VOLUME XXI

UNIVERSITY OF IDAHO, MOSCOW, - TUESDAY, MARCH 2, 1920

NUMBER 21

THOMAS KELLEY IS NEW COACH

CONTRACT SIGNED WITH MISSOURI VALLEY MENTOR OF NOTE

LAST YEAR UNDEFEATED

Schools of Middle West Unable to Score Against Kelley's U. of Missouri Eleven.

Thomas Kelley of Illinois has accepted the position of first coach of varsity football at the University for the season of 1920, according to a report made public Monday evening by Dean Cockerill, chairman of the athletic advisory committee.

Kelley comes with the highest recommendations from leading coaches throughout the east and middle west. Coach A. A. Stagg, of the University of Chicago, with whom Kelley played four years of football, is especially laudatory in his comments on Kelley's work.

Was All-Western Tackle.

Kelley was named as one of the tackles on the all-western eleven during the seasons of 1908-09, his last two years with Stagg. Unqualified praise for Kelley as a coach comes from Walter Meanwell, athletic director of the University of Missouri. U. of Missouri Record Brilliant.

During the past season Kelley was line coach of the University of Missouri eleven. Missouri won the championship of the valley of that name. Much credit for the success of the eastern team has been given to the impregnable line which Kelley worked into shape.

In 1914 Kelley was coach of the Missouri School of Mines. Here he developed a team which won the Missouri valley conference championship for that season. While piling up scores to aggregate 539 points in eight games, this squad did not have one score registered against it.

Kelley served as assistant football coach to Stagg at the University of Chicago during the season of 1910.

The period from 1910 to 1913 was spent as coach at Muhlenberg college at Allentown, Pennsylvania. In these three years his team lost but four games.

At the outbreak of the war in 1917 Kelley was serving on a three year contract with the University of Alabama. His record here was only a rehearsal of his excellent record in the other schools. He left his contract to serve in the army. His subsidiary position at the University of Missouri is accounted for by the fact that he was discharged too late in the fall to obtain a position as head coach.

The retention of Kelley as football coach is certain. Other changes in the athletic department are not definitely decided.

ENTERTAINING PLANS FOR STATE TOURNEY

Blea Announces Method By Which Teams Will be Assigned to Houses

"The various houses will draw lots to determine what teams they will entertain during the state basketball tournament," stated W. C. Blea-master recently.

"There are eight teams to provide for and the same number of houses who wish to entertain," he continued. "These will be given numbers, and representatives of the houses will draw, taking the team whose number they receive. This will eliminate partiality."

University First.

"One thing I wish to be understood absolutely," he went on. "As the teams are met at the train they must be brought to the gymnasium directly, before they are taken to the houses, and registered. This is for a two-fold purpose. First, they will thus be impressed with the University. Impressing the excellence of our school on them is the primary purpose in bringing them here. Second, by registering them immediately after their arrival we will save much trouble in locating the boys in their temporary homes."

HUTTON HOME CLOSED—UNIVERSITY PHYSICIAN ASKED

The Hutton home has been closed, cleansed and fumigated and the hospital supplies moved to Ridenbaugh Hall, for future use. The health committee is collecting some information from other schools and colleges regarding the practice of other institutions in dealing with the safe guarding of student health.

A detailed report will be made in the near future. The health committee has recommended that the University secure a university infirmary and that a university physician be engaged for full time.

PROFESSOR LEWIS WILL JUDGE DEBATE

Professor H. T. Lewis will be one of the judges at a debate between the Montana State College and W. S. C. next week. The topic under debate is "The Plumb Plan for Railroads."

IDAHO TO HAVE WOMEN'S ATHLETICS

DEFINITE PLANS DISCUSSED AT MEETING IN GYM THURSDAY EVENING

DEAN FRENCH IS FAVORABLE

Speeches and Stunts Go To Make Up Enthusiastic Evening—Affiliation Discussed

Women's athletics at the University of Idaho was decided upon at a gathering of one hundred and fifty co-eds in the gymnasium Thursday evening.

The greatest spirit and enthusiasm was in evidence and the suggestions and plans of Dean French, Miss Watson, Gladys Hastie, Inez Calloway, Phoebe Jane Hunt and Mable Sweeney seemed to express the sentiment of the entire group of university women.

Plan Basket Ball Tourney.

Inter group basket ball games will be scheduled with practice commencing this week. Mr. Bleamaster, who is strongly backing the movement, has offered a trophy to the winning team. An out-door girl's meet will be an event of the spring. Tennis, hiking, outdoor hockey and baseball will offer inducement to every woman in college.

Confined to Campus This Year.

No organization outside of the groups and classes will be considered this year. The slogan of the girls is: "Have something to present and know your capable leaders before you consider organization as a college activity." Attempt will be made in the fall to affiliate with the National Woman's Athletic Association.

Dean French Speaks.

"In contest women may learn greater self-control and learn to act in emergencies. The spirit of give and take is probably best developed through the medium of live game contests," said Dean French in her talk to the girls Thursday evening.

"Then, too, the athletic association must emphasize anew the truth that women should develop physically and that such development includes correct posture and carriage," continued Miss French. She called attention in no uncertain manner to the fact that the women of the University must understand that if, with increased athletic possibilities any modification of good manners, good English and womanly composure were lost sight of that the girls would defeat the purposes for which they are now organizing.

Miss Watson Strong Supporter.

"Various forms of athletics will be of unending benefit to the girls," said Miss Watson, who as director of the girls' gymnasium classes is a strong advocate on the campus for the furtherance of women's athletics. "Let us try it out. Find out what the girls are going to be able to do, and find out who in the school are capable of being your leaders before you present your petition for affiliation."

Hastie States Difficulties.

"We are working at a disadvantage athletics and the repeated failures in the past," said Gladys Hastie, who is strongly behind the movement. "With all the inducements offered, every

(Continued on page six.)

DUAL DEBATE BREAKS EVEN

TALK ARTISTS WIN ABROAD WHILE HOME TEAM LOSES TO U. OF O.

ENGLISH LORD PRAISES

Work of Both Teams at Vancouver Is of High Order—Attendance Good

Idaho broke even on the debates Friday evening when Ralph Brashears and Earl Hunt, upholding the negative side of the question "Resolved, that the application of the principle of closed shop will best serve the cause of industrial peace," won the decision over the University of British Columbia at Vancouver, while C. H. (Slim) Swanstrom and Lawrence Huff upholding the affirmative side of the same question lost the decision to the University of Oregon at Moscow.

The decision was two to one for Idaho at Vancouver and unanimous for Oregon at Moscow. The negative side of the question has won in both debates and those interested in the issue are of the opinion that the negative is by far the stronger side.

Sir Charles Hibbard Tupper, an ex-member of the House of Lords, who acted as one of the judges in Vancouver, said that the debate there was the best he had ever had occasion to hear.

Prof. Chenoweth, who, as coach of the teams, accompanied Brashears and Hunt, is pleased with the results of the two teams' efforts. "The most outstanding feature of the trip was the contrast between the crowd, numbering about five hundred, which turned out to hear the debate in Vancouver, and that which ordinarily turns out at Idaho," he said. "Both teams did splendidly, but unfortunately the team which debated in Moscow presented articles which didn't suit the judges."

CAMPUS TO SEE OPEN FORUM STARTED

Organization Long Needed at Idaho Finally a Reality—Prof. Chenoweth Leads Off.

Open Forum will become a regular part of campus life beginning Thursday evening, when Professor Chenoweth will lead off with the first of a series of planned discussions on present day problems. The open Forum is to be a place where anyone connected with the University can begin a discussion upon topics of interest in national affairs, or local issues on the campus.

The meeting this week will be held at the Y. hut, Thursday evening at 7:30. This will be the first attempt at any such movement in the college, and should be of sufficient interest to insure it a permanent place among the activities of a more serious nature on the campus. As yet no set days have been announced for future gatherings, but it is planned to hold the Forum about every two weeks.

Some of the students behind this movement to establish an open Forum in the University are George Space, R. W. Kulberg and William Buscoe. Secretary Macpherson of the Y. M. C. A. and Prof. Chenoweth have also lent their aid to organizing the Forum here.

PROF. LEWIS WILL ADDRESS FORUM

On March 14 Professor Lewis will address the Public Forum at Pullman. This Forum is composed of townspeople and college students who meet every Sunday evening to discuss topics of importance and interest.

ATHLETIC BUDGET IN EXCESS OF AVAILABLE FUNDS

The tentative athletic budget for the second semester is in the hands of a board of supervisors. In its present form the budget is \$4500, which is considerably in excess of the available funds. The board is now struggling with the question of decreasing its expenses or increasing the income.

LORADO TAFT TO LECTURE HERE

EMINENT AMERICAN SCULPTOR—LECTURER TO DELIVER TWO ADDRESSES

INTERNATIONAL IN FAME

At His Chicago Studios Are Produced some of America's Greatest Works of Art

Lorado Taft, announced by leading American critics as the greatest American stimulant of American art, will be at the University March 8 and 9, to deliver two lectures—"American Sculpture and American Sculptors," and "Beauty in the Home Town." Both will be given in the auditorium. For the first an admission of 25 cents will be charged.

Of American Birth

Lorado Taft was born in Elmwood, Illinois, in 1869, of New England parentage. He received his scholastic training at the University of Illinois, where his father was a professor of Geology. After his graduation he completed his artistic training in Paris.

From 1886 to 1901 he taught at the Art Institute of Chicago, and since that time has given a course of lectures there each year. He lectured in the extension department of the University of Chicago from 1892 to 1902, and has held the position of professorial lecturer in that institution since 1902. In 1909 he was made a non-resident professor of the University of Illinois.

Famed as Lecturer

His fame as a lecturer on art is both national and international. During the period of the War Mr. Taft was sent, first by the Y. M. C. A., and later by the army educational corps, to lecture to the members of the A. E. F. It was during this period that he popularized his lecture on "Beauty in the Home Town," which he will deliver here.

In his lectures Mr. Taft shows that the achievements of the past can be used as examples to educate and also to inspire our modern efforts to beautify the cities of America. Of the French cathedrals he says that the building of those "white miracles of stone" was in reality one of the greatest community enterprises the world has ever seen.

"Of late years Mr. Taft has felt an increasing sense of citizenship, of all that relates to the good of the community, particularly the artistic needs of the small community," says a leading American critic in a recent comment. "His message becomes more definitely that of stirring our civic pride, which may in time take the form of beautiful memorials, fountains, and statues which will perpetuate the significant in American history and ideals. In this work he is doing a great service to humanity."

Taft's Studios

Mr. Taft's studio is situated on the Midway Plaisance between Washington and Jackson parks in the immediate vicinity of the University of Chicago. The "Midway Studios," as the result of constant construction, now form a large aggregated mass of buildings and provide quarters for the artist himself, for some dozen associate sculptors, and for many assistants—more than twenty people in all. Here can be seen in operation most of the processes connected with the art of sculpture—modeling, casting, marble cutting, and the rest.

Recent Works

Some of Lorado Taft's more important recent works in sculpture are: "The Eternal Silence," Graceland Cemetery, Chicago. Statue of Washington, Seattle, Wash. Columbus Memorial Fountain, Washington, D. C., 1912. The Ferguson fountain of the Great Lakes, Chicago, 1913.

Music Club to Elect Officers

The election of officers will be the feature of the next meeting of the Music Club, the date of which will be announced later.

The following nominations have been made by the nominating committee: for president, Russell Scott and Titus LeClair; for vice president, Florence Allebaugh and Charles Gerlough; for secretary-treasurer, Frieda Soulen, Henrietta Penstey and Olga Anderson.

Fresh Chose Leaders.

The Freshman of the University have elected their officers for the second semester, said election having taken place last Tuesday afternoon. Theodore Holderman from Twin Falls was elected president and will be supported by the following other officers: Vice President, Ralph Bristol, also of Twin Falls; Secretary, Lillian Collins of Lewiston, and Treasurer, Port Arthur of Blackfoot.

SIGMA ALPHA IOTA AT BOSTON INITIATES IDAHO GIRLS

Word has been received of the initiation of Bernadine Adair, '19, and Jennie Peterson, '18, into Sigma Alpha Iota; said to be the leading musical sorority at the New England Conservatory of Music. Mme. Gallucurei is a member of the same organization.

SUMMER SESSION JUNE 14-JULY 23

UNIVERSITY TO OFFER MANY ADVANTAGES FOR SIX WEEKS' WORK

INSTRUCTION IN ALL COURSES

Opportunity to Make Six Collegiate Credits in Regular Curricula

The summer session at Idaho has been set from June 14 to July 23, according to Dean J. G. Eldridge, the director of the session for 1920.

In addition to regular undergraduate work in the various colleges, exceptional opportunities are afforded for the following classes of persons:

Many Classes of Work

1. College graduates who wish to specialize in some field or to begin work for advanced degrees;

2. Superintendents and principals who wish to acquaint themselves with recent progress in education or to study special problems;

3. High school teachers who wish to advance in their special lines of work;

4. Teachers in special lines of work, as music, home economics and drawing;

5. Teachers of physical education and playground work;

6. Undergraduates who for some good reason wish to shorten the period of their college course;

7. Recent high school graduates who expect to enter the University in the fall;

8. Candidates for state and life certificates who need special courses in education, sociology, or other subjects.

All Resources Offered.

The full resources of the University are offered for the summer session in all departments in which courses are given. These resources include a library of 50,000 volumes, a well equipped gymnasium, tennis courts and athletic field, the shops and science laboratories, the equipment of the Home Economics department and the music department, and the College Farm, with its pure bred stock and experimental plots, orchards and gardens.

U. is Training School.

The University has been designated as the teacher training institution for Idaho under the Smith-Hughes act. There will be a conference of all the Smith-Hughes teachers of agriculture of the state. The state supervisor of vocational agriculture is a member of the faculty.

On Regular Basis.

The courses of the summer session are open on the same terms as those of the regular session. Practically all courses offered are for University credit. A maximum of six semester credits may be earned during the session.

There are no tuition charges for the summer. Room and board may be obtained at Ridenbaugh hall for the six weeks for approximately \$40.

Instruction in All Departments. Instruction will be given in general by the University departments—heads, supplemented by lecturers prominent in the outside world. Courses will be offered in the following departments: agriculture, and

(Continued on page six.)

VANDALS BACK FROM INVASION

TEN DAY TOUR RESULTS IN FOUR VICTORIES AND FOUR DEFEATS

TO MONTANA WEDNESDAY

Two Games at Missoula and One at Butte—Whitman Now Leads Conference

The five games played by the Vandals between February 24 and 28 resulted in three victories and two defeats for the Idaho quintette. A brief summary of each game follows.

One of the closest games of the trip was that played with Willamette University on February 24. The end of the first half showed a score of 12 to 11 in favor of Idaho. The second half closed with both teams tied, the score being 25 to 25. No scores were made by either team during the first extra five minutes. A tie resulted from the second extra period, 27 to 27. After fifteen minutes of extra play Idaho led by the final score of 31 to 29.

Perrine at center starred for Idaho, making 18 points. Captain Wapato's playing showed up best on the Willamette team. He scored 14 points. Hunter was out of this game entirely. The entire game was close and the result doubtful to the very last.

O. A. C. Wednesday, Feb. 25.

The game played the following evening at Corvallis with the Oregon Agricultural College was Idaho's from the first whistle. Although O. A. C. made the first basket, the first half ended with a score of 15 to 9 in favor of Idaho. The final score was 30 to 21, also in favor of Idaho.

Hunter starred for Idaho with 19 points. Stinson and McCart did some stellar floor work for O. A. C. Lindley was put out of the game with a sprained knee.

Willamette, Thursday, 26.

The following day the Vandals returned to Salem to play another game with Willamette University. In this game Idaho showed the best form of any game on the trip. The end of the first half showed a score of 29 to 10. The game ended with a final score of 50 to 23 in Idaho's favor.

Hunter and Campbell starred for Idaho, making 28 and 14 points respectively. Wapato again starred for Willamette. The Idaho quintette showed wonderful floor work and were very successful in finding the Willamette basket.

Whitman, Friday, 27.

The first game with Whitman at Walla Walla resulted disastrously for the Vandals. Whitman lead at the end of the first half with a score of 12 to 4. The final score was 28 to 12 in favor of Whitman.

Bennion, of Montana who refereed the game, was judged by both sides to be far too lenient in calling fouls. Practically no fouls were called the entire game. As a result the contest was exceedingly rough.

Hunter starred for Idaho with 12 points. Dement and Rich starred for Whitman.

Second Game Not so Rough.

Mayer of Spokane, refereed the second contest with Whitman. This game was of a nature closer to basketball. The first half ended 12 to 17 in favor of Whitman. The final score was 28 to 17.

Carder and Fox starred for Idaho, making 6 and 7 points respectively. Rich and Dement again did the stellar work for the Missionaries.

In both of the Whitman games Idaho was at a disadvantage on account of the long trip from Salem to Walla Walla.

Whitman Now Leads Conference.

Whitman now leads the conference, with Idaho a close second. Whitman has yet to play two games here and two with W. S. C. at Pullman. W. S. C. in return will engage in two rounds with the Missionaries at Walla Walla.

Idaho's percentage follows as a close second to the Whitman standing. All members of the team are confident that Idaho will beat Whitman in the two games to be played here. This would give the Vandals the championship of the conference.

To Go To Montana.

Wednesday the Vandals will leave for Montana, where two games will be played with the University of Montana at Missoula and one with the Montana School of Mines at Butte. Dope points to victories for Idaho in all these games.

MILITARY COURTESY

When Old Glory goes by, whether you happen to be digging a sewer, climbing a flagpole or kissing your best girl, it is your place to snap to respectful attention and remove your hat.

When one thinks of the glorious traditions and history back of that flag, he should be proud that he has the privilege to do it reverence.

Sunday, during the military parade, there were dozens of men standing on the streets who refused to lift their hats to the flag. Some of the leading citizens of Moscow watched it as tho it were a toy on a little boy's stick. In peace or war, it is a duty to show respect to the flag which represents the greatest country on earth. America will never be bothered by Bolsheviks or Anarchists so long as she has citizens who respect the flag and are not afraid to show it. We can never hope to have the ideals of citizenship until the majority of Americans have a spirit of devotion and reverence to our flag and the government that it represents. There is only one way to obtain this condition. Live it, practice it and Teach it. "Hats off, the flag is passing by."

INTER-CLASS FUSSERS NOTICE.

Janitors have been using muscels and sandpaper for the past week in an endeavor to eradicate from the walls of the halls near the floor dark and grimy stains. Investigation has been made and these murky prints have been discovered to be footprints of some nervous fusser, who overzealous in his declamations to the fair sex unknowingly with back to wall would mar their creamy pureness by gently (?) rubbing his big brogand over its surface.

We are well aware that this offense was committed entirely unconsciously but, having the interests of the University so deeply at heart we beg the offender or offenders to stop, look and listen and please refrain from such action in the future.

The man who prides himself on his lack of interest in things aesthetic does so for one of two reasons; either he is mentally out of kilter, or he is so narrow minded that he could look through a key hole with both eyes at the same time.

The world expects of a man with a college degree at least a speaking acquaintance with the finer things of life. In Moscow ones opportunities to make this acquaintance are all too limited. When a chance does come, all should be eager to grasp it. This week Lorado Taft, probably the countries greatest artistic educator, will deliver two addresses at our school. This is one of those rare opportunities to prove the normality of our mental makeup. All should take advantage of it.

Taft's success as a lecturer on art to the members of the A. E. F. insures his interest as a speaker. His lectures will not be technical in the least. On the other hand, they will be easy to take and interesting.

A sound basis for woman's athletics should be developed before formal organization is attempted.

Group teams and sporting interests must be created among the women, and the athletic leaders of the co-eds must be discovered before exact policies can be determined.

To attempt to organize now would lead the movement into party factions and once again woman's athletics would be an unattained ideal in our university.

The co-eds this year are working against odds. They are at a disadvantage due to the failure in the past years to further women's athletics in University.

ting Idaho in the front rank of athletic accomplishments for the women as well as the men.

They seem to have made up their minds as to a definite course of action and when a woman makes up her mind—well—remember Adam!

It is hoped that this movement goes through. Idaho needs woman's athletics. The general sentiment on the campus is favorable.

Hunter, Forward. Star in recent basket ball tour.

Hopefulness.

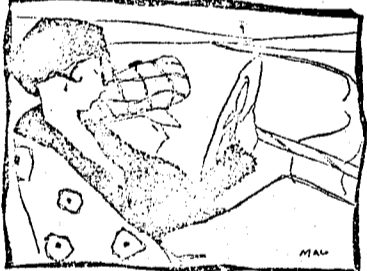

"Charley, dear," said young Mrs. Tokins, "you were talking about a twenty to one shot when I came into your office today."

"Was I?" "Yes, and I was very much pleased. I hope you will cultivate enough interest in marksmanship to take your mind off horse racing."

Topsy Turvy.

"See any fancy ridin' while you was East?" asked Three Finger Sam. "I sure did," answered Cactus Joe. "But everything's topsy turvy. People in the cars have to hang on with their wrists in straps."

"Jes' think of that. Usin' the stirrups for their hands instead of their feet!"

A NEW ADVERTISING SCHEME. "When did you get the new siver-er?"

"Oh, it was given to me with a five gallon purchase of gasoline."

Our Language. Our language is a bungling thing—A foreign student flays it; For instance we tear down a block, And yet we say we raze it.

Willing to Fall. A Philadelphia savant says: "If the chalzaz of an egg is well defined it is fresh."

Insist on the grocer showing you the chalzaz, or chalzall, of the eggs you purchase. You'll have to carry your eggs home in a pail, but what of that?

Loving One's Enemies. "Have you ever tried to love your enemies?"

"Yes," answered the slow-speaking man. "I have tried. But I never get a real enemy to reciprocate my affections with any degree of reliability."—Selected.

Effort Misapplied. "Success depends on hard work." "Yes," rejoined Farmer Cornrossel. "I know a man whose land got covered up with weeds and mortgages while he was workin' terribly hard to be the best checker player in the neighborhood."

His Conclusive Way. "Really, Mr. Gloom, you must be mistaken," mildly interrupted the other man in the argument.

"Mistaken!" thundered J. Fuller Gloom. "Those are not my views, merely, but the mature deductions of Ellsworth Ethelbert Hornbostle, A. M., Ph. D."

"Then, very likely I am wrong. Thank you for correcting me."

"Pardon us," said we, after the departure of the discomfited critic, "but who is Ellsworth Ethelbert Hornbostle, A. M., Ph. D.?" "How the devil do I know?" was the snarling reply. "I invented the name on the spur of the moment. Am I supposed to concoct an entire life history for the myth, too?"—Kansas City Star.

EXTENSION DIVISION MEETS SUCCESSFULLY

CONFERENCE HAS WEEK OF INTERESTING STUDY—GET ACQUAINTED

FARM BUREAU A MODEL

Director Fluharty Heads an Organization Not Equalled in Country.

The annual conference of the Extension Division of the University of Idaho closed Saturday, after a week of interesting study, and having gained much educationally. Director Fluharty expressed himself as pleased with the meetings, both from the value of the subjects discussed and the fact that the extension workers were able to become better acquainted.

Farm Bureau a Model. The farm bureaus of the state of Idaho, directed by Mr. Fluharty, are held to be as near perfect as any organization of similar objective in the country, and are held as a model in many states. The unqualified success of the system is rapidly showing itself by actual returns from the farmers themselves.

Where Grade Crossings Grow. "So you prefer the city to the country?"

"Yes," replied Mr. Chuggins. "In the city you're liable to run over something, but in the country you're liable to strike a grade crossing and get run over."

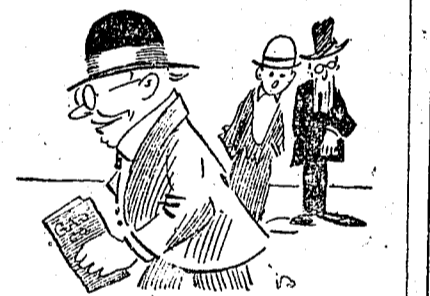

Last Resort. "I think I will try to get over to Europe and settle down in Venice."

"Why Venice?" "Because it is the only place I know of where you don't have to keep dodging the automobiles in the streets."

A Coming Joy Rider. Bobby—"If I had a million dollars, I'd invite everybody to the movin' picture show."

Tommy—"Aw, shucks! I wouldn't. I'd buy an automobile an' spend the rest payin' fines for speedin'."

The Wonderful Gift. "Is our friend a great orator?" "A great orator?" repeated Senator Sorghum. "Why he can convince you of something without taking the trouble to understand it himself!"

SAD STORIES, MOSTLY. "He's a great reader."

The Exaggerated Present. How many times in days gone by Events have made us roar and shout While now we haven't time to try To recollect and talk about.

The Right Man. One day as Dan Beard was going up the elevator in the high Flatiron building in New York city at the rear of the car was a messenger boy with his arms filled with a score of bundles all of the same size.

Peering over the top of the ambuscade, he fixed his eyes steadily upon Mr. Beard. The national scout commissioner of the 400,000 and more Boy Scouts of America knew the signs well enough to realize that something was passing through the boy's mind. He asked the lad what he was thinking about.

The boy replied: "I was just thinkin' that you look like a friend o' mine."

"What's your friend's name?" asked the man who is the friend of all boys. "Dan Beard," said the messenger. "I am Dan Beard," replied the commissioner with a smile. "Gosh!" was the only reply of the astonished boy, who dumped his bundles under the feet of the amused passengers and brought his right hand up to a stiff salute.

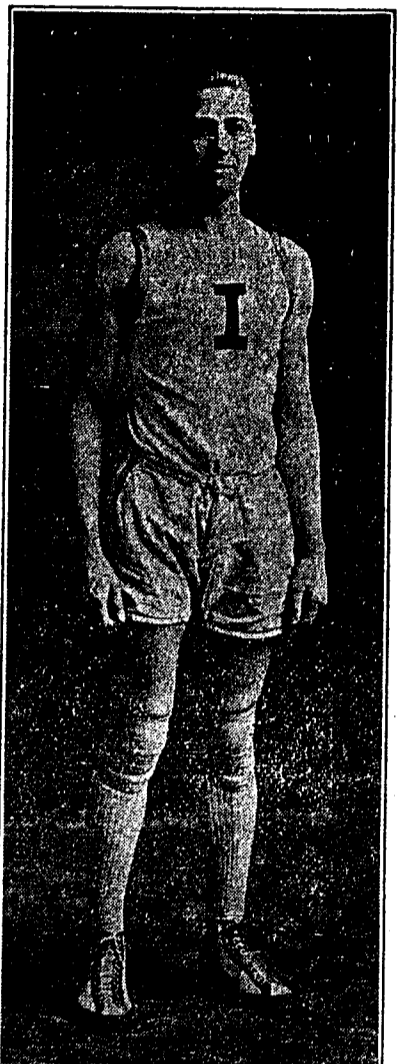

Aerial Police for Germany. Germany has a network of aerial police patrols organized to prevent the migration of capital from Germany. In addition to fighting against criminals generally. A landing place for police airplanes is already being laid out on the Swiss frontier. Similar establishments are planned for Hamburg, Breslau and other towns.

PEEVED. "I called to see you at your office yesterday." "That so? Why didn't you see me? I was there all day." "I found after I got there that I didn't want to see you badly enough to give my life history to three or four outer guards and sit on a bench for an hour or two waiting for them to make up their minds whether or not to pass me in."

TEACHERS OF IDAHO ARE MAKING GOOD

Two Student Teachers Now in Aberdeen Making Fine Record.

Mr. L. C. Aicher, superintendent of the Aberdeen experiment station visited the University this week to see about formulating plans for a campaign to bond the district of

Captain Lindley, Guard. Star in recent basket ball tour.

Carder, Guard. Star in recent basket ball tour.

Aberdeen for \$60,000 for an addition to the school plant. He stated that Aberdeen is growing rapidly and the enthusiasm of the people in educational matters is keeping abreast with the industrial development.

In speaking of their teaching force Mr. Aicher made especially favorable comment on the work of Effie Swanson, '19, who has charge of Home Economics and Marie Freehafer, '19, who is teaching mathematics and science in the high school. Both teachers have given such satisfaction that the board is anxious to retain them. Mr. Aicher further said that the board was looking for additions to their high school faculty from University of Idaho graduates.

FORESTERS PRACTICE IN MOSCOW GROVES

Students Report The Work Both Interesting and Healthful—University Fortunate

Fine weather has permitted the forestry students to get busy in the

Campbell, Forward and Center. Star in recent basket ball tour.

field work. Several trips have been made by auto truck to Moscow mountain and the vicinity. Long tramps through the natural stands of trees are taken and estimates of standing timber are made. Students report the work to be extremely interesting, as it gives them a chance to get some practical experience in cruising. "It is rather strenuous and we climb into the truck at dusk a little tired, but with an enormous appetite, and after cleaning up and eating everything in the house you feel like a millionaire," is the verbal testimony of one of the cruisers. "I wish all my lab's were like that one." All the types of trees that grow in the state can be found represented in this field. The University is very fortunate in having such a well equipped laboratory so close at hand.

OBSERVING PART OF TEACHERS TRAINING

Unique Methods Used For Course in Education—Visit Schools

Idaho students find observation an interesting course in education according to the large enrollment this semester. There are almost fifty enrolled in the regular course besides those from other departments such as Home Economics and Music, according to Professor Erickson, who has charge of the work. The number observing is so great that it was necessary to schedule the hours to avoid too many students visiting the same classes in the public schools.

An effort is being made to stress this particular phase of training in the educational line. The department wishes to thank the teachers for the kindness and the cooperative spirit shown which helps the work along and makes it of more value to the students.

MINING MEN CONVENE FOR FLOTATION STUDY

Many Prominent Men, Including P. C. Ralston, National Expert, Gather For Session.

The University is playing the part of host this week to many prominent mining men of the Northwest, gathered here to attend the Flotation Process Course being offered by the College. Queries demanding information regarding the flotation course of the College are coming in daily from all parts of the country, which gives promise of an unusually large attendance.

Among the more prominent men in mining circles who it is hoped will attend the conference, is O. C. Ralston of Buffalo, N. Y., one of the country's foremost experts upon the flotation process. Mr. Ralston will shortly take charge of the Seattle station of the U. S. bureau of mines.

Providing he will be able to make connections, Mr. Ralston will deliver a personal address before the confer-

ence, but should he not arrive in time, he will forward a paper to be read at one of the meetings.

Other men of note who will be in attendance for the conference are: Stanley Easton, manager of the Bunker Hill and Sullivan; Jerome J. Day, manager of the Tamarack and Custer; J. F. McCarty, manager of the Hecla Mining company, and chairman of the Columbia section; C. W. Newton, manager of the Interstate-Callahan, and R. S. Hardy, mill superintendent for the Bunker Hill and Sullivan.

JUNIOR PROM SURE FOR SATURDAY NIGHT

Much Delayed Formal Comes Off In Gymnasium—Will Be Flowerless

The Junior Prom, the annual student-straining, soup and fish bust of the third year class, will absolutely occur on the evening of Saturday, March 6, in the Gym, according to reports issued Monday by the dignitaries in charge.

As tradition holds, this affair will call for the conventional winged neck-teaser, polished shirt front and over grown coat tails. The fair coeds, however request that appendages

of a floral nature will be struck from the list of necessities for the feminine attire at this party.

The place is the Gym. Admittance for males, \$1.50 per head. The time is Saturday night.

DEAN HULME WRITES FROM FLORENCE, ITALY

President E. H. Lindley recently received a letter from Dean E. M. Hulme, sent from Florence, Italy. Part of the letter follows:

"I go to Rome at the end of next week for a month. The weeks have flown swiftly here. My stay here, thanks very largely to Professor Guido Ferrando of the University, to Signor Enrico Rostagno of the Laurentian Library, and to my young and brilliant friend, Doro Levi, of the University, has been most profitable. After Rome I go to Naples, Salerno, and Palermo, and then, on the way back, I visit quite a number of towns in Umbria, the province of the mystics."

Dean Hulme is on leave of absence from the University and will return for the opening of the fall semester in September.

INTER CHURCH TEAM WILL VISIT CAMPUS

Prominent Church Workers to Spend Three Days at Idaho to Interest Students.

A team of men and women sent out by the International Church World Movement is coming to the University for three days, March 18-21. One of the leaders of this team will probably speak in a general assembly on Friday, the 19th.

These men and women have been making a tour of the colleges on the Pacific Coast to put before the young people the present opportunities of foreign work for all descriptions. Individual conferences are held with the students who are at all interested, in which the people sent only by the Inter Church Movement endeavor to aid the students in a choice of life work.

Hold Vocational Meetings.
During the few days of their stay here, the group will conduct vocational meetings, wherein brief talks on the opportunities of foreign service in the fields of engineering, medicine, teaching, and business will be given.

Popular Stereoptical Lecture.
Dr. H. H. Bell, assistant director of the life work department in the Inter Church Movement, will give the same stereoptical lecture given at the Des Moines conference, as one of the features of their visit to the University. This lecture is said to be one of unusual interest along the lines of foreign mission service, and one which attracted a great deal of attention at the Des Moines convention.

W. M. GIBB IS CAMPUS VISITOR

Prominent Southern Idaho Irrigation Engineer Meets Old Friends—'03 Graduate.

W. N. Gibb, who graduated in civil engineering with the class of 1903, was called to Genesee last week by the death of a brother. Thursday he visited the university campus.

Mr. Gibb is engineer for the irrigation project formerly known as the West-End Twin Falls, a project in which the new secretary of agriculture, Edwin T. Meredith, is heavily

interested. As a part of his work Mr. Gibb has designed, and is superintending the construction of, an earth dam 72 feet high across Cedar Creek, a small stream not far from Buhl. Mr. Gibb is in the midst of highly important activity and it is said that he is likely to be called in the near future to work of still greater responsibility.

BURNING TESTS OF IDAHO CLAYS HERE

U. S. Bureau of Mines Conducts Tests of Skells Collection—Ziegler To Lecture

Mr. Hewitt Wilson, ceramist of the U. S. Bureau of Mines, is carrying on at the present time a series of burning tests of the clays of Idaho. The samples which he is using were collected during the fall by Frank H. Skells of the State Bureau of Mines and Geology.

Ziegler Makes Good

W. L. Ziegler, who will be one of the lecturers at the Flotation Conference now in progress under the auspices of the School of Mines, is an alumnus of the University of Idaho, class of 1912. Mr. Ziegler has made a name for himself in the mining world. He, early, distinguished himself in the field of flotation, being the patentee of several flotation devices. He is the designer of several successful mills of the northwest. At the present time he is engaged in the designing of a mill on the Alaskan Coast. He has just returned from there in order to be present at the Flotation Conference.

DEAN IDDINGS TAKES FLING AT AUTHORSHIP

Writes Booklet For Lewiston Commercial Club Upon Cattle Raising.

Dean Iddings of the College of Agriculture, is the author of an illustrated booklet on Livestock in the Lewiston Part of the State. The booklet which is being published by the Lewiston Commercial Club, gives the advantages in the Lewiston district. Discussions of the beef and pork production; dairy, sheep and horse raising is also taken up in the booklet.

IDDINGS AND DAVIS ATTEND CONFERENCE

Ag. Dean and Dairy Head to Spokane For Northwest Livestock Meet.

Dean E. J. Iddings and Professor H. P. Davis, head of the Dairy husbandry department are attending the Fourth annual Northwest conference at Spokane, March 1 to 4. Dean Iddings will speak twice, his subjects being "Beef Production" and "The Horse." Prof. Davis will talk on dairying in the Inland Empire. Prof. Davis will talk to the Dairy club of W. S. C. Wednesday on the "Open Shed System of Housing."

Extraordinary Showing of Spring Styles

IN

Ladies' Wearing Apparel

The knack of knowing how to dress lies in merely knowing where to buy.

We don't pretend to have a monopoly on all the good things in outer wear, but our specialization in correct and becoming fashions naturally offers those who seek distinction in dress, unusual opportunities to express their fastidious taste.

We are particularly proud of our showing for the coming Spring and Summer. We will be honored to have you call and see it regardless of whether you buy or not.

"PLAY THE GAME" URGES R. O. JONES

"CAN BE NO TURNING BACK," DECLARES SECRETARY OF STATE; STRESSES ATHLETICS

Few University alumni are more earnest in their devotion than R. O. Jones, '09, Idaho's secretary of state. His office in the capitol building has become a Boise rendezvous for graduates and former students from all parts of the state and when southern Idaho alumni wish to launch any university movement R. O. always is the first man consulted.

An indefatigable optimist, he believes firmly in the brightness of the University's future. The following statement prepared by him for the Argonaut may prove something of an inspiration for other alumni who have not had his opportunities for keeping in touch with university activities:

"For building the University of Idaho and stimulating pride in the State and its greatest school, the movement initiated to insure cooperation of the Alumni will get the results. No university or school can succeed which builds a barrier of isolation between itself and its graduates. It will develop and be of greatest service when it interests itself in the Alumni and receives from the Alumni and former students that degree of loyalty and enthusiasm which it ought to have.

"The University is making notable progress. Its speed will be accelerated in proportion to the enthusiasm of the thousands of Alumni and former students located in every town, city and county of the state. The Alumni know exactly the things to stimulate interest at the University; they know that athletics play an important part; they know that a successful football machine moulded out of Idaho's strong athletes and coached by an efficient teacher of football, will make a greater Idaho. They are now anxious to give their time and what help is necessary to make these things possible.

"There can be no turning back. We are on our way. Every former student and alumnus is playing the game for the University of Idaho, because in so doing he is serving the state."

R. O. JONES, '09

ALUMNI PERSONALS

Lottie M. Works, a member of the class of 1918, is now teaching at Kamiah.

Belle Willis, also an '18 graduate, is now in the employ of the First Trust & Savings Bank of Moscow.

Lloyd A. Fenn, who received his diploma in 1911, sends in his subscription to the Argonaut from Kooskia, Idaho.

"Count on me for \$10 a year if you need it," is the offer made by C. H. Armstrong, '00, who writes from Wenatchee, Wash.

Emil A. Anderson, '12, is now located at Kalispell, Mont.

Oliver H. Campbell, '19, one of the ablest distance runners who ever wore the winged "I", has organized an unusually successful cadet battalion in the Bonners Ferry high school, where he is now teaching.

Alvin McCormack, '18, who is now located in Lewiston, was a recent campus visitor.

Lesetta M. Lubken, '15, who will be remembered as the 1915 May Queen, is serving as executive secretary to Nampa's superintendent of schools.

Elmer M. Williams, a member of the class of 1911, is now in the employ of the North Butte Mining company at Butte. Letters addressed in care of the company will reach him.

A. A. Rogers, '06, who is now assistant cashier of the First National Bank of Eugene, Ore., recently sent in a check covering both his own alumni dues and those of Mrs. Rogers.

R. C. Kipp, '15, former varsity guard, is located at Eugene, Ore.

A single check recently received from Yakima, Wash., covers the alumni obligations of both L. T. Jessup, '13, and Mrs. Jessup, who was Bertha Leighton, '12.

"Think your plan is O. K.," is a brief approbative declaration from C. E. Favre, '14, who is with the United

KJOSNESS ASKS ALL ALUMNI TO HELP IN OBTAINING MATERIAL

"WE MUST GIVE KELLEY SOMETHING TO WORK WITH," IS BURDEN OF URGENT PLEA

INSISTS NEW COACH IS BEST MAN OBTAINABLE

A. W. B. Kjosness, president of the university alumni association, was an active member of the student-faculty-alumni athletic committee which advised with President Ernest H. Lindley on the Idaho coach situation. This committee canvassed the entire country accurately and Mr. Kjosness believes that in Coach Kelley, Idaho has obtained one of the ablest football mentors who ever rounded an eleven into championship form.

He expresses that conviction in the following statement addressed to alumni and former students:

The announcement by President Lindley that Thomas Kelley, a graduate of Chicago university and one of Chicago's star football players, has been employed as head football coach, carries with it the conviction that a sincere attempt is being made on the campus to better athletic conditions at the University.

Mr. Kelley's strongest recommendation is his record. Everywhere he has gone he has produced football teams which have won every year, including the first, over opponents that had not been beaten before by them.

Mr. Kelley is a good man. In the judgment of the athletic advisory committee he is the best man that could be found. The committee believes that judged on the points of experience, character, leadership, knowledge of the game, and ability to win games, Mr. Kelley takes first place among coaches on the Pacific Coast. He should prove a strong magnet for promising, prospective University students.

But Mr. Kelley must have adequate material of quality equally as good as that of opposing teams.

It is now up to the Alumni and former students. Are we going to continue to permit our best high school athletes to be drawn to other states? Why not have a talk with that future star attending your high school? Have you pointed out the advantages of a University of Idaho training to those doubtful ones who feel that they can't continue their schooling? What about some practical means of assisting those embarrassed for want of necessary funds?

No, the athletic advisory committee isn't "passing the buck" to us. We have sort of been "passing the buck" to the University and the students these last years. This is our opportunity to do our part in producing another championship football team. The University has done its share. Let's go! Send Kelley that material!

W. KJOSNESS, President Alumni Association.

FORMER CO-ED IS NOW LAWYER

Helen Hardman, '14 Graduate, Admitted to Practice Before California Appellate Court.

Helen Hardman, a member of the 1914 graduating class, is believed to hold the distinction of being the first Idaho woman graduate to be admitted to the practice of law. Miss Hardman recently received official recognition before California's appellate court and in the near future she expects to be admitted on motion to the United States District court for that part of California subordinate to Los Angeles.

Next year Miss Hardman is planning to go to Yale to become a candidate for the D.C.L. degree. She expects to devote herself entirely to the practice, however, for the coming several months, according to word contained in a letter received by Dean J. G. Eldridge.

Notice.

There will be a meeting of the Economics Club in the Kappa Sigma house Wednesday evening at 7:30. Election of officers and other important matters will be brought up.

Why Go to "IDAHO"

The choice of a university or college to be attended should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2d, a competent faculty; 3d, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

- 1. Purpose and Field—**
Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Mining, Home Economics, Law, and Educational matters not only to students in residence but also to all who desire it throughout the State.
- 2. Faculty—**
The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are more than seventy workers in the agricultural extension division and fifteen agricultural county agents.
- 3. Equipment—**
Its equipment is ample. It has a library of over 40,000 volumes, excellent facilities for teaching literature, philosophy, and the social sciences, and well provided laboratories for the natural and applied sciences and for the technologies.
- 4. Students—**
Its students are earnest, wide-awake, and democratic. A large number of them earn their own way. Its alumni now occupy high positions and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The six colleges, the central agricultural experiment station and the sub-station of the U. S. Bureau of Mines are located at Moscow; the main agricultural extension office is Boise, and the agricultural sub-stations and demonstration farms at Caldwell, Sandpoint, Moscow, Aberdeen and Felt.

SOCIAL & PERSONAL

With the flu ban off, and the scent of spring in the air, the thoughts of campus society are beginning to turn from such sordid contemplations as the bad furnace and the shortness of the coal supply and dwell on happier themes, such as the waxing of the front porch and new ideas for entertaining. Last week showed the results in the Kappa Sigma dance and the Sigma Nu-Beta Theta Pi smoker. For this week the Junior Prom looms up big.

Hubert McNamara returned to college Sunday.

Gene Campbell, Edwin Peterson, Lyle Colburn and Fred Cline attended the Military Ball in Pullman Friday.

Ted Holland and George Wedgwood were Pullman visitors Sunday.

Le Roy Smith returned from Walla Walla Monday to resume his studies at the University.

Messrs Coleman and Sheehan of the extension department were guests at the S. A. E. house last week.

Mr. and Mrs. F. Mason were Tuesday dinner guests of S. A. E.

Leslie Moe and Roscoe Jones were dinner guests of Sigma Nu Thursday evening.

Sunday afternoon Sigma Nu entertained at dinner for Misses Manila Reed, Alice Bessee, Polly Thomas and Ernestine Rose, of Chi Delta Phi.

A. F. Morris of Seattle, was a visitor at the Sigma Nu house Sunday.

Friday evening Sigma Nu entertained at a smoker in honor of Beta Theta Pi.

Gamma Phi Beta entertained the Misses Sinclair and Riddle and the Messrs. Coleman, Fortner, Fluharty and Richards at dinner Wednesday evening.

The Misses Kelly and Eryin were Thursday dinner guests of Gamma Phi Beta.

Gamma Phi Beta entertained at luncheon Friday for Miss Wold and Miss Lee of the extension department.

Mrs. Ada Sheffield, Gamma Phi Beta house mother, visited in Pullman, Thursday.

Bernadine Moser spent the week-end in Kendrick.

Lyla Harsh spent the week-end in Deary.

The Misses Cunningham and Adams of Pullman, were week-end guests at the Gamma Phi Beta house.

Florence Allebaugh, Leah Borden, Helen Bloom and Mercedes Jones were in Pullman for the Military Ball, Friday night.

Gordon Staples, Jack Williamson and Howard B. Blodgett were dinner guests of Alpha Kappa Epsilon, Tuesday.

Mr. S. H. Fluharty was a guest of Alpha Kappa Epsilon, Wednesday evening.

Ray Commack, '15, was a visitor of Alpha Kappa Epsilon last week.

Miss Black, one of the extension workers, stayed at the Chi Delta Phi house last week.

Verna Johannesen was a Wednesday luncheon guest of Chi Delta Phi.

Thursday, Miss Holgate was a luncheon guest at the Chi Delta Phi house.

Ethel Richmond visited over the week-end with the Chi Delta Phi girls.

Chi Delta Phi entertained Dean and Mrs. Cookerell, Dean and Mrs. Thomson and Miss Lee at dinner, Wednesday.

Mr. and Mrs. Lorin Kitch and Lorin Jr., have taken a house on University avenue and expect to make their home here for the rest of the college year. Mrs. Kitch was Antoinette Schott.

Miss Riddle and Miss Pazendack, extension workers, were Friday dinner guests of Chi Delta Phi.

Miss Dutton of W. S. C. visited at the Chi Delta Phi house over the week-end, and attended the Kappa Sigma dance.

Miss Mildred of Lewiston was a Saturday dinner guest of Chi Delta Phi.

Evangeline Fleming spent Friday

and Saturday in Spokane.

Nell Carscallen and Esther Motie were dinner guests at the Kappa Kappa Gamma house Friday evening.

Glatha Hatfield, and Gertrude Stevenson spent the week end in Spokane.

The members of Beta Kappa of Kappa Kappa Gamma celebrated their fourth chapter birthday at a dinner party at the chapter house Thursday evening.

The K Z fraternity entertained at an informal dancing party given in honor of the new initiates Saturday, February 28. The gymnasium was beautifully decorated with scarlet, white, and green streamers and green boughs.

Butler's jazz orchestra from Oakesdale furnished the music.

Those present were: Mr. and Mrs. Safford, Mr. and Mrs. Martin, Dean French; Messrs Staples, Gray, Erb, Coulbourn, Arnold Benson, Douglas, Misses Williams, McGee, Soulen, Collins, Tipton, Sampson, Wilkinson, King, Atkins, Salter, Robbins, Putnam, Chrisman, Johnston, Polly Thomas, Hilda Thomas, Simms, Finnegan, Hoffman, Friedman, Hawkes, Adlueman, Benoit, Langroise, Ball, Blackinger, Fletcher, McKenna, Mosley, Penwell, Gano, Peasley, Dutton, Cunningham, Newton, Thatcher, Tecklenberg, Adams.

CAMPUS ROOMER

Little Flower in the Crannied Wall. Wee dandelion, flower of spring, Whose death knell was wont to ring In every clime and place In the lawn mowers' mad race; Whose first appearance was met with curse, And sometimes—worse, Wast ruthlessly dug and slung in gutter By the mad, ferocious cutter. But times have changed with prohibition, And man in search of damp nutrition In that dark, unhappy hour Stumbled on thee, little flower. They now plant acres of your kind, Indeed a home is hard to find Where there is not a batch of dandelion

A brewing in disregard to Mr. Bryan. Logical Sequence. One frat may give a second frat a smoker one evening and a scorching the next morning. Dead—"Say, were you out after three last night?" Head—"Naw, only one." At Idaho in Spring. A railroad tie may be the first step

to a marriage tie.

Where Are the Snows of Yester Year? What's become of all the men who feared for their safety during Leap year?

Well, well, well, look what's coming! The Junior Prom. Allah forbid that any of the faculty break a finger nail and have it postponed again! Now's the time to show your affiliation with the waiter's union. The idea is fancy dress, underclass men disguised in white "Gates Ajar" Adam's apple containers, and upper classmen in memorium of better days as bartenders. The fairer sex requests no flowers. After crowding a frat pin on their apparel, they claim that there is no room for aught else.

Serenades.—Primer Lessons for Freshmen.

Note that se-ran-ade sounds like air-raid. It al-so has the same effect, but out of po-lite-ness, the sis-ter-rush to the sleep-ing por-ches, in-stead of fall-ing in the cell-ar as they would like to do.

A se-ran-ade is noise dis-guis-ed as music. (The dis-guise is us-u-ally very thin.) In day-light it would be call-ed a yell ral-ly, but af-ter dark it is a se-ran-ade.

A trom-bone so-lo in a se-ran-ade is a-bout as ap-pro-pri-ate as a bo-quet of lim-burg-er cheese in a par-lor bed-room.

Yes, But the Dean Was! "Were you at the all-college dance Friday night?" "No, where?" "Oh, the Elks gave one."

Were YOU at the train to meet the team Sunday?

The principle occupation of a number of students (both Ed and Co-ED) lately, seems to be the computation of the ties on the N. P. for a couple of miles each side of Moscow.

Gosh, fellers, let's all go to Vancouver. It only took the debate team one day to run out of expense money.

Wonder what some of the co-eds, who have made those cute little two line announcements, would think if they could see the way the rooms of their accepted are decorated. The other day I was in the Beta house and—oh, well, what's the use, I read the Police Gazette, too.

He-Vamps, No One. Mary had a stalwart beau Before she came to our Moscow. But now he's forsaken, She's very much shaken, And loudly calls for Moe.

NEWLAND BREAKS INTO PRINT THRU GLASS DOOR. It was 4:10 in room 307 and all of the French class except one, whose seat was empty, was deeply involved in the declension of verbs. The room was wrapped in peaceful quietude. Miss Ingersol's gentle voice and now and then a word from some promising

student were the only sounds that broke on the pretty scene.

Up the iron stairway of our Ad Building dashed a wild and furtive figure. Four steps at a time he came, skidding and coreening madly on the turns. No. 307 loomed up before him on the glass in the door. He applied the brakes and threw in the reverse. CRASH! The glass in the door of room 307 was dashed into a million pieces. One fair French pupil was rudely awakened only to lapse into a state of coma. Screams of terror escaped from others and fairly rent the war after-noon air. Miss Ingersol rushed to the prostrate form lying in the shattered glass.

"Oh! Mr. Newland, are you hurt?" "Nothing serious," he purred as he nonchalantly plucked splintered fragments from his goodly right arm.

ALL POSITIONS IN "GEM" STAFF FILLED

Editors of Various Departments Are Hard at Work to Get Paper Out on Schedule

Appointments to the staff of the Gem of the Mountains are now complete, and the work of the various departments organized and well under way, according to a statement published by Editor-in-chief Kinney yesterday.

The completed lineup of the staff as it now exists is: Alfred Kinney, editor in chief; William Sutherland, associate editor; William Langroise, business manager; Garde Woods, assistant business manager; Abe Goff, athletic editor; Gladys Clark, art editor; C. H. Swanstrom, organization editor; Grace Taggart, society editor; Cameron McEachern, class editor; Mercedes Jones, joke editor; Fred Kline and David Proctor, snapshot editors.

Headquarters have been established in the "Y" hut. Work will be carried on there on every afternoon. As fast as the various departments are completed they will be sent to the publishers. The staff plans to make a record this year by putting the book out on time.

The contract has been let to the McKee Publishing Co., at Spokane.

GROUND GRIPPERS DO NOT CLING TO WATER, SAYS CO-ED

You know that little pool of water on the sidewalk near Ridenbaugh Hall where a water pipe broke? Well, what do you think happened there the other day? Some kind hearted person laid some boards across it for the young co-eds to walk on. They thought it was awful thrilling to walk on water, too. But as a certain fair damsel stepped on one of these same thrilling boards, it slipped out from under her. She hid on a new pair of shoes called ground grippers. But they didn't, and her dainty little feet went out with the board. Splash! Oh, it was awful!

FORESTERS SHOW SOX MADE OF PINE WOOD

Department of Forestry Shows Exhibit of Wood Products—Wolf Visits

Possibly you are wearing wooden sox. If in doubt see Dr. Schmitz of the school of forestry. A pair of those articles made by the Holeproof Hosiery people was one of the features of an exhibit of wood products held at the school of forestry last week.

Oils, absorbant cotton, matting rugs, twine and several other commodities of daily use were shown. This is the beginning of a large collection of wood products which the Forestry Department is planning to accumulate.

Fullaway Ends Lectures. Mr. S. H. Fullaway, supervisor of the Nez Perce National Forest closed an instructive series of addresses last Saturday. His talks on Forest Administration were delivered to students of the School of Forestry and other students and faculty members who were interested.

Wolf Visits Foresters. M. H. Wolf, forest supervisor of the Coeur d'Alene National Forest with headquarters at Coeur d'Alene is visiting the School of Forestry this week. He is scheduled for several lectures on Forest Management.

SWANSTROM YELLS FOR "GEM OF THE MOUNTAINS"

All organizationst hat desire to have space in the 1921 "Gem of the Mountains" must communicate with the staff at once. An effort has been made to reach the president of every organization on the campus, through personal letters, but to date, results have been very unsatisfactory.

From a total of 34 letters sent out two weeks ago, only seven available answers have been received. There are an unusually large number of organizations on the Campus this year, and although the Annual is to be larger than ever, many of the various associations will not be given space unless they are prompt in notifying the editors of the amount of space they desire. Every day that

this information is withheld from the staff, delays the appearance of the annual, increases the work on the part of the staff and tends to impair the success of the publication.

It is the desire of the Gem staff to give all organizations their just representation in the annual, but this cannot be done if cooperation is not immediate and hearty.

Heads of all Campus organizations should make it a point to submit a list of all members, officers for the year or semester, a short write up of the history, purpose, etc., of the organization, together with a notation of the amount of space they desire and the number of cuts which they wish to have inserted.

This information should be given to C. H. Swanstrom at once.

AG FROSH MUST SIGN UP

Spirit of Day is of Material Educational Value--Experience Valuable

Everything is in readiness for the annual "Ag Day," when the soil mulchers take the bull by the horns, declare unto themselves a holiday, and spend the day judging classes of the various departments and in general frolicing and gamboling about, at the same time accomplishing something of very definite value along educational lines. Town merchants and interested men have donated many prizes of value, and competition will be keen.

All Frosh Register. Although registration for the different events has been progressing rapidly it must be emphasized that the spirit of the day will be partly undermined if the contests do not see every Ag student in at least one event. All Ag. Frosh must register. Frosh will be held responsible if they do not take part.

Educational Value. The educational value of the day, in giving students very valuable experience in judging, cannot be over-estimated. Good judges will be procured, some of them from Washington State College. Judging will begin by 9:00 o'clock, and a program will be posted.

There will be an important meeting and program Friday night. A list of prizes in the events follow. The Ag. club, and faculty, extend their thanks for these prizes, and assure the donors that they will be appreciated.

Animal Husbandry. Silver loving cup, Nordby Bros., Genesee; 4 books, Hagan & Cushing; \$5 hat, Creightons; \$3.50 in merchandise, Corner Drug Co.; Breeders' Gazette, Butterfield-Elder Co. CORRIDOR HOUNDS BEWARE! The snap shot man of the Gem of the Mountains, '21, is on constant watch for all those funny situations which are bound to occur during a college education. And you may be sure that he is always loaded, too.

Care should be taken during the next few weeks, that you do not forget to change from pajamas to street clothes before going to class. It is well for amorous couples who are in

the habit of taking the surreptitious osculations behind the museum cases on the third floor, to cast an eye to windward before opening fire. The photo man is omni-present. His films are furnished him, free for nothing and for once he is in his seventh heaven of delight. Nothing can describe that sensation of satisfaction manages to get us in range of that little infernal machine, just as we are in the depth of a meditating scowl, or when the March wind shows things it shouldn't, and, well, you know.

ZOUNDS!

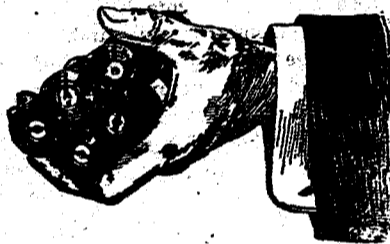

Last Friddy night was one of the most memorable occasions in the history of the University. It is a fact that but few people realize this but it is gospel nevertheless. The big event in question was the Idaho-Oregon debate.

About seven thirty, great masses of people began to wind their way across the campus. It is estimated that the Auditorium held more people than on any other one previous occasion. While an accurate count was impossible, it is said that there were nearly twenty people present, exclusive of the debaters and the chairman.

IDAHO TO HAVE WOMEN'S ATHLETICS

(Continued from page one.)

girl should get in and show that this time we are going to bring results. Let us have woman's athletics in such shape that we can start in in full swing in the fall.

Callaway Will Chia Self.

"Let us show more enthusiasm in this movement," urged Inez (Slippery) Callaway. "For my part, I'll learn to chin myself for the cause at least."

Phoebe Jane Hunt.

"Every girl will have a part to play in the various branches of athletics," said Phoebe Jane Hunt. "There's a place for every one of the girls, and some particular phase of the events is sure to prove an attraction to them."

Sweeney Urges Organization.

Mable Sweeney laid more emphasis on the fact that organization was necessarily a thing of the future. "Let us find our material and work it into something, so that if ever we do have the National Woman's Athletic Association on our campus we can be an active part in it."

"Blea" Behind Movement.

W. C. Bleamaster, physical direc-

tor, was not present at the meeting. When interviewed privately he stated, "I think it is a fine thing. The athletic department will do everything it can to encourage the movement for women's athletics. We will show our sentiments in the matter more by actions than by words."

SUMMEM SESSION JUNE 14-JULY 23

(Continued from page one.)

mal husbandry, bacteriology, dairying, Farm Crops, Horticulture, Biological Sciences, Chemistry, Economics, Education, English, French, Spanish, History, Home Economics, Mathematics, Music, Art, Physical Education, Psychology, Reading, and Commerce. Other courses may be offered.

Large Enrollment Expected.

Dean Eldridge has received many inquiries from all over the state regarding the session and it is certain there will be a much larger enrollment this year than last, which reached 115. Dean Eldridge stated his surprise at the number of regular college students who are taking advantage of this. An illustrated prospectus will be issued in a few days.

We Positively Do Not Use Skimmed Milk Powder and Butter to Make Our Ice Cream

THIS MAKES GOOD ICE CREAM, BUT NOT AS GOOD AS OUR OLD FASHIONED ICE CREAM

We use only Pure Sweet Cream, Eggs and Sugar with Pure Fruit in making our Old Fashioned Ice Cream. Rich, smooth and sweet—the taste tells.

Purity always wins over cheap substitutes.

We make any color or flavor, to order; fancy bricks or in bulk, and the price is no more than the cheap substitute brands.

When you want Old Fashioned, Home-Made, Delicious Ice Cream come to
