REV. WILLISIE MARTIN TO BE BACCALAUREATE SPEAKER THIS YEAR

Idaho's "Fighting Parson," Rev. Willisie Martin, will deliver the baccalaureate sermon at Idaho June 8. Rev. He is widely known throughout the state, and was one of the Victory loan boosters on the trophy train which recently passed through Moscow. The subject for the sermon will be announced later.

ABOUT OURSELVES

With this issue the Argonaut becomes a semi-weekly, appearing every Tuesday and Friday. We are not trying to splurge; we are only attempting to keep abreast of the University.

The University's interests are ours. We wish to promote Idaho activities and ideals, which are worth all the publicity we can give them.

The change to a semi-weekly is not made without a strain. We are not seeking sympathy, but your assistance in making the Argonaut a "live" news sheet instead of a weekly recapitulation.

Help us to keep in touch with your part of the University, and we believe you will be pleased with the new Argonaut.

Yours for a greater Idaho.

PLAY FIRST ROUNDS MEN'S TOURNAMENT

Maberly, Denecke and McCrea Survived Second Round this Afternoon.

The opening rounds of the men's singles in the all-University tournament were run off yesterday afternoon. The drawing for matches both in the singles and doubles took place in the office of the physical director Monday and the contests for Tuesday got away as scheduled.

Maberly eliminated Almquist in the opening event of the preliminaries. Ken Hunter took Prex Lindley into camp and Ted Hege suffered likewise at the hands of Bill Denecke. Rowell defeated Nickel in straight sets.

Today at four Dick Ott defeated McCrea, Maberly took Hunter into camp and Denecke trimmed Rowell.

Only four teams are entered in the doubles which will be played off early next week beginning Tuesday. McCrea and Almquist will meet Maberly and Robinson; while Hunter and Denecke are doing battle with Ott and Rowell. The finals in the doubles will be played Wednesday afternoon.

HOUSE REPORTERS NOTICE

Society notes for the new Argonaut semi-weekly must be in the Argonaut box not later than 8:00 a. m. Monday and 7:30 p. m. Wednesday.

UNIVERSITY CLOCK IS NEAR REALITY

Students to No Longer Anxiously Scrutinize Wrist Watches When Class Time Approaches.

ENGLISH CLUB STARTS MOVE WILL GIVE HALF OF PLAY PROCEEDS TO CLOCK FUND.

Does your wrist watch keep good time? If it doesn't don't let that worry you any more, because the clock in the tower of the Administration building is to have hands as soon as the necessary money can be raised. Steps are already being taken by the English club to add to the \$225 clock fund.

Upon unanimous recommendation of the dramatic committee of the English Club, the English Club has agreed to turn over one-half of the net proceeds of "Helena's Husband" and "The Glittering Gate" to the clock fund. According to Professor G. M. Miller, the club is willing to continue this in the future if the plays receive the proper support.

Started With Alumni.

The original plan, as suggested by Miss Gertrude Stephenson, '12, who was editor of "The Idaho Alumnus" during the year 1916-1917, was to have the clock and chimes donated by the alumni of the university. During that year Miss Stephenson succeeded in collecting some \$125.00 from members of the alumni, but since that time the matter has been left untouched.

\$300 Now.

In addition to the amount raised from members of the alumni association, there is a Prep Memorial of \$100 left by the last class that graduated from the preparatory school in 1913 and another sum of \$54.31 left by the class of 1917 which it is hoped may be turned into the clock and chimes fund. The interest on these amounts brings the total to approximately \$300 or a balance of \$500 yet to be raised.

Chess Club Meets.

The Chess Club met at the home of Professor Cook on Friday evening.

UNIVERSITY SECURES NOTED LECTURER

Mr. J. Stitt Wilson Traveler Student and Lecturer Will Speak on Democracy.

Mr. J. Stitt Wilson, ex-mayor of Berkeley, California, and a world student of humanity will speak in the university auditorium on the subject of "Constructive Christian Democracy" next Sunday evening at 8:00. This speaker will address the student body the following Monday at assembly. Mr. Wilson appears under the auspices of the university and Y. M. C. A.

Mr. Wilson has spent his life studying social conditions not only in this country but has traveled widely and made thorough studies of conditions in the world's largest cities. About twenty-five years ago Mr. Wilson, then a student at the Northwestern University at Evanston, Illinois, was planning to enter the ministry but withdrew his membership later because the church was not social and progressive enough. Since that time his whole life has been a study of social conditions of the masses, industrial life, political parties and control of government.

Knows Europe.

Mr. Stitt Wilson spent several years during his early career in active reform work in San Francisco but withdrew in order to master the subject of municipal government and the intricate problems connected with the labor question as revealed in other cities and other countries. He first tackled London, the largest city in the world. Here he lived with his family for a period of six years during which time he studied conditions in both Liverpool and London, writing and speaking. From London Mr. Wilson moved to Berlin where he studied the affairs of Germany for four years. Paris was the next city to interest Mr. Wilson and it was while at work in that city, the war broke and instead of returning to America as was his first intention he remained in Paris. During the first three years of the war, Mr. Wilson was a student of war conditions in Europe.

Son Killed in Air.

Mr. Wilson is a patriot in the highest degree. He has made the supreme sacrifice by giving his only son to the cause of the country. Mr. Wilson's son was killed while fighting in the air over the western front.

Mr. Wilson knows his subject, having made a life study of it. He is moved by the highest motives—patriotism and sacrifice—and will have a full message for all—a message that will better enable all who hear to take their places in the ranks of democratic reform.

In Robin's Class.

President E. H. Lindley has this to say: "Mr. Wilson is pre-eminently fitted to give us a clear vision of these ideals, and to point out the road to their achievement. This speaker comes to the university with the praises and recommendations that places him in the same class with Raymond Robins. Those who miss Mr. Wilson will suffer an irreplaceable loss."

The program for the annual Campus Day on Friday is now complete in almost every detail. From 6:45 a. m. to 11:30 p. m. every hour is filled. In accordance with tradition the morning will be devoted to work on the campus, the afternoon to a May Festival, and the night to a dance.

A Tool for Every Man.

Every male student in the university has been assigned a definite task in the big campus clean-up program for Campus Day morning. The ordinance department has a stable full of trucks on the trail of all wheelbarrows, shovels, post-hole diggers, rakes, rollers and other movable equipment for arming Generalissimo Rettig's hordes of husky laborers.

The various detachments will move to their respective operation immediately upon the final stroke of seven Friday morning. From then until noon the buzzing of the bees will be interrupted only by lemonade gurgling, as the co-eds bring around refreshment for the workers. At 12:00 sharp all work will cease and the customary excavatory ablutions take the stage until the afternoon program.

The men will meet on the tennis courts in front of Ridenbaugh hall. From there the captain of each squad will lead his men to the work assigned to them.

The military police will be on the job early and any man absent from roll call at 7 o'clock at the tennis courts will suffer such punishment as the court martial may direct.

Tom Leads M. P.'s.

Tom Jackson, veteran war horse of the gridiron, will be colonel of the military police and with able assistants will see that everything is pulled off in orderly manner.

Professor Angell will captain the faculty squad which will undertake to construct an earthen platform for the senior play. Every faculty member will also appear at 7 o'clock at the tennis courts.

Staples Rustles Tools.

H. W. Staples, captain of the ordinance department, announces that at least 50 wheel barrows will be needed. These wheel barrows and various other implements will be borrowed from throughout the residences of Moscow. Any one having a wheel barrow at their home should bring it to work with them.

Full Afternoon.

The program in the afternoon includes the band concert, given by the cadets of the university under the supervision of Mr. Brent Nielsson, the procession of the May queen, Anne Glindeman, and her attendants, followed by dances given in her honor, the class orations and the interclass mixed doubles. The band concert will start promptly at 2:00 and will be followed immediately by the May Festival.

The "Pavlowa Gavotte" will be the first number on the May Festival program. This will be given by Helen Frantz, Ferol Richardson, Beatrice Blomquist, Lena Schott, Edith Dingle and Josephine Brown.

The freshmen will give a number of feature dances: "Clap Dance," "Reap the Flax," "Money Mush" and "Pop Goes the Weasel."

Solo Dancing.

Marie Freehafer will give a solo dance, the "Jumping Jack."

The "Rainbow Dance" is to be presented by Ruth Coffee, Irene Johnstone, Ellen Waring, Ruth Kutnewsky, Inez Sanger and Marjorie Alberts.

KEEP THE SPIRIT THERE

Friday, always providing it doesn't rain, will see the observance of a custom dear to Idaho, and one, strange to say, for the existence of which some good reasons may be given. For the wearing of the green caps the presence of a husky vigilance committee is sufficient reason, but in Campus Day we have the backing of a morning of real work—work planned and done for the improvement of the University grounds.

Most of us go through the school taking it for granted that we need give little or nothing in return. There is no other time of the year when the student body gets together and works as a whole solely for the good of the school. Some students busy themselves with various activities, the results of which are often intangible and unsatisfactory, but on this day we can all work and when one sees that we have accomplished something. It is of little matter if the results are only hard earned blisters and sore muscles of whose existence we were quite unaware until after the day's work.

Campus Day is the one "get-together" day of the year for the student body of Idaho, a day when classes and groups are forgotten and all are united in work for a common good. And this year we are told that even the gulf separating faculty and students is to be bridged and that professors and instructors alike will help in the good work. Add to the morning's honest toil, which is in itself worth while, an afternoon of real college life, and we have a holiday that should always be celebrated in the finest way.

The spirit and tradition back of our Campus Day are fine. Keep that spirit and tradition by making the day a real all-college event.

NOW FOR THE CLOCK

The announcement of the English Club that half of the proceeds of its plays to be presented soon will be turned into the fund for the tower clock revives a movement that has been slowly dying from lack of attention. This fund was started some years ago by the alumnae, and a considerable amount was subscribed, but interest dwindled and the movement got side tracked.

It is through the pleasantness of our surroundings while in school that we form those associations that bind us to the University. And it is because of those associations that in after life we will urge others to come to school to take the places we leave, and it will be those same ties that will draw us back again and again to our Alma Mater.

There is scarcely anything that could be done which would bring the charm for years to come as would be given by a clock with chimes to tell the hours to the students as they come and go on the campus. When the new wing of the Administration building is completed the installation of the clock will be the one thing left to make the building complete. We surely have all tired long ago of looking up at the blank face with the little dark port holes in the center.

The English Club has started something decidedly worth while, and it is to be hoped that other student organizations will back up the movement in the proper spirit.

THE CAMPUS ROOMER

Last Saturday night
There was a young buck
Up to the tussle
And he was having
A very good time
That is he was
Covering lots of territory
Somebody asked if
He was dancing
But nobody was able
To figure it out.
He had a new hold
For every dance
But for some reason
He couldn't get
The final decision.
He resorted to several
Varieties of neck holds
But due to the fact
That the dance
Only lasted
Until eleven thirty
He just couldn't
Make the grade.
He only danced
Part of the Freshman
Special
And then it looked
Like he was out
There on the floor
Alone.
The innocent bystanders
Were unable to figure out
Whether or not
He should have been
Sentenced to Orofino
Or present his partner
With a wooden medal
For resisting his
Numerous onrushes
During the course
Of the evening
It wasn't exactly
What you would call
The Shimmie
But it was "New Stuff."

It has been roomered that there is going to be a baseball game with Pullman next Saturday morning. The team took its weekly turnout yesterday. If four more of the bunch had been out, it would have been a great success as those four were all that were needed to make up the nine.

One thing to think of anyhow is the fact that there is no danger of going stale.

Probably the largest assembly of "Corridor Dogs" ever gathered together at one time took place last Monday morning between nine and nine eight. To a stranger coming in the building he would have been puzzled as to whether it was a Bolshevik meeting or a Chinese school. A few of the long winded ones hung on throughout the hour and managed to bark long and loud enough to disturb all the classes.

At last there is some agitation to make an attempt to procure the funds for the mythical Ad building clock. A few dollars and some cents have been accumulated for the cause during the last ten years and after counting it over several times it has been definitely figured out that there is enough to purchase the hour hand and about fifteen dollars worth of ticks.

The English Club has graciously offered to donate half the funds from plays. It didn't take so long after all for it to show that it is good for

something.

Here is a chance for the other 156 varieties of "Clubs" to show their financial standing.

Our revered faculty are getting ready for their little job on Campus Day. It is up to them to build the stage upon which the senior class will present a little Shakespeare for our approval some time in the future.

There has been considerable argument as to how it should be constructed; the head of the English department declares that unless it is built according to the lines of unity, coherence, and emphasis it will be a complete fizzle, while the chemistry department states that unless the "molecular weight" is to be considered before hand there is no use in starting in. Probably the words of wisdom uttered by the physics department will be accepted as final because they have clearly shown that it is a dead cinch. It must be built on the ground.

Professor Lewis at Weippe. Professor H. T. Lewis, head of the department of economics will leave soon for Weippe to deliver a commencement address.

Faculty Women Romp.

The faculty women's costume party given at Ridenbaugh hall Thursday evening was a huge success. Only a few were masked but all were costumed so cleverly that it was interesting to discover who each one was. There was a great variety of costumes, including coy little girls, maids from the 18th century and some representatives of the sterner sex. The rooms were decorated with a wealth of apple blossoms, and numerous candles furnished the light. An informal program and dancing furnished the entertainment for the evening.

Estelle Hendershott, Thelma McGhee, Frieda Vanter, Fern Vickerman, Elma Milgard and Mildred Milgard were week end guests at the Gamma Phi Beta house.

Camille McDaniel, Ruth York, Katherine McCormack and Cora Jones were Chi Delta Phi dinner guests Wednesday evening.

TRACK MEN HIT W. S. C. SATURDAY AFTERNOON

Idaho Rooters Will Go En Masse to See Classic Struggle.

The biggest event in the spring athletic calendar of the University will be pulled off at Pullman Saturday afternoon when the track teams representing the two institutions will clash to settle the cinder and field supremacy for the 1919 season.

Comparative dope on the two teams is scarce and predictions as to the final outcome are hard to make at this time. Washington is strong in the distance runs while Idaho undoubtedly excels in the sprints and weights.

Always Close.

The annual dual meet between the two schools is, outside of the football game, the greatest attraction and they have always been hard fought from start to finish. Such scores as 67 to 64 and 66 to 65 in 1916 bear evidence of the hard fight that Pullman put up before taking the count and every indication points to an equally bitter affair Saturday. In 1916 in order to win, Idaho was forced to take first in the 220, the next to the last event, and win the relay. The rooters that accompanied the team on that trip can testify to the excitement that was cut loose when the last man on the relay team romped home winner by thirty yards. Close and exciting finishes are in order Saturday and the meet will be close the whole distance.

Mentors Quiet.

The coaches are backward in giving

out any advance dope but the usual bear story from across the line has been floating around for some time and the less of it gathered in the better. Doc Bohler always has a better team than he is wont to admit and the team that meets Idaho Saturday will not be doing their events in the slow time that was published for the public after their interclass meet.

Let's Go, With Them!

Good support from the bleachers and bank will help a lot to drive the men on for that final sprint or for the few inches more that are needed to win, and as many as can possibly make it are urged to be present at the slaughter of the Prides of Pullman.
