Plans for a broad policy of university support and for permanent organization were formulated and the following officers elected: J. W. Thometz, president; Ray Bistline, vice-president; and Isaac McDougall, secretary-treasurer.

AMERICAN HISTORY AWARD ANNOUNCED

Author Of Best Essay To Receive Bust Of Washington

A handsome bronze bust of George Washington has been presented to the University by the Idaho society of the Sons of the American Revolution, to be awarded annually to the student or campus organization submitting the best group of theses on some phase of early American history.

Each fraternity or similar campus group, in order to win, must submit at least two theses, and if the winning organization has a house on the invasion of Pacific coast conference campus it will be given the custody basketball floors. The invasion as of the trophy until a further award is wound up in a blaze of glory Satur- made. (Concluded on page four)

ARGONAUT ONCE PER WEEK

DRASTIC CUT IN BUDGET:

In order to get within the amount of student body money available for expenditure this semester, the Board of Supervisors found it necessary to recommend to the executive board that department budgets be reduced as follows:

(1) Athletic department, \$2500.00. Men's Glee Club to be financed for northern trip only, thus excluding participation in the Glee Club contest at Portland.

(3) Treble Clef to be financed for south Idaho only. (4) "University Argonaut" to be issued for the present as a six-page edition once a week.

These recommendations the Executive Board has approved, declaring an emergency in the case of the "Argonaut" which necessitates temporary suspension of one issue a week. This action was determined upon by the fact that even with a substantial reduction of the athletic budget there were not funds enough left to complete full Pacific coast schedules unless further reductions were made. By printing the "Argonaut" once a week the A. S. U. I. will be able to complete spring athletic schedules in all branches of sport. Every department of the A. S. U. I. has suffered a reduction in proportion to its financial requirements, so that no department was entirely eliminated in order to preserve another. The suspension of the twice-a-week "Argonaut" is but temporary and it is hoped that means may be found whereby it may be resumed twice a week before the semester is over.

SPECIAL MEETING

A special meeting of the student body is called for 4 P. M. Thursday, March 4th, in the University auditorium for the purpose of reading the proposed amendments to the A. S. U. I. constitution.

(Signed) TALBOT JENNINGS,

President A. S. U. I.

AMAZING TALK GIVEN ON LABOR PROBLEMS

Expert Voices Progress Made By English Labor **Party**

Giving the most accurate and authoritative information and vivid insight into prevailing labor conditions, especially as existing in Great Britain, Mat Artists Battle Paul Blanshard, connected with the League for Industrial Democracy, addressed Alpha Kappa Psi, honorary economics fraternity, last evening, and Professor Dale's class in general economics Tuesday morning.

Mr. Blanshard, who is a graduate of the University of Michigan, has just returned from England and Italy where he made an extensive investigation of labor conditions. He is the author of several widely read books on labor conditions. HIS TALK

"Labor democracy is the significant movement of the twentieth century," said Mr. Blanshard in introducing his comparison of British and American conditions.

The summary of his talk follows: "The British labor leader is intellectually much superior to those of the United States, for here many of them are in fact social outcasts.

"Britain recognizes that bottom of community must not rot out and consequently has provided government unemployment insurance, free medical service for laborers, and a small pension for those over 70 years of age. EDUCATE LABORERS

"Workers' educational associations conduct night classes taught by col-Idaho Will Lose Only Two Close- Up Of People At lege professors. Labor is given an understanding of depressions and wage fluctuations leading to the realization that strikes are poor weapons. Radical speakers are not supressed, the government holding that the tight-

WITH COUGARS IN FAST GAME

W. S. C. to a Draw

In one of the best meets ever staged on the local floor, the Idaho varsity wrestling team tied with the W. S. C. team, 8 to 8 and the Vandal frosh won from the Cougar Babes, 16 to 0. Under the new ruling of 15 minute bouts and no decisions there was no stalling and as only falls counted toward winning both teams fought bitterly for decisive victories.

In the freshman meet Balkow and Edelblute secured falls, the others being declared draws. In the varsity battles Bitner followed his usual tactics and won a fall in 1:20 minutes while King pulled the biggest surprise by throwing J. Vesser in 21 seconds.

A good turnout of men students and a sprinkling of co-eds were very enthusiastic over the various bouts, showing a very high quality of The bouts themsportsmanship. selves were all clean and fast, except for the fact that the referee had to caution the Washington men in regard to the use of the wrist lock, as they frequently pressed it into a hammer lock which is barred in amateur wrestling.

A summary of the bouts follows: Bitner for Idaho threw Keller in 1 minute 20 seconds with a half Nelson and bar arm. This is Bitner's third straight victory and he shows promise of developing into a championship calibre feather weight.

Errol Hillman received a draw with Cowell of W S C in a speedy match in which both men were on the mat in bad positions at times. Hillman has been with the varsity basketball team and has been unable to train with the squad and for this reason

RECOMMEND EXPULSION

W. S. C. -(P.I.N.S.) - Expulsion from college was recommended by the Associated Students of the State. College of Washington at their last ized at O.A.C. by students interested meeting, as a punishment for any in polo. The new club has been apstudent found intoxicated, in possession of liquor, or in any way involved in liquor traffic. The recommendation was embodied in a communication to the administration, to voice the sentiment of the general student body, roused particularly by the recent arrest of two students near Colfax on a "bootlegging" charge.

WOODROW WILSON WAS ONCE A COLLEGE FOOTBALL COACH

Woodrow Wilson at one stage of his career was a football coach. While he was professor of history and political economy at Wesleyan University, he served as football mentor, and in the years from 1888 to 1890 turned out two of the most successful teams the college has ever had.

He invented a new system of offensive plays which revolutionized coaching methods of the time. These were subsequently adopted by every team in the country.

One of the most interesting stories told of Wilson was the one about his saving his team from defeat by Lehigh in 1899. The Wesleyan defense was being battered to pieces; disastrous defeat was threatened. Suddenly, Wilson appeared in the grand

EMPIRE BAKERY

He has created a force that makes possible the economical production of almost every article of commerce, a power that he can completely control.

Iron, the basis of industry, copper for electrical apparatus, zinc, lead, precious metals—all are mined with explosives. The miner must blast his coal to mine it economically. From graphite for pencils to talc for face powder, explosives are used to extract minerals and metals from the earth. Everything that goes into building construction—stone, marble, gypsum, lime, cement—is obtained by explosives power. Railroads, highways and canals are built with the aid of dynamite.

On the farm, dynamite has become a servant that clears land of stumps and boulders, drains swamps, revitalizes the soil and aids in the planting of trees.

So, explosives power has become the tool of modern civilization. And in the production and development of explosives, the du Pont Company has been privileged to lead the way for over 121 years—always looking ahead to greater achievements and ever anticipating industrial needs.

LOST

Lost or taken the day the Christmas special arrived in Moscow- a ukelele made of a double cocanut, and on frets. It is a much prized gift from the Orient and the owner offers a reward for its return to Dean French's office.

Five thousand dollars is available for award annually by the Charles A. Coffin Foundation, established by the General Electric Company, for fellowships in electricity, physics, and physical chemistry, to graduates of the universities, colleges, and technical schools of the United States who have shown, by the character of their work, that they could, with advantage, undertake or continue research work in educational institutions either in this country or abroad.

Six such fellowships were awarded last year, and opportunity is now open to make application for those to be given this year. The fellowships carry a minimum allowance of five hundred dollars per year, which sum may be increased to meet the special needs of applicants to whom they are granted. The Foundation committee in charge of the matter desires to award these fellowships to men who, without financial assistance, would be unable to devote themselves to research work. Applications will be welcomed from seniors as well as graduates of colleges. universities, and technical schools, but any award to a senior will be conditioned upon his graduation.

Applications must be filed with the Committee by April 15, 1924, and should be addressed to W. W. Trench, Secretary of the Charles A. Coffin Foundation, Schenectady, New York, from whom the necessary blanks may be obtained on request. Candidates who have been graduated for more than one year may mail their applications direct to the Secretary of the Foundation, at the same address.

COMICS IN UNIQUE WEDDING AT STANFORD

Stanford University-(Pi. I. N. S.) -"The Stanford Chaparral" and the "Columbia Jester" have issued invitations for their temporary wedding to be celebrated on the occasion of the combined issue of the two college comic magazines, which will be released this month. In commenting on the coming ceremony the "Jester" states that the "bride will be charmingly arrayed in chaps and a wild and a tasteful silk shirt."

A. S. U. I. Emergency

Not all the student body seems to be alive to the liability incurred by the A. S. U. I. in undertaking the publication of "The Gem of the Mountains." The year-book is now a student body affair, and while no appropriation has been made for it from student funds, nevertheless it is upon the student body that the liability rests in the event of a loss. Some members of classes and other organizations appear to assume the yearbook is a private enterprise, undertaken for personal profit by certain students. The management of "The Gem of the Mountains" has no other interest than to make the book pay for itself, which under the present circumstances, is highly desirable if other budgets are to escape further reductions. A substantial loss on the "Gem of the Mountains" would in all probability make it necessary to abandon entirely a branch of major sports in the spring. It is therefore absolutely necessary that all organizations and classes co-operate with the annual management in misunderstanding concerning the cost of such space, the executive board Rothrock, Ellsworth, and Zent of spring. The guest lists include many the matter of paying for space rates in the year book. If there is a will be glad to take up the matter with the "Gem of the Mountains" staff. Pullman; K. Hunter, Coeur d'Alene; of the faculty, students, and towns-In any event, the co-operation of all student organizations appearing in the year-book is urgently requested in order that the annual may at least pay for itself and thus make unnecessary further reduction in the athletic budget. If you want track and baseball please co-operate.

The dinner was thoroughly en- be selected by the general committee joyed by the guests and the Lindley and will be announced next week. hall men.

Upon the very attractive guest table, which was arranged by Mrs. O'Neil, was a large chocolate candy basketball, bearing the nick names of the coaches and players written in white frosting. At the end of the table was a candy basket, actual size, in which an electric light burned. These innovations, which were made by Chef Merry, attracted much admiration.

After dinner speeches, were the cause of much merriment. President Upham said that he felt very comfortable in the absence of the nervous tension that accompanies a winning season, and that he spent some of his time wondering when the balcony in the gymnasium would fall down and how many people would be killed if Dean Clark to Address It did.

Coach MacMillan told a story about a hunter who, being somewhat in advance of his partner, suddenly came into a clearing where he spied a bull and also a bear. Not being entirely at ease he called back to his friend, ask- at the University of Illinois, who is and beautiful effect was obtained by that over 1000 were in attendance. ing which of the beasts he should noted the world over as a college means of a large purple and gold Twin Falls also accorded the meetshoot first. SHOW GOOD RECORDS

Dean Iddings Announces Satisfactory Results From Visits Of Eight Towns

The recent series of extension meetings held in eight important farming centers of south Idaho by university representatives and extension workers from Boise closed last week with a very satisfactory attendance record, according to Dean E. J. Iddings, head of the college of agriculture at the university, who has just returned from active participa-

The meetings were held under the direction of the extension division of the university for the purpose of making practical application of the various phases of work given at the university, particularly in the college ics department.

RESULTS ARE SATISFACTORY

Especially satisfactory results, it is felt, were obtained in the southeastern part of the state, where record attendance at every town was reported. In the southwestern territory the meetings took the form of community gatherings which were of great value in themselves.

At Arco, in a sparsely settled section, it is estimated that from 150 to 350 people attended the farm institute, while at Rexburg it is reported ings good support. UNIVERSITY MEN SPEAK

Representatives from the university on the institute program were Dr. A. H. Upham, president of the univerkeson, professor of dairy husbandry; Prof. C. C. Vincent, professor of Miss Katherine Jensen, director of
