UNIVERSITY OF IDAHO, MOSCOW, IDAHO, TUESDAY, SEPTEMBER 27, 1921.

NUMBER 2

VARSIETY PLAYERS TO STAGE DRAMA AT U AUDITORIUM

DRAMATISTS RETURN FROM SUCCESSFUL TOUR OF THE NORTHWEST

SPECIAL SCENERY IS FEATURE OF PLAY Idaho Performers Highly Praised by Newspapers of Idaho, Better Than Professionals

As a climax to a successful seven weeks' barnstorming tour over the state in the face of practically every obstacle known to show troupes, the Varsity Players will give a home coming performance of "Her Husband's Wife" at the auditorium Friday evening, October 7, at 8 o'clock.

A host of students who saw the show this summer declare it was excellent and have expressed the desire to see it once more. One Boise girl has seen it three times and wants to go again. Moscow people who saw the show before it started out this spring are likewise anxious to watch the varsity performers go through the paces in "Her Husband's Wife" again before the cast takes up another play.

Faculty Approves

The date of Friday, October 7, has been placed on the university calendar by the faculty committee so that there will be no conflicting events on that evening.

The play, "Her Husband's Wife" is an unusually hilarious farce comedy from the pen of A. E. Thomas, leading American playwright and is considered one of the very best comedies turned out for several years.

Stars Compose Cast

Composing the cast are Prof. John H. Cushman, director of university dramatics; Mike Thometz, the star in "Clarence"; Rex Kimmel, who has featured many campus shows; Camille McDaniels, Dona Eggen, and Virgil Bedwell. Each member of the cast has appeared in a number of productions and is considerably above the rating of the average amateur performer.

Newspapers Praise It

The press of the state was unanimous in its praise of the show and many declared it better than any professional company they had had in their town for several seasons.

Big Production Cost

The special scenery, made in New York expressly for the Varsity Players, will be used here. In preparing for their summer tour, the players were put to an expense that easily totalled \$2000. In addition to the scenery, there was a large expenditure for make-ups and costumes, advance advertising, etc.

Reserved seats will be put on sale Wednesday, October 5, both at the university and down town. Sherfy's Book store will handle the town sale. The special back to normalcy prices of 50 cents will be made for students and faculty.

ALL-COLLEGE RECEPTION WAS DELIGHTFUL AFFAIR

FACULTY AND STUDENTS JOIN IN INFORMAL GATHERING—DANCE ENJOYED

"The College of Good Cheer," a burlesque on the four years of college life, was the feature of the Student-Faculty reception Friday evening in the gymnasium. The building was crowded to capacity. The first hour was devoted to a "get acquainted" meeting, at which time everyone was busy introducing themselves to everyone else. Then the center of the floor was cleared and the evening's fun began.

"The College of Good Cheer" was called to order by its President, after which each class in the college presented a part of the entertainment. Many were the laughs that each group drew from the audience, and all were disappointed when it was announced that this part of the entertainment was completed. The speech of J. Orrin Gould was without doubt the hit of the evening.

PLAN CLASS TOURNAMENT

COURTS TO BE PUT IN SHAPE FOR FALL PRACTICE; WINNERS GET BANNER

Plans are rapidly being rounded into shape for a fall tennis tournament to be played along inter-class lines, and the courts will be put into shape for practice the early part of this week.

No definite date has been set, as yet, for the contest, but it is expected that it will take place on or near October 17. The date will depend to a great extent, however, on weather conditions.

Men and Women's singles and doubles and mixed doubles will be the different divisions of the contest. A preliminary tournament will be held in each class to determine the class champions in these five sections, and the class champions will meet to determine the championship of the campus in each event. The class winning the greatest number of divisions, will be declared winner of the tournament.

The plants, as they now stand, provide for the awarding of a permanent competitive pennant to the winning class to be defended each year.

The Athletic Department is especially anxious to make this tournament a great success in order to provide additional interest and practice for the Varsity teams of next spring.

MONSTER ASSEMBLY STARTS YEAR OFF

KAPPA ALPHA THETA AND PHIGAMMA DELTA LEAD IN SCHOLARSHIP

With the impressive academic procession, addresses by Governor D. W. Davis, Congressman Burton French and other distinguished visitors to the largest "Idaho" student-body in many years, the thirtieth academic year of the University of Idaho was formally ushered into being last Wednesday. The first assembly of year attracted an audience which completely filled the auditorium and left nearly a hundred standing in the aisles and the rear of the room.

Under the marshalship of Dean F. A. Thompson of the school of mines, chairman of the public events committee, and Colonel E. R. Chrisman, professor of military science, the academic procession formed at 10 o'clock at Ridenbaugh hall. The procession entered the auditorium shortly after 10:15 o'clock, the processional being played by the University orchestra. The platform group, which led the march, assumed their positions on the stage, while the remainder of the faculty members dropped out of line, occupying seats in the front of the auditorium.

Those occupying seats on the stage were President Alfred H. Upham, Governor D. W. Davis, Dean J. G. Eldridge, Representative Burton L. French, Dr. E. A. Bryan, State Commissioner of Education; Robert O. Jones, Secretary of State; Dr. H. Foster Bain director of the United States Bureau of Mines, Stanley Easton, chairman of the Executive Board of the University; the Rev. H. O. Perry; the Rev. W. S. Crockett; George Horton, president of the Alumni Association; Dr. Thomas T. Reed, editor-in-chief of publications, United States Bureau of Mines; Deans M. F. Angell, E. J. Iddings, C. N. Little, O. P. Cockrill, F. A. Thomson, F. G. Miller, J. F. Messenger and Miss Permeal J. French, dean of women.

Following the invocation by the Rev. H. O. Perry and the singing of "Idaho" songs, President Upham introduced the state's chief executive, D. W. Davis. "To see this auditorium filled to the overflowing is one of the most impressive sights of my life," were the opening words of Governor Davis. He traced the financial condition of the country throughout the world war and the resulting dissatisfaction among the peoples of the earth and suggested "Thrift" as the only remedy for the condition.

"American homes are shirking their responsibilities," charged Governor Davis in his address. "The neglect of boys and girls in the home is deplorable and is largely responsible for a great deal of the discomfort and distress of today. The most as-

IDAHOANS AT OXFORD MIX IN SCHOOL LIFE

LINDLEY TOURING EUROPEAN COUNTRIES; SANDELIUS GAINS RECOGNITION

Ernest K. Lindley, Idaho Rhodes scholar, at Oxford, is spending his summer vacation at the University of Grenoble, in France, studying Constitutional Law and French, according to word received on the campus yesterday, and expects to travel into Switzerland, Bavaria, and probably Austria following the completion of his studies in France.

Several different items made travel in Europe difficult, according to Lindley's letter, one these being visas on passports, which come at "\$10 a clip"—to use Lindley's language.

The letter also gives the news that Walter Sandelius, another of Idaho's Rhodes scholars, recently secured a Distinction in the examinations of Economic Diplomacy.

Both Lindley and Sandelius are taking active parts in the life of Oxford. They are especially prominent in the American Club and in the regular meetings of the Oxford Union. The latter is the most famous college debating society in the world. Regularly, various prominent men, in public life, come to the Oxford Union to debate with the members. Recently, ex-Premier Asquith, William Butler Yeats, Sir John Simon, Ramsay MacDonald, the famous labor leader, and Viscount Birkenhead, Lord Chancellor, debated at the Union.

The president of the Union secures immediate entry into English politics. The president of the last term, a member of Lindley's college, was immediately snatched up by Premier Lloyd George and is now speaking throughout England for the Coalition Party, Lloyd George's adherents.

IDAHO GIRL STATE CHAMP

MEMBER OF IDAHO TENNIS TEAM GRABS FIRST PLACE IN IDAHO TOURNAMENT

The Inland Empire tennis tournament held in OPlatch this summer resulted in an indirect victory for the University of Idaho in that the winner of the women's singles was Vida Richards, a sophomore in the College of Letters and Science.

Mrs. Richards also shared honors with Miss Wakeman by winning the final match in women's doubles.

The steady accurate playing which was characteristic of Mrs. Richards' matches in the tournament on the campus last spring made her a favorite after her first few games at OPlatch.

Mrs. Richards will prove a strong contestant in spring tennis again this year. It is expected that girls' teams representing Idaho will meet teams from Whitman and W. S. C. and possibly the U. of W.

ounding condition of the present, however, is the prevalence of social disease among comparatively young children. This menace is rapidly gaining a foothold. We must face, combat and wipe it out.

Before closing, Governor Davis gave assurance that the state was doing everything possible in the matter of improvements and cited Idaho as being one of the leading states of the west in comparative improvements during recent years.

"The Worth of a Man" was taken by Congressman French as the subject for his address. "Invention and discovery, efficiency, health, morality and orderly government are dependent upon leisure, industry or application, religion in its broadest sense and education," he said. "These are the great factors that sustain our race."

"What is the worth of a man? Is it not the measure of his ability to fit in and have a part in the work of sustaining the factors that support our race and carry it forward? The worth of a man depends upon the age in which he lives and the people among whom his life is cast. The measure of the worth of a man today in famine-stricken Russia would be the fitness of the man, not to preach religion, not to write treatises on agriculture or metaphysics, but to feed the people."

"Close up your public schools and universities and other institutions of

SOPHS CLAIM HONORS IN FIGHT WITH FROSH

TUBBING PARTY STATISTICIAN DECLARES SECOND YEAR MEN THE VICTORS

With everything that occurred happening entirely contrary to all law and custom, the freshmen and sophomores tangled Saturday night, and Sunday morning, in their annual ducking spree. Intervention of the university authorities prevented a resumption of hostilities Sunday night, or it is probable that members of both classes would still be walking the campus in mortal fear of a drenching.

Frosh "First to Fight"

In opposition to tradition, the freshmen struck the first blow. Dope prevails that it was due to the instigation of a junior who was well soured last year by the class of '24, that the frosh started on the rampage. But whatever caused it, certain it is that the frosh of Kappa Sigma seized upon their sophomores, whom they outnumbered three to one, shortly after Saturday's dance, and soaked them thoroughly.

Locking their sophs in a room, they proceeded to the Sigma Nu house, and ganging with that frat's frosh, repeated the performance. The steeple climbing ability of one of the Kappa Sig sophs allowed him to escape from prison, however, so that when the freshmen arrived at the Beta house they were refused admittance, and only one victim was secured at Phi Delta Theta. Since the sport seemed becoming tame, they then dispersed and retired for the night.

Sophs Post Edicts

Their slumbers were soon disturbed, however, for the sophs were deter-

(Continued on page three)

INVOICE FRESHMAN BRAINS

FACULTY PASSES RULE FOR ALL FRESHMEN TO TAKE OTIS INTELLIGENCE TEST

In compliance with a faculty ruling, freshmen, for the first time in the history of the university, will be given intelligence tests. These tests will be similar to those given men entering the army. Under direction of Joseph W. Barton, associate professor of philosophy and psychology, preparations are being made to conduct the tests within the next two weeks.

"The purpose," said Professor Barton, "is to provide an additional means for properly planning college courses, with the hope of eliminating waste of student's time and money."

"These intelligence tests may also be used as a check on the efficiency of teaching and to determine the degree of intelligence necessary to pursue various courses offered at the university."

With a freshman class of approximately 400 the work of giving the tests and correcting the papers will be a burdensome task. The class will be divided into groups when the tests are given, but no information as to the relative standings of the students will be given out.

learning, wipe out your Churches, abolish liberty of thought and expression and in another generation the pitiable plight that has befallen Russia would have a firm grip on America.

"The preservation of the individual, the preservation of the home, the preservation of society, the maintenance of our race—these are the challenges to the man and the woman who would carry on for human kind."

"The worth of a man is the measure of his fitness to give highest service and the measure of his ability to carry on in all truth were directly."

A degree of Doctor of Laws was conferred upon Congressman French by President A. H. Upham.

On behalf of the board of education Mr. Easton presented the Elizabeth Kidder Lindley scholarship cup to the Kappa Alpha Theta sorority, which won highest percentage in the list of competing women's group organizations. The Burton L. French scholarship cup was awarded by the donor to the Phi Gamma Delta fraternity, which presented the highest average in the group of men's organizations on the campus.

PROFS HIT "D" STUDENTS

WILL REQUIRE "C" OR ABOVE IN TWO THIRDS OF SUBJECTS TO GRADUATE

A recent faculty ruling made necessary a higher scholastic standing for a student to be eligible for graduation.

Under the new ruling, in order to be eligible for graduation from any college of the university, a student must have grades of "C" or above in two thirds of the credits required in his or her curriculum, and received from this date. This will apply to the graduating class of 1923 and all succeeding classes, but have no bearing on this year's senior class.

The action taken is right in line with that of other colleges and universities, throughout the country and is necessitated by the great influx of students desiring higher education.

A recent ruling at the University of Washington requires grades of "C" or better in two thirds of the required work for a student to continue in residence there. While not so severe, it is felt that the action of the Idaho faculty will greatly assist in maintaining a higher scholastic standing, and at the same time discourage those sent out from other universities from crowding and overtaxing the facilities here.

FRATS ANNOUNCE FALL PLEDGING

LARGE NUMBER OF NEW STUDENTS CAUSES GREEK LETTER GROUPS TO GO SLOW

Eighty-one new students have been pledged to Greek letter fraternities this year according to announcements made by representatives of the various houses. Pledging is unusually slow this year and more men may be expected to be taken in within the next month.

Sorority rushing continues for another week and all sororities will be giving parties and entertainments.

Fraternities announce their pledging as follows:

Beta Theta Pi—Philip and John Remsburg, Rupert; James Vance, Boise; Cecil Pfost, Boise; Lloyd Melcalf, Polkatch; H. B. and C. C. Culp, Coeur d'Alene; Floyd Marchaesi, Kellogg; Charles Hansen, Rupert; Sidney Klefner, Twin Falls; Oscar Newman, Twin Falls; Charles Simons, Kellogg; Aeling Moe, Kellogg.

Sigma Nu—Hugh Keller, Coeur d'Alene; John O'Connor, Coeur d'Alene; Larris Hubble, Coeur d'Alene; Glen Waltman, Kellogg; Victor Vanig, Kellogg; Lloyd McMillan, St. Maries; Nathan Osborne, Wallace; Bert Tardie, Coeur d'Alene; Milton Evans, American Falls; Loren Measenger, Moscow; Jas. LeClair, Lewiston; Harry Edwards, Moscow.

Phi Delta Theta—Allen McDaniels, Moscow; John Reed, Idaho Falls; Gale Mix, Moscow; Thoro Roos, Idaho Falls; Frank Minas, Boise; Harold Johnson, Nampa; Vivian Kimbrough, Caldwell; John Horton, Moscow; Clayton Casey, Nampa; Earl Whitteberg, Caldwell.

Sigma Alpha Epsilon—Willard Rush, Grangeville; Clarence Lindstrom, Sandpoint; Albert Taylor, Grangeville; Herbert Karlberg, Nampa; Sam Poindexter, Boise; Willard Heath, Yakima, Wash.; Jas. Stromme, Pocatello; William Young, Pocatello; Roy Otms, Boise; Herman Bauman, Milwaukee.

Phi Gamma Delta—George Gilson, Lewiston; Ulla Rowell, Boise; Blair Armstrong, Boise; Harold Wyman, Colfax; Fairley Waldreth, Orofino. Leonard Hill, Twin Falls; Arnold Soderberg, Orofino; Joe Thomas, Moscow; Frank Williamson, Moscow; Francis Dunaway, Craigmont; Louis Hefphey, Sandpoint; Earl Stettman, Nez Perce.

Kappa Sigma—Paul Harlan, Nashville, Tenn.; Summer Whitney, Emmett; Ernest Patch, Payette. Ernest Parson, Payette; Eddie Mellik, Syracuse, N. Y.; George Walker, Wallace; Ray Russel, Parma; Don Cunningham, Boise; Roy Schoults, Gooding; S. S. McMillan, Coeur d'Alene; J. J. McMillan, Coeur d'Alene; Walter Remer, Lewiston; Richard Jacobs, Lewiston; John Hendrickson, Lewiston; John Vesser, Coeur d'Alene; K. T. Holmes, Post Falls.

Elvetas—Clive Shelley, Twin Falls; Paul Bieler, Twin Falls; Wayne Leland, Wendell; Harold Sallsbury, Meridian; George Peters, Council; Russel Molyneux, Sandpoint. Gentleman tonsorial.

IDAHO DEBATERS PLAN CONTEST WITH HARVARD

NEGOTIATIONS UNDER WAY FOR BIG ARGUMENT AT SPOKANE NEXT DECEMBER

DEBATE FOR WOMEN BEING PLANNED

International Meet Scheduled Again; Strong Lineup of Material Assures Strong Showing

Announcement that Harvard University and the University of Idaho will very probably meet in debate at Spokane was made today by C. W. Chenoweth, debate coach.

The Harvard debate team has a national reputation and is one of the leading organizations of the country. If Idaho can make a creditable showing against the eastern invader it will make her superiority in the west unquestioned and bring national honor to the members of the Idaho team.

Negotiations are already under way and unless unforeseen difficulties arise, the contest will be held. Next in importance on the Idaho schedule is the international meet between Idaho, Oregon and the University of British Columbia. This debate provides a fine trip to one team and is given considerable recognition over the northwest and Canada.

Co-Eds May Argue

In addition to the various contests for men, a triangular women's debate between Whitman, the University of Washington and Idaho may be arranged and plans are now being made. In all probability, this promised event will become a reality.

Abundance of Material

The outlook for a good year in debate is very promising. With many good debaters returning to school in the junior and senior classes, and with practically all the material of last year enrolled, the prospect is unusually bright for winning teams. Professor Chenoweth will again head the coaching staff, assisted by Mr. Collins, a former University of Washington star.

As the schedule indicates, Idaho is particularly fortunate this year in her chances for excellent inter-collegiate contests. The season will start off with the dual contest with W. S. C. This event always arouses keen competition and team for it usually includes several freshmen. Last year five of the six members were first year students.

William Briscoe, who was elected debate manager last spring, did not return to the university. An appointment to fill the vacancy will be made by the executive board in the near future. Briscoe was one of Idaho's stellar debaters and his loss will be keenly felt in the big contests this year.

STUDENTS RECEPTIONS AT CHURCHES FRIDAY

EACH CONGREGATIONAL ARRANGING FOR ENTERTAINMENT OF COLLEGE FOLK

Friday night will be Church night for the students of the University. At this time the different churches of the city will hold receptions for those students registered as having membership in or a preference for any particular church.

Each Church with the exception of the Latter Day Saints will receive the students at the respective Church auditoriums. The L. D. S. reception will be at the University Hut.

According to advices from the Office of the University Christian Federation the evening has been cleared especially for these socials. The Young Peoples' Associations of the Churches are cooperating with the regular Church and an enjoyable evening is promised.

The Churches participating in this joint reception plan are; Baptist, Christian Church, Episcopal, Methodist Episcopal, Presbyterian, Latter Day Saints, and the Swedish and Norwegian Lutheran Churches. It is also probable that the Catholic Church will also receive on this occasion.

THE UNIVERSITY ARGONAUT

Published weekly by the Associated Students of the University of Idaho. Price: Per year, \$2.00, except subscriptions outside of the United States which are \$2.50.

Entered at the postoffice at Moscow, Idaho, as second class matter.

Editor, R. E. Jeffness, '23; Editor, Robert L. Holbrook, '23; Manager, Lynn Hersey, '23.

The Ivory Inventory

Through a faculty ruling, all university freshmen are to be given the Otis intelligence test—the test used successfully by the U. S. army.

From the test the faculty hopes to learn what psychologists claim for the test, namely what the possibilities and limitations of each student are and also if he is mentally equipped to successfully follow the course he has chosen and finally if he or she is adapted for the life work planned.

Possibly this move will cause discussion. So did the first railroad, and probably the first water bucket. But the intelligence test has been tried, checked and rechecked until now it is accepted by all authorities acquainted with it. It is a fortunate student who knows how he rates in such a test. In this day and age many folks go through life racing against twin-six opposition only to find at the end of the course that they themselves are only four cylinder rounabouts intended for a less grinding task.

But there is one regrettable feature. Through necessity the student will not know what he should know. That is, he will never know the grade he received.

It would be all well and good for the one who could write home and tell the folks that he lacked few points

of being equal to Edison or Wilson but there would be some rumpus when his room-mate confided with papa and mama that he rated "moron" and because of this the teachers kept giving him "Fs" and "Ds".

Human nature runs true to form. Psychologists say that those receiving high marks immediately become strongly for the tests, and those getting low grades fail to be impressed.

The wise student will endeavor to find out what the faculty is forced to keep from him—the grade he receives. And, what if he rates Harry K. Thaw or Herbert Hoover, he can be assured that the grade isn't far off.

However, there is one thing to be kept in mind. The intelligence test does not tell the student what he is—only what he should be. A person of average intelligence can by diligent work, equal and surpass the one of "high intelligence" who loaf through two thirds of the semester and then tries to knock out a home run with two men down in the last of the ninth. The test only gives the native brain power, or, to use the psychologist's term, "Raw Intelligence."

BROWN SENIOR PRESIDENT

The first meeting of the Senior class was held on Thursday evening of last week. The following officers were elected for this semester: President, Frank Brown; Vice-President, Orval Garrison; Secretary, Ivey Sanger; Treasurer, Albert Graf.

The meeting was addressed by Dr. Upham.

Gladys Channel, ex-'23 of Kappa Kappa Gamma is spending the winter with her parents at Long Beach, California.

Gertrude O'Keefe, ex-'22, of Kappa Kappa Gamma, sailed on August 15th from San Francisco for Honolulu where she will spend the winter.

PLAN BIG SCHEDULE FOR IDAHO FROSH

UNIVERSITY MATERIAL SHOWS UP FOR FIRST YEAR TEAM EXCELLENT WEIGHT

Freshmen football practice has started at the University of Idaho. Material for the first year eleven is the best in the history of the institution with more than 50 husky "Frosh" in suits. Coach David McMillan is being assisted by Prof. R. E. Neidig, line coach. A heavy schedule is being worked out and the athletic department plans on putting out the most successful Idaho freshman team.

Outstanding in the material are Noah Hays, 190 pound Lapwai Indian and backfield man, "Otz" Neuman of Twin Falls and Charles Hausen of Rupert, the high school football sensations in southern Idaho for the past four years; Maurice Clyne, a center who hails from New Jersey, and Herb Keller of Coeur d'Alene, former captain of the University of Washington "Frosh."

For linesmen Assistant Coach Neidig has Francis Dunaway of Lewiston, Naterlin of Oregon City, Oregon, Walter Culp of Coeur d'Alene, Bert Tardie of Coeur d'Alene, and Glenn Waltman of Kellogg. Dunaway, Naterlin, and Tardie are linesmen above the 190 pound mark and the others will average up well above 175. Kerahnsnik of Burley and Dresser of Coeur d'Alene are also showing exceptional form.

In anticipation of the development of a sensationally capable team Thomas Kelley, director of athletics, and Fred Graf, graduate manager, hope to arrange a hard schedule for the 1925 eleven. The tentative freshman schedule follows:

at Moscow. October 8—Lewiston High school at Moscow.

October 15—Cheney Normal school at Moscow.

October 29—North Central High school at Moscow.

November 12—Lewis and Clark High school at Spokane.

In addition Graduate Manager Graf hopes to arrange two games with the W. S. C. freshmen, one at Moscow and the other at Pullman, a game with the Oregon Agricultural college yearlings at Corvallis, Oregon, and a southern Idaho tour.

Assistant Coach Neidig is professor of agricultural chemistry. He was an all-Iowa tackle in '08 and '09 when he played for Cornell college. At one time he was assistant line coach at the Iowa State college and he has had a number of years coaching experience.

Among the freshmen who turned out today for preliminary work in fundamentals were:

Noah Hays, Lapwai; Clayton Casey, Nampa; Crozier and Haver Culp, Coeur d'Alene; Walter Dart, Palouse, Wash.; "Bull" Disney, Rupert; Robert Douglas, Hollister; Francis Dunaday, Lewiston; Lynn Kelly, Winchester; Howard Reamer, Lewiston; Milton Evans, Meridian; Clarence Fales, Gooding; Charles Hausen, Rupert; Lorris Hubbel, Coeur d'Alene; Frank Karahnsnik, Burley; Maurice Kline, Jersey City, N. J.; Harold Lenhard, Moscow; Jerald Meek, Preston; Bud Metcalf, Potlatch; L. McMillan, St. Maries; Hoyt McNitt, Rupert; Andrew Naterlin, Oregon City, Oregon; Oscar Neuman, Twin Falls; Wilmer Osborne, Twin Falls; Roy Otness, Moscow; Ernest Patch, Payette; John Platt, Caldwell; John Reed, Idaho Falls; Thone Roos, Idaho Falls; Lyle Tapper, Richfield; Bert Tardie, Coeur d'Alene; Harold Wallace, Wallace; Glenn P. Waltman, Kellogg; George Walker Wallace; J. J. McMillan and S. J. McMillan, Coeur d'Alene; Herb Keller, Coeur d'Alene; William Boyer, Culesac; Syb Klefner, Twin Falls; Herbert Pollard, Burley; Wayne Hulderson, Gooding; Stanley Siegrus, Salt Lake; Earl Wittborg, Caldwell; Arthur Hardin, Pomeroy, Washington; Paul Bieler, Twin Falls; Cline Shelley, Twin Falls; and Harvey Christy, Auburn, Wash.

Verner R. Clements, of Orofino, visited Phi Delta Theta Sunday.

Kappa Alpha Theta announces the pledging of Ethel Povey and Emiline Gilman of Halley.

SOPHS HAZE FROSH

(Continued from page one) mined to revenge the disrespect of their position immediately. Messengers summoned sophomores from all over the campus at two in the morning. The traditional edicts, which unbeknownst to even most of the sophs, had been prepared, were produced. A party was sent to paste them up, and the sophomores set out to duck the "Measly Maggots" without further delay. Falling on each house separately, they pulled the sleeping freshmen from bed, and managed to wet every frosh in every frat house.

Since the freshmen were fast organizing in large numbers, members of the class of '24 scattered, and comparatively few were caught.

Score Is Now 40 to 20
The sophs make strong claims of victory. They ducked victims to the number of over two to one, for less than twenty sophs were tubbed. They posted their edicts, while freshmen failed to paint a single numeral. Still, the frosh finally made their opponents take to cover.

A Battle Field Bears no Fruit
The edicts, which appeared so suddenly, were according to tradition. Addressing the "Measly Maggots" in two inch red letters, which stood out against a green background, they commanded the new students to observe school customs "Lest You Get Wet." The curse of the class of '24 was pronounced upon them as a finale.

AG PROFS. TO STATE FAIR
Dean E. J. Iddings, F. W. Atkeson, and R. S. Snyder will represent the university at the Idaho State fair at Boise next week.

Mr. Iddings will judge horses; Mr. Atkeson, the new dairy husbandman, will judge dairy stock and Mr. Snyder, assistant agricultural chemist, will arrange and have charge of the university exhibit. Previously, the university exhibit was at the Southeastern Idaho fair at Blackfoot.

R. K. Bonnett, agronomist, will judge farm crops and deliver an address on forage crops at the Kooskia harvest festival.

IDAHO PROFESSOR GUEST AT PRESIDENT'S BANQUET

To sit at the honor table with President Obregon of Mexico and eat from the silver plate of Maximilian I. was the good fortune this summer of Mrs. M. L. Sargent, professor of romance languages of the University of Idaho, who has just returned from Mexico City, where she studied at the University of Mexico.

Mrs. Sargent stood as one of three in the receiving line at a reception in the great drawing room of Chapultepec, the national castle, the other members of the trio being President Obregon and President Vasconcelos of the university, who is also minister of education for the Mexican republic. The occasion was a reception to American professors who were studying at the university.

"No one was ever received in this hall before but kings, ambassadors and state dignitaries," said President Obregon, "but Mexico never has been more honored than by its present guests."

The visitors were privileged to go down in an elevator into a 350-foot shaft leading to underground retreats constructed by the Aztecs, which customarily are closed to every one.

One of Mrs. Sargent's most prized mementos of the summer is an autographed letter from President Obregon in which he expressed regret at his inability to attend a dinner given by the American professors to the professors of the Mexican institution. Mrs. Sargent presided at this dinner.

"The message was elegantly sent," said Mrs. Sargent. "It was brought by President Obregon's adjutant, who wore white trousers, black riding boots, a green coat and a top hat."

This dinner was given in the palm room of the Hotel Geneve of Mexico City. At the dinner given by President Obregon at Chapultepec not only Maximilian's solid silver plate, but also his porcelain and crystal goblets were used.

Mrs. Sargent brought back with her four diplomas, certifying to her summer work in Spanish literature, comparative philology and other subjects. She was advanced to a full professorship in the University of Idaho this year.

RELIGIOUS EDUCATION COURSES ARE OFFERED

Circulars announcing extra-curriculum courses in Religious Education were placed in the hands of the students after assembly last Wednesday morning. These Student Volunteer classes have been organized in all of the Churches of the City of Moscow with the idea of administering to the demands of students desiring to enter such courses.

"The purpose of extra curriculum courses in Religious Education is three-fold," states the University Christian Federation under whose auspices the leaflet was published. Summarized the objectives are as follows:

1. To help students gain an intelligent knowledge of the Bible and its literature.
2. To lead them through participation in discussion under competent leaders to a broader conception of religion as found in the Bible.
3. To enable them to appropriate such Christian teachings as will be conducive to the development of virile Christian character.

A corps of prominent faculty members and townspeople has been secured to conduct the different classes in the respective Churches.

The attention of students is also directed to the Young Peoples' Societies and the Regular Church services.

BUCKLIN HEADS SOPHS

Thomas Bucklin of Idaho Falls was elected president of the sophomore class for the first semester at the fall election held the last of the week.

Other officers chosen are: Walter Greathouse, Boise, vice president; Mira Armbruster, Moscow, secretary and Ruby Gates, Boise, treasurer.

UNIVERSITY ORCHESTRA THREE TO FIVE EACH DAY

FOREST RANGER COURSE OPENS AT UNIVERSITY

The university's five-month forest ranger course this year will open Monday, October 17, F. G. Miller, dean of the school of forestry, announced today.

The course is for men who seek to become forest rangers and for rangers who wish to become more efficient and to work for more rapid promotion. Preparation is given for the civil service examination.

The curriculum covers two years of five months each and is designed for men who cannot take the regular forestry course. The work is of school grade, so that students with eighth grade certificates are eligible for entrance.

"Laboratory and field exercises and lectures by the forestry faculty, forest service officials and prominent lumbermen comprise the course," said Dean Miller today. "Students wishing to specialize in grazing will find unusual opportunity to study this on the university farm."

"Every facility of the school of forestry is offered to the short-course students just as fully as to the students of the long course. The equipment for handling the work is complete and up to date. Men who cannot take the two years' work are given freedom in selecting work in which they want to specialize."

secured by the board of regents of the University of Idaho to succeed Sherman Dickinson resigned as associate professor of agricultural education and principal of the school of practical agriculture, it was announced today from the office of President A. H. Upham. Mrs. Dickinson's failing health forced Professor Dickinson's resignation. He announces his intention of returning to Minnesota, having accepted a position on the agricultural department faculty of the university of that state.

STEWART'S SHOE SHOP

NOVEMBER 11TH TO 24 RED CROSS ROLL CALL

Last year the American Red Cross spent approximately \$10,000,000 in serving disabled ex-service men and their families," Frank W. Parsons, vice chairman in charge of domestic operation, said. "This one branch of Red Cross work cost nearly \$4,000,000 more than aggregate receipts from the year's membership dues," he continued. Therefore membership attained through the Fifth Red Cross Roll Call—November 11-24—Arms-

tice Day to Thanksgiving, should be greatly increased to insure continuance and expansion of such service for the disabled and his family as does not fall within the scope of government activity but which is no less necessary.

"In the hurry and hustle of adjustment to peacetime work the public seems largely to have forgotten the soldiers, sailors and marines who were disabled 'in line of duty.' This has been so apparent that President Harding has again recently called attention to the necessity for increased cars of these boys."

Now that school has nicely started you ought to have a little time to get acquainted.

We suggest that you drop in your shop and ours and get acquainted with the really nice things we carry for the young man who cares fir distinctive dress. We have the nicer things that you want.
