

SEVENTH ANNUAL AG. DAY SUCCESS

WESTERN INTER-COLLEGIATE
PRESS ASSOCIATION LAUNCHED

TWENTY SIX DELEGATES MET AT SALT LAKE LAST WEEK TO PROMOTE NEW COLLEGE PRESS SERVICE BETWEEN INTER-MOUNTAIN SCHOOLS. WILL BE OPERATING SOON.

IDAHO A CHARTER MEMBER

Editor and Business Manager Attend As Student Representatives of The University.

Twenty-six delegates, representing seven colleges and universities of the Inter-Mountain and Pacific states, meeting in convention at the University of Utah, formally launched the Western Inter-collegiate Press Association February 24th and 26th. The association bears the same relation to the college journals, as does the associated press to the commercial papers of the country.

The convention met in Salt Lake City under the auspices of the journalists of the University of Utah, who acted as hosts to the visitors. Representatives of the various schools were lodged at fraternity homes on the campus and numerous other organizations contributed to the entertainment of the delegates.

The convention met for the first time Thursday morning for a short business session in which the plans for the meetings were outlined and definite schedules were fixed. The afternoon was given over to sight-seeing tours of the city, and for sorority open houses. In the evening a basketball game between the Idaho Tech and the University was the feature of the entertainment, and after the game an informal dance was held in the gym.

Friday morning the guests assembled again, and the morning was given over to discussion of the problems confronting collegiate publications, followed by two interesting talks from prominent advertising men of Salt Lake. The convention reassembled in the afternoon for meetings of the editors and business managers, after which a joint session was held. Committees were appointed to draft a constitution and to take up other matters of import.

Friday evening the delegates were guests of the University at the Junior Prom, which was held in the hotel Utah. The Prom is the premier social event of the University season, and it was heartily enjoyed by all the visitors.

Saturday morning the delegates were entertained by the Tattlers' Club, an organization of women of the University who are active in journalistic work. The program consisted of a visit to the famous tabernacle and an auto ride of two hours about the city and surrounding country, after which a charming luncheon was served by the club women. In the afternoon the delegates assembled at the university again, and the constitution was adopted and other matters of interest discussed. Several interesting talks by prominent business men of the city were features of this meeting.

At 6:30 Saturday evening, the association was the guest of the chamber of Salt Lake which entertained the visitors with a five-course dinner. During the evening the members of U. of Utah's leading sorority, entertained with many charming numbers, including interpretive dancing, solo and chorus singing and several instrumental numbers.

Talks were given by the president of the chamber of commerce, President Midstoe of the university, the editor of the Desert News and others. Following this a short business session was held in which officers were elected and the meeting place of next year's convention was selected. Stanford will entertain the next convention of the Inter-Collegiate Press. Due to the fact that the Idaho delegates had to take the 11:30 train out of Salt Lake, they were unable to stay for the election of officers, and to

(Continued on page two)

SEED SHOW AT

NAMPA WAS SUCCESS

A Thousand Samples of Idaho's Finest Seeds Were Displayed at Exhibits. University Won.

By R. L. Spangler

One of the biggest and best events of the year was the State Seed Show held at Nampa, Idaho, January 10th, to 14th, 1921. This was the tenth annual exhibition of its kind given by the Idaho State Seed Growers Association in conjunction with the conferences of irrigation, livestock, engineering, and home-makers societies. The association was originally formed for the purpose of encouraging the production of pure seeds, and of stimulating interest in the pure-seed movement. The show affords a means of demonstrating Idaho's resources as a seed-producing state.

At the show this year there were over a thousand samples of seed on ten pounds with the exception of corn and potatoes which were made up of ten ears and ten tubers respectively. The samples were placed in uniform boxes and trays arranged artistically in rows. Wheat, barley, oats, corn, rye, beans, peas, clovers, alfalfa, timothy and potatoes, from all parts of the state, helped make the show a success.

There were 120 samples of Dicklow wheat alone, showed that this variety is particularly adapted to the irrigated districts of southern Idaho. The Palouse district was well represented with Club wheat varieties.

Idaho Rural and Netted Gem potatoes of excellent type pointed to the fact that the tuber is no small item among Idaho's agricultural products.

Quality and variety and color were brought out in the many samples of clover, timothy and alfalfa. These important points alone tend to prove that Idaho had climatic and soil conditions for the production of small seed second to none in the United States. When it is considered that the above points are not excelled in any other region; it is no wonder that our seed is so much in demand.

Farmers and Seed Growers of the state, and many of the extension workers attended the show. They were privileged to listen to many prominent speakers and authorities on subjects pertaining to production of farm crops and pure seed. Mr. B. F. Sheehan, State Seed Commission and Field Agronomist, forcefully called attention to the factors which now endanger the seed industry. Throughout the war period the demand for seed was great. Many growers took advantage of the exorbitant prices paid for Idaho seed and placed seed of inferior quality on the market. This resulted in the spreading of many noxious weeds of which dodder is the worst, to other parts of the United States. Con pure seed producer was somewhat lowered. From now on it will be necessary for the farmers to market only pure products if the industry is to live.

Another phase of the show deserving of some consideration, was the judging contest open to the schools of the Northwest. This year only the University of Idaho and Oregon Agricultural College were represented. The contest included the placing and giving of oral reasons on ten different classes of seed selected from the exhibits. Five handsome loving cups were offered as prizes in the contest. The Idaho team was fortunate in getting the winning team cup, the potato cup, the small grain cup, and also high man cup. Gus Wiebe of Aberdeen was winner of the latter.

(Continued on page 4.)

Men's Glee Club
Sings At U. Friday

Friday evening at 7:30 the university of Idaho Mens Glee Club will give its concert for the student body in the university auditorium. This concert is free to all students of the university but all students must present their A. S. U. I. cards before admittance will be given.

The concert is the offering of the Glee Club to the students, and is of such worth that no student can afford to miss it. The singers have been in constant training for many months and have reached perfection in their work. The least we can do to show our appreciation of the efforts of the club is to pack the auditorium Friday night. The charges to others than students will be one dollar.

S. P. A. LITERARY
HOLDS LAST MEETING

Mock Trial, Program and Election of Officers Were Features of Short Course Society.

On Thursday evening, Feb. 24, at 7:30 o'clock the S. P. A. Literary Society held the last meeting of the semester. The main feature of the meeting was a mock trial. Professor Sherman Dickinson was to have been the judge at the trial but he had been sick and was unable to come that evening. The president of the literary society, then secured A. A. Brazeau, a senior law student and future supreme court judge. Mr. Brazeau did nobly and conducted the trial in a most judicial way.

The prisoner was Fred O. Horning who was charged with destruction of property. The prosecuting attorney was E. W. Sundry and the attorney for the defense was C. B. Mays, assisted by John Derr.

The trial was marked by the able handling of technical points by the judge. When the attorneys were at a loss, the judge was always ready with his timely explanations. After the attorneys had summed up their cases, the judge charged the jury. He brought out the main points which were discussed and showed the jury just what it had to consider.

While the jury was out of the room Judge Brazeau passed the time explaining points of law to the court, being a good speaker with a good line, he kept the attention of all present until the jury returned with the verdict. The verdict was "guilty," so the judge passed sentence on the prisoner at once.

After the trial, the meeting proceeded with its program. At the close of the meeting an election of officers for the next school year was held. The officers chosen were, president, C. B. Mays; vice-president, George Fitzpatrick; secretary-treasurer, Fred A. Horning; editor "Howl," Ralph Honess.

The officers for the first semester of this school year were: President, Glen Davis; vice-president, P. F. Kershnik; secretary-treasurer, J. A. Snavely; editor "Howl," G. F. Fitzpatrick.

For the second semester the following men held office. President, B. F. Kershnik; vice-president, Glen Davis; secretary-treasurer, Floyd Spahnower; editor "Howl," Fred Schuetz.

FARMERS SWAMP TESTING LAB
WITH SEED SAMPLES

A rush of orders for seed tests has almost "swamped" the branch seed laboratory at the University of Idaho, according to Miss Clara Hobson, who is in charge of the testing. The laboratory is maintained for the testing of seed to determine its purity for both farmers and dealers. Activity of the extension division in encouraging farmers to use pure seeds has created a wide interest over the state and dealers are finding it necessary to know the exact quality of their seed.

IDAHO AG. DAY IS UNIQUE
FEATURE OF THE "COW" COLLEGE

AG DAY IS GALA EVENT FOR BIGULAR STUDENTS AND SCHOOL OF PRACTICAL AGRICULTURE. DAY IS GIVEN OVER TO JUDGING CONTESTS AND GOOD SOCIAL TIME.

also presented a loving cup to Virgil Lickley who made the highest individual score from the S. P. A. S.

Dean Iddings, in the abbsence of Professor Hickman, gave the Animal Husbandry awards, and Professor Bendixen the Dairy awards.

The banquet closed with the singing of "Oh Let Us Sing of Idaho."

VOCATIONAL MEN WILL
FARM IN CALIFORNIA

Ten Idaho Men Will Receive Land In Famous McDevitt Project in the Imperial Valley—Get Training.

Some nine or ten vocational men now studying agriculture at the University of Idaho will next week be given an opportunity to transfer to California where they may go to work on the McDevitt project—which will eventually lead to their gaining title to a tract of farm land.

The McDevitt project is one of the most novel and interesting plans that has yet been suggested for the rehabilitation of men who were disabled while in the service.

In Imperial Valley, California, Mr. McDevitt owns a farm of six or seven thousand acres, under irrigation and ideal for farming. On this will be assembled 400 vocational men who, under competent leaders, will be given a thorough course in theoretical phases of agriculture and at the same time will learn the practical side of agriculture under an experienced foreman.

The plan of the federal board for vocational training calls for a two-year course of training. The farm will be organized on a cooperative basis, the profits of the work going into a fund which, at the end of the two-year period, will be used to buy land for each man. It is estimated that the revenue from crops, after deducting operating expenses, will be sufficient to accomplish this.

Each man will get his own tract of land, farm it in his own way and engage in any phase of agriculture that appeals to him. Cotton raising, vegetable gardening, and similar lines are considered among the most profitable. Poultry raising in this section has also been found remunerative by many people.

PHI GAMMA DELTA WILL
INSTALL A. K. E. FRIDAY

Famous National Fraternity Holds Initiatory and Installation Ceremonies Here Week End

Alpha Kappa Epsilon, a local fraternity at the University of Idaho, will Friday March 11, be installed as a chapter of Phi Gamma Delta, a leading national fraternity.

Several nationally prominent members of Phi Gamma Delta will come to Idaho to conduct the installation, including the president, Mr. Glen Miller. Delegates from other western chapters of the fraternity are now on their way to Moscow to attend the initiation ceremonies and on the day following, a sectional conference.

Alpha Kappa Epsilon was founded at the University of Idaho in 1913 and now has a strong membership, composed mainly of northwestern men. At the recent convention of Phi Gamma Delta, the Idaho fraternity was the only organization out of a large number of petitioners to be granted a charter.

Initiation of the Idaho men will be held Friday morning, installation in the afternoon and a banquet in the evening. The sectional convention will be held the next day.

TRADITION OF SEVEN YEARS

Interest in Student Affairs Spreads To Adjoining States. Prizes Are Offered For All Winners.

Agricultural Products Judging Day, dubbed by the students "Ag. Day", is unique to Idaho and has a history extending back seven years. It is characteristic of groups of agricultural students throughout America to have a day devoted to some form of exercises that enable them to gain increased knowledge of the business of agriculture and broaden their appreciation of their collegiate courses. The students of the college of agriculture of the University of Idaho have decided upon "Ag. Day" as an annual event for the purpose indicated above.

Seven years ago a small group of agricultural students proposed a plan to hold within the college of agriculture a competitive judging contest to determine proficiency in livestock judging. After discussing the matter with members of the faculty it was decided to broaden this contest to include dairy products and grain. Later contests were added in poultry judging, the judging of dairy cattle and in the judging of fruits. The program for "Ag. Day" as now carried out provides, therefore, an opportunity to the student to test his proficiency in a practical way in dealing with the most important groups of products of the soil. The merchants of Moscow have been very glad to offer prizes for proficiency and, from the first, small but very attractive silver cups have been awarded for first prize. Interest in the event has gradually broadened until adjoining states know it to be an annual event in the college of agriculture of the University. A prominent auctioneer of the Northwest has volunteered to offer a silver cup. Three Idaho livestock associations have volunteered to donate silver cups to encourage students to attain proficiency in the more practical phases of agriculture.

An attractive feature of the program for this day is the fact that the long course students and the short course students meet in friendly rivalry and share in the prizes that are awarded. In fact the date for the contest is set for the Friday preceding the close of the School of Practical Agriculture, so that the short course students may participate.

This is a student affair organized by, and managed by the students. The faculty members are glad to advise from time to time and render every possible assistance in making the day a success. The faculty feels that much good to the individual student and to the college of agriculture as a whole is derived from this day set apart for trials of skill and proficiency in comparing, classifying, and grading the products of Idaho agriculture. The decisions of the judges are announced simultaneously at a public meeting arranged for the purpose. It was particularly appropriate this year to celebrate the closing of the day with a banquet at which the winners were announced and the prizes awarded.

DAIRY JUDGING CONTEST

An annual feature of the dairy cattle judging contest was that it was conducted by the 1920 Dairy Cattle Judging team. The team, which consisted of Carl Patch, George Tucker and Lee Wohlschlegel, had general charge of the contest and acted as the official judges with credit to the

(Continued on page two)

INTERSCHOLASTIC BASKETBALL TOURNAMENT COMES NEXT WEEK

ENTRIES WILL BE MADE BY MARCH 12TH—EIGHT TEAMS WILL COMPETE FOR STATE HONORS AS HOOP ARTISTS AND GOOD SPORTSMEN—FRATERNITIES WILL ENTERTAIN.

WHOLE STATE IS INTERESTED

Dope On Likely Winners Still Scarce—Boise, Moscow, Twin Falls and Briggs are Touted Teams.

Three valuable silver loving cups will be awarded in the state interscholastic basketball tournament to be held March 17 and 18, one to the championship quintet, another to the runners-up and a third to the team which makes the best appearance and displays the best sportsmanship, according to a statement made today by Thomas Kelley, physical director.

The first games of the tourney will take place Thursday afternoon, the afternoon being turned over to a conference of the high school coaches. The final game will be played Friday evening.

A portion of the expenses incurred by teams living considerable distance from Moscow will be born by the athletic department. While at the university all teams will be cared for by the university.

At the conclusion of the tournament, the all-state team will be selected by men prominent in state athletics and the five players winning places on the mythical five will be presented with gold basketballs.

Each of the eight sections of the state in this week the scene of a tournament to determine which town will represent its respective section, in the state matches. Coeur d'Alene, Kellogg, and Moscow, in the north are showing strong as possible entrants. No definite reports have been received from the south but it is believed either Caldwell or Boise will represent the southwest. All entries must be made by March 12.

While here at the high school athletes will be taken on a tour of the university campus and will be entertained by various campus organizations.

S. P. A. SENIORS TO GRADUATE FRIDAY

SHORT COURSE STUDENTS FINISH SCHOOL YEAR—FOUR MEN TO RECEIVE DIPLOMAS.

Seniors in the School of Practical Agriculture at the University of Idaho will be graduated Friday, March 11, after two days of graduation exercises, according to an announcement by Sherman Dickenson, principal of the school.

Regular commencement exercises will be held in the Y. M. C. A. hut March 10, when diplomas will be presented. The program will include: invocation, the Rev. J. Orrin Gould, student pastor; violin selections, John W. Dickinson, instructor in violin; address, President, A. H. Upham; benediction, the Rev. Wayne Snoddy.

On the preceding evening Principal Dickenson will be the host at a party in honor of short course students at the "Y" hut. The evening will be spent in a series of games and contests, followed by moving pictures, after which refreshments will be served.

The short course student scoring the highest number of points in either the animal husbandry or dairy stock judging contests on Agricultural Day, March 4, will be awarded a silver loving cup by Principal Dickenson.

"A number of changes will be made in the short course work next year," said Principal Dickenson today, "including the addition of new subjects in order to give the student a wider range of electives. The new subjects include: Farm shop work, which is comprised of concrete work, harness repairing, cheap metal working and rough carpentering, rural law, rural sociology, farm records, and farm water systems and sanitation.

"The work this year has been very successful and nearly all of the short course students plan to return next fall. This summer they have arranged to work on farms and learn farming methods as they are applied." The short course school will open next fall October 17, and continue until March 17. The special ten weeks' course opening January first will be featured.

Students graduating this year are: P. F. Kreshnik, Burley; Glenn Davis, Buhl; Hugh Sinclair, Jerome and Vernon Perry, Coeur d'Alene.

FROSH CO-ED HOOPERS DEFEAT SOPH ARTISTS

Second Year Girls Unable to Score On Verdant Basket Slickers—Score is 8 to 0.

In the first of a series of inter-class co-ed basketball games at the University of Idaho, the freshmen Thursday night defeated the sophomores by a score of 8 to 0. Miss Edith Cooper of American Falls, was the individual star, scoring four field goals for the first year team and incidentally making the only points registered in the game.

Later in the week the juniors and seniors will play to decide which team will meet the freshmen in the university championship contest.

Basketball among women students at the university has reached rather substantial proportions, some 60 or 75 receiving regular training under the direction of Miss Irene Watson, director of women's athletics.

We overheard the following in the hall the other day:

Ginger: "How does Leah make her income?" Mercedes: "Usually followed by plasty."

IDAHO AG. DAY IS UNIQUE FEATURE OF THE COLLEGE

(Continued from page one)

Institution. Professor Mathews of the Moscow High School, and Professors Morgan and Davis also assisted in making the contest a success. Much credit should be given the Moscow High School boys for their help in holding stock.

Eight classes in all were judged, five classes of Holsteins, consisting of four females to the class, and three classes of Jerseys, four females to the class. Of the eight classes, reasons were written on only two, one of Holsteins and one of Jerseys. The total score possible was 1000 and the thirty-four men that competed ranged from 516 to 816 points.

The ten highest ranking men in the contest are as follows:

1. Virgil Lickley, S. P. A., 816.
2. Fred O. Horning, S. P. A., 797.
3. Glen Davis, S. P. A., 760.
4. C. B. Mays, S. P. A., 760. The tie of these two was broken by highest placing on Holsteins.
5. F. S. Coyle, S. P. A., 756.
6. Ralph Honess, S. P. A., 750.
7. Dewey Patton, Long Course, 750. Tie of these two broken as above.
8. V. L. Patch, Long Course, 747.
9. George Fitzpatrick, S. P. A., 742.
10. P. F. Kershnik, S. P. A., 733.

Five highest students in Judging Holsteins. Possible score 600.

1. Fred O. Horning, S. P. A., 507.
2. F. S. Coyle, S. P. A., 503.
3. Dewey Patton, Long Course, 498.
4. Wm. Hamilton, Long Course, 493.
5. Virgil Lickley, S. P. A., 493. Tie on these broken by highest on placing.

Five highest students in Judging Jerseys. Possible 400:

1. Virgil Lickley, S. P. A., 323.
2. C. E. Herrington, Long Course, 317.
3. J. B. Musser, Long Course, 310.
4. P. F. Kershnik, S. P. A., 303.
5. Richard Hall, 302.

Awards

First place in contest, silver cup presented by the First Trust and Savings Bank of Moscow, was won by Virgil Lickley; second place, \$5.00 in books presented by R. Hodgins of Moscow, won by Fred O. Horning; third place, \$3.00 to \$5.00 box of stationery presented by the Owl Drug store was won by Glen Davis; fourth place, \$2.50 trade prize presented by Economical Pharmacy, was won by C. B. Mays; fifth place, one year's subscription to Hoard's Dairyman, presented by Butterfield Elder Implement Co., was won by Ralph Honess, F. S. Coyle being disqualified by winning another prize.

Highest in Judging Jerseys, \$3.00, presented by the Parma, Idaho, Association of Commerce, was won by C. E. Herrington, Virgil Lickley being disqualified by winning another prize.

Highest in Judging Holsteins, \$3.00 presented by the Parma, Idaho, Association of Commerce was won by F. S. Coyle, Fred O. Horning being disqualified by winning another prize.

GRAIN JUDGING CONTEST

There were five classes of grain to be judged: Common white wheat, soft

red winter wheat, hard red winter wheat, barley and oats. Three classes of students, twenty-one men in all, took part in the contest, the regular four year students, students of the school of practical agriculture and federal board students. The scores of the first five men are as follows:

1. F. O. Youngs, 430, 4-yr. student.
2. R. V. Starr, 420, 4-yr. student.
3. N. G. Anderson, 410, Federal Board.
4. Fred Schuetz, 405, S. P. A.
5. A. C. Hoelzle, 395, Federal Board.

H. W. Hulbert of the Agronomy department was in charge of the contest. The judges were Prof. R. K. Bonnett, and Gus Wiebe and R. L. Spangler of the past season's successful grain judging team.

The prizes and donors:

- High man, loving cup, Mark Means Co., Lewiston.
- 2nd, \$5.00 cash, F. A. David Co.
- 3rd, \$4.00 necktie, The Togs.
- 4th, book, Agronomy Dept.
- Dairy Products Judging Contest By Prof. H. A. Bendixen

The contest was participated in by a good number of men. The advantage, however, was with the men who had taken the course in judging dairy products last fall. A good deal of interest was shown by everybody. Market milk, butter and cheese was judged. Duplicate classes of each product were judged to determine consistency.

The three prizes for high men in all three products were awarded as follows:

1. Harry Messinger, loving cup, donated by the First National Bank.
 2. Edward W. Lundy, a two pound box of candy given by the Bon Ton.
 3. Lee Wohlschlegel, \$2.50 in trade at the Corner Drug Store.
- Prof. H. A. Bendixen acted as official judge, assisted by F. D. Stewart and I. L. Packenham.

Fruit Judging Contest

The fruit judging contest was participated in by 31 men, representing the four year men, S. P. A. and Vocational men. There were ten classes of apples, consisting of four to six plates each, to be judged, and fifty apples of the common commercial varieties to be identified. Prof. L. E. Longley and Mr. J. M. Franklin acted as judges.

E. C. Jensen, with a score of 85 1/2, was first. He won a loving cup donated by Dean Iddings and Prof. Vincent.

F. M. Turnipseed, score, 83 1/2, won

two boxes of apples donated by the Horticulture Department.

S. H. Scheyer, score 83 1/2, got as a prize "Better Fruit" for two years, donated by the Better Fruit Publishing Co.

Ernest Tolbert, with a score of 83, won a box of apples donated by the Horticulture department.

B. Kershnik, score 80 1/2, won one year's subscription to the American Fruit Grower.

AN HUS CONTEST EXTENSIVE

The Animal Husbandry judging contest was longer and covered a greater variety of classes than any other contest. 34 men participated. There were eight classes of livestock: Two classes of Shorthorn, one of Herefords, two classes of hogs, one of horses and two of sheep. Prizes were given for the four high men in the general contest and to the high man in each of the classes, horses, hogs, sheep, herefords and Shorthorns. Professor C. W. Hickman, Reuben F. Johnson, James Fox and McPherson were in charge of the contest. The judges were Julius E. Nordby of Genesee, who judged cattle and swine, Prof. Howard E. Hackborn of W. S. C., sheep and Fred Bayliss, in charge of the University Cattle and Horses, horses.

The total scores in the general contest follow. Possible score 650:

1. Felix Plastino, 555.
2. Miss Naomi Chapman, 546.
3. B. B. Bundy, 545.
4. Alfred Brigham, 544.
5. W. M. McBride, 543.
6. Thomas E. Speedy, 542.
7. Byron Keith, 520.
8. Lorenzo Hemmert, 512.
9. Boyd L. Brigham, 511.
10. A. F. Peterson, 507.

The high men in the different classes were as follows. Hogs, possible score 150:

1. Oscar Weaver, 130.
2. W. M. McBride, 127.
3. Felix Plastino, 137, tied.
4. A. C. Brigham, 133.
5. Edgar H. Neal, 131.

Herefords—Possible Score 100

1. McBride, 89.
2. Peterson, 89.
3. F. F. Horning, 86.
4. Boyd Brigham, 86.
5. Plastino, 85.

Shorthorns—Possible Score 150

1. L. W. Sanberg, 133.

2. O. A. Weaver, 130.
 3. Vernon Perry, 127.
 4. Speedy, 126.
 5. R. N. Irving, 126.
- Horses—Possible Score 100
1. Boyd Brigham, 100.
 2. Thomas E. Speedy, 100.
 3. W. M. McBride, 95.
 4. Fred Schmid, 90.
 5. F. F. Horning, 90.

Sheep—Possible Score 150

1. Alfred Brigham, 135.
2. Felix Plastino, 134.
3. R. E. English, 133.
4. Naomi Chapman, 132.
5. Lorenzo Hemmert, 129.

Prizes Awarded Winners

The list of prizes and their donors is as follows:

High man in general contest, loving cup, donated by Nordby Bros. of Genesee.

Second in general contest, a book on Cattle by Saunders, donated by Prof. C. W. Hickman.

Third, a razor, donated by C. L. Jain, of Moscow.

Fourth, one year's subscription to the Breeders Gazette.

High man on hogs, \$5.00 cash, Hag-an and Cushing of Moscow.

High man on Herefords, 3 years subscription to the Hereford Breeders Journal by the South Idaho Hereford Breeders Association.

High man on Shorthorns, loving cup donated by the Boise Valley Short-horn Breeders Association.

High man on horses, a book on Percheron Horses by Charles Warren.

High man on Sheep a gold medal from Harry C. Cranke of Nezperce. Special Cup for School of Practical Agriculture

A special loving cup for the School of Practical Agriculture student who should score highest in either the Dairy Cattle or Animal Husbandry contests was awarded by Professor Dickenson, Principal of the S. P. A. The cup was won by Virgil Lickley of Jerome, a student who has been in the institution only about two months.

WESTERN INTERCOLLEGIATE PRESS ASSOCIATION LAUNCHES

(Continued from page one)

date, no word has been received on the matter.

It is the plan of the association to perfect a news service in the very near future, which will serve all the colleges of the inter-mountain states with a weekly press service, and as soon as possible, to affiliate this asso-

ciation with the Pacific and South-western news services which are already been operating on the coast in the southwestern states.

Plans were also got under way for syndicating foreign advertising, so that all papers will be able to get this sort of advertising at a uniform rate, depending of course, on their actual circulation.

It is hoped that the press association will be functioning within a few weeks, and its service will mean much to the college papers of the West. Instead of waiting for several weeks for exchanges to come in, and the gleaming out what items of interest they may contain, the respective members of the association will receive all the live news from every college and university of the inter-mountain states weekly, and written in a shape that will be readily usable by the various papers.

Idaho was represented at the convention by Harmon E. Hosier, business manager, and C. H. Swanson, editor.

SOCIAL & PERSONAL

House parties are falling farther and farther into the dim past although the recent interpretation of the faculty ruling with regard to social activities offers encouragement to the stepdancers. The past week-end was made most delightful however, for all dancers in attendance when the Foresters entertained at their annual "Timber-beast hoe down" on Saturday evening. The gymnasium was made attractive in evergreens.

Washington Beta and Idaho Alpha chapters of Sigma Alpha Epsilon celebrated the 65th anniversary of the fraternity with a Foundry Day banquet in the Guild Hall Friday evening. About forty-five fraternity men were present.

Annette McCallie '19 and Ruby Henderson of Lewiston spent the week-end at the Kappa Kappa Gamma house.

Kappa Kappa Gamma entertained Mr. and Mrs. Franklin and Miss Gessner at dinner Sunday.

Kappa Kappa Gamma entertained at a fireside Sunday evening for the members of Omega Phi Alpha.

The Beta house was the scene of an informal matinee dance on Washington's birthday. Those present were the Misses Davis Tipton, Ruby Gates, Peg Kutnewsky, Mildred Collins, Beulah Davis, Margaret Collins, Mary King, Louisa McMartin, Agnes Sweeney, Gladys Simmons, Rita Kendrick, Gladys Clarke, Alice Hill, Priscilla Munson, Louise Nason, Ethel Nelson, Alta Green, Edith Dingle, Cathlin Gilman, Mary VanGlise, Myra Armbruster, Gussie Barnhart, Betty Woods, Jessie Grigson, Ether Belswinger, Bessie Newman, Camille McDaniels, and Katherine Baird. Mrs. Lenore Scott chaperoned the party.

Leona McFall of Shoshone is a guest at the Gamma Phi Beta house this week.

Sunday dinner guests at Sigma Alpha Epsilon were the Misses Nason, Marry King and Mercedes Jones, Mr. and Mrs. H. L. Richards, Greek Wells and David McLean.

Charlotte Broadwater, Kathryn Tabor, Hope Moffatt, Priscilla Munson and Thelma Hare of Kappa Kappa Gamma attended the annual military ball held in Pullman Friday evening.

Alpha Delta announces the pledging of Beatrice Allbright and Theodosia Hamilton.

Mary McKenna was a dinner guest of Gamma Phi Beta Saturday.

Paul Church of Boise was a Kappa Sigma dinner guest Sunday.

Kappa Kappa Gamma entertained at dinner on Wednesday evening for Mrs. Fred Veach of Moscow and her sister, Mrs. Trombley of Cleveland, Ohio.

Agnes Cox spent the week end in Kendrick.

Delta Gamma entertained Rr. and Mrs. Von Ende at dinner Sunday.

A number of men attended the initiation and banquet held by the Spokane Alumni Chapter of Beta Theta Pi in Spokane Saturday, March 5th. Those attending were: Gene Gerlough, Bill Carpenter, Robert Green, Van Peterson, Arthur Guerin, Thurlon Shontz, A. J. Priest, Charles Darling, Arnold Cobley, Robert Eldridge, Munson Emery, Robert Tranz, Ernest Dwork, Mr. Jenkins, Leland Scott, Edward Littoay and Russell Parson.

President and Mrs. Upham were dinner guests of Kappa Sigma Sunday.

Goldie Felton and Esther Beisevinner were guests at the Kappa Alpha Theta house a Pullman, while attending the Military Ball there.

Mr. and Mrs. M. E. Lewis announced the engagement of their daughter Charlotte to Leland I. Case, Delta Tau Delta, of Kansas City, Mo., at a charmingly appointed luncheon Thursday. About thirty guests were present including Gamma Phi Beta Seniors and patronesses and members of the Home Economics faculty of which Miss Lewis was formerly a member.

Elmer Roberts is spending a few days in Missoula where he went to attend the installation of the Montana Alpha Chapter of Phi Delta Theta.

Kappa Kappa Gamma entertained at dinner on Wednesday evening for Mrs. Lenore Scott, Mrs. Sharpe, Miss Clarke and Miss Catherine Jensen.

Charles Darling, Gene Gerlough, Van Peterson and Bill Carpenter attended the district convention of Beta Theta Pi held in Pullman Friday March 4th.

Murle Markham visited in Grangeville Saturday and Sunday.

Kappa Kappa Gamma entertained the members of Omega Phi Alpha at a fireside on Sunday evening of last week.

Catherine Chrisman Fuller is visiting a home of her parents. She was called home by the serious illness of her mother, Mrs. Col Chrisman.

Clarke Rush was a dinner guest of Kappa Sigma Saturday.

Mrs. Jane Conlisk and Dean Evelyn Butler were hostesses at a delightful tea given at the Delta Gamma house Saturday, March 5. The house was prettily decorated with ferns and spring flowers. At the table in the sun room, the yellow and white color scheme was attractively carried out. During the afternoon a musical program prepared by Mrs. Sharp was enjoyed.

Lucie Davis, Agnes Sweeney, Mary Finegan and Evadna Roberts of Kappa Kappa Gamma and Mrs. Weatherby were Sunday dinner guests of Phi Delta Theta.

Leah Borden was a dinner guest at the home of Coach and Mrs. Tom Kelly Saturday evening.

Howard Kundson spent the week-end in Spokane.

Henry Schuldt spent the week-end in Colfax.

The Great Western Teachers' Bureau of Pocatello, Idaho, can place you in a very satisfactory teaching position if you register with them soon. Send names of references when writing. Some of the best positions in the west will open soon. Adv.

Thurlon Schrontz left Saturday morning for a short visit in Missoula Montana.

Clarinda Bodler, who is teaching near Coeur d'Alene this year, visited at the Gamma Phi Beta house between trains Sunday.

Delta Gamma entertained the Messrs Bedwell, Thometz, White, Keane, Thompson, Chubbuck, and Murry of Phi Delta Theta at dinner Wednesday.

Leoma McFall of Shoshone visited the Gamma Phi Beta house last week on her way home from an extended visit in Sidney, Nova Scotia.

Gamma Gamma chapter of Beta Theta Pi announces the initiation on Saturday March 5th, of Robert Fulton Green of Culesac Idaho.

Delta Gamma announce the initiation of Martha Miller of Jerome, Idaho, and Grace Farrar of Berkeley, California on March 6, 1921.

Chris Weisgerber and Kenneth White of Phi Delta Theta spent the week-end in Lewiston.

Louise Nason has been obliged to leave college on account of ill health. She plans to return to college next fall.

Messrs. Brigham and Roberts were Wednesday dinner guests of Sigma Alpha Epsilon.

Betty VanSlyke has returned to college after three weeks illness.

Leon Woodrow was a dinner guest at the Beta house Wednesday.

Betty Barr was a guest of Delta Gamma over the week-end.

Harry Philips visited Phi Delta Theta last week.

mist, combined, is the guy who, now that prices are coming down, kicks because he had to spend all his money while they were high.

We want to repeat what we said in the last issue about humanity's inherent love of goat feathers. There sure was a sizable crop harvested at the recent international debate.

If a fellow agrees with you, absolutely, you at once give him credit for being a broad minded man. If he entertains ideas of his own, he is of the ultra-conservative type, and if he disagrees absolutely its a cinch that he's a narrow minded non-entity.

The only difference between riding in one of G. N. Pullman's cushioned containers and beating the blinds is that the latter is bumming, while the former is being educated by travel.

A lot of people are proud of the kick in their home brew but we get the best kick of all from making out our income tax returns.

We know some church going people who are like chronic exponents of the cold bath—they keep it up for the sake of their reputations. "That blankety blank war sure raised Hell with prices" said Alkali Ike as he reloaded his gat. "It costs two bits to kill a Mex now."

EIGHTY-THREE IS HIGH AVERAGE AT WHITMAN
Non-Fraternity Men Can Only Rate 78.12.

(Pacific Intercollegiate News Service.) Fraternity men and women averaged higher at Whitman college than non-fraternity students for the fall term according to a report of the college registrar, E. E. Ruby. Their average was 79.09, compared to 77.12. Kappa Gamma led all organizations while Phi Delta Theta led the fraternities.

CO-EDS PLAY GOOD BASKETBALL

On Tuesday night the So-Ed basketball tournament opened with a snappy game in which the Freshmen trimmed the Sophomores 8-0. The game was unusually fast but the Frosh clearly outplayed the Soph squad in passing and floor strategy.

The Frosh came back in good style on Thursday night handing the Juniors the defeat with a score of 7-6. This game showed more team work and dexterity in handling the ball than the former game which made it more interesting to onlookers.

The final game of the series will be played on Tuesday, March 8th, when the Juniors will meet the Freshmen. If the Juniors carry off the victory the series will be played over but if the Frosh win out they will also win the championship.

Gladys Hastie has very credibly acted as yell leader.

The lineup of the teams are:

Frosh.
Evelyn Brothers, Juanita Phillippi, Nancy Long, Bertha Smith, Mary Van Gilse, Rose Mantul, Edith Cooper, Rosebud Donovan, Sub.

Sophs.
Margaret Mims, Mary Penwell, Elaine Wheeler, Margaret Kutnewsky, Mary Finnegan, Janice Lowe, Vera Luse.

Juniors.
Phoebe Jane Hunt, Pauline Reick, Thelma Hare, Norma Cowgill, Mrs. McMillan.

NEW FRATERNITIES AT WASHINGTON STATE

EPSILON NU GAMMA AND SIGMA KAPPEL INSTALLED LAST WEEK AT PULLMAN.

(Pacific Inter-Collegiate News) State College of Washington, Pullman, Wash., Feb. 21.—Epsilon Nu Gamma was granted a charter of Theta Xi, Saturday evening at the convention of the grand council, held at St. Louis, Feb. 18 and 19, according to word received by the local group.

The state college chapter will make the 24th, and the fourth chapter in the West, the others being at U. of C., Stanford, and University of Washington. Theta Xi grants charters only to schools of university standing and ranking high in engineering. It is the oldest professional fraternity and the only engineering fraternity that competes with other social fraternities.

A formal installation ball at the K. of P. hall last Saturday night completed the installation of Alpha Gamma chapter of Sigma Kappel.

Phi Gamma Chi, local sorority, was installed as Alpha Gamma chapter of Sigma Kappa, Saturday, Feb. 12. Installation services were conducted at the chapter house with an installing team from Seattle officiating. The local group was colonized a year ago by five Sigma Kappa women, representing chapters at U. of W., O. A. C., Stanford, and U. of C. A chapter was granted them on Jan. 10, of this year.

WIN A PRIZE

The National Woman's Christian Temperance Union is offering a prize of one hundred dollars to be given for the best essay written by a college student on one of the following subjects:

1. The continuing menace of beer and wine.
2. The Eighteenth Amendment and law enforcement.
3. The cigarette and recent scientific investigation.

The essays shall be graded on clearness of thought, accuracy of statement, and originality of presentation. Number of words: Maximum, 2500; Minimum, 1000. All essays must be handed in by June 1st.

Any student of the University of Idaho may compete for this prize by writing an essay on one of these subjects and handing it in to the local Union. Three judges will be appointed to read all essays handed in and the one considered the best will be sent to the National contest by the state.

In addition to this, if as many as twenty essays are written, the State Union will give three prizes as follows: First prize, fifteen dollars; second, ten dollars; third, five dollars. The local Union will have books, magazines and leaflets containing reference material in the City library.

A prize is also offered for the best poster on either alcohol or tobacco drawn by any student. Local prize, \$2.50; National prize, \$10.00.

Finished essays and posters should be sent to Mrs. T. S. Cady, 403 Lewis St., who will give any further information desired.

STOCK JUDGERS MADE ENVIABLE RECORDS

IDAHO STOOD HIGH AT THREE NORTHWEST SHOWS IN 1921. CLEAN SWEEP AT PORTLAND

By Johnson

On October 15, 1920, the Idaho Stock Judging Team composed of Leon B. Taylor, James H. Fox, Loran W. Kitch, William E. Pehance, Reuben F. Johnson and Chas. Warren, alternate, accompanied by Coach C. W. Hickman journeyed to match their ability to judge horses, cattle, sheep and swine with that of teams from W. S. C. and O. A. C. at the Western Royal Livestock Show, at Spokane.

Judging consisted of placing three classes and giving reasons on two classes of each of the four principal branches of domestic livestock. This being the first contest in which part of the team had participated, there was a certain amount of nervous tension. Results of this contest showed that O. A. C. was victorious, having a score of 4177 and leading Idaho by only seven points out of 5000. W. S. C. was third with a score of 3934. Of the individual honors Idaho probably had her share. Altho O. A. C. had high individual men, Idaho placed second and third in Reuben Johnson and James Fox. Having lost by only 7 points, Idaho felt that she was not entirely defeated, and that possibilities for better scores were good.

The following week a similar contest was held at the Northwest Livestock Show at Lewiston, Idaho. Teams from the same schools came together again. O. A. C. this time had changed the makeup of her team, sending an entirely new lineup. The same system of judging was used at this show as at the former contest. It did seem, however, that the hard luck that had been with the team before, came upon them again. With the appearance of the dope sheet, it was seen that Idaho was a few points below the victors. The scores were as follows: O. A. C. 7611, Idaho 7591, W. S. C. 7495, out of a possible 10,000. Individual stars seemed to be more evident, since Leon Taylor acquired top place with a score of 1595 points and Wm. Pehance third place with 35 points less. Leon Taylor has made the record of being high man at this show for the last two seasons.

The Third and last show at which the team judged was that of the Pacific International Livestock Exposition at Portland, Oregon. This is perhaps the best equipped livestock show in the west, and certainly the best in the northwest. Hundreds of animals may be properly sheltered under one roof. The building, a magnificent structure, covers several acres and provides not only adequate space for livestock but also a spacious area and seating arrangement for several thousand people.

The Exposition is open for one week the judging contests taking place in the fore part of the week. This contest saw the advent of a new team, that of U. A. C., from Logan, Utah. Also, O. A. C. had combined the highest men from the two previous shows into a team that would theoretically seem undefeatable, but such was not the case. It was perhaps humiliating for this team, after so much victory, to tie for 2nd place with W. S. C. The team of which nothing was known that of U. A. C., came in second place, and the Idaho team headed the list, standing above the rest by more than 120 points. Reuben Johnson was high man of the contest, James Fox, third, and Leon Taylor, fifth. With this victory, Idaho had come to other own and past defeats were covered up.

Too much praise cannot be given the coach of such a team. It is he who gives almost his whole time to the perfection of the members of the team. Too often glory has been given to the team, when it should properly be given to the coach. Idaho has not only one of the best coaches in the west, as can be seen by records of past years, but one who is popular with the livestock men of the Northwest.

SEED SHOW AT NAMPWA WAS SUCCESS

(Continued from page one)

R. L. Spangler was second high. Oregon won the cup for alfalfa.

In general, the educational value of the show cannot be over emphasized. It is of special benefit to the farmer in learning to choose the best variety types of seed. He may find out what varieties do best in his locality and what his aim should be in seed production. In fact an immeasurable amount of information may be gained which may help to improve agricultural methods.

An active campaign against rouge, lip-sticks and eyebrow pencils is being started by the head of the Department of Physical Education for women in the University of Arkansas.

VOCATIONAL STUDENTS OF IDAHO WIN CONTEST

Idaho Men Grab Both Ends of Stock Judging Fray at National Western Show. Writer is Skeptical

January 15, 1921, the University of Idaho for the first time was represented by Federal Board students in the live-stock judging at the National Western Stock Show in Denver, Colorado.

The stock judging team was composed of five men from the 13th, district, composed of Idaho, Washington, and Oregon to compete against the 11th and 12th districts. Three men were picked from the students taking the Federal Board training at the University of Idaho and two from the Oregon Agriculture College. The men that represented Idaho were, Loren Kitch, Jno. Sparks and I. L. McPherson, with Kesse and Heston from O. A. C.

Loren Kitch got first prize and saved the team from getting the Doo-bly prize. Now we don't think that Kitch was any better judge than several of the other men we know but his views coincided with the judges. Sparks and McPherson brought up the tail end of the team and the only reason we can see for that, is, that the climate at Denver is high and dry, and they could not stand the dryness.

After all these trials and tribulations the Big Prize, which consisted of two bucks each.

ACTIVITIES OF AG. COLLEGE MEN IN ATHLETICS

The College of Agriculture is a College of Athletes. More football and baseball men have been turned out from this college than from any other. In the year 1919, out of twelve football lettermen, six belonged to the Ag. College. Plastico, Evans, Perrine, Glimdeman, Irving and "Jazz" Barber, filled the rolls of Ag. men and football stars. During the past season the same men with the exception of Barber and with Plastico as a leader, played for the Silver and Gold. In baseball, also the Ag. men of 1919 played a prominent part. Out of eleven players, Grover Evans, "Chick" Evans, "Jim" Fox, "Rich" Fox, Charlie Gray and Oswald Thompson were students of the "Cow" College.

Three of the eight men who made letters in Basketball during the same year, Fox, Perrine, and "Chick" Evans were from the Ag. College.

The "Farmer Boys" have proved to be successful wrestlers, for last year, Patch, Phillippi, Horning and Oberhansley, four out of ten men on the squad were from this college. This past season Horning, Musser, Kinnison and Phillippi were in the grappling game from the "Ag" School. Final in track what was lacking in numbers was made up in quality, when the Agricultural college gave Perrine and Irving, two of the best track and field men the University has ever had. We repeat, then that the College of Agriculture is also a college of Athletes. For almost half of Idahos lettermen are Aggies and we are mighty proud of them.

U. OF C. UNIVERSITY DAY ON APRIL 9 FOR ALL STUDENTS

California will have a University Day. Plans to make April 9 one of the big days of California's athletic history were assured of success last week when the executive committee gave its sanction to the proposals of Graduate Manager L. A. Nichols to throw the university open to the universities and colleges of the country, California playing the part of the host.

Included in the tentative plans are the contest between the University of Washington eight and the Blue and Gold varsity, the clash between the Michigan and Bruin track teams, and the first Stanford-California baseball game.

House mothers of the fraternities and sororities of the University of Arkansas have organized a club, "The Greek Letter Mothers."

WAR VETS REPRESENT U. OF I. AT CONTESTS

FEDERAL BOARD STUDENTS MEET OTHER SCHOOLS AT SHOWS WIN PLACES

By Ivan McPherson

A short time before the Western Royal Livestock show at Spokane, Mr. Hudelson, Federal Board instructor in Animal Husbandry, started action to get the "Powers that be" to let Federal Board stock judging teams compete for prizes at the Northwest Stock show. Mr. Hudelson gave the men intensive training, preparing the mfor the judging ring, but the Federal Board "could not see him at all", so the men went to Spokane to get as much as they could by mixing with the prominent stock-men and the teams from the different colleges. While at the Spokane show, Mr. Hudelson used a great deal of moral suasion and got permission for his men to judge stock along with the competing college teams. The Federal Board team was not allowed to compete for the prize, so the work was primarily to find out if the team could actually tell the difference between a cow and a mule.

Professor Hackadorn of the Washington State College consented to be the judge and hear the reasons of the Vocational team. Mr. Hackadorn commended the team for the work they did, and especially congratulated Mr. John Sparks, who made the first place on the team.

The showing that the Federal Board students made at Spokane awakened the district supervisor at Seattle and he forwarded transportation for the team to compete at Lewiston. The Vocational team from the University of Idaho had as rival for the prizes, the short course students from the U. of I. and the Normal School girls of the Lewiston Normal. The team was awarded second prize, which amounted to forty dollars.

The Federal Board figured that it would be a fine thing for the Vocational students that were enrolled in the Animal Husbandry departments in the different colleges to compete against each other, so a team of three men was chosen from the U. of I. and three men from the Oregon Agricultural College to settle the championship of District 13, at the Pacific International Livestock Exposition at Portland, Oregon. The Vocational team from the U. of I. took first, second and third prizes. That team consisted of Sparks, Knutson and McPherson.

Professor Hudelson accompanied the Vocational team on these trips and their success was due to his never failing interest and untiring efforts quite as much as to the Animal Husbandry department as a whole.

U. S. C. MAY HAVE TWO EASTERN GAMES THIS YEAR

(P. I. N. Service.)

U. S. C.'s football team is certain of playing one eastern team and possibly two next season, according to Graduate Manager Henry Bruce. The university of Detroit and Notre Dame have expressed their willingness to meet U. S. C. The University of Detroit wants a Thanksgiving day game, and guarantees the Trojans \$10,000 in addition to the expenses.

U. S. C.'s season closes with the Thanksgiving day game, and Coach Henderson and Manager Bruce are considering the advisability of a post season game.

On the coast U. S. C. is scheduled to meet California at Berkeley on November 6. The Oregon Aggies have telegraphed for U. S. C.'s open dates, declaring that they wish to take a trip to the southland. Washington state has made a similar request. What is worrying Manager Bruce is how he can accommodate all the colleges with the remaining open dates of November 12 and Thanksgiving day.

One good thing about the Sunday afternoon concerts is that they save lots of shins that would otherwise be wasted walking around in the mud of the early spring afternoons.

IDAHO PLACES MEN IN DAIRY JUDGING MEETS

Competed at Pacific International at Portland With California, W. S. C and O. A. C.

By Carl Patch.

The first semester of each school year is especially important to the members of the Dairy and Animal Husbandry Department; for this is the time when the judging teams are being picked to represent the University at the different stock shows in the Northwest. It is the ambition of every student in these departments to make a judging team at least once during his college course. In Making such a team he is not only representing and trying to bring fame to his Alma Mater, but he is also enriching his own knowledge by competing with men from other schools, different judging teams to select. One of these is the dairy cattle judging team, and the other the dairy products team. The dairy cattle team consists of three men picked from the regular four year students. These men cannot be on the team for more than one year. Such a ruling give more men opportunity to make this team. They must become proficient in judging and placing the four main breeds of dairy cattle: Holsteins, Jerseys, Guernseys, and Ayrshires; for in their contests they must judge four animals in each of the four different breeds.

The dairy cattle team consisting of Carl L. Patch, George Tucker, and Lee Wholschlegel, had only one contest, the one at the Pacific International Livestock Exposition at Portland. They competed with teams from O. A. C., W. S. C. and the University of British Columbia. They lost in team competition, but had one man who placed fourth in individual competition, and another one a medal for being high in judging Guernseys.

The dairy products team is governed by the same rules as the dairy cattle team. It consists of three members and their work is made up of the scoring of milk, butter and cheese. These men are dependent to a great extent on their senses of taste and smell for the correct scoring of these products. This team consisting of Fred Stewart, Ivan Packenham, and Waldo Pierson were also unfortunate in not winning; but they had the two high men in the butter scoring contest, one of these receiving a medal. The other teams in this contest were from the University of California, O. A. C., and W. S. C.

Professor Davis and Mr. Morgan, coaches of the dairy cattle team and Mr. Bendixon, coach of the products team, are certainly deserving of praise for the time they give to instructing and helping all the men who tried out for these teams. It is due to the efforts of the coaches that contests at the shows are possible and they certainly merit the cooperation and support of all members of the Agricultural College.

A RURAL BALAD

To Farmer Crabbs on the hill came back
Of nothing of gentil or manner fine
For Reggie had at college learned the
dine
In proper style, and to appear at ease
His trousers never baggy at the knees
He knew just how to balance supps of
tes,
And, skilled enough at clever repairs
To be a social lion in his way—
'Twas all he learned at college so they
say.
His son came back to Farmer Crabbs
be's farm
Amid the rustic charms he did amuse
Become so faint and faded by the house
And crude unlovely jokes of country
louts,
That Crabbe was quite provoked a bit
And when young Reggie in a perfect
fit
Of cool new summer togs and rai-
ment fine
Appeared for breakfast at half-past
nine,
The men were out a haying in the field
Because that year there was a heavy
yield.
Old Crabbe came stomping in the kitchen
there,
And, lifting Reggie gently from the
chair,
Across his knee and with a brawny
hand
He tempered Reggie there into a man;
And now young Reg does never miss
the lack
Of flannels or his sock since he came
back.

WHO'S WHO AND WEY

It has been quite a common thing among students of other colleges in the University to poke fun at the "Cow College." They consider that "a man does not need an education to be able to run a farm," that this line of work is narrow, and that the "Ag" does not get as broad an education as do the students in other colleges.

A man in the regular four-year Agricultural Course must take two years of English, and work in the sciences, including two-and-a-half years of Chemistry, one or two years of Botany, a semester each of Zoology and Bacteriology.

The "Ag" is certainly not behind socially or in student activities, and there is no logical reason why he should be. The college course which he is taking is not one to prepare him for the sole purpose of making a living on a farm.

Meeting an Idaho Grad in a strange city is just like going back home for a visit,—makes you feel that life is worth while.

We have met up with a lot of assorted styles of school spirit but for loyalty, hospitality grit, and good fellowship, we will back Idaho spirit to the limit.

MOSCOW COMMISSION CO.

son's Enoch Arden, set to music by Richard Strauss, was equally good. So far the attendance has not been such as the programs deserve.

GETTING IN THE GAME.

Are you attending the University, or are you getting into the University? There is as much difference as there is between day and night.

When we say getting into the University, we mean the fellow who links himself up with every possible activity. If he is naturally fitted, you will find him in athletics, or in debates, or in the glee club, or on the school paper, or the year book.

Many of us are prone to believe that all outside activities are like the famous Butler "Goat Feathers," but they are not.

It is only when you live the fullest possible life at the University that you meet the people that count, that you have the chance to make friends who will be worth while, and that you have the opportunity, or rather the necessity for placing yourself on a business man's schedule which systematizes your life, and enables you to accomplish many times what you were able to before.

And another fact may interest you. It is proven beyond a doubt that the men who have worked all or part of their way through school, have made the highest grades, and today are holding better positions than the other graduates.

There is something to it. Get in the game. Don't attend the University; get in it and be a part of, and make yourself an integral part of as many activities and interests as you can.

SPIZZERINKTUM SAYS—

How is it that a pair of open work cotton stockings with about half enough material in them to wad an airgun, sell for \$6.89 while the kind that mother wore can still be had for one plunk.

The predicted change in women's styles will put a lot of eye specialists out of business.

The legislature has banned cigarets, Talk about hard luck—was misfortune a dewdrop we know some fellows who are the Mississippi.

but it still continues to smoke corn-cobs and two-fers in the capital lobby and to try to break all indoor target records with "slough grass spit quick."

We wish to goodness some modern Moses would appear who could govern the nation with ten simple commandments.

Aint it funny how one little vacation will pile up a fellow's work?

Every state boasts the spirit of the pioneers—but pshaw, they didn't have a think on the modern people who will elect to live in a state where the legislature still holds sway.

Old man Hard Knocks won't be able to jar us after we have quit writing this column.

"Travel is sure getting convenient" said the cootie, as he transferred from the hobo to the Pullman conductor.

No substitute has ever been found for the small town loafers who meet all trains.

Wonder when we will see a pair of femine ears again?

The old fashioned girl who wore skirts has been superceded by the modern Eve whose skirt wouldn't make decorations for a hoop off a fifty cent keg of ginger snaps.

We had an offer the other day from a real paper to write a column of stuff like this every day. They said they couldn't pay any money for it, but that it ought to be good experience.

The country will soon be invaded again with the annual flock of insects who are "just returned from southern California, don't you know."

"Hello, folks— Told you I'd be back. In an awful rush, see you next week.. (Looky here, Spizz, you big inflated sack of hot air, didn't we tell you we were trying to run a respectable sheet? How in thunder do you expect

SECOND SUNDAY CONCERT PLEASES HUGE AUDIENCE

Music lovers Sunday were given a rare treat when the famous poem of Tennyson, set to music by the modern writer, Strauss, was rendered by Miss Florence Sharp and Mr. Cushman.

The story of Enoch Arden is too well known to need comment, needless to say it is the account of the heroic sacrifice of the ship-wrecked sailor Enoch Aarden and his return.

During the intermission Miss Slavson further delighted the audience by the songs "The Morning Wind" and "A Song of Spring."

CO-ED TENNIS PLAYERS CALLED OUT BY MISS WATSON

There will be a meeting of all girls who play a fair game of tennis and are interested in a game with Whitman on Thursday evening at 7:15 in the gymnasium.

 Free Throws—Larkin, 2 out of 3; Hunter, 4 out of 5.

UNIVERSITY OF B. C. WINS DUAL DEBATE

Idaho Loses at Home and Abroad. L. Men Make Impressive Attack On Canadian Speakers.

By J. E. Armstrong
 The University of Idaho was defeated by the University of British Columbia at Vancouver, B. C., in the auditorium of the King Edward High School before a packed house, Friday evening, February 25.

In one of the most spirited debates of the year Idaho was unable to cope with the British Columbia orators and was defeated after launching a series of attacks that for a time made the judges undecided.

President Klink of U. of B. C. announced that the question involved was the resolution that the adoption of the reciprocity proposals of 1911 by Canada and the United States would be beneficial to both countries.

The University of B. C. was supported by H. M. Cassidy and Mr. J. H. Traveson the affirmative and Mr. Warren Greathouse and Mr. L. A. Thomas upheld the negative, for Idaho.

In the opening for the affirmative, Mr. Cassidy displayed unusual talent and rhetorical ingenuity, and showed a wideness in reading almost uncalled for. Mr. Cassidy said that, "Reciprocity would reduce the high cost of living in many ways," and then endeavored to show by history, theory and practice the conditions existing.

Mr. Greathouse, the first negative debater, devoted himself to the relative positions of raw material and manufacturing under reciprocity. He showed a great amount of study and hard work and his appeal to the audience displayed a note-worthy ability of technique.

The most spirited part of the debate was when Mr. Traves brought up the Treaty of 1854-56 showing the success of reciprocity at that time. His knowledge of history and Canadian laws was a great help to him in convincing the judges of his arguments, and his speech all the way thru was devoted in proving the success of reciprocity.

Mr. Traves's speech was ably met by Mr. Thomas with a wonderful display of gentle satire and firey declamation. Mr. Thomas admitted the success of the Treaty of 1854-56, but maintained by saying "That Canada of that time needed the helping hand, but that the Canada of today, with its nine millions of people had set out to be a great nation and needed no assistance not based on sound economic principles."

After the main orations five minutes was allowed each debater for rebuttal. In them Idaho seemed to let loose a bundle of firecrackers with the acquired knowledge they had held in store.

The standard of oratory as a whole was highly developed an each contestant must receive individual praise in making their own style of oration.

FORUM ENJOYS BIG ATTENDANCE

Discussion of Local Movie Censorship Draws Town and College Folk.

The Forum was crowded with students and townspeople who came out to hear the discussion of the movie situation, Thursday night.

The Rev. H. O. Perry read a paper on the advantages of censorship. Professor Evans raised the question of the competence of a local board to judge what is good and what is not for the public to see.

Mr. Kenworthy gave an interesting talk outlining his policy of bringing the best shows here at popular prices. Mr. Gwen of the Liberty and Casino opposed the local censorship but did not attempt to explain the reason for the difference in price in the local theaters.

In the subsequent discussion the co-eds went on record as making their escorts take them to the lower priced movie on the ground that by so doing they would have a chance to go oftener.

VANDALS BREAK EVEN IN GAMES ON PACIFIC COAST TRIP—WIN 3

IDAHO WINS FROM WILLAMETTE, O. A. C. AND MULTNOMAH CLUB DROPS TWO GAMES TO OREGON, NORTHWEST CHAMPIONS, AND ONE CONTEST WITH OREGON AGGIES.

WIN TWO FROM WHITMAN

Capt. Hunter Stars and Uses Defense System to Perfection—Scores Are 29 to 20 and 26 to 15

The last two games of Idaho's Pacific Coast trip, one with Willamette, and the other with Multnomah Club, were both successful for the Silver and Gold, the game with Willamette being won by the close score of 19 to 18, and the one with Multnomah Club by a score of 30 to 19.

The Willamette Game

The game with Willamette, played February 22, was closely contested, and the score was in doubt up to the time the final whistle was blown.

At the end of the first half Willamette led by a score of 12 to 10. During the second half, Idaho, with every man showing his customary form, overcame the lead, and five minutes before the end of the game led by five points. Willamette succeeded in making two baskets, however, shortly before the whistle blew, leaving Idaho with a margin of but one point.

The Lineup and Score

Willamette	Idaho
Gillette (12)	F R. Fox
McKettuck (2)	F A. Fox (8)
Jackson (2)	C Thompson
Dimick	G Carder (2)
Rarey	G Hunter (5)

Substitutions: Willamette—Wapato (2) for Gillette; Idaho—Moe (4) for A. Fox, Wyman for R. Fox. Free throws—Gillette, 8 out of 11, Hunter 5 out of 5.

The Multnomah Club Game

In the final game of the coast trip Idaho won an easy victory over Multnomah Club, 30 to 19.

The result was at no time in doubt, the first half closing with Idaho leading 20 to 7.

The Lineup and Score

Whitman	Idaho
Rich (7)	F Moe (4)
C. Penrose (6)	F A. Fox (4)
York	C Carder
N. Penrose	G Hunter (12)
Schroeder	G R. Fox (6)

Substitutions: Whitman—Garver (2) for York. Free Throws—Rich, 5 out of 7; Hunter 4 out of 4.

VANDALS AND BRUINS DIVIDE FINAL GAMES

Silver and Gold Win First Fray By 42 to 22 Score. Bruins Rally Win Second Game 38 to 26.

By Eugene Zachman.

The Vandals closed their 1920-21 basketball season by playing two games with the Montana Grizzlies at Missoula, March 4 and 5, winning the first game by a score of 42 to 22 and losing the second 38 to 26.

In the first game, after the first five minutes of play, the result was at no time in doubt, Idaho's splendid team work and accurate shooting placing them point after point ahead of the Montana team.

The first half ended 21 to 15 in Idaho's favor, and during the second half they ran 21 points against the Grizzlies' 7. Moe was the star of the game, making nine field baskets.

The Lineups and score:

Montana	Position	Idaho
Higbee (2)	F	A. Fox (8)
Larkin (8)	F	Moe (18)
Adams (6)	C	Carder
Baird (2)	G	Hunter (12)
Sullivan (2)	G	R. Fox

Substitutions: Montana—Ahearn for Larkin, Levine for Adams, Elliot for Baird, McGowan for Sullivan; Idaho—Nelson (4) for A. Fox. Free Throws—Larkin 2 out of 14; Hunter, 8 out of 14.

The first half of the second game found the Vandals off form, and the half ended 28 to 6 in favor of Montana. During the second half, however, Idaho came back with her customary fight, and made 20 points to Montana's 10. The lead of the first half was so great that the game ended 38 to 26 in Montana's favor. Hunter converted four out of five free throws, and made three field baskets and Alex Fox and Rich Fox are also credited with three field baskets each.

The Lineup and Score

Multnomah	Idaho
G. Clarin (5)	F A. Fox (8)
Monton (4)	F Moe
Clarin (4)	C Carder (2)
Powder (2)	G Hyde
Twining (2)	G Hunter (14)

Substitutions: Multnomah—Toomey (2) for Twining; Idaho—Wyman (2) for Moe, Thompson for Carder, R. Fox (4) for Hyde. Free Throws—Multnomah Club, 4 out of 11; Hunter 4 out of 10.

The Whitman Games

With a substantial lead each time, Idaho won two games from Whitman at Walla Walla, on March 3 and 4, the score of the first being 29 to 20 and the second 26 to 15.

The first of the two games was uncomfortably close the first half, Idaho leading 13 to 12. During the second half Idaho ran up a safe lead by accurate shooting, and the final whistle blew with Idaho leading 29 to 20.

The Lineup and Score

Whitman	Idaho
Rich (14)	F A. Fox (2)
Guerian (2)	F Moe (6)
C. Penrose (2)	C Carder (6)
N. Penrose	G Hunter (15)
Shroeder (2)	G R. Fox

Substitutions: Idaho—Nelson for A. Fox, Garten for R. Fox. Free throws—Rich, 8 out of 11; Hunter, 5 out of 8.

In the second game with Whitman, Idaho again won a victory, 26 to 15. The game was very evenly matched during the first half and the first ten minutes of the second half, the score being tied several times during this period. In the last ten minutes of the second half Idaho ran up a substantial lead by excellent team work and accurate shooting. Then, passing the ball around in their own territory, they kept Whitman from scoring for the balance of the game. Hunter was the star of the game, converting every one of four foul shots, and making four field baskets.

automobile engine-testing machine on the Pacific coast is now being installed in the mechanical engineering laboratory at a cost of \$3,500.

The machine, a Sprague electric dynamometer, is almost entirely automatic and will measure horse power and the number of revolutions per minute to within one half of one per cent accurate.

Vassar College girls, at Poughkeepsie, New York, have gone on a strike against Dame Fashion and her unexplainable ways. They have revolted against the short knee-length skirt, the thin silk stockings for rigid days, and have taken their ears out of hiding for the first time in two years. They are wearing long skirts and their hair is slicked back into little knots.

SOUTHERN IDAHO HAS GREAT FUTURE AS DAIRY COUNTRY. FEEDING CONDITIONS IDEAL

In Southwestern Idaho the dairy industry has not reached its highest point in production. It is safe to say that within the next fifteen years, if normal conditions prevail, the dairy industry in that section will be twice as large as it is now.

Only about two-thirds of the land, that can be irrigated, is now under irrigation. With the development of new irrigation projects there will be a great increase in dairying.

Only a very small number of farmers are engaged in dairying on an extensive scale. Many farmers have small dairies of eight or ten cows. This means a limited production. A majority of the men have as yet failed to realize that dairying either on a small scale or extensively is the only way to make the small farm produce the maximum returns.

Southwestern Idaho is a section of the state naturally adapted to dairying. Legume hay for winter feeding can be produced in large quantities per acre. Oats and corn for grain rations grow well in that country. Large yields of corn for silage are obtained every year. In the summer the cows can be pastured on luxuriant blue grass. Thus at every season of the year there is a balanced ration ready for feeding.

The advantage of having home grown feed is very important because one of the essentials of profitable dairying is economy. Feeds shipped into the country from neighboring states are usually more expensive, due to cost of handling and shipping. In the above-mentioned point Southwestern Idaho, with but few exceptions, excels the neighboring states.

Very few men in that section of the state have modern equipment. They do not enter the business on a large enough scale to permit the purchas-

ing of modern barns and other expensive equipment. Thus the industry is handicapped because of lack of better equipment.

Co-operation in the dairy industry is a very important factor for success. Large markets can be reached; better cows can be purchased and consequently a higher price may be realized for all produce sold. This is very important, for by this method the farmer is able to sell his produce at a price higher than cost of production.

Just because Southwestern Idaho is naturally equipped with an abundance of feed that does not necessarily mean that it is an ideal dairy country. It has two handicaps of great importance, namely: the district is not close to a large market, and the country is not farmed by dairymen.

The small number of dairymen in that section may be attributed to the fact that in the past the country has been farmed by men who desired to produce beef instead of milk. With the coming of high priced land there has been very little change in the minds of the people as to the type of cattle to produce. They are still trying to produce beef on costly land. Profitable production of beef cannot be carried on under such conditions. The time must come, and it will come soon when the average farmer will devote more of his attention to dairying. He will be forced to do so because of the high price of land.

The conclusion may be taken now that Southwestern Idaho will reach a maximum production in the dairy industry when more men turn their attention to that business; when more modern equipment is used and after nearly all of the land is under cultivation.
