VOLUME XXI

UNIVERSITY OF IDAHO, MOSCOW, TUESDAY, NOVEMBER 25, 1919

NUMBER 10

THREE WEEKS COURSE ON TRACTORS OFFERED

Factory Experts Will be Here to Aid University Faculty in Appealing to Farmers.

"Know your tractor. We offer an opportunity to learn thoroughly the own machine." This is the substance of an appeal being made to northwestern farmers by University of Idaho authorities in a recently mailed communication announcing that a three week's course in tractor operation will be given on the university campus from January 12 to 31.

Through the first week of the course, the faculty of the university agricultural engineering department will be assisted by several International Harvester company experts who will offer detailed instruction in the construction, operation and repair of International tractors.

Case factory technicians will have charge of the second week of the course. The Case company's experts will bring to the university cut-away parts and machines used in the training of men employed in their own factories.

University faculty members will direct the third week of the course. particular stress is to be placed on laboratory work in pouring, scraping, and fitting bearings, brazing, sharpening and tempering tools, grinding valves, removing carbon and installing magnetos and carburetors. Each week's instruction will be complete in itself, but it is thought that many will wish to stay through the entire course. No tuition fees will be charged.

President Lindley Returns From Chicago Thursday.

President E. H. Lindley is expected to return Thursday from Chicago where he has been attending the convention of the State Universities and that of the Land Grant colleges.

PLANS FOR STUDENT CONFERENCE MATURING

Churches of City Will Be Responsible For Several Delegates.

The separate churches of Moscow have come forward during the past week with offers to aid in sending University delegates to the Des Moines Volunteer Conference to be held the first of the year. At a meeting of members from several churches held Monday evening, it was definitely decided that the following churches would be responsible for delegates: The Methodist church has decided to send two representatives, the Presbyterian, the Christian, the Baptist, and the Swedish Lutheran, each one delegate. It is estimated that it will cost about \$140 to send each delegate to Des Moines, so that it will be no easy matter to raise the necessary funds. However, several of the churches have reported that they already have their amount raised.

JUDGING TEAMS AVERAGE HIGH

Outpace Oregon and Washington in Stock and Products Judging Contests.

University judging teams won honors in Portland at the Pacific International Livestock exposition last week, winning the Dairy stock judging contest and placing second in the animal husbandry and dairy products contests, averaging higher than Oregon Agricultural College and Washington State College teams. Much interest centered in the dairy contest, the first of their kind on the Pacific coast. They proved a definite success, with their future assured.

Professor H. P. Davis coached the Dairy teams, with Professor Morgan assisting the dairy products men.

The animal husbandry team, coached by Professor C. W. Hickman, after winning at Spokane and Lewiston, fell to second place. Charles Gray and Bunny Taylor placed high on the Idaho team.

Maurice Jackson and Buford Kulms placed high for Idaho, and first and second individually in the contest. Chod was high in the dairy products team, and third individually. The stock team brought two large loving cups and several individual prizes home with them.

A. S. U. I.
Very important meeting Wednesday at assembly hour. Many things vital to the students' interest will be brought up, including an Argonaut amendment, S. V. C., and other things.

COLLEGE OF IDAHO FOOTBALL GAME OFF

Caldwell Refuses to Play Frosh and Challenges Varsity—Team Votes No Game.

After sending enough letters to seriously tax the U. S. mail service, the College of Idaho notified "Pip" Dingle, Frosh coach, the first of the week that it was impossible for them to meet the Idaho Frosh in a Thanksgiving game at Caldwell.

Their alumni, they said, frowned on the plan and consequently they have arranged another game.

A few weeks ago the College of Idaho wired here for a game with the Frosh and at one time went so far as to put up a guarantee for the expenses of the trip.

A little later they evidently became more confident for one morning the whole campus was surprised to learn that the Caldwell school had actually challenged the varsity eleven to a game. The varsity at once voted down the idea of making the southern trip.

Following this, the Freshmen followed the lead made by the varsity a little earlier in the season and broke training for the season.

BASKETBALL HOPES BETTER THAN EVER

Four Regulars For Last Two Seasons Out For Quintet Again This Year.

Answering the call of Coach Hutchinson, aspirants for the varsity basket ball quintet reported for the first practice for the season Monday afternoon at the Gym.

The call was responded to by 50 men who will go through the daily grind of whipping into condition from 5 to 6 in the afternoon.

It is possible that a preliminary game or two will be lined up before conference contests start—which will be soon after the first of the year. The conference schedule will be arranged during the holidays.

Idaho has reasons to feel that its chances are good for going through the conference with honors judging from the dope on the team. For the last two years Idaho has taken the conference championship and this year, with the exception of Romig and Moe, star forward for two years, who is disabled, and out for the season, all of the men of last year's team are back working for their old positions. In addition to these regulars two other letter men are out. It is expected that several more men will turn out during the week.

Owing to the fact that the Gym floor is much too small to accommodate the number of men out for the team, the squad will probably be cut down or divided within a week or two.

The team will be led by Captain "Prex" Lindley, now going on his third year for Idaho. Prex will hold down one of the guard positions that he has occupied in the past. "Squint" Hunter, also on his third year, is probably the strongest candidate for forward that has turned out. He captained the team two years ago. With "Drom" Campbell, last year's captain, out again for the team Idaho need worry little about the center position. These men, with Romig, found comparatively easy sailing last year and with another year of experience on their shoulders they should bring the Cow College, and other hopefuls who long to have their quintet considered a basket ball team, to short breaths long before the final whistle blows when the season opens.

Coeur d'Alene Club Meets.

The Coeur d'Alene club held its second meeting at the Gamma Phi Beta House, Thursday, November 20. Future meetings will be held on the third Thursday of each month.

Gale Chamberlain was elected treasurer to fill the vacancy caused by the resignation of Percy O'Brien, who has left college.

FACULTY AT SPECIAL SESSION TODAY, GRANTS 3 DAYS VACATION

THANKSGIVING VACATION TO INCLUDE THURSDAY, FRIDAY, AND SATURDAY

At a special meeting today the faculty decided to extend the Thanksgiving vacation two more days. This was decided on because of the general desire of students and faculty to spend Thanksgiving at home, which would be impossible if only one day were allowed.

The reason that the vacation was to be restricted to one day was because heretofore, students have been very delinquent in getting back for their Monday classes. The faculty grants a longer vacation this year on condition that all students be back in time to attend all Monday classes.

COMMITTEE WORKS ON S. V. C. PLANS

To Present Matter at A. S. U. I. Meeting—Sutherland Heads Financial End.

"We feel confident that we will raise money to send our quota" states Jimmie MacPherson, in charge of the Students Volunteer Conference here. The student campaign is progressing under the direction of an executive committee. The committee consists Ernest K. Lindley, chairman; Margaret Byrns, Abe Goff, William Sutherland and Robert Eldridge. This committee, with the aid of a second committee, will make the selection of the delegates from the student body.

The financial campaign will be launched in assembly on Wednesday, when pledge cards will be passed around, and the amount subscribed written down. The committee, which will assist Sutherland, chairman of the financial committee, is as follows: Buck, Goff, Wood Proctor, Jackson, The Sargent, Rademacher, White, P. Babcock, R. Blomquist, G. Christen and Evadna Roberts.

As a stem winder Coaches Bleamaster and Hutchinson will expostulate a short time, and then the terriers of the gridiron will give free vent to their oratorical powers. In all, a snappy evening will be provided and no great amount of time consumed either.

INTEREST GROWS IN STUDENT CONFERENCE

Backers to Ask Attitude of Campus Towards Move at A. S. U. I. Meeting.

Plans for the sending of Idaho delegates to the Des Moines Student Volunteer conference the last of December are rapidly nearing completion, and all the details will be definitely arranged by the end of the week. The various churches of the city have responded generously to the movement and at least four or five delegates are assured from the student membership of the respective churches, and it is not at all unlikely that the expenses of one or two more will be defrayed from this quarter. The leaders in the movement are now looking to the campus for support in sending the remaining four or five delegates from Idaho. It is expected that it will cost about \$40 to defray the expenses of each person taking the trip.

To this end, the matter will be put squarely up to the student body tomorrow morning in A. S. U. I. meeting on the campus is toward the convention. Several rustling finance and executive committees have been formed by the Y board representing every corner of the campus to take charge of the actual work of raising the funds after the affair has been approved by the student body, and for selecting the delegates to represent the University.

Reports coming in from the colleges on the coast are that for the most part the only difficulty being experienced is in being allotted large enough quotas. The University of Washington, which was allotted fifty-four representatives, has now fifty-nine who wish to take the journey.

That Idaho is expected to come forward with her full quota of men is shown by the telegram received by President Lindley from John R. Mott, one of the big men of the world in Y. M. C. A. affairs, which reads: President E. H. Lindley.—The Student Volunteer Convention to be held

(Continued from Page 3)

An all-college men's stag bust will occupy the stage tomorrow night at the "Y" Hut. The affair will be given for our football men, and a snappy time is promised.

LAMBERT MURPHEY PLEASES AUDIENCE

Famous Tenor Has Voice That Held Admiration of Mixed Crowd—French Songs Please.

One thing was especially pleasing about the program presented by Lambert Murphey in the auditorium Wednesday night was that it was not one of the type usually presented by first-rate singers appearing in the smaller western cities, which appear to be compiled with the idea of patronizing the "uncultured" western musical taste.

After hearing Mr. Murphey one can understand how it is that he has won the place that he now holds in the world of music. In spite of the fact that the majority of the audience was unfamiliar with the oratorios of the masters, the singer presented his first numbers, a Recitative and Aria, by Handel, and the aria "If you with all your hearts," from Elijah, in such a way that even the most jazziily inclined were interested. His voice, being a tenor, lacked something of the dignity generally that is necessary for the most effective interpretation of a passage such as his first. This deficiency was made up by the singer's personality.

Most enjoyable of all was the second group, composed entirely of French songs. Possibly his French was a little faulty. But that is beside the point. These numbers seemed to be especially adapted to Mr. Murphey's style and in presenting them he reached the climax of his program, as far as this program was concerned. The high water mark of the entire concert was registered when he sang "Voi Griefidid," from Massenet's "Griselidis."

The enjoyment of the last two groups was detracted from in a small way by their sameness in character. But they were entirely enjoyable, nevertheless. The perfect interpretation of these simple ballads requires a voice of a pure lyric quality. The fact that Mr. Murphey presented them so well is only another complement to his ability as a singer. Mr. Coursen, at the piano, constructed a sympathetic background for Mr. Murphey's singing. After the concert Mr. Murphey stated that he was delighted by the enthusiasm and interest displayed by the audience.

Jones Congratulates Debaters
Members of the University debate team recently received the following letter from Robert O. Jones, secretary of State:

"Please accept my congratulations on your success in the try-out to select members of the Idaho debate team to meet W. S. C. I wish you success in the debate.

"I participated in a debate against Pullman some years ago with a unanimous decision in our favor, and I am interested in seeing you men handle them the same way this year."

Mr. Jones is a member of Beta Theta Pi.

IDAHO AGGIES WIN AGAIN AT STOCK SHOW

Pull Down First Honors Once More at Northwestern Show Held at Lewiston.

Another victory for the Idaho stock judging team was won at the Northwest Livestock Show, held at Lewiston, November 11th.

Idaho stock judges for the second time came back with sound reasoning in selecting the blooded stock, winning from the competing teams of W. S. C. and Oregon Agricultural College. Idaho men came out with the long end of the score, securing a total of 1647 points. Oregon jumped from her position of third at Spokane to second at Lewiston, while W. S. C. slid back to third place.

The people of Lewiston were much interested in the contest and numerous prizes were awarded.

CO-OP BOOK STORE FINDS BIG RESPONSE

Committee Obtains Suggestions From Colleges Having Tried the Plan—Will Report Soon.

The committee appointed at the last A. S. U. I. meeting for the purpose of investigating the feasibility of a co-operative book store for the University have reported some very satisfactory results from their inquiries and investigations.

The committee composed of Harmon Hosier, chairman, and Elmer Roberts, J. F. Cline, Harry Hartwell, and D. T. Proctor, committeemen, have written to several of the universities and colleges of the west where student book stores are in operation.

Obtain Detailed Reports.
To date, complete reports have been received only from the University of California and O. A. C. However, the reports from these two schools are detailed and are gratifying to say the least.

The store at the University of California began business in 1914 with its store fixtures consisting of two boards laid across boxes in the basement of the Ad building, and with a stock in trade of a few dozen text books. For some years text books were the only items handled.

Cooperative Rebate Plan.
Later a complete store was organized carrying practically all student necessities and many incidentals, such as candy, cigars, kodak supplies, stationery and many of the lesser articles for toilet use. A fee of one dollar was charged each student who wished to share in the profits of the store. This money was used as a capital stock. Any one was free to trade at the store but only those buying "Co-operative Tickets" would share in the dividends.

Text books and note books and actual school necessities were handled at the smallest possible margin above actual cost that was compatible with safety. Other articles, such as candy, jewelry and all "non-necessity" supplies were handled with the usual retail profit.

Tremendous Business Done.
In 1915, with a student body of slightly over 3000, the store did a business amounting to \$120,000. On the non-essential articles alone, a net profit of \$9,000 was realized. Dividends were paid to the individual student in proportion to his purchases, a sale ticket or cash register receipt being given with every purchase. These receipts are turned in every month and at the end of the year dividends are apportioned.

The University buys all note book paper in blank and uncut. It now employs three men in handling this end of the business. The paper is cut and punched to meet the needs of the students. It is supplied at one-half the usual retail price. Twenty tons of note book paper was made up in 1915.

The co-operative fee has now been done away with and every student is entitled to his share of the dividends, based on the amount of his purchases.

The store now consists of six departments, including the "joint," an up-to-date confectionery and lunch room, each department being under the supervision of a man who has been chosen for his competency in that particular line.

In 1915, a rebate of 10 per cent was declared to the students, and in stating this it must be remembered that all supplies were sold at a substantially lower price than at any other store in the city. Besides this rebate to the individual students, the store has a building fund of over \$15,000 and have made loans to the student body of some \$18,000. The total business of the store has now reached \$129,000 or 56 per cent of all money handled by the student body.

O. A. C.'s Method.

O. A. C. organized their store in 1915 with a student body of 2500. When the store was first opened a fee of \$2.50 was charged each student for capital stock, but this fee has since been reduced to fifty cents per year. At the beginning the store was handled by a manager and one lady assistant. At present there are six full time employees, several part time assistants and a general manager. The stock of goods carried at O. A. C. is quite extensive but is still incomplete on account of lack of room.

The stores at both schools are un-

A UNIVERSITY NEED

One of the most needed institutions on the campus is a Co-Operative Student Book Store, managed by a competent business man. And we venture to say that when the students of the University of Idaho fully realize what a tremendous saving can be made to the student body by having such a store, they will be behind the movement to a man.

There are at present nearly 800 students in the University of Idaho. The following figures have been proven to be a very conservative estimate of the expenditures of the average student for books and school supplies per year: Books, \$15; note books and school stationery, \$5, and incidentals such as eng. fountain pens, ink, etc., \$5, or a total of \$25 per year. And in fact this estimate is rather lower than the actual average. Multiplying \$25 by 25 gives the rather astonishing total of \$20,000 for school necessities alone, per year.

Based on actual figures from various retailers, it has been found that at present school books are being handled on a basis of something over seventy-five per cent above actual wholesale cost. Assuming that the book bill of the University is approximately \$12,000 per annum, it is to be seen that someone is making a gross profit of nearly \$8,000 dollars per year on books alone. The ordinary retail profit on such items as pens, stationery, ink, and other col-

lege incidentals, is about forty per cent, or a total of approximately \$4,000 per year.

And again, there is no method of computing the amount spent by the students of this University, for things which are non-essentials, for instance, candy, private stationery, penknives, kodak supplies, lesser toilet articles and the dozens of other small items that are commonly handled by such stores. It is a perfectly reasonable estimate however to say that the average student will spend at least \$15 per year for such articles or another \$12,000 per annum. Putting the gross profit at a very low margin, 25 per cent, it appears that there is another \$3000 dollars that someone is collecting from the students of the University each year.

All these figures are very conservative and yet they show that a gross profit of at least \$15,000 per year is the toll taken from a student body of only 800.

Mister student, here is a really worth while thing to hammer on and keep everlastingly after till we get it. It is a big problem, but there never was a problem in the world's history that good honest to gosh co-operation by the people affected, wouldn't solve. A lot of people are and have been paying income tax to Uncle Sam off of that little bonus that we have been so cheerfully contributing year by year. Let's salt that away in our pockets—what do you say? When the Committee brings in their detailed report about three weeks later, let's all be ready to jump in the game and put the Co-Operative Student Book Store across with the same punch and drive with which the team hits the line when they hear the students give the Old Idaho.

—Pique is being manifested in a small way around the campus due to the fact that it is rumored that our gymnastically inclined brother who gives nightly exhibitions of human contortions in the big shed behind the postoffice, is giving utterance to statements to the effect that the fabric of our social system here at school is constructed of iniquity, and dens of vice.

There is no positive authority that these babblings are true. It is sincerely hoped that they are not.

However, if they are true, the student body would appreciate it if he would state the authority back of his

statement.

No one can deny the fact that there are fraternity houses where practices are carried on that should not be carried on. Equally true is the fact that there are evangelists who are grafters and crooks.

But it is far from our intentions to even imply that the part under consideration has either of the above mentioned qualities. To do so would be an out and out case of libel on our part.

Still less fair would it be for us to imply that because there are crooked evangelists, all members of that calling are undesirable.

Considering the matter in this light the accused fail to see the justice of the remarks under discussion, if such remarks have been made.

It is doubtful if the accuser has the proper authority concerning local conditions to back up his statements.

If the brother is laboring under an erroneous impression, it might be a good policy for some of the local groups to invite him around and set him aright. Possibly an iniquitous game of "Hot-hand" would open up his eyes.

Working the suggestion both ways, it might be well for some of us to

drop around tonight to the big shed and see what he has to say.

If you have been rather undecided about joining the Drama League—think it over. It isn't as if you were being asked to join something that had no good reasons for existing. The Drama League is something worth while and by joining it you will provide yourself with worth-while entertainment.

You will have a chance to hear plays read that you should read, but are just naturally too lazy to; you will have a chance to become affiliated with the National Drama League; you will be helping toward the founding of a community theatre and you will be aiding the University and the Moscow Chamber of Commerce in getting good outside attractions.

If you are still undecided—consider this little item. The plan has worked well in other cities. We can make it work well here.

Ostie: "What song of Lambert Murphy's did you like the best?"

McGowen: "That one about water crying for a rest."

CO-OP BOOK STORE FINDS BIG RESPONSE

(Continued from page one)

der competent business men who devote full time to their duties. The stores are managed by a board of directors consisting of eight members, six students and two faculty members. Both stores are run on a strictly cash basis and both are incorporated.

That the stores meet with the hearty approval and co-operation of the students is shown by the fact that the business is showing a net increase of 15 per cent per year.

The committee are now at work here, in gathering data concerning the amount of all University necessities used per year. Figures concerning incidentals will be gathered later. Committee meetings are being held every ten days or two weeks and tentative plans are being drawn up. A

detailed report will be formulated on the results of the work and submitted for student consideration before the holidays.

 * Nov. 27—Sigma Nu house
 * dance.
 * Nov. 28—Sigma Alpha Epsilon
 * dance.
 * Nov. 28—Gamma Phi Beta
 * house dance.
 * Nov. 29—Kappa Sigma Thanks-
 * giving house party.

Mabel Sweeney spent last week in Spokane visiting with her mother. Sigma Nu entertained at dinner Sunday for Alice Bessee, Fay Morris and Esther Morris.

The De Smet Club dance was the sixth all-college dance of the year, and although not so largely attended as some of those previously, it was one of the best parties given in the gym as yet. That the combination of jazz artists, furnishing the inducement for the fest, meant business was demonstrated by the way they flung their first number. The dancers, occasionally reinforced with a little highly watered punch continued their play, with the exception of a favored few, who were allowed to seek the shelter of the Gamma Phi house at 10:30, until the execution of "Goodnight Ladies" at 11:30.

Professor and Mrs. Thayer of Pullman, visited at the Gamma Phi Beta house, Saturday afternoon. Mrs. Thayer is a Gamma Phi Beta from the Sigma chapter at Kansas. Oscar Weaver was a Wednesday evening dinner guest at the A. K. E. house.

The Gamma Phi Beta upperclassmen were guests at an informal house dance given by the pledges at the chapter house Friday evening. Before the dance the pledges presented the house with a mahogany chimes clock and mahogany candle sticks. The invited guests were Messrs. Graf, McGowan, Jeness, Cline, B. Johnson, J. Neal, Torsen, McQuaig, Glinderman, E. Kinney, Malige, Gale Chamberlain, Fred Chamberlain, Blackledge, Erb, A. Breshers, Campbell, Van Hoesen, T. Gerlough, Johansson, Evans, Plastico, Eagleton, Bedwell, Amundsen, Lemon, Sutherland, Howard, Russell, Scott, C. Hechtner, Leland Scott, McDougall, Wood, Ord, Chrisman, E. Chrisman, Soderberg, Holderman, Leitch, Brown, Freidman, Watkins, Williams, Barnes, Parks, Buescher, Gowen and Irving.

Mr. Cameron McEachren was a dinner guest of Sigma Nu Tuesday. Regner Kullberg dined at the A. K. E. house Friday evening. Cora Salter and Virginia McCrea spent the week-end in Spokane shopping. Gladys Putnam spent Sunday in Pullman visiting at the Kappa Alpha Theta house. Mrs. C. C. Click of Heppner, Oregon, is spending a few days with her son, Charles.

Delta Gamma entertained Friday afternoon with an informal at home, in honor of Mrs. O. C. Brown, their house mother. Over eighty invitations were issued. The members of Gamma Phi Beta were hostesses at an informal tea given Wednesday afternoon from four to six. This was the first of a series of open house teas to be given by the chapter the first and third Wednesdays of each month.

Mrs. J. Lockman of Nampa, was a Friday evening dinner guest at the Kappa Kappa Gamma house. Sigma Alpha Epsilon announces the pledging of Herbert Powell of Grangeville. "Sody" Owings was a luncheon guest at the A. K. E. house Sunday evening. Mr. Edwin Zable, ex '15, visited with the Kappa Sigs Thursday. Paul Gerrard, was a Sunday dinner guest at the Kappa Sigma House. Frances Bartlett was a visitor at his home in Orofino during several days of last week.

Professor and Mrs. C. W. Hickman were dinner guests of Phi Delta Theta Sunday. Mr. J. E. "Monk" West, '16, was a week-end guest of Phi Delta Theta. The rather notorious "campus man" of a few years ago is now a broker and life insurance man at Seattle. He stopped on his way to Lewiston. Professor O. E. McCnall was a dinner guest of Phi Delta Theta Sunday. Cameron McEachren, a former law school student, has returned as a senior in the law school. He was wounded in service in France.

Northwestern delegates to the conference will have a special train, taking all colleges as far south as Portland. The Idaho delegates will meet the special at Spokane at 10 P. M., Dec. 28, and will arrive in the Iowan town on the morning of Dec. 31, and the conference will begin the same afternoon in Convention Hall. Professor Webb of the Engineering Department, who was formerly on the faculty staff of Des Moines College, has been instrumental in securing reservations for the Idaho delegation for the time they will spend there, as word has just been received from President J. A. Earl of the Des Moines College that rooms will be reserved in the dormitories for them.

The Misses C. Jones, Adelman, Calloway, Grace Taggart, and P. Thomas and the Messrs. Mattson, M. Penwell, Holland, Wedgewood, Colburn and Mc Namara attended the Sigma Alpha Epsilon informal at Pullman Friday. Mary Hepton entertained her sister from Lewiston Saturday and Sunday. James Ailshie, former university student, has pledged Sigma Chi at Virginia. Mr. and Mrs. Harsh of Deary were Thursday evening dinner guests at the Gamma Phi Beta house. Mr. and Mrs. Eldridge and children, Madam Eldridge and Mr. and Mrs. Livingston were dinner guests of Delta Gamma Wednesday.

In the death of Jay Rand Sanburn of Coeur d'Alene last week the University of Idaho lost one of its staunchest and most interested supporters. Mr. Sanburn took justifiable pride in the University, because it was thru his own personal efforts that the University was founded when it was, and was located in Moscow. Aside from being one of the authors of the bill Sanburn personally presented the bill before the legislature, against much contrary sentiment, and opposition. After much bitter debate his cause finally won out, and the University of Idaho was founded, and located at Moscow.

Professor and Mrs. H. T. Lewis and daughter, Marjorie, were Sunday dinner guests of Alpha Kappa Epsilon. Clarence Sanderg, Idaho graduate of the class of 1918, was a dinner guest at the Beta house Thursday. Miss French was a Spokane visitor last week. Nile Saunders, from W. S. C., visited his cousin Marie Saunders at Ridenbaugh Hall Saturday afternoon. Octavia Gowen, Ruth Blomquist and Mrs. Brown were Sunday dinner guests at the Beta Theta Pi house. Alpha Kappa Epsilon entertained at dinner Sunday in honor of the fraternity sisters: Hilda Thomas, Margaret Friedman, Marjorie Smith, Jenny Gilman, Zella Ellis, Emeline Gilman and Mabel Paterka. Sigma Alpha Epsilon entertained at dinner Sunday for Mr. and Mrs. H. H. Conwell and the Misses Calloway, Adelman, C. Jones, Grace Taggart, Wiley, Fletcher and Jackson.

Ever since the beginning of the institution Sanburn has taken an active interest in the progress and development of the school. He presented the students with a large and very complete scientific collection consisting of minerals and other specimens. This unfortunately was lost in the Ad building fire of 1908. Mr. Sanburn had been residing in

Coeur d'Alene for the last few years where he kept continually in touch with "his University." With his death the University and state have lost a man of unusual power and ability.

CAMPUS ROOMER

THINGS WERE THANKFUL FOR
 That we ain't cross eyed. We once heard of a girl who was so cross eyed that the tears ran down her back, and she died of bacteria.

That we ain't pigeon toed. We once knew a guy who was so pigeon toed, that he had to go sideways when he walked and he was always getting sidetracked.

That we don't belong to the Coeur d'Alene Club.
 The we don't go to the Cow College over the hill.

That the Frosh are obliging us with a new sidewalk.
 That we don't talk like Prof. Cushman. Why be a partner in crime, especially when it's murder of our mother tongue—a shoe tongue, or a wagon tongue, but our mother tongue—never!

Never take your lady love bonbons, she will condemn you for needless extravagance. A ten cent sack of dry gum drops will be more in form and at the same time will give you a chance to get out that long suppressed question as the lady will be occupied with the task of untangling her jaws and thus unable to talk for long periods. In fact you will be able to make up for all the long months of silence that you have suffered.

Ed: "Why the hurry?"
 Co-Ed: "My stockings are running"

The University social center has now changed from the Moscow pool hall to the tabernacle run by Bro. Bulgin. The Kappa Sigs are earnest and consistent repenters, but the Phi Deltas run a close second. Jazz Barber holds the shouting record.

Info.
 Dear Sir—Your column of information is of more real value and has more constructive significance than any other section of the "Argonaut."
 President Cindley.

Did You Know
 That Plasty Plastino indorses Tanlac?

Mr. Dooley
 Ye know, Hennissey, I've been seeing so many young wimin going towards the village wid hand bags lately, I've been thinking it must be extended trips they're goin' on fer the Extinction Department. But tis not so, Hennissey, but tis to have their pictures took they're goin'. In the handbags is their party dress and a piece of tulle. The tulle is fer protection from the burning electric light rays in the studio. But what protection the dress offers I could'na discover. The min are after havin their pictures took to. Twas the other day I see Cliff Caelman coming out of Eggans wid something in his hand, "and what have ye?" I ask. "Proofs," he replies. "And proof of what?" I ask. "Of me discent from the ape," he answers and wint off.

Barber: "We cut hair to fit the head."

Ken Hunter: "Aw, that aint any excuse for you leaving nothing on top."

That Leo Buescher prefers vanilla extract?
 That Bill Sutherland's favorite magazine is "Vogue?"

That Bill Carder only has two dates a week—but it isn't his fault?
 That Al Kinney had to go home from the De Smet Club dance at 10:30?

Sara was a shimmier,
 She shimmed pretty keen,
 The boys all liked to watch her shake
 Her wicked tambourine.
 —Sun Dodger.

Quit Kidding the Goldfish!
 Somebody has been handing Pooosie the oolong, and we protest. Kid the Midnight Micks, the Wise Willies, and the Sophisticated Sons, but leave the innocent youth A-lone! Now Pooosie has a false impression and he's got a projector for his voice when he needs a muffler.

How Many Feet?
 The last time Pooosie breezed over to the Kappa house, he had to back up to the door to get close enough to ring the bell.

Wonder what Vern Wilkinson meant when she said, "When Miss Freich puts her foot down, you just can't get around it."

DID YOU KNOW THAT—
 The lawyers are petitioning the board of regents to supply a thirty foot, all leather davenport to be placed against the west wall of the hall, for the sole use of law students who become over-fatigued due to extreme concentration during class hours?

That it is time to lay away B. V. D.'s in moth balls?

That the Peace Conference has at last decided the fate of the kaiser? They are going to make him wear an all-wool suit of underwear with the expectation that he will scratch himself to death.

Old Man Jones was asked the other day how his son was getting along at the University and he made the following reply:

"He's forward on the basketball team, backward in Algebra, behind with his payments for board, overdrawn at the bank, but leading the world in his applications for money."

Sometimes, someone is going to voluntarily contribute a column of stuff for the Argonaut and the whole staff will have apoplexy.

That a properly conducted student book store would save the students of the University of Idaho \$15,000 per year—think it over.

Economical Hints for Students
 Due to the high cost of men's hosiery, they should be handled with the same care as T. N. T. Upon removing them at night take pains to place them to an out of the way corner where they will not be stepped on and thus cracked. Extreme care should be taken to avoid dropping them in the morning when they are cold: Much breakage will be prevented if caution is used.

Don't buy text books or note books as requested by the profs. It is a needless waste of money. You can

always borrow from some of your more extravagant friends, and anyway they have no practical value, merely taking much time from your fussing and (three cushion) English. No prof. believes that a text book can present the ideas as they should be so what's the use?

ASCETIC MUD SLINGERS BUST TRAINING IN SPOKANE

"Waiter! Bring me a cracked crab, some chicken a la king, five pounds of chocolates, three chocolate malted milks, two packages of cigarettes and five cigars," shouted Gus Irving to a plate juggler in the Pacific hotel dining room, where the members of the what had been the Idaho football team were frantically attempting to break training Saturday night in Spokane.

Gus' request was only one of a matter of twenty similar ones, all voiced at once. The waiter, out of fear for his sanity, led to the kitchen and ordered the cook to prepare everything for twenty.

Barber and G. Evans starred in the scrimmage which followed, displaying brilliant headwork in manipulating their lobsters. Brigham passed the butter to Glinderman, but the play was intercepted by Gerlough, who chopped off two slices. Nagle broke up a fake play on the part of Whitcomb, who was attempting to corner the sugar. Manager Cornelson ended matters by passing the cigars. After the first few puffs, several of the boys were heard to mutter sentiments to the general effect that they wished that Rdyd would learn to smok.

The foregoing festivities were held in the "Oasis" dining room. The gang thinks the proprietor should be arrested for making money under false pretenses.

The management of the Pacific Hotel graciously threw the house open to the team on its arrival in Spokane. Special tables were ar-

ranged for them on the mezzanine floor of the dining room. Throughout their entire stay the greatest courtesy was shown them. The institution had probably entertained teams before and was adopting the best way of saving it's towels.

After the dinner all of the boys inclined towards womanizing attended a dance by the Loyal Club of the Knights of Columbus in the K. of C. hall in honor of the Gonzaga and Idaho teams.

What Boyd Cornelson did during the evening remains a mystery. He was not seen for a considerable period after the dinner. The only clue is furnished by "Chick" Evans. Chick states that as he was tucking himself into the bathtub. (He considered it dangerous to sleep more than six in a bed—he heard Boyd mutter vague things about a two-wheeled cart full of bottles and things. Could it be—???) But no, it isn't possible. Anyway, he returned without having to be bailed out.

Sporty Sputterings

By HAMOND EGGS.

If you are a crook see Coach Blea. He is an expert along this line and now holds a gym class, which in no way resembles the instructions given in the Boise reformatory. He offers free advice to any one who is in need of corrective exercises for that lame leg, arm or back. In fact, if you are ailing in any manner, shape, or form, other than financially, call at his office and he will be glad to give you free advice as to treatments etc.

He is now instructing a class of twenty-two men in corrective exercises, among whom are three service men who were wounded in France. This class is increasing in numbers every day and all are very welcome.

Oregon Aggies Win First Conference Victory.

The mighty Cougar took the count Saturday when the underdog Beaver from O. A. C. chewed them down to a 6-to-0 score on the Multnomah Field at Portland last Saturday. This game acted as a complete climax to the series of games which have delighted in upsetting the plans of old man Dope. Evidently our friend Coach Lodell, who booted the pigskin between the posts in two beautiful place kicks for the Aggies' six points, had been reading how they do it back East. The score boards of the big schools have shown that aerial attacks as well as infantry battles can win football games, but this game has been the most remarkable one in our neighborhood to demonstrate this fact. His first goal from the field came in the first quarter when he planted a hi-one squarely between the posts from the 38-yard line. It was a perfect kick and would have carried as well from twice the distance. Lodell's second kick was from the 28-yard line in the third period. The ball sailed in the already established groove and O. A. C. had her total of six points.

W. S. C. had a good bunch of scrap but the Aggies pulled the stone-wall stuff and kept the Cougars at a standstill five different times when they were threatening with a touchdown.

Lloyd Gillis, the plunging Cougar fullback, and Carl Lodell starred for their respective teams.

Idaho to Have Wrestling Team.

This year Idaho will be represented in the wrestling game with the schools of this conference. Montana, Oregon, O. A. C., W. S. C. and Idaho have taken up mat work as a college sport and many fast grappling contests are to be slated for the coming season.

Local Tournament in January.

No definite date has been set for the Idaho try-outs, but sometime in the first week of January a tournament will be held to select the huskier who will represent the different weight classics for the Idaho team. The following weights determine the class under which the grapplers will be listed:

- (Under or) 115 to 125 pound class
- 125 to 140 pound class
- 140 to 165 pound class
- 165 pounds and over

The old S. A. T. C. mess hall, which now rests in the rear of the Ad. building, will soon be moved to a position directly behind the gym. It is to be connected with the steam line of the heating plant and overhauled to form a cozy little room for the mat experts and those interested in the fistic art of self defense.

"Babe" Brown will assist Coach "Blea" in the mat instruction and promises some interesting and rigid forms of entertainment for those interested in making the various teams. "Al" Kinney will have charge of the work which

deals with hogs, drivers, swings and punches. This work will start just as soon as the new quarters can be arranged to accommodate those who are anxious to try their skill or for those who want to acquire it.

Basketball season is looming close to the horizon of the Kingdom of Sports, and Idaho has recognized that fact. Hutch has issued the call for hoopers and the largest squad that has tried for a position in many years has responded. Last Wednesday night was the first gathering and since that time there has been a steady increase of men who have proffered their services to again put Idaho at the head of Western Basketball.

At a first glance it would seem that Idaho was again in line for that success but such may not be the case. Moe, who has for the last two years been the unanimous choice for the mythical five is unable to turn out this year due to a bad injury sustained last year in a baseball game. This will go quite a way toward breaking up the Hunter-Campbell-Moe combination that has more than once brought home the bacon for the Vandal crew. Hutch's great job this year will be to create another forward who will be able to adapt himself to their style of play. To do this he has for material, "Chick" Evans, who was a letter man in the championship team of two years ago, and Fox, and Boyd Brigham.

The guard positions are very well taken care of this year with "Wild Bill" Carder as the runner, and Captain "Prex" Lindley. Both have shown themselves to be able to break up the opposing offensive. Besides these men there are two or three substitute guards from last year for instance, Cob Cozier and Cornelson, either of these men well able to take up the burden of defensive in case of accident.

At center we have "Drom" Cambell who for two years has successfully secured the tip-off for Idaho. "Drom" looks like he will go a lot better this year than he has ever gone before and that is saying a lot. "Pat" Perrine is well qualified to fill "Drom's" place should anything happen.

Practice this year has started easily with a short snappy three-quarters of an hour work-out. Hutch doesn't want a stale team on his hands along about the time when the wins are necessary. The work now consists of a few minutes of basket shooting to limber up, and then setting-up exercises (monkey-drill), after that the leather horse and the mats are given a few moments of consideration. Later after a short fast passing has warmed the men, a few laps concludes the afternoon work-out. Hutch says that this will be the program for the week's preceding the Xmas holidays, after which the real work will begin.

The men who are out now are: Campbell, E. Hunter, Prex Lindley, Carder, Evans, Cornelson, Miller, Wright, Fox Thompson, O. Hunt, Cozier, Brigham, Scott, K. Hunter, Van Hoesen and Carlson.

Fresh Basketball Coach.

Candidates for the Fresh quintet will receive their instructions with aspirants to places on the varsity five, the decision having been made to place both squads directly under the supervision of Coach R. F. Hutchinson.

State High School Tournament.

The dates of March the 18th and 19th have been set aside for the state interscholastic basketball tournament to determine the championship team of the high schools of the state.

Pan-Handle High School Tournament.

Plans are being made to hold an interscholastic basketball tournament at Coeur d'Alene on February 19-21 to determine the district representative teams for the state tournament to be held here.

Let's Skate This Winter!

"Who's the guy what can handle it correct?" Lets find him and let him investigate the matter of making a nice big ice rink for the Idaho campus. The Fair rounds or the Varsity Field could either one be flooded and with a little labor (by the Frosh) be transformed from a mass of frozen mud to an ideal skating resort.

Many places have rinks of this sport where the ice is frozen by Mother Nature without the aid of any artificial chill producers. Several colleges of the West have hockey teams and, while we can not hope to enter a competitive team for some time, there is no reason why we can't at least enjoy the privileges which a large rink would facilitate.

Will Idaho skate?

On your toes men for some live wire stuff in that old high school basketball tournament. Schools, which will have to get the Prof. to play because of a shortage on the number of able bodied men, have written in regards the

date of the all-state try-outs. Never before have so many different schools shown an interest. When they began to appear from the brush the old Idaho gym will remind us of that free-for-all fight we saw in Mexico City.

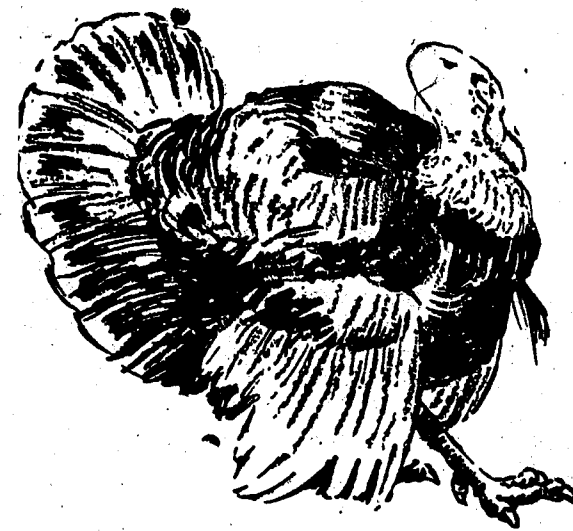

"We would like to have you feel free at any time to write us about athletic work, organizations of county athletics, systematizing of play-ground work, gymnasium class work, class-room gymnastics, or any other phase of physical education." The foregoing is a quotation from the circular letter sent out to the high schools of the state by the University Athletic Department. This is simply an endeavor to build up the Idaho lads into future wearers of the varsity "I".

All ye who crave that old service P. E. work are welcome to work out with the R. O. T. C. men between the hours of 4 and 5 on Mondays, Wednesdays and Fridays.

But few track men were witnesses to the exhibition in their line which was staged from the Sigma Nu house to the Ad. building and back last Saturday when one of the campus hounds found a five-gallon can tied to his tail. (Time for round trip 10:2.)

Ken Hunter says that is sure some speed, but he has another spotted which he thinks can lower the first pup's record.

With contributions still coming in this reason we wish that every one the Roosevelt Memorial fund totals who has not yet contributed would 90 dollars. "Up to date we have not bring their share to A. S. U. I. meeting been able to collect from all the stu- ing on Wednesday, where we will dents," states E. K. Lindley, "and for make another effort to raise our quota."
