

# The University Argonaut

VOLUME XXII

UNIVERSITY OF IDAHO, MOSCOW, TUESDAY, FEBRUARY 1, 1921.

NUMBER 17

## ARTIST COURSE IS HIGHLY APPRECIATED

MAY PETERSON CAPTIVATES HER AUDIENCE WITH CHARMING INTERPRETATIONS

## PERSONALITY CHARMING

Little of Oratorical Effect—Receives Greatest Response From Folk Songs of Nations

Captivating her audience with her personal personality, and wonderful interpretations, May Peterson, Metropolitan Opera soprano, scored a magnificent success in her recital at the university auditorium, Friday night.

There was but little of the oratorical in Miss Peterson's program, and her most appreciated numbers were the simple melodies and folk songs of the various nations. The singer added much to the charm of all her foreign compositions, by delightful little explanations of the origin and theme, which seemed to put her audience in sympathy with the composer's mood.

The first number, an aria from "The Marriage of Figaro," by Mozart, was nicely rendered but did not receive the response that later numbers did which were given.

The singer won her way into the hearts of the audience with her second number, the old English folk song, "Oh, No, John" which was cleverly given, and brot forth hearty applause. "A la claire fontaine" by Schaefer from the French-Canadian, was a very beautiful number, telling the story of the forgotten sweetheart, and from a standpoint of clear melody and charm, was one of the finest of the artist's numbers. The aria "Allelujah" by Mozart, in which the whole range of human emotions has been woven around the one word "allelujah" received a wonderful appreciation. As an encore, Miss Peterson responded with the quaint little Scotch song, "Whistle and I'll Come to You Lad." It was most cleverly rendered and received much of its charm from the personality of the singer.

The two songs from the French by Messager and Staub which followed were simple melodies, but were beautifully rendered and were immensely appreciated by the audience. "At the Well" and the "Cuckoo" which was given as an encore were decided hits, and the crowd refused to cease applauding until Miss Peterson repeated the Cuckoo a second time. "Carry Me Back to Old Virginia," which was given as a third response was one of the most beautiful numbers of the entire evening. This simple American composition took on an unsuspected beauty, and the singer's voice seemed at its best. There was perfect coordination between singer and piano in this number, and at times it was quite impossible to distinguish between the voice and the instrument.

Of the later half of the concert, the folk songs from the Scotch, Swedish and Negro dialect were clearly the most appreciated by the audience, especially the negro song, "The Old Ark's a Movin'" and this number took the listeners by a storm, and they refused to still their applause until the number was repeated. This selection received much of catchiness from the cleverly written and played accompaniment.

Miss Peterson was very generous with her encores, and responded many times, to the applause of her audience, and twice accompanied herself at the piano.

The performance was highly appreciated by the audience, and Miss Peterson made thorough friends of all her hearers.

## ELUCIDATING THE EINSTEIN THEORY.

Before reading his sermon, a negro preacher explained: "I will explain the inexplicable; I will dissolve the indissoluble; I will unscrew the inscrutable."

You can laugh at the poor boobs who fell for Ponz's pipe dream, but our Uncle Samuel shot a cool \$250,000,000 on wooden ships.—Cincinnati Inquirer.

## JUSTICE MORGAN DONATES PRICELESS LEGAL RECORDS

Complete File of All Briefs and Pleadings and Full Record of Evidence Given Law School.

The library of the College of Law of the University is the donee of the complete file of all briefs, pleadings and complete transcript of evidence, in every case submitted to the Supreme Court since Justice Morgan assumed the bench of that court some years ago.

These briefs contain very exhaustive research of the law on all the points covered, and the full transcript of the evidence and all the documentary part of the cases, make an almost invaluable fund for legal research.

## MILITARY DEPARTMENT SHOWS GREAT ACTIVITY

Rifle Team Shows Expert Shots—New Instructors on Duty—Military Ball Impends.

The following men have been recommended by the military department for reserve commissions, which will be given out in connection with the regular commencement exercises: A. A. Kinney, Theron Schranz, Leon Perrine, Ed Peterson, C. A. Burke.

These five seniors have completed their work in advanced military work, and will be commissioned lieutenants in the reserve corps.

Eleven juniors are also taking advanced credit in military, which is said to be the largest number of upper classmen who have ever taken this work at Idaho, and probably the largest number in any institution in the west, considering the size of the cadet corps.

The military department is keeping pace with the progress of the institution in general. Forty-five men are competing for the university rifle team which is to meet all schools in the northwest corps soon, and many expert shots have been brot to light. To date, two perfect scores have been turned in, and there are many more targets which plainly show that the men who made them are fully capable of drilling a squirrel's eye at a distance of at least a mile.

From the present group, ten men will be selected next week to compete with other schools of the west, next week. These men will shoot on their own galleries, and their scores will be certified by the commandant, and sent in to headquarters where the winners will be decided. All schools will shoot under the same conditions.

It was announced today by Col. Chrisman that the present squad is composed of men who are capable of representing any organization in any meet. When the ten best of these have been selected, they should form a combination which will be hard to beat.

Major Ralph C. Harrison, a graduate of the Fort Monroe artillery school, and late of the instructive staff of the R. O. T. C. of Cedar Rapids, Iowa, has been assigned to the university, and will act as an assistant instructor in military science and tactics.

Sgt. A. Dahlen has reported to the military department as instructor in machine guns, and other rapid fire arms. He will assist with other work of the department.

Col. M. N. Falls, in charge of the R. O. T. C. of this corps, will personally inspect the cadet battalion in February.

Plans have been formulated for the military ball which is to be given February 19th and it is said that this will be one of the finest of social functions of the year.

## ON OTHER HILLS.

Furor recently was raised at Leland Stanford when a woman student stated in the University paper that craps, shooting and cigarette smoking were rampant among the fair students. Charges, denials, and counter charges are flooding the faculty and the office of the university publication.

"Skating gets credits at Montana University" says a Kansan headline. These Montana students should be glad that they have one course they can slide through.

## IDAHO AGRICULTURE CENSUS FOR 1920

VALUE OF IDAHO FARM PRODUCTS RUNS INTO TREMENDOUS TOTAL—FACTS BELIE COMMON EASTERN BELIEF THAT GEM STATE IS WILDERNESS OF SAGE AND CACTUS.

A compilation of Idaho farm statistics has recently been compiled and the figures set forth form totals which are astonishing to the person not acquainted with the extent of the Gem state's forward strides along agricultural lines.

The totals are set out here as given:

Number of farms	42,106
Increase since 1910	11,239
Number of farms operated by owners	34,647
Total farm acres	8,375,873
Improved land acres	4,511,630
Increased acreage since 1910	3,092,269
Average acreage per farm	198.9
Average farm acreage improved land	107.2
Number of horses	293,123
Number of beef cattle	512,512
Number of dairy cattle	202,391
Number of swine	240,030
Number of sheep	2,356,270
Number of chickens	1,654,771
1910 production of milk, gallons	52,365,498
1919 production of wool, pounds	17,860,527
1919 production of eggs, dozens	10,391,962
1919 production of oats, bushels	3,069,320
1919 production of barley, bushels	1,323,998
1919 production of wheat, bushels	17,877,113
1919 production of hay, tons	2,247,758
1919 production of potatoes, bushels	6,300,835
Total value of all crops for the year 1919	\$126,459,766

## OMEGA PHI ALPHA GETS NEW HOME

IDAHO'S NEWEST SORORITY LOCATED IN FINE HOME SOUTH OF RIDENBAUGH HALL

Omega Phi Alpha, newest addition to the Greek letter groups on the university campus, have obtained the Bartlett home, just south of Ridenbaugh Hall, and will be at home there after this week.

Omega Phi Alpha was organized last year among the girls of Ridenbaugh Hall, and this is the first time that they have had a home of their own.

The following girls compose the group: Misses Florence Graves, Hazel Jones, Helen Johnston, Ruth Litton, Vera Luse and Genevieve Jones, Norma Cowgill, Marjorie Pierce, Dorothy Mallet, Ruby Irving, Amy Bouse, Bertha Smith and Mary Brown.

The members of the new sorority are popular in social life, and have maintained a high scholastic standing.

## PROF. TRIMBLE'S HISTORY CLASSES TO BE CONTINUED

Dean Hulme and Prof. Dale Will Offer Courses Formerly Given By Deceased Instructor.

In order that schedules may not be disrupted, the courses in history, formerly given by Prof. Trimble, deceased, will be given by Dean E. M. Hulme and Prof. H. C. Dale.

History 11 continues, under the title of History 12 and will be changed from American History to American Government, and will be given by Mr. Dale. Dean Hulme will take Mr. Trimble's class in History 17, and the new course will be offered as History 5, Modern History. The courses, The Westward Movement and the History of the Pacific Northwest, will not continue this semester.

## ISABEL CLARK REPLACES MISS WEGMAN, RESIGNED

Graduated at North Boston Conservatory of Music at Boston

The position of Miss Wegman, instructor in music, who has resigned from the University staff, has been taken by Miss Isabel Clark, of Portland, Oregon.

Miss Clark graduated from the famous Northeastern Conservatory of Music in Boston, and later taught at blue Mountain College in Mississippi.

She was present on the campus of the University, during the past summer while the summer session was in convention.

## J. B. TAYLOR SECURED FOR FORESTRY SCHOOL

MICHIGAN GRADUATE AND EX-SERVICE MAN OF EXTENSIVE EXPERIENCE.

The Forest Club of the University of Idaho listened to a very interesting address Saturday afternoon by Mr. J. S. Taylor who has been temporarily assigned to the School of Forestry by the U. S. Forest Service to fill the newly created position of instructor in forestry.

Mr. Taylor was graduated from the University of Michigan in 1914 with the degree of Master of Science in Forestry. During the summer, while a student, he was employed by the U. S. Forest Service, the Canadian Pacific Railway Company, and different timber concerns, and since graduation, he has been in the employ of the Forest Service, with the exception of two years when he was in the service of the regular army, the most of the time in France.

After the signing of the armistice, Mr. Taylor was detailed by the government as a student in forestry at the University of Edinburgh for five months. He held the rank of Master Engineer when discharged from the army. He was reinstated in the Forest Service in September, 1919, and now holds the rank of Forest Examiner with headquarters at Bozeman, Montana.

Mr. Taylor will handle in particular the courses in Forest Grazing, and Forest Engineering, for which his training and experience especially fit him.

## TRACTOR COURSE ENDED REPORT PLEASING RESULTS

Forty-five Students Finish Intensive Course in Farm Tractors Last Friday.

The University course in practical management of farm tractors came to a close last Friday, experiencing a most successful period of training in which forty-five students from many points in the Pacific Northwest received training in the practical side of operating and maintaining farm tractors.

The work was in charge of Prof. R. B. Grey and T. C. Mead of the agricultural engineering staff, assisted by factory experts of the leading tractor manufacturers of America.

Fordson, Sampson, Twin City, Case, Yuba, Mogul and Titan tractors were used in instruction.

Interest was said to have been unusually good, and highly pleasing results were obtained from the school.

Now that exams are over we ought to be able to make up a little of our back work in fussology.

## MISS CAREY D. MILLER SECURED FOR HOME EC.

Is a Graduate of the University of California, and Has Thorough Training and Experience.

Miss Carey D. Miller, a graduate of the department of Household Science of the University of California in 1917, has been secured by the Department of Home Economics and will take up her work here this present semester.

Miss Miller was an instructor in the Home Department of Washington State in 1917-18, and resigned to take up the position of dietitian in the Army Nursing school, but before being drafted into actual service, the armistice intervened. Miss Miller has been employed on the University Extension staff since February of 1920.

## IDAHO'S NEW MAJOR MODEST AS TO RECORD

But Investigations Prove He Holds Envious Record of Fourteen Years Service

"I'm just an ordinary sort of bum" was the surprising statement of Major Ralph C. Harrison, U. S. A., when an Argonaut representative attempted to gain information as to the latest addition to the R. O. T. C. staff.

In spite of this disheartening statement, judicious questioning brought out the fact that the major is the possessor of an excellent record. He has been in the U. S. Army fourteen years. Practically all this time he has served with the artillery. He was overseas for a period of ten months, serving with the 71st artillery. He saw action in the mixups at both Argonne and St. Michiel.

Major Harrison expressed himself as being favorably impressed with what he has thus far seen of the Idaho unit. Idaho has a reputation, according to the major, as being among the most efficient of the units of this era.

The fatal modesty of the subject made it impossible that a more ostentatious article announces his family records, but we must cast aside our journalistic ambition to cover space, and merely say that Major Ralph C. Harrison is with us, and will do his share to make Idaho rate as an honor school.

## OREGON LOOMS AS NORTHWEST CHAMPIONS

Last week Idaho played two games, winning from Gonzaga and losing to S. A. A. C. The game against Gonzaga was one of the best exhibitions seen in Spokane in years and the team was going at top speed. Then, the next night playing against the Club team was a case of overconfidence it seemed, at least the whole team played a ragged, slow game and the Club won by one point.

Just how our team lines up with the rest of the conference is hard to say. Winning and losing to W. S. C., and defeating Whitman twice on our own floor speaks for a good beginning, but it is only a beginning. W. S. C. was decisively defeated twice by Oregon at Pullman. Whitman was beaten twice by Montana at Missoula. It would seem then that these two teams are really not the class of the conference, and that we must expect stronger competition in games that are to come than we have had in the past ones.

At the present time Oregon seems to have the edge upon the rest of the conference. Beating Willamette decisively and then doing the same thing to Washington State on their own respective floors, speaks a great deal. Oregon only has one more game away from home, which is another great advantage. From all the dope it looks like a decisive defeat is about the only way we can keep Oregon from the championship.

Washington does not have an exceptional team, being outplayed at Pullman but, getting away with an even break in the games. O. A. C. will not prove any stronger than Whitman with Montana in the same class. Then Idaho seems to be the only real contender with Oregon for premier honors. Let us all show a little more interest in the team and go out and help them win.

## MC MILLAN'S VANDALS WALLOP MISSIONARIES

IDAHO COMING OUT OF HOLE IN LAST HALF BUBY OPPONENTS IN FLOOD OF BASKETS.

## GET TWO CLEAN VICTORIES

Annex First Game By 23-17 Score And Second By 30-12—Team Shows Flashes of Rare Form.

Featured by Idaho's sensational return to old time form in the second half Coach David McMillan's Vandals defeated the Whitman Missionaries 30 to 12 Friday night in the last of a two-game series played in the University gymnasium. The first game played Thursday night was won by a score of 23 to 17.

With the score seven to six at the end of the first half in favor of Whitman the Idaho team returned to the floor ready to ramble, and go they did. Playing with old time form the Idaho team retained possession of the ball for almost every second of the last half. Only at rare intervals did the Whitmanites get their hands on the ball.

With the regularity of clock work the varsity ran up a count of 24 points to five for Whitman in the last 30 minutes of play. The Idaho players passed accurately and made baskets whenever an opening for a shot was presented. The Whitman team was completely outplayed on offensive and defensive.

Captain "Squinty" Hunter counted 17 points, one field basket in the first half, and seven field baskets and a foul throw in the second half. The varsity players feed to him and with unerring accuracy Hunter converted all chances into field baskets. In addition to scoring heavily the Vandal captain played a stellar game with accurate passing, remarkable pivoting and twisting, and a more than capable defensive game.

Les Moe was in the game every second. He broke up Whitman plays, dribbled the ball for the length of the floor, passed with skillful accuracy, and made his shots for field basket good. On the defensive he kept his man from making any baskets and he counted three points on free throws.

Al Fox accounted for two of the Idaho field baskets and did his share of the playing. He was knocked to the floor in the second half and badly bruised about the face but gamely continued his playing. Coach McMillan put Wyman in his place.

"Wild Bill" Carder outjumped his man at center on every occasion. His guarding was close and his passing was good. Time after time Carder wrested the ball from Whitman players and started it on its way toward more Idaho points.

"Bullet" Fox at guard was after the ball every minute. He covered the floor like a flash and his brilliant shot from the center of the floor for a basket was one of the features of the game.

"Pete" Wyman played a good share of the second half and he demonstrated his ability to play in fast company.

The last basket of the game is descriptive of the brilliancy of Idaho basketball. After a series of passes in which every Idaho man handled the ball a speedy pass to Moe and the basket was made. The ball barely touched his hands, a slight push and the Idaho score of 30 points was made.

Coach McMillan is a man who knows basketball and better yet he knows how to impart his knowledge to his players. In Hunter, Moe, the two Foxes, Carder, Perrine, Hyde, Wyman, Gartin, Ostrander, Nelson, Edwards, and the rest of the boys Coach McMillan has the material.

Collegiate basketball in the northwestern conference is just as fast as the basketball played in any collegiate conference in the country. The first string players of the team seemed gifted with a basketball sixth sense and this peculiar gift places them far above the average. Idaho has the coach, the players, the spirit, and the team and to many the championship of the northwest conference for this year is no idle boast.

A NEW SKIPPER.

This issue of the Argonaut brings a change in the editorial staff, the former editor having been automatically retired by constitutional amendment passed last year.

Mr. Stalker is undoubtedly one of the best qualified men in newspaper work on the campus today.

While lacking in many of the qualifications possessed by the former editor, we do not mean to apologize for this lack.

We pledge absolute impartiality to every phase of University life, and to every group and faction connected with it.

We also believe that university students are inseparably linked and commingled with state and national affairs.

We invite your suggestions, your criticisms and offers of assistance.

UNIVERSITY OR GROUP?

A few years ago, Coach Bleamaster inaugurated the intramural basketball series on the campus of the University, and for the first time gave an opportunity to a great number of men to utilize the Gym for their own pleasure and exercise.

Of late, however, there seems to be a serious deviation from the intended purposes of the series.

This report has not been certified by authentic information, and we sincerely trust that it is unfounded.

If the friendly spirit of the original series, which said let the best team win, has changed to that of bitter antagonism, where the only consideration is "WIN," no matter what means are used to accomplish that end, then it is a despisable attitude.

The many social groups which line our campus, do not make the University; in fact they are only possible because of the fact that we have a University.

university, then that group is rotten at the core, and should not be tolerated by those who regard their Alma Mater with that altogether fit and proper devotion whose rule of life is this.

OFF AGAIN

The bi-annual wrangle with the faculty is a thing of the past. The last blue book has been heaved at the waiting prof. with a "take it or leave it" aspect.

But let it be remembered that an hour of study now is worth a dozen in June.

The first few weeks of any course are the most important part of the whole year.

Hit it hard now, and Old Man Spring Fever won't be able to put you out for the count.

A CHANGE FOR THE BETTER?

A trifle over a year ago an article appeared in the columns of this paper, bearing the title "Profiteers."

The letter stated that the common every day variety of American citizen, Mr. Consumer, was the arch angel of all gougers and profiteers.

Time has proved the correctness of the writer's opinion.

VALUE OF EXTENSION SERVICE.

The following statistics, given out by University Extension department, should at least give pause to those individuals through the state who are opposing state aid to higher education.

The figures as given show that the extension department has saved the state of Idaho more than the cost of six years' maintenance of the University.

Silk garments, jewelry, good autos and dozens of other quasi-luxuries which were beyond the means of any save multi-millionaires and munition workers, have felt a sudden stagnation of demand.

We do not take it upon ourselves to say that this change is for the best. But at least, it is what the American public has demanded for the past four years.

AN EPITAPH.

Here lies the body of Susan Lowder, Passed on at last to her heavenly rest; Died from drinking seidlitz powder, Didn't wait till it effervesced.

"I'm sorry but I have a date that night, too. And then you found her in the library that night reading Gouverneur Morris.—Allah Bam.

Elected to the poison Ivy club and awarded the sand-paper powder puff: The girls who spend the whole dance gazing at your pedal extremities.

The war made 20,000 millionaires in America. It also resulted in the death of about 50,000 boys on the field of battle.

QUALITATIVE AND QUANTITATIVE

Ex. No. 1. (An Experiment) Partner: Father Time. Date of Exp. (Early bird catches the worm.) College teaches us to put to practical use our daily lessons.

Example: The chemical analysis of a date. Material and equipment: One telephone, preferably of the Moscow type; A list of some 34 girls; A good line of bunk and a pleasant telephone operator.

Procedure: First Case: Take telephone and add 395. Bring gently to a boil. Apply usual test. If test seems favorable, add more bunk and proceed to a close, being sure to state date, atmospheric pressure and boiling point.

Second Case: If the 395 boiling point is too high apply 56 and proceed as before. Probable result, "line busy." Try experiment several times and tabulate results.

or not enough reaction. (Reference: University Library, table No. 4.) Third Case: Use various other numbers and proceed as before.

Note—In case of explosions at either end of apparatus, disconnect same immediately.

Conclusion: From this experiment we find that in order to obtain desired and lasting results it will be necessary to use a catalytic agent; preferably a frat pin, diamond ring, and concentrated solution of shekels, simoleans, bones, cartwheels and saponaceous silver dollars.

Results of this experiment will be noted in another number.

Editor's Note—Not by a jugfull—We will keep the family secrets dark.

UNIVERSITY STUDENTS AND FACULTY MEMBERS GET GOOD SERVICE AT The Moscow State Bank

# SOCIAL & PERSONAL

Social quiet seemed to be the prevailing rule of the past week. The annual faculty-student wrangle took up the daylight hours, and crams were all the rage during the evening.

The annual Muckers' Ball, given in the gymnasium Saturday evening, proved to be one of the most novel and bizarre affairs of the season. Decorations, costumes and general attitude of the dancers bore out the impression of an early time boom mining town.

The walls of the gym were covered with hand-painted scenery, depicting all the usual and necessary buildings in "Boomtown on the Pike."

Faro Nell's dance hall, Mike's Open Air Saloon, the Cooler with the sheriff of Nugget county safely locked inside so that there would be no disturbing influence of the law present, the general store and postoffice were present, big as life and twice as natural.

Two fiercely mustached and heavily gunned barhops handed out the "drinkin' licker" over a mahogany bar, with a real foot rail in front. The bar was held up during the course of the evening, by masked bandits, and a real shootin' scrape ensued. The outlaws were routed, and one who was so unfortunate as to be taken alive, was hanged from the balcony, without benefit of clergy or due process.

The costumes of the dancers were novel to say the least. Flannel shirts, flashy neckerchiefs, leather vests, shooting irons, gingham dresses and striking makeups were features which went far to lend a realistic air to the "diggins."

Bethel Collins and Horton McCauley costumed as cowgirl and cowboy, carried off the prizes for the most realistic characters. The decision of the judges was pleasing to the crowd, and appreciation was shown by the volleys of shots from the six guns which followed the award.

The Muckers' hall Saturday evening broke the nervous strain of the week, and the dancers celebrated in ancient style.

Miss Taylor and Miss Brown were the honored guests at a lovely banquet served by the Phi Epsilon Omnicron girls Thursday evening, to the advisors of the Y. W. C. A. and cabinet. Miss Taylor and Miss Brown are active field workers of the Y. W. C. A. Those present at the banquet were: Miss Jensen, Mrs. Evans, Mrs. Martin, Mrs. Thomson, Miss Ingersoll and Mrs. Snoddy, and the cabinet members, the Misses Cornelison, Yarborough, Mary Clark, Irving, Reich, Jones, Spencer and White.

Henry Schuidt, Fred Mattson and Fred Brandt of Sigma Alpha Epsilon have entered college for the second semester.

Bryan Bedwell and George Pearson left Sunday afternoon for Los Angeles where they will attend the University of Southern California.

Joel L. Priest, Jr., attended the initiation banquet of Beta chapter of the University of Washington at Seattle January 22nd.

Leta Sabin and Agnes Mae Brown were dinner guests of Kappa Alpha Theta Wednesday evening.

Clarence Charlton, formerly of the class of '20, was a week-end visitor at the Sigma Nu house. Mr. Charlton is now principal of the Evergreen school near Couer d'Alene.

Thelma Hare of Kappa Kappa Gamma left Sunday to spend a few days with her mother in Kellogg.

Vernon R. Clemens, '20, who has recently been located in Colfax, spent Saturday with Phi Delta Theta.

Bryan Bedwell, George Pearson and Charles Jennings of Phi Delta Theta were dinner guests of Kappa Kappa Gamma Thursday evening.

Harold Dart took advantage of the vacation occasioned by examinations and spent the week end in Couer d'Alene.

Miss Carol Nason of Buhl, Idaho, was a dinner guest of Kappa Alpha Theta Saturday evening.

Lloyd Brown, Martin Jasper, Glenn Waltman, George Kleppenger, Dennis

Brown and Clifford Moe, all members of the D. O. O. K. basketball team of Kellogg, were dinner guests of Beta Theta Pi Friday night.

Dorothy Parsons entertained the Delta Gamma pledges at her home Sunday evening.

Leo Schroeder spent the week end visiting relatives in Pasco.

The Misses Erna Taves and Gertrude Bryan of W. S. C. visited Saturday at the Theta house.

Donald G. Scott spent several days in Couer d'Alene last week.

Kathryn Tabor of Kappa Kappa Gamma is spending a few days in Spokane with her mother and brother.

Fred Graf and Amand Kern of Sigma Nu are in the infirmary suffering from tonsillitis.

Florence Bauer and Georgia Oylcar visited Alpha Sigma of Kappa Alpha Theta in Pullman Sunday.

Delta Gamma entertained Miss Nason at dinner Friday.

Tom Graham and Jerry Lonegran of the Beta chapter at Whitman were guests at the Beta house during the past week end.

Harry E. Murray of Phi Delta Theta spent a few days in Spokane last week.

Genevieve Armstrong of W. S. C. was a guest of Kappa Kappa Gamma over the week-end.

Mr. F. W. Hechtner visited his son Howard at the Sigma Nu house Saturday afternoon.

Robert Garver is visiting his parents for a few days at Clarkston. Wn.

Dorothy Cage of Kappa Kappa Gamma, who has been ill at her home since Christmas, returned to college Saturday and will resume her studies.

President and Mrs. Upham and little daughter were dinner guests of Phi Delta Theta last Wednesday.

Dr. H. L. Axtell was a luncheon guest of Kappa Alpha Theta Monday.

President and Mrs. Upham were Tuesday evening dinner guests of the Sigma Nu.

Rev. Gould was a dinner guest of Sigma Alpha Epsilon Tuesday, January 25.

Grace Farrar was a dinner guest of Delta Gamma Sunday.

Paul Hull spent the week-end in Colfax.

Peter Drus, who attended the University of Washington last quarter has registered here in the school of journalism.

Chris Weisgerber, Harold Simon, Cliff Creelman, Elliot Eaves, and Ralph Alley, of Phi Delta Theta are spending a few days in Lewiston.

Fred Chamberlain of Couer d'Alene, has returned to college after an absence of one semester. He will register this week in the school of forestry.

Ernestine Rose of Kappa Alpha Theta is leaving college the second semester for Pine Grove, California, to recuperate from a nervous illness.

"Pat" O'Rourke of Kappa Kappa Gamma, has resumed her studies after a leave of absence of over two months.

Delta Gamma announces the pledging of Elizabeth Van Slyke.

Titus LeClair and Otto Schroeder spent the week-end in Lewiston.

Clifford Moe of Kellogg, has returned for the second semester of college.

Jean Little spent the week end at her home in Lewiston.

Coach and Mrs. McMillen were dinner guests at the Sigma Nu house Sunday.

Another fraternity at Ames, the T. L. B. (tall, long boy), elected six lanky six-footers as pledges from the national fraternity membership in State college recently. In this connection it might be stated that Lambda Tau Rho, honorary red head fraternity, recently pledged seven men at the University of Illinois. A crimson ribbon is the emblem of membership. Non-fraternity men at Cornell have

organized into the "Cornell Independent association." The purpose of this organization is to cooperate with fraternity men and with other organizations to promote the best interests of Cornell.

We could nominate some people entitled to the Hall of Fame too.

**BURTON L. FRENCH TROPHY IS BEAUTIFUL LOVING CUP**  
Scholarship Prize Now On Exhibit in President's Office—Pure Sterling Silver.  
The loving cup offered by Representative Burton L. French for highest scholastic standing attained by any male group on the campus, has arrived and is on exhibition in the President's office.

# ANNOUNCEMENT!

Just a word to let you know that we are still on earth and doing business at the same old stand.

The farmer has had to take a loss on his wheat this past year and so has nearly every body else. What we are getting at is the fact that we have taken our loss on all merchandise in stock and marked everything on a present market basis. This means that we will sell you Hart Schaffner & Marx clothing at \$30.00, \$35.00, \$40.00, \$45.00 and \$50.00 for 1921. Stetson Hats \$5.00 to \$10.00. Dress Shoes of the very best quality—Bostonian and Florsheim makes, \$5.00 to \$12.00. Manhattan Shirts \$3.00 to \$5.00 in Madgrass materials and pure silk shirts \$7.00 to \$12.00 for the very best. Every article in this store in fact is at a PRE-WAR price to our customers. We would be very glad to have you come in and see us when you wish to purchase anything that a man or young man wears. We have the largest stock of this kind in the Palouse country and can give you better prices because of our quantity buying. Make this shop your headquarters whether you buy anything or not. We are just as glad to have you loaf with us as to spend your money here.

## INTER-MURAL LEAGUE FINISHES FIRST ROUND

BETAS LEAD SECTION "A"—S. A. E. HAVE EDGE IN SECTION "B"—GOOD GAMES COMING

The Inter-Mural league has played the first round of the schedule and will begin Feb. 4th and 5th on the second and final round, playing in reverse order. All the teams are in good shape and some good games should be forthcoming from the remainder of the games. The winner of each section play a three-game series for the championship and the teams in second place will play a three-game series, to decide third and fourth places.

The standing of the team at the end of the first round:

Section "A"				Section "B"			
Team	Won	Lost	Percent	Team	Won	Lost	Percent
Beta Theta Pi	4	0	1000	Sigma Alpha Epsilon	4	0	1000
Phi Delta Theta	2	2	500	University Club	3	1	750
Alpha Kappa Epsilon	2	2	500	Lindley Hall	2	2	500
Kappa Sigma	1	3	250	Elweta	1	3	250
Sigma Nu	1	3	250	S. P. A.	0	4	000

## BABE'S WRESTLERS MIX WITH W. S. C. TOMORROW

Six Speedy Events Scheduled With Farmers—Capt. Brown Will Grapple Thromanheuser.

Captain J. A. "Babe" Brown and his crew of clever bone crushers will meet the wrestling team of Washington State College in the University gymnasium Wednesday night. The first event starts promptly at 7:30.

Considerable interest has been aroused in the mat game and those who enjoy an exhibition of cleverness, strength, and skill have something to look forward to in the six events of the Wednesday evening program.

The Washington Staters are understood to have a strong crew which is headed by Thromanheuser, the 195 pound grappler who meets "Babe" Brown. The heavy weight match be-

tween Brown and Thromanheuser promises to be one of the best events of the evening. Brown will be out-weighted by 15 pounds but the superiority of Brown's wrestling ability is expected to more than even up the advantage Thromanheuser has in weight.

The bouts will be 18 minutes each, best two out of three falls. The 18 minutes will be divided into periods of six minutes each and if there is no fall the match will go the full 18 minutes and decision will be awarded on points.

Either Cisco Bullivant, athletic director of the Spokane Amateur Athletic club, or Tom Grant, Spokane professional wrestler, will referee the bouts.

The Idaho wrestlers are:

"Babe" Brown, heavyweight class above 175 pounds; Fred Horning, light heavyweight, 175 pounds; Frank Kintson, middleweight, 158 pounds; Jack Musser, welterweight, 145 pounds; Wesley Phillippi, lightweight, 135 pounds; Edwin Peterson, or Ted Sherman or Wilmer Osborne, featherweight, 125 pounds.

The bouts will be on amateur rules which are understood to bar the double nelson, the toe hold, the strangle hold, and the hammer lock. All falls are to be pin with falls with two points or both shoulders touching. Idaho co-eds should feel no hesitancy about coming to the wrestling bouts.

## NEW COURSES OFFERED IN HOME EC. DEPARTMENT

Two new courses will be offered in the department of home economics this semester under Miss Mary T. Lean.

Commercial Art, 2 credits, includes composition, magazine illustrations and poster designs (lettering with pen, brush and pencil). The mediums used are charcoal, ink, cut paper and water colors. The work may be taken in two three-hour periods, or in three two-hour classes. No prerequisites necessary.

The other course composes the standard methods of teaching art as used in the twelve grades of the public schools. Work includes design, construction, paper cutting, water color, costume design, interior decorating, toys and weaving.

Prerequisites, Economics 301-02-03. Two three-hour periods per week.

When the girl you are dancing with tells you she is a mind reader.

## SCHOOL OF FORESTRY REPORTS PROGRESS

MUCH OF VALUE ACHIEVED FOR IDAHO—SERIES OF EXPERIMENTS FINISHED.

The biennial report of Dean F. G. Miller to the Board of Regents shows the School of Forestry to have made gratifying progress the past biennium. He reports the enrollment to have grown steadily, and important new projects to have been undertaken, some of which have been carried to completion.

One of the important lines of work started the past biennium is a reconnaissance study of the University timber lands, the purpose of which is to determine the amount, condition and value of the timber they carry. The University owns upward of two hundred thousand acres of land, a large part of which is heavily timbered. Under proper management, these lands could be made to yield a large income continuously.

An investigation of the availability of wood oils for ore flotation carried on jointly with the School of Mines has been completed and the results will soon be available for publication. This question is likely to have an important bearing on land clearing. A series of experiments to determine the relative durability of Idaho woods has likewise been finished and the report will soon go to press. Additional projects have either been started or are planned for the current biennium.

The report further states that the director of vocational education for Idaho, in cooperation with the School of Forestry has introduced vocational training in the lumber industry of the state. This opens up a very large field for vocational instruction, and one full of promise in its usefulness to the logging and milling business.

The school is rendering a splendid service to the state in distributing forest trees to the people at cost for the establishment of woodlots, shelter belts, and ornamental plantings, and that the service is appreciated is attested by the fact that the demand for trees has trebled the past two years. Approximately 175,000 trees were sent out within that period. The tree in greatest demand is the black locust and it is being planted largely for fence post production.

## BACTERIOLOGY DEPT. OFFERS SANITATION-HYGIENE COURSES

Interesting Work to Be Given By Mr. Werkman—Three Credits, and No Laboratory Periods.

A course in Sanitation and Hygiene will be offered by the department of Bacteriology this semester, the work being given by Prof. C. H. Werkman, graduate of Perdue.

The course as offered will be with a view toward the problems of social and industrial hygiene and sanitation, and will include work in community infection, industrial and school hygiene, foods, soils, water, air, diseases and infection.

The tentatively arranged schedule calls for classes meeting at 9 o'clock on Tuesdays, Thursdays, and Saturdays. Students desiring this course, who have conflicting classes, are asked to call and arrange for a suitable schedule. The work is open to Sophomores and upper classmen.

The work will consist of two lectures per week and one quiz period.

## M'MILLAN'S VANDALS WALLOP MISSIONARIES

(Continued from page one)

The lineup: Idaho. Whitman. A. Fox ..... F. .... Rich Moe ..... F. .... Garver Carder ..... C. .... Reynolds R. Fox ..... G. .... Ladin Hunter ..... G. .... Conrad Substitutions—Idaho: Wyman for A. Fox. Whitman: York for Rich, Rich for Ladin.

Idaho scoring—A. Fox, two field baskets; Moe, two field baskets, and three foul baskets out of seven attempts; R. Fox, one field basket; Hunter, eight field baskets and one free throw.

Whitman scoring—Rich, one field basket and four foul baskets out of nine attempts; Garver, two field baskets; York, one field basket.

Officials—Norman Moss of Pullman, W. S. C., referee; Ralph R. Breshears, Idaho, timekeeper; Joel L. Priest, Jr., Idaho, scorekeeper.

## Idaho Grabs Second Game.

Idaho took the first game of the two-game series with Whitman, played Thursday night in the University gymnasium, by a score of 23 to 17. Coach Borleske's team was outclassed by the Vandals, who showed superiority in every department of the game.

Only in the first five minutes or play did Whitman show any marked superiority. In these first five minutes the Idaho players were obviously off with their passing and the handling of the ball.

As the game progressed the Idaho men started playing and the end of the first half found Idaho with the long end of a 14 to 10 score.

# SPRING FOOTWEAR

IS ARRIVING

New Strap Pumps—Plain Satin Pumps—Brown Pumps and Oxfords, all at new low prices

Jaunty New Styles in Women's Suits

Everything in the store is now marked and sold on the basis of the newest market quotations. You are assured that at all times you will receive the lowest prices consistent with top grade merchandise

# DAVIDS'

"The Students' Store"

A feature of the game was the scarcity of personal fouls. On foul shooting Moe performed creditably with five free baskets made of six attempts.

Captain Hunter made four field baskets while Moe made two and A. Fox, R. Fox and Perrine one each. For the Whitman players Carver was their high scoring man with three field baskets. Rich was high point man with five foul baskets in eight attempts and two field baskets.

In both games the stars of the Whitman team were Rich, Garver, and Conrad. Reynolds showed best at stopping Idaho passes.

## The lineup:

Idaho. Whitman. A. Fox ..... F. .... Rich Moe ..... F. .... Garver Carder ..... C. .... Reynolds Hyde ..... G. .... Ladin Hunter ..... G. .... Conrad Substitutions—Idaho: R. Fox for A. Fox, Gartin for Hyde, Perrine for Carder, Carder for Gartin.

Idaho scoring—A. Fox, one field basket; R. Fox, one field basket; Moe, two field baskets and five foul baskets out of six attempts; Perrine, one field basket; Hunter, four field baskets.

Whitman scoring—Conrad, one field basket; Garver, three field baskets; Rich, two field baskets and five foul baskets out of eight free throws.

Officials—Norman Moss of Pullman, W. S. C., referee; Ralph R. Breshears, timekeeper; Joel L. Priest, Jr., scorekeeper.

## IDAHO MEETS MONTANA NEXT FRIDAY-SATURDAY

Cowboys Said to Have Fastest Team in School's History—Dope Refuses to Be Figured.

Coach David McMillan's Idaho varsity basketball team has a real trial in store in the coming two games with the Montana university quintet on the Idaho floor Friday and Saturday nights. Montana has one of the strongest teams in the history of their institution and Idaho victories should be prayed for but not too lightly forecasted.

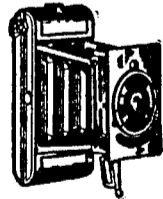

Captain Hunter and Coach McMillan and the players themselves know that the tangle with Montana is serious and only the best that the Idaho team can give will result in wins against the team from Missoula.

The only dope on Montana is that Whitman has been defeated by them by scores of 30 to 15 and 33 to 17.

After the Montana games Bohler's Washington State team follows on the Idaho schedule. Idaho will play on the Pullman floor February 11 and the two teams meet on the Idaho floor on February 12. Of interest to Idaho backers is the fact that Whitman defeated W. S. C. at Pullman Saturday night by a score of 23 to 21.

# KODAK PRICES DOWN!

WE HAVE CUT THE PRICE OF EVERY KODAK AND BROWNIE IN THE STORE. HERE ARE A FEW OF THEM.
