

COAST CONFERENCE IN DOPE QUANDARY

Anything Possible in Battle for Basketball Championship; Vandals Leave Tonight on Three-game Tour

Anything is possible during the coming week which will practically wind up the season for Pacific Coast conference basketball teams, and it will be only a question of which of the leading teams in both divisions are able best to fortify themselves against the onrush of dangerous invaders, fighting now not for the top rung of the ladder, but for second place in the sun, along side of the pennant winners.

OREGON LEADS

University of Oregon is leading at the present time in the north, with three victories and one defeat which count toward league ratings, with the University of Washington a close second with four wins and two losses to her credit. The two leaders will meet at Seattle next Monday in what is likely to be the critical game of the season, providing each of the two individually can come through the rest of the season with a clean slate.

Washington will have a decided advantage playing upon her home floor, which has the reputation of being a hard court for an outside team. Both quintets play a similar brand of ball, using a man-for-man running defense, coupled with a fast passing offensive which has met with marked success up to date.

DANGEROUS PLAYERS

The Huskies will have to watch

Russel Gowans '24, forward, carefully, however, for he has a knack of evading the most vigilant guards and tipping in baskets at critical moments. He has piled up 34 points so far for fourteenth place in the conference, with the Oregon schedule little more than half completed. H. C. Latham, '24, Lemon-Yellow center, is holding down eleventh place with 15 field goals and 9 free throws for 39 points, but he should not prove dangerous for Washington, considering the close guarding of which G. D. Anderson '24, is capable. Captain R. L. Frayne '24, Washington forward, and Richard Welts '24, guard, are the two most powerful men on the Washington lineup, Frayne holding down fifth scoring honors with 20 field goals and 13 free throws for 58 tallies, and Welts tenth place with 40 points on 16 field baskets and 8 tallies from the foul line.

IDAHO-OREGON GAME

Before going to Seattle, however, the Oregon five must meet the University of Idaho at Eugene, Saturday, in what promises to be an interesting game. The Idaho men were the first and only ones to defeat Oregon this year, handing them a drubbing 30 to 24, February 13, at Moscow. Could Idaho have staged a comeback during the middle of the season when she hit a terribly ragged streak, and allowing both Washington State college and Oregon Agricultural college to defeat her, she might rank now with the two divisional leaders. N. D. Nelson, '25, and Captain H. R. Telford '24, guards, seemed to be able to hold down the scoring of the Oregon

(Continued on page two)

INTRAMURAL SCHEDULE ENDS THIS WEEK-END

Final Games Between Organizations Will Be Played Off

Intra-mural basketball will be finished by Friday or Saturday of this week. Finals and semi-finals will be played off on Monday and Tuesday. Games to be played this week:

- February 19
 - 5 p. m., Kappa Sigma vs. Sigma Nu. Beta vs. Lindley hall.
 - February 20
 - 5 p. m., Phi Delts vs. Elwetias. S. A. E. vs. Kappa Delts.
 - February 21
 - 5 p. m., Elwetias vs. Sigma Nu. Lindley hall vs. Fijis.
 - February 22
 - 1:30 p. m., Betas vs. S. A. E. Kappa Delts vs. Fijis.
 - February 23
 - 1:30 p. m., Kappa Delts vs. Betas.

BOARD MEETING

There will be an important meeting of the Intra-mural Athletic Board Monday, February 25, at 7:30 p. m., in Room 217 of the Ad. building, to arrange schedules for Intra-mural Indoor baseball.

FRESHMEN SQUAD DEFEAT SANDPOINT HIGH SCHOOL

Pen-Green Basketballers Score 40 to 18 Garnered by Visitors

Preceding the wrestling meet Saturday afternoon, the freshman defeated the visiting Sandpoint basketball team by a score of 40 to 18. The high school boys showed some good form and had excellent floor work, but were unable to compete successfully with the much heavier freshman team, which broke up the visiting team's attack consistently.

The Sandpoint boys were defeated Friday night by the Moscow high school hoopers by a rather large score and were not in the best of shape to do their best against the frosh. The half ended with the score 16 to 8 for the babes. Nedros, Miles, and Fuller played good ball for the freshman and Wells and Bopp starred for the visitors.

SUMMARY	
Sandpoint	Freshmen
Echolme	C
Wells	F
Bopp	F
Gibson	F
Wendle	G
Substitutions: Freshmen, Fuller for Pearson. Sandpoint, Bartlett for Gibson.	

IDAHO WRESTLERS WIN AGAINST OREGON MEN

Brown's Grapplers Loom As Likely Champions of Conference

The Idaho wrestling team came a step nearer conference honors Saturday afternoon when they won over the University of Oregon mat squad by a score of 58 to 30. At the end of the first round it looked as though Idaho might make a clean sweep as the Idaho men won the first round of every match except in the heavy weight class in which Wells of Oregon received the decision over Vesser.

Oregon came back strong in the second round however, and took two decisions, losing two falls and a decision. Every weight was strongly represented by both teams but the Idaho men seemed to be the more aggressive and won the meet chiefly on that basis. Three of the bouts went the full three periods, Vesser and Wells going one over time period to reach a decision.

THE MATCHES

Bitner at 125 pounds, won over Ford of Oregon by two falls, the first in 2 minutes and 50 seconds, and the second in 3 minutes and 26 seconds. Bitner was forced to wrestle with a pad fastened over an injured ear, but in spite of this put up one of the best bouts of the meet.

Johnny Derr, although only weighing 125 pounds, entered the light-weight class against Whitman of Oregon. Derr received the decision in the first round on aggressiveness, but lost the next two rounds by close decisions.

In the welter-weight division, Wicks of Idaho took the first round by a decision against Roberts. Roberts took the second round by decision, while neither was able to secure a fall in the third. Roberts was given the third round, although neither man left his feet during the entire round.

Following his usual whirlwind style, Kinnison won two falls over French of Oregon, the first in 6 minutes, 25 seconds, and the second in 2 minutes, 12 seconds. Kinnison has had difficulty in getting down to the 155 pound class, but appears unweakened. He obtained both falls by a half-Nelson and bar arm hold.

The feature match of the meet was between Vesser and Wells. Vesser lost the decision in the first round but came back strong in the second and won a decision by a narrow margin. The third was so even that the referee was unable to reach a decision. In the extra period Vesser won a fall in 4 minutes, 20 seconds. Wells was the best man of the Oregon team and only the best efforts possible, coupled with superb condition was Vesser able to win his match.

Coach "Babe" Brown commended the Oregon team on the fine sportsmanship which they displayed. Few athletic events of recent months have gone off with better feeling and conduct on both sides.

SIX GIRLS PRESENT

A good sized crowd of men witnessed the events, the women being represented by six girls who seemed to find the sport to their taste.

SUMMARY

- 125 pounds—Bitner, Idaho, won two straight falls from Ford, Oregon. Time, 2:50 and 3:26.
 - 135 pounds—Whitcomb, Oregon, won two out of three bouts on decisions from Deer, Idaho.
 - 145 pounds—Roberts, Oregon, two out of three from Wicks, Idaho, on decisions.
 - 155 pounds—Kinnison, Idaho, won from French, Oregon, two straight falls. Time, 6:17 and 2:12.
 - 175 pounds—Vesser, Idaho, won from Wells, Oregon, two bouts out of four. One draw, one decision and one fall in 4:45.
- Referee, J. C. Smith, Spokane.

Thursday	Utah-Idaho-Montana debates.
Friday	Washington's Birthday. Violin recital by Mr. Claus.
Saturday	Military Ball, gymnasium.

IDAHO WILL DEBATE WITH U. OF MONTANA

Affirmative Team To Meet Visitors Here Thursday Evening

The third annual intercollegiate debate between the Universities of Idaho and Montana will be held in the university auditorium next Thursday evening, February 21 at 8 o'clock. The Idaho affirmative meets the University of Montana negative.

The question which will be debated at this meet is, "Resolved: that the United States should enter the World Court under the conditions specified in the Harding plan." Idaho's affirmative team is composed of E. J. Miller and W. J. Montgomery. Mr. Miller is a newcomer in intercollegiate debate, this being his freshman year at the university. He has had considerable experience in debating previous to coming to the university, and has shown marked ability in this line of activity. W. J. Montgomery, the other affirmative speaker is also a freshman and new in intercollegiate debate, but has already made his debut as a college debater, having taken part in the debate with Oregon earlier in the year. He has also shown considerable talent as a debater and can be depended upon to uphold the honor of the university as well as his side of the question.

Dean Ivan C. Crawford of the engineering college will act as chairman of the meeting, and the following men will act in the capacity of judges: Professor Woody of W. S. C., Professor Isaacs of W. S. C., and Professor Lewis of the Lewiston State Normal School.

At the same time the debate is being held here between Idaho and Montana, the Idaho negative team will argue with the affirmative team of the University of Utah at Salt Lake City. Idaho's negative team is composed of Charles A. Chandler and H. Francis McKee, both familiar with collegiate debate, having had experience against the University of British Columbia. These two men were responsible for the defeat handed the British University, and are well qualified to handle the negative end of the question against the University of Utah next Thursday evening.

Professor Michaels of the English department has been coaching Idaho's debate teams this season and much of their success can be attributed directly to him. This is Mr. Michaels' first year at the University of Idaho, but he is already well known on the Idaho campus because of his debate teams and the important part he took in the senior play, "Sweethearts."

Two Forestry Students Given Good Positions

Idaho Graduates Will Leave For California In Spring

The Idaho school of forestry is sending out two more of its graduates into the field of active forestry work when Russel M. Parsons of Moscow and Henry Bauman of Milwaukee, Wis., forestry students, who will receive their degrees in June, leave for California to take responsible positions in large lumber and fruit growing companies there.

Mr. Parsons has accepted a position with the Pacific Lumber company of Scotia, California, which has large holdings in the redwood belt, and will be actively engaged in the work of increasing forest production on the company's lands. Mr. Bauman will become forester to the California Fruitgrowers' Supply company of Susanville, California. He will work under Thomas B. Jackson, Idaho forestry graduate in 1919, who is logging superintendent for the company.

The forestry school, under deanship of F. G. Miller has turned out many men now prominent in national forestry work, and is developing other students.

SPANISH CLUB

There will be an important meeting of the Spanish club Wednesday evening at eight o'clock in room 217 of the Administration building. Plans for the Spanish club play and the Spanish evening will be discussed and all members are urged to be present.

Taylor Chosen Junior Prexy

Fred "Scoop" Taylor of Nampa was elected president of the junior class at a class meeting last night for the ensuing semester. He succeeds Frank Minas.

Margaret Carter was chosen vice-president; Ruth Shepard was elected secretary; and Llewelyn Rowland becomes class treasurer.

Taylor is a member of Bench and Bar, and Phi Alpha Delta, honorary law fraternity. He is also business manager of the Blue Bucket.

PROM PLANS

Action was taken by the class in preparation for the Junior Prom which is dated for the second Friday in April. The best music obtainable is to be secured, and committees will be appointed shortly to insure an elaborate dance.

DALE BACK FROM EAST BOOSTED McNARY BILL

Head of Economics Department Returns to Moscow From Capital

Professor H. C. Dale, head of the economics and political science department of the University of Idaho, returned to the campus Saturday after spending five weeks in Washington and other eastern cities. Professor Dale arrived in Washington, January 13, and spent the greater part of two weeks in company with G. P. Mix, of Moscow, in promoting the McNary-Haugen bill, now before Congress. This bill provides for the stabilization of the prices of basic agricultural commodities such as wheat, livestock, and cotton through the lifting of the exportable surplus from the market.

While in Washington, Professor Dale worked with the drafting committee of the Senate as an economist in the preparation of some of the details of the bill. Professor Dale also appeared as a witness before the Senate committee on agriculture and before the same committee in the House. His testimony was particularly in regards to the economic aspect of the McNary-Haugen bill.

SPEAKS OF TRIP

In speaking of his trip, Mr. Dale said, "While in Washington, I saw Professor Evans, formerly head of the law school, who is now professor of law at the George Washington University and also engaged in the real estate business. I also met Professor Byron Hunter, who was formerly in charge of investigational work in agricultural economics at the

(Continued on page three)

COL. CHRISMAN APPOINTED COMMITTEE ON AVIATION

McDougall '17, American Ace, Also Appointee of Paul Davis, Legion Commander

Announcement of the appointment of Colonel E. R. Chrisman, commandant of the University R. O. T. C. post, Victor Westphal, and Harry O. McDougall, '17, as members of the committee on aeronautics of the Idaho department of the American Legion, has been made here by Paul Davis, state commander of the American Legion and head of the Idaho Memorial Building association.

MCDUGALL IS ACE

Mr. McDougall, who resides in Pocatello, is the only American ace living in the state. He was graduated from the university with the degree of LL. B. in 1917. Mr. Westphal is city editor of the Capital News at Boise, and was formerly in the aviation service.

The purpose of the committee is to aid in the standardization of the commercial airplanes, so that in case of war they can be mobilized for military purposes, as American air strength is inferior to that of several European countries.

PRELIMINARY WORK

Mr. Davis is here at the university doing preliminary field work prior to the financial canvass to take place in September for the construction of the memorial gymnasium and armory.

IDAHO DEFEATED BY WASHINGTON SCORE 17 TO 15

Huskies Nose Out Vandals on Home Floor for Second Place—Visitors Met With Brilliant Attack

In a heart-breaking game in which Idaho men outplayed and outpassed Washington, the Huskies finally nosed out the Vandals winning 17 to 15 on the university floor Saturday night. Inability to convert short shots underneath the basket lost for the Vandals. Time after time the Washington players were dazzled by the brilliancy of the Vandal passing attack only when shots for baskets were made the ball would wobble around and drop out.

By virtue of the win Washington jumped into second place in the northern divisional race of the Pacific Coast conference. The result of the game counts on both the Coast and Northwest conference standings. Idaho acquired a five point lead early in the game on a score of 8 to 3 but the Washington players by resorting to long shots tied the score 10 to 10 at the close of the half.

FOUR MINUTE BATTLE

Leadership in the second half zig-zagged back and forth until five minutes yet to play Washington had a three point lead on a 17 to 14 score. In the next minute "Nellie" Nelson made good on a free throw and the score stood 17 to 15. The bitterness of the fight for points is attested to in that in the final four minutes of play neither team scored a single point.

The game was terrifically fast and rough with Captain Frayne, Washington forward, ruled out for personal fouls early in the second half.

Penwell, Stivers and Nelson were outstanding for Idaho. Penwell and Stivers performed brilliantly on the floor while Nelson made two beautiful field baskets from hard angles. For Washington, Hesketh and Wells played star games.

THE LINEUPS

Idaho (15)	Washington (17)
Forwards	Frayne
Penwell	Hesketh
Stivers	
Center	Anderson
Fitzke	
Guards	Welts
Nelson	Gardner
Telford	

Idaho scoring—Field baskets: Penwell, 1; Stivers, 2; Nelson, 2. Free throws: Stivers, 1; Fitzke, 1; Nelson, 1; Telford, 2.

Washington scoring—Field baskets: Frayne, 1; Hesketh, 3; Anderson, 1; Welts, 2. Free throws: Frayne, 1; Anderson, 1; Welts, 1. Referee—Mulligan, Gonzaga.

PROF. H. C. DALE CONFERS WITH WILMER COMMITTEE

Professor Dale is in Spokane today conferring with the so called Wilmer committee of which he is a member. It was this committee which first endorsed the export commission plan as embodied in the McNary-Haugen bill.

Professor Dale left Sunday for a brief visit to north Idaho where he gave the address at the annual banquet at Bonners Ferry chamber of commerce Monday.

PRESIDENT UPHAM RETURNS FROM TRIP TO SOUTH IDAHO

President A. H. Upham and Professor C. C. Vincent returned Saturday from southern Idaho, after visiting the leading agricultural districts in connection with the university farm life institute of the University of Idaho. The institute consisted of a two or three day program in each of the towns on the circuit and the work that was discussed was farm problems peculiar to the different localities. The schedule extended over a period of two weeks and the towns visited were Twin Falls, Rupert, Arco, Shelley, Rexburg, Greenleaf, Parma, and Emmett.

Kioty Writes Another Letter Home Don't Crowd Girls, Take Your Time

Dear Ma,
Well ma I blowed out a tire on the old chalmers when I was taking a koed to the book of job so ma can you send me a hundred seeds as a new tire costs 60¢. If I had of had speed Ball here to ride to the show I would of saved some jack. Ma do you reckon he would nikker if I tied him in front of the ad building but I don't think the janitor would like it. Well ma when I went to get that koed to go to the book of job she ask me would I care if one of her friends went to so I never turned her down but took both of them. The show was nothing but a argument between some fellows and job never had no boils either but the light was

good and looked like the sun coming up over on wild cow ridge. Well ma it is spring now I guess. Old Champ will be getting to want out of the barn now so ma you want to be careful because he will feel mean and he might run over you and out the door. Ma I went to a afternoon tea and they was some fellows there with white pants on and one of them throwed me a lump of sugar and said there is a lump for your coffee, Kioty, and another one throwed me a lump and says there is a lump for your tee, so ma I went over to him and hit him one on the head with a steel candle stick and I says, there is a lump for your koko.
Yours truly your son Kioty.

Students to Hear Rev. F. B. Short Assembly Thursday

There will be no ten o'clock classes on Thursday due to the postponement of the regular Wednesday assembly to that time. These Thursday classes will be held at ten o'clock on Wednesday instead.

Reverend Doctor Francis B. Short, of New York, will be the speaker of the occasion. Doctor Short is an eloquent and interesting talker. He was formerly a resident of Spokane, but was later called to one of the Metropolitan churches of New York where, due to his unusual abilities, he became very prominent.

Military Ball Coming Let Joy be Unconfined

Six officers with shining leather puttees and Sam Browne belts sat around a table in the midst of a deep and most militaristic discussion. It was very evident that some weighty problem was being discussed. Had the Jewish Republic declared war on the Island of Patagonia again, or had some other catastrophe occurred? By cocking the ear at the proper angle as prescribed by the I. D. R., it was possible to catch the words that were being spoken.

"If everyone was to do company front simultaneously there would be a congestion that would cause them to lose their cadence. A movement as skirmishers would bring about a scattering of forces away from the center of attack. It will be almost impossible to maintain a forty inch interval; in fact we will be fortunate if there is any interval at all." These were the fragments of the conversation that were caught.

No, Gertrude, war had not been declared, but the military department was preparing the plans for their annual shindig, the Military Ball. It has been rumored on the campus that there will only be a limited number of tickets placed on sale for the occasion and all those who do not get theirs in a day or two will have to stand on the outside and listen to the music.

The Military Ball, the second all-college formal of the year, will be held Saturday evening, February the twenty-third in the University gymnasium. The patrons and patronesses for the dance will be Colonel and Mrs. Chrisman, President and Mrs. Upham, Dean and Mrs. Crawford, and Dean Permeal French. The guests of honor are Captain C. Lloyd, Captain B. Bain, Professor and Mrs. Kirkham, and Dr. and Mrs. Einhouse.

COAST CONFERENCE IN DOPE QUANDARY

(Continued from page one)

forwards Gowans and H. A. Hobson, '26, to a remarkable degree in their previous meeting, and will likely concentrate their efforts toward that end again. The Oregon game is the last of four on a single jaunt around the loop for the Idahoans, who leave tonight for Seattle, and it is hardly probable, though entirely possible, that she can defeat her. R. F. Fitzke, '25, center, still retains scoring honors for Idaho with 65 points from 23 baskets and 19 successful foul shots, for third place in the conference. G. O. Penwell, '24, with 43 points is also doing brilliant work for the Vandals, and ranks among the leaders.

MEET AGGIES AND U. OF W.

Both Washington and Oregon Agricultural college are on the itinerary of the Idahoans this week, Washington Wednesday, and the Aggies Friday. Both will be hard games. For the Aggies, Captain A. T. Gill, '25, is still performing in stellar fashion, although his scoring has not kept pace with other conference leaders. He is credited with 12 goals from the field and 7 from the foul line for 31 points for eighteenth place.

W. S. C. TRAVELS

Washington State college is also scheduled for a trip this week-end, engaging University of Washington at Seattle Saturday and O. A. C. at Corvallis Monday. The Cougars have had a couple of severe setbacks during the past week, falling before the terrific onslaughts of both Washington and Oregon at Pullman, 26 to 20, and 38 to 31 respectively. The Cougars are able to throw up a pretty

fair defense, but still lack the necessary drive to break through for under the basket shots so necessary in tight games. The Cougar system calls for a wedge drive, with the forwards and center carrying leading roles, and at that point Coach J. F. Bohler has been unable to perfect his offensive tactics to a degree that dependence can be placed on it. H. E. Schultz, '26, the ace of the Washington State five, now leads the conference in scoring with 38 baskets and ten free throws for 86 tallies, having passed T. W. Illman, '26, Montana center, with 73 points during the past week.

CALIFORNIA VS. U. S. C.

California is due to play the University of Southern California at Los Angeles tonight in the first of a two-game series, which will settle the status of the Trojans, at present tied with California for the lead with two won and one lost counting toward southern division leadership. The Trojans have a fast working, brilliant aggregation of players, perhaps the most evenly balanced of southern quintets. K. H. Boyer, '26, forward, is her starring ace in number of points with 19 field goals and 9 free throws for a total of 47 points. His consistent hooping and floor strategy have been features of Southern California games this season. He ranks sixth in the conference. Eugene Dorsey, '26, at guard, has been a factor in the Trojan's success, although his scoring has been but mediocre, 19 points.

U. S. C. DEFEATS STANFORD

U. S. C.'s victory over Stanford, 24 to 20 last week was a brilliant affair, and marked her superiority over Stanford's club. Stanford, while she defeated Southern California the following night 38 to 23, depended more entirely upon one or two outstanding stars than U. S. C. J. C. McHose, '24, Cardinal forward, has been her outstanding star, caging 15 baskets and converting 15 tries from foul for 45 points for 7th place in the conference. Ernest Nevers, '24, running mate with McHose, has been the other Stanford luminary with 10 baskets and 15 conversions for 35 points for thirteenth place. R. D. McBurney, '25, at guard has gone well this year, but has not figured much in Cardinal scoring. California will be able to put a strong team in the field against U. S. C. Wednesday. She defeated Stanford Saturday 26 to 25 in a fierce game at Berkeley, during which H. G. Belasco, '24, and Captain John Talt, '24, both showed to advantage. Belasco still leads in scoring for the Bears with 13 baskets and 4 free throws for 30 points. Monday, the Berkeley quintet will again take on the Stanford Cardinals in another merry round for both teams.

John Bum Says

A fearful crash, an awful roar,
The ceiling must have kissed the floor,
But ease your ears, and cease your fears
It was only Bill coming down the stairs.

BAIT

Fish in the ocean,
Fish in the sea,
Hair waves and hair nets
Made a fish out of me.
—Pitt Panther.

"Excuse me for opening your mail, Bill—"
"Oh, that's all right."
"You see, I thought it was Charlie's."
—Sun Dial.

Little drops of water,
Mixed in with the milk
Keep the milkman's daughter
Clad in swishing silk.
—Black and Blue Jay.

THE REASON

"A fool", said the professor to the student who asked a catch question, can ask things a wise man can't answer."
"Is that the reason I flunked in this subject last term?" asked some one in the back of the room.

NO TRADE

Farmer: "Be this the woman's exchange?"
Woman: "Yes."
Farmer: "Be ye the woman?"
Woman: "Yes."
Farmer: "Well then, I think I will keep Maggie."

PRETTY FIGURES

Neddy—See that girl over there? She's the one who winked at us from the stage last night.
Freddy—Aw, I ain't so sure that she is.
Neddy—Figures don't lie.

HISTORICAL SIDELIGHTS

Eve to Adam. "Leave me."

A CUTTING REMARK

"No getting around it—there's one guy you've got to take your hat off to."
"Who's that?"
"The barber."
—Sun Dial.

MOONING

Adam and Eve had an awful time—
Truly I am no Har;
They couldn't have owned a car at all

Because they lacked attire.
—Punch Bowl.

NOTHIN' ELSE BUT

Sherlock—Watson, do you see that man over there across the street?
Watson—Yes.
—Sherlock—Well, I never saw him before, but it is easy to discern that he is a lawyer.
Watson—How do you know he is a lawyer?
Sherlock—Because he is carrying a suitcase.
—Punch Bowl.

Gladys—Why has your pin a moon on it, George?
George—That's to remind the brothers that not all of the fun comes in the daytime, Gladys. —Sun Dial.

The lightning bug is brilliant,
But he hasn't any mind;
He blunders through existence,
With his headlight on behind.
—Black and Blue Jay.

YES, I DO NOT!

He—Just one, dear?
She—No!
He—Do you always say 'No'?
She—Yes.

A silly old senior from Brown Whileswimming, he started to drown
He went down just thrice,
And came up but twice—
Another good man kept down.
—Brown Jug.

"I'm not what I use to be."
"No?"
"I use to be a child."
—Mink.

Airplane Apparatus Installed at U. of W.

University of Washington (P. I. N. S.)— Addition of new equipment to the wind-tunnel of the Boeing Aeronautical laboratory on the University

of Washington campus will enable aeronautics students to make original investigation of the performances of new airplane fuselage forms. The equipment consists of balances which are used to determine the life and drag characteristics of the forms to be tested in the tunnel. The instruments, which were designed in the University laboratory, are of such delicate adjustment that it was necessary to erect a steel platform for them that is free from all vibration. The Boeing laboratory on the University campus gives students the opportunity of working with men who are doing practical work at the Boeing airplane factory. One of the latest designs of this company is an observation plane whose performance is said to greatly exceed that of the same type of plane now used in the United States air service. Tests are soon to be made by students on fuselage and other forms that will be used on a new type of

observation plane. This plane will carry a 550 horsepower motor and will have the gasoline tanks located in the wings on each side of the fuselage. The new plane, it is expected, will be especially well adapted to cross-country flying because of the large storage space available where the gasoline tank was formerly located.

An all-metal pursuit plane that was designed at the University laboratory is now being tested by the government.

The Tool of Civilization

WHERE man once toiled with hand tools to quarry his stone, dig his ores and build his highways and canals, he now employs explosives power. He has created a force that makes possible the economical production of almost every article of commerce, a power that he can completely control. Iron, the basis of industry, copper for electrical apparatus, zinc, lead, precious metals—all are mined with explosives. The miner must blast his coal to mine it economically. From graphite for pencils to talc for face powder, explosives are used to extract minerals and metals from the earth. Everything that goes into building construction—stone, marble, gypsum, lime, cement—is obtained by explosives power. Railroads, highways and canals are built with the aid of dynamite. On the farm, dynamite has become a servant that clears land of stumps and boulders, drains swamps, revitalizes the soil and aids in the planting of trees. So, explosives power has become the tool of modern civilization. And in the production and development of explosives, the du Pont Company has been privileged to lead the way for over 121 years—always looking ahead to greater achievements and ever anticipating industrial needs.

THE KEN WORTHY

WED.—"Slave of Desire" with Geo. Walsh and Bessie Love

THURSDAY VAUDEVILLE

Dean Clark Will Inspect Elwetats During Stay Here

Dean Thomas Arkle Clark of the University of Illinois, former worthy grand chief of Alpha Tau Omega, and one of the leading figures in the national fraternity world, will be the guest of the University of Idaho Thursday and Friday, February 28 and 29. This announcement was made Monday by President A. H. Upham.

Dean Clark, who is educational director of the national Inter-Fraternity council, will speak at assembly Friday morning. On Thursday he will speak to a meeting of all Idaho fraternities. While at the university, Dean Clark will inspect the Elwetats, Idaho local petitioning Alpha Tau Omega.

Students Delayed

TODAY I preach a
SERMON which applies to
TIME and place,
WHERE action starts the
BRAIN work at a most
UNUSUAL pace.
IT seems that though the
SPIRIT wills to get to
CLASS with speed the
ACCELERATING forces
FAIL to grasp the urgent
NEED
AND though we have
ALARM clocks by the score
WE trust to luck
TO get us there before
THE class is O'ER.
BUT to complete my movie
FOR PUNCTUALITY, I must
CONFESS, I would impress
ORIGINALITY.

Who's Who From Idaho

WELLS WRITES

"My wife and I display more interest in the coming of the Argonaut and the news of our friends at Idaho than we do in the developments of the Teapot Dome scandal.

"Idaho is to be congratulated on her showing in athletics this season. Also if the reports are to be credited, her achievements in other fields are the equal of those in athletics.

"Mrs. Wells and I are very much pleased with our positions in Washington. I am at present holding an assistant examiner's desk in the Patent office. Also, with ordinary good fortune, I should have my Master's Degree in Engineering and a Bachelor's in Law in four years. My work in the Patent office is very interesting and agreeable. The office has been badly behind with its work and a year ago they were 15 months behind. We are now only 9 months behind while within four years we should be able to act upon an application for a patent within thirty days after it is received.

"Mrs. Wells joins me in wishing Old Idaho and The Argonaut success.

"Sincerely yours,
Greek Wells, '23,
3000 Franklin St.,
Washington D.C."

CURTAINS WANTED BACK

Whoever took the curtains from the stage in the "U" hut is asked to bring them back this evening; they are needed at once and cannot be replaced.

J. H. Cushman.

NOTICE

Because some careless persons have taken university property from the "U" hut without permission and failed to return it, it is necessary to ask that in the future, anyone borrowing property from the "Hut" must sign for it and be personally responsible. The stage equipment, which belongs to the class in play production, must not be taken under any circumstances.

POOL NEAR COMPLETION OPEN TO PUBLIC SOON

Moscow's community swimming pool, now under construction by the Purity Creamery company, will be ready for bathers and swimmers by March 10, according to present plans of the company. Workmen of all kinds including carpenters and painters are rushing the work ahead to an early completion.

The plunge 60 by 46 feet will be entirely apart from the creamery business. Entrance to the plunge will be on the Almond street side where the company's well is to be drilled and where an attractive entrance effect is to be obtained through grass and shrubbery.

PURITY IS EMPHASIZED

One of the unique features of the Moscow plunge is to be the purity of the water in the tank. The constant flow of water in and out of the tank will come from the purified water of the creamery business. The water in the course of the creamery business is filtered and purified and then run into the tank.

Other features of the natatorium will be found in the general attractiveness of the pool itself. Portland cement is being used with an upper layer of Alaska or pure white cement so that the plunge will be pure white. The walls and ceiling are now being painted with four coats of paint and one coat of white enamel.

The balconies are being lowered to be in accord with the general dimensions of the natatorium and to provide better facilities for crowds expected at swimming and diving exhibitions.

SHOWERS PROVIDED

Every provision is to be made for the cleanliness of the plunge. The private drainage system built especially for the natatorium will drain the tank in an hour and a half. All persons will be required to take showers before entering the plunge and skilled people with experience in the management of swimming pools will be in charge. A continuous shower is also to be provided at the entrance to the plunge.

SAFETY ASSURED

Every safety provision is to be provided. Life guards with Red Cross life saving certificates will probably be employed in the management of the plunge. The different depths of the plunge will be plainly marked and screened off so that children cannot get into the deep water. Another unusual provision is that the smallest youngsters are to be taken care of. The plunge at one end will only be 18 inches in depth so that the smallest youngster can enjoy the plunge with the grown-ups.

The safety screens can be removed so that swimming, life-saving and diving exhibitions can be staged. A springboard will be installed for diving stars and flying rings are to be suspended for the use of acrobatic swimmers.

DALE BACK FROM EAST BOOSTED McNARY BILL

(Continued from page one)

University of Idaho. After leaving Washington, I spent one day in New York City on personal business, and two days in Chicago, where I visited the school of Commerce and Business Administration at the University of Chicago. While in Chicago, Professor O'Gorman of Marquette University at Milwaukee, Wisconsin, came down for a day. Professor O'Gorman, who was formerly with the educational department at Idaho is still very interested in educational work at Idaho, and expressed a very keen interest in the progress of the university.

On the return trip Professor Dale visited between trains at the University of Wyoming at Laramie, where he formerly was head of the department of economics. Mr. Dale was very much impressed with the building program being carried on by this university. They are constructing a huge gymnasium and armory which, when completed, will be the largest west of the Missouri river. Other buildings are a magnificent library, a large heating plant, and modern engineering shops.

VISITED SOUTH IDAHO

The last two weeks Professor Dale has spent in southern Idaho taking part in the program of a series of country life institutes. These institutes were held at Twin Falls, Rupert, Arco, Shelley, and Rexburg. South Idaho is concerned in the enactment of the McNary-Haugen bill and realizes fully its importance as a constructive piece of agricultural legislation.

Professor Dale had many conferences while he was in Washington with Senators Borah, Gooding, Magnus Johnson, and others prominently connected with agricultural interests. On the House side he conferred with both the Idaho congressmen as well as with other members from agricultural sections. He was in touch with the national officials of the "Wheat Growers Associated," The National Farm Bureau Federation, and other national agricultural associations. He reports that the chances for the enactment of the bill are very favorable.

Professor Dale was sent east as the representative of the Wilmer committee of which he is a member, the Moscow chamber of commerce, and the Moscow Farmers' Union.

Glass-Blowing Display In Engineers' Exhibit

Oregon Agricultural College—(P.I. N.S.)—An exhibition of glass-blowing is to be one of the features of the chemical engineering displays for the education exposition to be held Feb. 22 and 23.

VANDALL FROSH VICTORS IN COUGAR BABES GAME

Idaho Youngsters Tune Up To 84 Against 20 Points

The Vandall frosh showed under the Cougar Babes in a fast basketball game on the Pullman floor Friday night, 34 to 20. This is the first time this season that the two freshman teams have met and much speculation was rife as to the probable winner.

The half closed with Idaho on the long end of a 24 to 8 score. The W. S. C. frosh could not seem to get the range on the hoop and the locals were counting everything in the neighborhood of the goal. Miles was performing in stellar style for Idaho, making a total of seven field goals, the greatest number made by any player in the game. Pearson accounted for three field goals.

The Pullmanites have vowed revenge in the return game scheduled for the latter part of this month. Many substitutions were made on both sides.

SUMMARY

W. S. C.	Idaho
Maurer	F Miles
Morrow	F Martin
Low	C Martin
Cady	G Pearson
Radabough	G Green

Substitutions: W. S. C., Miller for Maurer, Hoon for Cady. Idaho, Rogers for Martin, Fuller for Green, Martin for Rogers, Green for Fuller.

PRE-MED SMOKER

A smoker will be given by the Pre-med club at the Phi Gamma Delta house Tuesday night at eight o'clock. A lively entertainment and EATS will take place after the important business session. Discussion of the Pre-med formal will be a feature of the business. All men enrolled in Pre-medics are asked to be there as the entertainment committee warrants a good time.

Another Year Book Has Co-ed Beauty Section

Oregon Agricultural College—(P.I. N.S.)—The "Vanity Fair" section of the 1925 Beaver annual, the official Junior year book, will feature diffused portraits of the five most beautiful co-eds on the campus. The contest selecting the campus "beauties"

YOUNG men who are inclined to be rather exacting in their clothes buying will find a warm welcome here; we know how to serve them.

Clothes Tailored to Measure by Born have an enviable reputation for satisfying men of every age and inclination. We do not hesitate to sell and guarantee them.

The woollens are dependable; the style, fit and workmanship are of the character usually found only in clothes sold at very much higher prices.

Congratulations

A word of praise is justly due to the Idaho wrestling team that has recently won another conference meet from the University of Oregon. The University of Idaho is proud of your achievement and wishes to congratulate you upon your success. Through the long weeks that you have striven to prepare yourselves for the work before you the student body has been watching you and praying that you would be victorious. You have now a good start for the high honors that lie beyond you and may you go forward with the conviction that you have the loyal support of every Idaho man and woman.

Debate

IT has almost become a tradition on the campus for The Argonaut to beg the student body for its support at intercollegiate debates held here. At least once a year an editorial along this line is always expected. And such editorials will no doubt continue to be a tradition until the time when Idaho students wake up to the fact that our debate teams are as much our representatives as our athletic teams and that something worth while and really valuable can be learned at these debates. It can be nothing short of disheartening for Idaho debaters to walk on the auditorium platform and face row after row of empty seats. Of course there are always a few in attendance—the judges are obliged to go, and then a few freshmen who have been compelled to attend by their English instructors in order that they may write themes on the subject, will be scattered through the back rows where they may sleep without the voices of the speakers disturbing them. Such is a debate at Idaho! What a pitiful exhibition of student spirit it brings forth! What must the visiting debaters think when they are welcomed by such a crowd? And what about our own team? No wonder Idaho debate coaches find it difficult to find aspirants for positions on the teams. There is a debate in the auditorium Thursday night. Just this once, in order to prove that it is possible, wouldn't it be a novel surprise for our debaters to find the room packed? It can be done. Let's do it!

Scientific Bookselling

THE College of the City of New York is going to give a course in bookselling. Thus passes another of the arts into the questionable company of mechanics, technology and economics. Literature has always, of necessity, been allied with commerce more than other arts have been, for both writers and publishers have had to gain their living from the sale of the printed word. But scientific sellers of books! One thinks at once of other "scientific" salesmen—sellers of life insurance, hosiery, suits, furniture and household utensils—and wonders how a lover of literature will enjoy the attention of this new and highly specialized type. In a surprising number of cases book store people seem to have little more knowledge of their stock than their janitors. If the new course at the college can correct such a condition, joy be with it. But does it really intend to? Here is an idea of the purpose of the course as explained in a New York paper: To make much money on a book now, it must be sold by the truckload; and to sell it in such quantities ad-

vertising, organization and salesmanship are essential—readers in general no longer know what they want except that they want to be amused. The trick is to convince them that the book of the hour, the latest and most fascinating thing lies before them, to be had at a price. Publicity leads up to the sale, the salesman puts it over. And now the college is to teach the salesman how. If this institution of higher learning is to teach students how to convince blundering, stupid people that they should read blundering, stupid books, real book lovers will have the same trials to expect as in the past.—Idaho Statesman.

Society

THETA SEMI-FORMAL
Kappa Alpha Theta held its semi-formal dance Saturday night at Guild hall. The hall was decorated to represent an Arabian tent. Red, green, and yellow crepe paper streamers were used to carry out the huge tent effect. In one corner punch was served from an Arabian well. The light in the tent came from piano lamps. A desert scene of huge pyramids and a sphynx, was used as a background for the stage. Music was furnished by the Collegiate Serenaders.
Dean French, J. S. McLaughlin, Dr. and Mrs. Axtell, and Mrs. Iddings were in the receiving line.
The guests were: the Misses Margaret Springer, Opal Hunt, Mary McCallum, Golda Pears, Ruby Gates, Margaret Carter, Frances Noggie, and the Messrs E. Kinney, D. Swim, C. Christie, V. Vang, L. Fleming, D. Coon, K. Bonham, E. Gowanlock, S. Yeager, G. Burroughs, A. Guerin, F. Walrath, P. Nilson, C. Reemes, F. Eldridge, D. Haulsen, F. Sheneberger, E. Erickson, J. Brown, H. Paulson, C. Cozler, J. McMonigle, F. Marineau, P. Harlan, B. Reed, E. Letthe, V. Peterson, C. Fator, and H. Payne.

KAPPA SIGMA INITIATES
Kappa Sigma announces the initiation of: Brewer Lindberg of Post Falls, Edmund Blackburn of Pittsburgh, Penn., Fred Carr of Dillon, Montana, James Kieldson of Boise, Frank Neal of Boise, Clair Killoran Emmett, Robert Weller of Spokane, George Relyea of New Plymouth, Bertrand Heath of Moscow, Glenn Cooper of Tacoma, Micheal Rogers of Ogden, Utah, and Carl Murray of Filer.

The Messrs. Glen Gibson and Rex Wendle of the Sandpoint basketball team were week-end guests of Sigma Nu.

Mary King of Gamma Phi Beta attended the Sigma Alpha Epsilon formal at Pullman Saturday.

The active chapter of Gamma Phi Beta entertained their Moscow mothers at a fireside on Sunday evening. The guests were Mesdames Stolle, Angell, Frantz, Owings, Richardson, Sampson, Forney, Truitt, Soulen, and Terteling.

Camille Collins of Gamma Phi Beta spent the week-end in Spokane.

Dinner Guests
Kappa Delta: Messrs. Clare, Tuttle, Anderson, Rodgers, Homer, Bennett, Kaiser, and Burke of Pullman, Wash.
Sigma Nu: Mrs. E. Given, and the Misses Bertha Glimdemann, Lillian Lange, and Hazel Langroise.
Delta Gamma: B. Meline, V. Kimbrough, W. Guernsey, K. Collins, L. Hubble, E. Wyland, C. Reemes, C. Wendell, J. Chapman, and D. Kubns.
Kappa Sigma: The Misses Helen Ramsey, Charlotte Jones, Florence Walker, D. Walker, J. Walker, P. Stalker, M. Cox, J. Batterton, C. Jones, and Mrs. Sheley, and Mrs. Storms.
Elwetras: E. Adams from W. S. C., and the Misses Joyce Grier of Spokane, Irma Fisher of Reubens, Idaho, Mr. and Mrs. D. Van Ostrand and Mr. C. Ostrand of Winchester, Idaho, and Messrs. K. Parker, R. Wheaton, and W. Casebolt.
Kappa Kappa Gamma: Dr. McAtee, and Margaret Young.

Ridenbaugh Hall: Mesdames Stolle, Weatherby, Given, Cutchfield, Mr. and Mrs. F. G. Gales, Mr. and Mrs. Edward Mason, Mr. Brown, Miss Eaton, the University of Washington, and the University of Idaho basketball teams, and Coach Edmundson and Coach McMillan and Coach Matthews.

Kappa Alpha Theta: Mr. and Mrs. McLaughlin, Mrs. Sharp, Miss Adair, and Mrs. Sargent, Messrs. W. Stone, E. Kinney, E. Stroebeck, R. Stevens, P. Arthur and J. Eagleson.

Sigma Alpha Epsilon: Mrs. Blomquist, and the Misses Mary McCallum, Mary Patsley, Helen Wheeler, Mildred Pearson, Catherine Maloney, Helen Honnold, and Pauline Pence, Messrs. G. Greene, B. Greene, M. Davis, L. V. Davis of Lewiston, and Mr. Newman and Mr. Sogard.

Phi Alpha Psi: Dean and Mrs. Crawford and family.

Beta Theta Pi: The Misses Margaret Carter, Constance Taylor, Gertrude Walters, Eunice King, Katherine Healy and Kruebe Steensland.

Pi Beta Phi: The Misses Joyce Grier of Spokane, Lillian Freeman of Dayton, Caroline Bickelhaupt, Marjorie Freakes, and Lucille Wheelock of Pullman.

Vernon Welo, of the Sandpoint basketball team, was a week-end guest of Sigma Alpha Epsilon.

BRIDGE PARTY
Mrs. Howard David entertained the girls of Delta Gamma sorority with the second of a series of bridge parties at her home on Saturday, February 18. The guest list included the Misses Marie Gauer, Amy Barstad, Elizabeth Drake, Pauline Pence, Ruth Aspray, Bessie Musgrove, Lucy Wyman, Zuma Sheneberger, Helen Stanton, Mrs. Clayton F. Keane and Mrs. Howard David.

KAPPA INITIATES
Kappa Kappa Gamma announces the initiation of Elizabeth Thompson, Ruth White, Frances LaPoint, Lewiston; Margaret Fox, Moscow; Orpha Markle, Dorothy Pears, Twin Falls; Vivian Malloy, Orofino; Ruth Shepard, Havre, Montana; Winona Rush-ton, Manchester, Michigan; Mildred Holmes, Payette; Irene McBirney, Hester Yost, Louise Nagel, Boise; Katherine Fields, Emmett. A banquet was held at the chapter house following the initiation, which took place on Saturday, February 16.

Forest DeClark of Kappa Sigma has returned to school for the second semester.

Clarence Hyde of Colfax, was a week-end guest of the Kappa Sigma house. Paul Reynolds and "Hec" Edmunson also visited the house during their visit to Moscow.

Pearl Pangborn of Gamma Phi Beta has been forced by ill health to return to her home in Tacoma, Wash. Gwyneth McKinley of Gamma Phi Beta spent the week-end in Potlatch.

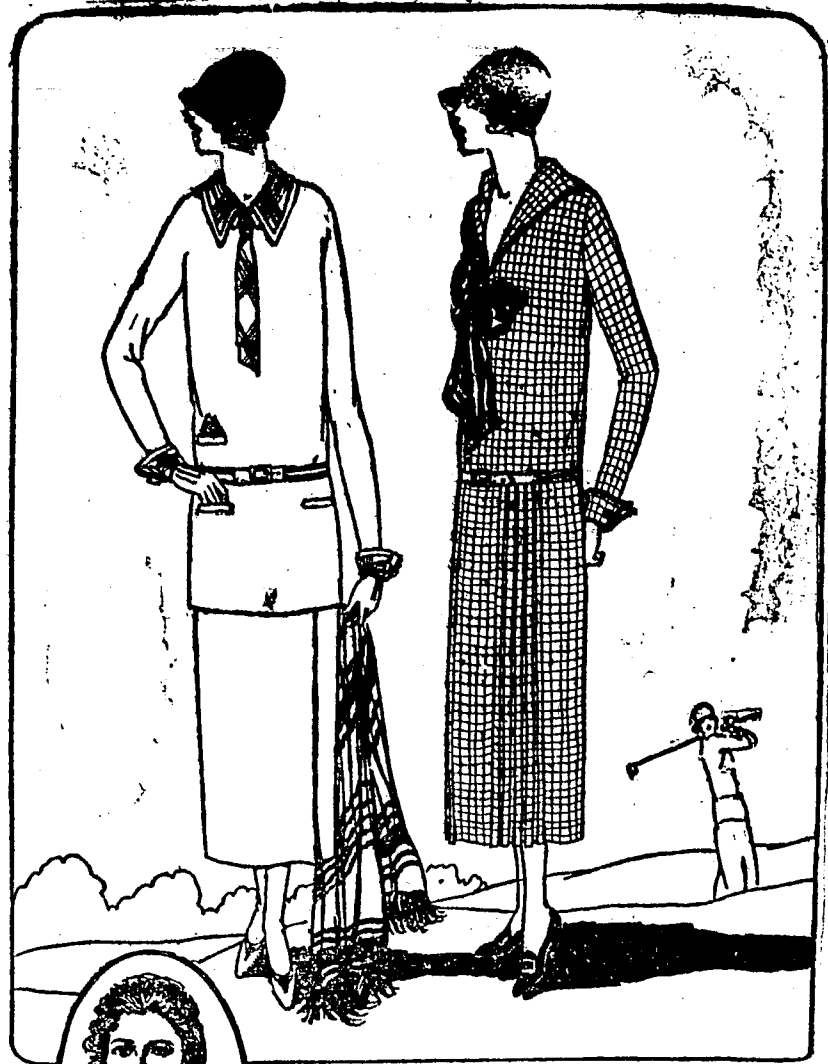

DEAN CRAWFORD'S ADDRESS COMPLIMENTED BY JOURNAL

"The Northwestern Engineer" Characterizes Talks As Most Interesting At Convention

One of the most interesting papers presented to the Idaho convention of practicing engineers which met in Pocatello last month was that of Dean Ivan C. Crawford, head of the college of engineering at the University of Idaho on, "The Present Status of Engineering Education", according to a recent issue of "The Northwestern Engineer," a technical publication of the American association of engineers. Dean Crawford attended the convention as a representative from the university. He presented the educational side of practical engineering, and participated in the discussions of the convention on problems and policies of the engineering profession in Idaho.

MADDOCK OREGON COACH

Joseph H. Maddock, ex-assistant coach at the University of Michigan, is to take the helm of the Oregon football machine, left vacant since the first of last December by the resignation of Shy Huntington. The selection was made upon the recommendation of Virgil Earl, director of athletics and the athletic committee of the executive council, after he had examined the qualifications of some 20 applicants on his recent trip east.

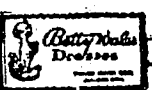

Betty Wales Dresses

WHETHER one's course be over the links or down the avenues, the sports dress must of necessity be included in the smart wardrobe.

Two interesting suggestions from Betty Wales are shown. One is a two-piece model of Spongeen in the new colors with cuffs, collar and tie of plaid gingham. Another makes full use of plaid, with a jaunty sailor collar and bow.

Every Betty Wales Garment Unconditionally Guaranteed

DAVDS'

"HELD TO ANSWER" COMING

Peter Clark MacFarlane's Gripping Novel Reaches the Screen
A story decidedly out of the ordinary is dramatically told in "Held to Answer," the Metro Premier feature which is coming to the Kenworthy theatre next Friday and Saturday. Peter Clark MacFarlane, one of the best-liked authors of the day, has never written anything more thrill-

ing or exciting than this drama of a fighting minister, an actress and the criminal courts. He has taken as his central character a young actor who deserts the stage to preach the word of God and serve humanity in a small Western city. An actress friend follows him and, through jealousy, manages to have him accused of murder. Mr. MacFarlane has woven a tale that holds one spellbound. It is no wonder that the novel enjoyed the largest sale of any book ever published in America and it is said that the motion picture version is even more absorbing and thrilling, the director, Harold Shaw, having caught the spirit of the story and brought to life the characters outlined in the author's story. House Peters enacts the role of the fighting minister who conducts his own defense when called into court to answer the charge of theft. The important role of the actress is played by Grace Carlyle who has seldom, if ever, been provided with a part more suitable to her talents. James Morrison, one of the best-liked juveniles on the screen, has the role of a young man who falls under the spell of the actress even to the extent of robbing his employers to obtain funds with which to entreat her. Evelyn Brent, the captivating English star, is seen as the heroine who falls in love with the minister and upholds him until he is vindicated. Others who enact the principal roles include "Bull" Montana, by a special arrangement with Hunt Stromberg; Lydia Knott and John Sainpolis.
