

# TRACK PROSPECTS FAR FROM BRIGHT

### Vandals Likely to Make Poor Showing in Coast Conference Meets Unless More Material is Available; Captain Guy Penwell Only Veteran of Last Year's Team.

## SEATTLE RELAY APRIL 25TH

### Casebolt and Powers Show up in Dash Events; More Field Men Wanted

With the season close at hand and training already well under way, Idaho track prospects are far from bright, and the Vandals are slated to make a poor showing in Pacific Coast conference meets this spring unless new and promising material is discovered soon, according to all indications.

Captain Guy Penwell, miler, is the only man of last year's varsity squad who has appeared in a suit thus far this year. Williams and Crowe, who have both won cross-country letters, are expected to strengthen the Vandal team in the distances, however. Brady, who has turned out for distances during the past two seasons, and narrowly missed making a letter last year, will also be in the running for the mile and two mile.

### Weak in Weights.

In the weights Idaho is most pitifully weak. Rowe, the most promising prospect in weight events, has lately been declared ineligible for the coming season. This leaves Al Fox and Quinn, who took first and second in the intra-mural meets, as the only possible prospects in this line.

In the sprints Casebolt, and Powers of last year's freshman team, are the only aspirants in view. They both show good prospects, but as yet have made no conference winning time. However, with coaching, and experience they may be expected to win numerous places in the season's meets.

Sowder is a promising half miler, the only one who thus far this season has showed himself to be of varsity calibre. His time during past seasons has never been under two minutes and three seconds for the distance, but he may be expected to cut this down during the coming season. Guerin is another promising half miler.

### No Pole Vaulters.

Mellick is out for the javelin. Cobley has reported for the hurdles and the high jump. Thus far there has been no opportunity to try out material for the pole vault, so it cannot be ascertained what the prospects are in this line.

Such are the Idaho track prospects for the season of 1923. Unless more material turns out prospects are far from rosy.

The intra-mural outdoor track meet will take place the second week in April, so far as can be learned at present. Results of this meet will be viewed with interest by the ath-

(Continued on page two.)

## HIKING MORE POPULAR ON UNIVERSITY HILLS

Better roads mean better hiking and better hiking means better health, according to the Idaho co-eds who are out for hiking as a major or minor girls' sport. Several trips have already been made to Pullman. Morning and afternoon hikes will continue to be scheduled. As soon as the roads dry up the girls will begin cooking their breakfasts in the hills as was done last year.

"Hiking is an ideal way to have a good time and the girls who don't hike should begin now," is the statement to all girls interested in the activity from Vera Luse, manager of the club.

Miss Lionel Hyde, '23, is now co-ed and part owner of the Caldwell Tribune at Caldwell.

## HONOR FRATERNITIES TAKE OVER ASSEMBLY

### SCHOLASTIC AND PROFESSIONAL GROUPS ANNOUNCE MEMBERS

### Idaho Strong in Societies Demanding Scholarship, Activity, and Leadership as Prerequisites.

Fourteen honorary societies represented on the University of Idaho campus will announce the names of their new members in the assembly to be held Wednesday. President Upham will preside at the meeting and representatives from each society will give brief resumes of their purposes and membership as well as announcing new members.

All members of these honorary fraternities are expected to meet in room 108 in the administration building at 9:45 Wednesday morning, and march into the assembly in a body. Idaho is very strong in honorary societies, and has just gained a charter from the National Mortar Board.

### Idaho's Honor Societies.

Alpha Zeta is a national honorary agricultural fraternity with chapters in the leading agricultural colleges in the United States. Seniors and juniors and sophomores in the second semester, whose scholarship places them in the upper two fifths of their classes, are eligible for election.

Sigma Xi is a national honorary scientific fraternity, whose object is to encourage original investigation in science, pure and applied, by meeting for the discussion of scientific subjects; by the publication of such scientific matter as may be desirable; by establishing fraternal relations among investigators in the scientific centers; and by granting the privilege of membership to such students as have, during their college course, given special promise of future achievement.

### Professional Fraternities.

Xi Sigma Pi is a national forestry fraternity which seeks to obtain and to maintain a high standard of scholarship in forestry education, to work for the upbuilding of the profession of forestry, and to promote fraternal relations among workers in forest activities.

Phi Upsilon is a national honorary home economics sorority. Members are elected from among seniors, juniors, and second semester sophomores.

(Continued on page three.)

## UNIVERSITY PRESIDENT GIVES ADDRESS AT TROY

President A. H. Upham was the principal speaker at the recent formal dedication of the new Troy high school building. The University of Idaho president discussed the cost and importance of maintaining good schools and said that well trained young men and women are the best asset of the state.

A feature of the program was the burning of a note which had been signed by Troy business men and which had enabled the school board to equip the new building.

(Continued on page two.)

## PAGEANT WORK STARTS

### Definite Organization Plans of General Executive Committee Well Under Way.

For several weeks the general executive committee of the Idaho Pageant has been at work, and not only have definite organization plans been drawn up, but work has actually started. Pageantry, being the symbolic portrayal of the life and progress of a people, requires the combined efforts of that people or of their descendants. Led by President Upham, the students of the university, which was made possible by that progress, are to dramatize those stirring incidents which lend romance to the series of dates which are usually considered as history.

Several students at John Hopkins school of medicine have a novel way of paying for their tuition. They are selling their blood for transfusion purposes at \$70 a transfusion. It's an easy way to make money providing that one can qualify for the transfusion. The subject must be in perfect health before he is eligible.

## STAGE ALL SET FOR PRODUCTION OF "IF"

### TRIBUTE PAID TO DRAMATICS OF UNIVERSITY.

### Scenery, Acting and Gorgeous Effects Combine to Make Play Thursday Worthwhile.

On Thursday night in the University auditorium Lord Dunsany's "If" will be presented. Only New York and London audiences have seen it, and it is no small tribute to Idaho dramatics that the Varsity Players are allowed to produce it at this time. Audiences both here and in Spokane are assured of a rare treat.

The cast follows:  
John Beal ..... Abe Goff  
Mary Beal ..... Marie Gauer  
Liza ..... Mary Kelly  
Ali ..... Rex Kimmel  
Archie Beal ..... Fred Taylor  
Daoud ..... Maxwell Sholes  
Huzzein ..... Rex Kimmel  
Hafiz el Alcolai ..... Jimmie Chapman  
Thoothoo Baba ..... Mary McCallum  
Bazzolol ..... Pauline Pence  
Omar ..... Al Marineau  
Miralda Clement ..... Pearl Stalker  
Bert ..... Maxwell Sholes  
Bill ..... Jimmie Chapman  
Man in the corner ..... Al Marineau  
Sheik of Bishareens ..... Rex Kimmel  
Dancer ..... Grace Morgan  
Singers, Bernadine Adair and J. Stanton McLaughlin.  
Guests, Gladys Tuell and Kenneth Anderson.

Members of the producing staff are: Rose Donovan, business manager; Pete Drus, scenery; Virginia McRae, costumes; Doy McKinley, Clayton Hoover, Ralph Hasbrouck, stage technicians; Walter Garrett, electrician.

The production staff has spent more time and money in preparing for "If" than has ever before been spent on an Idaho production, and the result of that effort will be seen Thursday night. To take care of ten scenes quickly and make possible the varied lighting and scenery combinations clever method has been devised by some of the Varsity Players themselves. The blending of colors and scenes is so perfect that the effect is as good in the back of the auditorium as it is close to the stage. Scenery, acting, and gorgeous effects are the students' for asking next Thursday. Student tickets are on sale by members of the English 38 class for fifty cents.

## FORMER IDAHO STUDENT GETS MEDICAL DEGREE

Howard L. "Happy" Hatfield of Moscow, a University of Idaho '19 graduate, graduated from the Rush Medical college at Chicago last Friday, March 23, according to word received Monday. The young doctor is now on his way to Los Angeles where he will enter the Los Angeles hospital as an interne.

He is a member of the Beta Theta Pi fraternity and Nu Sigma Nu, national honorary professional organization.

## Frosh Candidates Submit Managerial Applications

### ed one gold "I" one-half inch in height and one eighth inch in width, having blocks one-fourth of an inch in width, and having the words "Assistant Athletic Manager" and the year of the graduation of the recipient engraved thereon. In the event of a vacancy in the position of assistant manager, appointment shall be made by the athletic board from the freshman class.

The appointment of the freshman assistant manager will be made after the spring vacation by the athletic board. The applicants for the job have been advised to state in their written applications what experience and what qualifications they possess.

The assistant managers are to assist the graduate manager in the sale of tickets at athletic contests, to help look after athletic equipment, and to generally assist in the work of the athletic department.

## SPRING PRACTICE IN WARMER CLIME

### Easter Vacation Will Find Idaho's Baseball Candidates in Lewiston for Week of Intensive Work—Coach MacMillan to Get Men in Shape for 22 Game Season

## STATE BOARD OF EDUCATION MEETS HERE WEDNESDAY

There will be a meeting of the state board of education in the president's office Wednesday. All members of the board, with the exception of I. E. Rockwell of Bellevue, will be present. The erection of dormitories at the university and the Lewiston State Normal school, action upon the university budget for the coming college year, and action in reference to the new science building are matters expected to come before the board.

Dr. E. A. Bryan, commissioner of education, will attend. Mrs. J. G. H. Graveley of Boise, is president of the board and Stanley Easton, Kellogg, is secretary.

## "GO-TO-CHURCH" PLAN PROVES BIG SUCCESS

### PALM SUNDAY SERVICES ATTENDED BY MANY.

### University Students Respond to Special Programs Arranged by Moscow Ministers.

Palm Sunday, designated by the Moscow Ministerial association as "Go-to-Church Sunday" for University of Idaho students, members of the faculty, and Moscow high school students, was featured by the usually large number of students from the university in attendance at both the morning and evening services of the Moscow churches. The success of the "Go-to-Church Sunday" assures the designation of Palm Sunday as a special day of service for university students.

Special music by the regular choir and the Wesleyan club was featured at the morning and evening services of the Methodist church. At the evening service Prof. J. L. Rentfro of the university spoke on "Glimpses of Life at Its Best."

### The Plan of Religion.

The Rev. R. L. Dunn spoke at both the morning and evening services of the Christian church upon "The Place of Religion in Modern Education." A five-piece orchestra furnished the music. The First Lutheran church had special services at which there was an extremely large attendance of young people. The Rev. A. Andre spoke on "Serving the Savior."

The Rev. Wayne S. Enoddy of the (Continued on page three)

## FIGHT FOR LEADERSHIP

### Sophomore and Freshman Basketball Players to Decide Championship Sometime this Week.

Idaho's girls' inter-class basketball championship will be decided sometime this week when the freshman and sophomore teams meet on the gymnasium floor.

Both teams have gone through the inter-class series undefeated. When they met to contest the title the result was a 12 to 12 tie. Both play a superior class of basketball. From all reports regarding the past games, neither team has ever been equalled in the history of women's athletics at Idaho.

Even the most calloused male spectators were moved to applaud the work of these two aggregations during the season this year. It has even been admitted on good authority that several of the basketeers performed in a manner that would be a man credit.

The game will be closely contested, beyond a doubt, and a large crowd is expected to be in attendance when the opening whistle blows.

## TRAINING CAMP BIG HELP

### Late Spring Handicap to be Overcome by Workouts in Sunnier Weather

Next week, with the coming of spring vacation, the Idaho baseball men will find themselves working out in the sunnier climes of Lewiston, preparing for diamond work for the season which is close at hand.

The late spring has been a handicap this year, and it will be necessary to do intensive work at the spring training camp in order to get the outfielders in shape for the early games. So far this year the squad has not been able to get outside for batting practice, and the fielders are somewhat rustier than is usual at this date as a result.

### Pitchers Work Out.

The battery men have been working out in Lewis court every afternoon for weeks past, but this is not wholly satisfactory. The indoor light is by no means good and the weather has been far too chilly for the proper limbering up of pitching arms.

It is thought that a week's work in the warmer and more even climate in the vicinity of Lewiston will do more toward improving the condition of the team than would several week's turnout on the local diamond, provided regular turnouts here were practical from a weather standpoint.

The State College of Washington, learning of the Vandal plans for spring training, and not to be outdone by the Silver and Gold, has also planned a week's outing for her baseball men. The Cougar aspirants will also journey to Lewiston, and will turn out there regularly during the Idaho team's stay.

### Warmer Climate Necessary.

While neither Idaho nor W.S.C. have ever before conducted spring training camps for baseball men, it has been apparent, considering the erratic weather conditions existing in the Palouse country during the past four or five years, that some such practice would have to be adopted if the two colleges were to compete on equal terms with the other teams of the Pacific Coast conference. The training camps this spring are an outgrowth of prevailing spring training conditions and promise to become permanent institutions if successful this year.

Lewiston business men are evidencing considerable interest in the idea, and word has been received that everything possible will be done to make the teams welcome and comfortable during their stay in the south.

## COACH MATHEWS LEAVES ON SOUTH IDAHO TRIP

R. L. Mathews, head of the athletic department and football coach, left Tuesday morning for Boise and southern Idaho. Coach Mathews will attend the meeting of the Idaho state athletic commission, of which he is a member, at Boise on Wednesday and before returning to Moscow he will visit the high schools of Boise, Pocatello, Caldwell, Nampa, Weiser, and possibly Idaho Falls.

Coach Mathews has been recently notified of his appointment to the state athletic commission by Governor Moore. Other members of the commission, reappointed by Governor Moore, are: T. J. Sherlock of Boise, and T. W. Rickard of Pocatello. The meeting at Boise will be the organization meeting of the commission for the coming biennium.

## The Big Job

Many things must be done between now and June; but none of them so directly concern the whole university as the Idaho Pageant. The university has pledged itself to show to our commencement visitors and to ourselves that we are citizens of a great state. Such a sense of pride in our past as the Pageant will give is the first step toward that spiritual union which we need to fuse Idaho into one big community. We at the university are developing among the future leaders of the state acquaintance, good will, friendship. It is fitting, then, that here at the university we should present the first great all-state pageant, a pageant picturing any symbolizing what we have been, what we are, and what we may be.

What can we do to help? Every one—teacher and student—must stand ready to give any service demanded by the general committee or by any of its sub-committees. The president, who is the head of the general committee, and those who represent the faculty and the students on the committee are asking for volunteers. This is a matter of patriotic duty, duty to the university, and duty to the Idaho which gives us the university. Let's do the big job of the year and do it right!

## Track Men Needed

Idaho's track prospects are far from alluring. There must be more material under cover on the Idaho campus. There must be more track candidates. The freshmen are looked upon as the builders of future Idaho track successes and more freshmen must turn out.

Captain Guy Penwell is a splendid example of the man who tried and kept trying until he made his track letter and now he is captain of a major Idaho athletic activity. Penwell went through the most discouraging fire of clover chatter when he first went out, but he stayed out and kept trying and now the Idaho captain is a capable miler. His record is worthy of emulation.

## A Freshman Wanted

The provision of the constitution in reference to undergraduate athletic managers provides a real opportunity for an Idaho freshman. The athletic board will pick the best man, the man best qualified for the position and the position is well worth going after. The athletic board wants all the applications possible.

The man selected will be honored by being the first man named by the athletic board for the job. The assistant undergraduate managership of athletics is highly important. It is a position in which a man may be of real service to his alma mater. Let's have plenty of applications.

## ANNOUNCEMENTS

What promises to be one of the most interesting engineering meetings held this year will be held Wednesday evening at 7:30 in room 217 of the administration building. At this meeting two of the senior engineers will give talks on topics of interest to all engineering students.

There will be a meeting of the athletic board Wednesday afternoon at 4 o'clock in the athletic office.

BILL GARTIN, Pres.

## SOCIETY

Amy Barstad, Editor.

The Kappa Sigma initiation dance, held Saturday, was a very delightful affair. The decorations were in the fraternity colors, scarlet, white and green and attractively set off with Japanese lanterns. Dainty refreshments were served the latter part of the evening. Patrons, patronesses, and guests of the dance were: Col. and Mrs. E. R. Chrisman, Mr. and Mrs. Ray Parkhurst, Mr. and Mrs. Ray Safford, A. Ficke, Z. Sheneberger, E. Sake, A. Drake, M. Eichner, M. MacArthur, C. Gossett, A. Baker, N. Prescott, I. Mathews, E. Kearns, H. Ramsey, H. Honnold, F. Greene, R. Montgomery, A. Long, L. Young, M. Gauer, P. Pence, F. Walker, B. Musgrove, R. Jacobs, M. Paisley, H. Stanton, G. Jacobson, M. Blackenger, A. Bowman, A. Leithe, E. Kennedy, B. Hunter, J. Frazier, K. Hahn, M. Dunn, M. Wiley, M. Mimms, M. Taggart, J. Keane, D. Swan, H. Yearian, H. Madden, D. Cline.

Dinner guests of Kappa Sigma Sunday were Mrs. Clark, Z. Sheneberger, H. Honnold, M. Gauer, A. Long, B. Musgrove, M. Wiley, M. Paisley, H. Stanton, R. Jacobs.

Miss Ruth Jacobs of Lewiston was a guest of Delta Gamma Sunday.

Phi Alpha Psi announces the initiation of Dean M. F. Angel.

Tuesday dinner guests of Kappa Alpha Theta were the Misses Evangeline Bennett, Opal Hunt, Margaret Carter and Sarah Jones.

Kappa Alpha Theta entertained Messrs. A. Fox, P. Steiner, B. Keane, O. Thompson, R. Fitzke, W. Gartin, H. Edwards, A. Nelson and H. Telford at dinner Wednesday.

Dinner guests of Delta Gamma recently were Miss Pope, Miss Gamwell, Mrs. Sharp, Miss Winslow, Viola Creswell, Margaret Kinyon, Polly McMahon, Gladys Bahler.

Kappa Kappa Gamma announces the initiation of Neil Barnett, Camille Brown, Aileen Drake and Marjorie Robbins.

Dr. and Mrs. Wodsedalek and Dr. and Mrs. Laney were dinner guests of Kappa Alpha Theta on Wednesday.

Miss Bernice McCoy and Agnes Cox were dinner guests of Kappa Alpha Theta on Sunday.

The sophomores of Delta Gamma entertained with a luncheon at the Moscow hotel Saturday in honor of Miss Eloise Kelsey who is leaving.

Phone 15 and 291

It's good to eat we have it  
COLD STORAGE GROCERY

for her home at Nogales, Ariz. Appointments were in lavender and pink and the place cards, favors and decorations were unusually clever.

Alpha Delta entertained at an informal tea for Ruth Zoerns Saturday.

## Star Guard Elected Cougar Hoop Captain

Washington State College, Pullman, (P.I.P.A.)—Lowell Schroder, star guard of the 1923 Cougar basketball team, has been elected captain for next year's squad. He succeeds Harold Sorenson, who piloted the Washington State quintet through the past season.

Schroder played at guard all season but ranked next to Friel as high point man, with a total of 115 points. He was consistent in annexing free throws and could usually be depended on to drop a long shot through the ring when the forwards were covered.

## Sprint Champ Likely to Smash Marks Again

University of Southern California, (P.I.P.A.)—Charles W. Paddock, world's champion sprinter, is in the best condition of his career and he will have a better chance this season to break records than ever before, according to Coach Dean Cromwell of the University of Southern California, who is overseeing Paddock's training.

"Paddock should have the greatest year ever experienced by any sprinter," said Coach Cromwell. "I have never seen a runner in finer condition after a year's lay-off. He is in as good shape now as when he raced at Antwerp."

## TRACK PROSPECTS ARE FAR FROM BEING BRIGHT

(Continued from page two)

letic department in hopes that new prospects will be uncovered.

Track Schedule.  
Track schedule for the coming season, as it stands at present, is as follows:

April 28—Seattle relay carnival.  
May 5—W. S. C. frosh and varsity at Moscow.

May 12—Montana at Missoula.  
May 19—Interscholastic track meet.

May 26—Pacific and Northwest conference meet at Pullman.  
June 2—Frosh meet at Pullman.

## WESTON TEAM ACCEPTS THE NATIONAL INVITATION

(Continued from page 1)

ship at the University of Washington state championship at the University of Washington tournament.

Defeat Champions.

The local quintet won twice from Pullman, the winner of the S.A.A.C. Inland Empire tournament at Spokane, and twice from the Clarkston, Wash., high school five, the winner of the Washington State college interscholastic play at Pullman. Moscow also defeated the Lewis and Clark and North Central teams at Spokane.

Captain Baumgarner, guard, is the only man lost to next year's team by graduation.

## "The Flu"

A flea and a fly flew up in a flue. Says the flea to the fly, "O, what shall we do?" "Let us flee," said the fly. "Let us fly," said the flea; So they fluttered and flew up a flue in the flue.

### SOME FLU!

Aside from that, in order to enjoy a real spring vacation we should eat good wholesome food. This will foil the Flu. We have a store full of such food. Call us.

## COPY IN FOR ANNUAL

"Gem of the Mountains" Staff Hard At Work—Year-Book Plans Show Promise

"Thirty-five pages of copy and material for this year's 'Gem of the Mountains' have already gone to press and all the remaining material will go to the printers by the first of April," according to a statement by Charles Preuss, editor.

"This will be the best edition of the university annual in the history of the college," he declared, "but can be improved still more if all the students will only help." The business manager, Glen Wilkinson, added that the book will be the best financial issue ever published here.

The book this year will be divided into nine main sections. The first will be the feature section of the campus, containing pictures and views of the buildings. Second will come the administration of the university, giving in all details the plan of administration. Traditions will occupy an important space. Athletics, pictures of the teams and their records will be featured. Military activities, participated in by all at some time during the four years, will occupy a large section. Organizations on this campus and what they stand for will be described. Satire, the spice of life and the best collection of wit ever printed, will make up the humorous section.

Work has been delayed on account of the slowness of some students in having pictures taken and no more will be accepted. Snap shots of undergraduates are now being asked for.

Last year's business staff encountered difficulties in collecting for space allowed the different organi-

### WARREN NOGGLE EATS 31 SOFT-BOILED EGGS

#### MARVELOUS ASSIMILATION BESTS COBLEY'S MARK.

#### Huefner Takes Second Place With 23, 12 of Which Were Fried—No Bad Effects.

All egg-eating records were smashed Sunday morning when Warren G. Noggle of Wheatland, Cal., formerly of Cascade, Idaho, took the annual egg-eating contest of the Idaho chapter of the Beta Theta Pi fraternity with an assimilation of 31 eggs. This breaks all records set by J. Arnold Cobley of Victoria, B. C., who last year managed to do away with 30.

In addition to the eggs, all soft-boiled, the new champion, to fill out his morning meal, ate a bowl of breakfast bran, half a grapefruit, an entire orange and a piece of toast. The acidity of the orange and grapefruit proved to be a great help in the long, last pull.

**Eats Normal Dinner**

Noggle weakened visibly with the 26th egg, but he manfully ordered six more. The distress signal was waving, but the final six soft-boiled eggs in a glass were slowly but steadily devoured. With considerable effort the record egg shells piled high in front of him and somehow he managed to smile. Noggle later attended church and ate a normal dinner at 1 o'clock. The contest was held from 8 to 9 o'clock.

Otto Huefner of Kellogg, took second place with 23 eggs, 12 of which were fried. In addition, he polished off an entire orange, a whole grapefruit and a slice of toast. Walter R. York of Boise, and James M. Heath of Idaho Falls, were tied for third place, each with eight eggs.

The contest was held yesterday instead of Easter Sunday, the usual day for the contest, because the spring vacation at the university starts March 31. Last year Cobley won considerable notoriety with the establishment of a record of 30. The previous best mark two years ago was by Abe Goff of Walla Walla, who ate 18. Goff's mark was bested, however, last year by Arthur S. Guerin of Spokane, and Tom Bucklin of Idaho Falls, with 22 each.

The Star-Mirror was informed this afternoon that Eugene Scrennebrekov, a sophomore student attending the university from Russia, surpassed the record made by Noggle by going him one better and stowing away 35 in a soft-boiled condition. The new record was made at eight o'clock in the morning, the performer later eating a light lunch at around ten o'clock and a hearty dinner at 1:30.

#### HONOR FRATERNITIES TAKE OVER ASSEMBLY (Continued from page 1.)

more in the same manner as Alpha Zeta.

Phi Alpha Delta is a national fraternity of the legal profession which seeks to promote scholarship among its members and to encourage a spirit of fellowship both before and after graduation.

**To Petition Phi Delta Phi.**

Alpha Mu Delta is a local organization of faculty members and students of the college of law, which is to petition for a charter from Phi Delta Phi, national professional fraternity.

Sigma Tau is a national honorary engineering fraternity, with members selected from the juniors and seniors of the college of engineering and the school of mines, whose scholarship places them above the average two fifths of their respective classes.

Pi Epsilon Sigma is an honor society for women students in the school of education, the eligibility requirement being a grade of 5.333 or higher at the close of the junior year.

**Alpha Society.**

The Alpha Society is composed of faculty members belonging to the national honorary fraternity, Phi Beta Kappa, and of undergraduates elected by these faculty members from among honor students, juniors and seniors, who are candidates for the degree of bachelor of arts or bachelor of science in the college of letters and science.

Sociedad Literaria Espanola is composed of students who maintain an "A" average in Spanish. It promotes interest in the Spanish life, literature and language.

**Two Business Fraternities.**

Alpha Sigma Gamma is an honorary fraternity of business students, limited to junior and senior men, majoring in business with "B" or higher in their grades.

Phi Beta Gamma is a women's honorary fraternity with the same requirements of Alpha Sigma Gamma.

Mortar Board is a national honorary society of senior women, demanding high scholarship and leadership as prerequisites.

The Silver Lance is a senior men's organization for men distinguished in scholarship as well as general leadership.

#### "GO TO CHURCH" PLAN PROVES BIG SUCCESS (Continued from Page One.)

Presbyterian church spoke in the morning on "God and Evolution and the Twentieth Century Mind." There was a large number of students at this service. A special musical program was given at the evening service at which Miss Annette Francisco gave an address.

**Influence Is Keypoint.**

"Influence" was the keynote of the services at the Baptist church at the morning services, at which there were a large number of students. Special music was a feature. All of the churches of the city were filled to overflowing Sunday morning and evening and a good share of the crowd in each church was made up of University of Idaho students.

The "Go-to-Church" plan was a decided success. University students in regular attendance at churches of their choice were out in full force while the special programs proved attractive for those students who had been attending church only infrequently.

Mention of the important newspaper positions filled by William Brown Griffin, who was a member of the class of 1901, has been received in a letter from Mr. Griffin's mother.

Mr. Griffin died last year in Mexico City where he was serving as a newspaper correspondent. Papers on which he had been employed were the Spokesman-Review, the Denver Post, the Anaconda Standard, a paper in Cleveland, Ohio, the San Francisco Examiner, the Chicago Examiner and the El Paso Times. Mr. Griffin was forced by ill health to make frequent changes of climate, but positions which he left were always open to him for a possible return.

## COLLINS & ORLAND HARDWARE CO.

### FINAL TRACK CALL

All men who expect to compete for places on the varsity or freshmen track squads must report for practice not later than Friday afternoon. This is the last and final call for track team candidates.

R. L. MATHEWS,  
Director of Athletics.

### ALUMNI

Donald DuSault, Editor.

Word has just been received from the University of Idaho club at Spokane that the club is planning on a banquet to be given for alumni, students and friends of the university on Thursday, April 5, at Culbertson's Grill. Tickets for this banquet are \$1.25 and may be obtained by writing to L. E. Morris, Spokane Savings and Loan building, Spokane, Wash. Mrs. Morris is treasurer of the club. April 5 is during the spring vacation when the Inland Empire Teachers' association is meeting at Spokane, and it will be a good opportunity for all Idaho people to get together, so make your reservations early and attend this banquet and become better acquainted.

Frank Page Stewart, '10, is now working as a special reporter on the Salt Lake Tribune at Salt Lake. He has been in the newspaper game most of the time since leaving college, working for a time on the Anaconda Standard until war broke out when he enlisted. He went overseas as a lieutenant and while over there was commissioned a captain in the quartermaster corps. Since his discharge from the army he had been with the Tribune in Salt. He is married and has one child.

Roy Frank Tuttle, '14, was a visitor on the campus a short time ago. He was in the northwest on business and dropped into Moscow to see the Vandals trim California and to visit his sister who is attending the university. Mr. Tuttle is now engineer accountant with the Oregon Short Line railroad at Salt Lake, Utah. On leaving Idaho he was with the general land office survey party in southwestern Idaho and then went to the Great Shoshone and Twin Falls Water Power company as an engineering draughtsman, and then to the Light and Power company until 1916 when he went to work with the railroad. During the war he was in the service with an engineering corps. He is a member of the American Association of Engineers.

James B. Her, '22, is attending the National Institute of Public Administration, having received a scholarship there last year. Following is a

letter telling of the work taken up by students in the school.

"I am going to give you a little information about my work. We first studied budgetary procedure, but the course was interrupted by a city in Tennessee calling our instructor away to help rearrange their government. We next took up a study of municipal laws, which proved to be very interesting, and which, I think, will be helpful to us if we ever become city managers. We had a short course on city planning, one on pensions and retirements, and a course on personnel administration. In connection with the course on personnel administration, we made a trip to Albany, where we did two weeks' work in a reclassification of all positions under the state government. During that time we got in all the questionnaires and got them in the first stages of classification. We left only the finer points of classification and salary recommendations untouched. That is now being worked out by Dr. Mosher and the civil service directors of the state.

"We are now studying engineering accounting. In connection with our accounting we have made an audit of the books of the town of Harrison, New York. We put in three days there and did the greater part of the auditing work. The remaining work will be finished by one of the men on the bureau staff. We still have three days remaining to be spent on such outside work. In connection with our engineering work, we have made several trips about the city to investigate and observe the operation of engineering projects.

"Each subject we have taken up has been taught us by one person on the staff who is making that subject his field of work and study. Two subjects were taught by outside men. We have also had the opportunity to attend the lectures on personnel administration, given by all the prominent personnel administrators of the United States."

## KAPPA SIGMA PLAYERS LEAD INDOOR LEAGUE

LINDLEY HALL TEAM DOPED AS POSSIBLE CHAMP.

Season Practically Over for Indoor Baseball—Crowded Quarters Hamper All Contests.

Computed standings of the different groups in the intra-mural indoor baseball league show Kappa Sigma holding a place all by herself at the head of the column, with a thousand per cent standing and with the season well toward its close. Judging from the pace the league leaders have been setting it is extremely doubtful, moreover, whether any team on the campus will be able to wrest their present position from them before the season ends.

Lindley hall, however, has taken her share of the games, and boasts a standing of .800. Provided the Lindley team has the opportunity of meeting the league leaders there is a possibility that Lindley hall may nose its way into the lead in spite of the two hundred point handicap. Wahl, pitching for the Lindley hall aggregation shows exceptional ability for this league, and has been taking the boys away from the plate with great regularity.

### Cramped Ball Grounds.

Throughout the series the competing teams have been handicapped by the close quarters in which they are forced to play. It has been necessary to play two games at the same time in order to complete the schedule, one game taking place at each end of Lewis court. Now beams made it necessary to adopt a rule that any ball hit into the rafters within the baselines would count a base. Many teams were enabled to run in twenty or more scores in an inning through high batted balls which gave the fielders no opportunity for an out.

Standings of the different campus groups, computed on the basis of a possible thousand, are as follows:

Kappa Sigma	1.000
Lindley hall	.800
Sigma Nu	.750
S. A. E.	.600
Elwetac	.500
Beta Theta Pi	.333
Phi Alpha Psi	.000
Phi Gamma Delta	.000
Phi Delta Theta	.000

### Games Coming Up.

Schedules for ensuing games are as follows:

Tuesday, March 27, 7:15 P.M.  
Phi Alpha Psi, vs. Phi Delta Theta.  
S. A. E. vs. Beta Theta Pi.  
Wednesday, March 28, 7:15 P.M.  
S. A. E. vs. Sigma Nu.  
Phi Delta Theta vs. Phi Gamma Delta.

Thursday, March 29, 6:30 P.M.  
Phi Alpha Psi vs. Elwetac.  
Kappa Sigma vs. Beta Theta Pi.  
Friday, March 30, 1:00 P.M.  
Lindley hall vs. Phi Gamma Delta.  
Phi Delta Theta vs. Elwetac.  
Phi Alpha Psi vs. Sigma Nu.

## ROCK SALT DEPOSIT LOCATED IN CARIBOU

ROCK SALT DEPOSIT 24 S5551aBw TOTAL THICKNESS SAID TO BE 175 FEET.

Virgil R. D. Kirkham of School of Mines Gets Report—Beds Used in Early Days.

A rock salt deposit said to have a total thickness of 175 feet and a little more than 500 feet below the surface has been located in southeastern Idaho in the eastern part of Caribou county, according to a report received by Virgil R. D. Kirkham, geologist with the state bureau of mines and geology and a member of the University of Idaho school of mines faculty. The discovery was made by an operator drilling a well to test the oil structure in the area, which are said to be promising. Mr. Kirkham recently studied the geology of the area with special attention to its oil producing possibilities.

Samples of the newly discovered deposit have been analyzed and show exceptional purity. Some of the beds are more than 20 feet thick and with the area in which brine springs are found exceeding 40 square miles and the results of analyses, which indicate that the salt will average from \$5 to \$11 per ton, Idaho may soon have a new industry. The probability of railroad connections in the near future and the possibilities of locating oil, for two wells are now exploring the structures, speak well for the development of an important salt refining industry.

### Existence is Known.

Since the earliest days of the western emigrants the existence of salt

in that area has been known," said Professor Kirkham in commenting upon the discovery. "The Lander trail, a cutoff which joined the Old Oregon trail at Blackfoot, was built through that part of what is now Caribou county because of the salt springs in existence there. Since those early days of the covered wagon pioneer, these springs have had commercial value but until now no information as to the extent of the deposits has been available.

The salt springs had greater value in the old days than in recent years, since they furnished all the salt for the mining camps of Idaho and Montana. There were no railroads then and the salt was boiled from the brine and hauled by ox teams. The present wagon road from Montpelier in Bear Lake valley to Star valley, the location of the springs, was built to supply the outside demand for this salt. The production of salt from these springs reached a high point of 200 tons per month in the sixties and sold for \$25 per ton on the ground, but the rise of the salt industry at Great Salt Lake proved too great competition for the Idaho Springs deposits.

"These deposits may be mined by drilling wells, forcing water to the salt beds, and pumping it back to the surface to be evaporated, or sinking a shaft and mining the salt like coal."

Ruth Jacobs of Lewiston spent Friday and Saturday at the Kappa Kappa Gamma house.

## TYPEWRITER ARTIST DEMONSTRATES SKILL

EXHIBITION GIVEN SHOWING SPEED AND ACCURACY

Miss Bessie Friedman Astounds Economics Students—Does 232 Words in One Minute.

Miss Bessie Friedman of New York, woman champion of the world in accuracy and speed writing on the typewriter, entertained an appreciative crowd of economic students and visitors in room 217 of the administration building, Thursday afternoon at 1:30. All shorthand and typewriting classes were dismissed for the hour in order to let the students see the exhibition.

The tests, all one minute in length were conducted by J. L. Paterson of Spokane. Before starting on the tests Miss Friedman gave a bit of advice to students in typewriting. In this tale she said that rhythm, accuracy, speed and concentration were the essential things to remember in trying to become efficient on a machine. She also stated that she frequently practiced for three hours a day in preparing herself for a contest, and that efficiency such as hers was the result of long and hard work.

### 147 Words a Minute.

After a few minutes of warming up, Miss Friedman started on the first test. In this she read from copy for one minute and wrote 147 words in this time without a single error. Her fingers went so rapidly that it was impossible for the eye to follow them. In the next test she demonstrated rhythm. She started out by writing very slowly and gradually picked up speed until she was writing about 60 words per minute.

Her third test was to write from dictation. She was able to write 87 words per minute, listening to reading out a text book that was near at hand, the main difficulty being that the words did not come fast enough for her to write. Miss Friedman's next test was to demonstrate concentration. In this test she wrote from copy and added a column of five figures with five numbers in a line. She computed the result correctly and wrote 141 words in the minute's time. Her fifth test consisted of writing a familiar sentence of small short words for a minute in which she wrote 232 words.

### Holds Accuracy Record.

The work of Miss Friedman is beyond a doubt, incomparable with anything that has been seen on the campus. She was so fast in the movements of her hands that it was impossible to see them hesitate on any key, and the sound of the keys was like a rain of buck-shot on a tin pan. The typewritten sheets were given to the typewriting department of the university and are on display in room 102.

Miss Friedman won the woman's championship in accuracy last October and missed the speed record of the world, held by George Hossfeld, by the narrow margin of two words. She is ambitious of becoming the champion, however, and should give the champion a closer race than ever in the next tryout.

## ANNUAL SMOKER EVENT HELD BY LINDLEY MEN

HAILED BY KING-SIDERS AS GREAT PARTY.

Fast Boxing and Wrestling Events Combined with Clever Stunts—Midgets Show Form.

The annual Lindley hall smoker, held Saturday night, was one of the most successful ever witnessed on the Idaho campus, according to the occupants of ringside seats. The affair was held in the hall dining room, which was cleared for the occasion, a ring being erected in the center for the boxing and wrestling events.

The evening opened with an act by the Lindley Follies, which met with marked success. Stubblefield, composer, director, manager, and leading lady, was perhaps the outstanding star of this number. McMonigle, Rensberg and O'Neil composed a whirlwind chorus. Dancing and vocal numbers composed the Follies program.

### Flyweights Entertain.

Penwell and O'Neil, flyweights, entered the ring as curtain raisers on the fistie schedule. Their two round bout was fast, and while no serious injuries were sustained the crowd was kept well entertained during both periods.

Fleming and Derr, boxing as headliners on the program, put on the best fight of the evening. Their bout was all that such a bout should be, from the standpoint of the spectators, and was fast and fiercely contested from gong to gong. Friendship was forgotten for the time being and both men entered thoroughly into the battle, giving a very good exhibition of pugilistic prowess.

### Recitations Furnish Variety.

Several recitations were given at this point by J. D. Chapman. These met with marked approval from the crowd, offering variety in the program of boxing exhibitions.

The bout between Pettibone and Curtis which followed ended in a draw, neither man being able to gain an upper hand over an able opponent.

Refreshments were served, following which a cup fight between Murphy, Berger, Barton and Guess was staged. A battle royal was waged which served to amuse and entertain, Murphy and Guess being judged winners in the struggle.

### All Events Feature.

Boxing bouts of two rounds each, featuring Anderson and Shalis, and Ellis and McMonigle, completed the ring program for the evening.

In the mat event Jones and Kelley, midgets, went to a draw. Ross won from Lapp on a fall, in five minutes. Fales and Bitner wrestled to a draw.

A recitation by "Ah Me" Kearns completed the program for the evening.

Jack Clark acted as announcer for the boxing events. Kerns referred the boxing matches, while Johnnie Derr officiated on the mat.

## "SCHOOL FOR LOVERS" PLEASURES LARGE CROWD

"Così Fan Tutte," or the "School for Lovers," light comic opera by Mozart, which was presented here Friday night by a metropolitan opera company at the University auditorium, proved to be one of the best musical offerings of the season, and delighted a large and appreciative audience.

## "Little Mary KELLY"

Has come to town

SEE HER at

THE FASHION SHOP

The settings and stage effects were especially pleasing, and harmonized with the sweet and resonant voices of the leading characters. Irene Williams, in the leading feminine role, captivated her audience by her commanding stage presence and clear voice. Among the male roles, the bass singer seemed to be the most popular, and his gracious stage presence, together with his adopt jovial mannerisms, stamped him as the best of the male characters.

The several duets between the two leading women were the outstanding musical features of the opera, could have been greatly enhanced by proper orchestral accompaniment. This was the last number on the university's artist course series for this year, and proved to be one of the best numbers offered.

### MINNESOTA DAILY SUSPENDS PUBLICATION—LACK SUPPORT

The Minnesota Daily, student newspaper, suspended publication because of lack of student support. The daily has been running at a financial loss, less than 1,000 students being listed as subscribers.

Wednesday dinner guests of Alpha Delta were Dr. and Mrs. Kostalck and Dr. and Mrs. Laney.

YOU know what you like in clothes; but it is hard to find the right fabric and fashion ready made in your size.

Why not make sure of what you like? Have it "Tailored to Measure by Born" and your preferred fabric will be made precisely to your measures and specifications.

We are showing some remarkable values at \$30, \$35 and \$40.

## PUBLIC SALES

We have purchased 122,000 pair U.S. Army Munson last shoes, sizes 5 1/2 to 12 which was the entire surplus stock of one of the largest U.S. government shoe contractors.

This shoe is guaranteed one hundred per cent solid leather, color dark tan, bellows tongue, dirt and waterproof. The actual value of this shoe is \$6.00. Owing to this tremendous buy we can offer same to the public at \$2.95.

Send correct size. Pay postman on delivery or send money order. If shoes are not as represented we will cheerfully refund your money promptly upon request.
