

SPRING VACATION IS ELIMINATED AS RESULT OF FACULTY RULING

Doing Away With Recess Scheduled on Calendar for April 2-9 Advances Dates One Week—Second Semester Exams Close June Eight—Commencement on June Second.

WINTER VACATION INSTEAD

Definite Dates Established in Calendar for Class Dances and Junior Prom

The regular spring vacation, to have been in effect from April 2 to 9, has been disbanded and the school term will end a week early; this was decided by the faculty at their last meeting. Instead of the usual week recess there will be an Easter holiday from Thursday to Monday, or from April 18 to 21. This action was taken to make it possible for the students from southern Idaho to get to their homes earlier in the year.

The elimination of the spring vacation has made it necessary for other dates on the college calendar to be changed. Baccalaureate Sunday will be on June 1, Commencement on June 2, and all examinations will close on Friday, June 6.

There will be two different courses offered at the summer school session, one of nine weeks for graduate work, and one of six weeks for beginning classes. The nine weeks course will begin on May 19, and the shorter session will start June 9, and both will be terminated on July 18.

DATES SETTLED

Because of the difficulties experienced in the past in arranging dates for various all-college activities, the following days have been permanently designated by the faculty:

Senior Prom, second Saturday in October.

Co-ed prom, fourth Saturday in October.

Sophomore Frolic, first Saturday after Thanksgiving vacation.

Freshman Glee, third Saturday following the Junior Prom.

Junior Prom, first Friday after the Easter vacation.

WORLD NEWS

Detroit, Mich., Dec. 11.—A strike ballot was being mailed today to all maintenance of way men in Canada, reports the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers.

Washington, Dec. 11.—United States pays double on sugar price. Cuban crop probe shows gouging, is the belief. The tariff commission finds refined sugar in New York costs five cents a pound.

New York, Dec. 11.—Denial of banking facilities to bucket shops to restrict their operations was suggested by Seymour L. Cromwell, president of the New York stock exchange at the 11th annual dinner of the Bankers' Forum, New York chapter, American Institute of Banking.

Washington, Dec. 11.—By a Canadian government order just issued, American fishing vessels after December 31st will be unable to enter Canadian harbors except in emergency.

San Pedro, Calif., Dec. 11.—One of the greatest displays of United States naval strength ever seen in Pacific waters was shown off shore here today in the second of a two-day program of assembly of the entire United States battle fleet under the command of Admiral S. N. Robinson.

London, Dec. 11.—J. Ramsey MacDonald is hailed next prime minister as he alighted from his train at the Paddington station. He believes in the Labor party, and predicts more strength of this party due to fifty new members.

Berlin, Dec. 11.—Chancellor Marx's authorization law, granting his cabinet power to run the government affairs without parliamentary sanction for an indefinite period, was adopted in the reichstag today.

London, Egypt, Dec. 11.—Removal of the great blue and gold energy over the nest of shrines in Jerusalem, today has revealed

a find which constitutes an excellent augury for Howard Carter's high hopes of discovering the full picturesque regalia of an Egyptian king.

Washington, Dec. 11.—Child labor is increasing. The latest figures received by United States children's bureau report an increase in child labor in 1923 as compared with 1921, and in 1923 as compared with 1922. For twenty-eight cities furnishing monthly figures the increase was forty-six percent.

Buenos Aires, Dec. 11.—Luis Firpo, Argentine heavyweight fighter, this afternoon made his first public appearance since he returned from the United States. He gave a four-round exhibition with his former trainer, Joe Boykin, at an entertainment for charity.

Co-Eds Take Daily Dozen; Gain in Spite of Labors

Have you heard the latest women's fad that is a direct result of gym? It's a regulating process for obtaining fat on limb. And also if you'd notice, the same gymnastics do the opposite to those who feel they'd lose a pound or two. And after every exercise their appetites begin, and though they diet, you just try it. It's no joke getting thin. Now others to gain weight instead, eat less than those who fast; and pounds and pounds gained in "three rounds" does scarcely ever last. At ten o'clock they start their tricks. Oh, how doth Forney shake! And wondering why, you hear them cry. "It's all for BEAUTY'S SAKE."

GONZAGA GETS ADMITTANCE TO NORTHWEST CONFERENCE

Bulldogs Are Admitted Into Circle After Years Of Fruitless Petitioning

Gonzaga university of Spokane was admitted into the Northwest Intercollegiate conference at a meeting of the representatives of the colleges and universities in the conference held at Portland, Oregon yesterday.

The admittance of the Spokane school was the most important part of the meeting and, while it was generally conceded that Gonzaga had a good chance for admittance, it was thought that a great deal of opposition would be brought to bear to bar the Spokane school.

Gonzaga has endeavored to live up to all of the rules of the conference this year. Last year the school was refused admission because of laxness of rules.

In living up to the eligibility rule of the conference it was found that Pecaorovich, crack football man at Gonzaga, was barred, and although his withdrawal was a serious blow to the chances of the 1923 team, he was let go. This was only one of the few losses that Gonzaga had to suffer in order to come through the season unscathed.

LOUNSBERRY TO SPEAK IN GENERAL ASSEMBLY TOMORROW

H. E. Lounsberry, general freight agent of the Union Pacific system, with headquarters in Portland, will speak at the general assembly Wednesday on "Transportation."

Mr. Lounsberry's talk will no doubt be very interesting in view of the fact that he is a veteran in the industry having been actively connected with railroad work for the past twenty years.

In addition to his talk in person tomorrow, Mr. Lounsberry will address the members of the Alpha Kappa Psi fraternity at their monthly meeting in the hall of the building.

BASKETBALL SQUAD WILL PLAY PRE-SEASON GAMES

TWELVE PLAYERS WILL ENGAGE IN BARNSTORMING TOUR

Fifteen Contests With Athletic Clubs Scheduled As Workout During Christmas Vacation

Fifteen pre-season games have been scheduled during the Christmas holidays for the Idaho basketball squad in order to whip into shape Coach David MacMillan's dark-horse Vandals. Beginning December 19 at Lewiston the barnstorming tour will swing by way of Spokane to northern Idaho and back through eastern Washington to finish at Pottlatch, January 5.

This vacation trip will enable Coach MacMillan to estimate better the strength of his squad and cover the weaknesses left by the loss of practically all of the last year's championship team. Of the 20 men turning out regularly 12 will make the trip, but the personnel of this squad will not be announced until the day before departure.

The large proportion of new material in the Vandal team makes these practice games especially valuable to experience the men and test them out.

The schedule for the holiday trip follows:

December 19, Lewiston normal at Lewiston.

December 21, Cheney normal, at Cheney, Washington.

Dec. 22, S. A. A. C., at Spokane.

Dec. 24, Wallace Basketball club, at Wallace, (tentative).

Dec. 25 and 26, Kellogg Athletic Club, at Kellogg, (tentative).

Dec. 27, Coeur d'Alene Basketball club, at Coeur d'Alene, (tentative).

Dec. 28 and 29, All Stars, at Leavenworth, Washington.

Jan. 2 and 3, Elk River Club, at Elk River.

Jan. 4 and 5, Pottlatch Athletic club, at Pottlatch.

December 31 and Jan. 1, Elk's Athletic club, at St. Maries.

ACHILLES CLUB PREPARING PETITION FOR NATIONAL

Campus Military Organization Seeks Membership In National Scabbard And Blade Society

The Achilles club, a local military fraternity enrolling senior members of the R. O. T. C. unit, is preparing to petition Scabbard and Blade, national military fraternity, according to Arthur D. Golden, president of the local society. The club now has eight members and four pledges on its roll.

The national fraternity, if the petition is granted, will confer a high honor on the local organization as there are only 28 chapters in the United States at the present time. In the western section of the country there are only three colleges that have been granted chapters to date. The Oregon Agricultural College, University of Washington, and Washington State College are the ones that have been honored by chapters.

Major-General Leonard Wood, General John J. Pershing, and many others prominent and high in the military life of this nation are enrolled as members in the national.

DEAN ANGELL RETURNS TODAY FROM CONFERENCE MEETINGS

Concludes Several Day's Absence Spent Attending Athletic Conventions

M. F. Angell, Idaho representative at the Pacific coast conference, and president of the Northwest conference, will return today from meetings of the conference heads to arrange football schedules for 1924.

The Pacific coast conference meeting was held at the Whitecotton hotel, at Berkeley, and the meeting of the Northwest conference was held in Portland. The latter meeting was originally scheduled in Spokane, but the location was changed to permit representatives from O. A. C. to attend before they left with the football team for the Christmas game in Honolulu.

Coach Mathews, the other Idaho representative to the conference meeting, is expected to return Thursday of this week.

MOVE MADE TO SECURE RATES FOR HOLIDAYS

APPROXIMATELY 200 STUDENTS WILL LEAVE FOR SOUTH

Boise Chamber of Commerce Acts To Obtain Less Fare On Christmas Special

A move to obtain reduced rates for university students who desire to go home for the Christmas holidays is being made by the Boise Chamber of Commerce in behalf of the 200 southern Idaho students, many of whom may be compelled to stay in Moscow during Christmas if the reduced rates are not granted.

After being advised that President A. H. Upham of the university was informed by the railroad officials that the reduced fares could not be granted this year, the Chamber of Commerce took the matter up with D. S. Spencer, general passenger agent in Salt Lake, who also replied that the rates could not be granted.

Accordingly, George Graff, secretary of the Chamber, late Wednesday, sent the following telegram to W. S. Bassinger, passenger traffic manager of the Union Pacific in Omaha.

"Request made to McMurray and Spencer for holiday rates for university students of Moscow to southern Idaho points. They can offer no encouragement. Insist past policy granting rates be continued. Approximately 200 students will leave Moscow for southern Idaho over Union Pacific system. Respectfully request that rates be granted."

TICKETS FOR "SWEETHEARTS" PLACED ON RESERVE TODAY

Final Touches On Senior Musical Comedy For Thursday and Friday Nights

Reserved seats for "Sweethearts", the musical comedy to be given at the university auditorium Thursday and Friday evenings under the general direction of the Class of 1924, are available at Hodgins' Drug store today.

The production of "Sweethearts" at the university is the result of an effort on the part of the student body to coordinate undergraduate dramatic affairs in such a way as to offer not only a variety of entertainment but also something of a substantial character. To the senior class each year may be given the responsibility of producing musical comedy or light opera which calls for the employment of united dramatic, musical and dancing talents. "Sweethearts" has been chosen as the first production of this kind.

A POPULAR HIT

"Sweethearts" is one of the best of the well known Victor Herbert musical comedies. The book is not in print and may only be obtained under certain restrictions and guarantees. The musical score is by Victor Herbert, the book by Harry B. Smith, and Fred de Gresac. The music calls for a range that approaches comic opera, but is lightened by melodies of remarkable sweetness, the most popular of which is the "Sweethearts" waltz. The comedy lines have snap and originality and offer excellent opportunities for clever characterization.

"GRAUSTARK" TYPE PLOT

The plot is of the "Graustark" type, with a lost heiress, a prince in disguise, toy soldiers, pretty village maids, and comic villains, all wandering about in the half-medieval, half-modern setting of a hidden kingdom in central Europe. The play opens at the laundry of the "White Geese" in Bruges, where Dame Paula, called "Mother Goose," conducts a business with the help of her seven pretty daughters. Among the daughters is an adopted child, Sylvia, who has been left in Dame Paula's care by Mikel Miklovitz. Knowing that Sylvia is the crown princess of the little kingdom of Zilania, Mikel is conspiring to restore her to the throne, which is about to be offered to Franz, the heir presumptive. Franz, traveling incognito, has fallen in love with Sylvia and finds a rival in Lieutenant Kant, a military Lothario, betrothed to Sylvia. Mikel's schemes are foiled by Hon. P. Morgan Shaws, Peter Van Tromp, and Aristide.

LEST YOU FORGET

The co-ed try outs for the triangular Idaho, Whitman, and Washington debate will be held on Wednesday, December 12, in room 213 at 7:30 p. m. The question to be debated will be: "Resolved that the United States should enter the world court under conditions specified in the Harding plan." Five minutes will be allowed on each side of the question.

VANDALS HAVE THREE HOME GAMES SCHEDULED FOR 1924 GRID SEASON

Next Season Regarded as Paradise for Vandal Football Fans—Three Pacific Coast Conference Games Slated for Play on MacLean Field—Brilliant Season is Predicted.

Prohibition Scores One Moscow Goes Sahara Dry

Who is you melancholy man who walks with head so low and face so sad and pensive. That, dear children, is the campus rum hound, one of the charter members of the local funnel gang. He has just heard the news that is causing such a weeping and a walling and gnashing of teeth among the male section of the population. Moscow has finally gone dry.

The whole thing happened like a bolt out of a clear sky. Without the slightest warning or hint so that the prudent might lay in a stock against the impending drought, the members of the clandestine Bartender's union were hailed before the court and the town went as arid as the plains of Timbuctoo.

A heart rending scene took place in the court when it was found that the alleged offenders were all, nothing more nor less, than oil men. Sad to relate the judge found that they were oil men in truth but that the brand of oil they sold was of the fusel brand so they were committed to the bastille without further delay. When the news reached the campus one celebrity gave a hoarse, cynical laugh, bit his pencil into three pieces and gracefully fainted.

WALSER GREATHOUSE WINS RHODES SCHOLARSHIP AWARD

Senior Class Member Is Twelfth Idaho Man To Receive High Honors

Walsler S. Greathouse of Boise, whose appointment as Rhodes scholar from Idaho was announced Sunday, is the thirteenth University of Idaho student to receive this honor. Greathouse, who is a senior in the college of letters and science, has engaged in many student activities on the Idaho campus. He was a member for three years of the varsity debate team and manager in 1921-1922, associate editor of the student annual, "The Gem of the Mountains," and president of the English club. He won "A" honors all three years and is now assistant in the department of philosophy. He is a member of the Sigma Alpha Epsilon fraternity.

Two other candidates, D. Roy Shoultz of Gooding, and Harold C. Wyman of Colfax, Wash., were nominated by the University of Idaho; and one, Thomas P. Graham of Boise, by Whitman college.

There have been 13 Rhodes scholars appointed from the state of Idaho, and of these 12 were nominated by the University of Idaho and one by Whitman college. There are two Rhodes scholars now in attendance at Oxford university, Edwin D. Ford, Jr., of Weiser, who was appointed in 1921 from Whitman college, and Philip W. Buck, of Monrovia, Calif., from the University of Idaho last year.

The Rhodes scholarships are appropriated to each state and amount to approximately \$1500 yearly. Appointments are made twice in three years by the committee of selection, at present consisting of A. H. Upham, president, University of Idaho, chairman; McKeen F. Morrow of Boise, secretary; R. F. Sholtz, president of Reed college, Portland; C. H. Woody of Pullman, Wash., and G. H. Curtis of Shoshone.

STANFORD GAME FEATURE

W. S. C., O. A. C., and Stanford To Send Teams To Moscow

Representatives of the University of Idaho, Coach R. L. Mathews, A. H. Knudson and Dr. M. F. Angell, dean of the college of letters and science, backed by the phenomenal showing of the Vandals of 1923, carried off all honors in the fixing of football schedules for 1924, at the Pacific Coast conference meeting in Berkeley yesterday. The Idaho Vandals will meet five Pacific Coast conference teams next season and three of these games, with Washington State College, Stanford university, and the University of Oregon, will be home games.

ONE LONG TRIP

The 1924 schedule calls for more home games than on any schedule ever arranged for an Idaho football team. In the Pacific Coast conference schedule Idaho will have one long trip next season—to Los Angeles to meet the U. S. C. Trojans and the only other Pacific Coast conference team to be played on its home field will be the Oregon Agricultural college eleven at Corvallis, Ore.

Idaho's schedule of games will be filled out at the coming meeting of the Northwest conference at Spokane next week.

The Stanford-Idaho game, sought for by Spokane people, is scheduled at Moscow. It is possible that the

(Continued on page two)

UNIVERSITY OF MONTANA ADMITTED TO CONFERENCE

Pacific Coast Association Approves Scholastic And Athletic Requirements of Montana Institution

BERKELEY, Cal., Dec. 8. — The University of Montana was admitted to membership in the Pacific Coast Intercollegiate conference at an executive session of the conference held at Berkeley last Saturday, which approved the scholastic and athletic requirements of the institution.

The conference agreed that effort would be made to arrange a game between Montana and the University of California or Stanford in the 1924 schedule for football.

Final decision to admit Montana to the conference resulted from a review of the work of the Montana freshmen football team, which indicated the university would throw a varsity team into the conference in 1924, which would be a serious contender for championship honors.

The conference resolved informally, however, that no additional members be admitted to the conference for several years.

Upon the request of the University of Washington and the University of Southern California, a minor amendment to the constitution was voted to permit prospective members of university football teams to play on church teams. Regular varsity team members cannot play outside, however.

William R. Le Porte, University of Southern California, was named president and H. V. Carpenter of Washington State College was re-elected secretary.

Next year's meeting will be held at Portland, Oregon, December 8 and 9. James W. Lawson of Long Beach was elected captain of the Stanford football team for 1924. Jim plays right end for Stanford and is a star. He was badly hurt in the University of Southern California game, but came back strong in the California game and distinguished himself.

Lawson is a member of the Delta Kappa Epsilon fraternity and is a very popular man at Stanford. His brother, Dick, is a high-class football player, but he was kept out of the game by injuries this year. Dick is very apt to star for Stanford next year.

The Last Lap

THE twelve weeks' exams are over, and the last lap of the first semester is now before us. At this time it would be well to check up, and determine just what scholastic condition confronts you. How many themes are overdue? How many reports that should have been handed in weeks ago have never as yet been worked upon? How many unexcused absences stare you in the face? There is a myriad of similar questions that you can ask yourself.

And now is the time to settle them, and straighten up all work for the final uphill pull. Ten days remain before the Christmas holidays. This brief period affords practically the only time in which these matters can be settled. After the return from vacation there are but 21 days in which to overcome the effects of joyful idleness and rest, keep up on assignments and prepare for the rigors of final examinations. The next ten days may mean a difference between an "A" and a "B" average for the semester, or even the difference between continuing in college during the spring months or an enforced vacation.

Spring Vacation

BY recent action of the faculty spring vacation was cut from a week to three days. This will permit commencement to be held one week earlier than was originally planned, and the argument that a spring vacation was necessary to break the monotony of the five and a half months from the Christmas holidays until the close of college has been met.

This decision has created a happy medium between the two extremes—no spring vacation at all, with commencement at an earlier date, and a spring vacation as a break in the spring months. The good points offered in both arguments have been embraced in the decision.

In Memoriam

In memoriam of those poor souls who perished in the last six weeks exams, to whom we extend our heartfelt sympathy and for whose redemption we bow our heads and most humbly pray, this space is respectfully dedicated.

UNIVERSITY TO HAVE XMAS TREE PROGRAM ON CAMPUS

The university is to have a unique Christmas program to typify the Yuletide spirit that is found on the campus during the mid-year holidays. Certain of the large trees on the campus are to be lighted and the entire student body will take part in the festivities. As has been done in the past, students will sing carols and serenade different buildings of the university. The committee that has been appointed to make the necessary arrangements is composed of Prof. E. O. Bangs, Mrs. Blomquist, Prof. John Cushman, Miss Adair, and Miss McCoy.

TO BUILD LIBRARY

Making possible an exterior decorative feature for the new University of Washington library which otherwise would have been omitted probably for many years, Horace C. Henry, of Seattle, has given the University \$1,800, to be expended in the remodeling of 18 statues of great men which are to adorn the facade of the structure.

The gift will materially contribute toward making the new library building the most imposing structure on the University of Washington campus, and perhaps the most imposing building in Seattle. Construction work on the building already is under way.

The university also received a \$250,000 gift from Mrs. Agnes H. Anderson in memory of the late Alfred H. Anderson, the state's pioneer lumberman, to be used for the construction of a new forestry building. The university architects have been directed to prepare plans and proceed with the construction work.

Try This On A Bowl of Mashed Spuds

—T. L. R.—

VANDALS HAVE THREE HOME GAMES SCHEDULED FOR 1924 GRID SEASON

(Continued from page one)

game might be played in Spokane although the game is scheduled at the present time in Moscow.

W. S. C. TEAM TO TRAVEL

As the result of the schedule making Washington State College has no coast conference games at home. The University of Washington and the University of Idaho will not meet on the gridiron field next season.

The California teams and Washington will play only four conference games, while Oregon, the Oregon Aggies, Washington State and Idaho will be called upon to meet five conference opponents. In 1923 Idaho was made the road team, while this year the burden has been shifted to Washington State College and the team being built up by Coach A. A. Exendine.

No action is to be taken this year on the proposal to fix schedules of freshman football teams, it was decided. The conference also agreed that present eligibility rules should stand without change. Election of officers will be held today.

NO ADMISSION PETITIONS

No petitions for admission to the conference were filed this year, it was said. It had been rumored that the University of Nevada and Gonzaga university of Spokane might seek conference standing. Gonzaga will apply for admission to the northwest conference.

A resolution was passed approving a game between the United States Naval academy and the University of Washington January 1, 1924. The resolution stipulated that "the contract for the game shall be made directly between the two institutions and that the entire management and control of the game shall be in the hands of the two institutions."

Discussion preliminary to the passage of the resolution occupied the entire afternoon. Warm debates ensued, with all delegates taking a hand.

Sigma Nu: Messrs. Anderson, Olson, Morse, Felton, Bailey, and MacKinnon.

Elwetos: Messrs. Oscar Rierman and George Smith, both members of the Kappa Psi fraternity of W. S. C.

Miss Beatrice Hunter of Gamma Phi Beta spent the past week visiting in Spokane.

Messrs. E. A. Reed, T. J. Felton, H. Glindeman, J. W. McCrea, and F. W. Fitz, of Coeur d'Alene, visited Sigma Nu, enroute to the Shriner's convention in Lewiston.

Floyd Marchesi returned Monday after a short trip to Corvallis, Ore.

Mr. and Mrs. Frank Morris of Lewiston were Sunday visitors of Sigma Nu fraternity.

J. Ward Arney of Coeur d'Alene was a guest of Sigma Nu last weekend. Mr. Arney has been attending the meeting of the American Legion of which he is the state Legal Advisor.

Mr. and Mrs. John Kennedy of Clarkston were Sunday visitors of Chi Beta Epsilon.

Henry Felton, '21, was renewing acquaintances on the campus Sunday. Mr. Felton is at present engaged in the practice of law at Troy, Idaho.

OIL INDUSTRIES GET BOOST IN BEAR LAKE COUNTY

Pamphlet Issued By Bureau Mines Contain Information On Oil Formations

Some of the exposed rocks in southeastern Bear Lake county, Idaho, show characteristics similar to oil bearing formations in other Rocky mountain states. This conclusion is contained in pamphlet No. 7 issued by the bureau of mines and geology of the state of Idaho under the authorship of Virgil R. D. Kirkham, one of the bureau's geologists, and represents a correlation of available material in the reports of the United States geological survey and of field observations collected by the state bureau staff.

Practically all of the area in consideration is tributary to Montpelier, Idaho, by wagon road, and is traversed by the main line of the Union Pacific railway. Sheep raising and farming are its chief industries.

Correlation of formations in this area with oil and gas producing formations in other states has resulted in the tentative linking up of those formations with the ones which are credited with producing oil in the Kevin-Sunburst field in Montana, the Big Horn basin in central Wyoming, and the Shoshone river basin in western Wyoming.

In summary the pamphlet says: "The most favorable conclusion that can be drawn is simply this: some of the rocks exposed in the area are marine sedimentaries of approximately the same age and showing similar lithologic characteristics as oil bearing formations in other Rocky mountain states, as Wyoming and Montana. Further detailed geologic work in the area would be necessary to a more complete discussion of the structural and other pertinent factors."

PULLMAN BASKETBALL MEN GET READY FOR THE SEASON

PULLMAN, Dec. 9 — Varsity basketball practice is speeding up under the supervision of Coach Roy Bohler.

Carl McCarthy, letter man and substitute center of last season's quintet, is out for center to solve the team problem, but is handicapped in size. Leonard Gehrke, center on last year's freshman team, is showing improvement. For guards Coach Bohler has Captain Lowell Schroeder and Bryan Reese.

Other players who will make bids for the guard positions are Harold McCurdy and Clarence Anderson, subs of last year, and Bill Weingarten of the 1922 freshman squad.

In Wallace Kelso and Joe Chandler, forwards of last year, W. S. C. has two speedy forwards. Kelso, who made his first letter last year, is an unerring shot. Leon Sayers, Bill Nolan, Leonard and Ernest Morgan, are other contenders for forwards.

The Old College Lawn of U. S. C. was recently turned into a fair grounds for a day of "food, fun, and frolic." Everything for the carnival was donated by women students and the money was added to the Women's Hall Fund.

Shampooing of long hair and bobbed, manicuring and eyebrow training, all at modest prices, and the newest things, tonsorially speaking, are features of the women's barber shop recently opened in Harwood Court, Pomona College.

UNIVERSITY SHORTHORN CALF WINS FIRST AT CHICAGO SHOW

"E-dah-ho", the University of Idaho Shorthorn calf, has been awarded first in a class of 30 junior calves, at the recent International Livestock show held at Chicago.

Incidentally "E-dah-ho" is the first beef animal of the state of Idaho to win first at an international exhibition. This feat is given added glory according to Dean Iddings, who returned Monday from the exhibition.

PROF. LEWIS ON COMMITTEE FOR INVESTIGATING PROJECT

With Two Other Members Will Consider Feasibility of Mountain Home Irrigation Scheme

M. R. Lewis, professor of Agriculture Engineering of the University of Idaho, has been appointed a member of an investigation committee, by the Exchange Club, of Boise, to pass upon the feasibility of watering the Mountain Home Irrigation Project. The other members of the committee are Warren G. Swendsen, commissioner of Reclamation of Idaho, A. J. Wiley, consulting engineer of the United States Reclamation service. The work of these men will be done in relation to the watering of the vast tracts of land that lie between Boise and Mountain Home.

OREGON AGRICULTURAL COLLEGE, Corvallis.—Coach Rutherford has his football players in trim for the long trip to Honolulu, on which they start next Tuesday. Little hard work has been given the team since the Multnomah game as the Aggie mentor believes the men are in the best of condition.

To keep the squad in training during the trip the coach has ordered that they take their gym suits along. They will have light workouts daily while on board ship. The unaccustomed heat will be a handicap for the cold blooded Oregonians, and Rutherford is taking no chances on the men over exerting.

Christmas Cards

Our complete line is now on display. Make your selections early.

TICKETS FOR "SWEETHEARTS" PLACED ON RESERVE TODAY

(Continued from page one)

Caniche, who wish to purchase Prince Franz's estates in Zilania. Liane, a milliner, has sought temporary employment in the laundry of the "White Geese" and is mistaken by Mikel and Slingsby for the lost princess. Here begin complications which are unraveled in the second act at the chateau of Prince Franz, in Zilania.

The musical burden of the play will be carried for the women principally by Florence Selby as "Sylvia", Louisa Martin as "Liane" and Edith Barton as "Mother Goose," and for the men by William Michael as "Prince Franz", and Wesley Barton as "Lieutenant Karl." The comedians include Joe Cogan as "Mikel," Thone Roos as "Slingsby," Bud Melin as "Van Tromp," and Maurice Jackson as "Caniche."

CLEVER DANCES

In addition to the choruses, solos, and comedy, there will be dancing, among the best of which are the military dance by the soldiers and laundresses, the wooden shoe dance by the four comedians, and the pantomime by Liane and Karl. Between acts a revue will picture characteristic feminine types as portrayed by college women selected in a try-out for this purpose.

The settings have been designed for the play by Mr. Cushman and have been done by Don Payne and "Crab" Taylor. Costumes which range from peasant gala dress and fancy uniforms to court dress have been superintended by Ruby Gates. The direction of the play includes Prof. Bangs for the musical numbers, Prof. John Cushman for the acting and stage setting, and Miss Lillian Wirt of the physical education department, for the dancing. The prices are the same as set for the Pep band show, seventy-five cents and one dollar.

FASCINATING REGALIA AT O. A. C. CO-ED PROM

Powdered wigs and hoopskirts, bare knees and gym suits, and costumes ranging from the most elaborate oriental gowns to organ grinders and street gamins featured the Oregon Agricultural College co-ed ball. All males were excluded.

Twenty women students of the University of Nevada turned out for the first practice of the rifle team.

Senior Sneak Day has been abolished as a tradition at U. S. C., members of the class voting to do away with the idea on the grounds that it has been outgrown.

DUOFOLD STANDARDS IN LOWER PRICED PENS

Masters of Pendom make all Parkers

As well as the famous Duofold

The same classic shapeliness—The same writing balance New Parker D. Q.—Students' Special, \$3

WHEN you buy a Parker Pen of any model, at any price, you are getting a standard that never existed before the Parker Duofold was created; and which exists today only in the Parker make.

Parker's lower priced black pens, are like Parker Duofold in everything save the size and point. Yet even their points are tipped with NATIVE Tasmanian Iridium and polished to the smoothness of a costly jewel bearing.

Only the Parker crafts-guild is trained to make Duofold quality, and this same skill produces all other Parker Pens too.

If you want the Over-size Pen with lacquer-red barrel, flashing black tips and 25-year point—get Parker Duofold, \$7. (Duofold Jr., or Lady Duofold, \$5.)

If you want Duofold's classic lines and writing balance in a low-priced black pen of good size, get the new Parker D. Q. specially made for students, \$3.

Any near-by pen counter can supply you. But be sure the pen is stamped "Geo. S. Parker" if you want the new-day improvement.

PRIZE OFFERED IN ESSAY CONTEST ON GOVERNMENT

Annual Prize of Thirty-five Dollars To Be Given.—Provided By WMI

Under provision of the will of Hon. Philo Sherman Bennett, a prize of \$35 will be offered annually, beginning with 1923-1924, for an essay on a subject dealing with the "Principles of Free Government," according to an announcement made by Prof. H. C. Dale, head of the economics department.

The following rules are adopted to govern the competition for this year:

(1) Essays may be submitted by any student in the university. Students regularly enrolled in Economics 22 (American Government) as part of their work in that course, will be required to submit essays on the topics suggested.

(2) Essays should be at least 5000 words in length, neatly written, or preferably typewritten, on one side only of 8 by 11 inch paper.

(3) All essays must be submitted not later than April 19, 1924.

(4) The final award will be based on the recommendation of three judges, selected from outside the faculty of the university. Recognition of the winner and payment of the prize money will be made at commencement time.

(5) The following have been selected for 1923-1924:

- (a) "The Presidential Primary."
(b) "Legislative Blocs in Congress."

(c) "The Idaho System of Taxation."

(d) "The League of Nations, 1919-1923."

Further particulars may be obtained from the economics office.

should have done before this was started.

But as Columbus was once heard to remark, "Never die unless you really have to." Avoid dupes for the time being. Just "weight."

FORMER UNIVERSITY GIRL WEDS U. CHICAGO MAN

Word received in Moscow announces the marriage in Oklahoma City, Oklahoma, on Thanksgiving day, at 2 o'clock, in the afternoon, at the Methodist church, of Miss Hazel Jeanette Gronsdaahl, to Mark Roram of Des Moines Iowa.

Following the beautiful ring ceremony, which was read by the pastor, a banquet was served to the wedding party at the Huckins Hotel.

The bride is a daughter of Mr. and Mrs. A. G. Gronsdaahl of Rosalia and a sister of Mrs. Cal Smith of Moscow. She formerly lived in this city, and is well known in local musical circles. She attended the university and is a member of the Delta Gamma. She was supervisor of music in the Col-

fax high school last year. The groom recently graduated from the Northwest University at Chicago and is a Phi Gamma. They will be at home to their friends at 442 East Ayer street Eamond, Oklahoma.

MONSTER GYMNASIUM BEING BUILT BY U. OF WYOMING

Athletic Structures Cost Half Million Dollars—Funds Come From Oil Royalties

According to the architects, of the University of Wyoming, the gymnasium building is the largest between Syracuse and California, and when equipped will cost approximately a half-million dollars.

The building is the first to be planned under the administration of President Arthur G. Crane. The University's annual income of approximately a million dollars, largely from oil royalties, makes possible this program practically independent of legislative appropriation. The gymna-

sium is steel and native stone. The huge steel beams are being placed now and are being furnished by the Midvale Steel company of Denver. The stone is being mined a few miles from the campus in a quarry opened especially for university buildings, which in the future will all be of the same native stone.

Some of the dimensions will emphasize the gigantic proportions of the structure. The building is 180 by 240 feet. The basketball floor has a clear floor space 100 by 180 feet, giving roof for three courts, side by side. In addition there will be two smaller gymnasiums, each 40 by 40 feet, designed for boxing, wrestling, handball, and other sports. The tiled swimming pool will be 30 by 100 feet, one of the largest in this region. In the basement there will be a rifle range 20 by 100 feet. The armory, under the same roof, will be 100 by 140 feet, large enough to lay out a regulation baseball diamond.

FRAT PLEDGES TO BAR HIGH SCHOOL ATHLETES

Berkeley, Cal., Dec. 9—Just before adjournment Saturday night the Pacific coast inter-collegiate conference passed a rule that no high school student pledged by a college fraternity while in high school shall be eligible for athletic competition on teams of a conference member. The rule was adopted to stop the practice of Greek letter societies pledging high school stars to build up the athletic strength of their institutions, it was said.

TO RAISE FUNDS FOR REBUILDING LIBRARY

Off Side Plays
Now that the twelve weeks exams and Thanksgiving vacation are in the background we can look Xmas in the face.
We've heard tell of a special train to North Dakota, wonder if there is anything to it?
Anyone who would think of going away on a train like that would push little chickens in the creek.
No dances makes it kinda tough on a few of us.
That was only a random shot—not meant for people like us.
A pound of Gorgonzola cheese and a package of Carroway seed to the bird who guesses who.
The management has decided not to go too strong so the cheese has been withdrawn.
They don't have the shows in the library like they had last year. Ah, them were the good old days.
The Pretzel Bender's Ball has been called off-dissension among the boys—some wanted it to be informal, while the rest wanted to wear coats.
A tribe of Montana Indians adopted the Gonzaga football team, pretty soft for them—if their college education falls they can get a job in front of a cigar store anyway.
Don't buy a pocket book with your last two-bits—get a cheaper one or two for a quarter.
An ad in "Vanity Fair". WANTED: A man to cut meat, vulcanize wifeneys, and play a clarinet in the band Saturday night.
A man playing solitaire found five aces in the deck and shot himself.
The height of fastidiousness is—pressing the sleeves of your vest.
Nowadays we get about as much fun out of cutting classes as a middle-aged mackerel at a swimming party.
The local theatre manager says the Federal Court gives him some tough competition. Look for reduced rates soon.
Did you ever look through a needle with a glass eye?
Use your other eye, things will then seem much clearer.
As "Brevity is the soul of wit" we will call it a day—something

ANTOINE LAURENT LAVOISIER 1743-1794
Born in Paris, son of a wealthy tradesman. As a student won a prize for an essay on lighting the streets of Paris. Held various Government posts. A martyr of the Reign of Terror. Founder of modern chemistry.

WATCH FOR THE BLUE BUCKET
They couldn't destroy the work he did
"The Republic has no need for savants," sneered a tool of Robespierre as he sent Lavoisier, founder of modern chemistry, to the guillotine. A century later the French Government collected all the scientific studies of this great citizen of Paris and published them, that the record of his researches might be preserved for all time.
Lavoisier showed the errors of the theory of phlogiston—that hypothetical, material substance which was believed to be an element of all combustible compounds and to produce fire when liberated. He proved fire to be the union of other elements with a gas which he named oxygen.
Lavoisier's work goes on. In the Research Laboratories of the General Electric Company the determination of the effects of atmospheric air on lamp filaments, on metals and on delicate instruments is possible because of the discoveries of Lavoisier and his contemporaries.
