UNIVERSITY ARGONAUT, FRIDAY, FEBRUARY 22, 1924

NUMBER 89

## VANDALS DROP HARD FOUGHT SEATTLE GAME

Huskies Eliminate Idaho Team From Hopes of Championship Honors By 28-18 Score

### PACIFIC COAST CONFERENCE

	Won	Lost	P.C.
Oregon	3	1	.750
Washington	5	2	.714
O. A. C.	3	2	.600
W. S. C.	3	4	.429
Idaho	3	4	.429
Montana	0	4	.000

(Spokesman-Review)

SEATTLE, Feb. 21.—University of Washington's basketball quintet remained in the running for the pennant of the northern section of the Pacific coast basketball conference Wednesday night by defeating the University of Idaho five, 29 to 18.

Washington forged ahead at the very start of the contest and maintained a speed so swift that Idaho was unable to overcome the big lead. Idaho's hopes of finishing the pennant race in the second place went glimmering when the winners chalked up the final 29 points against them. This is the second defeat suffered by Idaho from Washington.

Line-up and summary:

Washington (29)	Idaho (18)
Hasketh	Penwell
Frayne	Stivers
Anderson	Fitzke
Gardner	Telford
Wells	Nelson

Washington scoring: Field goals—Frayne, 3; Hasketh, 4; Anderson, 4; Wells, 4; Gardner, 1. Goals from free throws—Frayne, 2; Wells, 2.

Idaho scoring: Field goals—Stivers, Penwell, and Fitzke, 2; Telford, 3; Nelson, 2. Goals from free throws—Penwell, 2; Telford, 3.

Referee—Bobby Morris, Seattle.

### INTRA-MURAL ATHLETIC BOARD TO ARRANGE INDOOR BASEBALL

On Monday evening the Intra-mural athletic board will meet to make arrangements for indoor baseball. It is expected that the games will be played in the same manner that the basketball games have been played, that is, under tournament rules. Under these rules, the groups are divided into two leagues and each team in each league will play the other teams in that league. The winners in each league will play each other for the championship of all the groups.

Last year there was five innings to a game instead of the regulation number of nine.

Announcements regarding the schedules, and the dates of play will be published in the next issue of the Argonaut.

### IDAHO DEFEATS BEARCATS ON SALEM FLOOR

Vandal hoopsters defeated the Willamette Bearcats on their home floor last night, 35-32, according to telegraphic reports received after the game. No other information regarding the contest was received.

Two more games face the Idaho team on the coast trip this week end,— one tonight at Corvallis against the strong Oregon Aggie quintet, and one Saturday evening against the University of Oregon at Eugene.

### IDAHO LOSES DEBATE TO MONTANA U. TEAM

"World Court" Discussion Is Won By Unanimous Decision

University of Montana debaters, upholding the negative side of the question: "Resolved, that the United States should enter the World court as specified in the Harding plan," won a 3 to 0 decision over Idaho Thursday night in the university auditorium. Idaho speakers, who argued for the affirmative, were A. J. Miller and Warren Montgomery. The Montana team was composed of M. J. Conner and A. J. Stromness.

O'Connor, who opened the argument for the negative, was the outstanding speaker of the evening. His personality and form of delivery were strong factors in winning the decision. Stromness, O'Connor's colleague, although appearing to be an experienced debater, failed to equal his team-mate's force and confined himself to attempts at tearing down his opponents' arguments rather than strengthening his own.

Montgomery, second Idaho speaker, carried the burden of proof for the affirmative and, despite the broad subject on which he talked, made a creditable showing. Although offering material, which at times failed to be specific, Miller, who opened the debate, was able to furnish proof for his numerous points.

Judges were Professor R. J. Campbell of Washington State College, Miss Olive McBeth of the Lewiston State Normal school, and Dr. F. C. Gibson of Potlatch, Idaho.

Less than fifty persons were in attendance.

### ASSEMBLY NOTICE

Assembly of Wednesday, February 27th, will be moved to Friday, February 29th, at 10 o'clock. The speaker will be Thomas Arkle Clark, dean of men at the University of Illinois.

It will be necessary for the classes scheduled at the above hours to meet on Wednesday at 10 o'clock and the cooperation of all members of the faculty, in making this change known and effective, is earnestly requested.

Please note that classes are moved forward to an earlier period in the week.

### MILITARY BALL IS BIG EVENT OF WEEK END

Great Preparations Underway For Dance-Programs To Be Unusual

Saturday evening will find the terpsicorean artists of the campus in the throes of another formal affair, the twentieth Military ball, which promises to be the event of the social season. Plans have been under way for several weeks and all reports go to indicate that, as balls go, military and otherwise, the apex will be reached Saturday evening.

The decorations committee refuses to give out any information in detail, but from the nervous indications of that illustrious selection of interior decorators chosen only after the most careful examination of their inclinations, learnings and talents, in this great line of American art, it is safe to say that as soon as you have passed the outer door of the gymnasium you will never think of the "old gym" again.

You will be transported to a militaristic joyland. Just such a place is some general would dream of and visualize as heaven.

### ORCHESTRA SECURED

The orchestra will be "the best in the west," according to the Irishman in charge. "Imported stuff" is the term he uses, and the spirit of the occasion will without doubt bring out the best the players have in the way of soothing, dreamy waltzes, and intoxicating fox trots. New numbers are said to be enroute from all points of the compass for introduction on that evening to the fastidious dancing public.

Tickets are now on sale, and, with a limited number allowed, they are going like the proverbial hotcakes. It is quite important to note that no flowers or taxis are in order.

Many new and novel features are to distinguish the ball from other dances that have been held this year. It is hailed by its publicity committee, with another Irishman in charge, as "the only worth while dance of the entire collegiate year."

### DEAN ROBERTS TO GIVE BACCALAUREATE SERMON

Former President MacLean Commencement Speaker

Dean Paul Roberts of St. Michael's cathedral, Boise, will deliver the baccalaureate sermon and President James A. Maclean of the University of Manitoba, former president of the University of Idaho, will give the commencement address at the University in June, according to an announcement by President A. H. Upham.

Baccalaureate Sunday falls on June 1, and commencement day on June 2.

Dr. MacLean was president of the University of Idaho and he still numbers among his friends hundreds of alumni and other citizens of Idaho. He and Mrs. MacLean will reach Moscow in time for Alumni day, May 31.

Dean Roberts, in addition to his deanship of St. Michael's cathedral, is dean of the southwestern deanery of the Episcopal church in Idaho.

The commencement program this year follows the arrangement adopted last spring, which concentrates the commencement events in a single week-end.

### DEAN CLARK TO SPEAK TO GREEK LETTER MEN

A special inter-fraternity meeting will be held in the auditorium next Thursday evening, at eight o'clock, to hear Dean Thomas Arkle Clark, of the University of Illinois, discuss fraternity affairs and the Greek-letter situation.

Dean Clark, who will speak here in assembly Friday morning, is noted for his careful study and close contact with the fraternity situation in general.

### WEAR UNIFORMS

All reserve and national guard officers, and all ex-service men are requested to appear in uniform at the M.B.P. ball. There will be a special dance for all these in uniform.

### NEW CO-ED GROUP FORMED ON CAMPUS

Twenty-three Members In Local Sorority, Pi Sigma Rho

Announcement of the organization of a local sorority, Pi Sigma Rho, was made on the campus Wednesday afternoon. Twenty-three girls, with a scholarship average of a least "B", are members of the new group, which has taken over the third floor of Forney hall as its home for the remainder of the semester.

The officers of the Pi Sigma Rho are: president, Irene Starrh, of Boise; vice-president, Demerice Ebbly of Wallace; secretary, Lillian Hardman of Twin Falls; and treasurer, Ruth Hove of Spokane, Washington.

### TWENTY-THREE MEMBERS

Charter members of the new sorority are: seniors, Irene Starrh, of Boise; Frances Harris, of Kellogg, and Lillian Hardman, of Twin Falls. Juniors: Demerice Ebbly, of Wallace; Ruth Hove, and Helen Neffler, of Spokane, Wash.; Jessie Black, of Boise; and Norma Barnes, of Idaho Falls.

Sophomores: Ruth Zornes, of Coeur d'Alene; Viola Creswell, of Emmett; Frances Sullivan, of Spokane, Wash.; Arda Clare, of Cambridge; Iva Silva, of Shoshone; Lephia Decker, of Kooskia; and Rhea Softe, of Rigby.

Freshmen: Doris Squibb, and Grace Hagen, of Spokane, Wash.; Georgie Little, of Boise; Virginia Johnson, of St. Maries; Margaret Hansen, of Everett, Wash.; Evelyn Sampson, of Mullan; and Murvina Murray of Yakima, Washington.

Dean Robert M. Davis, of the college of law, will act as faculty adviser of Pi Sigma Rho.

### DR. B. S. SHORT PROVES INTERESTING LECTURER

"Personality" Is Subject Of Assembly Speaker

Personality personified describes and includes both the speaker and the speech delivered by Dr. Francis B. Short at the assembly Thursday morning. The speech was quite different from the usual formal delivered to the weekly assemblies. Dr. Short broke the bonds of formality, and mixing his striking personality with bits of humor, opened to the eyes of the assembly impressive common, everyday facts in a new light.

It is logical to refer to Dr. Short's speech as personality personified as he used his own agreeable personality in impressing his listeners with the importance of "an open countenance." He went into detail to show how necessary it is to insure success in the business world and true happiness throughout life.

### DEVELOPMENT OF PERSONALITY

Dr. Short further stated that personality could be developed, and necessarily should be developed in our college life more than it is. Frankly speaking to the faculty as well as the students, he stated that too much theorizing and not enough practical training was prevalent throughout college education.

"Lack of interest," continued Dr. Short, "is the greatest drawback in many of the required subjects." He went on to show that it is the duty of the instructors to instill into the students that interest, and the reason why these certain subjects are necessary in order that they should get the most out of them.

Though more important subjects have been discussed in assemblies, very few speakers ever succeeded in holding the attention better than Dr. Short. With his ready wit and unique illustrations, Dr. Short did not fail to express true sincerity in what he said.

### BASKETBALL SQUAD TO BE GUESTS OF LINDLEY H'LL

The basketball squad, Dr. Upham and family, Coach R. L. Mathews, David MacMillan and Bob Ferris will be entertained at a dinner at Lindley hall Tuesday evening. Mrs. O'Neil, Lindley hall stewardess, is planning a novel table for the guests, and Mr. Merry, the skillful pastry artist, is making a cake that promises to win him additional fame.

## THANKSGIVING GAME ASSURED FOR BOISE

University of Nevada to Meet Vandals In Football Classic Which Takes Place of Armistice Game

IDAHO will play the University of Nevada in the annual football classic at Boise Thanksgiving day, November 27, according to an announcement by R. L. Mathews, director of athletics at the university, who has been negotiating for the Boise game for some time. This football contest takes the place of the usual Armistice-day game at the state capital, which could not be arranged because of conflicting schedules with other conference teams.

### VANDAL WRESTLERS FACE COUGARS SOON

Two More Meets Complete Schedule This Season

With half their conference mat contests won by easy margins, the Idaho wrestling Vandals are looking forward to another victory when they meet the Washington State college grapplers here next Monday. Their last and probably their hardest meet of the season is scheduled with the University of Washington mat squad, March 1. Coach James A. "Babe" Brown has developed an unusually good squad of wrestlers and Idaho is looking forward to conference championship honors in this sport with every indication of success.

### TAKE EASY VICTORY

In their first conference meet with Washington State college, Friday, February 8, the Vandals won by a score of 40 to 36 points in a fairly close contest, Idaho taking three out of the five matches scheduled. The Vandals next defeated the University of Oregon, 58 to 30, here last Saturday in a slower meet. Idaho took three out of the five matches, two of them by straight falls.

Men who have wrestled in the last two meets and who will compose the squad against W. S. C. Monday are: John Vesser of Coeur d'Alene, 175 pounds; Frank Kinnison of Payette, and Dwight Disney of Rupert, 158 pounds; Guy Wicks of Moscow, and Roy Patchen of Coeur d'Alene, 145 pounds; Errol Hillman of Rexburg, and John Derr of Clarks Fork, 135 pounds; and William Bitner of Kellogg, 125 pounds.

### NOTICE

Because some careless persons have taken university property from the "Hut" without permission and failed to return it, it is necessary to ask that in the future, anyone borrowing property from the "Hut" must sign for it and be personally responsible. The stage equipment, which belongs to the class in play production, must not be taken under any circumstances.

### NOTICE

The Herbst String Quartet + from Spokane will appear at the + university March 10. Tickets + will be on sale at Hodgins in a + few days.

Last year Nevada was the only team in four years, with the single exception of Washington and Jefferson, to hold the great University of California football machine to a tie on its own field. Next to Pacific coast conference teams, Nevada has probably the best football eleven in the west, and her record against such team as Stanford, the University of Southern California, Santa Clara, St. Maries, and the University of Arizona places her high in western intercollegiate football standings. For these and many other equally good reasons, south Idaho football fans are assured of a good Boise game in the 1924 season.

This Thanksgiving day game is possible because, according to Idaho's schedule, she plays the University of Southern California at Los Angeles on November 22, and will stop off to play at Boise on the return trip home.

### Novel Vesper Program For Sunday Afternoon

A novel program has been arranged for Sunday afternoon vesper service to be held in the auditorium at four o'clock. Both glee clubs, as well as the all-college quartet will appear with interesting selections. Special solos for violin and piano will also make up the program.

The program follows:

1. Going Home ..... Dvorak-Fisher  
Standing in de need o' prayer..... Reddick
2. Mens' Glee Club  
Piano Solo-Improvisation ..... McDowell  
Lucille Ramstedt
3. Vocal Solo-Strida la zampa (Il Trovatore) ..... Verdi  
Helen Lomasson
4. Sylvia ..... Speaks  
Mighty Like A Rose ..... Nevin  
Girls' Glee Club
5. Piano Solos-Ragamuffin (from London set) ..... Ireland  
Etude (Nymphs at the Spring) ..... Juon  
Stanton McLaughlin
6. Vocal Solos-The Little Trees ..... Osgood  
Lawn as white as driven snow ..... Buzzle-Peccia  
Werner Ripplinger
7. Quartets-Where my caravan has rested ..... Lohr  
Deep in the heart of me ..... Wells  
Messrs. Barton, McLaughlin,  
Allumbaugh, and Vickerey.

## Awful Contortions Prove Nightmare to Co-ed Shots

"Attention.... prone position.... target....roll your eyes....wink.... shift to low....prop your elbow shoulder arms....park your gun.... take a breath....exhale by degrees....aim.... shift your eyes....aim.... hold your breath....aim....ready.... aim....SHOOT!"

Such commands were directed in varied accents and degrees of friendship towards the bobbed haired battalion of the Knickerbocker Rifle club at Lewis court, Monday afternoon.

Girls' rifle practice is being held in anticipation of an all-college team which will meet other university groups as soon as it becomes qualified to compete. A large number have already turned out for practice, and are becoming quite adept at eliminating the center of the target with a given quantity of ammunition.

The bull's eye swerved from "two o'clock" to "twelve o'clock" in a most remarkable and wholly unexpected manner when certain shots were aimed by rather ingenious devices through the medium of the English language

in its original and unpurified state.

Scores were gathered by means of hypnotism, magnetism, Coueism, and simple calculus. Much interest was derived from the extreme positions necessary to get within range of the Ingersoll radius, but it was evident that many became quite paralyzed while aiming at the Swiss time-piece. At any rate the casualties are getting fewer, and the only injury recently noted was a perforated condition of the roof, which has been brought to the attention of the Women's league, and will doubtless be mended within the next decade or so.

A sideline course in rifle work will be given in the Houdini method of extricating the anatomy from the various straps and mechanical appendages so closely connected with the rifle itself, and those wishing to take the course can enroll and roll and roll and finally extricate themselves simply with malice towards none and target to the right, and target to the left, as seems becoming to the embryo contortionists.

# WESTERN STORIES TO HEAD "BLUE BUCKET"

## Editor Desire Contributions With Sagebrush Air

The next issue of the Blue Bucket, which will appear about March 1, will be a western story magazine. True or near true stories of the cow trail, yarns of the high-heeled, two-fisted, he-men of the well known open spaces, songs of steep mountains and starry skies, thirsty word pictures of dry deserts, stifling narratives of swift rivers bearing brave prospectors to wealth or death—stories of life—and love (Western love), are in demand.

If you can't produce any of this brand of intellectual anesthetic, make a disdainful attempt to make fun of somebody who can or thinks he can. Most of them need it.

### OTHER CHANCES OFFERED

There are other alternatives. If you are sure you can't write a story, write one; it will be taken for a new model of realism. Again, write a movie in the idiomatic present about a cowboy who playfully bulldozed bulls and who knew Absalom and Achitophel by heart but whose spirit was broken when, at a formal ball in White Bird, Idaho, he stooped over to pick up an orchid corsage for his partner and the local blacksmith laughingly dealt him three blows with a sledge hammer.

### A NEW SUBJECT

If hard pressed you might even resort to a rich cattleman's daughter, who was not good looking and who had not been to college. This would be a new departure—an innovation. There is going to be something in The Blue Bucket this time. This is your chance to get into it. The people who write for the Blue Bucket think it is the cat's ankle. This is a subtle plot on the part of the editors to get everybody to contribute and thus make the book one hundred percent popular.

Place any contributions in the University "Hut" mail box in the entrance hall of the Administration building.

## Pickings From The Press

Five Suffield school boys recently played hockey because they failed in mid-year exams. Such ordinary occurrences as flunking exams will not worry them much by the time they have been in college a few years.

Little credi is reflected on our government by the fact that it took a foreign nation to point the way out of a national dilemma. Hungary has legislation prohibiting the bananas song.

How quickly are our quaint customs seized upon by foreign peoples! They had a paper-wad battle in the French Chamber of Deputies the other day.

The modern farmer has three perplexing problems: the boll weevil, the Hessian fly and his daughter at college.

It was suggested by a student of M. I. T. that men living in the dorms place indicators similar to those traffic cops use, on their doors to indicate whether or not the inmate of the room is in the mood to receive callers. "Stop" is evidently intended to indicate that study is in progress and callers are not wanted, and "Go" means welcome.

"Why Go To College?" was the subject used on a number of county club programs during Christmas vacation. And we wonder why ourselves when we read about the walter in Florida who seldom receives a tip of less than \$5 and who is the proud owner of a Rolls-Royce.

The difference between a license for marriage and an auto license is that in the case of the motor car one can always manage to get rid of a flat tire.

A kin you love to touch—dad for money.

Which reminds us: More fish are caught on Frat pins than on bent pins.

Our girl is so dumb she thinks Marco Polo is a new kind of Hockey.

"Why keep that schoolgirl comple-

xion?" asked the senior as he brushed off his lapel.

Short sighted lady in store—Is that the head cheese over there? Salesman—No, that is one of his assistants.

(With apologies to Longfellow.) I kicked the skunk as I went by He was incensed—and so was I.

If plagiarism were a capital offense, there would be few college paper humor columns.

English women fall in vampire role. American women, however, are quite successful in title roles.

## Sees No Grace or Art In Modern Jazz Dance

Miss Elizabeth Burchenal, the nation's best authority on folk dances, sees no grace or art in modern jazz dancing, and so is devoting herself to teaching America the graceful, vivacious dance which the people of Europe dance. There the old folks, young folks, and children all enjoy themselves together and no one feels "out of it" because of not knowing the latest strangle-hold and totter. The same thing, that has made the Virginia Reel live so many generations as the chief entertainment at many mixed gatherings, will make the continental folk dances popular in America, Miss Burchenal believes: their democracy.

Miss Burchenal is being brought to the State College of Washington Mar. 28 to April 2 for a series of ten lessons in folk dances, which the college is opening to the general public, in order that school physical training teachers, playground supervisors, masters of granges and farm burceas, and other social groups may enroll or send representatives who will learn the dances and take them home to teach to the communities for all to learn.

## WOMEN BREAKS RECORD

The world's record for college women was broken at the University of Oregon, recently, when Virginia Wilson, swimming for Gamma Phi Beta, and Maude Schroeder, for Susan Campbell Hall, tied for first place, making the one length in the women's tank in 10 1-2 seconds, against the world's mark of 11 1-2 seconds. The record made here on the campus is not official, however, because there were not the required three timers and three judges present.

## EXTINCT CRATER MAKES HUGE ATHLETIC STADIUM

Punchbowl, the large extinct crater of one of the volcanoes that formed the island of Oahu and which once was used as a hill of sacrifice by the Hawaiian people, will become one of the largest athletic stadiums in the world if the plans of Major William Hoopai, athletic officer of the Hawaiian national guard, are consummated.

The stadium would be almost in the center of the city and would have a seating capacity of 95,000 persons, as large as the present population of Honolulu. Prison laborers have started clearing kiawe and other brush from the sides of the crater, and inside the bowl. Improvements also have been started to the one road leading to the top of the crater, and efforts will be made to obtain municipal co-operation for the construction of another road.

### NEW RIFLE RANGE

Punchbowl, which towers 500 feet above sea level, forms a perfect amphitheater, and, in the opinion of Major Hoopai, could be transformed into a modern stadium at a small cost. It is now owned by the government and is used as a rifle range for the national guard of Hawaii. Its peak is the scene of the annual Easter sunrise service, which is held before a giant cross.

The last human sacrifice believed to have taken place on Punchbowl is shrouded in mystery but tradition says that King Kamehameha IV, a heavy drinker, struck his only child during a drinking bout. The child received injuries which caused its death. Kamehameha planned an explanation of his crime. A decree was issued ordering all inhabitants of Honolulu to remain inside their houses that night.

### FIRE BURNS ON ROCK

What transpired is unknown, but tradition contends that a fire burned that night on a high rock where the sacrificial pit was situated. A heavy smoke fell and wavered around it, according to the stories of persons who disobeyed the king's order and watched the fire from afar. An old Hawaiian, questioned regarding this incident, said that nobody was known to have been missing in Honolulu after this evening, but that any drunk sailor might have disappeared easily in the darkness and that such a man never would be missed. In 1809 a chief who was captured as an enemy of Kamehameha the Great was known to have been burned at the stake on Punchbowl.

The crater rim measures 1,930 feet across from east to west and 1,700 feet across from north to south. The slope from the rim to the bottom of

the crater is estimated at approximately 15 degrees. The floor of the bowl is about 200 feet below the rim.

### WIT AND HUMOR

It takes more than a handful of soap bubbles to bring some girls' necks back to light.

She—What can they do for a man when he goes to seed? He—Plant him.

A student once was asked—What makes the snow disappear? And his reply was simply this—Snow balls.

A cannibals existence depends upon his ability to pick men that agree with him.

Wife—How can you stand lying in bed so late in the mornings? Hubby—I don't stand lying in bed. I'm no contortionist.

An old negro farmer was arrested for stealing some chickens. The evidence not being sufficient the judge, after lecturing the negro, said to him: "You are acquitted."

The negro scratched his head and said, "Does dat mean I give the chickens back?"

## VIOLIN RECITAL BY CLAUS IN AUDITORIUM TONIGHT

Lovers of music have a treat coming up Friday night in the University of Idaho auditorium at 8 o'clock in the violin recital by Prof. Carl Claus, of the university department of music. Professor Claus has "big league" ability and his most successful recital last year has caused an insistent demand for a second recital again this year.

The violin recital program follows:

Quality First

And Quality Last. Here's the bread for your repast.

SCHROETER'S Butterkrust BREAD MADE WITH MILK YOUR STAFF O' LIFE

EMPIRE BAKERY

- Sonata in E Major .....Handel
- Allegro Molto Appassionata.....Mendelssohn
- (from E Minor Concerto)
- Nocturne .....Chopin-Wilhelmj
- Minuet .....Bocherini
- Lullaby and Prayer .....Musin
- Valse Bluette .....Drigo-Auer
- Polonaise in A Major .....Wienlawski

## EARLY RISERS GET HUGE SHOCK FROM SIGHT ON CAMPUS

Night owls who are in the habit of retiring late, and early risers who crawl out from between the sheets when the sun peeps over the top of Tomer's butte, or thereabouts, have been startled the last few mornings at the sight that has met their eyes about 5:30 a. m.

They have seen a group of men jogging around the campus, while the daylight was still problematical, and trees were indistinct shadows. No wonder the night owls rubbed their eyes, and decided that they had better roll in earlier. And the early risers probably thought they were still dreaming.

Probably some of these stragglers thought that this group of patiently jogging men were lunatics, or sleep-walkers. And they had reason to be-

## MEN OPPORTUNITY IS KNOCKING AT YOUR DOOR

Do you want to make \$100 a week next summer, calling on strictly business and professional men? Our salesmen are doing it every summer. The experience is worth double the money earned. You need no experience. Write me now for further information. W. P. Weisel, Northwestern Salesmanager, Box 146 College Station, Pullman, Washington.

lieve so, for the early bird hadn't let out his first cheep, or even thought of getting his worm, and the arboretum lights were still burning.

But there wasn't anything wrong, after all. It was just the early morning road work of the varsity wrestling team. Coach "Babe" Brown has rolled them out every morning for the past week, and given them a few miles before breakfast, "just to get them tough."

## Montana Abolishes All Inter-mural Athletics

University of Montana, Feb. 20—Inter-fraternity athletics were abolished at the last meeting of the inter-fraternity council. It was decided to scrap all the cups and trophies which the fraternities already have in their possession, at a public gathering of some sort.

The Tool of Civilization

WHERE man once toiled with hand tools to quarry his stone, dig his ores and build his highways and canals, he now employs explosives power.

He has created a force that makes possible the economical production of almost every article of commerce, a power that he can completely control.

Iron, the basis of industry, copper for electrical apparatus, zinc, lead, precious metals—all are mined with explosives. The miner must blast his coal to mine it economically. From graphite for pencils to talc for face powder, explosives are used to extract minerals and metals from the earth. Everything that goes into building construction—stone, marble, gypsum, lime, cement—is obtained by explosives power. Railroads, highways and canals are built with the aid of dynamite.

On the farm, dynamite has become a servant that clears land of stumps and boulders, drains swamps, revitalizes the soil and aids in the planting of trees.

So, explosives power has become the tool of modern civilization. And in the production and development of explosives, the du Pont Company has been privileged to lead the way for over 121 years—always looking ahead to greater achievements and ever anticipating industrial needs.

## INTER-MURAL GAMES UPSET FORMER DOPE

Intra-mural hoop artists treated spectators this week to some of the fastest and closest playing shown in the intra-mural league this season. Six games were played this week and the dope basket was overturned in one game, and nearly over turned in the others.

In the first game the Kappa Sigs, playing at their best, defeated the Sigma Nu's who were handicapped by the loss of "Giff" Davison, star forward of that aggregation. The score was 33 to 9. In the second contest, the Lindley hall quintet defeated the Betas, 15 to 12. Lindley hall has shown marked improvement over the rest of the league. The third game, between the S. A. E.'s and the Kappa Deltas ended, after a three minute playoff, because of a tie at the end of the game, 13 to 9 in favor of the S. A. E.'s. The S. A. E.'s looped three baskets in the extra period.

**PHI DELTS COME BACK**  
The Phi Deltas staged a comeback in the second half of the game with the Elwetats, defeating them 25 to 14. At the close of the first half the score was ties 8 all. Ray Stephens, of Phi Delta Theta, romped through the Elwetats defense in the last few minutes of play for several points, and coupled with a few more scores by Vols and Nelson, the game was clinched.

All games that were scheduled for Friday have been called off. On Thursday the Elwetats were scheduled to play Lindley hall. Owing to the postponement of these games, the finals will be played at a later date than scheduled.

**LEAGUE STANDINGS**  
The present standing in League "A" is as follows:

Team	Won	Lost	P. C.
S. A. E.	3	0	1.000
Betas	1	1	.500
Kappa Deltas	1	1	.500
Lindley	1	2	.333
Fijis	0	2	.000

The present standing of League "B" is as follows:

Team	Won	Lost	P. C.
Phi Delt	4	0	1.000
Kappa Sigma	3	1	.750
Phi Alpha's	2	2	.500
Sigma Nu	1	2	.333
Elwetats	0	3	.333

**IMPORTANT GAME**  
At 1:30 this afternoon the S. A. E. play the Betas, which, according to the dopesters, will be a fast and important game. The S. A. E.'s are undefeated and the Betas have lost but one game.

At 1:45 the Kappa Deltas play the Fijis. This should be a hard fought game for both teams are in the low end of League "B".

On Saturday the last game of the series will be played between the Betas and the Kappa Deltas. In the near future the finals will be played between the champions of league "A" and of league "B".

## Radio Fraternity Is Formed At Pullman

Washington State College —(P. I. N. S.)—Delta Alpha, a local radio fraternity, is the latest addition to the Greek letter organizations at the State college. Twenty enthusiasts of radio telegraphy and telephony have banded together under this name for the purpose of fostering interest in radio, and ultimately of petitioning for charter of Alpha Delta Alpha, the national radio fraternity. To be a member a man must be an engineer and actually interested in radio communication. Each of the twenty charter members either has a wireless outfit of his own, or is connected with the college broadcasting station in some capacity.

## GIRLS' RIFLE PRACTICE SHOWS GOOD RESULTS

Co-eds Prove Rivals Of Male Marksmen

Girls' rifle practice is the greatest drawing card in the university for the athletes. The co-eds have shown remarkable interest in the sport and are turning out faithfully for each practice. Not only are they turning out for practice but they are getting good. Their records are especially good, and cause envy even among the men who pride themselves in their skill and marksmanship. Among those making the highest

scores are Evangeline Bennett, Gwendolen Smith, Dorothy Gallup, Olga Gustafson, Lola Hedge, Hazel Roe, and Ruth Wolfe.

## IS SELECTIVE PROCESS

This week the girls having the highest scores in the prone position, will be selected to learn the second position, according to Captain B. B. Baine, of the military department. Those who are making passable scores will continue to be coached in the prone position. But those who have exceedingly low scores will be dropped from the schedule in order to give more time to others for practice.

Hazel Mary Roe, captain of the team, is arranging a series of matches with other universities, which will be started next month.

Beginning Monday, February 25, practices will be held in the shooting gallery in the Administration building.

## NEW RULES TO GOVERN CO-ED HIKING SCHEDULE

Sixty Miles Are Required By May 25

"Rules regarding girls' hiking have been changed," Jane Gibbs, manager of the girls' hiking club, stated Thursday. "It is no longer necessary for the hikers to go in a body in order to get credit. They may hike at any convenient time, providing they go with one or more girls on a continuous hike and hand in a written report, stating the number of miles covered and the time spent. Three miles is the minimum number which will be accepted at any time and there is no maximum."

## INTEREST IS KEEN

More interest has been taken in this sport of late, than ever before, probably because of the unusually good weather. Some of the most popular places for hikes are Pullman Troy, Genesee ridge, and Paradise mountain. For those who desire longer hikes, Potlatch and Lewiston are not impossible, and the latter is just a "nice jaunt."

"We hiked to Lewiston last spring, —a 40 mile hike," said Jane Gibbs. "Of course we got lifts, but nevertheless we covered about 35 miles that day."

With good weather, good roads, and 50 points toward a sweater as incentives, each co-ed should make hiking a major sport. The requirement for this is that a distance of 60 miles be covered before May 25. No advanced credit will be given for any distance exceeding 60 miles.

## OLSON NAMED PREXY SECOND YEAR CLASS

Clarence Olson was elected president of the sophomore class for the second semester at a lively meeting Tuesday night. The other new officers elected were Lester Ernberger, vice-president; Esther Kennedy, secretary; and Hosea Evans, treasurer. About 175 of the second year students were present at the meeting. The keen interest in the proceedings and competition in voting made the affair almost sensational.

Something unusual seemed to hover in the atmosphere before the meeting was called to order. Sophomore class gatherings are generally considered a bore and something to be gotten out of the way by a few as quickly as possible. But Tuesday night the loyal sophs actually came early, and before Sidney Yeager (then president) rapped for order Room 217 had nearly reached its full capacity. A din of chatter from groups of crowded heads filled the room.

## NERVOUSNESS APPARENT

After the meeting was called to order and the first ballots cast there was a great deal of squirming and craning of necks as the tally marks ran almost neck on the board. When the last decisive mark was chalked up both clapping and murmuring broke the momentary silence. Outside of the fact that, due to a breach in Robert's rules of order, three different ballots had to be cast in electing one of the officers, the rest of the voting went off smoothly and with less anxiety.

## Utah Aggies Start Boycott On Safety Razor Combination

The past three weeks have witnessed a phenomenal growth of interest in the landscape gardening on the part of men at the Utah Agricultural College, according to Emil Hansen, Professor of the department. So insistent have been the pleas for assistance in this field that Mr. Hansen is planning to issue, through the Experiment Station, two bulletins entitled, "Hedges, How to Trim and Cultivate Them," and "The Cultivation of Hanging Gardens".

As nearly as can be determined, this sudden increase of interest in a subject that most students have been inclined to ignore, has arisen as a result of the Jim Bridger Centenary, which is being planned for next summer. Apparently it indicates a desire to present an atmosphere of beauty to the hosts of visitors who will come to Logan for that event.

Although the season is still young many an upper lip has an extensive growth. It is not possible as yet to determine what designs will be favored most generally. Some will doubtless incline toward the gracefully curving arbor effect while others will prefer the long streaming trellis, but it seems likely that the majority will favor the closely trimmed nail-brush pattern. A great deal of at-

tention is being given to the matter of determining which style fits in best with the topography of the short upper lips, hooked noses, or modest, retiring chins.

It is evident that no activity has ever been taken up by the men of the college with such enthusiasm, and it is apparent that at the present rate every man's face will be peering through the ambush of some moustache, or beard ornament by July, at which time Cache Valley celebrates the Jim Bridger Centenary.

## Cougar Hoop Artists Face Hard Coast Trip

Washington State College —(P. I. N. S.)—Six games in eight days is

the task facing the W. S. C. basketball squad that leaves Pullman on Friday, February 22. These games will complete the Cougar schedule.

The first game will be with the Washington Huskies in Seattle on Saturday night. Going south into Oregon they meet O. A. C. on Monday, Oregon on Wednesday, Willamette on Thursday, Multnomah Athletic club on Friday and Whitman on Saturday. Five of these games will have bearing on Northwest Conference standing.

## Opportunities For College Women In U. S. Patent Office

The constitution of the United States provides for the granting of patents, and as early as 1790 congress enacted legislation for the grant of patents for invention. A patent is granted an inventor to give him exclusive rights in the invention he discloses in his application. It will be readily seen that the work is extremely interesting.

The positions in the examining corps of the Patent office are filled initially from a list made up of those who pass a technical civil service

examination, and promotions within the office are made on a strictly merit system. The entrance salary has been fixed by congress at \$1860, and increases of salary are provided for by promotions from time to time up to \$5000 a year. There are over five hundred members of the examining corps. All have had higher educational advantages and this lends dignity to the position and assures congenial working associates.

## IDEAL COLLEGE LIFE

It is hardly necessary to suggest that Washington comes up to the tradition that it is an ideal place in which to live. The many fraternity houses connected with the universities provide surrounding tending to prolong the joys of undergraduate life.

For an educated person interested in mechanics or industry there is probably no more satisfactory branch of the civil service for a life work than the examining corps of the United States patent office. For one desiring to prepare for and enter a useful, interesting, and lucrative profession, there is probably no better preparation than service on the examining corps of the United States patent office preparatory to becoming a patent lawyer.

There are about a dozen women now in the examining corps and there is no reason why many more college women should not successfully enter the patent office as their contribution to public service.

## George Washington

TODAY we pause from our school studies long enough to pay tribute to the first great American whose memory grows more revered as the passing years show forth the handiworks of what he and his colleagues so nobly fought and bled for some two hundred years ago. Though he lived during the first perilous days of our great republic his influence and his memory lives on like a perennial flower which the course of time is powerless to destroy.

As we cease activities for the day let us not think of the occasion as one merely an opportunity to escape the drudgery of the class room. No doubt we need the respite from the physical standpoint but there should be a significance in this day that will fill the hearts of every loyal American with a reverence for the great men who are responsible for the world renowned position of the United States today. We have every reason to feel proud of what these men have done for us, and we should take this opportunity to remember them for their service to the land of our birth.

When we look back and think of the hardships endured by "The Father of His Country," we cannot but feel a glow of enthusiasm for the farsightedness that prompted those brave men to make the sacrifices they did that a new republic might be born. The hardships they endured, the privations they endured, the danger they faced, create within us a deep current of respect and admiration. They were imbued with a great purpose.

What they accomplished they could never know. If any of those great men could be reincarnated they would be as much out of place as the most ignorant African should have been in their day. From an insignificant group of thirteen colonies, the states for which they fought, have increased to the number of forty-eight and now hold the balance of power throughout the world. But the seeds of that greatness was planted by those hardy men who battled during the seventies that an infant republic might be dedicated to the blessings of liberty, of thought, speech, and government.

Assuredly, we have innumerable reasons for which we may thank those noble founders of our country. They laid the corner stone of our Democracy. And to their memory we should this day pay fitting homage.

## Our Camps

AT this time of the year the lawn on the campus is made or ruined. With the ground soaked up from the spring rains it is an easy matter to tear the sod and leave great holes that will prove eye-sores later in the season.

Prevention is always better than cure—It would be well to stop the use of all campus paths until the ground is dry, and follow the sidewalks, which were not built to be looked at, and can easily stand the wear.

## Whitman Co-eds Fall In Barbers' Clutches

Whitman College, Feb. 20—(P.I.N. S.)—Only forty-four of the fair co-eds residing in the three dormitories have been able to withstand the wiles of the barber. Bobbed hair is becoming so popular in fact that it will not be long before a few of the farsighted ones will enjoy great distinction as being the only ones on the campus possessed with trailing tresses.

**HIGH SCHOLARSHIP SET BY MONTANA UNIVERSITY**  
University of Montana, Feb. 20.—All candidates for degrees or any certificates granted by the university after September 1, 1924, must have grade points equal to the number of credits earned, according to a ruling made at a recent faculty meeting. This is equivalent to an average grade of "C" in the subjects for which the student has received credit.

## Society

The twentieth annual Military ball will be held Saturday evening in the gymnasium. This is one of the few formal all-college dances of the year and it is being looked forward to with much enthusiasm. The hall will be appropriately decorated with flags and patriotic colors and punch will be served throughout the evening. A Spokane orchestra will furnish the music.

Phi Delta Theta gave a smoker Friday night in honor of the delegates to the province convention. The program included a number of pleasing selections by the Phi Delta quartet from Pullman. At the close of the program refreshments were served.

Saturday night the active chapter of Phi Delta Theta held an informal house dance, the music being furnished by the Phi Delta orchestra.

The guests were: The Misses B. McDonald, C. James, H. Featherstone, O. Marckle, L. Jeness, C. Brown, M. Blackinger, E. Kennedy, M. Paisley, H. Grimm, B. Drake, H. Stone, A. Long, D. Peairs, M. Bliss, A. McMaster, M. Gauer, C. DeWitt, B. Boyer, E. Cooper, M. McArthur, M. Sparkes, F. Armbruster, H. Wheeler, G. Barnhart, M. Cartwright, G. Shea, D. Ebbly, R. Faulkner, K. Fields, F. Selby, H. Stutz, A. Cox, G. Jones, M. McKenna, F. LaPointe, L. Wheelock, F. Nero, C. Eickelhaupt, E. Howard, G. Romaine, K. Watt, M. Freaikes, and M. Boyle from Pullman. Messrs. Dohler, Hale, Hannum, Kayser, Murdock, and Ruble from Pullman, C. Schurch and S. Scott, of Bozeman, Mont., N. McKown, Missoula, Mont., L. Lawis, Seattle, J. Nelson, Laramie, Wyo., Christensen, Corvallis, Ore., and R. Dean, Walla Walla, Washington.

The patrons and patronesses were Dean and Mrs. Crawford and Mrs. and Mrs. Isaacs of Pullman.

Dinner guests of Gamma Phi Beta Wednesday were Messrs. T. Cunningham, G. Williams, E. Pelan, E. Morris, G. Davidson, and R. Wheaton.

Kappa Kappa Gamma entertained at dinner Wednesday for Dr. and Mrs. Wadswell, Dean and Mrs. Eldridge, J. S. McLaughlin, Mrs. Bailey, and Mrs. Harney Smith.

Dean and Mrs. Miller and Professor and Mrs. Kirkham were dinner guests of Kappa Alpha Theta Wednesday.

Dinner guests of Phi Alpha Psi this week were Marx McAllister and Clarence Myrone.

Chi Beta Epsilon entertained at dinner Wednesday for Messrs. Thompson, Wendell, Dresser, Garrett, and Parker.

Dinner guests of Beta Theta Pi Wednesday were Dr. Howard Hatfield of Los Angeles, Cal., Guy Wicks, and Frank Kinnison.

Phi Delta Theta dinner guests this week were the Misses I. Shallis and E. Babcock.

Sigma Alpha Epsilon dinner guests Wednesday were Messrs. Stanton McLaughlin, R. Ferris, Mrs. M. L. Sargent, and the Misses M. Sparks, U. Hughes, M. Duevel, D. Lanz, W. Keithley, M. McNichols, E. Kennedy, and M. Carland.

Margaret McAtee, Dorothy Peairs, and Dr. MacAtee of Twin Falls, were dinner guests at the Beta Theta Pi house.

Dinner guests of Ridenbaugh hall Wednesday were Dr. and Mrs. Barton, Dean and Mrs. Angell, Dr. and Mrs. Von Ende, Frances Noggle, Mary Dunn, David Ketchum, Walter Casebolt, J. Dudley Swim, Charles Diehl, and Mr. Gartin.

Phi Alpha Psi announces the pledging of Clarence Myrone of Spokane.

Delta Gamma announces the initiation of Dorothy Darling, Lucy Wyman, and Marjorie Woods of Boise; Helen Wheeler of Millwood, Wash.; Sarah Trousdale, and Cleo DeWitt of Twin Falls; Ruth Aspray of Spokane; Frances Kerr of Sandpoint; and Marjorie Simpson of Mos-

## Broken Dribbles

A certain man has started his 1924 presidential campaign and has announced that anyone who would qualify for a position in his cabinet must answer the following questions:

1. Have you ever committed suicide? If so you are not eligible and what are you sticking around for?
2. What is your best girl's address? Do you know any other good addresses? Don't hold out.
3. Where was New York 37,000 years ago? If not, why not?
4. Are you in favor of bigger targets and sideboards on the cuspidors?
5. Where does the wind start blowing? Why not?
6. Should the Siamese navy have more clothesline on its submarines?

The royal Siamese chemist has worked out a rubber alfalfa, so the cows have a real chewing gum at last.

The K-night of the bath has been appointed — Saturday night.

A lumberjack had been cutting up all winter, and says he's right there with the Bark.

A Rooster and a Jay were talking one day about their lineage. Said the Rooster, "I am proud of the fact that I was hatched from a porcelain door knob." Said the Jay, "Then 'tis only right that I should do you a good turn."

The Rooster gave the Jay some branded cherries in a cup. "It's not the cherries that I care for so much," says the Jay, "but I do appreciate the spirit in which they are offered."

My brother is a kitchen oculist—he takes the eyes out of the spuds.

An aged violin maker is in charge of the home for Disabled Ukelele players, and has a fine time stringing the old boys along.

There is a plan in Kansas City to tax the barbers \$1.00 annually, which will be no hardship at all. They can easily scrape up the money.

"All that I am I owe to my mother." Uh huh and "All you've got you owe to your father."
