

# The University Argonaut

VOLUME XX

UNIVERSITY OF IDAHO, MOSCOW, FRIDAY, MAY 9, 1919

NUMBER 29

## CINDER MEN PRIMED FOR W. S. C. BATTLE

"All in Good Condition," Says Coach Matthews, But Refused to Predict Outcome.

### MANY ROOTERS WILL GO

Great Delegation of Idaho Sport Fans Will Journey to Pullman to Witness Struggle.

"Every man is in fit condition. Other than that I have nothing to say," said Coach Tommy Matthews after the final workout last night preparatory to the battle tomorrow afternoon when Washington State College will be met in the annual track and field meet at Pullman.

A hard week's work put on the finishing touches and today the team will rest. The showing of the team on the whole has been entirely satisfactory and at the eleventh hour it looks like an even chance for Idaho. Coach Matthews will have a team that is strong in the sprints and weights but of unknown-caliber in the middle and long distances.

W. S. C. Looks Good in Distances.

In Phillips, Ratchford and Smith, W. S. C. has a trio of experienced distance men, and Jenne is a hard man to beat in the high jump and pole vault. Parker, quarter-miler, has a high school record of 50 2-5 but he will need all of it against McCallie Saturday. W. S. C. sprinters are an unknown quantity, the graduation of Schaefer leaving a big hole, but it is not anticipated that Idaho dashers will experience any difficulty in taking a couple of places in these events.

### Broad Will Be Battle.

The battle between Moe and Jenne in the broad jump will be an interesting one, as each took a first and second jumping against each other last year. Pullman has no new weight men and with the invincible trio, Irving, Perrine and Pearson working against them, they are not considered dangerous.

### Sixteen Will Wear Winged "P"

The following men will be entered in the events as noted:

100 yard dash—Capt. Richmond, Thompson, Moe.

Mile run—Campbell, Jackson.

Shot put—Irving, Perrine, Pearson.

Pole vault—Romig, Cline.

120 hurdles—Howard, Perrine, Cline.

440 yard dash—McCallie, Morris.

Discus—Irving, Pearson.

220 yard dash—Richmond, Thompson, Hartwell.

High jump—Burke, Irving.

880 yard run—McCallie, Campbell, Morris.

Javelin—Irving, Perrine, Moe.

220 hurdles—Moe, Perrine, Hartwell.

Broad jump—Moe, Irving, Perrine.

Two mile—Campbell, Jackson.

Relay—McCallie, Richmond, Moe, Thompson, Morris, Campbell.

### Big Crowd Going.

From the number of men that have signified their intention of accompanying the team it looks that the old Idaho Fight will be in evidence on the side lines as well as on the field. Here's to a win Saturday.

### NO "MAKE-UP" DRILL.

#### THIS WEEK-END

"Make-up drill is called off this Saturday in order that all of the students of the battalion who wish to go to Pullman to the Idaho-W. S. C. meet may be able to do so. All deficiencies which are supposed to be removed Saturday will be suspended until Thursday of the following week.

There are many new rifles from which the heavy black grease must be removed. This will afford ample opportunity for students to make up back work at odd hours.

## DENIES "NO PICNIC" RUMOR

Dean French Amazed at Rumor They Were to Be Forbidden.

Miss Permeal French, dean of women of the University of Idaho, expressed great surprise at the rumor which is circulating thru the university that she disapproves of Sunday picnics. Miss French said her opinions were quite the contrary, and that there is no better way to spend a Sunday than out in the beautiful woods.

She feels, however, that Sunday should not be neglected in a religious way and that the student should at least attend the morning services of his church.

Dean French said that properly chaperoned picnics are one of the most beneficial recreations of college life. She stated, however, that due care should be taken to prevent accidents, and that picnics should return not later than nine.

She believes, however, that in all group picnics, whether large or small, there should be proper chaperonage, in order to maintain the high standard of the university.

## TICKETS ON SALE FOR INTERSCHOLASTIC

Nine Hundred admissions to Annual High School Classic Must Be Sold.

### DOPE ON TEAM IS SCARCE

Lewiston Looks Strongest in North—Orofino Man Enters Seven Events.

The tickets are on sale today for Idaho's big interscholastic track meet on May 16th. There are nine hundred tags, and every one of them is going to be sold, according to the committee in charge. Student Manager Cornelison will leave Monday for Lewiston and Genesee to put on a ticket drive there.

### Not Much Light.

Advance dope on the teams is hard to find, but real competition is expected in every event. Lewiston will undoubtedly send up a strong team. They won the meet held at Lewiston this year in which several north Idaho teams were entered. Their team also carried off the honors here last year. Genesee reports a strong lineup also. A big crowd of rooters will be here from both towns.

Not much has been heard about the southern Idaho schools but Boise has always had a strong team.

### Lewiston Now Has Cup.

The winning team will be awarded the big Idaho interscholastic cup. It is held now by Lewiston. It will have to be won two more years in succession to be kept permanently. Boise held it two years but lost the next to Colfax, Wash., whose team won it the next year, but was not given a chance to enter the meet last spring. They sent back the cup and this year as last, the meet will be for Idaho high schools only.

### Many Prizes.

A banner will go to the school winning the relay and a special medal to the man taking the largest number of points.

### Enters Seven Events.

Only one entry has been received as yet. Orofino will send a team of four men. One of these is entered in seven events: the 50, 100, 220 and 440 yard dashes, the discus, javelin and high jump. If he is at all successful he may repeat the feats of Richmond and Lamb of Boise; Nordyke and Parker of Colfax and Schroeder of Orofino.

Y. W. C. A. Organizer Coming. Miss Ethel Hazlett, a Y. W. C. A. organizer from New York, will visit the university May 23 and 24.

## BAD WEATHER FAILS TO DAUNT WORKERS

M. P.'s Find Few Deserters—Afternoon Program Hindered By Cold.

\*\*\*\*\*  
\* WHAT THERE IS LEFT \*  
\* 6:00 Luncheon. \*  
\* 7:00 Glee Club. \*  
\* 8:00 Dance in Gym. \*  
\*\*\*\*\*

A cold wind and a cloudy sky greeted Campus Day workers today, but did not in the least squelch enthusiasm for the morning program. The afternoon portion was seriously inconvenienced, however, by the bad weather conditions.

Generalissimo Rettig's forces were on hand promptly that the M. P.'s were able to vent their zeal upon only three deserters. "Clay" Keane, Russell Parsons, and "Bunny" Moore took the cold water remedy, and then, unable to find further victims, the police carried Verne Patten over to the gymnasium for a morning eye-opener.

Nearly all of the work planned was completed by shortly after noon, and the ordinance department soon had a truck on the road returning the tools.

Every student and faculty member, besides a large number of town people, will eat supper together at six o'clock. Immediately afterward the Glee Club will entertain, and the students will join in a "pep" meeting for the W. S. C. contests tomorrow. The dance will start at 8:00. The admission is 25c per individual.

## GLEE CLUB CONCERT SCORES BIG HIT

Large Audience Delighted With First Appearance of College Entertainers.

The University of Idaho Glee Club scored a distinct hit in its concert last night. All of the numbers were enthusiastically received by a large audience. Perfect harmony was the distinguishing quality of Professor Bangs' proteges.

The specialty artists won particular applause. Mrs. May Rose Conwell was brought back for an encore after her reading of "The Spinner and the Sun." Miss Helen Wegman played with her characteristic technique and skill, Mendelssohn's Radno Capriccioso.

The club presented Old Kentucky Home, Honey Town and Little Rumbling Rose in a unique way, the stage and auditorium being in semi darkness.

### WILL TALK ON BOLSHEVISM

Authority on Russian Situation at "Y" Next Wednesday.

"Russia and Bolshevism" is the title of the lecture to be given by Professor Frank W. Golder of the W. S. C. faculty, at the "Y" hut, Wednesday, May 14, at 4. Professor Golder comes to the University under the auspices of the Economics Club.

Mr. Golder, according to Professor H. T. Lewis, is well informed on his subject. He was born in Russia and came to America, returning to Russia at least once before the war. He was in Russia during the Russian Revolution and is now working with a committee on the peace problems in Russia.

He spoke at assembly two months ago on "Internationalism," and it is largely because of the enthusiastic reception which he then received that he was asked to return for a second address to an Idaho audience.

## Stunt Committees Proclaim Watchword "Originality-Secrecy"

Mystery, deep and solemn, enshrouds the deliberations of the various class stunt committees. Access has been denied to newspaper reporters lest someone should perchance, gain an inkling of the all important proceedings.

The "stunt" committees have been closeted for days in a great effort to spring something absolutely original. The one thing of which each committee is certain is victory.

From this unnatural silence should come forth a package of surprises for onlookers.

Rumor is, of course, busy and we are certain of a large representation of freshmen organized with characteristic freshman "pep."

The sophomores, too, promise big things to come and rumor has it that the faculty and other familiar figures are to suffer from "soph" ingenuity.

The two upper classes are even more scrupulous in concealing their intentions but they seem altogether prepared to win glory in the contest of originality.

## PULLMAN BEWARE! IDAHO COMES BACK

Baseball Players Meet W. S. C. Saturday Morning; "Blea's" Battlers Ready.

Idaho plays Washington State College in baseball Saturday morning at Pullman. Coach Bleamaster's men are out after Pullman and with Rettig in the box Idaho has an even chance at a win. Pat O'Brien has been switched to third base. "Bunny" Moore will take Pat's place at short. Alquist will play left field.

Captain Rettig is an old timer in the box and can hold Pullman to a few widely scattered hits. With Idaho finding the Pullman delivery and cutting down the Idaho error column it is decidedly possible that Idaho will turn the tables on the school across the way.

In practice recently the boys have been hitting the ball hard. In the infield practice Idaho infielders are grabbing the hot ones and hopping the ball to first in great shape. With the required amount of Idaho support and less discouragement, "Blea's" ball players will bump Pullman hard.

The probable lineup and batting order:

Hunter, second base; Moore, short stop; Thomas, catcher; Rettig, pitcher; Alquist, left field; O'Brien, third base; McCrea, first base; Weber, right field; Kinney, center field.

### "FORTUNE AND MEN'S EYES"

#### ENGLISH CLUB FEATURE

"Fortune and Men's Eyes," one of the latest plays of Josephine Preston Peabody who wrote "The Piper," will be a feature of the last meeting of the English Club which will be held Wednesday, May 21 at 7:30 p. m. at Ridenbaugh hall. It is a poetic play presenting a supposed episode in the life of Shakespeare and will be read by Mrs. H. W. Conwell, Mr. W. H. Bridge and members of the club. Before the play is read, Dr. G. M. Miller will give a brief introductory talk concerning the episode itself.

### IN AUDITORIUM SUNDAY

\*\*\*\*\*  
\* Mr. J. Stitt Wilson, ex-mayor \*  
\* of Berkeley, California, and a \*  
\* world student of humanity will \*  
\* speak in the university auditor- \*  
\* ium on the subject of "Con- \*  
\* structive Christian Democracy" \*  
\* Sunday evening at 8:00. \*  
\*\*\*\*\*

## STUDENTS BOOST FOR GREATER IDAHO

Issue Call to Arms in Campus Day Orations This Afternoon.

### WILL STRIVE TO REPAY

"We Realize Our Debt, to The University and the State," Says Sandelius.

"What we can do to make a Bigger and Better Idaho" was the keynote of the speeches by the class representatives in their Campus Day talks this afternoon.

Abe Goff, president of the freshman class, spoke of the new era which is now confronting us after the greatest war in history and of the unique position which America now holds in the world. In mentioning the new opportunities opened to students at the university he said: "Here at the university we must strive to become not only intellectually more adept, but also we must strive to develop those humanitarian principles which the world calls for today.

"To the freshman class this call is especially strong, for they have three more years before them. From the spirit and energy shown by the class in the year just closing there can be no question as to their ability to make the most of the opportunity before them."

### Sophs Back of "U."

Speaking for the sophomore class, Boyde Cornelison mentioned the large number of representatives of the class of 1921 in each of the different branches of college activity. He spoke of the splendid class spirit and told how, with that spirit, they expect to help make a "Bigger and Better Idaho."

Patrick O'Brien, representing the junior class, had for his subject "What we can do for our Alma Mater." In speaking of our debt to the university he said: "Little do we realize what our Alma Mater has done for us until we have gone out and faced the great problems of life.

### Expresses Gratitude.

"Is there not some way whereby we may show our gratitude for the many things she has given us? Little can we give for what we have received, but could we not leave some memorial in the form of a beautiful fountain or something that will add to the beauty of the campus? Could we not take upon ourselves the task of completing the purchase of the tower clock and chimes? Yes we must leave something to show our appreciation for what we have received."

### Student Life Vital.

For the senior class Walter Sandelius spoke of student activities and of their importance as an educational factor in developing responsibility and cooperation, and of our debt to society and of the gratitude and sense of obligation felt by the class as they are leaving the institution, realizing that the state expects, in giving us a free education, our services to society.

### Will Give All.

In closing he said: "We shall try to live so that the world will be better for our having been here four short years, for our having been here to celebrate this campus day."

## TRUNK FULL OF "FIXIN'S" FOR Y. W. C. A. ENTERTAINMENT

"International Right" will be given at the "Y" hut next Wednesday night by the Y. W. C. A. A trunk of costumes, dolls and flags from European countries sent to the college by the Northwest Board of the Y. W. C. A. will be on exhibition. Moving picture slides showing customs and scenes of these countries will be shown.

**THE UNIVERSITY ARGONAUT**

Published every Tuesday and Friday during the college year by the Associated Students of the University of Idaho.

Rates: Per year, \$1.25, except subscriptions outside the United States, which are \$1.75.

Entered at the postoffice at Moscow, Idaho, as Second Class Mail Matter.

**WATCH FOR US**

The Argonaut will appear on Tuesday and Friday of next week, and regularly on those days for the remainder of the year. Help make the Argonaut a newspaper by telling what you know to the reporters.

**ON TO PULLMAN!**

Idaho-W. S. C. rivalry will explode tomorrow in a struggle which promises all of the hair-elevating thrills of the famed track and field battles of the past. The Silver and Gold athletes have meditated many a torturous hour over the two heart-breaking misfortunes of last spring when victory slipped away by the relay route, and have spent many more similar hours in priming themselves for the retaliation scene tomorrow.

Track has always been the Idaho spring sport. Among the most resplendent pages in her athletic chronicles are the records of Idaho's victorious teams in this branch of sport. Edmundson, Matthews, Phillips, Massey, Morrison, and a score of others are the Gem State contribution to the track history of the Northwest.

There are no intercollegiate meets on McClean field this year; but with the W. S. C. and the Northwest Conference events at Pullman there is no reason why the Idaho men should not have the backing of at least 500 yelling rooters in both of their most important struggles.

A Silver and Gold victory tomorrow will place Idaho near the top of the dope-sheet for all-northwest and Pacific Coast honors. Show your loyalty by being at Pullman tomorrow when the wearers of the winged "I" come on the field.

And, by the way, the baseball team plays tomorrow morning. Will you be there? The team is out to erase that 24 to 1 defeat. Let's help them!

**ARE YOU WEARING THE TAG?**

Tickets for the Interscholastic track meet to be held here next Friday are now on sale. The Interscholastic is an annual event started by the students for the purpose of getting in touch with their future comrades. As a stockholder in Idaho's fame your assessment is one dollar.

IS EVERYBODY HAPPY?.....We haven't received a communication for a long time.

**Poor Man!**

Spokesman-Review headline: "Spokane Congregational Club Will Honor Whitman Head for 25 Years."

**THE CAMPUS ROOMER**

**Chaperones.**

Probably the most boresome and non-essential contrivance ever put before the mind of the common university student is the type called a "chaperone." "Skinner's Stabilizer for Loose Brains" is every bit as necessary, would be just as practical and a lot more convenient. It is certainly hard luck that men and women who had "brains" enough to struggle to college, would know how "they" worked after they got there.

The Board of Research has declared that:

- (1) Alcohol
- (2) House Papas
- (3) Dean of Men
- (4) and Chaperones for a ten-minute date, are things to be abolished.

The following qualifications are absolutely necessary to be a "bona fide" chaperone:

- (1) Shall have been married long enough to celebrate Golden Anniversary.
  - (2) In handling couples numbering over fifteen, must be equipped with at least four hundred yards of barb wire (for fencing purposes) two machine guns (latest type)- and a thousand rounds of ammunition.
  - (3) Shall have served as a suitable chaperone in at least twenty other institutions and have recommendations from same.
  - (4) Sight and hearing must be perfect, and not subject to bribes.
- (Note. Anyone fulfilling these requirements, will be busy until the end of the year.)

Of course everybody is wise to the fact that we are going to tromp on the boys from the "little school" over the line next Saturday. If the dope isn't upset by some dark horse emerging out of a near-by alfalfa field, they ought to have about as much chance over there as one man would have in painting all the barns in Iowa red, in a week.

Blackinger and "Doc" Scott are running a close race for make up drill. At the present rate of speed the winner will still be drilling when "Gabriel" has learned to "jazz" on his old trumpet.

The sophs had a class meeting the other evening. There were four boys and five girls there. The annual officers were elected. It was a very amiable meeting—everything was unanimous, and in a couple of cases "pusillanimous." In the words of John D.—what is life without struggle, or he who shoots first wastes the first bullet.

**OFFICIAL ANNOUNCEMENTS**

Advertise your class and club meetings in the OFFICIAL ANNOUNCEMENT column. We have made special provisions whereby notices for this column which are dropped in the Argonaut box by 9:00 a. m. on Tuesdays and Friday will appear in the issue of the same morning.

**BOOKLET WILL SOON BE READY**

Publication Commemorating Idaho Dead to be Issued Memorial Day.

A memorial booklet in honor of the University of Idaho men who lost their lives in the Great War is being prepared by a committee consisting of Professor H. T. Lewis, Dean J. G. Eldridge and Dr. George Morey Miller.

The booklet will contain the service records of the 32 men who gave their lives, their pictures as far as obtainable, a copy of President Lindley's dedication address and a copy of the resolutions sent by the University to the parents or relatives of these men.

It is planned to get this souvenir on Memorial day when exercises in honor of the "Idaho" dead will be held.

**Why Go to "Idaho"**

The choice of a university or college to be attended should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2d, a competent faculty; 3d, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

1. Purpose and Field—  
Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Mining, Home Economics, Law, and Educational matters not only to students in residence but also to all who desire it throughout the State.
2. Faculty—  
The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are more than seventy workers in the agricultural extension division and fifteen agricultural county agents.
3. Equipment—  
Its equipment is ample. It has a library of over 40,000 volumes, excellent facilities for teaching literature, philosophy, and the social sciences, and well provided laboratories for the natural and applied sciences and for the technologies.
4. Students—  
Its students are earnest, wide-awake, and democratic. A large number of them earn their own way. Its alumni now occupy high positions and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The six colleges, the central agricultural experiment station and the sub-station of the U. S. Bureau of Mines are located at Moscow; the main agricultural extension office is Boise, and the agricultural sub-stations and demonstration farms at Caldwell, Sandpoint, Moscow, Aberdeen and Felt.

**Kappa Dance.**  
 The annual Kappa Kappa Gamma dance took place on the evening of April the 26th. Many of the Alumni were present.

Edith Day and Ethel Cornwell were week-end guests at the Kappa house.

Glen "Hank" Hallam returned to Moscow, Tuesday evening. He has been in active service in France for more than six months. "Hank" is a brother of Lieut. Clyde Hallam, who graduated in Civil Engineering in 1916.

**ARMY COLLEGE MEN**  
**TAKE WORK ABROAD**

Thousands Detailed to French and British Universities and "Y" Schools.

**A. U. U. HAS TWO THOUSAND**  
 Curriculum Includes All Branches Collegiate Work—Terms Last Three Months.

Secretary Stokes of Yale, who is chairman of the committee representing the Army Educational Commission in this country, said "over six thousand students from the army were registered by the middle of March, these being divided among the following colleges: College of Agriculture, Arts, Business, Education, Engineering, Industry and Trades, Journalism, Law, Letters, Science, Medical Sciences and Music."  
 Two Hundred Courses.

The preliminary catalogue shows over two hundred different courses, the largest number being in Agriculture, Engineering, Letters and Science. A student can carry almost the same work as he could at a representative American university. Under Economics and Social Science, for instance, are the following courses: Fundamental Economic Theory, Economic History, Trusts, Labor Problems, Elementary Sociology, Social Problems, Modern Philanthropy, Transportation, Delinquency, Modern Social Theories, Money and Banking, Corporation Finance, and Modern Social Betterment Movements.  
 Stress Good Citizenship.

Special emphasis is placed on good citizenship and Saturday mornings' work is given over entirely to the Department of Citizenship, for work in Civics, General Information and Foreign Relations.

The teaching faculty includes over five hundred men drawn from the Y. M. C. A. for developing the plans of the Army Educational Commission.

Each term of the university covers a period of three months, the first term began the first of March and will end the last of May. The next term will cover the months of June, July and August.

Each student carries a minimum of three lectures or recitation hours daily for five days a week, and four and a half hours daily in study periods.

Like British Schools.  
 In addition to the University at Beaune, the Army Educational Commission has arranged for students to attend British and French Universities. A recent cable from London reports the enrollment of American soldiers in British Universities as follows: Oxford 200, Cambridge 205, London 725, Edinburgh 215, Glasgow 265, Sheffield 20, Bristol 21, Birmingham 75, Manchester 75.

**D. G. Annual.**  
 The Delta Gammas will give their annual dance in the K. C. hall Saturday evening. The idea of a pavillion dance, will be carried out.

Grace Taggart is spending the week-end at the Delta Gamma house. Mrs. Erb, Lewiston, Idaho, is spending the week-end with her daughter, Betty Barr at the Delta Gamma house.

Dean and Mrs. E. M. Hulme and Professor and Mrs. von Ende were dinner guests of Gamma Phi Beta Wednesday.

Mr. and Mrs. H. W. Conwell and Mr. and Mrs. C. L. von Ende were dinner guests at the Kappa Kappa Gamma house Thursday, May 8.

Delta Gamma entertained at dinner Wednesday evening for William Langroise, Bob Hibbard, Ralph Bowers, Frank Brown, Henry Torsen, Clyde Williams, Thornton Wyman, George Phelps and Kenneth McDonald.

In France there are two thousand American students at the Sorbonne in Paris alone, and about two thousand at the other French universities, including a large number at Bordeaux, Toulouse, and Grenoble.

At each of these universities there is an American Army officer in charge and a representative of the Army Educational Commission acting as Dean of Students. No student is detailed to a French university unless he has had at least two years' work at an American university.

Other schools have been started for students who are not far enough advanced for college work. Among these are an Army Farm School at Allery, a Correspondence College and a system of Post schools which give instruction in common school work.

Running through the whole educational plan abroad is the emphasis for citizenship. Not only is instruction in this subject emphasized at the various schools, but "institutes" are held at various places for intensive instruction.

Emphasis is also being placed on vocational guidance. Everything possible is done to supply soldiers with information regarding the industrial situation in America, and to give men personal advice as to trades and occupations.

**Novel System.**  
 In commenting on this movement Mr. Stokes said, "The army, with the help of the Educational Commission sent over by the Y. M. C. A., has developed one of the most interesting school and college systems ever inaugurated."

The work has now become so far reaching and important that it has been taken over entirely by the government.

**VURSE**

**Corridor Pups: Their Story.**  
 The Corridor Pup is a wooly thing, The lap-dog of time and women. Its bark has a peculiar ring And its bite is devoid of venom. His home is a long and dreary hall; He has no place to rest his bones, (Unless, of course, it is against the wall)

It is a dismal place of mournful moans.

This self-same pup is a wily thing, When his prof. goes stumbling by His bark assumes an educated ring, He talks of subjects of a sudden, dry. The thing about which he daily cries When censors are not to be had I cannot say but can only surmise, That it must be good, for she seems glad.

The Corridor Pup is a lovesick fool Who wanders idly all day long, Looking at her, his heart's bright jewel, And for a place to sing his song.

**It Always Has Been: Old Students Couldn't Fathom Finances**

Students of 1919 are facing the same problems that the students of 1902 faced, according to an old Argonaut discovered by Professor Lewis. An athletic notice warns the managers of each department not exceed \$10 per annum in currying necessary expenses, without a vote of the board of directors.

Another notice says that the Debating Council will not be responsible for any bills not contracted by the manager or some one duly authorized by the council.

The Argonaut of 1902 was published weekly and was in the form of a magazine. The first article deals with Romanticism, a lengthy discussion of one of the most interesting movements in English literature. A very important debate with the Lewiston Normal took the question: "Resolved, that railroad rates should be fixed by government authority." This question is almost the same one to be debated by the University of Montana and Idaho in a few weeks.

The advertisements are particularly droll. One reads: \$3.00 FOR SHOES SUCH AS YOU HAVE OFTEN PAID \$3.50 AND \$4.00 FOR. GUARANTEED. Another advertises ice cream in season, and one says, "Drink Hot Soda and Smile."

**STUDENTS TACKLE STAGING**

**Four Undergraduates Working on Production of English Club Plays.**

The problem of staging the English Club plays, "Helena's Husband" and the "Glittering Gate," which are to be produced May 19, has interested a number of students, according to Professor G. M. Miller.

At present Abe Goff, Ted Hege, Gipson Stalker and John Gill are helping plan the staging of the plays. The construction of the Glittering Gate itself is one of the difficulties of the production of the play. For "Helena's Husband" it is necessary to contrive a Greek setting.

A committee, consisting of Ellen Waring, Gladys Clark and Josephine Brown, has charge of the making of the Grecian costumes for "Helena's Husband."

**FIERCELY, W. S. C., FIERCELY!**

**Where is That Fighting Chess Team of Yours?**

Is Pullman afraid to fight? Chess enthusiasts at the University of Idaho are anxiously asking this question, for it appears that two challenges to play chess tournaments have been issued and Pullman has calmly ignored the fact.

Faculty members of the University of Idaho Chess Club challenged the members of the W. S. C. faculty to a chess tournament some time ago, according to Professor H. T. Lewis, and have received no acceptance. Sometime later the Y. M. C. A. Chess Club at W. S. C. sent a challenge to University of Idaho students playing chess. The challenge was accepted by Mr. Chaney and there the matter dropped. Is W. S. C. afraid to fight?

**PRESIDENT WELL RECEIVED BY LEWISTON AUDIENCE**

President E. H. Lindley's address on business psychology and salesmanship was heartily appreciated by the Lewiston business men, according to the Lewiston Tribune which says: "The Lewiston business and professional men were afforded a rare treat last evening in the lecture on 'salesmanship' by Dr. E. H. Lindley, president of the University of Idaho." This lecture was the first of a series to be delivered before the Lewiston business and professional men by Dr. Lindley. The lecture course will be resumed next fall and one lecture each month will be given.

**RECONSTRUCT RIFLE RANGE FOR MILITARY DEPARTMENT**

A rifle range is to be built by the University for the use of the military department. It will be arranged and located west of the Administration building and just below the arboretum. Both ranges of 200 and 300 yards may be fired on the range when completed. As soon as it is completed the instruction firing of the battalion will be taken up.

## FINAL INTELLIGENCE RESULTS GIVE MEN EDGE OVER COEDS

WIDER WORLDLY EXPERIENCE GAVE ADVANTAGE IN CERTAIN PHASES OF TESTS, SAYS DR. REED—CONCLUDES JUNIOR COLLEGE IS ADVISABLE.

"With very few exceptions the men of the University of Idaho are more intelligent than the women," says Dr. H. B. Reed, of the department of psychology, after completing the results of the intelligence tests given early in the second quarter.

There were 225 men and 159 women who took these tests. Each paper has been carefully graded and an accurate record made of every answer in each of the eight parts of the examination.

### Demand General Knowledge.

The questions asked in the test called principally for broad worldly knowledge: Who was Falstaff? What is Madras? a tedder? Country Gentleman? Many unusual situations were presented.

### Almost Universally Maintained.

It is that men are broader in their learning and are better able to meet new conditions than women. Table 1 illustrates this fact by showing the medians of intelligence for both men and women, arranged for each age from 17 to 22 years.

Table 1.

Years	17	18	19	20	21	22
Women	127	132	108	115	113	138
Men	117	133	118	121	125	142

### Wide Experience Helps.

It is seen that in every age over 17 years the men have made the highest scores. Professor Reed says, "This fact should not be taken to mean that the men students taken as a whole have more ability or are more intelligent than the women students. The slight advantage indicated by the medians in favor of the men can be explained by the closer home life of most girls and their contact with fewer affairs outside of domestic relations than is common among boys and men." Table 1 shows a nearly uniform increase in intelligence for the men up to 22 years.

### Juniors Lead Classes.

Table 2 is another grouping that shows the men as superior to the women. This table is a comparison of men and women with respect to classes. Here, as in Table 1, the figures are the medians.

Table 2.

	Fresh.	Soph.	Junior	Senior
Men	115	128	146	133
Women	113	125	137	146

In this table there is a very constant increase for the women for the four classes. Senior women are several points superior to the men of that class. This table proves emphatically that the ability and intelligence of each class is much superior to the preceding class. This is brought about principally, it is thought, by the elimination of the weaker members of each class. Referring to Table 2 we find that the median for the senior men is below that of the women and also of the men in the junior class. It should be understood that there are only six men included in this estimate. The war has depleted their ranks to such an extent that this discrepancy in Table 2 is more than likely an accident. Increasing intelligence noticed in the classes is not true for the ages, as a glance at Table 1 will show, for here 21 and 22 year olds are practically no more intelligent than 17 and 18 year olds.

Table 3.

	19 year olds		21 year olds	
	Men	Women	Men	Women
Fresh.	116	102	116	96
Soph.	122	107	128	121
Junior	142	121	123	131
Senior	...	...	133	137

This table shows conspicuously that the intelligence of the younger members of the class is superior to that of the older ones. Among the 21 year olds, there is but one exception to a law including both sexes, that the greater the intellectual powers of boys and girls of a certain age, the farther advanced in high school or college they will be.

### Late-Comers Often Inferior.

"All students entering college later than their 18th year," says Dr. Reed, "may presumably be considered inferior in intelligence and will be ranked mostly as B's and C's if tested."

Another tabulator of medians that prove that superior students come early to college and comprise the youngest and most intellectual por-

## WANT UNIVERSITY MEN FOR SPEAKERS

Insistent Demands from Idaho High Schools for Commencement Addresses.

Instructors of the University are in great demand by the Idaho high schools for commencement addresses. In addition to the list published last week, President E. H. Lindley will deliver the commencement address at Payette, May 19.

Idaho instructors who will give addresses are Dean J. G. Eldridge, Prof. H. T. Lewis, Prof. G. M. Miller, Dean E. M. Hulme, and Prof. Ph. Soulen.

### Schedules Arranged.

The complete schedule follows:  
Dean J. G. Eldridge, Nez Perce, May 8.

Prof. H. T. Lewis, Weippe, May 8; Ilo, May 16; Orofino, May 29; Bo-ville, June 6; Burke, June 13; Cottonwood, June 7.

Prof. G. M. Miller, Southwick, May 22; Genesee, May 23.

Dean Hulme, Sandpoint, May 9; Juliaetta, May 23; Grangeville, May 29.

Prof. Soulen, Kellogg, June 20; Post Falls, May 28; Athol, May 16; Troy, May 30.

tion of each class, is Table 4.

Table 4—Freshmen.

Years of age	17	18	19	20	21
Men	122	126	116	112	116
Women	127	121	102	107	96

In support of this table Dr. Reed says that most of those students entering college at the age of 20 or later are certain to be of lower mentality and will naturally be eliminated before their junior year.

Of the men and women in both junior and senior classes, no age has a medium below 120, while no age above 18 in the freshman class of either sex has a medium above 116, one going as low as 96.

Professor Reed says that such a study as this should encourage the idea of establishing a junior college, offering practical courses for those students who are eliminated in the present system. The fact that there are no students in the junior or senior classes with a C grade of intelligence is an argument in favor of the junior college. Students entering college, who test C or below should at once be recommended to the lower college, thus saving the student and the state considerable time and money.

The intelligence test consisted of eight groups of questions intended to exercise as many kinds of mental ability. The men scored highest in six of the eight tests. The abilities called for in these tests were as follows:

- Test 1. Following directions.
- Test 2. Solving arithmetical problems.
- Test 9. Discrimination of synonyms and antonyms.
- Test 6. Completing number series.
- Test 7. Discovering analogies.
- Test 8. Giving information.

The women were superior in test 3, Common sense, and Test 5, comprehension of dissected sentences.

Professor Reed says that for many years it has been acknowledge that women have superior language ability and in tests for common sense and practical judgment they excel the men.

After all, the most significant thing learned in this study is the fact that the men and women are so nearly on a par in mental ability. Despite the nearly complete superiority of men over women as shown by the medians for ages and classes, Professor Reed states that they indicate no distinctly sexual differences.

The medians for all men and women of the university are:  
225 men, median 122.

159 women, median, 117.

The difference of five points here is of no material consequence, yet it is a well established fact that men are more capable as executives than women. The advantages held by men in such an exercise as these tests lie in man's greater ability to move quickly and to understand in less time than women the requirements of each new set of questions in the tests. The only groups of students whose

medians lie in the A grade or very superior intelligence are:

- Both sexes of the junior class.
- Women of the senior class.

### SEES VALUE IN TRADE SCHOOL

Prominent Mining Journal Lauds Idaho Work in Coeur d'Alenes.

The Miners' Trade School which is being carried on in the Coeur d'Alenes under the supervision of the School of Mines, received high praise in the last issue of the Engineering and Mining Journal of New York which is the acknowledged leader among mining periodicals.

The Journal says: "No better plan could have been devised to demonstrate to the miners of the future the advantages of efficiency and system.

"It will create a new interest in the work, providing an immediate and tangible reward for diligence and application."

The Miner's Trade School is an institution of practical instruction hundreds of feet below the surface of the earth.

### To Offer Auto Course.

A practical course in automobiles has been arranged for the summer session. It will be given by Professor J. C. Wooley, of the Agricultural Engineering department, and will cover the theoretical and practical work with automobiles.

The course will embrace two hours a day for the first two weeks of the summer session.
