shape under the hard wear of men accustomed to strenuous activity. A visit now will enable you to see the diversity of these most attractive styles.

RHODES EXAM ELIMINATED

No More Preliminaries After Resumption of Appointments in October.

There will be a resumption of elections to the Rhodes scholarship in October, 1919, according to word received from Frank Aydelotte, American secretary to the Rhodes trustees.

The plan of selection will be considerably altered, however.

The qualifying examinations, hitherto employed, have been abandoned. The general plan, as outlined in the letter, is as follows:

Students shall make formal application endorsed by the president of the university.—Selection will be governed by the same qualifications

as before, namely: scholarship, character, interest in outdoor sports, and instincts for leadership.

Committees will be appointed in each state with powers to appoint the Rhodes scholars. A list of the men to whom application may be made, together with a formal application blank will be dispatched by Frank Aydelotte, American secretary to the Rhodes trustees, Massachusetts Institute of Technology, Cambridge, Mass.

For further information any college president or ex-Rhodes scholar may be consulted.

Chi Delta Phi sorority called on the Pullman chapter of the Kappa Alpha Theta last Saturday afternoon. Approximately eighteen of the Idaho girls were in the party.

**ZETA CHI TEAM LEADS
INTRAMURAL MEET**

Fans See Real Track Work in Opening Events—Cal Smith Gives Cup.

Interfraternity Standings.
* Zeta Chi 12 *
* Beta 9 *
* Kappa Sigma 5 *
* Barbs 1 *

Idaho track fans were given their first taste of real competition Tuesday evening when the opening events of the Intra-mural track meet were run off. Coach Matthews has arranged a schedule of events to run thru six days the last event being the Medley Relay Monday afternoon. Three places will be counted as in regular meets and points won are credited towards both fraternity and class totals. The medley relay is a mixed event of a 100, a 220, a quarter, and a half and last year was the deciding race in the meet.

The winners Tuesday were: Half mile—McCallie (Kappa Sigma) first; Campbell (Zeta Chi) second; Cady (Zeta Chi) third. Time not announced.

220 yd. hurdles—Perrine (Zeta Chi) first; Moe (Beta) second; Peckenhams (Beta) third. Time not announced.

Shot put—Irving (Beta) first; Perrine (Zeta Chi) second; Pearson (Barb) third. Distance, 41 ft. 8 in.

No Events Yesterday.
Because of the drill scheduled for Wednesday afternoon the events were not run off, but will take place early next week.

The schedule for the remainder of the events is as follows:

Thursday—120 yd. hurdles, pole vault, 100 yd. dash.

Friday—440 yd. dash, javelin.

Saturday—Mile run, 220 yd. dash.

Monday, Apr. 28—Medley relay.

Jack Pulls Tendon.

The Varsity track aspirants are rapidly rounding into shape for the opening meet with W. S. C. May 10 and dopesters are already giving Idaho a fifteen point margin. Captain Jack Richmond pulled to tendon that has bothered him for the last two seasons and will be forced to take it easy for a couple of weeks. The remainder of the squad are in good shape and the ideal weather of the last few days has done much to straighten out kinked muscles and sore spots.

Cal Smith Gives Cup.
A handsome loving cup has been donated by Cal Smith, manager of The Togs Clothes Shop, to be given to the winner and for this reason the meet is drawing more interest than usual.

**PLAY OPENING ROUND
INTRAMURAL LEAGUE**

Akes, Betas and Phi Deltis Win Opening Games By Large Scores.

The Intra-mural baseball league got under way last Thursday when the Akes met and defeated the Kappa Sigs, 27 to 0. Fox was on the mound for the Akes and kept the hits so well scattered that there was not a semblance of a score on the part of his opponents. Barber started for the Kappa Sigs, but the Akes took so kindly to his offerings that he was replaced by O'Brien who was later relieved by Buescher. Thomas was on the receiving end for the Akes and Brown for the Kappa Sigs.

Monday the Betas met the Sigma Nus and plastered them 11 to 1. Moe did the hurling for the Betas and got thirteen strikeouts to his credit in the six innings. Westover started for the Sigma Nus but was hit hard in the first and gave way to Hunter who finished the game. Weber caught for the Betas and Watkins for the Sigma Nus.

Tuesday the Phi Deltis trimmed the Zeta Chis 15 to 6 in the third game of the series and earned their right to compete in the semi-finals. Thompson was on the mound for the Phi Deltis and, outside of a couple of innings, pitched effective ball. Stephens held him up. Bailey and Cady did the battery work for the Zeta Chis.

The trophy in the baseball league is a loving cup donated by the Athletic department to stimulate interest. While the games are not of a high order they are drawing fair crowds and lots of promising material for next year is being uncovered. The three winners will draw for the next game. The team drawing the bye will compete in the final game against the winner of the semi-final.

Chi Delta Phi has issued invitations for their annual formal dance, Saturday, April 26.

**W. S. C. SLUGGERS
TRIM IDAHO NINE**

Poor Fielding Costs Varsity Opening Games—Rettig Stars in Both Contests.

Idaho was hooked by Washington State College, 7 to 1, at Pullman, Friday, and 24 to 1 at Moscow, Saturday. Doc Boller's ball players make up a good baseball machine. Coach Bleamaster's lack of material is responsible for the two trimmings.

Captain Rettig pitched good baseball in the first game and the game might have been won but Idaho players booted the ball for eight errors that brought in runs.

Lewis Fans Ten.
Lewis, Washington State college moundsman, proved a puzzle to Idaho hitters. He was only touched for three safeties and he whiffed 10 men. The hitting features of the game were a home run by Loren, W. S. C. short stop, and a home run by Captain Kuehl, from Pullman, that should have gone for a double. The ball rambled right along thru the University outfielders.

Idaho's lone run came in the "lucky" seventh. Thomas banged out a safety and was brought in by a lengthy drive by Rettig. Rettig was caught at third when he tried to stretch his blow.

Rettig Plays Stellar Game.
Rettig made a nice double play when he speared a smoky drive and whipped to first for two outs. He struck out six men.

The score:

Idaho	AB	R	H	PO	A	E
Almquist, ss.	4	0	0	2	0	2
Moore, 3d base.	4	0	0	1	0	2
Thomas, catcher	4	1	1	6	4	0

Mueller, 1st base.	4	2	1	1	1	1
Loren, short stop.	3	1	1	2	0	2
Totals	35	7	7	27	13	3

Varsity Goes Wild.

In the second game at Moscow, Saturday afternoon, Sandberg pitched six innings of nice ball. He is inexperienced but will develop into a good pitcher.

W. S. C. hitters were too much for Idaho's inexperienced team. Idaho made 11 errors. Again Idaho brot one man across the plate in the fourth inning. Rettig hit safely. The Pat O'Brien banged out a single that put Rettig on third base. O'Brien stole second. On an attempted short throw to second to catch Rettig coming in at home the ball was heaved away and Rettig romped in.

Rettig Batting King.
Rettig hit safely three times in four times at bat. Buescher, who pitched the last three innings, is a good man, but, like Sandberg, lacks in experience in the box.

The score:

Idaho	AB	R	H	PO	A	E
Hunter, 2d base.	4	0	1	1	2	0
Moore, 3d base.	4	0	0	0	4	3
Thomas, catcher	4	0	1	7	3	0

"WASN'T MY FAULT" SAYS KING

Music Demanded Sentiment Insists Author of "Long, Long Trail."

Stoddard King, author of the "Long, Long Trail," entertained the members of the English Club Tuesday evening with an informal talk which he called "The Confessions of a Hack Writer." Mr. King, who is a graduate of Yale, is on the editorial staff of the Spokesman-Review. While in Yale he was prominent in dramatics and he composed the "Long Long Trail" there.

Mr. King, who insisted that he had no message for his audience, told of his various experiences in the literary field which included the writing of two dramas, some pageants and light verse; even the translating of Scandinavian songs into American verse and press-agenting for the college dramatic club. He also stated that, in his opinion, instead of schools of journalism there should be schools where head-line writing would be taught.

The "Long, Long Trail" was, according to Mr. King, written as a sentimental song because the music

was sentimental and the words had to fit the music. He told several stories he had heard concerning the composing of his song, stating that he preferred the story which had the author die a lingering death in London.

**ANNUAL NEARS COMPLETION
"BEST EDITION" SAY CRITICS**

The Gem of the Mountains is being rushed to completion. The entire staff is working day and night and all material will be in the hands of the printer by Friday, April 25.

All of the engraving has been sent to Spokane, and many of the cuts are being returned. Reports from various critics say that this year's Annual will be the best edition published for some time. All of the wit, humor and pathos of the campus is being portrayed in its pages.

Total Enrollment 1336.

The total enrollment for the current college year is 1336. This number includes the two summer contingents of vocational men, 100 each.
