SIX IDAHO RUNNERS

AT SEATTLE MEET

SEVEN BIG SCHOOLS REPRESENTED IN COAST RELAY CARNIVAL

WILL ENTER TWO EVENTS

McCaullie, Gerlough, Van Housen, Harsh and Hughes are Men Who Will Run

McCallie, Gerlough, Van Housen, Harsh, Eaton and Hughes are the six men who will represent the University of Idaho at the Relay Carnival to be held in Seattle next Saturday, April 24.

Seven School There.
There will be representatives from the seven largest schools in the northwest at the carnival. Oregon Agricultural College, the University of Oregon, the University of Washington, the University of Montana, Montana Wesleyan, Whitman College, and the University of Idaho will all have men entered.

Idaho in Two Events.
Idaho's coaches thought it best, in view of the limited amount of material available, to train the Idaho runners for only two events, rather than attempt entering more races, with the chance of losing more points. The races that the Gem State hoopers will take part in are the 440 yard relay, which will total a one mile race, and the half mile relay race, which will total a two mile race.

Who Runs What.
Van Housen, Gerlough, Harsh, and Hughes will enter for the half, and McCallie, Van Housen, Harsh and Eaton for the 440. These men have been training for their respective races, and reports have it that they are in fine condition.

Will Leave Thursday.
The six men who will represent Idaho in the meet will leave for the coast Thursday at 2:25 p. m. They will arrive in Seattle the following day.

TABLEAUX OF LIVING PICTURES A SUCCESS

Friday Night's Artistic Entertainment Well Received, and Nets Art Department Tidy Sum

Moscow was able to boast of the possession of a splendid art gallery on Friday evening, and altho the pictures in reality were of temporary existence, being posed by people connected with the college, they will long be vivid in the minds of those who viewed them. Such presentations of the great master pieces was a rare treat to the audience.

Over 100 people were working behind the scenes seventy appearing before the footlights. No single picture posed can be commended as all were produced exceptionally well.

Cooperation Big Factor
In speaking of the Tableau Miss Palmer, who was in charge, stated that she had never before worked in a school where the co operation by all the students was any more perfect. The co-operation of the music department with the assistance of Miss Wegman and Mr. Dickenson, was most appreciated.

The merchants also assisted in the success of the tableau by loaning materials for the make-up. Mrs. Conwell, Mr. Bridge, Mrs. Graybill and others did the make-up behind the scenes. Neither were the janitor force under Fred Skog lacking in co operation. Much credit is due Miss Palmer for her untiring work in creating and managing a program of this nature.

The receipts for the evening were most gratifying, almost \$100 being cleared.

YE PROPHET TELLS OF NETHER LIMB FROLIC

Throw a brick at the dogs of work, kick the wolves of worry in the snout, and come, ye followers of Omar, and gambol as do the lambs, and frolic as does the bushy tailed fox—for the Sophomores have proclaimed their frolic for next Saturday eve, and lo, there will be merriment for all who cometh, and unto those that do not come will wander the pangs of regret, and eons of nausea will rest with him that absenteth himself, even unto the third and fourth trials to locate a date—nor shall the steps that he trods be measured in cubits, but in joy and merriment for all the rest of his days, forever and ever nether shall he regret unrolling one and one quarter sheet of papyrus from his roll, for yea it shall be well spent.

And unto him and her that throweth the most aesthetically, synthetically and rhythmically patter of his nether limbs, at the same time holding their truncus arteriosis in perpendicular plane, shall go the herbribbed and cast iron article of wearing apparel.

For lo, and again lo, making it lo lo, there shall be no lack of something new, even unto the surface of the floor shall the bees lay piteous wax, for when Sophomores say punch, then shall there be punch, and so says the class of '22, let there be no absentees, lest there be a wailing and gnashing of teeth from those who do not attend, even unto the destruction of tooth brushes.

MAY WILL SHOW MANY SPRING ATHLETICS

TWO TRACK MEETS AND SEVERAL BALL GAMES MARK MONTH

INTER-CLASS MEET MAY 15

Two Ball Games With U. of O. and Annual Conference at W. S. C. Among Month's Features.

After being held back for some time by the late spring rains, spring athletics at the University will soon start with a boom, according to an announcement issued from the athletic offices today.

Inter-Class Meet May 15.
The annual interclass track meet will be held on Saturday, May 15, if the present plans of coach Matthews hold good. This is the day following the annual all-state interscholastic meet, which will be held at the University May 13 and 14.

Two Dual Meets.
Idaho will see two dual meets during the early part of May. The University of Montana is slated to send her track artists here on May first. On the eighth of the same month Washington State College will be represented on the Idaho cinder path by a delegation of weight and track men. On May 29 Pullman will see the annual conference.

Ply Ball Soon.
Two baseball games are scheduled with W. S. C. next week. The Washington nine will first play here, and will in turn play host to the Idaho tossers at Pullman. On May 28 and 29 the University of Oregon will send her crack squad of twirlers to the Idaho campus for two games with the Idaho aggregation.

ENGLISH CLUB WILL HEAR STODDARD KING

Prominent Spokane Writer and Author of "The Long, Long Trail" Speaks Wednesday at Guild Hall

"Some Animadversions on the Art of Parody" is the topic chosen by Stoddard King of Spokane, who will speak at the Guild Hall Wednesday evening, April 21st. Mr. King, who edits the facetious column of the Spokesman-Review, is the author of "The Long, Long Trail." He spoke before the English club last year, choosing as his topic at that time, "The Confessions of a Hack Writer." The meeting will also be the English club party. There will be dancing and something to eat.

A.S.U.I MEETING TO VOTE ON AMENDMENTS

New Amendment to be Proposed to Increase Registration Fees of College to Meet New Program

An A. S. U. I. meeting will be held Wednesday for the consideration of several new amendments. An amendment will be proposed and given its first reading to raise the registration fees of the University, to take effect next fall. The backers of the movement feel that this action is necessary for many reasons.

The new program of athletic development of the University will demand more money, and as it is now the students pay less than half of the general admission to all athletic contests. The new program of expansion of the college, the need of more money in the debate fund, and the new plan of an Argonaut of increased size and more numerous editions all point to the need of an increase in the registration fees of the college.

The following amendment, read last week, will be voted also at this meeting:

Amend By-laws, Article II, Sec. 1, Pt. VI, sentence "It shall be awarded by the athletic board as follows:" to read:

"Pt. VII. At the end of each athletic season the coach shall recommend to the Athletic Board those men who have observed training rules and who have worked conscientiously throughout the season. The Athletic Board may award the "I" to any member of the association who is thus recommended by the coach or who is believed by the Athletic Board to have trained carefully during the entire season and:"

Eliminate phrase "To any member of the association" wherever it appears in remainder of Pt. VII.

ACKNOWLEDGE IDAHO'S WAR MEMORIAL GIFTS

National Committee Thanks College For Aid Towards Constructing Tribute To France

Word has recently been received from the National Committee thanking the University students for their contribution towards America's gift to France.

This gift is to be a colossal statue, erected on the site of the first battle of the Marne in commemoration of the victory of the French forces there in 1914.

The gift shall come from all America and be representative of the spirit of the American people just as our statue of Liberty which stands in New York harbor was representative of the French people.

The distinguished American sculptor, Frederick MacMonnies, is now working on sketches for the statue. He is especially well fitted to carve this statue, his work being well known in France and in America. During the war he remained in France and turned over his studio near the Marne as a hospital for French soldiers whom he aided in every way.

The offer of this memorial to the French government has received the highest official sanction of the French republic and the tender has been accepted with many expressions of gratitude.

It is estimated that \$250,000 will be required to construct and erect the statue. With the limited sum required emphasis is placed on small subscriptions from schools and organizations but that these all be as representative as possible. A memorial book containing the names of all societies or institutions contributing will be placed in a museum in the base of the statue in token of the amity of the two republics.

POSITIVELY THE LAST BIG BUY OF THE YEAR. MAMMOTH CLEANUP SALE IN AD BUILDING WEDNESDAY

Clothes are so nearly out of sight (speaking in terms of prices of course) that we don't dare sit down anymore. It takes an extra quarter section out of a dollar bill every time we shake our feet. But in spite of these woeiful tidings, there still remains one bright and cherry spot in the universe.

"WHERE?" hear the echo of countless thousands of voices.

You, will find it, mister student, in front of the bulletin board in the ad building next Wednesday from 8 'til 5. FIND WHAT? The last and only chance on earth to buy the biggest, best and snappiest Gem of the Mountains ever for three little one spots, one down, and two on receipt of the book.

On Wednesday evening the books of the Annual will be closed and the final orders sent in to the printers. Get busy and grab one of these life-long joy books while you have the chance. Jar loose from three hundred pennies and tuck three hundred pages of sunshine and life-long memories under your arm.

BIG SISTER MOVEMENT SHOWS LIVE INTEREST

Wednesday Afternoon Tea Attended By One Hundred Twenty-Five Co-Eds.

The Y. W. C. A. tea given last Wednesday at Ridenbaugh Hall to promote the interest in the big and little sister movement established not long ago, was a decided success, according to the hundred and twenty-five co-eds who attended.

If the success of the sister movement can be judged by the interest shown at the tea it is evident that every girl is doing her best to push it along.

Plans for a friendship hour were discussed at the last cabinet meeting and a room in the new wing of the Ad building where the Y. W. C. A. can have a home is being urged. It is hoped that weekly meetings can be held there and also that hot lunches many be served during the winter months.

"We have returned from the cabinet conference in Pullman with the best of ideas for our Y. W. C. A.," says Miss Bernice Cornelson, "and we are going to try plans of other colleges in our work to have it a real live organization."

Drama League Plays Tonight.
Two one act plays will be given by the Drama League tonight in Guild Hall as the ninth of its series of short plays. "Trifles," a short drama, and "Suppressed Desires," a two-act farce are the plays to be offered tonight.

Foresters Hear Prof. Livingston
The meeting of the Associated Foresters last week was marked by an address by Professor D. C. Livingston on the geology of Idaho. The lecture was illustrated by photographs which were taken by himself in the different parts of the state. He has spent several years in traveling and conducting investigations in all parts of the state and is regarded as a leading authority on Idaho geography and topography. His address has been indorsed by forestry faculty and students as extremely interesting and instructive.

CO-EDS ADOPT SELF GOVERNMENT PLAN

DATES PRIMARY TARGET OF NEW SELF-GOVERNING RULES

ORGANIZE OWN COUNCIL

Rules Framed by Byrns, Reed, Borell, Sabine, Sweeney and Vogelson.

Self government of, for and by the women of this University is now a reality. The plan for self government suggested by Dean French in January became an actuality Friday afternoon when the Women's League assumed the responsibility of regulating the conduct of the women of the university.

The plan for self government which was finally accepted on Friday vests its authority in a council composed of six members, one each from the Freshman and Sophomore classes and two each from the Junior and Senior classes. The present council which devised the rules accepted by the Women's League is composed of Margaret Byrns, Manilla Reed, La Verne Borell, Leta Sabin, Mable Sweeney, and Grace Vogelson.

The regulations, which are to be the standard of conduct at this college hereafter, follow:

1. The library is to be used for study only, not for visiting with men or women.
2. Women shall not have lengthy conversations in the halls with men.
3. There shall absolutely be no library dates.
4. Walking dates will be allowed from 4:00 to 6:00 p. m.
5. Sunday dates shall last till 7:00 from the first of November until the first of April. During the spring and fall months dates shall be extended until nine o'clock.
6. On Friday and Saturday nights callers may be received until 11:00, except on those nights on which an all college function is scheduled. Young women not attending a regularly scheduled college event, must dismiss callers at 11:00.
7. A sneak date applies to any date which does not occur on regular specified date evenings and for which permission has not been given. All such cases shall be reported by the President of the various organizations to the Council.
8. Permission for all out of town excursions shall be granted only by the Dean of Women.
9. Special permission dates shall be granted by each house President at her discretion, no woman student to be allowed more than one such date a week. Seniors are exempt from this rule and shall use their own

ILLUSTRATED LECTURE BY NOTED ART CRITIC

Dr. Chas. Moore, Member of National Fine Arts Commission Shows Many Interesting Slides.

Dr. Chas. Moore, for many years a member of the National Commission of Fine Arts, gave an illustrated lecture at the Y Hut Wednesday morning. Dr. Moore spoke upon war memorials and campus beautifying, and illustrated his lecture with a great variety of interesting slides of famous war memorials of this country and of foreign nations.

One of the points which the speaker laid particular stress upon was that we should not be in any great hurry to build war memorials to the soldiers who gave their lives in the war, but to be patient and let matters take their course. As a comparative example, Dr. Moore pointed out the fact that only today, nearly sixty years after the civil war, are we building the great Lincoln memorial at Washington, which has been discussed and planned for many years. Several suggestions were presented by which the campus of the University might be made more attractive by the speaker during the course of his talk, in particular the use of fountains and water pools.

LET'S PUSH THE GEM.

The true worth of a student may be correctly gauged by his support of legitimate school activities. The Gem of the Mountains is truly a student activity, even though published by the Junior class. It covers the whole field of university life. In order to make this annual a success, it must have the unqualified support of the students, and graduates as well. Support means more than putting down your name as a subscriber. It means: seeing that your roomie has his or her name on the list; it means an attempt at least to interest the graduates; it means the gumption to say a good word for it and to boost its sale.

Supporting the Gem of the Mountains is not charity. It is not a contribution, it is a proposition based on business merits. The book is not worth many times its cost from an intrinsic viewpoint, but in its sentimental aspect, its value cannot be computed. In after years it will be the most cherished possession of college days. If you have failed to sign the dotted line, do so Wednesday and see that all your friends are there with their pen ready for business. The success of the book depends to a great extent, on the number sold, and in view of the fact that printing prices are at the highest point ever known, makes the Gem of the Mountains at three dollars, a genuine bargain. Let's take advantage of it, and incidentally, while helping your self to the best annual ever published at the University, help your school.

THE CADET BAND

It is a woeful axiom that many of the activities that are of the most worth to the campus are least appreciated. One of these is the cadet band.

It is true that the cadet musicians play in the band as a military requirement. Nevertheless, no one can gainsay the immense value of the organization to the campus in general. It is through the cadet band, as a regularly organized and drilled institution, that the campus gets its music for the football and basketball games, yell rallies, campus day, and, in short, all student gatherings that require music of that nature.

It has often been complained that the bandsmen turned out poorly, and, that having turned out, the music that they played was poor,—there's a reason.

During the recent basketball tourney the entire band was out time after time to furnish music for the occasion. For this they received no no extra military credit. They were merely asked to come and they came. In part, it was their duty as loyal students to do this. To that extent, and far beyond they did their bit well and conscientiously. Yet not one word of appreciation did they receive.

Idaho has the material and the director for a fine band. But such a thing cannot be possible as long as they receive no thanks for what they do, and only curses and adverse criticism for what they do not do.

A good band, which aside from being a purely military branch, will be capable of playing a hearable concert, is both a necessary and possible thing for the University. Try giving the boys a boost, and then watch the results.

HOW ABOUT THE FROSH AND THE GREEN CAPS?

No man has respect for laws or government when those laws or governmental mandates are not obeyed and enforced. Neither will laws or government be respected when the laws of that country are impartially enforced. The same holds true concerning campus rules and traditions.

There is a tradition on the campus that Freshmen shall wear green caps on and after the 17th of March. So

far as enforcement of this tradition is concerned, it is nil and void. Dozens of Frosh cross the campus daily without the festive four-bit piece of green on their main peak. The spirit is growing. If one Frosh does not wear a green cap, why should I?

The upper classmen who are supposed to enforce this tradition are either ossified or are rapidly succumbing to spring fever. In the good old days, a Frosh without his duly prescribed head gear, was a signal for a gala occasion among the upper classmen. Everybody turned out to the celebration and took a hand in conducting the culprit to the gym or swung a mighty hand to that section of the victim's anatomy, where the influence of the uplift would be felt most. Today the upper classmen grins when he sees a Frosh without his Green, and says nothing. Neither does he seek to rouse the wrath of the older fellows and thus uphold the sacred traditions of the University.

Vigilance committee, wake up, or else let us complete the decay of the old traditions by abolishing them all and turning the old school into a seminary.

Lawyers Hear Nesbit

Last Thursday evening, at the Kappa Sigma house, the members of the Phi Alpha Delta Law Fraternity listened to a talk by Mr. Nesbit, local lawyer and Prosecuting Attorney for Latah county, upon criminal law and procedure. He explained the duties of the county prosecutor and told of the reasons for prosecutions which to the layman are useless and merely an expense upon the county. Then followed some minutes of questions and answers. Such talks by practicing attorneys give to the law student a view, otherwise impossible of attainment, except by actual practice.

FROSH ELEVEN MAY PLAY SOUTHERN SCHOOL

COLLEGE OF IDAHO WANTS A GAME NEXT SEASON WITH IDAHO YEARLINGS

PLAY GOODING COLLEGE

Promises of Strong Freshman Aggregation Next Year Are Good.

A clash over the pigskin will occur between the College of Idaho varsity and the University of Idaho Freshmen next fall, if the present plans of the two institutions hold good, thus satisfying an ancient desire on the part of the southern college.

An attempt was made by the College of Idaho to secure a game with the Idaho varsity last fall, following the game with the University of Utah that was to be played in Boise on Armistice day, November eleventh. Because of a full schedule on the part of the Idaho varsity, the two teams were unable to meet.

The state dopsters have announced that a contest between the college varsity and the freshmen aggregation will produce a better game than one between the two varsities. It is expected that the freshmen eleven of next season will be one that will be able to give any secondary school a tough fight.

If the game with the college is arranged, it will mean that a game will also be played with the Gooding college varsity.

Why Go to "IDAHO"

The choice of a university or college to be attended should be based upon four principal requirements: 1st, a high purpose and broad field of work; 2d, a competent faculty; 3d, a sufficient equipment; 4th, a student body of high ideals. The University of Idaho fully satisfies these requirements.

- 1. Purpose and Field—**
Its purpose is to serve the people of Idaho in developing and training students; in advancing the entire State educational system of which it is a part; in assisting toward the solution of economic and social problems; in furnishing expert knowledge in Agriculture, Engineering, Forestry, Mining, Home Economics, Law, and Educational matters not only to students in residence but also to all who desire it throughout the State.
- 2. Faculty—**
The faculty is made up of eighty-three teachers of thorough training and efficiency attained by years of study and experience. They are deeply interested in the progress of each and all under their instruction. They know the State and its conditions and give their best efforts to its development. In addition there are more than seventy workers in the agricultural extension division and fifteen agricultural county agents.
- 3. Equipment—**
Its equipment is ample. It has a library of over 40,000 volumes, excellent facilities for teaching literature, philosophy, and the social sciences, and well provided laboratories for the natural and applied sciences and for the technologies.
- 4. Students—**
Its students are earnest, wide-awake, and democratic. A large number of them earn their own way. Its alumni now occupy high positions and will be the future leaders of Idaho in professions, the industrial vocations, and in the building and maintenance of homes.

The six colleges, the central agricultural experiment station and the sub-station of the U. S. Bureau of Mines are located at Moscow; the main agricultural extension office is Boise, and the agricultural sub-stations and demonstration farms at Caldwell, Sandpoint, Moscow, Aberdeen and Felt.

Big Idaho Summer Session For 1920 In Making

OFFER VARIETY SIX-WEEKS TERM

UNIVERSITY SUMMER SESSION
FROM JUNE 14 TO JULY 23
HAS COMPLETE COURSE

J. G. ELDRIDGE DIRECTOR

Many Prominent Speakers Already
Listed, and Special Amusement
Features Are Planned

The University of Idaho Summer session for the term of nineteen twenty will be by far the best that has ever been offered the people of the state of Idaho, according to the plans now being laid by Dean J. G. Eldridge, director of the summer session. The University summer session this year will be of six weeks duration, from June 14 to July 23, inclusive and will be held on the University campus at Moscow.

Serves Many Purposes.

The work of the summer session as outlined for this year is many fold. It will afford the regular undergraduate students of the University an opportunity for securing additional credits toward their degree or an opportunity to make up back work in some cases where it is necessary.

It will be of especial advantage to teachers whereby they may work towards obtaining a University degree, and at the same time be keeping abreast with the new methods of teaching.

It will enable the high school graduate who expects to enter the University in the fall to become acquainted with the college, and to make up work in which he may be deficient for college registration.

Advantage to Specialists.

Particularly will it be of unestimable benefit to those engaged in some of the special fields of the teaching profession, and for these the following are of most interest: Music, art physical education for both men and women, and including courses in coaching and play ground work, agri-

The Administration Building.

culture, and home economics. In connection with the work being offered in these specialty lines, one will be offered which will prove valuable to agricultural teachers, conducted by Professor C. B. Wilson of the College of Agriculture, and who is also state supervisor of the Smith-Hughes method of teaching. Professor M. S. Lewis, also of the University faculty, and state director of vocational education, will be present for a part of the session, and together with Professor Wilson will conduct at the close of the regular six weeks term, a weeks conference of all Smith-Hughes agricultural teachers. Professor Katherine Jensen, state supervisor of teachers training in home economics, will have direct charge of the course offered in home economics for the session.

FOR Principals and Superintendents
The University Summer Session will furthermore be advantageous to those teachers who wish to raise their grade of certificate, and many are expected to take advantage of this

feature.

A separate course is being offered for the benefit of superintendents and principals who wish to do some work on administration problems under the expert supervision of the Department of Education of the college.

Good Lectures Assured.

Director Eldridge is now busy lining up many of the prominent lecturers of the country who will be available at this time to speak before the summer session, and has already been successful in securing several. Dr. Lindley, president of the University, has promised to give several lectures along his special field of psychology, which will undoubtedly prove a feature of the session. Dr. Stephen S. Wise of New York City, one of the prominent men of the country today, has been secured for one lecture. Dr. E. A. Bryan, state commissioner of education, and Miss

Ethel Redfield, state superintendent of public instruction will also deliver several talks to members attending, and other speakers will be secured before the opening of the term in June.

Exceptional Faculty.

The faculty for the six weeks summer session, thirty-three in number, is made up to a large extent of departmental heads of the University teaching staff. This is something that is not always the case in the summer terms of other institutions, and the University feels that his will prove an added inducement for Idaho men and women planning to attend this year's session.

Recreational Features.

Recreation is not being overlooked in preparing for Idaho's big summer term, and amusements similar to those enjoyed last year are already being prepared. Excursions to the

near by hills surrounding Moscow, Genesee Ridge, Moscow Mountain, and other points of interest will be taken over the week ends. The University tennis courts will be open, and picnics will be taken in the long summer evenings. Musical programs and other measures of entertaining the visitors are being devised. Short daily assemblies, which proved so popular last year, will again be held in this year's session. The weather of Moscow is said to be fine during the summer months, the evenings are cool, and the days not excessively hot.

No tuition whatsoever is charged for attendance at the summer session and board may be secured at Ridenbaugh Hall for both men and women for six dollars a week. However, a two dollar entertainment fee will be charged.

Last Year's Success.

Towards the close of last year's session, Director Eldridge conceived a way in which he might learn the true sentiment of those attending, of the way in which the session was con-

ducted. Everyone was invited in turn to unsolicited statements of expressions and criticisms of the session, and to suggest any improvements. There were practically no adverse criticisms, while statements of commendation for the way in which the session was conducted came in by the score. Particularly were the writers enthusiastic of the way in which the faculty displayed a personal interest in the work of those attending, and of the helpful attitude of every one connected with the college toward making it enjoyable for them while here.

Director Eldridge announces that already he is receiving preliminary applications for admittance to the summer term, not only from the state of Idaho, but from Washington and Oregon as well. A short booklet and full details upon the University summer session can be had by calling or writing to Director J. G. Eldridge, University of Idaho.

Subjects Offered.

A list of subjects which will be offered for the six weeks term follows: Agricultural education, agricultural engineering, animal husbandry, bacteriology, dairy husbandry, farm crops, horticulture, poultry husbandry, art, botany, zoology, chemistry, general economics, general sociology, education, English, general science history, home economics, library, economy, mathematics, music, including voice, piano, and theory, physical education for both men and women, physics, psychology, including course in mental tests and ethics of reconstruction, French, Spanish and manual training.

Summer Session Faculty.

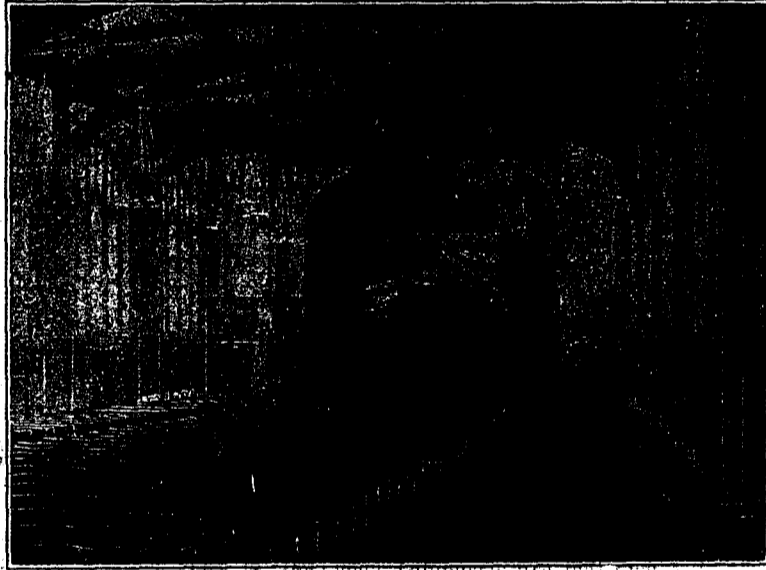

A list of the professors to teach in the summer session follows:

UNIVERSITY HOLSTEIN HOLDS STATE RECORD

"Violet" Produces Amazing Amount
of Food Material in One Year—
Equals That of Four Steers.

Breaking the all-breed state milk production record, equaled by only a half dozen cows in the northwest, Idaho Violet Pasch Ormsby, the pure bred Holstein queen who rules the roost and sets the pace at the University dairy barn, recently finished a year's advanced registry test with a record of 800.97 pounds of butter

fat, and 21,434.5 pounds of milk. This bovine food machine only illustrates purebred livestock superiority. It is the near ideal looked for by agriculturists, when the intensified breeding of purebred livestock will lead to the most economical production of human food, and in turn raising the standard of living by placing at everyone's door an equal chance for the better necessities of life.

Do Figures Talk?

This one cow's food producing ability, translated into comparisons, will surprise even the most skeptical. For one year, one half a ton of butter, ten and a half tons of milk,

More Mountain Enthusiasts.

look big? Enough butter to last the average family ten years, to give that family a quart of milk a day for 28 years? Could you imagine a 1450 pound cow producing 2650 pounds of digestible human food in one year, almost twice her own weight, equal to that produced by four 1000 pound steers, and doing this for two successive years, for she produced within a few pounds of this record on an unofficial test last year. In four milking periods she has produced 8712 pounds of digestible solids for human food. In these milking periods she produced 72,606 pounds (364 tons), and 3391 of butter, and she is only seven years

old, with several more lactation periods of as high production entirely possible.

That she represents the standard sought for by the livestock departments of the College of Agriculture is shown by the fact that her son, showing as a junior calf, was the grand champion bull at the Spokane Interstate Fair this year, and is herself a very fine specimen of the breed, easily the best show cow in this part of the country. Bred and raised at the University farm, she is entirely an Idaho product, and at present is the leading female of a herd equalled by few herds of educational institutions in the country.

SOCIAL & PERSONAL

With the end of the school year fast approaching social events have by no means shown signs of reaching a standstill—picnics, house parties and banquets fill the social calendar.

The outstanding event of the past week-end was the "Casualty Limp" held in the gymnasium under the auspices of the Vocational Club Saturday evening. The call to arms sounded at 8 o'clock was quickly responded to by approximately 150 couples and this gala affair proved to be one of the most delightful events of campus society this year.

Cigaretically Speaking

King Murad had a wife named Zira, whom he didn't like. So he sent his son Mogul on a Camel to Mecca to capture Fatima. By a Lucky Strike he got her. Then King Murad changed his Tuxedo for a Prince Albert, and looked like Lord Salisbury on a Pall Mall. Zira caught Murad between the acts with Fatima. She went to Sweet Caporal for a sword, and Killed Murad. Mogul had Little Admiration for Zira, so he yelled, "O-Mar! To Hel-Mar!"

If you don't believe that, "Ask Dad, He Knows."

The Living Picture exhibit put over on the University last Friday evening has served this college in an inestimable manner. It has been the means of reviving our lost interest in art, or perhaps our interest in lost art. Anyway, everyone seems eager for another performance and the following groups and pictures have been suggested:

"An Aquarium," posed by all the fish in college. (The auditorium platform will be enlarged for the occasion.)

"The Spirit of 1920," posed by Bevo Loganberry Juice, and Hard Clider.

"The Age of Innocence," posed by Ted Erbe.

"The Flying Dutchman," represented by G. M. Miller.

"The Night's Vow," by Wild Bill Carter, the background to be a replica of the "Moscow Pool Hall."

"The Servant Problem," posed by the D. G. cook.

"Hope," represented by Fleeta Brennan or Mary McKenna.

"My Girl's a Regular Fellow and I'm Her Regular Beau," posed by Gladys Clarke and Nell Irving or Frances Wiley and Bill D.

"Another Idaho Man Makes Good," posed by Johnny McGowan and Cora Mae Salter.

"The Woman God Forgot," posed by—but we can't tell.

"His Master's Voice," by G. M. Miller and C. Chislett.

Voice from orchestra at V. C. dance:

"All overseas men dance!"

Shrink: "I never got over seas, but the things I've over-seen ought to entitle me to something."

The Naughty Men

I play around with all the Janes

And walk with them thru lonesome lanes,

I do.

I always hold their little hand

And make 'em think I'm just "too grand,"

I do.

One and all, I love 'em true

Until I see another new

And more enticing Jane or Sue;

I do.

I love 'em all; some more, some less

And do they like it? Well, I guess,

I Do!

Miss Palmer, trying to pose pictures: "Look at those girls! There isn't a soul in this school who knows a thing about make-up."

Heintz Glinderman, consolingly: "You just haven't picked the right ones."

Speaking of Hawaiians

Shades of throbbing ukalalees! Yes, we went to see them, too! But we didn't blame them much, they probably didn't know any better. And anyway, it was a good joke on the Purity League who went in hopes of being able to complain to the management. We complained to the management ourselves, but it was because there was nothing to complain about.

Ettu, Brute! ...

"I see that the girls in an eastern college have declared kissing both safe and sane."

"Ah, yes. I always was in favor of higher education for women."—Life.

Marial: "I don't intend to be married until I'm thirty."

Faith: "I don't intend to be thirty till I'm married."

Hinney

"I hear," sez Hinney, "that the gurls are takin' the reins of self gov-

ernment in hand. 'Tis a good thing, and tis the first tin years that are the worst, so I wish 'em well."

From a Kappa's Diary

Monday—E. K. tried to hug me.

Tuesday—Tried again.

Wednesday—Ditto.

Thursday—Said if I didn't let him next time we went riding he would turn the car over and kill us all.

Friday—I saved seven lives today.

Bill: "Did you see the dress that Miss Hoosit had on at the limp last night?"

Phil: "No, did you?"

Say, Bo, are you going into politics when you get out of school?

Bet your life; I am going to run for housing inspector of the sorority houses.

TRACK SEASON IS HERE

With the coming of the Seattle relay carnival Saturday our track team starts on a heavy schedule with this meet as their initial fight of the season. Following this trip are two dual meets for which the schedule calls.

MONTANA VS. IDAHO AT MOSCOW

Montana cinder warmers will invade our territory on May 1st for the first Idaho-Montana meet in several years. No dope has been obtained as to their relative strength this season, but basing our opinion on the showing they made in the Conference meet of last year, the Idaho fans should be presented with a frisky little meet.

IDAHO TO PULLMAN

On the next day preceding the Sabbath is listed a dual meet with the long clawed cougars from the institution of hay-wire rollers. This meet is to be fought at Pullman where a good track is to be had. (Chalk up one for W. S. C.) With the returning of Captain "Jit" Smith to college this last semester, their team has been materially strengthened and a hard-fought meet is to be looked forward to.

ALL STATE MEET

On May 14 and 15 the high schools exponents of the winged foot art will assemble on our campus to decide on which train the trophy cups shall leave Moscow. This is a two-day meet of which May 14th will be devoted to eliminating the numerous contestants to insure a freedom of traffic regulations in the final events of the 15th.

NORTHWEST CONFERENCE MEET

Probably the last contest of the season will be the conference meet at Pullman on May 29th. This meet is to be made a double affair this year due to the fact that many schools from the Coast conference will also be represented. Due to this fact, the locals of Moscow and Pullman will see the largest representation in a single meet that has ever been offered in this conference.

INTER-CLASS MEET

The Inter-Class Meet will be held on Saturday, May 15th, on the athletic field.

PLACE YOUR CO-ED BETS

New sport men. Pick your favorite bunch among the fair-sex organizations and place your money for the basket ball championship. They started off in a whirl last Wednesday when many "slickers" were unearthed as near future "T" women.

(Take my word for it because you can't get in to see. Co-eds only. 'Eds are barred.)

When this title is framed and placed upon the mantel in the home of the champs, they are going to make their open-air debut by absorbing freckles and coats of tan while in pursuit of "Babe" Ruth's form with the willowed stick.

Oh yes, also they are going to pull a "honest to goodness" track meet. weights and all are included in the program.

When this second championship bouquet is salted down a third sport will be in order (or disorder) namely, the game of hockey.

As yet we haven't heard of the training tables but we take it for granted that salads, chocolate, and eyebrow pencils are taboo from now until the season is over.

UNIVERSITY OF CALIFORNIA CHAMPS

When the University of California nine administered a 10-to-7 defeat to Stanford they had won the Pacific conference intercollegiate championship.

HEY! YOU "PREXIES"

Call your respective class meetings and get your track entries in shape for the inter-class meet.

Sure we hate to hand those second-year men anything but they have an official coach elected and are going to make a showing.

All class Presidents, see that your best men are entered to represent your class.

OREGON HERE FOR TWIN GAMES

On April the 28th and 29th the Web Footers will be our guests for a double header on the diamond. These games have just been added to the varsity list on this season.

MONTANA VS. IDAHO

A dual track meet with the Montana bears has just been added to our varsity schedule for May 1st at Moscow.

OLYMPIC TRY-OUTS FOR COAST

It has been formally announced that the Pacific Coast elimination contest will be held in Pasadena on June 26th. Olympic committees are to be formed at Seattle, Frisco, Portland and Los Angeles.

HIGH SPEED COLLEGES

Harvard, Yale, Princeton, Columbia, Williams and Cornell will enter flying teams in the Boston-New York races in May

TRY OUTS FOR SIGMA DELTS

It is the desire of the athletic department of both the University and the honorary members of Sigma Delta Psi at Idaho that a large number of men try to qualify for membership. In order to systemize these try-outs a fixed schedule of events has been set. All those wishing to try their luck for either the Senior or Junior memberships will appear ready for business on the days listed below:

100-yard dash	low hurdles	high jump	broad jump
Shot put	pole vault	baseball throw	football punt
May 8d.			
May 10th.			
May 17th.			
May 31st.			
Swim, 100 yards (Sandpit)			

ORDER OF EVENTS, RELAY MEET

The following order of events, as given below, will be in vogue at Seattle on April 24 when the biggest Relay Carnival ever held west of the Mississippi, will be staged by the University of Washington.

There will be some twelve colleges and universities represented and a field of keen competition is offered to all contesting teams:

- 2:30 P. M.—4-mile relay.
- 2:55 P. M.—400-yard relay.
- 3:10 P. M.—U. of W. Frosh vs. Broadway High School, half mile relay.
- 3:25 P. M.—Half mile relay for colleges.
- 3:40 P. M.—2-mile relay.
- 3:55 P. M.—Class relay (Medley).
- 4:10 P. M.—Final mile relay.
- *400-yard relay run in lanes.
