

The University Argonaut

VOLUME XXI

UNIVERSITY OF IDAHO, MOSCOW, TUESDAY, DECEMBER 9, 1919

NUMBER 12

DEBATERS ON TOES FOR W.S.C. GLASH

Lively Talk Fest on the Calendar For Friday Night With Neighbors Across the Line.

Primed for action and with a stern determination to repeat past victories, the University of Idaho debating teams will meet those of Washington State College for the first forensic clash of the year, Friday, December 12. The affirmative team will meet the W. S. C. negative team here in the auditorium at 8:00 o'clock. The negative team will invade Pullman and appear there against W. S. C.'s affirmative team the same evening. The question is: "Resolved, that the U. S. should adopt a system of compulsory military training."

Questioned last night Professor Chenoweth, the debate coach, made the following statement: "I can prophesy nothing except that the team will put up a good fight. Considering the short time which we have had to get ready I think they will be able to make a good account of themselves. Further than that I cannot say."

The affirmative team is composed of Carl Burke, William Carpenter, and William Briscoe. Burke, it will be remembered, was one of the team which met W. S. C. two years ago, so this contest will be no new thing for him. Carpenter and Briscoe are both new to intercollegiate debate but showed exceptional ability in high school.

The negative team is composed of Lawrence Huff, Philip Buck and Ray Agee. Huff and Agee have represented Idaho before and Buck made quite a name for himself at a declaimer during the S. A. T. C. last year. Huff was the shining light of our champion team which defeated W. S. C. in 1914. It was his summing up and rebuttal which won for us that memorable contest.

Prof. Chenoweth, the coach, who is to carry on the excellent work of Dean Hulme (now traveling on leave of absence in Europe) is himself a speaker of no small ability. He is a graduate of West Virginia Wesleyan with an M. A., from Harvard, and from 1913 to 1917 he was a student in the Harvard Law school. At the outbreak of the war he enlisted and was appointed as a U. S. Army student to Oxford. He was discharged last summer with the rank of 1st lieutenant and became a member of the English department here this fall.

Of W. S. C.'s debaters nothing is known, but it can be depended upon that they will be no mean antagonists. This is the first debate of the year for them also, and Friday evening the students of both colleges will get their initial chance to observe the mettle of the respective teams.

MRS. MACINTIRE TO READ ORIGINAL PLAYS

English Club Will Hear Member of Harvard Dramatic Club Thursday Night

"The Ivory Tower" and "The Godson," two original plays by Mrs. H. J. MacIntire, a member of the English 47 class of Harvard, will be read by the authoress at the meeting of the English Club which will be held in the Y hut Thursday, December 11.

The 47 Workshop, as it is called, is taught by Professor George Pierce Baker, and one original play is necessary for admission to the class, provided that the play shows promise. The plays are produced generally by the Harvard Dramatic Club.

Among the successful playwrights who got their start in this class are Cleve Kinkaid, author of "The Fourflushers" and "Common Clay"; Frederick Ballard, author of "Believe Me, Xantippe" and "Young America"; and Edward Sheldon, author of "Salvation Nell," "Romance" and "The Nigger."

Owing to the fact that the Economics Club could get President Lindley only for Wednesday evening, the English Club postponed its meeting until Thursday.

Prof. Bonnett in Kansas. R. K. Bonnett, professor of farm crops at the University of Idaho, left yesterday for his home in Topeka, Kansas, on a vacation trip. While in the middle west he expects to represent the University at a meeting of the American Association for the Advancement of Science which will be held in St. Louis December 29 to January 3.

Overseas Men Notice. The Economics club will meet men of the University will meet to discuss some business measures Wednesday evening at seven thirty in Morrill Hall. The question as to the disposal of the surplus fund remaining from the Armistice Day dance will be brought up and action taken upon the matter.

SOUTH IDAHO TRAIN NOT YET ASSURED

Students Have Not Signed For Special—Must Have At Least Fifty More

Unless more students sign up for the southern Idaho Christmas special it is probable that the only accommodations provided will be extra Pullman cars which will be attached to one of the O. W. R. & N.'s regular trains, according to an announcement made by a railroad representative who discussed the situation with persons interested Friday. Thus far less than 150 undergraduates have put their names on a sheet of paper placed on the bulletin board for that purpose and there must be at least 200 signatures before railroad officials will begin to talk in terms of special trains.

Southern Idaho students who have not yet signed the bulletin board record are urged to do so at their earliest opportunity. Those who have made the trip in recent years declare that there is a vast difference between a special train and special Pullmans.

DRAMATIC PRODIGES ARE ASSIGNED PARTS

Results of Recent Try-out Prove Satisfactory—Embryo Actors In Action Soon

A small number of the braver members of the student body have ventured for the past few weeks before the select few which made up the committee for choosing the most able theatrical individuals in our institution.

The results of the English Club's recent try-outs proved successful and the members of the English Department who are interested in the possibilities of Idaho in a dramatic line are encouraged.

Those who have not been assigned parts in the present group of plays will have an opportunity to represent the University in dramatics at the beginning of the second semester when a three-act comedy will be presented.

Those chosen for the dramatic work in the university for the first group are Abe Goff, Brian Bundy, Nora Ashton, Phoebe Hunt, Edith Dingle, Vaughan Price, Rex Kimmel, Mike Thontz, Margaret Moseley, Caroline Logan, Phil Buck, Helen Johnston, Mary McKenna, Avis Selby, Oscar Weaver, and Margaret Kutnewsky.

Professor Cushman requests that the above named students report to him within the next two days to go over their parts.

PLASTINO ELECTED FOOTBALL MONITOR

Pocatello Man Gets 1920 Gridiron Position—Is a Two Letter Man.

Felix Plastino of Pocatello, a veteran of three gridiron seasons has been elected captain of the University of Idaho's 1920 football team. Plastino was a backfield substitute in 1916, varsity center in 1917 and pivot man again throughout the season just passed.

The Idaho captain-elect who was chosen by several critics for a place on the all-northwest eleven, is perhaps the ablest center in the history of football at the university. An accurate, consistent passer and a tower of strength defensively, he is expected to perform even more sensationally under the stimulus of a captain's responsibilities.

"Plasty" was elected nearly unanimously at the "P" wetting banquet. His outlook for a winning team next year is as good if not better than for many years, and if that has anything to do with it, the 1920 team will be a success.

UNIVERSITY WOMEN CAMPAIGN FOR LEGISLATIVE SESSION

CO-EDS MAKE BIG EFFORT TO WIN SPECIAL SESSION OF LEGISLATURE IN JANUARY TO RATIFY FEDERAL WOMAN'S SUFFRAGE AMENDMENT.

"Votes in 1920," is the watchword with which 250 women of the University have begun a campaign for a special session of the Idaho legislature in January to ratify the federal amendment on woman's suffrage. What promises to be the biggest and most important campaign in the history of the University was opened today at a general meeting of The Woman's League in which the following resolution was voted: "Resolved that we as members of The Woman's League in the University of Idaho give our enthusiastic support and cooperation in the endeavor to secure a special session of the legislature in the State of Idaho for the ratification of the federal suffrage amendment."

The Committee of Four. A committee of four composed of Lar Vern Borell, Inez Callaway, Mercedes Jones and Marion Byrnes announced that plans have been completed for bringing into the campaign every woman in the University, all women Alumnae, and all the woman's clubs of the state, as well as the faculty, men students, editors and others who are willing to help.

"We shall take the campaign into every home town in the state during the Christmas holidays," says Miss Borell, chairman of the town cooperation committee, "and we believe success is sure."

Will Cost Nothing. The campaign will be short and sharp and will require no financial contributions. Two weeks of intensive work at the University will culminate in a definite set of instructions by which each coed will work in her home town during the holidays. The purpose of the drive will be to show that there is a genuine need for a special session in January for purposes of ratification.

Idaho a Critical State. Twenty-one states have now ratified the amendment, others have promised to ratify before February. Idaho and some six other states remain necessary in order to complete ratification before the primaries and the presidential election in 1920. Idaho is sure to ratify, if the special session is called. This session will probably be the means of giving 17,000,000 women a vote in 1920.

How They Will Work. It is expected that in every woman's club in the state, a talk will be given by a University student dealing with the issue at hand. The alumni will be reached by other students, and the editors and congressmen by others. A corps of student lecturers is being trained for the purpose.

Character. The campaign will be non-partisan and limited to state interests without official connection with any of the national suffrage associations. There will be a definite intention to avoid antagonisms of all sorts and to make negative. Great enthusiasm is being shown by the women of the University.

Eight Committees. There are eight committees organized about the Committee of Four as a directive center. They are, publicity, research and statistics, University organizations, town cooperation, states woman's clubs, faculty and Moscow, alumni, men's cooperation. Through these committees it is planned to make every woman's organization in the University cooperative in the work. Each sorority and other social organization will have a

S. V. C. DELEGATES ARE STILL IN DARK

So far there has been nothing definite decided about delegates to the S. V. C. convention at Des Moines, Iowa. Seventy-five names are in and under consideration. Those in charge wish it understood that the pledge money is due by December 10, and only a part of it is so far in. Plans for a "Jitney Dance" to be staged in the gym Saturday afternoon are under way, the proceeds to go toward sending Idaho delegates to the convention.

campaign chairman as well as such societies as the Y. W. C. A. and the Woman's League.

Of Great Value. "The campaign is unique," say leaders in the work, "in combining three elements rarely associated in collegiate projects, namely, a serious and important purpose, an enthusiastic and general cooperation, a specific object. It offers an opportunity for a cooperative accomplishment unequalled in importance by any such project in the history of the University or, so far as we know, of any other American University."

What Others Say. PROFESSOR BROWN: "I am in favor of a special session of the legislature to ratify the woman's suffrage amendment. As soon as a sufficient number of states ratify the amendment to make it operative, enough others will fall in line. The extra session would be limited in action to the purpose given in the Governor's call, hence the session would be brief and comparatively inexpensive considering the object of the session."

MRS. E. H. LINDLEY: "I am extremely interested in this movement, and feel that it would be a great misfortune if ratification were postponed for another year."

MISS FRENCH: "The serious problems which are confronting the nation must be considered by enlightened and clear thinking men and women. To such citizens all must look for help, and help can most effectively be given thru the ballot. The right to the ballot should be the right of both men and women. Idaho should promptly ratify the amendment."

PRESIDENT LINDLEY said in part: "Idaho, being one of the first states to have equal suffrage, should, therefore, be one of the first states to ratify the amendment; otherwise it will indicate to the nation that suffrage has been a failure in this state, whereas it has been an unqualified success."

PROFESSOR CHENOWETH: "I hope the campaign will succeed." PROFESSOR H. T. LEWIS: "I am highly in favor of the immediate ratification of this amendment by Idaho. I believe that immediate action should be taken on this amendment for two reasons: 1. If not acted on at once, this issue will be obscured by state and national campaigns next fall. 2. The state and national issues of the coming year are of vital import, and the vote of every thinking American is needed."

Town Chairmen. The following are town chairmen, who will have general charge of the campaign in their home towns during the holidays: Gladys Beach, Burley; Leah Borden, Shoshone; Marion Byrnes, Moscow; Inez Callaway, Boise; Helen Cochran, Emmett; Norma Cowgill, ; Marion Chubbuck, Blackfoot; Hallie DeCamp, Idaho Falls; Edith Dingle, Coeur d'Alene; Eleanor Faris, Buhl; Evangeline Fleming, Kellogg; Ruth Litton, ; Olive Meritt, Sandpoint; Gladys Malloy, Orofino; Bernadine Mosier, Kendrick; Irene McKay, Wallace; Sarah Nettleton, Nampa; Ada Povey, Hailey; Helen Roberts, Twin Falls; Ernestine Rose, Salmon; Edith Starr, ; Alice Swanson, Pocatello; Freda Soulen, Moscow; Lorine Tavey, Blackfoot; Nathalie Tecklenburg, Wallace; Lucit Throckmorton, Rupert; Grace Vogelson, iston.

MAJOR SWAN IN SPECIAL ASSEMBLY

Major Eugene LaForest Swan of the United States medical department, was at the University Monday and spoke to the men at a special assembly in the morning. Major Swan spoke upon social hygiene, and gave a talk that was very interesting. In the evening he gave an illustrated lecture to the men of the university at the Y hut. It had been hoped that he could have stayed over two days, but because of the disheveled railroad situation, it was necessary that he proceed to his next stop at Missoula.

Economics Club Meeting. & Wednesday evening at seven thirty at the Sigma Nu house, President Lindley, who has recently returned from an eastern trip, will address the members of the club upon the industrial conditions of the east. This will be an interesting meeting and the cold should not prevent a good attendance.

HOPES SMASHED FOR EXTENDED VACATION

Air Castles Go Tumbling When President Announces Plentiful Supply of Fuel.

For the past several days stories have been in circulation on the campus to the effect that the University would close shortly owing to a lack of coal. These stories have been scattered so generally, and are so erroneous that the following statement was given out by the President's office:

The coal supply on hand is ample for immediate needs. Our contract with the coal companies provides for continuous delivery. So far this delivery has not been interfered with and it is not likely to be inasmuch as the quality of coal used by the University is not suitable for general use. While the coal situation is critical and there is need to conserve fuel, it is not anticipated that the University will be hampered unless the situation takes a decided turn for the worst.

A.S.U.I. PASSES THE ARGONAUT AMENDMENT

Minor Reservations Made to Original Resolution—Previous Athletic Motion Rescinded

At a short meeting of the A. S. U. I. called last Wednesday afternoon at four-thirty, the amendment to the constitution providing a new system for election and appointment of the editorial staff of the Argonaut was passed with a few reservations. The amendments made to the proposed amendment were merely technical matters, and do not seriously change the purpose of the resolution.

The resolution passed the previous week concerning the acquisition of a new football coach, was brought up for reconsideration by a motion made by A. J. Priest. The action taken at the previous meeting was unanimously reversed. Members of the football team considered that the action taken the week before was hasty, and in no way expressed the true feelings of the Student Body.

It was also voted that a hundred dollars should be appropriated from the miscellaneous fund of A. S. U. I. towards sending Idaho delegates to the Des Moines Student Volunteer Conference to be held the first of January. This action was felt necessary because of the poor results from individual subscriptions.

DRAMA LEAGUE PLAYS "HER HUSBANDS WIFE"

New Faculty Institution Draws Large Audiences for Each New Play—Will Continue Thru Winter

Never choose a wife for your husband; the honor may not flatter her. This is the moral of "Her Husband's Wife," a witty and delightful three act comedy presented by the Drama Club of Moscow last Tuesday evening. Mrs. Bangs did clever character work as the self-qualified invalid. The part of the misunderstood woman was ably handled by Mrs. Bridge. In her short role of the Irish maid Mrs. McIntire distinguished herself. Mr. Cushman as the mistreated husband, Rev. Bridge as the follower of the turf, and Mr. G. M. Miller as the blustering uncle acquitted themselves in a very creditable manner.

After the performance, George H. Greenwood, president of the Drama League of Spokane, spoke briefly on that organization to the club members.

CO-OP BOOK STORE UP TO STUDENTS

Assistance of Student Body is Asked. \$5000 Capital Needed for Venture.

The committee on the Students' Co-operative Book Store have now reached a point in their work where the assurance of the store for the University devolves squarely on the student body. Tentative plans have cost of establishing the store has been determined and it only remains financing the store before final action can be taken by the student body.

After very careful investigation, the committee has concluded that approximately five thousand dollars will be required to properly finance the store and give it the equipment which will be necessary to make the store a success from the very start. Other stores have launched their careers with only a few text books as their stock in trade, but this method means a long and tedious period before the students will really derive the benefit that should come from a co-operative store. It takes too long for where it can meet practically all the needs of the student in regard to school supplies and the things which necessarily go with school life.

The committee says that with a working capital of five thousand dollars, the store can be properly equipped and stocked, in a manner which will demand the support of the students from the start, and also with a capital of this amount, the store will reach a really paying basis far sooner than if it is forced to develop solely from the profits realized from the sale of necessities.

It is self evident that the more diversified the stock at the opening of the store, the more patronage it will command, hence more profits; a more rapid expansion and ultimately quicker returns on the investment. It is said that the increased revenue of more offset the interest which may be paid on the larger capital stock.

The committee made a personal visit to the student store at W. S. C. last week and report that they are contemplating a sixty thousand dollar business this year. Their store is handling books, school supplies, small toilet articles, candy, gym suits, sporting goods and many other articles of current need among the students.

The store at W. S. C. was financed by a loan from the student body funds, which has since been repaid and the store is now operating on its own money.

This method of finance would undoubtedly be good at Idaho, except for the fact that all the student body money is apportioned and spent as soon as it is obtained. For several years, the miscellaneous fund at Pullman has been kept in reserve for the express purpose of supplying some sudden need, as in the case of the book store, but unfortunately this has not been done here and it will be necessary to devise some other means of finance.

The committee has requested suggestions be submitted to them apropos the financing of the store. Every student is asked to submit any plan which he may think feasible for this purpose. Plans or suggestions may be turned in to Harmon Hoyer, or any of the committee members. It is hoped that a large number will respond.

"PIP" DINGLE WILL COACH IDAHO TECH

Diminutive Quarterback Goes to Southern Institution in Athletic Position

W. B. Dingle, freshman coach at the University of Idaho, has been appointed coach of athletics and assistant dean of men at the Idaho Technical Institute at Pocatello and is now holding office there.

Mr. Dingle, who piloted two Idaho elevens at quarterback, was graduated from the university in 1917. In 1918 he coached the First Infantry eleven which won the championship of the 13th division, and this year pushed the Idaho Frosh around the gridiron.

He is to coach football, basketball and baseball at the Idaho Tech.

A SPECIAL?

If the students hailing from the southern part of the state, who are planning on going home for the Holidays will show sufficient interest, it is very likely that a special train can be secured. This would be a decided advantage to all who are planning on going home and it should be talked up on the campus. With the coal situation as it is, the railroad officials can not be expected to push the movement; it is up to those students who would benefit by the special to take the initiative. If enough people are absolutely assured for reservations on the special, it will in all probability become an actuality. If you want the special, don't wait for the other fellow to start the boosting, do it yourself.

—Sign Up For the Christmas Special—
 The women of the University of Idaho are not trying to break into politics nor do they think they are doing something spectacular. They are carrying on this campaign because they are wide awake enough to see the necessity for action in this field.

The campaign is to be non-partizan, limited to state interests and will have no connection with any of the national suffrage associations. It has only one purpose—that of getting a special session of the legislature in January for the purpose of ratifying the Woman's Suffrage Amendment.

Whether successful or unsuccessful the campaign will give the women of the University a solidarity of interests and will cut across special factions and cliques. It is training for democracy in action of the best type, without campaign funds, without party machinery. It will be worth while, win or lose. But it will win.

Freshman English Theme.

(By Bryan Bedwell.
 "The Apple."
 Apples are born on trees, spend a large part of their lives in barrels and are buried in pies.

There are several varieties, such as "The Apple of Discord," "The Apple of my eye," "Adam's Apple," "Apple Jack" and "Appleton's Encyclopedia."

There is also a variety known as "Pippins." These have a rosy skin and frequently look better than they are.

Apples, unlike melons, are eaten from the outside in, instead of from the inside out but sometimes when green, produce an inside sensation.

The only part of an apple that can not be eaten is the core; on reaching that part of the apple you may want more, but are compelled to stop, hence the familiar cry, "Encore."

The apple is said to have caused the "first fall of man," but since then the banana has given it a hard race.

Three personages who have done the most to make the apple famous are Adam, William Tell and Colonel Toddy.

Mc—"Has Gov much money?"
 Nutt—"Gosh yes, he gave his girl a necklace of pure coal."

—Sign Up For the Christmas Special—
 Sherm—"How big is she?"

Ted—"Oh, just a good armful."

 "Say Hank, what the dickens is a thrill?"
 "Huh. What do you mean, thrill?"
 "Why, you see its like this. Ie had a Gamma Phi damsel out for a show Friday evening and when we got back to her house she said "I've just been perfectly thrilled all evening." But I couldn't see how she had been unduly agitated except when she choked on a pickled cherry at the Bon Ton.

Yesterday I heard a frau talking to one of the sisters of the "slippery tongue" in the hall and she had had the "most delicious thrill" the night before. I kept my ears up today and there were a dozen different ones who had suffered various thrills during the past week. Have you got any theories or are you going to pass the buck like you do in property?"

"Um, you see Si, its like this. Girls is built something on the order of geysers being mor or less effervescent and bubbling like and anything out of the ordinary just sends the "most delicious little chills" a shivering up and down their gorgette covered spines. Fer instance if a girl thinks

she sees a man standing behind one of the trees along Deakin Ave. after eight P. X. she's entitled to a "thrill," see. Or if her particular Beau Brunnel gets a dying calf look in his eyes while gazing over the top of a Kelly Special, its perfectly legitimate for her to experience the spinal shimmy, known as a thrill. The same ruling applies if she gets to dance the "I" special with one of them who be—or if her steady almost pops just before pappa kicks him off the porch. Do you follow me?

"Yeh. Uhuh. You're just so clear as a Pittsburgh rain storm."

**FELLOWSHIPS ARE NEW
 NEWEST SCHOLARSHIPS**

Fellowships for 1919-1920 have been awarded by Dr. I. L. Kandel, secretary of the Society for American Fellowships in France to seven American men and one young woman who sailed on the Rochambeau November 8. The young woman, Miss aMrion Pilpel of the University of Wisconsin, goes for more extended work in pschycology.

The society was formed two or three years ago with a view to providing for graduates of American Universities, both men and women, the advantages and privileges in France that the Rhodes scholarship offer in England for young men of several nationalities. Among the

thousand scholars to stand sponsor for the undertaking are Dean E. M. Hulme and Professor G. M. Miller of the University of Idaho.

The society will offer at least twenty five scholarships each year for advanced study in nearly thirty studies. The fellowships have an annual value of \$1000; are granted for one year and are renewable for a second year. The applicants, men or women, must be at least 20 years of

age and must be graduates of a college requiring four years of study for a degree, or graduates of a professional school requiring three years for a degree or must be 24 years of age and have spent five years in an industrial establishment in work requiring technical skill. They must also have a practical ability to use French books.

 Mr. and Mrs. Ray Safford took dinner Sunday with the Kappa Sigmas.

The Co-op Club announces the membership of Elmer Wyland, of Twin Falls.
 Mr. John Till, of Spokane, was a guest at the Kappa Sigma house Saturday.

Dr. and Mrs. C. Clark were dinner guests of Phi Delta Theta Sunday. Dr. Clark has recently become connected with Dr. Gritman of Moscow.

Mr. Joe Thometz, Twin Falls, has been a week-end visitor of Phi Delta Theta.
 Professor O. E. McConnell and Doctor Kidwell of the Agricultural College, were luncheon guests of Phi Delta Theta Monday.

Howard Knudson, Leo Provost and Claude McPherson were dinner guests of Phi Delta Theta Monday.
 Kappa Sigma announces the pledging of Walter Reamer of Lewiston, Idaho.

Sigma Alpha Epsilon entertained at dinner Sunday for Dr. and Mrs. Wodsadalek and the Misses Reed, Oylear, Edgecomb, Patch and Fleming.

Sigma Alpha Epsilon announces the pledging of Arnold Halling, of Colfax. Richard Turnbull was a dinner guest at the S. A. E. house last Tuesday.

"Spud" Loomis of Pullman was a guest at the S. A. E. house last Friday.
 Marcel Malige spent the week end in Dayton, Wash.

L. V. Smith of Priest River spent Tuesday and Wednesday of last week visiting with his son, Lq Roy, at the S. A. E. house.

FARMERS BUST IN ANNUAL AG BAWL

—Sign Up For the Christmas Special—
 Glide the Pastoral Shuffle Amid the Rural Foliage and Imbibe Lactaeal Fluid.

Gliding to the rhythm of calf bawls and sheep blats, the Idaho Ags. Saturday night initiated the tradition of the annual "Ag Bawl."

Corn stalks, baled hay, calves, sheep, and cream separators lent a festive rural aspect to the gym. The proverbial chickens were lacking, the deficiency being made up in a small way by the cackling of the saxophones in the orchestra.

Early in the dance Miss Clara Hobson was crowned Harvest Queen. The noisy crown of plaited wheat was placed upon her gentle brow by Prof. Davis, of the College of Agriculture. She was elected by popular vote of the Ag. Club members.

Squirrily Hastings, of Timothy Junction, and his prize herd of barnyard imitators, furnished the audible incentive to trip the pastoral shuffle.

Any of the jazz Ags or Aggetts who felt the need of nourishment refreshed themselves at a doughnut filled silo, washing the dough-covered holes down with draughts of a peculiar punch, made especially for the occasion, and christened "milk."

SOUTHERN TRIP FOR GLEE CLUB ASSURED

Advance Manager Leaves Shortly to Arrange Schedules and Contracts.

The advance manager of the Men's Glee Club is scheduled to depart soon to arrange the itinerary and obtain contracts for the next tour of that organization over the state.

At a very early date the advance manager of the Men's Glee Club will leave for the southern part of the state. Here he will seek to interest the cooperation of high schools and other institutions in the larger towns and obtain contracts for the coming tour.

It is planned to visit the following towns: Weiser, Payette, Caldwell, Nampa, Emmett, Boise, Gooding, Shoshone, Twin Falls, Pocatello and American Falls. There may be some additions to and detractions from this list.

After a long period of inactivity the Glee Club is once more to resume its custom of touring the state once a year. The southern trip is assured. There is a possibility of another tour of the northern towns.

The Glee Club gives promise of being one of the best the University has produced. This year's organization contains practically all of the members of last year's club, with a few new singers added. This year's concerts will be the result of two years' training.

The personnel of the Club is as follows: first tenors, Edwin Foran, Charles Gerlough, Alfred Brigham, E. O. Bangs; second tenors, Clayton Westover, Alfred Graf, Roscoe Jones, Fred Veatch; first basses, Russell Scott, Leslie Moe, William Sutherland, Gipson Stalker; second basses, Howard Knudson, Michael Compton, Rex Kimmel, Titus Le Claire.

NEW ROAD SURFACE LAB FOR ENGINEERS

Tests of road surfacing materials proposed for use on Idaho highways hereafter will be made in a road materials laboratory which has just been installed at the University of Idaho under the direction of Dr. C. N. Little, dean of the college of engineering.

"The large sums available for road building in Idaho," said Dean Little, "inevitably will mean the construction of hard surfaced highways and in order to build roads of this character, particularly if they take the form of concrete or black pavement, laboratory control is essential.

"At the last session of the legislature, \$3000 was appropriated to equip a new road materials laboratory at the university. The necessary machines and other apparatus, ordered in May, have now arrived and are being installed. There is every reason to believe that we will be able to commence actual tests in the near future.

"Raymond Harsch, who has had four years of experience in the laboratory of the United States bureau of public roads in Washington recently has been appointed to assume

charge of the work of testing. Mr. Harsch comes to Idaho highly recommended by his former chief, Prevost Hubbard, one of the leading asphalt experts of the country and by A. T. Goldbeck, engineer in charge of the government road materials laboratory in Washington.

Overtures
 Harry: "See the hole in the drum?"
 Chin: "Yea—what's it for?"
 Harry: "To let the dead beats out."

The inter-fraternity conference of Stanford University has adopted formal bidding of freshmen to join

the fraternities after two months of "rushing." The new system supercedes the former method of hasty and indiscriminate "rushing" by which prospective members were called on to make the acquaintance of the fraternities in the first two or three weeks of the college term. The formal bidding day will occur this year on Sunday, December 7.

What Candy Is

"Candy is good food, pure and wholesome. It is the universal food; it speaks all languages; it dries the tears in the eyes of little children; and wreathes the faces of old age in smiles. It is the unspoken message from the lover to his sweetheart; one of the first tokens sent to the absent one; it brings joy to the home; it is the advance agent of happiness in every clime. It makes regular visits to the home, the church, the hospital, the prison, the battlefield and trench. Its constant associates are love, joy, peace, happiness, smiles and laughter. Can as much be said of any other food?"

We have a complete assortment of the BEST of Candies on this side of the Rocky Mountains. Look over our line of Fancy Package Goods, compare our prices with others, then figure quality and place your order at once.

GEO. GREENWOOD IN ASSEMBLY WEDNESDAY

Spokane Banker-Pianist Gives Lecture and Recital Upon the Musical Amateur.

"The Musical Amateur" was the subject of an address given by George H. Greenwood of Spokane at the assembly Wednesday morning. In connection with the lecture, Mr. Greenwood gave a piano recital to illustrate his talk. While Mr. Greenwood is a prominent banker of Spokane, he is still able to devote several hours a day to the piano, and considers that this is one of the most important daily features any man could set himself to.

In speaking of music as a fine art, he pointed out that many of the business men of today look with more or less disdain upon the professional musician. He is considered an effeminate, a parasite. "The Amateur Musician," Mr. Greenwood divided into three general groups, first the jazz band variety, which depends for its success upon mere physical strength and noise. Syncopation is their realm.

The second class of amateur is what the speaker termed, "The young lady who just knows how to play enough to pound off the latest songs for her friends, or what I would call the parlor trick amateur." The real true amateur, tho, is the person who plays for enjoyment, for the love of music itself. Such a person finds music a great rest from the days work, a relaxation from the care of the business world. He who truly loves music never lacks companions. Such a person furthermore, never grows tired of their music, they play when they want to, and what they want to.

This true amateur may be either one who merely belongs to that class of people who themselves have little musical talent, but love music as a listener only. It may also include very talented people who play solely for love of the art without compensation. He is not with out some discomforts tho, because he is frequently asked to play some of the late rag-time, and refusals are bound to result in the loss of friends. The pleasures to be gained tho, greatly outweigh the disadvantages, so that all in all, to be a true musical amateur is a thing of pleasure.

Mr. Greenwood then played selections representing the various schools of music. First he played a very simple and yet beautiful Rondo by the great composer, Mozart. His second number was the First Ballad in G minor by the pier of all pianists, Chopin, which was written at the composers best. He then played three Norse melodies by Greig, and then two modern pieces by the young Australian composer, Joseph Granger.

CO-EDS LAUNCHING BIG SISTER MOVEMENT

A new movement known as the "Big Sister Movement" was launched at a meeting of the Woman's League, held Monday, December 1st. As a result of this movement each underclassman will be given an upperclassman as a "Big Sister." The purpose of this is to bring girls living in town in closer touch with University life and create a more democratic spirit among all girls.

Another movement started by the girls is the raising of a "Memorial Grove Fund" which money is to be used in beautifying the Oak grove planted in memory of the Idaho boys who lost their lives in the Great War.

The girls of Idaho are realizing that their privileges in the athletic world are few. A committee was appointed to investigate the possibility of a Girls' Athletic Association at Idaho.

The League is planning on giving a Living Picture exhibit sometime in the spring. People will be chosen whose faces and figures are suitable for the pictures to be represented. The music department is expected to cooperate.

Sarah Nettleton was elected vice-president of the league to fill the vacancy left by the resignation of Marjorie McCrea.

CO-EDS MOBILIZE FOR SUFFRAGE CAMPAIGN

"What the blankety blank blank?" "Why all the agitation?" "Betas serenading again?" "Another W. S. C. sleigh ride or another skiing party?"

The above questions were vigorously intoned in a study room in one of the houses on the campus, where a faithful little group was attempting to assimilate a chapter of "The Principles of Economics." A general craving for enlightenment filled the atmosphere for several moments.

"Co-eds just began their suffrage campaign," exclaimed an inwardly bound brother.

Whereupon all present breathed great sighs of relief and once more applied themselves to "Principles" and Camels.

Realizing possibly as a result of the recent big disturbance created concerning our moral status, that their time was worthy of more serious use than that of worrying about whether they would get a bid to the next house party or not the women of the school have created a big splash and jumped into federal politics.

The ladies have this late in the game fallen for the philosophy of Sister Pankhurst. However, they say they intend to leave out the hatchet part.

By various ways and means they will attempt to vamp the state legis-

lature into a special session to consider the ratification of the suffrage amendment to the Federal Constitution.

To insure a jocund disposition on the part of the legislators on the morning of the convention of the body, a round robin letter will be prepared, to be sent to each of the persons having in charge the preparation of each dignitaries morning coffee.

"It is of vital import," said one of the co-ed leaders, "that all of the legislators be served clear, warm coffee on that critical morning. It is also planned to serve banana cream pie to the legislators during the intermission. The representatives of Bannock and Shoshone counties, being strategically critical will be given one half of a pie each."

Much effort will be made to create a favorable sentiment on the campus. The theory is that if the male members of the student body can become sufficiently enthused, they will mix in a little favorable suffrage propaganda with the financial talk when they interview the parental pocket book during the Christmas vacation.

All those not personally concerned in the campaign are requested to refrain from wasting 90 cent storage eggs on any stump orators that may appear.

SHADES OF DATES

The shades of night are falling fast nowadays, so fast in fact that Dean Permeal French has decreed that there shall be no more walking dates until March 1. The Dean believes that at that time the darkness will be tired of falling so rapidly and will fall in a more leisurely manner, thus enabling couples suffering from severe attacks of mutual admiration to enjoy an hour of each others company before it gets so dark that they can't see.

Another ultimatum, issued from the office of the Dean of Women, which is causing much anguish in social circles is the six-thirty time limit on Sunday night dates. When the time for Friday and Saturday night dates was recently extended until eleven, ardent devotees of the movie were in

Judging Team Men to be Awarded by University Ag Club

Medals chosen by the Ag. students are to be awarded the members of the Idaho Stock Judging, Dairy Judging and Dairy Products Judging teams, according to the decision reached when the Ag. meeting was called Tuesday, December 2.

As a result of Idaho, having won the Northwest Live Stock Judging contests, members comprising the teams shall be awarded medals.

Time for regular meetings was set for the first and third Thursday evenings of each month. At the meeting further plans were set forth for the staging the dance which was barned in the armory last Saturday. After placing "white wash" a leading dairy product, as the main refreshment, the Aggies disbanded.

South Wing Work Halted

All work on the south wing of the administration building will be suspended until May 1, according to the report received today from L. F. Parsons, executive secretary of President E. H. Lindley. This decision was the result of a conference between President Lindley and Mr. R. M. Walker, chairman of the University Executive Committee from Wallace, who came for the purpose of talking over business matters pertaining to the University. Owing to the inability to procure material needed and as a result of inclement weather further construction will be postponed until May 1.
