

"FRIENDSHIP SPECIAL" TO LEAVE THURSDAY SPECIAL IS READY FOR BOISE TRIP

ALL AWAITS ZERO DEPARTURE HOUR

Students and Townspeople Have Suitcases Packed

"See you on the Boise Special" has indeed become a reality, for the Armistice Day Special train and all its attending advantages to Idaho, has been assured. So tomorrow at 3:30 a first-class Pullman train will swing out of Moscow, carrying Matty's "Fighting Eleven," and a goodly number of representative Idaho students to Boise, and to victory in the third annual Football Classic against Utah.

The train is not going as a public one, stopping to pick up passengers at every station along the line, but is leaving here with two purposes in view: primarily, to take the Idaho team and its supporters to Boise; and secondarily, to make the trip as near one of actual pleasure for them as is humanly possible.

It isn't often that one has the privilege of riding on so complete and exclusive a train, and what is more, at so nominal a cost. The trip is one of the most unusual traveling experiences ever offered a body of students.

YEARLINGS DOWN MONTANA BABES

Bruins Tromped on to Tune of 46 to 0 in Vandal Land-Slide on MacLean Field Saturday.

"A thrill a minute." That is the title of the football game played last Saturday on MacLean field when Coach David MacMillan's trusty freshman warriors romped away with the long end of a 46-0 score against the freshman team from the University of Montana.

Time after time the crowd was brought to its feet by spectacular runs, kicks, passes and fumbles. The score does not indicate how good a game was played by either team, however. The Montana men kept up a good fight all through the game but were unable to solve the mysteries of MacMillan's yearlings.

But we will start at the beginning and let the absentees at the game file.

(Continued on page three.)

Statements As To Bond Posted Assuring Special Are Unfounded

The thousand dollar bond to insure a hundred students on the special to Boise has turned out to be an unverified statement on the part of those in charge of the student arrangements. The treasurer of the A.S.U.I. has never issued money for such a bond, nor has the board of supervisors ever authorized a bond of this nature. No one on the campus knows anything definite and the Argonaut could not verify the statement made in A.S.U.I. meeting and widely published that such a bond had been posted.

Howard Blodgett, chairman of the A.S.U.I. committee on the special, when interviewed Monday night, said:

FALL DAMP BRINGS FAME, — FORTUNE

Bobbed locks and fall rains have combined to furnish a new occupation for ambitious coeds. At first they all curled their own with many a burned neck and scorched ear. But now the most successful welder of tongs at each house boldly advertises the fact and charges accordingly. Their fame and finances grow in proportion to the dampness of the air and the number of parties slated for the week.

One firm of four "experts" goes one step further in advertising "love and loveliness" as their specialty. Not only do they marcell, bob-curl, and shampoo hair, manicure nails and shine shoes, but they also offer the services of Beatrice Fairfax's only rival with "21 years practical experience to draw from." A rushing business is reported in all lines.

IDAHO GARNERS CROSS-COUNTRY

Williams and Penwell Place First and Second in Dual Meet.

The University of Idaho five man cross country team Saturday afternoon defeated a similar team from Pullman in a dual cross country meet held on the University of Idaho course 26 to 29, the low score team winning on the basis of the point-assignment system used. Idaho runners took first, second, sixth, seventh, and tenth places. The Cougar runners took third, fourth, fifth, eighth, and ninth places, pushing the Idaho men for every place with the exception of the first two.

Lewis Williams, Jr., of Boise, took first place in the remarkably fast time of 20 minutes 40 and two-fifths seconds over the three and one-half mile course over the hill road after leading the majority of the way. Guy Penwell, of Moscow, varsity track captain and two year distance man, finished second for Idaho, and came across the tape practically neck and neck with Williams.

Cold and Windy. The weather was anything but conducive to cross country running, with a cold wind blowing, and occasional flakes of snow falling. The time made by Williams and Penwell of 20 minutes 40 and 2-5th seconds is considered remarkable for the Idaho three and one-half mile course.

The Idaho team will be entered next Saturday, November 11, in the Pacific Coast Conference cross country meet to be held at the University of Oregon at Eugene. Coach Gill would not say definitely who would comprise the Idaho team of

(Continued on page 2)

TO INTEREST IDAHO IN Y.W. MOVEMENT

Miss Blanchard Here For Meetings This Week.

"I should like to see Idaho swing into line and take her place with other universities in the world student movement, fostered by the Y. W. C. A.," said Miss Blanchard, the associate executive of the student department of the Y. W. C. A. to an Argonaut representative on her arrival here Monday.

"I have not been here long enough to know if Idaho is facing the same problem which is troubling so many universities at this time—the friction between the affiliated and non-affiliated students. I know from my work at other schools that this seems to be the outstanding problem. It is here that the Y. W. C. A. is doing some of its best work in other universities. By a common service it unites the various factions and gives real service at the same time.

"If this is not Idaho's problem then whatever it may be I am your disposal to help you in any way I may be able."

Stanford Graduate

As a graduate of a western university, Leland Stanford, Miss Blanchard is particularly in sympathy with the universities of the West and especially cognizant of their problems. Miss Blanchard brings an international outlook to bear upon

(Continued on page five)

JOANNA RUDISELL WINS CO-ED TENNIS HONORS

Defeats Rhoda Felton in Finals of Fall Tourney.

Twenty-two entries were listed for the Women's Tennis Tourney three weeks ago, and at the opening of the fourth round, which was completed last week, only four of the contestants remained. Mary Thompson, Joanna Rudisell, N. Prescott and Rhoda Felton were the participants in the semi-finals. All the sets in the semi-finals were hotly contested, and all entries showed ability as racquetteers. In the semi-finals, Joanna Rudisell defeated Mary Thompson, 6-0, 6-4, and Rhoda Felton defeated N. Prescott, 6-4, 6-2.

The finals were played last Sunday and the contestants, Rhoda Felton and Joanna Rudisell were so evenly matched that five sets were played to decide the winner. Rudisell won the Woman's championship of the University with the following scores; 8-5, 4-6, 6-3, 3-6, 8-6.

Miss Rudisell will be presented with a silver cup as a prize for winning the university cup.

The mixed doubles are matched now, and if the weather is permissible the tournament will start this week. This promises to be very interesting as all the winners of both the men's and women's tourney are listed.

The mixed doubles tournament will close the fall season of tennis.

PEP BAND GETS AWAY BIG ON ANNUAL "FALL FOLLIES" SHOW

Last Saturday evening, Harlan and his troupe of barn-stormers presented the best bill the local "Opree House" has seen in many moons. Everything went as smoothly as clock-work and no more than the usual amount of cabbages and other theatrical fruit was issued to the performers. In fact the perpetrators of the second contortion wisa to thank their friends for the handsome horse-collar bouquet which was handed to them by the usher. Nevertheless, everybody is happy and the five hundred dollars of pin money which the performance netted to the Pep Band was well earned.

Of course there was some congestion in the aisles due to the attraction of the uniform. It was, however, a feminine and not a soldier uniform.

The audience was pleasantly surprised at the exhibition of real music which the pit orchestra gave. Of course it was largely due to the cooperation of Professor Claus and of Miss Freda Soulen and the management wishes to thank them especially for the hearty cooperation which they gave.

Banjos Sing

After the overture Bob Cummings, Lynn Nash, Ted Turner and Thone Russe started the proceedings with a snap. They certainly made a hit and have ensured themselves a place on many programs to come.

Then some poor fish turned out all the lights and Professor Thurston, who had been invited to show some of his astounding feats to the doubting Thomas's, was forced to stumble down the aisle in total darkness and force his way on to the stage. There will be a meeting of the scientific societies of the University on next Saturday evening to discuss the new views concerning the fourth dimension which Prof. Thurston demonstrated.

WILL ERECT INDOOR PAVILION FOR GOLF

University of Oregon, Eugene, (P. I. P. A.)—Plans are being formulated for the erection of an indoor golf pavilion which will be available for use in the near future. M. G. Shover, of the physical education department, will have charge of the sport and will give special instructions to anyone wishing to perfect his form and drive.

MONTANA FOOTBALL MEN GUESTS OF PEP BAND MEN

University of Montana freshman football men were guests of the Idaho Pep Band Saturday evening at the annual Fall Follies show put on by the band, and had reserved for them two rows of seats. The men stayed in Moscow until Sunday morning, when they left for Missoula.

VANDALS LEAVE ON LONG TOUR SOUTH

ALPHA MU DELTA PIN GIVEN BORAH

Senator William E. Borah was presented with his Alpha Mu Delta legal fraternity pin Friday. The Senator is one of the charter members of the new honorary scholastic legal fraternity on the Idaho campus and his visit here presented an opportunity for members of the professional fraternity to place a pin on his vest. Abe Goff, as president, spiked the Senator with due ceremony at the Beta Theta Pi house Friday night.

Senator Borah visited the Beta house and took dinner there Friday night.

Alpha Mu Delta intends to petition Phi Delta Phi, national honorary legal scholastic fraternity.

REST RE-MAKES VANDAL ELEVEN

Hardest Part of Year's Schedule Coming Up Now

Following a two weeks' rest, the Vandals will be in the best condition of the year when they face the Utah grid men in Boise. This is the longest rest of the season for the Idaho team, and it comes at an opportune time, for they are facing the hardest part of the schedule.

Tomorrow the team will leave on the Special for Boise, where they will meet Utah on Armistice day. From Boise they go by way of Salt Lake to Pasadena, where the southern California Trojans will be met on the 18th. This game will be the first contest held between the newest entries into the Pacific Coast Conference. The Trojan lineup is unusually strong this year as may be seen from the dope on games. They held the University of California to a 13-2 score, and the Bears in turn inflicted a stinging defeat of 61-0 on W.S.C. Next Saturday will furnish more dope along the same line, for California meets Washington, against whom Idaho played by far the best game of the year.

Coach Mathews has been giving his team hard work-outs during the past ten days. All the men came through the W.S.C. game in fine shape, and

(Continued on page two)

HOLD COLUMBIA MINE MEET HERE

Prominent Men Attend Sessions at Idaho School Saturday.

The Columbia section of the American Institute of Mining and Metallurgical engineers held its annual meeting November 4, at the Idaho school of mines.

The program of the day opened with a technical session in the Geology building, Chairman Rush J. White of Wallace presiding. Fred W. Callaway was the principal speaker and gave an interesting address on "Mine Models and Their Application." His subject was brought out forcefully by lantern slide illustrations.

"The use of mine models are divided into three classes," said Mr. Callaway, "those used in litigation evidence, where accuracy and detail are of the utmost importance; secondly, when used in aiding of mine operations, and, thirdly, for reference use."

At the conclusion of the session the members immediately adjourned to Lindley Hall, where plates were set for fifty. Mr. Kirkham, acting in the capacity of toastmaster, called on various members of the association who responded with appropriate toasts.

Previous to the meeting, the Miners' association had reserved a section of the auditorium to provide seating space for their guests at the Pep Band Show. Immediately after the banquet the association went to the auditorium.

At its conclusion the entire association gathered at the Kappa Sigma house where a "get-together" smoker was held.

Those present were: President Upham, L. K. Armstrong, President of the Columbia section; Rush J. White, mining engineer of Wallace; Dean L. O. Howard of the W. S. C. school of mines; Dean F. A. Thomson of the

OBSERVE NOV. 11 IN FITTING WAY

Ceremonies in Morning to Include Former Service Men and Cadet Corps—Dance in Evening.

Devotees at the shrine of Terpsichore will have ample opportunity to display their devotion on Armistice Day by means of the entertainment provided by the A. E. F. club. A special matinee dance in the afternoon will be held in the gymnasium where detailed reports of the Utah game will be received by wire, and a more formal one in the evening.

Dancing will start the same minute the ball is put in play at Boise, according to Bob Leach, chairman of the A. E. F. club, and will continue until Idaho has won. Reports of the game will be announced between dances.

An informal dance in the evening will give those who did not go to Boise an opportunity to celebrate if we win or a means of consolation if

(Continued on page four)

Health Conditions Exceptionally Good Here States Miss Andrews

Health conditions at the university are good, according to Miss Andrews, the infirmary nurse.

"So far this year we have had only two cases of serious infectious diseases and these we isolated so promptly as to prevent any spread of the typhoid," said Miss Andrews.

"A majority of the patients have had colds and sore throats, which are due in a large measure to the crowded conditions at the houses. These colds come from places where the

sleeping porches are crowded or poorly ventilated.

Take Care of 86

Since the opening of school, a total of 86 students have been in the infirmary. Of these, 38 were men, who spent a total of 173 days there, and 48 women who stayed a total of 103 days. About 500 have been treated at the clinic for minor injuries, Miss Andrews urged that students come to the clinic for minor dressings rather than attempt to care for them at home.

OUTWORN METHODS

In bygone days when people were considered ineligible for any of the tasks of self-government it was considered quite the thing by the group of men who called themselves the leaders—not because they were fitted to lead but because they were in the position to do so—to get their measures past in any possible manner with never a thought of taking the people, in whom the sovereignty was at least nominally vested, into consideration.

If one searches in the archives of history he will have no difficulty in finding countless instances of where the few ruled and controlled the destinies of the many because it was considered impolitic to consult the mass.

Since the assembly last Wednesday considerable adverse criticism has been forthcoming about some of the statements made there. It seems that the general impression was left that a bond of a thousand dollars had been pledged to the O. W. R. & N. railroad by the student body guaranteeing that at least a hundred students would attend the Armistice Day game at Boise, and that unless the students individually came through with the necessary attendance we, collectively, would forfeit that sum of money.

The criticism was confined largely to the fact that no one seemed to know just exactly what was transpiring within the jurisdiction of the student body. Nothing had been stated regarding the guarantee and everyone was particularly desirous of knowing the status of such a deal.

It was not that the students were not backing the game and the special, but that they were justly and intelligently curious about the functioning of that body known as the Associated Students of the University of Idaho. They would not have resented the idea of backing up the train in a real way; but they did not relish having the statement made that they had backed it with money without first having been acquainted with the facts of the case.

Many have considered the allusion made at the assembly to be more or less unfounded but they have also reserved the right to call the matter a serious piece of business should the rumors made prove correct and involve a special process of student body legislation before becoming legitimate.

The United States went into war taking into its confidence the people of the nation. That the people were intelligent and patriotic enough to furnish one hundred per cent cooperation is undeniable.

Nor has the student body ever failed to denote a cooperative, helpful spirit when appealed to in an intelligent, enlightened manner to support any measure which had at stake the University. And it cannot but feel a spirit of resentment that it has not been taken into confidence in the promotion of the Boise special train. The students are conscious of the needs of the student body, realize their own ability to judge for themselves, and are loathe to be left out when it comes to bettering "Idaho."

THE ROLL CALL

November 11 will mark the opening of the annual Red Cross Roll Call throughout the United States. Let us remember the work of that great international organization, which has responded to every emergency, and let us freely enlist our feeble aid to help them further their great work.

To wear the little white button next week will be a sign of humanity throughout the land, and let University students take the lead in lending a helping hand to the American Red Cross in their annual Roll Call.

STUDENT OPINION

Here it is, almost time for the big game with Utah, and the important question arises, do we know our songs? Two of the most important points upon which the university's spirit and enthusiasm are judged are singing and yelling. Our yelling is good; but our singing could have far more volume and enthusiasm.

It is not only to the Freshmen that this appeal is addressed, but also to upper-classmen, for the fact is, strange as it may seem, that there are students who have heard these songs sung for three years and are still mungling the words. Needless to say this spoils the efforts of those who really do know them.

There is a remedy for this condition, namely, the establishment of a traditional song day. The publication of the songs in the Argonaut or on little slips of paper would give everyone an opportunity to learn them, and the establishing of one day a week, Thursday, for instance, on which to practice the particular song for the week would do much towards bettering this condition. If there are no yell leaders present in a class the students themselves will be expected to start the singing. This custom of singing between classes will do much towards helping us kill time, besides having a good effect on us, psychologically speaking.

The University is poor in traditions. We need to establish some customs now, which will later become traditions, and help to fill our sadly neglected coffers. There is no time like the present. With true Idaho spirit let us rally to the cause and make next Thursday a University Song Day.

SOCIETY

The faculty women entertained the faculty men and several friends of the university at their annual Hallowe'en dinner Monday night in the gymnasium. The gymnasium was transformed into an autumn scene with its masses of autumn foliage. A bower of balloons hung down from the ceiling rendering an effect of fairy land. Entertainment was provided during the dinner which was served at tables for four about the hall. Cabaret dancing was enjoyed during the evening.

Saturday evening dinner guests at the Beta house were Mr. and Mrs. McKinley and Mrs. Van Derwerker of Kellogg.

Gamma Phi Beta announces the engagement of Esther Morris and Henry Torsen of Kappa Sigma.

R. R. Groniger, '16, and wife and baby daughter motored down from Spokane last week. They spent an evening as guests of Phi Delta Theta.

Dinner guests of Kappa Alpha Theta during the past week were Professor and Mrs. Gall, Miss McCoy and Miss Sargent, Aileen Drake and Vivian Magnuson.

Eugene Ostrander, Thone Ross, Lynn Nash, and Ted Turner were dinner guests of Beta Pi Wednesday night.

THE BON TON

Dinner guests at Sigma Nu last week were Messrs. Hersey, Marineau, Wallace, Leach Walters, Dale Vohs, Stanley Johnson and Messrs. Qunland, Estes and Karney of the football men who were in Moscow Saturday.

Dinner guests at the Beta Theta Pi house Friday evening were Senator Wm. E. Borah, Ex-Governor McConnell, Pres. A. H. Upham, Proctor Jenkins, Dean Eldridge, H. Wilson, H. Whittier and Editor Schick of the Star-Mirror.

Guests over the week end were Mr. McKinley of Kellogg and Mr. Duncan of Pullman, at the Beta Theta Pi house.

Dorothy Jacobs of Lewiston was a week end guest at the Kappa Alpha Theta house.

Hon. and Mrs. Burton L. French were guests of Phi Delta Theta at dinner Tuesday evening. Mr. and Mrs. French are leaving for Washington, D. C., the latter part of the week.

Dinner guests of Kappa Alpha Theta Sunday were Dorothy Mullaney and Marie Johnson.

The first exchange dinner between Ridenbaugh and Lindley halls was held Tuesday evening. Hallowe'en decorations were suggestive of the season.

Dinner guests of the Ridenbaugh hall girls the past week included the Misses Helen Parsons, Marie Williams, Mabel Parker, Grace Jacobson, Joan Rudisell.

Leona McFall of Gamma Phi Beta has left college on account of ill health and returned to her home in Lewiston last week.

Dinner guests of Kappa Kappa Gamma Wednesday evening were Vivian Lemon, Viola Dissaut, Dorothy Helm.

Kappa Alpha Theta announces the initiation of Editha Barton and Hester McKenzie.

United States Senator William E. Borah, former Governor W. M. McConnell, Dr. A. H. Upham, Brown M. Schick, Herman Wilson, and Harry Whittier were dinner guests at the Beta Theta Pi house, Friday.

Thursday dinner guests of Omega Phi Alpha were the Misses Jewell Coon, Allegra Eckles, Viola Creswell, and Clara Cowgill.

Omega Phi Alpha announces the pledging of Hazel Ormsby from Pocatello, Idaho.

Sigma Alpha Epsilon announces the pledging of Irving B. Terry of Plainsfield, New Jersey.

Fred Cline of Sigma Alpha Epsilon spent the week end in Portland in attendance at a stock judging contest.

Mr. and Mrs. William McKinley, Mrs. Vanderwerker, all of Kellogg, O. A. Fitzgerald, Ray Duncan, of Spokane, and six University of Montana men, in Moscow to attend the Montana-Idaho freshmen football game, were dinner guests at the Beta house, Saturday.

Dinner guests of the Elwetats during the past week were Mr. and Mrs. Over-smith, Mr. and Mrs. H. C. Dale, Professor and Mrs. Mecham, Miss Polson and William Reeder. C. Noonan of Minneapolis and Walter Odell of Great Falls, Mont., were also dinner guests.

Dr. and Mrs. Miller and Mrs. Bird were Wednesday dinner guests of Omega Phi Alpha.

Special lot of new girlish hats on sale Wednesday, Thursday and Friday. The prices are the lowest in years.

TORSEN MILLINERY CO.

Lenore Taylor from Pullman Wash. was a week end guest of Omega Phi Alpha.

Phi Delta Theta House Notes
Phi Delta Theta was host on Wednesday evening to Professor and Mrs. J. J. Gill, and Professor and Mrs. Phillip Meacham.

Dean and Mrs. O. P. Cockerill and daughter Betty were dinner guests of Phi Delta Theta Sunday.

INSPECTION OF HOUSES ARE TO BE CONTINUED

GENERAL CONDITIONS REPORTED ABOVE THOSE OF LAST YEAR.

It is the plan of the Health and Housing Committee to continue the inspections conducted through the past two years with special emphasis on sleeping quarters, living rooms, bath-rooms, neatness, perishable foods, care of supplies, and garbage disposal.

At the last inspection Gamma Phi Beta received the highest score of the sororities, with Crest Hall and Delta Gamma second and third respectively. The Elwetats received the highest score of the fraternities, with Phi Alpha Psi second. In general all conditions at the time of the inspection were greatly improved over last year.

Individual reports will be made to the various groups with suggestions for improvement.

five men, but it will in all probability consist of the same men who entered in Saturday's dual meet, with the possible exception that Gill himself may run, providing a game knee which has been bothering him this fall, eases up.

The runners finished as follows: Williams, Idaho, first; Penwell, Idaho, second; Sprague, W.S.C., third; Leslie, W.S.C., fourth; Hopkins, W.S.C., fifth; Powers, Idaho, sixth; Brady, Idaho, seventh; Scheyer, W.S.C., eighth; Kelly, W.S.C., ninth; Leland, Idaho, tenth.

Ye Canterbury Crier

VOL. I. NO. 4

NOVEMBER 8, 1922

It had bene sayde by the wysest of campus observers, and they shoulde knowe, yea, verily, that one daye during the past week our hero, one Ted Turner, dist emerge from his collegiate domicile wythe a right worried and harrassed looke upon his face. He didst proceede to his offyce, and there reclined, and spent the goodde houres thynking. And fighte harde did he thinke, too, for was it not necessary that he finde a means whereby he coulde turn the affections of his fayrest of the fayre more strongly toward himselfe. As the shadows deepened, he still didst thinke, but, as the evening sun sanke into the waste, an inspiration lyghted up oure heroe's fayce, and a crye of delight sprange from his lypps. Eureka! He hadst found the solution. Rushing madly from his offyce, he myghte have bene observed tearing his waye through the dimly lighted streets of the citye. Full five minutes elapsed, and then he returned over the sayme route that he had taken. Faster and faster became his payce, untill it didst seeme that the lymit of hys powers had been reached, butt styl faster did he hurrye. Fynally, arryving at the entrance of a certayn sorority house, he rushed madly up the steppes, and pushed the bell. The doore swung noiselessly open, and Ted didst rushe in. Fulle thyrty mynutes didst elapse before the heroine appeared onne the scene, but Ted waited patiently, for hadst he notte become accustomed to suche actions. At laste he laydy appeared, and our hero hruste into her handes a parcelle. This didst she open, and didst then give a right joyfulle crye. Our heroe's problemme hadst bene soolved, in suche a worthy manner maye others' problemms be solved—his presente was a box of Canterbury Chocolates, which he didst purchase at the Palace of Sweets.

BUBBLES

Hon. Father:—

Last Saturday are Pep Band snow, which same score one grossly large, kipocakdown for crowd, and rep same same-wise. Band boys very wise, and lit for "Sufiny" south day following.

Same day as above noted hon. rills play hon. S. A. E.'s, in hon., but very rough game of football. S. A. E.'s are snowed under, and crowd same wise.

Also same day boys from W. S. C. comes over, and run race in B. V. D.s with Idaho boys. Very exciting, hon. father and fresh boys hold one more hon. game with some boys from Montana. Your dutiful son think him one football game, but boy next to me say he look like track meet. I don't know.

Hon. six week exams, which show how little your dutiful son has learned, all over, and I study no more for five more weeks. Your boy got three e's, which mean excellent, and tow F's which mean fair. Not so bad, hon. Father. Lots of other boys get same-wise, and all very happy. Man call me into his office and compliment me on grades, and say maybe I better write to my father and tell him Ismoka got bad eyes and have to quit school all some pretty quick.

I must close this letter, and take my laboratory period in course teaching billiards. Which remind me, I must have money to pay lab fee for this.

Your Dutiful Son,

Ismoka Stogie.

Opposites attract opposites, said the tall man as he observed short cake.

Speaking of diplomats, we hand the Buffalo's bloomers to the rep band boys, who left for Boise the day after the show.

House Mother—"I peeked thru the keyhole last night when May was having a date.

House President—"And what did you find out?"

H. M.—"The lights."

Coed—"Why didn't you find out his name when the prof called the roll?"

Coed No. 2—"I tried to, but he answered to four different names."

To the poor fish that asked us the difference between infant and infancy, we'll say that an infant disturbs the peace, while the infancy defends it. Ever hear the one about the difference between a baby and a cow?

Yes, Mable, limburger is a kind of cheese whose odor puts it easily in the first rank.

A Story

Old lady to conductor—"Which end do I get off on.

Conductor—"Both ends stop, madam."

We fooled you with that one, didn't we. You thought the con. was going to say something else.

Noah is again pounding copy for this column, while his friend Dubs is in Boise.

That's all, this time.

"PINK-EYE" VICTIMS SHOULD COOPERATE

Because of a few cases of "pink-eye" that have appeared on the Campus since the opening of school this fall, the committee on health and housing has issued a call for the

got sore, because they immediately took the ball away from Montana on downs. But on the next play Idaho fumbled and the Bruins had the ball on our 20 yard line. Not so nice. And Montana was making a determined effort to put over a touchdown when "Lightning" Davison got a Montana pass stuck under his arm and couldn't jar it loose until he had run 80 yards for Idaho's first touchdown. Giff was going so fast that the crowd thought his interference was going in the opposite direction. Davis missed the try for goal and the score stood 6-0.

Davis kicked off to the Bruin's 10 yard line and their man was downed before he had made much progress in the right direction. Montana was held for downs and kicked. After Idaho had tried their luck they were forced to do the same thing. Then followed an exchange of punts. The Babes were aving some difficulty in hearing their own signals and the Montana boys were kidding them about it. Evidently angered by these puns, the Idaho men started down the field and after a series of slashing end runs, off tackle smashes and a pretty forward pass, Davis to Paine, that gained 25 yards, the found themselves on the Baby Bear's 5 yard line. Idaho was given credit for the first penalty of the game at this time, a fiver for being in too much of a hurry. After playing around for two downs, Davis decided to demonstrate his ability at place kicking but due to a miscalculation, the ball missed the right place by a scant inch or two.

The ball was brought out to the 20 yard line, and the two teams were again turned loose. On the very first down, someone behind the Montana center slipped a cog and the ball bounced into the waiting arms of Paine, who scampered across the line for our second touchdown. Davis's old eye was working better this time and he contributed one more point by his try for goal.

Davis kicked off to the Montana 15 yard line and they returned the ball 10 yards before being downed. They were forced to kick on the third down and Carney sent the ball sailing for 35 yards to Cameron who returned the ball 5 yards. On the second play, "Slippery" Davis slipped around right end with perfect interference and ran 70 yards for Idaho's third marker. He also kicked goal. Idaho kicked off to Montana and after a couple of plays the timers decided to give the boys a rest and the first half ended with Montana in possession of the ball on their own 32 yard line. Score at end of first half: Idaho, 20; Montana, 0.

The second half was just about the same as the first half only there was

more passing. Both teams were playing better football in this half than in the first. Montana seemed unable to make the required distance when they got ahold of the ball so Montana men would take it and demonstrate the are of yardage, either by line plays or by a neat passing game. Paine showed to advantage on the receiving end of the passes and Davis and Cameron doing the passing. The Babes worked the ball down to within striking distance and they had one of their passes intercepted right on their goal line. The third period ended at this time and during the walk down the field our men must have gained a lot of strength, for on the third play of the fourth quarter, Davis took the ball over the line for Idaho's fourth touchdown, and then kicked goal.

After receiving the kickoff the Cubs opened an aerial attack that looked good for about a minute, until Nelson intercepted one of their passes and gained 10 yards on it. Then Cameron and Davis tore through the line for big gains and this was duplicated by Nelson and Davison. Then a neat forward pass brought the Babes, their fifth score, Davis being the thrower and Payne the throwee. Davis failed on the try for goal.

On receiving the kickoff, Montana made a formidable march down the field and they were playing nice ball when they lost the ball on a fumble. The Idaho yearlings opened up with a dazzling aerial attack with a pretty pass to Bucklin which netted 25 yards. This was followed by another one to Payne who crossed the line for another counter. The try for goal failed and the score stood 39-0.

Montana received the kickoff and after getting as far as the middle of the field lost the ball when Nelson intercepted one of their passes. Then followed a pretty 25 yard pass to

Payne. This was followed by another long one to Ted Bucklin, who loped across for the Babes' seventh and last touchdown. Goal was kicked by Davis which made the final score 46-0 in favor of the Idaho freshmen.

The teams were about evenly matched in weight but that was about all, the Idaho men showing to advantage in every department of the game. The Montana men ere good sports though and fought hard until the final whistle sounded the end of a perfect day for the Idaho team.

Coach MacMillan has built up a powerful machine and with another week's practice and should give a good account of themselves in their Armistice Day game with the W. S. C. Fresh.

The whole freshman team played good ball Saturday but the work of Davis, Cameron and Nelson stood out in the backfield while Paine, Holden, Bucklin and Terry made the spectacular plays in the line. The whole team should be congratulated on their good work.

The lineup:
Idaho: Bucklin, Holden, L.E.R., L.T.R., Montana: Cameron, Crowley, Quinlan

YEARLINGS DOWN MONTANA BABES

(Continued from Page One)

ure out just how it was done. Captain Wayne Davis, of the Vandal Babes, won the toss and elected to receive. Montana kicked off to Idaho's 10 yard line and Davis make a short return. On the first two plays Nelson and Cameron made it a first down. Then the babe bruins dug in their claws and held the Idaho men for downs and Davis punted 30 yards. Montana did not get very far on three line plunges and they kicked to Cameron. An attempted criss-cross play lost 1 yard for the Babes and on the next play Davis was thrown for a 10 yard loss on an attempted forward pass. Davis immediately kicked the ball 35 yards well into the Bruin's den. Carney, the speedy little Montana quarterback, knocked off 15 yards toward the Idaho goal line. He came right back and tore off another 5 yards through left tackle.

The Montana boys were playing nice football and it looked as though we were going to see what our boys could do under the strain, but evidently they

What other pen dare you lend to your roommate?

What Other Point Serves 25 Years?

THERE'S a pardonable dislike to lending the ordinary fountain pen, lest the other fellow's way of writing foul the point, or turn it. Not so with the new Parker Duofold. This lacquer-red classic holds its original point regardless. For this is real native Iridium, set in extra thick gold—as smooth as a polished jewel bearing. And we guarantee it for wear and mechanical perfection 25 years!

And when you consider that the student averages four fountain pens a year, you can see that the Duofold at \$7 is the most economical pen you can buy. One Duofold will do all your four years' college work and still be good for your life's career when you graduate.

When first you lay eyes on the black-tipped, lacquer-red Duofold, you'll recognize something handsomer than gold. Its big, balanced barrel and super-smooth point will thrill your hand with "writing urge!" You'll not be surprised that 62 men in 100 picked the Duofold first from a tray of assorted pens.

You'll see many Parker Pens at college this year. Come in and pick out the point that suits your hand—extra fine, fine, medium, coarse or stub. Then take the Duofold on 30 days' trial. Money back if you are not delighted.

A BETTER DRUG STORE

"WORD MONGERS" and "CHATTERING BARBERS"

"Word mongers" and "chattering barbers," Gilbert called those of his predecessors who asserted that a wound made by a magnetized needle was painless, that a magnet will attract silver, that the diamond will draw iron, that a magnet thirsts and dies in the absence of iron, that a magnet, pulverized and taken with sweetened water, will cure headaches and prevent fat.

Before Gilbert died in 1603, he had done much to explain magnetism and electricity through experiment. He found that by hammering iron held in a magnetic meridian it can be magnetized. He discovered that the compass needle is controlled by the earth's magnetism and that one magnet can remagnetize another that has lost its power. He noted the common electrical attraction of rubbed bodies, among them diamonds, as well as glass, crystals, and stones, and was the first to study electricity as a distinct force.

"Not in books, but in things themselves, look for knowledge," he shouted. This man helped to revolutionize methods of thinking—helped to make electricity what it has become. His fellow men were little concerned with him and his experiments. "Will Queen Elizabeth marry—and whom?" they were asking.

Elizabeth's flirtations mean little to us. Gilbert's method means much. It is the method that has made modern electricity what it has become, the method which enabled the Research Laboratories of the General Electric Company to discover new electrical principles now applied in transmitting power for hundreds of miles, in lighting homes electrically, in aiding physicians with the X-rays, in freeing civilization from drudgery.

LARGEST CHAIN DEPARTMENT STORE ORGANIZATION IN THE WORLD

GIVE REASONS WHY THEY LIKE WRITING

Students in Journalism Have Varied Objectives Ahead For News Training.

Three of the students who are taking the course in elementary journalism plan to make newspaper work their career, they discovered recently, when the members of the class interviewed one another on "why are you taking English 35?"

Two engineering students expect to use the story-writing knack to put their engineering information before the world, and a pre-med student expects similarly to deal interestingly with technical matter concerning which he has to write. One girl expects to be publicity woman for her own millinery establishment—unless she should happen to find herself to be so good a newspaper woman that she would want to make journalism her game.

"Why are you taking English 35?" "The study of journalism is an intensive and interesting one," was one senior girl's reply. "I so arranged my courses as to have a full year to devote to this study. Learning the newspaper from the newspaper standpoint is vital to one intending to specialize in that work. One year's work on any subject will be a convincing test of a student's ability. If I prove myself capable of doing newspaper work I will follow that profession after leaving school."

Has Practical Aims
"Journalism is the most interesting subject I have ever taken," replied a freshman girl. "It seems to come naturally to me and is very fascinating. I hope to put my journalistic knowledge into practical use as soon as possible and it really is my chief aim to work on the staff of the Spokesman-Review. Of course I realize that this year's work will serve only in an introductory way and that I cannot expect too many returns from it, but I am confident that it will give me a firm basis on which to work."

The reason one of the freshmen boys is studying journalism is that he expects to follow the newspaper profession when he completes his course at the university. He has had considerable experience in the journalistic line in high school, having been the editor of the high school paper and having served on the staff of the school annual. Both undertakings were highly successful.

Aid to Scientific Work
"I intend to use the technical knowledge of a course in elementary journalism as an aid in scientific research," replied a pre-med student who intends to enter the field of scientific research in biology. With the aid of the course in journalism he hopes to become skilled in the handling of material to give it interest and attraction to the average reader. "Incidentally," he continued, "I'm becoming most interested in the technique and workmanship of the modern newspaper."

"Why am I taking journalism," echoed a senior engineer. "First, when I made out my course for this semester my dean said I ought to take a few more credits even if I did not need them to graduate. Second, in looking for a suitable subject I thought journalism might help me after I got out into the business world. I may have to make some written reports and elementary journalism seemed to me to be a course that would help me in this matter."

Looks Toward Advertising
"The newspaper has come to play an essential part in development of any business or trade," replied a freshman girl who is taking home economics. "I am learning the methods of newspaper writing that I may be better able to place before the public information concerning whatever business I may take up. I may choose to open a millinery shop. The first thing I will need to do in order to make that shop a success is to get the information before the public. Then, too, if I should develop enough ability I would like to do actual reporting on a newspaper."

Mr. Fish, of Pullman, visited Phi Alpha Psi Sunday.

ises to be a thriller. Advance dope finds the two teams about evenly matched.

The Cougars have a little the advantage on comparative scores in the early part of the season, but Idaho in her last game beat Montana frosh 5 points worse than did W. S. C.

Idaho has developed an aerial attack and an open style of play that assures a spectacular game from the onlookers' standpoint. A good sized representation from here is expected to attend the game.

NON-FRATERNITY MEN DISCUSS BUSINESS

Vote Appreciation to Non-Sorority Women for Cooperation.

Financial matter and plans for future meetings occupied most of the time at the meeting of the non-fraternity men at the university hut Monday evening. The gathering was fairly well attended and all present engaged in a spirited discussion.

A motion that the non-sorority women and the patronesses of the Halloween dance be extended a vote of appreciation by the secretary was made by Robert L. Holbrook and carried unanimously. The vote of gratitude was taken especially in behalf of the non-sorority women whom the men felt were largely responsible for the success of the dance which entertained about 300 students.

An expression of appreciation was also voted to the new orchestra which furnished the music for the dance. To motion included provision for a small token of appreciation in the form of the orchestra.

Reports from the heads of morale and literary departments were heard and approved. Arrangements were also begun for a meeting on Monday evening, November 20, in honor of the various non-fraternity men who have taken part in some prominent extra-curriculum activity.

The meeting was opened by the singing of several popular Idaho songs and closed with delicious refreshments of cocoa and wafers.

ENGINEERS HEAR ENONOMICS TALK

Professor H. C. Dale gave an interesting talk to the associated engineers of the university last Wednesday on "The Business Cycle."

Professor Dale explained to the technical students the reasons back of the cycle in which the economic world seems to move, and the ways in which this could be applied to the realm of engineering.

Light refreshments followed the business session in the university hut.

Dr. F. M. Angell will be the next speaker on the associated engineers' program, one week from today, in room 217. Dr. Angell will talk on one of the important subjects relative to engineering.

BIG BOYS FURNISH GRID SIDELIGHTS

It was worth standing out in the cold and shivering Saturday afternoon just to see two of the big boys tangle in the inter-mural gridiron contest. Discounting personal enmity, we wondered just why "Stuff" seemed to take such delight in pomelling "John" around, and why "John" seemed to take equal delight in laying the burly "Stuff" as low as humanly possible.

Lucky both sides had both men, otherwise we know where one hole would have always been open. "Stuff," you ought to be ashamed of yourself for picking on a freshman.

HOUSEMOTHERS ARE GIVEN SORORITY TEAS

The past week has been the occasion for two large teas. The Gamma Phi Betas entertained at tea Sunday afternoon in compliment to their housemother, Mrs. Carl Stoeck, presiding at the tea tables were Mrs. Truite, Mrs. Little, Miss Jensen, Miss Thompson and Miss Angell.

Mrs. Nathan Clark, the house mother at the Delta Gamma house, was honored with a tea given by the girls of Nu chapter of Delta Gamma at their home Friday afternoon. Yellow chrysanthemums were used for the floral decorations. Mrs. Stanton, Mrs. Whittier, Mrs. Williamson, Mrs. Schmitz, Miss Lean and Mrs. Eldridge presided at the tea table. About a hundred and fifty guests called during the afternoon.

COUNCIL ELECTS NEW MEMBERS

The new woman's council elected under the revised constitution of the Woman's League which provides for election of members within the houses is as follows:

Elizabeth McInnis, Delta Gamma.
Mabel Paterka, Kappa Alpha Theta.
Gussie Barnhardt, Gamma Phi Beta.

Margaret Springer, Omega Phi Alpha.
Myra Armbruster, Kappa Kappa Gamma.

Elizabeth Sodelius, Alpha Delta.
Unita Lipps, Ridenbaugh hall.
Bess Bernhardt, Ridenbaugh hall.
Clara Jones, Ex-officio.

The woman's council is the governing body of the woman's league and serves to enforce the laws passed by the league.

THREE PLAYS GIVEN BY ENGLISH CLASS

Three One-Act Productions Presented at Deary Friday Night.

The plays "Rosebud," "The Princess and the Woodcutter," and "The Neighbors," were presented by English 37, the play production class, at Deary, Idaho, Friday evening. There were several committees appointed to see that everything was carried out properly.

Roles in "Rosebud," a playlet by J. M. Barre, were taken by Mrs. Schoonover, Mrs. Edward Mason, and Philip Buck.

"The Princess and the Woodcutter" was presented with the following people in parts: Kenneth M. Hunter, Glen Hyde, Ted Turner, Maxwell Sholes, Louise Yeaman, Mary McCallum and Eugene Springer.

"The Neighbors" was the last play to be given. The parts were taken by Bethel Collins, Rhoda Felton, Pauline Pence, Verle Bartlett, Pearl Stalker, Helen Madden, Doy McKinley and Rex Kimmell.

The stage managers were Virginia McRae, and Rose Donovan. The music was provided by Goldie Pierce. All three plays will be presented in a short time at the University of Idaho, possibly with different casts.

LOCK-STEP SHIFT PUZZLING CRITICS

When Centre college played Harvard a week ago a new style of attack was used by the Praying Colonels. The affair was a brand new shift, like a lock step, and Centre made 56 yards with this play without a let up in the second half. Briefly described the play is this; First, the colonels lined up in the regular manner. Then all seven linemen straightened up, right-faced and marched into lock-step to the right. When the left end had moved for enough to be even with the ball, he went down and held it for a moment. Then the Danville boys marched right back again. They lock-stepped to the line until the right end was opposite the ball.

The other linemen then formed a scrimmage line about a foot behind the ball, with the right end bending sideways over the pigskin. The backs, who had marched back and forth in perfect step, assumed either a tandem or box formation, and the end, passing under his arm instead of between his legs, shot the ball rearward to the half back on the nearest rear corner of the box.

With six linemen and three interfering backs ahead of him, the carrier was shielded by a wall of humanity. And it was this play used without a single exception in the second period, which yielded fifty-two yards in one single drive down the field.

Farrar; O. C. Jenkins; A. C. Hanson; and mining students from W. S. C. and the University of Idaho.

METHODISTS FORM ORGANIZATION

Methodist students at the University of Idaho met at the University Hut last Wednesday evening and laid plans for the perfecting of a Methodist group on the campus. A social time was also enjoyed.

The meeting began with a talk by Professor Eugene Taylor who outlined in a broad way what should be embodied in such an organization as was contemplated. He placed emphasis on the value such a club should have on the breaking up of provincial tendencies and the creation of a broader outlook towards the things that concern the individuals of the group.

Upon a report of the committee appointed to draw up plans and purposes of the organization, headed by Miss Herma Albertson the members present adopted the principles. As soon as official recognition has been gained, the group plans to conduct a live religious-social program on the campus.

PUNTS and PASSES

By Slim Pickens

We are not going to tell you who we are picking for quarterback on our all-American team, except that he goes to college in Danville, Ky., and his name begins with C and ends with N.

Chub Hancock says that he reads a lot about tires, but what interests him most is how many miles he can get out of a pair of sox.

Up until Saturday when defeated by W. and J. at the Polo Grounds, New York, Lafayette University of Pennsylvania, had won 17 straight games. She lost this game by the close score of 14 to 13.

Famous Homes
— James.
— Made.
— Town.
— Brew.

Here's an intersectional game that would be worth going miles to see: the University of Virgin Isles and the University of the Philippines.

Wonder what was the matter with W. S. C.?

Sixty-one points.

Or should one ask what is the matter with California?

Our own little frosh are going good. Swamping the Montana milkings as they did, is no mean thing. There will be some good material for the varsity next year out of the squad that are trying for numerals.

The game at Boise this year won't be a walkaway. Utah is slated for the Rocky Mountain conference championship and has developed a strong team during the past month. Slow in getting started, they are rounding out into a well oiled machine.

The rest that Idaho gets these two weeks will materially strengthen her chances with the Utahans. The men are in fit condition and will be ready when the whistle blows to sweep the Utahans off their feet.

Pity the poor boys who had to run Saturday. This weather is not made for Bee Wee Dees.

Remember the good old days when you had the choice of Pilsner or Wurzburger and the game was called pool and not pocket billiards?

Penn State has lost the use of Schuster from her lineup. Schuster is one of the best tackles in the east and a tower of strength on the Penn State lineup. Schuster played two years ago for the Nittany Lions but changed his school last year, going to Dayton University on account of conflict in studies at Penn State. While at Dayton he played part of one game, being informed by the authorities there that it would not interfere with his eligibility at Penn when returned this fall. It was learned that he played the half game for Dayton and so will not play for Penn State again. This made a change in lineup necessary for the Nittany Lions when they met the Navy last Friday and critics think caused the defeat of the Up Staters.

Gonzaga has a strong team, as proved by her ability to defeat or hold to low scores opposing teams. She will be a real contender for football honors in the Northwest each succeeding year. Idaho plays Gonzaga at Spokane November 25th, a week after her long trip to Southern California.

Our boys should win the cross country meet at Eugene next Saturday. They have trained consistently from the beginning of the season and no doubt will bring home the honors.

Bids for the new men's dormitory have been called for, and actual work will be begun as soon as possible. The new dorm, which will accommodate 100 men, is located at a central position on the campus. It is planned to have all freshmen live in the dorm beginning next year.

and Gold from all the business houses, meeting the Special with parades, and making all manner of effort to welcome and heartily entertain the visitors. Boise's tribute to our university is obvious, and we are answering it in Idaho's true traditional spirit.

"The students have backed the Boise Special project up splendidly," declared "Buff" Blodgett, chairman of the student committee in charge. Up to the time of going to press, approximately 75 students had signified their intentions of making the trip, which, though not an unusually large number, nevertheless is enough to make the train a certainty.

Free Tickets Feature.

The feature of the day seems to be the popularity of campus raffles. The phrase that "every one is doing it" could be very appropriately applied here for there is hardly an organization on the campus which has not enjoyed the excitement of at least one raffle. Probably fifteen tickets have been disposed of already in this way.

The business men of Moscow,

through the Commercial Club and their private businesses, have been untiring in their efforts to support the project, while the whole town in general has given it a big amount of publicity. No less than eight tickets have been raffled off at the Elks Club.

It is a big relief as well as gratification to Idaho students to know that the trip will now be a reality, but it also is time to begin laying the plans which will make the possibility of a next year's special train a certainty.

FORUM TAKES UP STUDENT TOPICS

Proposal To Incorporate Class Dues in A. S. U. I. Fees Receives Attention Of All.

Spirited interest marked the meeting of the open forum in room 21 last Thursday evening in the first regular meeting of the present school year. Several old and new members were present and suggestions for work for the present collegiate year were numerous and readily forthcoming.

The matter of incorporating class dues with the regular student fee assessment at the beginning of each semester for the purpose of insuring a general collection of dues and a more even distribution of the financial burden of the various classes through the four years of college life was broached by William C. Carpenter.

Investigate Amendment.
On motion by Walter Greathouse the president was empowered to appoint a committee of three to investigate the matter with the view to the passage of the necessary A.S.U.I. amendment. The committee was instructed to present the information before a general meeting of the forum in the near future before submitting the amendment.

The matter of conducting a series of Idaho pride lectures, during the year was also discussed and favorable action taken by the body.

Further Skating Pond.
It was further decided that the committee appointed last year to investigate the possibilities of a skating pond for the use of university students should be continued, and that everything possible be done towards the culmination of such plans.

Other matters discussed and acted on apportionally were the question of erecting a directory board in the entrance of the administration building or in some other conspicuous and the investigation of other matters of concern to the general student body.

It was decided that the forum should meet once every two weeks beginning Thursday evening, Nov. 9. The hours for the meeting were set from 7 to 8 p.m. A temporary program committee was appointed to arrange for the meetings until some definite arrangement could be made.

PEP BAND LEAVES FOR SOUTH IDAHO

The University of Idaho Pep Band left Sunday for southern Idaho on their advance advertising trip in the interests of the annual Armistice day football game at Boise, when the Idaho Vandals will tangle for the third consecutive time with the University of Utah gridiron warriors.

who have fallen once to the Idaho onslaught, and who in turn have administered a defeat to the Vandals.

The Pep Band will go direct from Moscow to Twin Falls where they will begin their advertising programme, working their way up to Boise during the week. Pep rallies in the high schools and in hotels will be given, and dances in the evening will provide a means of paying expenses for the trip.

The men composing the band of 14 pieces and their respective instruments are Lynn Hersey, Lewiston, leader and cornetist; Eugene Ostrander, Twin Falls, manager and bass drummer; Doy McKinley, Kellogg, and Vernon Walters, Twin Falls, cornets; Uhla Powell, Boise, and Paul Atwood, Lewiston, clarinets; Fred Marlineau, Coeur d'Alene, alto; Bob Eldridge, Moscow, baritone; Francis Sheneberger, Twin Falls, bass; Elmer Wyland, Twin Falls, snare drums; Al Marineau, Coeur d'Alene, Hod Taylor, Coeur d'Alene, and S. Moe, Kellogg, trombones. The orchestra consists of Hersey, Walters, McKinley, Wyland, Powell, Atwood, Sheneberger, and A. Marineau, with Eric Lettbe, Coeur d'Alene, at the piano.

SENIORS MUST SELL THEIR OWN TICKETS

Will Prorate Tickets Among Members to be Disposed of At All Costs

Members of the senior class will be given tickets prorata to sell for the senior class musical comedy to be given November 24, and are expected to see that their share of the tickets are disposed of, and not returned.

Such was the disposition of the class at a senior meeting held Tuesday evening in the university hut. The action was taken to place upon each member of the class part of the responsibility of raising the carry-over deficit left by the 1923 Gem of the Mountains.

Kenneth Anderton will have charge of the tickets, and each student will be given his allotment Tuesday, November 14. Rex Kimmell heads the committee in charge of the production of the musical comedy.

FJIS SLAMP ON TO FOOTBALL LAURELS

S. A. E.'s Fall Before Attack of Husky Phi Gam Eleven.

The Phi Gamma Delta fraternity football players Saturday afternoon laid definite claim to the intramural championship in that sport when they defeated the fast, hard fighting Sigma Alpha Epsilon eleven, 14 to 6 on McLean field.

Luck played an important part in the game, which was one in which two practically even teams were matched for the finals of the campus elimination contest. Probably the winning touchdown for the Fijis came when Hudelson, in the third quarter, got away to a neat 22 yard run, crossing the opposing goal line.

In Good Shape.
Both teams appeared to be in good physical condition, and amazed the spectators by emerging from the game without an injury. McKee, Disney, and Hudelson were individual stars of the game, with McKee showing particular ability in running the Sig Alph team from the quarterback position. Hudelson was clever both at in their own territory and scampered 30 yards for a touchdown, which failed to tie the score when McKee missed the trial for point. The winners scored in the first and third periods.

Considerable interest was manifested in the game, and the odds of the spectators favored the winning eleven. The game was played as a plunging and at going around the end on open field plays.

The only score for the S.A.E. grid-ders came in the second frame, when Bossinger scooped up a Fijii fumble preliminary to the Montana-Idaho freshmen game. Dusty Kline, Varsity linesman, acted in the capacity of referee; Nellie Ryan, umpire; and Naterlin, head linesman.

BOISE SPECIAL IS ASSEMBLY THEME

Two-Bit Dance Fails to Get The Support of Students.

Major interest in the A. S. U. I. assembly Wednesday morning centered around the plans for the special train to the Armistice day game at Boise between the University of Idaho and the University of Utah. After discussion an unfavorable vote was cast regarding the 25-cent dance.

E. A. Klippel, traveling passenger agent for the O. W. R. & N., gave a brief talk on the special. He told of the accommodations that had been arranged and the general success with which the venture was meeting among the townspeople. He poked highly of the value of a large attendance would have for the university and urged all who could to attend.

Howard Blodgett, chairman of the A. S. U. I. committee appointed to work in conjunction with Mr. Klippel, corroborated the statements made by Mr. Klippel and reported on the success of the committee in interesting students on the trip.

After considerable discussion concerning the advisability of continuing in effect of the 25-cent limit on college dances, it was decided to disfavor such a resolution on the ground that the admittance was so small that it worked an undue hardship and accomplished no especial purpose.

WIN 75 RIBBONS LIVESTOCK SHOW

University Herds Take Six Championships and 27 First places at Spokane Stock Show.

Seventy-five ribbons, ranging from championships to fourth place in a few instances, were received by the college of agriculture for the livestock recently displayed at the Royal Livestock show, at Spokane. There prizes were taken in competition with the largest breeders of the northwest, and herds from several colleges. Six championships were taken by Idaho, and 27 first places, in sheep, beef and dairy cattle.

The best showing was made with a herd of four Hereford cattle, all less than one year old. By these four animals three first ribbons were taken. These were for junior bull calf, senior heifer calf and the best calf herd.

Idaho Steers Win
In the fat steer class one championship, nine firsts, two seconds, and two thirds were taken by the Idaho herd. Idaho sheep also went well at the show. Rambouillet sheep took two championships, nine firsts, and six seconds; Hampshires one first, three seconds and three thirds; and Lincolns two championships and two firsts. Idaho took the championship for a pen of wethers, and a first for wether lambs.

Idaho's winnings in dairy cattle were principally first. A two-year old Jersey heifer took first from a large class, and a first was given to a three-year-old Holstein cow of the herd.

All stock was shipped to Portland to be entered in the Pacific International Livestock show, against the same stock with which it competed in Spokane, and in addition large herds from Oregon and California.

FEDERATION WOMEN'S CLUB HOLD MEETINGS

Miss Polly Thomas, who attended the convention of the State Federation of Women's Clubs held at Burley a few weeks ago, reports that it was the largest convention that has ever been held, some forty clubs being represented.

The main purpose of the convention was to bring the girls of the state in closer touch with the women of the state. Among the problems discussed was that of raising money to take care of the Indian interest over the state, such as hospitals and schools. Each club is to raise its quota of money.

The federations has a scholarship fund of \$10,000. At the last meeting an endowment fund was started to pay the expense of the officers of the federation who are sent out to inquire after interests of the organization throughout the state.

The women of the club are especially anxious that the college girls cooperate with them because they cannot accomplish much in social service while in college, yet they can be made to feel and appreciate the great need of educated women to go out and do this work.

Oregon Students Pledge of Loyalty to Their State.

University of Oregon, Eugene, Nov. (P.I.P.A.)—Two thousand students at the University of Oregon took the pledge of loyalty to the state October 26, at Eugene. J. A. Churchill, state superintendent of public instruction, gave the oath.

The ceremony started twelve years ago and is an annual event.

DEAN ANGELL TO CONFERENCE MEET

Dr. F. M. Angell, dean of the college of letters and science of the University, has been elected by the faculty as the University representative in the Pacific Coast and North-west intercollegiate conferences for the coming year, according to an announcement from the administration.

Dr. Angell has been for a number of years the Idaho representative in the North-west conference, and has served in the capacity of President for a number of successive terms. Dr. Angell has been an enthusiastic athletic fan, and is particularly interested in seeing Idaho come to the fore in Pacific Coast circles.
