UNIVERSITY OF IDAHO, MOSCOW, THURSDAY, MAY 1, 1919

NUMBER 27

INTERSCHOLASTIC PLANS PROGRESS

High Schools Show Keen Interest in Annual State Track Meet.

TICKET SALE STARTS SOON
One Ticket for Each Student—Proceeds Will go to Visitors.

All the plans for the Annual Interscholastic Track meet to be held on the University field May 16th, are moving smoothly and judging by the responses from the high schools all over the state a great deal of interest is being aroused. It is planned to make this the biggest and best ever held and the advance dope from those receiving invitations to compete, points to a bunch of real competition in every event. A look over the present crop of track men at the University shows a number that have competed in the Interscholastic. Besides being a good sporting event in local circles the meet is a drawing card for collegiate aspirants.

All in One Day.
As some of the teams have a long distance to travel and desire to get back to school early the following week for examinations it was decided to hold the meet on Friday and have the preliminaries the same day as the finals. The preliminaries will be held at 10 o'clock in the morning and the finals will be pulled off at 2 in the afternoon. The awarding of the trophy cup, relay cup and individual medals will be held in conjunction with the Annual Stuntfest of the four University classes at seven thirty in the evening. This will allow the South Idaho competitors to catch the train south-Staturday morning.

Frats Draw for Teams.
The latter part of next week the various fraternities will draw for teams and each house will probably be called upon to entertain at least two and perhaps three. The program of entertainment will be handled by the same committee that took charge at the basketball tournament.

All Proceeds to Teams.
The financial end of the tournament will be handled thru the office of the Physical Director and Coach. Sale will be started at once and pushed to the utmost. The expenses of the meet outside of railroad fare will be handled by the school so that the entire proceeds of the ticket sale and gate receipts can be used to pay the transportation of the six men from the south and pro rata distribution to the remaining schools.

Every student is urged to purchase heavily at the advance sale in order that a line can be obtained as early as possible on the proceeds. Tags will be in order and it will be unsafe to venture on the campus without one fastened to the lapel.

DEBATERS SELECTED FOR MONTANA MEET

Taylor, Tulberg and McDevitt Will Mount Platform in Season's Only Contest.

Clarence Taylor, '19; Ragnar Kulburg, '21; Beryard McDevitt, '20, and Ewin Reinman, '22, alternate, were chosen as the team to debate against Montana in May. The tryout was in charge of Walter Sandelius, debate manager.

The judges were the coaches: Profs. H. T. Lewis, C. G. Miles and G. M. Miller, who are supervising the work since no one member of the faculty has time to take entire charge of the work.

The question to be debated is: Resolved, That the United States government should continue to operate the railroads and eventually purchase them.
The Montana team will have completed a debate with Utah before coming here, while the Idaho team will have had no experience. Clarence Taylor is the only member of last year's debating squad on the team.

THREE SENIOR LAWYERS TAKE CIVIL SERVICE EXAM

Several seniors of the university law department journeyed to Lewiston last Saturday to take civil service examinations.

Richard Ott, Alvin Denman and Clarence Taylor, senior law students, wrote examinations for appointment in the government department dealing with naturalization.

FREE SHOW! FREE SHOW!

Everybody out for Chaney's Tuesday Picture Plays!

Hurrah, hurrah, For Chaney and the "Y". He's going to give a picture show O know the reason why. Now all you boys and girls be sure to go!

Under the direction of Mr. S. J. Chaney, secretary of the "Y", there will be a free "movie" in the "Y" hut each Tuesday evening for all the college students and faculty.

Next Tuesday evening the picture will be "Green Eyes," featuring Dorothy Dalton; the following week he will present "Reaching for the Moon" with Douglas Fairbanks as the leading actor.

The picture, "Widow's Mite," featuring Julian Eltinge, shown in the "Y" last Tuesday night, was enjoyed by over a hundred people.

MEN'S TOURNAMENT STARTS TUESDAY

Tennis Aspirants Must File Names With Bleamaster by Saturday Noon.

Coach W. C. Bleamaster has called for entrants in the annual men's tennis tournament staged by the athletic department and all names must be turned into the office not later than Saturday noon.

The places will be drawn by lot and the preliminaries will be started Tuesday at 4 o'clock. All men of the University are eligible to compete for the trophy, a handsome loving cup donated by Davids, to be given to the winner of the singles.

The winner of the tournament and the runner-up will be sent to Pullman to compete in the Conference meet, in the singles and doubles. If either of these two men are Freshmen the next highest will be sent, since Freshmen are unable to compete because of the Conference ruling.

The tennis "T" will be awarded to the team that represents Idaho at Pullman. This is a white jersey sweater with a red "T" in a red circle. At present there is no wearer of the official emblem in the University. Each class is requested to select a team to enter the mixed doubles tournament to be played off on Campus Day.

"MINGLING" IS WAR'S BEST PREVENTATIVE

Exchange of Students With France Will Produce Greater Sympathy Say Sponsors of Movement.

"The mingling of the people of two nations is the best preventative of war," said Edward M. Hulme, dean of the College of Letters and Science and head of the history department of the University of Idaho, in speaking of the proposed plan by which the universities of the allied powers, but more especially France and America, will exchange students. Dean Hulme and Dr. Miller were mentioned in the list of 1000 sponsors for the book, "Science and Learning in France," which was written to show what France has to offer.

"This mingling produces sympathy and when you understand a man you are less likely to quarrel with him." "Sympathy," he continued, "means feeling with, not feeling for—and I think that Ruskin was profoundly right when he said that to cultivate sympathy 'one must be among living creatures and thinking about them.'"

Dean Hulme also stated that of all the modern nations none has finer things to give than France with her marvelous balance of emotional sensibility with intellectual sensibility.

Dr. George Morey Miller, head of the English department, stated in explaining the plan, that heretofore American students studied in Germany because the German universities welcomed foreigners and those of France and England restricted attendance. One of the best results of the war is the breaking down of these restrictions, according to Dr. Miller, who explained that France and England have both come to realize that they have been too exclusive. "This international migration of students," he stated, "will result in the understanding and sympathy which is really essential to the new world ideals."

AWAIT R. O. T. C. REPORT WITH HIGH HOPES

Inspector Reticent, But Authorities See Chance for "Distinguished" Rating.

No definite statement to the effect that Idaho would be listed in the distinguished R. O. T. C. class has been made by Col. J. G. Hannah, who inspected the cadet battalion Thursday afternoon. He said that he could not make any decision at the time of the inspection because he still had other schools to inspect. Before he had seen them he would not be able to say which school or schools of his district he would recommend. He seemed well pleased with the work and spirit of the battalion and passed favorable comment on the cadet band and the way in which the officers handled their duties.

The larger part of the schedule consisted of parades and drills. The battalion was given a combat problem to work out which was readily solved and mastered by the cadet officers. The signal corps was called upon to take a short test in sending and receiving a message arranged by the inspecting officer. An exhibition drill in physical exercise was held and won the attention of the inspecting officer as well as the numerous spectators. Wall scaling and bayonet drills also added to the variety of details which made the inspection complete.

Instructors in the military department feel most confident that when the war department makes its report of the spring inspections of all R. O. T. C. units in the various schools of the United States that Idaho will hold a place with the honored few. Last year there were but two far western schools to make such a grade. These were Leland Stanford Junior College and the University of California.

STUDENTS VOTE CHANGE IN A. S. U. I. CONSTITUTION

Almost unanimously the student body voted at the A. S. U. I. meeting yesterday in favor of the amendments materially altering the whole constitution of the A. S. U. I.

The vote was taken after a discussion which lasted the entire hour. The changes are as published in the last Argonaut except Art. XIII, Sec. 1, which was not a part of the amendment as introduced before the A. S. U. I.

NETTLETON GOES TO O. A. C.

1918 Physics Graduate in Demand—Has Wisconsin Position Next Fall.

Louis Nettleton, B.S., 1918, has accepted an assistantship at O. A. C. in the physics department. However, this is but a tentative proposition, as Nettleton has received an appointment from University of Wisconsin as assistant instructor in physics and will take up his work there next fall.

In describing Mr. Nettleton's student record, Dr. M. F. Angell said: "Louis Nettleton was a major student in physics here and graduated with high honors. O. A. C. has placed three calls with me asking for a man to instruct in their physics department and when they secured Nettleton I knew that they were getting a good man."

Nettleton was instructor in radio work for the second contingent of the Idaho S. A. T. C. training at the university. Later he enlisted and was stationed at Camp Funston and was a member of the signal corps. After the armistice was signed he went to Manhattan, Kansas, where he filled the position as instructor of physics in the Kansas Agricultural College. Nettleton will probably remain at the University of Wisconsin until he has his doctor's degree.

According to Dr. Angell, any Idaho student who majors in physics is assured some kind of a position in the University of Wisconsin, which has made a standing offer to Dr. Angell to receive all students graduating from his department.

FACULTY WOMEN'S CLUB TO HEAR MUSIC STUDENTS

The Faculty Women's Club will meet Tuesday May 6th, at Rieunbaugh Hall at 3:00 o'clock. The program is planned by Professor Bangs and Miss Wegman, who are presenting students of both the piano and voice departments of the university. Each member of the club is privileged to bring one guest.

FACULTY WILL ACT ON SNEAK VIOLATION

"Must Never Happen Again" They Say—Committees Appointed to Investigate.

There are many expressions from the faculty concerning the violation of the "senior sneak day" by the lower classes. Some of the faculty speak from the standpoint of scholarship and some from a standpoint of good sportsmanship. All are reasonably sure that this violation will never occur again. A faculty committee has been appointed to investigate the matter.

Must Not Become Custom.
"I think that 'senior sneak day' is one of Idaho's finest traditions," said Prof. H. T. Lewis in reference to the senior's annual holiday, "but an all-college sneak is an entirely different matter. I know of several cases, personally, in which students' grades have been materially affected by this one absence from class. Something must be done to prevent this from becoming a custom. The students say that they are no longer children to be punished for some offense, but I think that the punishment should fit the deed."

Will Take Measures.
Prof. D. C. Livingston said: "All-college sneak day must not become traditional to Idaho, and to make sure of this measures either preventative or retaliatory will be taken in regard to the matter. Last year nothing was done except holding Saturday classes the end of that week, to make up the classes which were missed, but that custom would be a very welcome one to the student body. However greatly it annoys the faculty is a small matter in comparison to the point of view of the student body. It creates ill-feeling among the students. The seniors have attended school four years and are entirely deserving of a holiday and whatever dignity is attached to this day is lowered by the participation in it by the other classes. If we are not careful it will become as much a tradition as 'campus day'."

"If the student body does not care to take it up, it must be looked into by the faculty."

Must Take Consequences.
Dean F. A. Thompson quoted J. M. Barrie as saying in his "The Little Minister": "People must take the consequence of their rash acts." This sounds rather foreboding.

BLEAMASTER PUT ON STATE COMMISSION

Athletic Board of Three to Supervise All Boxing and Wrestling in State.

Coach W. C. Bleamaster of the University has been appointed by Governor Davis as the North Idaho representative on the State Athletic commission. This commission will have supervision over all boxing and wrestling matches staged in the state in accordance with the 20-round boxing-law passed by the legislature at the last session.

The duties of the board will be to insure clean bouts in these sports, and it will have entire jurisdiction in all matters pertaining to the staging of them in the state. The appointment is considered an important one at this time as the legalizing of 20-round bouts in the state is bound to draw a large number of important matches.

The other two members of the board are Thomas J. Sherlock of Boise, manager of the Natatorium, and T. W. Rickard of Pocatello.

RECEIVE SCHOLARSHIPS

Clarence H. Sandberg, '18, and Arthur Almqvist, '19, Will Go to California.

Two Idaho engineers have secured fellowships in the University of California. C. H. Sandberg, B.S. (Chem. E.) '18 and John Arthur Almqvist, who will graduate next June in chemical engineering, have each received a fellowship in chemistry in the U. C. Sandberg graduated with high honors and was sent to the engineers training camp at Camp Lee, Virginia, where he made a commission. Almqvist's record is also very high.

Dean C. N. Little said: "I feel certain that these two will reflect credit upon our university and will make their class men in their professions."

CALIFORNIA MAN TO SPEAK

Dr. F. F. Nalder, Former W. S. C. Registrar, at Next Assembly.

Dr. F. F. Nalder, of the University of California, will address the University assembly Wednesday, May 7, on the subject of "America's Heritage from the World Conflict."

Dr. Nalder is quite well known in the Northwest, having been at one time registrar at Washington State College. Later he was made Superintendent of the State Industrial School at Monroe.

Dr. Nalder has been with the University of California for several years as director for several of the university organization for extension work.

Dr. Nalder will speak to the faculty on Wednesday afternoon on the topic of "The Social Service of a University."

ROOKS OPEN FIRE FOR MARKSMAN PINS

Captain Felker Takes Personal Charge of R. O. T. C. Target Practice.

Target practice has begun. Captain Felker is giving his personal attention to the early instruction in sighting and aiming drills. The battalion will fire a special course "A" prescribed for the training of R. O. T. C. and militia. Each man making the grade of marksman will be issued a special marksman's pin.

For "instruction practice" which will follow the sighting and aiming drills, the following schedule of targets will be the program. Slow fire target "A", at 200 yards, 5 shots prone, 5 shots kneeling, and 5 shots standing will be fired. At 300 yards 5 shots prone, and 5 shots sitting will be fired. Slow fire, target "D" at 200 yards, 5 shots kneeling and 5 shots standing will be fired. At 300 yards, 5 prone and 5 sitting, with no time limit on either target. Shooting rapid fire, target "D" at 200 yards, 10 shots will be fired from either the kneeling or sitting position attaining this position and shooting the 10 shots within the lone minute which the target is in view. At the range of 300 yards 10 shots will be fired from the prone position, attaining this position and shooting within the seventy seconds that the target is in sight.

The record shooting will be graded on slow fire target "A" which is the same as instruction practice in shooting slow fire target "D" and rapid fire target "D".

The table of classification for special course "A" is as follows: Marksman 150 of a possible 200 points; first class, 120 of a possible 200, and second class man, 100 of a possible 200. Below 100 points is rated as unqualified.

Captain Felker says, "I see no reason why every man in the battalion with ordinary vision cannot make the grade of marksman."

PRaises TESTING PLANT

Idaho Mining Equipment Surpasses, Says Prominent Miner.

Mr. George D. Bancroft, a prominent mining engineer of Denver, Col., highly praises the testing plant of the School of Mines of the University of Idaho. He holds properties near Elk City, and is at present using the testing plant in testing ores from these claims.

He stated that altho most of the schools of the west are equipped with testing machines, this is the first one he has seen that is kept in good shape. Any machine of the plant may be started with the assurance that it will work well. The plant is up to the minute in every particular.

Mr. Bancroft has high expectations of the advance of the mining industry in Idaho. He stated that while the Coeur d'Alene district is the more up to date and is more highly advanced, the granite batholith of central Idaho will eventually occupy an important place among mining districts. At present, the region offers great difficulty in the transportation of unusual products, but when the cost of shipping the ore is reduced this region will come to the front rapidly.

Does Research Work.

C. W. Hungerford, Plant Pathologist of the Experiment Station, left for Nez Perce Tuesday, where he is to conduct research work on the plant diseases which are seriously injuring plants in that section.

BIG PROGRAM FORMED FOR CAMPUS DAY

Cleanup in Morning—May Fete in Afternoon and Dance at Night.

RETTIG IS GENERALISSIMO

Will Supervise Hordes in Morning Tasks While Girls Prepare the "Eats."

Friday, May 9th, has been set for the annual university Campus Day. Committees are now at work on the details of the occasion, which, as in past years, will consist of a clean-up in the morning, a May fete in the afternoon, and a dance at night. Edwin Rettig, A. S. U. I. president, has been appointed generalissimo for the morning events.

Every University of Idaho student will be expected to present himself in full uniform at 7 o'clock May 9 ready to perform the yearly chores on the university campus.

Rettig in Full Power.

Colonel Rettig, acting chief of staff will have the power of appointing his committees and working forces. He will lead our glorious troops over the top, to jobs laid out for them.

Idaho's husky warriors will be assigned to squads and each squad assigned a husky piece of work which it will perform before noon. Every warrior is expected to be provided with several implements of warfare. These include rakes, shovels, wheel barrows, etc. With the unconditional moral behind our troops we expect to soon defeat General Task and his noble assistants.

Every member of the faculty will be expected to be on the job so as to make the charge against General Task a glorious success.

Lots of Work.

Some of the jobs being considered by the "campus day" committee are:

1. Repair of tennis courts.
2. Build earth platform in amphitheatre for outdoor performances.
3. Fill in with dirt the hollow in front of engineering building.
4. Build cement walk from engineering building to walk in front of Liszt hall.
5. Cleaning up around assay building.
6. General police of campus.

May Fete in Afternoon.

The afternoon program will be in charge of Miss Stephens, who is exerting every effort to make the day an all-college event and hopes to have every student and faculty member present. Townspeople have also been invited to attend the exercises.

Band Opens Program.

The opening number of the program will be a band concert by the university cadet band under the direction of Mr. Brent Neilsen.

Following the concert will come the procession of the May Queen and the dances in her honor. The dances will include a group of folk dances given by the girls in the freshman class, a dance allegiance to the May Queen by sixteen of the sophomore girls, and two feature dances.

Two Special Dances.

The feature dances will be "Rain-bow Dance," given by Ellen Waring, Ruth Coffey, Inez Sanger, Marjory Albert, Irene Johnston and Ruth Kuteneskey, and "The Pavlova Gavotte," which will be given by Beatrice Blomquist, Edith Dingle, Helen Franz, Ferrol Richardson, Lena Schott, and Josephine Brown.

Mixed Doubles Tourney.

Later in the afternoon there will be a tennis tournament of mixed doubles, staged by the different classes in the university. Each class must hold a tryout to select the team to represent it in the contest.

After the tournament there will be a student luncheon on the campus, followed by a short concert by the glee clubs of the university under the direction of Mr. Bangs, and a college song fest by the student body.

Dance at Night.

Later in the evening an all-college dance will be held at the gymnasium for the purpose of defraying the unavoidable expenses in carrying thru this annual affair. An admission of 25 cents will be charged boys and girls alike.

New Students Enter.

According to a report from the Dean's office there have been fourteen new students enrolled since the beginning of this quarter who were not in college during the second quarter.

THE UNIVERSITY ARGONAUT

Published Every Week by the Associated Students of the University of Idaho.

Rates: Per year, \$1.25, except subscriptions outside the United States, which are \$1.75.

Entered at the postoffice at Moscow, Idaho, as Second Class Mail Matter.

The interscholastic track meet, and consequently the annual Song and Stunt Fest comes off two weeks from tomorrow. In past years the entertainment following the athletic event has produced not only talent, but a large number of songs which have become a part of Idaho tradition.

The Song and Stunt Fest costs work—and there are only two weeks.

The amendments to the A. S. U. I. constitution which were approved by the students Wednesday give that body a much needed reorganization. Although many of the details of the change are not satisfactory to a large portion of the student body, the trend is in the right direction, and the minor matters can be adjusted as they become evident.

QUESTION

What has become of the baseball schedule?

WHAT THE THEATRE MANAGERS HAVE TO SAY

The Washington square Farce, "Helena's Husband" and Lord Dunsau's fantastic comedy "The Glittering Gate" may be said to represent the two most popular playwrights of the present time. These plays were scheduled for May 16, but the date is now unsettled because the date granted by the committee on Campus activities had to be taken away to accommodate the class stunts always put on at the time of the interscholastic.

"Helena's Husband."

"Helena's Husband, probably one of the most successful comedies of the Washington Square players, is a farce take-off on the elopement of Queen Helena of Sparta with Prince Paris of Troy. It is not merely the farcical situation—King Meaulens' efforts to get Helena to elope—that gives interest to the play. The spectator will come away from the play feeling that the problems of life and the people of 2000 years ago are extremely like the problems and people of today.

Dead Burglars.

"The Glittering Gate" is the work of Lord Dunsau who is an Irish peer belonging to the Plunkett family and a soldier of wide experience. The situation in the "Glittering Gate" is an example of the bizarre, outlandish plot which Dunsau loves, yet it is treated with a striking realism that makes one accept its most outlandish situations. There are but two people in the play, both dead burglars. The scene is a lonely place in the present time. In spite of the fantastic and bizarre comedy element there is also an element of the tragic and the pathetic in the play. According to Bjorkman, the dramatic critic, one of the main secrets of Dunsau's appeal is that behind all his exuberant imagination lies a solid basis of observation enabling him to endow the most impossible adventures with a homely and convincing air.

The Authors.

Phillip Moeller author of "Helena's Husband," and Lord Dunsau both have plays running in New York at present. "Moliere" a play dealing with incidents in the life of the French playwright, is a four act play with Henry Miller in the title role. Holbrook Blinn plays the part of King Louis XIV and Blanche Bates will be the third of a trio of stars.

The Dunsau play now running in New York is "Tents of the Arabs" which is being produced by Stuart Walker, a former student of Professor Miller's who was the creator of the Portmanteau theatre. Dunsau has been introduced into this country chiefly by the remarkable production of his plays by Walker. "The Glittering Gate" being the first play produced by the Washington Square Players.

THE CAMPUS ROOMER

We have come to the conclusion that the real reason for the matrimonial pursuits carried on in the halls of the Ad. building is due to the fact that when a lady goes on the campus she feels like she is getting shot at from seven different directions. It's just about as possible to get a special permission during the week as it will be for the ladies to get a job sweeping the Golden Stairs. Sing Sing hasn't got a thing on us.

I guess the reason for 7:30 on Sunday is so the boys won't get lost on the way home.

The Junior girls had on the "ear bobbars" last assembly, they met with no serious accidents. Getting ahead of those Junior girls is as hard as pulling teeth with an axe.

Now that the mountains are open for business, the traffic there ought to increase about 97%. The call for chaperones and hay racks will be very brisk.

The inter fraternity track meet is going at full blast. Several heroic efforts are being made for a position in the cellar.

Intramural baseball is going the same way, with four teams fighting for the cup that is being offered. Those cups come in awfully handy in giving Golden Beer's and smokers. Happy Hatfield says it is because they hold a lot.

The proposed amendment is going to decide whether the students or the faculty run the student affairs and funds.

Along with this, some body said the other day that the advent of a dean of men would be about as ludicrous as a one-armed man winding his wrist watch.

The ball team will endeavor to tramp on Pullman next Friday. Support from the weak-kneed rooters and hot air peddlers will be appreciated.

The Boise club, one of the 157 varieties that have been organized on the campus, is fast swinging into prominence. At the present rate of speed they will have some bunch by the time the funds have been procured for the Ad. building clock.

Campus Day is coming soon, everybody be prepared to shovel cinders and build concrete walks. There will be a police force out that will make the policemen of New York city look like a pair of queeces up against a royal flush.

SAINT CECILIANS PLEASE

Vesper Musical Service Delights "Y" Hut Crowd.
The Saint Cecilia club, under the direction of Professor E. O. Bangs, gave a very pleasing program at the "Y" Hut, Sunday afternoon. The girls' voices showed careful training and blended beautifully together. Miss Wegman, instructor in piano, was the accompanist. The soloists, Bernadine Adair, Nathalie Tecklenberg and Florence Allebaugh, met with great favor in their songs.

The following is the complete program as given Sunday afternoon:
The little gray blue dove.....
.....Louis Victor Saar
Miss Tecklenberg and club
Slumber Song.....A. Gretchaninof
St. Cecilia Club
Death and the maiden.....Schubert
Miss Adair
Cradle Song.....Brahms
The St. Cecilia Club
Villanelle.....Del Acqua
Miss Tecklenberg
The lass with the delicate air...Arne
Miss Allebaugh and Club
Peer Gynt Suite.....Edvard Greig
(Arranged for ladies' voices by Alfred Silver)

- a. Morning Mood
- b. Ase's Death
- c. Anitra's Dance.
- d. In the Hall of the Mountain King

ENGINEERS RE-ORGANIZE

Old Club to Be Resuscitated at Meeting Tonight.
The engineers will meet tonight to reorganize the engineers' club. The original engineers' club was organized four years ago and continued uninterrupted until last year when unsettled conditions brought on by the war caused it to be neglected. The purpose of the club is to give the engineers an opportunity to hear prominent experts in the profession who come here, and also to provide for the annual banquet which is entertained by the engineers each year. Papers prepared by different members will form the program in the absence of outside speakers.

VURSE

Oh Boy! ain't it a grand an' glorious feeling
To be in love with a wonderful girl?
Who loves you truly and says so plainly,
Who keeps your head in a whirl.

You jazz her out every night you can
So the other guy won't have a chance.
You think you're a wonderful sort of a man,
And spend your spare moments pressing your pants.

You forget all your studies and working
Just to be seen on the campus with her,
You would jazz her to all shows 'n everything.
You lie in bed nights and think of nothing but her.

Well, when you are lying thinking,
Be consoled with little thought,
That in all probability she is lying
(And that takes some thinking I've been taught).

She probably is handing this other guy
A line that wouldn't get by at kindergarten,
Except that he is soft, that's why,
He and you are too blinded by love to harken.

Some day if you watch her closely,
son,
She is bound to make a mistake,
Her memory will fail her, and a liar must have one,
And when you catch her up you will awake.

Oh, it will be unpleasant to do it,
This dull and sickening bump,
But maybe you will learn not to do it,
If you see a "her" shut your eyes but don't jump.

When a dame starts slipping you a line,
Just cross your fingers and wink at yourself,
Remember it, son, you may need it sometime,
You may have to get by without exposing yourself.

But then, women are all right—after you rope 'em.
But believe me, its like roping a bear;
When you get him you wish and hope then
That you could let go, but you don't even dare.

A LAMENT

Some say that men are self-conscious,
And that women are soft and clinging.
Well, in trying to overcome the first, and
On trying out the second, my ear's stinging.

You see, the psychologists will tell you
That men are vain and proud.
I tried to prove that such was not the case,
But woe is me, I said it once out loud!

She took me up. Say, who was the guy
That said women were soft and clinging,
For, going by that uneducated fool,
I said this.
O boy, she arose, and my ears ARE stinging.

If they are soft and clinging
And love a masterful man
Then I am most horribly deficient,
And check the bet to that kind of a man.

Miss Verla Strauss and Virginia Holland of Kappa Alpha Theta, of Pullman, were week-end guests of Chi Delta Phi.

Why Go to "Idaho"

The choice of a university or college to be attended should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2d, a competent faculty; 3d, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

1. Purpose and Field—
Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Mining, Home Economics, Law, and Educational matters not only to students in residence but also to all who desire it throughout the State.
2. Faculty—
The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are more than seventy workers in the agricultural extension division and fifteen agricultural county agents.
3. Equipment—
Its equipment is ample. It has a library of over 40,000 volumes, excellent facilities for teaching literature, philosophy, and the social sciences, and well provided laboratories for the natural and applied sciences and for the technologies.
4. Students—
Its students are earnest, wide-awake, and democratic. A large number of them earn their own way. Its alumni now occupy high positions and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The six colleges, the central agricultural experiment station and the sub-station of the U. S. Bureau of Mines are located at Moscow; the main agricultural extension office is Boise, and the agricultural sub-stations and demonstration farms at Caldwell, Sandpoint, Moscow, Aberdeen and Felt.

Moscow, Idaho.

Society Gossip

Chi Delta Phi held its annual banquet Saturday evening. It was followed by the annual dance at the university gymnasium. The hall was prettily decorated with Japanese lanterns and parasols. Refreshments were served at small tables under a bower of lanterns. The patrons and patronesses were Dr. and Mrs. Lindley, Dean and Mrs. Thompson; Dr. and Mrs. Axtell, Dr. and Mrs. Miller, Miss French and Mr. McDevitt. The following guests were present: Misses Verla Strauss, Virginia Holland of Pullman, Angelina Burns, Ferol Richardson, Brownie Haynes, Gertrude Sabin, Ann Glinderman, Ruth Blomquist, Esther Thomas, Eunice Keller, Ethel Richmond, Edna Herrington, Tennie Johansen, Grace Darling, Mary Nodde, Margaret Rawlings, Adhelea Bassett, Henrietta Goldman and Mrs. Lyle Turner. Messrs. Newland, Morris, LeClaire, Torson, Lindley, Hyland, Burkhart, Barrett, Melnick, Richmond, Bonham, McCrean, Darling, Gerlough, Parmellee, Davidson, Packingham, Priest, Eberle, Gilkerson, Cline, Stewart, Holland, Wedgewood,

Ingalls, Taylor, Gill, Farrell, Fox, Rettig, Henderson, Poulton, Lemon, Tate, Birbage and Brigham.

Misses Bassett, Darling, Richmond, Keller, Herrington, Nodde, Johansen, Goldman, Rawlings and Mrs. Turner were week-end guests of Chi Delta Phi.

Chi Delta Phi announces the pledging of Eva Neal of Nampa and Frieda Augustine of Los Angeles.

Madeline Wall was called home to Polton, Montana, last week by the serious illness of her father.

Margaret Knipe and Florence Allebaugh were dinner guests at the Delta Gamma house Tuesday evening.

Dr. and Mrs. Lindley, Ernest Lindley, and Carroll and Prof. and Mrs. Livingston were dinner guests at the Delta Gamma house Wednesday evening.

Jean Kendall spent the week-end at her home in Spokane.

Faithless Yanks Cause Consternation in Coed Circles

Starving Belgian and fleeing Hun faced nothing like the problem which confronts the blushing flowers of America today. Great was the consternation in the university when an article appeared in the Literary Digest about a month ago which told of the perfidy of 10,000 fickle American soldiers. These soldiers, it is said, fell into the wiles of as many cunning French girls and are now safe in the "holy bonds."

With heaving chests and tearful eyes, each fair maiden probably clutched the newspaper wildly to her and murmured: "Did George do it?" But there are many differences of opinion even in our own little school—fears, regrets, relief—all are portrayed. The following are a few expressions concerning this "national disaster":

To Be Expected, Says Dean.
Dean French says, "I think it only natural that the American youth has fallen victim to the charms of the vivacious demoiselles across the way. It is an old adage that opposites attract and the admiration of the Yanks for the bright witty and capable French girls has been the most natural thing in the world. Personally, I am well pleased that there is to be an intermingling of these two countries, who are widely separated geographically, but who are so closely related in spirit."

Helga Anderson: "Well, to be real frank—I think they have their nerve! This is a rather surprising tribute to the girls who kept the home fires burning."

Anne Glindemann: "I only hope they didn't all have sweethearts at home."

Marie Frechafer: "What I'm wondering is, why were they so exclusive, in stopping at 10,000? It's too bad the married men couldn't get in on it too."

Camille McDaniel: "This may be a Christian nation, but, I'm wondering about the charity of the girls we left behind us since word has come of the 10,000 faithless Yanks 'over there.'"

Angelina Burns: "All of this is so painful to me that I can hardly bare to think of it. I have lost so many out of the 10,000, that I feel I can never be consoled."

DISCUSS CLEARWATER SURVEY

Mr. Ben Bush, State Land Cruiser, was a visitor at the School of Mines this week, to confer with Dean Thomson and Professor D. C. Livingston regarding the tri-angulation survey of the Clearwater area to be made this summer under the auspices of the new Bureau of Mines and Geology.

The area to be surveyed contains much of the best timber land in the state of Idaho. About half of this is state land.

The North Idaho timber Protective Association is much interested in seeing the project carried thru as its completion will be of much value in fire control.

Dean Iddings at Lewiston.
Dean E. J. Iddings of the College of Agriculture spent Saturday in Lewiston attending a meeting of the Board of Directors of the Northwest Livestock Show. The meeting was held to consider plans for the new buildings to be constructed at the show grounds in Lewiston.

WAR POSTERS MAKE BIG HIT IN BOISE

University Exhibit for Victory Loan Causes Much Favorable Comment in Capitol City.

MISS SWEET INTERVIEWED
Tells of Idaho State Library Association Meeting April 22-23

The meeting of the Idaho State Library Association, which convened at Boise April 22 and 23 was full of interest and instruction, according to Miss M. Belle Sweet, librarian at Idaho, who attended the session. University Exhibit.

Miss Sweet spoke highly of the attendance of the Boise people at the war poster exhibit held in the public library under the direction of the Liberty loan committee. The collection numbered over 200, among which were posters from France, Greece, Brazil, Australia and Canada. A great deal of interest was shown, some visitors returning three and fourtimes to view the collection. The French posters were most appreciated.

Young French Student.
Miss Sweet spoke particularly of one high school boy who was airing his recently acquired French on his father. When asked if he enjoyed the posters, he replied, "Yes, if you can read them they are all right."

The collection, altho exhibited under the auspices of the Victory Liberty loan committee, was the complete collection of the University of Idaho, with the exception of a few American posters, which were not put up on account of room.

Sessions Interesting.
The library session opened Tuesday morning, presided over by Miss Sweet. Mrs. Della Reed of American Falls gave a glimpse of the early history of the libraries of the state. Each librarian told of her problems and gave an outline of the work planned for the future.

In the afternoon Miss Mary E. Downey spoke on county libraries and the work of the libraries with the schools. Miss Downing, the state organizer for Utah, was the honored guest of the session.

Other speakers were Miss Marie Pinney, who started an animated discussion of children's work, and Miss Lucile Hood, who offered suggestions as to the purchase of books and the manner of introducing them to the students.

For County Work.
A proposed county library law for Idaho to be presented at the next session of the state legislature was drafted Wednesday afternoon at the closing session.

Under the law the county would be a library unit instead of the city. Branch libraries would also be established in counties at points remote from the county seat.

Shown a Good Time.
Wednesday the librarians were guests of the Burbank Club for luncheon and at the close of the session they were driven around the city as guests of the Boise citizens. Twenty librarians attended the session.

Betty Barr, Inez Calloway, Francis Jones, Julia Adelman, Ruth Kutnewsky and Josephine Brown spent the week-end in Lewiston.

NEW HEAD OF DAIRY DEPARTMENT ARRIVES

Professor H. P. Davis, the new head of the Dairy Department of the College of Agriculture and Vice-Director of the Experiment Station, has arrived and is to take up his duties the first of May.

Mr. Davis graduated from the University of Missouri in 1911. From 1911 to 1914 he was an instructor at the Pennsylvania State College, where he obtained his master's degree. In 1914 Mr. Davis went to the U. S. Dairy Division as assistant dairy husbandman and was later promoted to dairy husbandman. During the past two years he has been in close touch with the research work of his division and has edited all publications of the Dairy Division.

STUDENTS ON MUCKER PROGRAM

Short Talks on Questions of Timely Interest to Be Feature.

Dean F. A. Thomson, Mr. George D. Cancroft, a prominent mining engineer, and J. R. Davidson were the principal speakers at a regular meeting of the Associated Miners, held at the home of Mr. C. A. Wright last Thursday evening.

This is one of the first of a series of meetings in which the student members will take part. One or two students and a faculty member are to be included in each program. A ten or fifteen-minute discussion on some current topic of interest to the members is to be presented by each speaker.

OFFICERS TO OUTLINE PLAN

To Announce Policy for Coming Year At May 8th Meeting.

A meeting of the Y. W. C. A. will be held Thursday, May 8th, at Ridenbaugh Hall, at 4 o'clock. Officers are to be installed and members of the advisory board will give some

helpful suggestions which will be a great impetus to the cabinet. Each officer will give an outline of her plans for the coming year and the president will disclose her aims for the Y. W.

As there will be few meetings before the close of the school year, every girl in college is asked to be present.

The following officers have been elected for this year: President, Margaret Myrns; vice-president, Alice Bessee; secretary, Leta Sabin; treasurer, Phyllis Orford.

ZETA CHIS AND BETAS RUN NECK-AND-NECK

Intramural Meet Produces High Class Work in Many Events.

IRVING LEAPS 21 FEET 7 INCHES

Perrine Upsets Dope by Outvaulting Romig—Howard Learns Lose in High.

STANDING OF THE TEAMS

Zeta Chis	23
Betas	27
Phi Delt	8
Kappa Sig	6
Barbs	4
Akes	3

Zeta Chi Alpha still leads the Intramural track contest, but the contest is still close enough to give Beta Theta Pi a chance at victory in the remaining events.

Because of cadet inspection it was deemed wise to postpone the events in the Intramural track meet until this week, and the events were started in the regular schedule Monday night. Counting the places taken up until and including Tuesday night the Zeta Chis were leading the Betas, the runners-up, by six points.

Jack Conceded First.
Perrine surprised the fans by taking the pole vault from Romig, the doped winner, who succeeded in taking a third. Richmond, was unable to compete in his favorite event, the 100-yard dash, owing to work on the annual but was conceded first place by the judges. The event was run off for second and third places Tuesday night.

Howard came thru in old time form and won the high sticks in good time.

The results Monday night are as follows:

Two-Mile Run—Campbell (Zeta Chi), first; Jackson (A. K. E.), second; Cady (Zeta Chi), third. Time not announced.

Irving Jumps 21 Ft. 7 In.

Broad Jump—Irving (Beta), first; Perrine (Zeta Chi), second; Moe (Beta), third. Distance, 21 ft. 7 in.

Discus—Irving (Beta) first; Pearson (Barb), second; Perrine (Zeta Chi), third. Distance, 117 ft.

Tuesday night:

120 High Hurdles—Howard (Phi Delt), first; Perrine (Zeta Chi), second; Miller (Beta), third. Time not announced.

100-Yard Dash—Richmond conceded first; Thompson (Phi Delt), second; McCallie (Kappa Sig), third. Time not announced.

Pole Vault—Perrine (Zeta Chi), first; Cline (Zeta Chi), second; Romig (Beta), third. Height, 10 ft. 6 in.

Moe Has Hard Luck.

Moe made several leaps over the distance that took the board jump but had trouble in locating the take-off and lost his jumps.

Larger Squad.

The track meet has been instrumental in getting out a lot of new men who will bear watching in the future and has created a lot of dope for the fans to talk about. The first W. S. C. meet comes a week from Saturday and at the prospects at present look bright for a clean win from the boys across the line. All the winners of last year look good for repeats and in addition Idaho has a lot of second and third-place men. Last year we were forced to take the count against Pullman due to her second and third place scavengers altho in both meets Idaho took more first places.

Special to Pullman.
It is likely that arrangements will be made for special accommodations for the Idaho rooters to accompany the team to Pullman and an extra car to carry the money home in. Let's go to Pullman, Saturday, May 10th.

STILL USE PARIS CLUB

Seven Idaho Students Registered at A. U. U. Since February 18.

Virgil W. Samms, '14, and Robert M. Montague, '17, are among the Idaho alumni, who were registered with the American University Union in Paris between February 18 and April 3. Both Samms and Montague have attained the rank of captain. Capt. Montague has been decorated with a Croix de Guerre.

Other Idaho men registered in Paris are First Lieut. Norman E. Holden, '17 and Second Lieut. George N. Anselm, '19, Sgt. Robert J. Gerlough, '16, recently landed in New York and now in the medical corps at Camp Merritt, N. J., Pvt. Marion C. Baldridge, '17, and Harold W. Fisk ex-'18, attached to the base hospital unit 14.

HORRIBLE HORRORS! SEA MONSTER HERE

See the Snout of the Slashing Saw Fish Given the University Zoological Department.

J. C. MUERMAN PRESENTS GIFT

"A Most Handsome Specimen" Says Dr. Wodsedalek—Gives Graphic Description.

The snout of a saw fish has been presented to the zoology department by Mr. J. C. Muerman, former superintendent of the Moscow public schools.

Dr. Wodsedalek says the saw-fish is called the Elasmobranchii, and is the most dangerous kind of man-eating animal in existence.

Mr. Muerman, who was present at the time of the capture, says: "Several of the natives were injured and one killed before the animal was taken."

Five Feet Long.

The saw-fish was about twenty feet long. The part that has been presented to the zoology department, called the snout, is about five feet long. It is flanked on either side with rows of long, wicked looking teeth. They are all in a perfect state of preservation. The snout is a dangerous weapon, for with it the animal can slash right and left with the deadliest accuracy.

Describes Capture.

Mr. Muerman describes the capture as follows: "The appearance of the animal was unlooked for and he was captured only after a hard struggle in which several of the natives were seriously injured. The nets had been set out in hopes of getting a fair supply of the smaller fish and this sea monster became entangled in the nets. When the nets were drawn in, six of the natives, unaware, rushed into the water in order to make the nets fast.

"The sawfish began slashing immediately and one of the natives, cut almost in two, died instantly. The rest of the terrified natives struggled desperately to escape the furious sawfish. They succeeded only after one had lost a leg, another an arm and the rest suffering more less severe wounds.

"After an exciting tussle the animal was finally killed and pulled up on shore. It was measured and found to be about twenty feet long."

Mr. Muerman secured the carcass and cured the snout himself.

Perfect Specimen.

"The zoology department is indeed fortunate in securing this snout," Dr. Wodsedalek said. "It is the most perfect one that can be seen in any museum. The great majority of these exhibits are not good because of the poorly preserved teeth. At the age at which this saw-fish is supposed to be the teeth chip off or are destroyed in other ways. But this snout has every tooth perfect and taken altogether they look to be capable of doing the work they are said to have done." Dr. Wodsedalek says further the saw-fish are as yet abundant and are a terror to every native of the Philippine islands.

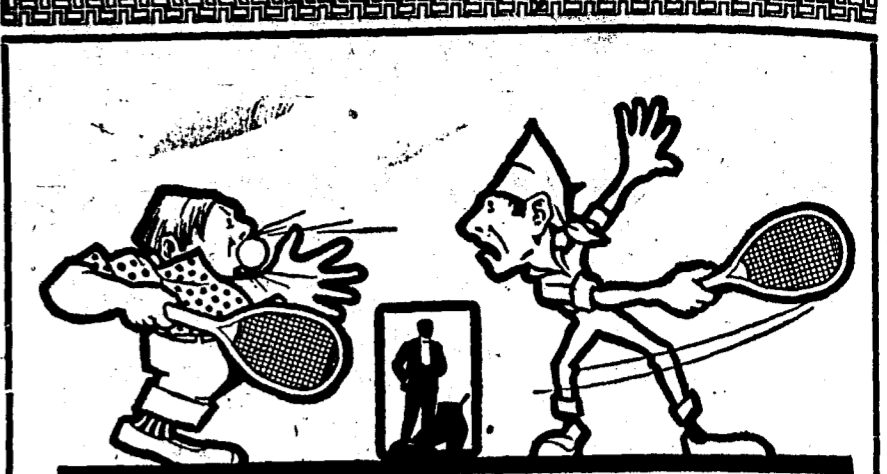

TO ENCOURAGE LATIN FOR HIGH SCHOOLS

Faculty Appoints Committee to Emphasize Importance as Secondary School Subject.

A committee has been appointed by the general university faculty to devise ways to encourage the study of Latin in high schools and colleges thruout the state. It is the opinion of the faculty that Latin is a basic study for the mastering of our own language and for development of an appreciation for all classic arts. The men on this committee will represent all of the schools and college in the university.

Backbone of English.

In speaking of this action of the faculty, Dr. H. L. Axtell said: "Latin, thru its grammatical structure, is a basis for the development of a language sense whether in English or in a foreign language. Thru its derivatives and quotations it is a basis for a better understanding of the content of most all college studies, both the humanities and the sciences. For scholarship in general, Latin is a necessary tool." Speaking further, Dr. Axtell said that recently a questionnaire had been sent out to 167 of the most prominent educators asking them to state from their experiences and observations, whether or not they would recommend Latin as a require-

It's No Love Game

When you go to buy merchandise its hard facts that you want. You buy because you are impressed that the style is right, the quality the best and the price is reasonable or low. That's why students generally, and the faculty too, trade at DAVIDS'.

DAVIDS'

"THE STUDENTS' STORE"

ment in secondary schools and colleges. All but three of these men expressed themselves as thoroughly convinced that the study of Latin is a material aid in learning the English language."

Miss Mabel Small, instructor of Romance languages, says: "We feel certain that the study of Latin gives a student greater powers in English. My best students are those who have had two years of Latin."

Poor Grammar.

Miss Goethals, teacher in French, makes the statement that college students are poor in English grammar. The study of Latin in the high school will make much stronger English students.

Prof. Ph. Soulen states that he is not in favor of placing any foreign language in the list of required courses for the secondary schools. He says: "Where ever there is evidence that students are going to be in need of the results of two or more years' study of a language then there should be more and better instruction in the languages than there is at the present time. But there are no conspicuous evidences that study of a foreign language will repay the time and effort of all students. Only a restricted class of students should be encouraged to take up such courses."

Should Not Be Compulsory.

Dr. Axtell expressed the common attitude among instructors in the statement that "Students should not be forced to continue Latin when they have shown that they can not profit sufficiently by it. On the other hand, in the interest of scholarship and higher education all students should be given the opportunity to take it, whether it will interest or aid them," and all should be encouraged to try,

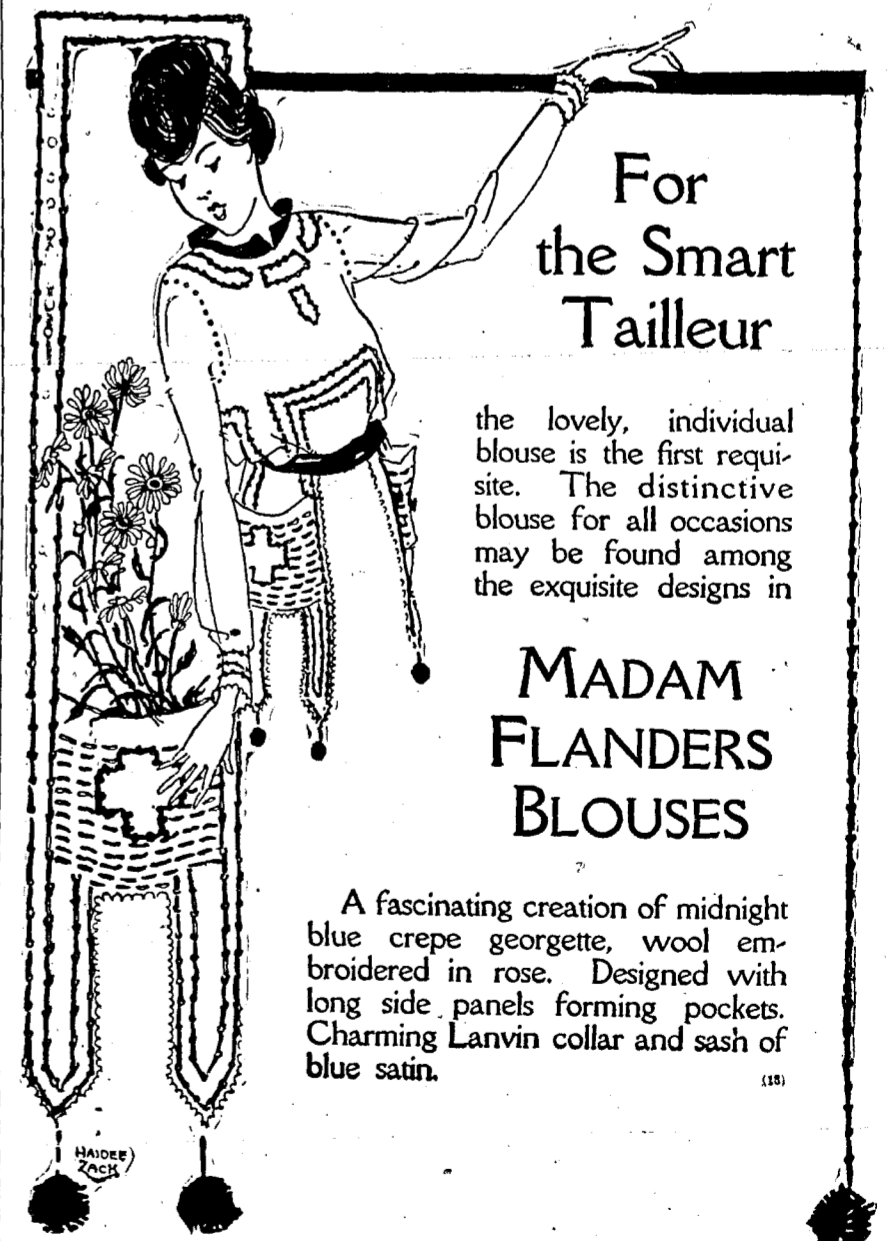

PRELIMINARY BULLETIN OUT

Outline of Idaho Mining Districts Latest Bureau of Mines Work.

Bulletin 166 of the U. S. Bureau of Mines entitled, "Preliminary Report of the Mining Districts of Idaho" has just been received from Washington.

This bulletin has been prepared jointly by the School of Mines staff, University of Idaho, and the local staff of the U. S. Bureau of Mines. The authors are Messrs. C. A. Wright and Thomas Varley of the Bureau of Mines and Professors Livingston Soper of the University faculty.

The mining interests of the state are covered in outline. A complete bibliography is attached. This bulletin should prove invaluable to anyone seeking information regarding the mining interests of Idaho.
