

# IDAHO'S GROWTH IS REFLECTED BY THE NUMBER OF SENIORS

## PROSPECTS FOR TRACK STILL FAR FROM ROSY

### THIRTY MEN OUT WORKING HARD FOR EVENTS.

#### Freshmen Material Needed—Varsity Weight Men and Pole Vaulters Lacking—Competition Needed.

The University of Idaho track squad is working overtime during the present fair weather, in order to overcome the handicap imposed by the late spring weather. Approximately thirty men are turning out regularly, most of these candidates having remained on the campus during the spring vacation in order to avail themselves of all the training time possible before the early meets.

Of the thirty varsity candidates but a scant eight are considered first class material for conference competition. There is still an utter dearth of weight men, while pole vaulters and jumpers are not over numerous on the squad. In almost every event there is a world of chance for competition, and a few more promising contenders for varsity berths would make Coach Mathews feel more encouraged.

Freshmen in Demand. Freshman track aspirants are also in demand. The two meets scheduled with W.S.C., and the one at Montana, together with the interclass meets, afford the first year men an excellent opportunity to gain experience, as well as offering the opportunity of two trips at least. So far this year no freshman team has been picked. During the next two weeks, however, there should be an increased turnout of freshmen, and men will be chosen for the events which they will run during the season.

The opportunities to win places on both freshman and varsity squads are greater than ever before in the history of the university. But two months of the track season remain, including the training season and the five weeks taken up with meets, and there are fewer contenders out for places than at the beginning of any previous season during recent years.

## "IF" MAKES HIT WITH AUDIENCE IN SPOKANE

### VARSITY ACTORS PRESENT PLAY FOR TEACHERS' ASSOCIATION.

#### Will Be Given Last Time at University Auditorium on Friday Night.

Playing to a select audience of over fifteen hundred educators in Spokane, "If," by Lord Dunsany, produced with an all university cast, made a sensational performance in the Lewis and Clark high school auditorium last Thursday night.

Well planned scenery, carefully selected effects in lighting, and smooth, skillful acting combined in a gripping production of the play that is just being worked out today by the eastern and even the continental theatres.

Is New Play. The University of Idaho cast, as the play is a new one, were forced to interpret the characters for themselves, to plan their own settings, to fit it together in making it a well oiled, free running vehicle.

The high school auditorium was well filled, and the audience appreciative in a way that aided the actors to sweep the piece along through the ten thrilling scenes without a single dead moment.

Crowd Well Pleased. Between each scene the crowd applauded continuously, and at several of the more dramatic moments the entire auditorium held its breath and staid teachers who are used to high grade drama sat on the edges of their seats with excitement.

Friday night the play will be produced for the last time, in the University Auditorium.

(Continued on page two)

## IDAHO ALUMNUS SPEAKS TO ECONOMICS STUDENTS

"Public Utility Economics" was the subject of a talk by A. J. Priest of Boise, office attorney of the Idaho Power company, before the general economics class of the department of economics and the public service corporations class of the college of law Monday morning. Mr. Priest is an Idaho alumnus, having received his bachelor of arts and bachelor of laws degrees from the university. He is a former graduate manager of athletics. Mr. Priest told of the public service corporation engaged in the generation and distribution of electrical energy in presenting the fundamental public utility problems for the students.

## BASEBALL CANDIDATES BACK FROM LEWISTON

### IDAHO VANDALS TAKE LOCAL PLAYERS 12 TO 7.

#### Prospects for Winner in Conference Circles Unusually Good—Work-out is Big Help.

The University of Idaho baseball squad returned Sunday evening from its four-day excursion in Lewiston under the watchful eye of Coach MacMillan. Nineteen men made the trip, and according to all reports the squad profited considerably by their workouts in the Lewiston district. Daily practice was held, and the fielders were given their first chance to get any real intensive work in. The batteries also showed wonderful form considering the conditions under which they have worked this spring. Captain Marineau, Snow, Fitzke, and Eddy all showed speed and seemed to have plenty of stuff on the ball.

Vandals Trim Lewiston. The Vandals met the Lewiston club Sunday afternoon, taking the game easily with a score of 12 to 7. During the first four innings of the game Snow, pitching, held the Lewiston aggregation scoreless, while the Silver and Gold stickers were able to wallop the ball at will. Fitzke, replacing Snow, was not quite so effective, the local team piling in seven runs. The Vandals clouted across 12 runs in the game.

The game Saturday afternoon was called because of rain. In spite of this fact a record breaking crowd turned out for the Sunday game, with the Moose band adding to the festivity of the occasion.

Squad Well Received. The squad was heartily received by the townspeople of Lewiston, and according to all reports, Idaho's play-

(Continued on page three.)

## MUSICIANS PLAN EVENT

### Glee Clubs, Community Chorus and University Orchestra To Present Musical Epics.

The University of Idaho glee clubs together with the Moscow community chorus and the university orchestra of over twenty pieces, will present Coleridge Taylor's two well known musical epics, "Hiawatha's Wedding Feast," and "The Death of Minnehaha" in the university auditorium the latter part of April.

The concert will be the annual offering of the combined organizations, and together with the orchestra, will include practically one hundred people. J. Stanton McLaughlin, instructor in English, and Miss Bernadine Adair, instructor in music, will carry the leading solo parts.

Professor Edwin Orlo Bangs, head of the department of music, is in charge of the vocal work, while Carl Claus, instructor of violin and orchestral music, is directing the accompaniment parts.

# University Graduates 165 Students In June

## DEGREES TO BE CONFERRED VIRTUALLY DOUBLE THE AWARDS OF PREVIOUS YEARS

### HISTORICAL PAGEANT TO BE PRESENTED ON 8TH OF JUNE

#### Women Finish up Work in Colleges of Law and Agriculture for First Time—Seventeen Masters Degrees to Be Granted

The University of Idaho will confer degrees upon 165 students June 11, virtually twice the number in any previous class graduated from the university. For the first time, women will be graduated from the college of agriculture and the college of law.

June 11 will be commencement day and the Sunday previous will be baccalaureate Sunday. On Saturday, June 8, which will be alumni day, Idaho's historical pageant, depicting the history of the state, will be staged on the campus.

148 Baccalaureate Degrees. One hundred and forty-eight baccalaureate degrees and 17 masters' degrees will be granted. Fifty-five students will receive the degree of bachelor of arts and 15 will receive the degree of bachelor of science. There will be four graduates this year from the department of home economics; 16 graduates from the college of agriculture; five graduates from the school of forestry; seven graduates from the school of mines and geology; 11 graduates from the college of engineering; 11 graduates from the college of law; and 24 graduates from the school of education.

Perhaps nothing reflects more clearly the growth of the university than the size of this year's graduating class, the largest in the history of the institution.

Two Women Honored. Miss Mary Eita Shelton of Union, Ore., has the distinction of being the first woman to receive the degree of bachelor of laws from the University of Idaho college of law. Miss Naomi Chapman of Asotin, Wash., is to be the first woman graduate of the college of agriculture.

The following is the list of prospective graduates:

College of Letters and Science  
Bachelor of Arts.—Victor Vernon Addington, Harrison; Marjorie Albert, Payette; Beatrice Floe Albright, Moscow; Charles Summer Allard, Pauline; Francis Ethel Matilda Anderson, Moscow; A. Kenneth Anderton, Moscow; Bernice Lacey Babcock, Twin Falls; Russell Dodge Bowers, Kellogg; William Steven Briscoe, Troy; Carl Hamlin Brown, Twin Falls; Julia Jane Brown, Orofino; Philip Wallenstein Buck, Monrovia, Calif.; Dorothy Davis Cage, Idaho Falls; Bethel Martin Collins, Boise; Ida Margaret Conklin, Batavia, N. Y.; Pearl Lillian Doyle, Moscow; Oren Aran Fitzgerald, Grangeville; Alexander Jacob Fox, Moscow; William Woodruff Gartin, Caldwell; Bernice E. Harding, Buhl; Lyla Margaret Harsh, Moscow; John Joseph Hasfurther, Genesee; Elza Alvin Heltmeyer, Portland, Ore.; Robert Lincoln Holbrook, Sweet; Clayton Brown Hoover, Blackfoot; Marie Elizabeth Hummel, Boise; Kenneth Hamilton Hunter, Moscow; Jeanne Ethel Hyde, Kimberly; Ruby Marie Irving, Rupert; Clara Elizabeth Jones, Boise; Millicent Patricia Kuhn, Lewiston; Ruth Ellen Kutnewsky, Boise; Christian Ross Leighty, Caldwell; Nelson Vernier Lloyd, Ralston, Wash.; Clare Brown Lloyd, Council; Hazel Mildred Marcet, Boise; Glenn William Merrill, Preston; Howard Melvin McQuaig, Coeur d'Alene; Lyn West Nash, Boise; Adrian Nelson, Jr., Moscow; Ernest Eugene Ostrander, Twin Falls; Mary Ellen Owings, Moscow; Florence Russum Parish, Moscow; Mabel Lu-

cille Paterka, Republic, Wash.; Henrietta Marie Peasley, Boise; Jean Carolyn Rowlands, Sandpoint; Elizabeth Sandellus, Moscow; Mary Alice Sheffield, Rathdrum; Edward Otis Smith, Orofino; Louise Smith, Valparaiso, Ind.; Paulmer Stanley Soderberg, Orofino; Lawrence Allison Wallace, Caldwell; Oscar Melvin Welo, Sandpoint; Elaine Wheeler, Caldwell; Elizabeth Ridge Woods, Boise.

Bachelor of Science.—Bess Doolittle Bernhard, Chicago, Ill.; William Chester Carpenter, Boise; Kenneth Heath Collins, Moscow; Laura Genevieve Darrt, Palouse, Wash.; Donald Dudley DuSault, Hagerman; Robert Walker Eldridge, Moscow; Richard Philip Howard, Pocatello; Regner William Kullberg, Moscow; Vera Marie Luse, Spokane, Wash.; Earl William Parks, Caldwell; Eugene Edward Ralph, Clarkfork; Paul Henry Reed, Moscow; Addie Kathleen Steward, Santa Ana, Calif.; Vernon Barger Walters, Twin Falls; Chester Clay Wright, Rupert.

Bachelor of Science in Home Economics.—Ruth Othella Blomquist, Blackfoot; Marie Hunt, Colfax, Wash.; Violet Gertrude Sabin, Pasco, Wash.; Polly Haynes Thomas, Malad.

College of Agriculture  
Bachelor of Science in Agriculture.—Eugene Hulbert Bramhall, Kellogg; Alfred Curtis Brigham, Jr., Genesee; Bryan Bertie Bundy, Culesda; Naomi Chapman, Asotin, Wash.; John Fredrick Cline, Springdale, Wash.; Harry Orman Edwards, Moscow; David Leslie Fourt, Houston, Mo.; Herbert Leo Glanderman, Coeur d'Alene; Howard DeWitt Hechtner, Lapwai; Curtis Edwin Harrington, Boise; Fred Forest Horning, Hermiston, Ore.; William Wendell Palmer, Malad; Thomas Edward Speedy, Minneapolis, Minn.; Dewey Dossie Standish, McCall; John Oswald Thompson, Moscow; George Newton Tucker, Notus.

College of Law  
Bachelor of Laws.—Howard Reed Broshars, Caldwell; John William Clark, Malad; Lyle Marcus Colburn, Sterling; John Walters Cramer, Halley; Floyd Robert Eichelberger, Boise; Gerald James Gill, Sloux Falls, S. D.; Rex Kimmell, Kicco, Fla.; Latham Deavitt Moore, Moscow; William James Nixon, Welsler; Vaughn Arlington Price, Twin Falls; Mary Eita Shelton, Union, Ore.

School of Education  
Bachelor of Science in Education.—Mabel Allegra Eckles, Portland, Ore.; Eleanor Eddy, Lewiston; Helen Frantz, Moscow; Edith Edwards Geck, Caldwell; Willard Warren Hewitt, Moscow; Oscar Rush Jordan, Moscow; Lucy Margaret Knipe, Emmett; Margaret Jeanette Kutnewsky, Boise; Robert Benjamin Leitch, Moscow; Carl Roy Lindstrom, Meridian; Ilda Estella MacMillan, Moscow; Margaret Marie Mims, Coeur d'Alene; Alpha Augustus Mock, Moscow; Virginia McRae, Spokane, Wash.; Charles Mathew Otter, Moscow; Oscar Hockey Rankin, Gifford; Delfin Alisasis Raynaldo, Philippine Islands; Ellen Reiferson, Troy; Ernestine Rose, Salmon; Joseph Furkiman Smith, Preston; Mary Louise Sparks, Lewiston; Mary Thompson, Caldwell; Edward Oden Wiswell, Moscow; Karyl Louis Witty, Lewiston.

School of Forestry  
Bachelor of Science in Forestry.—Albert Stanley Daniels, Bay City, Mich.; Paul Henry Gerrard, Vancouver, Wash.; Harvey Ivan Melick.

(Continued on page three.)

## WOOD TICK GATHERERS URGED TO SPRING WORK

Dr. R. A. Muttowski of the zoology department has issued a call for wood ticks. He states that he wants them fed or unfed, but preferably alive. He requests that the students do not wear them in. If necessary Dr. Muttowski will organize a band of intrepid hunters and go gunning for the desired animals. But with the popularity of trips to Moscow Mountain, this ought not to be necessary. So if students will just go wood-tick picking instead of flower picking the want will be filled.

Dr. Muttowski needs the wood ticks for some work he is doing in collaboration with the University of Montana to aid them in their fight against spotted fever.

## SUNDAY CLOSURES WEEK OF SPRING VACATION

### CLASSES START MONDAY MORNING AT 8 O'CLOCK.

#### Week is Utilized in Variety of Ways by Students and Members of Faculty.

Eight o'clock Monday morning brought to a close the week's spring vacation that was allowed university students and faculty. Classes started at that hour, and a close check-up has been made to catch stragglers who might be eligible for ten per cent. cuts.

The vacation was spent in a variety of ways. Over half the students stayed in Moscow, catching up with their work, or sleep, as the case might be.

Southern Idaho Students Remain. But few students who live in southern Idaho took the trip home, because of the short time available, and the large expenses. A large number took the time for a vacation to northern towns, going home with northern students, all of whom availed themselves of the opportunity to visit the home folks.

Laboratories remained open the entire week, and students who stayed on the campus spent much time in them or the library. A few house dances were given by the "left overs," but social activities as a whole were greatly curtailed during the week.

Sleep Attracts Many. Sleep also claimed a large part of the time of everyone. With no eight o'clocks to arise for, it was too strong a temptation to lie in bed, and few were able to resist it.

Many faculty members were in Spokane during the week, attending the Inland Empire Teachers' Association. Several gave addresses to the gathering on different phases of educational work.

## INSPECTS IDAHO GROUP

### Montana State College Extension Worker Visits Local Phi Upsilon Omicron Chapter.

Miss Blanche L. Lee, assistant home demonstration leader of the Montana State college extension service, inspected Zeta chapter of Phi Upsilon Omicron, national home economics professional fraternity, on Monday. Miss Lee is the fourth district counselor of the professional group. She has recently inspected chapters at Wyoming State college and at Utah Agricultural college.

"I consider the chapter here a splendid group," said Miss Lee. "The women of the Idaho chapter have done some very fine things."

Miss Gladys Bronegan, head of the home economics department of Montana State college and an honorary member of Phi Upsilon Omicron, accompanied Miss Lee on her visit to Idaho.

## OMEGA PHIS LEAD ON SCHOLARSHIP AVERAGE

### PHI GAMMA DELTA FIRST AMONG MEN'S GROUPS.

#### Leading Organizations Repeat on Honors—Higher Standards Show in Results.

A tabulation of grades received by University of Idaho students last semester, according to their groups, has been compiled by the office of the registrar, and was given out today for publication. It was found that, due to the raised scholarship standings enforced during the semester, that the averages of all groups, and the university as a whole, was below that of last year. The average of the entire student body, based upon 6,000 as perfection, was 4.477, while last year's standings for the first semester was 4.698.

Women led the men as a whole in scholastic standing for the first term, their average being 4.838, while the men had an average of 4.265. Omega Phi Alpha, local sorority, again led the campus groups with an average of 5.173, while the Phi Gamma Delta, national fraternity, topped the men's organizations with a semester average of 4.607. With one exception, all the women's groups had higher averages than the highest men's group, which has been the case for a number of years. Sorority women had a higher average than non-sorority women, with an average of 4.912 against 4.786. With the men, the situation was reversed, the non-fraternity men having an average of 4.302 as compared to 4.220 for the organized men.

Omega Phi Alpha Leads. The sorority averages are as follows: Omega Phi Alpha, (local), 5.173; Kappa Alpha Theta, 5.099; Center Cottage, 4.927; Kappa Kappa Gamma, 4.918; Gamma Phi Beta, 4.856; Crest Cottage, 4.801; Delta Gamma, 4.775; Alpha Delta, 4.748; Ridenbaugh Hall, 4.747; Jenkins Hall, 4.604.

The averages for the men's groups are: Phi Gamma Delta, 4.607; Sigma Alpha Epsilon, 4.382; Phi Alpha Psi (local), 4.205; Lindley Hall, 4.167; Phi Delta Theta, 4.129; Sigma Nu, 4.125; Kappa Sigma, 4.115; Beta Theta Pi, 4.082; Elwetias, 4.008.

## DRAKE APPOINTED TO HEAD STUDENT DRIVE

### CAMPAIGN FOR NEW STUDENTS TO START SOON.

#### State Divided Into Four Sections With Chairman at Head of Each.

The student campaign drive, which is conducted each year by the A.S.U.I., with the co-operation of the publications department, to get more Idaho high school graduates to attend their state university, will be in charge of Merle Drake, of Challis.

Drake was appointed state chairman of the drive early in the year by President Hersey, and he has his plans made, and the campaign ready to go into effect at the present time.

District Chairman Selected. The state has been divided into four districts, and a chairman has been appointed over each district. The men who have been appointed are: Arthur Guerin, northern district; Errol Hillman, southeastern district; Darwin Thomas, southwestern district; and Louis Boas, Boise-Weiser district.

Later on there will be a chairman appointed for each county in the state, and a chairman for each town. The state alumni association will also select county chairmen to co-operate with the students in charge.

List of Graduates. Mr. Edward F. Mason, head of the publicity department, has prepared a

## IDAHO FOR IDAHO STUDENTS

Members of the A. S. U. I. committee in charge of the new student campaign should have the entire cooperation of the student body. There is no more important A.S.U.I. committee than the new student campaign committee. The effect of such a campaign was noticeable this past fall in the increased enrollment and further advancement in the bringing of Idaho "sons and daughters" to Idaho is looked to this coming fall.

The campaign plans are now being made and there is every reason to believe that Idaho students will interest their friends in the university. The success of the committee's well laid plans rests with the student body and secure in the realization that Idaho students will bring their friends to the state's great educational institution—the campaign will be a success.

## MORE TRACK MEN WANTED

Track prospects are not what they should be. Track prospects are not what they should be for this season and without more material Idaho's splendid track and field achievements of the past will not be upheld in the future. Capable track men are made. The man who turns out and trains is the man who will succeed.

There is no effort to discourage the men that are now out. More power to the men who are working hard for the success of Idaho athletics. But there should be more men out and these men must start their workouts now.

## COMMENCEMENT WEEK

Idaho people are looking forward to the greatest commencement week program in the history of the university. A definite proof of the healthy growth of the university will be found in the record breaking number of degrees to be conferred. People from all parts of the state and the northwest will be attracted to the university by Idaho's historical spring pageant on alumni day, and commencement week is always a great event.

## SPRING VACATION

The past week has given students an opportunity to catch up with work, to forge ahead and lighten the burden of work that will be necessary during the closing weeks of college.

Vacation is over now, it should be forgotten, and the best work of the year should be done in the few remaining weeks.

## WESTON BEATEN 33-30 BY KANSAS CITY FIVE

Chicago—The 40 teams which last Tuesday played the first round in the national invitation interscholastic basketball tournament under the auspices of the University of Chicago, had narrowed down to eight by Tuesday night, which today will go into the final round preceding the semifinals.

Weston, southern Idaho high school which represented the Gem state in the national tournament, fought nobly for the honor of the west yesterday afternoon in a hard contest that was anybody's victory until the last, when the Kansas City champions triumphed by the close score of 33 to 30. Only the final whistle decided the tussle, the game having been a tie twice in the second half. Schmidt, Kansas City forward, made three baskets in a row in the last three minutes of play, which gave the eastern team its victory.

Walla Walla, other western team to play yesterday, was also eliminated by the Charleston, S. C. quintet in the first game of the day by a score of 26 to 26. Walla Walla, through its forward, Chaney, made a good showing in the second half, coming up with a big disadvantage against them and nearly tying the score several times.

## NEW LOCAL FRATERNITY TAKES OVER RESIDENCE

Kappa Delta, University of Idaho local fraternity organized here during the past winter, have moved into their home at 521 University avenue during the past week, and will formally be established in the chapter house Monday morning. The property was purchased from Mrs. D. Gerlough recently, and is situated on the corner of University avenue and Blake street, just adjoining the main entrance to the campus.

About eighteen men will live in the house this spring, it was stated this morning. Extensive repairs and remodeling is planned by the organization over the summer months when the house will be enlarged and arranged to accommodate about thirty.

Kappa Delta was organized here last December, and has been anxious since its founding to become located in permanent quarters. Their new residence now gives them one of the best fraternity locations in Moscow. Several Moscow students are among the membership of the organization. They are: John Bucholz, Harold Leonard, Horace Covey, Carter Pitcher, Lorne Wilson, and Philip Christen.

Grover James Duffy, '13, LL.B. degree, is now cashier of the Central State bank, at Cove, Ore.

## ALUMNI

Donald DuSault, Editor.

Idaho Alumni in the Banking and Insurance Business. A Pittman Atwood, '20, graduated with an LL.B. degree and is now in the insurance department of an insurance and real estate firm in Lewiston. For a short time after graduation, he was in the banking business.

Harry H. Daus, '11. Graduating with a C.E. degree Mr. Daus went to work with the Potlatch Lumber company in 1911-12. He was with a paving company until 1915 when he entered the insurance business in Portland. In 1917 he won fourth place on the honor list of the United States and Canada for selling a certain amount of insurance in the Travelers Insurance company, and in 1919 he won a free trip to Atlantic City, N. J., in another insurance selling contest.

Ray Washburn Fisher, '00, is now located at Victor, Mont. He was professor of horticulture at the Montana State college for seven years and later manager of a thousand acre orchard in Montana. He is now in the ranching and banking business at Victor.

Howard Hans Hansen, '21, is with the bond department of the First National bank of Everett, Wash. He has been made an honorary member of the Beta Gamma Sigma national commerce fraternity at the University of Washington.

Marshall Hooper, '04, writes that he has held the positions in a bank from bookkeeper to manager. He was examiner and assistant superintendent of the banks in Oregon for five years. He is now vice president of the First State and Savings bank at Klamath Falls, Ore.

Alfred D. Kettenbach, '11, is vice president of the Bank of Camas Prairie at Grangeville. During the World War he was overseas for seventeen months and received a citation from General Pershing personally. Since graduation he has spent two years in farming in Canada.

Howard E. Stein, '08, is doing business under the firm name of Stein & Lake of Boise, insurance and coal. He was internal revenue collector for Idaho in 1916. He writes that he played football from '04 to '08, that he was on the varsity during '06 and '07, and that in '07 they defeated W. S. C., 5 to 4. He claims the honor of being a member of the best looking senior class that Idaho has ever graduated.

Arthur Amzi Rogers, '06, after graduating was with the Moscow State bank until 1910, and was then cashier of the Winchester State bank in Oregon until 1917. He is now cashier of the First National bank of Eugene, Ore. He writes that he has two boys that will make the Idaho- varsity football team and also the all-coast team in a few years when they come to Idaho.

Now how about the classes of '03 and '13 having a reunion this June during commencement. You have been away for a number of years and it is time you were coming back to get acquainted with your alma mater again. Let's talk it up strong and

University of Idaho auditorium, and tickets will be put on sale Tuesday for the performance.

### Most Difficult Production

This is the first time that an all university cast has attempted a play on such a large scale, or one so difficult. "If" requires unusual strength of acting because of its length. A dragging moment would have spoiled it, but there weren't any dragging moments, and it carried life and action from the first scene in John Beal's home to the final curtain.

From start to finish the play, which was given especially for the Inland Teachers' association, was a success.

### "OLD VIOLET" RATED BEST COLLEGE COW

#### IDAHO ANIMAL RANKS EIGHTH IN UNITED STATES.

Holder of Numerous Records of Great Value—Champion in Northwest Show Rings.

Klaho Violet Posch Ormsby bred and owned by the University of Idaho, has completed a long-time test record with such a remarkable production that she takes the place as the highest record living cow for butterfat production owned by a state institution in the United States and a position among the list of great cows of the Holstein breed. She started the test at the age of 9 years, 5 months, and 18 days and her official record from the Holstein Friesian Association of America is 26,812.4 pounds of milk, containing 1,007.41 pounds of butterfat, equivalent to 1,259.26 pounds of butter, in the 365 days.

A summary of the ten and one half years of life of this exceptional cow would contain the following creditable statements:

#### Best College Animal.

She is the highest record living cow for butterfat production owned by a state institution in the United States.

She has the second highest butterfat record ever made by a cow owned by a state institution.

She has the fourth highest milk record ever made by a cow owned by a state institution.

She is the only cow in the United States owned by a state institution with three records over 1000 pounds of butter.

#### Eighth in United States.

She ranks eighth in the United States and ninth in the world among cows that have produced three or more records over 1000 pounds of butter.

She holds the Idaho state record for seven-day production in the mature class, and the state records for all breeds and ages for yearly milk and butterfat production.

She has been a champion in the

show ring and has two sons and two daughters that have been show ring winners.

She has two advanced registry daughters and one advanced registry son.

#### Gives 63 Tons of MILK.

Although Idaho Violet Posch Ormsby has passed the youthful days of her life she is still producing and she will soon have a total of approximately 63 tons of milk and three tons of butter to her credit. She is not only a good producer but a good reproducer and has given the herd three sons and three daughters of outstanding value. The daughters are making exceptional records while two of her sons are in service as sires in the university Holstein herd.

"Old Violet" was grand champion cow at the Western Royal Livestock show in 1922 and her daughter, Idaho Favorite, was grand champion at the Spokane Interstate the same year. Her son, Matador Violet Idaho, was undefeated in his class for three years and her older son was first in a strong class of 4-year-olds at the Pacific International show in 1921. She is not only a good type but is a breeder of good types, regardless of the sire with which she is mated, and her blood has been of great value to the university herd.

#### DRAKE IS APPOINTED HEAD OF STUDENT DRIVE

(Continued from Page One.) complete list of all high school students who will graduate this year, and by the end of this week a list of these will be sent to each group on the campus. This will enable every student to get in touch with the high school graduates from his own high school, and talk up the university to them.

Last year the student campaign drive was a new thing, and although it was started late in the year, it proved a big success.

Bachelor of Science in Geology.—William Hebson Birchby, Moscow; Robert Matthew Cummins, Wallace; Arthur Angus McLeod, Kamiah; Stan-

ley Spencer Slegfus, Salt Lake City, Utah.

Bachelor of Science in Mining.—Lynn Fletcher Hersey, Lenore; Sigurd Lawrence Sampson, Kellogg; Charles Arthur Sargent, Wallace.

#### College of Engineering

Bachelor of Science in Civil Engineering.—Walter Albrethsen, Gannett.

Bachelor of Science in Electrical Engineering.—Eric Gustav Anderson, Boise; Orlan Alget Gustafson, Vancouver, Wash.; Richard Robert Johnson, Morton; LeRoy Augustus Smith, Portland, Ore.; Edward John Specht, Priest River; Greek Wells, Fairfield.

Bachelor of Science in Mechanical Engineering.—Henry Bayard Hodgins, Moscow; Merritt Vernon Penwell, Moscow; Daniel Corbin Prescott, Spokane, Wash.; Philip Alexander Robertson, Bear.

#### Graduate Degrees

Master of Arts.—Evelyn Rosenber-

ger Clark, Boise; Joy Crockett, Portland, Ore.; Abram Hirsch Goldstone, Lewiston; Dorothy Carolyn Hall, Bellevue, Mont.; Kenneth Melrose Hunter, Coeur d'Alene; Camille McDaniel, Moscow; Dorothy Grace Willett, Oakland, Calif.

Master of Science.—Alice Marie Johnson, Mt. Vernon, N. Y.; Victor Emmons Jones, Moscow.

Master of Science in Home Economics.—Mary Lucille Lee Ralph, Clarksfork.

Master of Science in Agriculture.—Louis Francis Champlin, Tacoma, Wash.; Harry Peter Magnuson, Moscow.

Master of Science in Geology.—Alfred Leonard Anderson, Moscow.

Master of Science in Metallurgy.—Richard Melvin Westover, Moscow.

Master of Science in Education.—Lesetta Lubken Erickson, Boise; Harry Virgil Matthew, Moscow; Bernice McCoy, Moscow.

### W. C. A. PLANS MADE FOR MANY ACTIVITIES

With Miss Cletys Gossett as president the Y.W.C.A. promises to be a organization during the coming year and plans for the many activities well under way. A very successful meeting of the cabinet was held at the University Hut, just before vacation, with every member present. Plans for meetings were discussed and a decision made to continue business and social meetings, maintaining the interest of the members by making every meeting have some social features.

### CONSIDERABLE INTEREST IN THE SHORT COURSES

As shown from this year's attendance and the interest shown, the short course in practical dairy manufacturing given early by the University of Idaho is proving a distinct need. This is the first course of its kind given in the state in which a man of eighth grade education may obtain a thorough, practical working knowledge of buttermaking, cheese making, ice cream making, the handling of market milk and refrigeration and management, etc., in five months' time. Fourteen students this year took advantage of this course in full part. Nine men completed all the work and will be given certificates for they have been employed in a commercial plant for six months and have rendered satisfactory service to their employers. The other men took part of the work and are planning to return next year. Students attended from Idaho, Montana, Washington, and California.

All are beginning work as helpers and assistants in creameries, ice cream plants or cheese factories in Idaho, Washington, and Montana. Some of them had previous practical experience. Others are going out to gain such experience. The youngest was 16 years old and the oldest 43. One colored man was included in the class and appreciation of the work was shown by every one. Graduates of former years are now holding responsible positions as butter makers, cheese makers, and ice cream makers in different localities.

Changes for Next Year  
The course next year, according to Professor H. A. Bendixen, will include some additional work in market milk. New equipment will be added to the present facilities. Some market milk equipment including a bottling filler and sterilizer has already been installed. Plans are made for a new ice cream hardening room and installation of a homogenizer or colloidizer. It is also hoped that a cheese vat may be obtained as well as an additional churn and butter cutter in order to train the men as nearly factory conditions as possible.

### BASEBALL CANDIDATES BACK FROM LEWISTON

(Continued from Page One.)

ers enjoyed their stay. The team which went on the field for Sunday's game was: Snow, pitching; Kinison, catcher; Cobley, first base; Kleffner, second base; Stivers, shortstop; Larson, third base; Edwards, left field; Ostrander, center field; Fitzke, right field. Fitzke relieved Snow in the box in the fifth inning, while Snow took the field.

Other members of the squad who made the trip were Kline, Hillman, Fox, Mix, Coon, Grennalo, Cogan, and Smith.

#### Competition is Keen.

Competition is keen for berths on the first squad, none of the extra-seeming content to remain bench warmers during the season. Snappy ball is being exhibited by almost every candidate, and but few of the men who played Sunday are sure of their positions. Frequent changes may be expected in the varsity lineup as the season progresses. From all indications Idaho will have a snappy nine this year, well able to take care of the honors of Idaho in conference competition.

Coach MacMillan is well satisfied with the showing made by the boys at Lewiston. The brand of ball played Sunday was better than could be expected, considering the lack of training and the earliness of the season.

**VOLTA EXPLAINING HIS BATTERY TO NAPOLEON**

## How Electrical Engineering began

IT IS not enough to experiment and to observe in scientific research. There must also be interpretation. Take the cases of Galvani and Volta.

One day in 1786 Galvani touched with his metal instruments the nerves of a frog's amputated hind legs. The legs twitched in a very life-like way. Even when the frog's legs were hung from an iron railing by copper hooks, the phenomenon persisted. Galvani knew that he was dealing with electricity but concluded that the frog's legs had in some way generated the current.

Then came Volta, a contemporary, who said in effect: "Your interpretation is wrong. Two different metals in contact with a moist nerve set up currents of electricity. I will prove it without the aid of frog's legs."

Volta piled disks of different metals one on top of another and

separated the disks with moist pieces of cloth. Thus he generated a steady current. This was the "Voltaic pile"—the first battery, the first generator of electricity.

Both Galvani and Volta were careful experimenters, but Volta's correct interpretation of effects gave us electrical engineering.

Napoleon was the outstanding figure in the days of Galvani and Volta. He too possessed an active interest in science but only as an aid to Napoleon. He little imagined on examining Volta's crude battery that its effect on later civilization would be fully as profound as that of his own dynamic personality.

The effects of the work of Galvani and Volta may be traced through a hundred years of electrical development even to the latest discoveries made in the Research Laboratories of the General Electric Company.

## IDAHO FACULTY MEN WANTED AS SPEAKERS

Twenty-Six Engagements Made for Commencement Addresses in Idaho High Schools.

Twenty-six engagements already have been made for University of Idaho faculty members to deliver commencement addresses at Idaho schools this spring.

President A. H. Upham will visit the southeastern part of the state, speaking in towns in which he has not delivered commencement addresses in the two former years of his presidency. Dr. J. F. Messenger, dean of the school of education will visit the southwest.

### Speak in North

Speakers in north Idaho will be Prof. C. W. Chenoweth, head of the department of philosophy; Dean E. J. Iddings, of the college of agriculture; Prof. J. M. O'Gorman of the school of education; Dr. G. M. Miller, head of the department of English; Dr. J. G. Eldridge, dean of the university faculty, and Prof. Ph. Soulen, professor of school administration.

The most of the engagements are for Thursday and Friday, May 17 and 18, and for the corresponding days of the following week, May 24 and 25.

### Heavy Itinerary

President Upham's itinerary follows: May 11, Shoshone; May 15, Roberts; May 18, Salmon; May 20, probably a baccalaureate service at Challis; May 21, Arco; May 24, St. Anthony; May 31 or June 1, Potlatch, with several other engagements probably to be scheduled.

Dean Messenger: May 16, Gooding; May 17, Fruitland; May 18, Hazelton; May 19, Soda Springs; May 24, Nampa; May 25, probably Glenns Ferry.

Professor Chenoweth: May 17, Rathdrum; May 18, Spirit Lake; May 23, Winchester; May 24, Kendrick.

Dean Iddings: May 17, Wetpoc; May 18, Orofino.

Professor O'Gorman: May 18, Genesee; May 24, Juliaetta.

Dean Eldridge: May 18, Plummer.

Professor Miller: May 24, Nez Perce.

Professor Soulen: May 24, Troy; May 31, Craigmont.

## JUNIOR SHORT COURSE SET FOR JUNE 17-23

EXTENSION SERVICE OFFERING TO CLUB MEMBERS.

Week of Practical Training in Agriculture and Home Economics at University.

As an addition to its program to serve the educational interests of Idaho in the most efficient and desirable way the University of Idaho will offer a junior extension short course June 17 to 23. The course will be open to every regularly enrolled junior club member in the state and will give an opportunity for a week's practical instruction and training in the fundamentals of applied agriculture and home economics under the supervision of the University of Idaho faculty and extension division specialists.

A plan similar to this has been tried in several other states and found very satisfactory and it is the intention of the university to make it an annual event. The course is being arranged for by A. H. Stone, district club agent, who was in a large measure responsible for its being added to the university program.

### Use University Herds.

It is planned to give training to the club members through practical judging, demonstrations and group instruction in both theoretical and laboratory phases of the major junior projects in animal, dairy, and poultry husbandry, crops and soils, horticulture, canning, baking and sewing. The students will be particularly fortunate in having the exceptional herds and flock of the university to work with and also the well equipped laboratories of the college of agriculture and home economics department.

University dormitories will be available for the club members attending the course and although there will be no charge for room each will be expected to provide bedding. In order to reduce expenses to a minimum and make the course available to the greatest number it is the plan of Mr. Stone and others arranging for the course to have members make the trip by automobile, either coming with the extension specialists who will gather for the course or grouping and pro-rating the expenses.

### Entertainment to Feature.

The week's activities will open

with a picnic Sunday noon, June 17, and close with a lunch the following Saturday noon. A well rounded program, providing for recreation and entertainment as well as intensive instruction, has been provided. The course will be run on a semi-military basis, with reveille sounding at 6 o'clock in the morning and taps at 10 o'clock at night.

It is felt that after the junior members have completed the short course they will be able to return home much better equipped to conduct successful projects, which will be an important factor in raising the standard of boys' and girls' club work in Idaho above that in many other states.

University of Washington, Seattle, (P.I.P.A.)—The ancient and honorable game of horseshoes is to be one of the intra-mural, or inter-organization sports at the University of Washington this spring.

## U. IDAHO PROFS FAMED

Eight Members of University Faculty Address Inland Empire Teachers' Meetings.

Eight members of the University of Idaho faculty gave lectures and addresses at the Inland Empire Teachers' association convention held last week in Spokane. The Inland Empire convention is held every year for the purpose of discussing changes in teaching methods and new methods in education.

"Commercial Education in Secondary Schools" was covered in an address given by Professor H. C. Dale to the commercial instructors at the convention. Professor John H. Cushman addressed the section on public speaking and high school dramatics on the subject of "High School Dramatics."

Dr. George Morrey Miller, head of the English department, delivered the report of the committee on English in colleges and universities to the Inland Empire Council of English instructors.

Dr. H. L. Axtell delivered an address to the members of the classical section.

"The Business of Education" was the topic given by Dean Permeal French, dean of women, to the Woman's Executive League.

Mrs. M. L. Sargent addressed the modern languages group on "Some Problems in Language Teaching."

Professor James M. O'Gorman discussed the subject "The Education of the Public by Psychology Fakirs" before the division of education and psychology.

## INDOOR LEAGUE CLOSES

Intra-Mural Baseball League Games Finish This Week—Kappa Sigma Leads.

Intra-mural indoor baseball will come to a close this week end with Kappa Sigma nine the probable winners. The Kappa Sigmas are now leading the league with a perfect score and with but three games to play during this week. A possible defeat would leave the league leaders in a tie with Lindley hall for the championship.

It is the urgent request of the athletic department that all the scheduled games be played this week as intra-mural baseball, track and tennis are scheduled to start within the next few weeks. The schedule follows:

Tuesday, April 10, 7:15 p.m.—Lindley hall vs. Phi Gamma Delta, Phi Alpha Psi vs. Sigma Nu; Wednesday, April 11, 7:15 p.m.—S.A.E. vs. Phi Gamma Delta, Phi Delta Theta vs. Sigma Nu; Thursday, April 12, 7:15 p.m.—Phi Alpha Psi vs. Beta Theta Pi, Kappa Sigma vs. Phi Gamma Delta; Saturday, April 14, 1:00 p.m.—Phi Delta Theta vs. Beta Theta Pi, Kappa Sigma vs. Elwetias; 3:00 p.m., Lindley hall vs. Beta Theta Pi, Phi Alpha Psi vs. Phi Gamma Delta.

The League Standing is:

Team	Pct.
Kappa Sigma	1.000
Lindley hall	.840
Sigma Nu	.666
S. A. E.	.571
Elwetias	.500
Beta Theta Pi	.500
Phi Delta Theta	.333
Phi Gamma Delta	.000
Phi Alpha Psi	.000

## COAST CONFERENCE MEET AT PULLMAN ON JUNE 2

Washington State College, Pullman, (P.I.P.A.)—Washington State college campus will be the scene of the greatest track event of the spring when twelve of the leading colleges of the coast meet here in the annual Pacific Coast conference track and field meet on Rogers Field June 2.

## MINES BUREAU WORK FIXED FOR BIENNIUM

BOARD OF CONTROL OUTLINES IMPORTANT ACTIVITY.

Dean Thomson and Dr. Laney Prominent in Deciding Upon Two Year Program.

The outlining of a program for the present biennium was the salient accomplishment of a meeting of the state bureau of mines and geology board of control held in Boise recently. The board consists of Governor C. C. Moore, ex-officio chairman; C. W. Newton, president of the Idaho Mining association; Stewart Campbell, state mine inspector; Dr. F. B. Laney, head of the geology department of the University of Idaho school of mines, and Francis A. Thomson, dean of the school, ex-officio secretary. All members were present.

After the secretary presented a report of the activities of the bureau during the biennium of 1921-22, the substance of which has already been made public through the press, the board turned its attention to the consideration of requests for geological and metallurgical work during the present biennium. Based upon these requests and the plan of proposals put forth by the secretary the program for the next two years was decided upon. The following parts of the program will be in co-operation with the United States Geological survey:

### Program is Outlined.

"Completion of the work in the Seven Devils area; completion of the geological survey already begun in the Pen d'Oreille area, and also of the work partially completed in the Cuddy mountain district.

"It was also decided to request the geological survey to make available at once the unpublished material on the Hailey area and to undertake such further work as may be necessary for the final completion of the report on this very active district.

"It was also tentatively agreed, if the funds will permit, that a geological survey of the copper mining area in the vicinity of Salmon City should be made.

### No State Money Used.

"The question of a re-survey of the Coeur d'Alene area and of the bringing up to date of Professional Paper 62 by Ransome and Calkins was brought up for consideration, and it was decided that no state money should be expended on this project during the present biennium, but that the bureau should request the geological survey to include this in its field program for the present year.

"Among the non-metalliferous investigations the board authorized a survey of the oil possibilities of the area lying east of Blackfoot and Idaho Falls, and a reconnaissance of those portions of Oneida and Power counties which offer petroleum possibilities."

The board authorized the publishing of the reports on the artesian water resources of Goose creek, Pahsimeroi valley, and Bruneau river valley. A fund of \$2000 was set aside to be used in furthering the artesian water resources and investigations, the areas to be covered being left to the secretary, the commissioner of reclamation, and water resources branch of the geological survey.

### Work Only in Idaho.

It was also decided that in view of the small appropriation available and the attitude of the federal government in declining to undertake co-operative topographical work unless a minimum of \$5000 for each project is guaranteed by the co-operating state, to undertake no topographical work during the biennium but to confine attention exclusively to investigation of the mineral resources of the state.

The following phases of the program were agreed upon for co-operation with the United States bureau of mines:

"Continuation of the work already being done in flotation and classification and a general investigation of the possible treatment for dry silver ores and oxidized lead and copper ores of the state. The board decided in this connection to make a careful investigation of the merits of a process being put forth by the Eureka Metallurgical company of Salt Lake City.

### Develop Clay Resources.

"Further work in the development of the clay resources of the state was authorized and a proposed investigation of the best methods for utilization of the Teton coal was discussed and in general approved."

Among the non-co-operative investigations planned will come the following:

Continuation of the work of mineral determination was authorized and completion of the investigations already under way as to the geology and

gold resources of the Boise basin was ordered pushed through as rapidly as possible.

Other projects under this heading which will receive attention are investigations of the ore deposits of central Idaho, including Elk City, Buffalo Hump, and other districts, and a completion of the general investigation of the phosphate resources was also authorized.

## CALIFORNIA AND STANFORD COMBINE ON PUBLICATION

University of California, Berkeley, (P.I.P.A.)—California and Stanford issued a combination of the Pelican and Chaparral, the college comic magazines, April 4.

Work on the publication was begun by the two staffs of the two universities last November. It was the largest issue of its kind ever published. The magazine contained 72 pages, 32 of which were devoted to humorous articles.

## DEAN ANGELL HONORED

Head of College of Letters and Science Elected President of Scientific Association.

Dr. M. F. Angell, dean of the college of letters and science at the University of Idaho, has been elected president of the newly-formed Northwest Scientific association, which is an outgrowth of the Inland Empire association. Dr. Angell, who is professor of physics at the University of Idaho, is one of the foremost physicists in the northwest and is actively engaged in research work.

The organization meeting was held in Spokane in conjunction with the annual convention of the Inland Empire Teachers' association. Other officers elected were Dr. Curtis Merriam, Cheney normal, vice president; Dr. F. D. Heald, Washington State college, secretary; E. B. Harris, Spokane university, treasurer; Dr. Morton J. Elrod, Missoula, Dr. A. L. Melander, Pullman, and Professor H. S. Brode, Whitman college, councilors. The purpose of the association is the promotion of scientific research and the diffusion of scientific knowledge.

## U. S. FORESTRY SERVICE OFFERS JOBS TO MEN

Washington State college, Pullman, (P.I.P.A.)—Uncle Sam has stepped forward in his effort to help the college students find employment in the National Forest Service of the northwest. The men will have their choice of several positions in the service such as patrolling, packing, road and trail construction and other jobs.

## TRACK MEET POSTPONED

Intra-Mural Outdoor Event to be Staged Middle of May—Weather Causes Delay.

The intra-mural outdoor track meet, which was to have been held this month, will be postponed until the middle of May, according to the latest reports from the athletic office. The fact that spring vacation interfered to a large extent with training among the intra-mural athletes pointed to the fact that competition in a meet held this week or next would not be exceedingly keen, so the meet is to be run off on one of the open dates in May.

Now that spring weather has really arrived, training is far more practical, and the intra-mural meet in May should be far more satisfactory from all standpoints than the indoor meet.

## PUBLIC SALES

We have purchased 122,000 pair U.S. Army Munson last shoes, sizes 5 1/2 to 12 which was the entire surplus stock of one of the largest U.S. government shoe contractors.

This shoe is guaranteed one hundred per cent solid leather, color dark tan, bellows tongue, dirt and waterproof. The actual value of this shoe is \$6.00. Owing to this tremendous buy we can offer same to the public at \$2.95.

Send correct size. Pay postman on delivery or send money order. If shoes are not as represented we will cheerfully refund your money promptly upon request.

NATIONAL BAY STATE SHOE COMPANY  
296 Broadway, New York, N. Y.

University of Washington, Seattle, (P.I.P.A.)—Coach Enoch Bagshaw has made his call for the spring football turnout and more than fifty men answered the summons. The first workout was very light, most of the burden being born by the coaches. Bagshaw lectured on the theory of the

different parts of the game. This was followed by a practical demonstration by the coaching staff. Owing to the use of the stadium by the track men it is necessary for the spring football turnout to take place on one of the smaller fields.
