What Is It?

Just what is the greatest thing college can give me? That question asks itself of every university student at some time during his campus career.

"Often it unfolds itself in class discussions which open our eyes to the possibilities in our own thoughts. We find that not everything written in books is true, and often, very often, writers approach a subject from one viewpoint, while there are usually several on every question.

"We discover that we have childishly accepted as verbal truth all that we have learned concerning the infallibility of our political and social institutions. We find, too, that much which is done in the name of Americanism is just as bad as the evils perpetrated in the name of Christianity.

"What better asset could college give us than this attitude toward the problems of life? If we have learned not merely to accept opinions that are handed to us, but to consider a question from all viewpoints and then to form our own opinion, college has given us an asset which will be of invaluable use to us during our entire lifetime."

The Uncertain Glory

It's May today; and this final month of spring promises a splendid fulfillment of the reputed loveliness of Moscow's springs and early summers.

And the glory of Moscow's May and April days is enhanced by their limited number. The moment must be seized; the opportunity must be utilized; and every minute must be made to count.

Another Feather

It's just another feather in our cap: the appearance here of Reinald Werrenrath, baritone, who entertained a large audience in the university auditorium last night.

The San Carlo players, grand opera; Albert Spaulding, violinist; and Reinald Werrenrath, baritone, have each contributed a great part to cultural entertainment on the Idaho campus.

JAPANESE DOCTOR IS GUEST

(Continued from page one)

Japan is sponsoring a back to the farm movement, and Doctor Tanimura is working through the girls, not the men. He has given his 5000-acre farm in Japan, stocked with many sheep, to women for an agricultural experiment school.

Dr. Tanimura realizing the necessity of seeing that distinguished guests who visited Japan saw the country at its best and three years ago organized the Shohosha, which had to do with the entertainment of guests in both informing them and introducing them in Japanese life.

Doctor Tanimura is investigating the possibility of establishing two newspapers—one in Japan to present the trend of American opinion by printing only the opinions of authoritative papers and the other in America, to serve its readers with corresponding Japanese comment of equal responsibility.

"Most of the friction between America and Japan is stirred up through yellow journalism and we, like all countries, have our yellow journals," he said. "The rank and file of the Japanese are not unfriendly to the Americans."

Student Opinion

In the early days when the far west was Kansas or at the most Nebraska, there was in use a sod house, so called from the walls and roof being made of a few poles covered with about three feet of sod.

the door to tell him that the storm had not stopped. It was raining harder than ever.

All that day and the next morning showed no sign of changing. Jim was almost desperate. After glancing out several times he finally swore that he would wrap up in the water proof tarpaulin and stay there until the storm died down if it lasted a week.

Suddenly Jim thought he heard a shout. It sounded again, far off through the thick deadening walls. Stumbling across the room and going for the door Jim threw it open to be dazzled by bright sunlight.

"Thought I might look in and see if you might be sick," he said "I haven't seen you out since the rain."

"My gosh but you sure are a tenderfoot, Didn't you know that the roof leaked three days after the sun came out inside one of those sod houses?"

Love and Radio Mix In German Student's Attempt to Cheat

New York, N. S. N. S.—Zalimier is a medical student at Strassburg University, Germany. As a medical student Zalimier is a failure but no one questions his ability and knowledge in electrical matters.

Examinations were going on and Zalimier was answering questions with the ease and assurance of an American Phi Beta Kappa student. Suddenly the professor received a note: "Zalimier is cheating, look under the table."

The blushing Zalimier revealed the fact that there was a lady there. But the investigation went on and soon the whole story was revealed.

A radio set with microphone in the

examination room transmitted the questions to a young woman doctor concealed in Zalimier's room. She then dictated the answers by telephone.

The student had a microphone, so the electrician declared, concealed under a bandage over a pretended cut on his finger. Complete paraphernalia for a five tube wireless set and the necessary batteries were part of the equipment.

Oblivious of the love elements in this touching little romance, the university authorities have begun prosecution. Meanwhile the kitchen staff are commenting: "Now we understand why his orders indicated such an astonishing appetite just before the examinations. He ordered rations for two."

CANADA MAY GRANT REPRESENTATION

Each Canadian university may soon have a representative in the House of Commons at Ottawa. A member of the Federal House proposes to introduce the following resolution: "That in the development when Parliamentary representation should be accorded our Canadian universities."

Representation in Parliament is an old idea in England. For a long time the British universities have had their representatives in the House of Commons. Canada has twenty universities which would be included in this innovation.

ROLLEFSON'S

Dependable Grocer

And he has lived to see it

Back in 1885, Thomas A. Edison succeeded in transmitting electricity at 220 volts for one mile—an achievement and a promise.

The promise was fulfilled a few months ago when electricity at 220,000 volts was transmitted two hundred and forty miles to supply Los Angeles with light and power.

Now five billion dollars are invested in electric power plants. A stupendous figure that testifies to the alertness of thousands of college-trained men who have been leaders in the production and use of electric power.

The electrical era has only dawned. Each year some new machine or discovery makes it possible to apply electricity in unexpected ways. The graduate of today will find electricity directly or indirectly a means for even greater accomplishments, no matter what his calling in life may be.

In 1881 Edison shipped to the Paris Exposition his "Jumbo" dynamo—eight wonder of the world. It could light 1000 lamps. Now there are G-E generators large enough to supply current for over a million lamps, each with four times the candle-power of the lamp of 1881.

The General Electric Company produces other electrical apparatus which makes it possible to transmit power over great distances. It has put electricity in seven-league boots. In its laboratories, scientists are now experimenting with voltages ten times as great as the highest now in use.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

SOCIETY

Pi Beta Phi gave their spring formal at the Blue Bucket Inn May 2. The hall was decorated to represent a golf course, punch being served at the nineteenth hole. Favors were distributed by little Bobbie Bonnett, dressed as a caddy. Miss Pollard, of Pullman, Wash., gave a solo dance. The patrons and patronesses were: Mrs. Gleason, Mr. and Mrs. Homer David, Mr. and Mrs. R. K. Bonnett, Mr. and Mrs. R. S. Butterfield, Mrs. Blomquist and Mr. Cushman.

The guests were Misses McNaughten, Best, and Kelly, of Coeur d'Alene; Misses McGarry, Andre and Mount of Spokane; Misses Freaques, Chandler, and Pollard of Pullman; Misses Vincent and Ady of Lewiston; Miss Burr of Pasco; and the Misses Squibb, Montgomery, Thoms, Pringle, Honnold, Walker, Boyer, Lethe, and the Messrs. W. Weisel, R. Bucklin, and W. Pistor of Pullman; F. Landson, F. Minas, A. McDaniel, G. Walker, R. Irving, H. Kester, F. Allen, T. Madden, R. Shoults, J. Blair, S. Yager, L. Reed, H. Martin, R. Robbins, K. Anderson, S. McLaughlin, G. Bjork, H. Evans, J. Johnson, G. Miller, A. Hawkins, N. Nelson, V. Panek, G. Hockaday, D. Smith, G. Ware, L. Helphrey, L. Fleming, C. Hutchinson, C. Simmonds, F. Blomquist, R. Moulton, M. Lathrop, E. McAuley, H. Erickson, G. Kelly, R. Husted, E. Erickson, T. Turner, and G. Black.

Kappa Kappa Gamma entertained at their annual spring matinee dance Saturday afternoon. The house was charmingly decorated with spring flowers. Music for the occasion was furnished by Mann Brothers' Orchestra. Those present were: Mr. and Mrs. Stewart; the Misses E. Ford, M. Skilern, D. Gibson, D. Gilmore, A. Kelley, B. Christee, G. Furmin, W. Huntington, C. Silverthorne, C. Greene, V. Greene; the Messrs. B. Cummins, A. Calvert, E. Babcock, O. Chainey, G. Dunn, H. Karlburg, C. Pitcher, V. Johnson, C. Killoran, M. Tierney, J. Wagner, F. Klieck, W. Peterson, G. Bjork, L. Erickson, G. Kelley, H. Gault, J. Blair, D. Fisher, F. Ellsworth, C. Bulshied, R. Hutchinson, L. Mesenger, G. Larson, K. Edwards, G. Beebe, D. Gordon, J. Honeywell, J. Paisley, L. Helphrey, F. Taylor, H. Brenn, R. Shoults, V. Church, H. Doty, H. Hughes, C. Hutchinson, M. McGonigle, J. Tyler, S. Moe, B.

Calloway, H. Hmailton, K. O'Neil, S. Moe, L. Harmon, R. Nelson, F. Neal, and G. Silverthorne.

Miss Bernice McCoy entertained at an informal tea in honor of Pi Beta Phi Sunday afternoon from 4 to 6. Mrs. Sargent and Mrs. Bonnett presided at the tea table.

Mrs. J. V. Greiser and Mrs. W. S. Frost of Spokane; Mr. and Mrs. Geo. Harding, and son George, and Jack, of Spokane; were guests of Pi Sigma Rho the week end.

Sunday dinner guests: Professor and Mrs. Eugene L. Taylor and W. H. H. Forsythe.

Sunday dinner guests of Sigma Alpha Epsilon were Professor and Mrs. Weaver, Mr. and Mrs. Frank Stanton, Alleen Kelly, Marjory McNaughton, and Mr. Cecil Terry.

Dinner guests of Sigma Alpha Epsilon Friday were: Mr. Mitchell and Mr. Searles representing the Atkins Saw Company at the Engineers and Foresters Exhibit.

Dean French was a dinner guest of Kappa Kappa Gamma Wednesday evening.

Dinner guests of Kappa Kappa Gamma Thursday evening were: J. Cluen, L. Helphrey, C. Hutchinson, E. Babcock, C. Coons, R. Hutchinson, B. Merrill, J. Burnett, and R. Armbruster.

Week end guests of Beta Theta Pi were the Messrs. Clark, Schubert, Luke, Madison, Clinton who motored from Walla Walla to attend the Whitman-Idaho track meet.

Beta Theta Pi dinner guests Sunday were Misses Ethel and Virginia Greene.

Beta Chi dinner guests Sunday were: Evelyn Knudson, Dorothy Gorey, Mildred Proctor, Minna Stunz, Lela McGrath.

Psi Delta Theta dinner guests Sunday were: Mr. and Mrs. Ray Neidig, Mrs. David McMillan and son, Mr. and Mrs. A. H. Knudson, Caroline Silverthorne, of Lewiston, Ruth Montgomery, Abelen Montgomery, and Gertrude Furman.

puts through a gap only sixty feet wide, is where the steamer *Imnaha* broke loose from her lines twenty-five years ago and turned cross-ways in the channel.

At the mouth of the Imnaha river, the "Clipper" fights through the quarters of a mile of the roughest navigable water in America, "Imnaha Rapids."

Two miles farther up is the mouth of Divide Creek, where the "Clipper" stops for two hours while the geologists boil coffee and eat their lunches.

With a last look at the towering walls of the canyon, they climb aboard again, and the "Clipper" comes flying back out of the wonder land to the land of automobiles, buildings, books and noise.

DATES SET FOR A.T.O. TO INSTALL

May 27, 28, and 29 Set Aside for Installation Ceremonies of Elwetats

The Alpha Tau Omega installation dates have been set for May 27, 28, 29, according to Martel Archibald of the Elwetats. Installation will take place Wednesday and Thursday, the 27, 28, the formal ball will be held Thursday evening and the banquet and serenade will complete the ceremonies on Friday, the 29. Definite arrangements as to where the functions will be held have not been completed as yet.

It was hoped to have the burned Elwetats house in shape for use by the 27 but present indications are that it will not be available. Plans are being made by the group to accommodate approximately 75 during the three days of the installation.

Mu Beta Beta honorary club fraternity held a special meeting on Thursday evening at Forney hall, at which time the following pledged to the fraternity; Eula Bryant, Orofino, Margaret Dickinson, Hagerman, Elizabeth and Patricia Curtis, Wabser, and Jean Colburn, Burley.

The fraternity was founded at the University of Idaho in 1923 and its membership is based upon club work, scholastic standing and interest in social and athletic work.

twenty-eight in number were guests at a banquet by the Pullman chapter in honor of the pledges of the two chapters.

DECLARE NEBRASKA PLAYERS INELIGIBLE

Five University of Nebraska basketball players, including Orr Godskin, Captain Elect, has been declared ineligible for further competition in any branch of athletics at Nebraska, "because of their participation in an unofficial basketball game," the University athletic board announced Friday. The game in question was played at Tabor, Iowa, March 7, last, it is alleged.

HIGHER AVERAGE CLAIMED BY O. A. C.

Oregon Agricultural college has a higher average this quarter than last, having raised it to 83.67 which is almost one percent higher than the fall quarter. Only one fraternity out of 35 fell below the required student body average and will be required to go on college probation. All sororities were above the required average, the highest group being Delta Zeta, whose average for the quarter was 88.31.

FACULTY LAUDED BY

Continued from page one

the first speaker on the program, told the visiting engineers that "turn-up" appearance of the campus at present was an indication of the remarkable progress which the university is making.

"It is a decided advantage to have all the educational interests united in one institution—united and co-operating in common interests," the university executive said.

Other speakers at the luncheon were Ivan C. Crawford, dean of the college of engineering; F. G. Miller, dean of the school of forestry; Francis A. Thomson dean of the school of mines and M. E. Angell, dean of the college of letters and science.

More than 200, including the visitors' members of the faculty and students of the engineering, forestry and architectural departments, were present.

ering buildings housing the exhibits.

Forest Pictures Shown
The show proper started at 7:30 o'clock in the evening. The forestry exhibit centered around the conservation of forests and the control of blister rust in white pine forests. In conjunction with this exhibit, five reels of motion pictures, distributed by the national forest service, were shown. As features of this exhibit, students manufactured a miniature working model sawmill and forest.

Latest mechanical devices for the production of minerals were shown in the school of mines exhibit. These included a C. D. classifier, a centrifugal flotation machine and a new concentrator, the inventions of A. W. Fahrenwald, ore dressing engineer for the United States bureau of mines who is associated with the university school of mines. These inventions are being adopted in all parts of the mining world and it is the opinion of authorities that they will revolutionize the phase of the the mining industry with which they have to do.

Gives Electrical Demonstration
Peculiar powers of electricity were demonstrated by the department of physics. Included in this exhibit was an apparatus which "stepped up" the power to thousands of times its original voltage. As a feature of the attractions, the experts in charge lighted incandescent light bulbs with human beings as the power transmission agency. Various kinds of electrical equipment, including generators, motors, transformers and testers were exhibited by the department of electrical engineering.

Scientific methods of cooking and latest mechanical labor saving devices comprised the home economics department exhibits. Included in this department were booths prepared by several electrical equipment firms of Idaho and Washington.

This is the first exposition of this kind to be given by students in the University of Idaho and is one of the first in the west. It is an annual custom at many of the larger eastern universities, and it is planned that it shall become an annual tradition at Idaho.

Why Risk Successful Blasting?

Du Pont blasting accessories are absolutely dependable. They have been developed by explosives experts having had extensive and practical experience in the detonation of explosives. Every stage of their production receives the most rigid inspection thereby insuring dependability and efficiency of performance.

A partial detonation of an explosive charge caused by the use of deficient blasting accessories causes an increase in the final cost of the blasting operation. Complete detonation can be insured by the correct use of du Pont explosives and detonated with the following approved du Pont blasting accessories:

Blasting Caps	Electric Blasting Caps
Delay Electric	Fuse
Blasting Caps	Delay Electric Igniters
Blasting Machines	Rheostats
Galvanometers	Cap Crimpers
Leading Wire	Tamping Bags

Write for Blasting Accessories Catalog containing descriptions and illustrations of du Pont accessories and practical information about their use.

STUDENTS FAVOR ROCKEFELLER PLAN

Theological Students Go On Record Approving Others Sit on Board of Trustees

New York, N. S. N. S. — More than 100 students of the Union Theological Seminary, New York, went on record on March 3, as approving the suggestion that others than Episcopalians be admitted to the Board of Trustees of the Cathedral of St. John the Divine.

Fifteen denominations were represented by these students. Despite the fact that they had previously donated to the \$4,000,000 endowment fund for the Union Theological Seminary they sent \$76.50 to the \$15,000,000 fund being raised for the completion of the Cathedral.

With their contribution the students sent petitions to Bishop Manning asking that he make a personal declaration in favor of the suggestion which originally came from John D. Rockefeller Jr., that the cause of community worship be advanced by permitting trustees of other religious beliefs to sit on the Board of Trustees of the Episcopal Cathedral.

Bishop Manning replied to the request by stating that he would make no further statement regarding Mr. Rockefeller's suggestion. In a search on February 19, he declared that the question of non-communicants on the Board must wait until the campaign for funds has ended.

The \$15,000,000 necessary for the completion of the huge Cathedral is being solicited from all classes of people of New York—business men, laborers, professional classes, and from all the religious organizations. The phrase, "A House of Prayer for All People" has been devised as a campaign slogan. John D. Rockefeller Jr. recently made the suggestion that the Cathedral should be made an entirely community affair by admitting other than Episcopalians on the Board of Trustees.

RECITAL NUMBERS PROMISE TREAT

Clark, Claus, and Nyvall to Give Fine Program Wednesday Evening

Miss Isabel Clark, pianist, and Mr. Carl Claus, violinist, members of the department of music, will present a very fine program in the University auditorium, Wednesday evening at 8:00 o'clock.

The following numbers will be given:

- Concerto in A Minor Schumann
Isabel Clark
- Larghetto Handel
- Romance in F Beethoven
- Canzonetta d'Amrosio
- Gypsy Airs Sarasate
Carl Claus
- Fantasia in D minor Mozart
- Waltz in C Sharp minor Chopin
- The Lark Glinka-Balakirew
- Theme and Variations Paderewski
Isabel Clark
- Hymn to the Sun Rinsky-Korsakov
- Mazurka Wieniauskie
- Slavonic Dance, G major Dvořka-Kriessler
- The Swan Saint-Saens
Dance Nyvall
Carl Claus

Mr. David Nyvall, Jr. will play the orchestral accompaniment for the concerto in A Minor on a second piano, and will also act as accompanist for Mr. Claus.

Kloty's Salmon Bar Mecca of Geologists

Dear Ma, Well ma, a bunch of geology students says that they are coming up the Snake on the boat, so ma I want you not to let Dada come down to the mall box with them old pants of hsen on and that slouchy old hat. So hide them from him and make him shave ma, and they are coming on the Sat 16th of May and they all want to see the Bar cause I have told them all about Salmon Bar already. Some of these people ain't seen no rattle snakes so ma would you get Tamarrack to ketch one and stake it out on the sand by the mail box and maybe old Mac will stop so as they can see it. But ma don't let none of them scrub horses git to grazing around the landing, or maybe some of the girls would think it might be Speed Ball, and then they would laugh. Say maybe you can have me a piece of smoked venison ready.

Your son, Kloty

Rudolph and Gloria Lead in Popularity As Movie Favorites

Because she is "dazzling, beautiful, georgeous, takes her parts excellently, and has keen clothes," Gloria Swanson is the favorite movie actress among the college students, on the Idaho campus. Rudolph Valentino is the most popular actor because he is "sheiky, keen, good-looking, and knows his stuff".

"Valentino is a really great actor, if only he would forget to act like a sheik," one feminine follower objected. "He was perfectly splendid in 'Blood and Sands', and 'The Four Horsemen'".

"I like him when he takes those sheik parts," another co-ed announced, and an argument, which eventually brought in all the girls on the second floor of the Ridenbaugh followed.

Betty Compson was second choice for actress. "Ge, I think she is beautiful," one male gave for his reason for admiring her. The majority expressed the opinion that she is a true character portrayed, and that she knows how to act. Those who believed her to be the best actress denounced Miss Swanson as being "inspired, shallow, a manikin, no good, and poses instead of acting".

Thomas Meighan was next to Valentino in popularity.

COLLEGES DISCUSS VARIOUS REFORMS

Reformers Wonder if Students Cloth Inside of Head As They Do Outside

Scores of colleges are in the midst of annual spring elections. In many colleges all the machinery of a national campaign is reproduced on a miniature scale—political parties, platforms, button holes and speeches.

At the University of Alabama plans are being considered for a huge all-college mass meeting at which candidates for various campus offices will make speeches and important questions will be discussed pro and con. The University of Kansas has the most vigorous political campaign of any of the colleges.

Reformers, educators, journalists and novelists have been busy for a long time trying to decide how a college student clothes the interior of his head. The following are the first findings in an inquiry as to the external wearing apparel:

University of Florida—As a symbol of maturity, learning and distinction, seniors at the University of Florida wear brown derbies.

University of Oregon—Sophomores men have adopted blue denim trousers as their official wearing apparel. The trousers are of a heavy material and are cut in the most recent mode.

John Hopkins University—About half of the men on the campus go in for the latest loudest in ties, socks, etc., while the other half are conservative and wear clothes of less audible colors.

University of Washington—A rage for masculine clothing has possessed the girls of the University of Washington. It originated with the advent of the shingle bob which exposed many necks to the Washington weather and necessitated the wearing of men's shirts, checkered flannel ones preferred. Then followed a crime wave in which the girls "borrowed" from their boy friends everything from black bow ties to turkey red and rainbow ties.

W.S.C. TRACK MEN LOSE TO MONTANA

Meet On Pullman Field Sets New Washington State College Records

W. S. C. track and field men lost to Montana at Pullman Saturday, 73 to 58 for the first Montana victory in the history of the two institutions. The stellar performance of Sweet of Montana, who won four firsts, in the 100 and 220 yard dashes, the high jump and broad jump, gave Montana the winning points. The Idaho track team meets W. S. C. at Pullman on May 16 and the Vandals journey to Missoula May 23.

Divine, star W. S. C. distance man, lost the mile event to Gillett, but who won the two mile run from Hanson of Montana by a 30 yard margin. Time for the mile was 4:23 and for the two mile, 10:07 which is exceptionally fast. Durrwachter, W. S. C. captain, with a heave of 41 feet, five and one-half inches in the shotput and Purnell with a spear throw of 177 feet and four inches, established new W. S. C. varsity records for the events.

ZACHMAN RE-WRITE MAN ON JOURNAL

Eugene Zachman who was editor of the Argonaut last year has a well paying and interesting position on the Kansas City Journal as a re-write man. This is a semi-editorial position involving considerable responsibility. His hours are from four in the afternoon until one o'clock in the morning.

MANY FAMOUS SITES TO BE VISITED BY MRS. M. L. SARGENT

England, Holland, Belgium, France, Riviera, Monte Carlo, Italy and Switzerland will be visited by Mrs. M. L. Sargent and her party on their European tour next summer. Anton Lang of Passion Play fame will be visited at Oberammergau. The Whemerian opera will be attended at Munich, Germany. The visit to the famous gambling dens of Monte Carlo will be one of the interesting features of the trip.

Mrs. Sargent with her party of seven will leave the fourteenth of June and will be back in time for Mrs. Sargent to take up her teaching duties for the fall semester. They will sail on the America and return on the Republic—both of the U. S. steamship line.

Haircuts, Bobs, Shampoos, Save Life of Barber

A advent of the safety razor has not hurt the barber business due to the fact that the bobber hair craze sprang up about the time that the safety razor gained most of its prestige, says J. W. Whitmore, local college barber. "The safety razor was recognized very slowly, as the public had little or no confidence in it when it first came into use," he said. However, by the time the safety razor was in use all over the country, the ladies were bitten by the desire to shorten their tresses, so the loss of the shaving trade was more than made up for by the trade brought in by the bobbed hair craze.

"In the last few years massages, tanics, and shampoos, which are important items to the barbering business, have gained a greater volume than everything with the exception of the haircut." Mr. Whitmore also said that in a college town especially they do not expect the business in shaves because of the number of the students who use their own safety razor.

"The first real asset to the barbering business is the haircut, both for the women and the men. Cutting hair is something that everyone cannot do and due to that fact the barbering business thrives".

(Continued from page 1)

Grace Plummer, Kendrick third; amateur teams: Laura Yorgason, Neva Rice, Lillian Yorgason, Nampa, first; Catherine Wendt, Ila Turner, Carl Ekholm, Sandpoint, second.

Best scores for the various classes were: novice, 52 5-15 words per minute for 15 minutes, nine errors; amateur, 63 words per minute for 15 minutes, five errors; free-for-all, 79 words per minute for 15 minutes, 16 errors. It is understood that some controversy has arisen over the awarding of first place in the novice class. These records will be forwarded to headquarters where they will be rechecked and sanctioned.

Waterman's Ink
adds to the efficiency of Waterman's Pens and Waterman's Pen adds to the efficiency of Waterman's Ink.
To perfectly function, fountain pen ink must be free from sediment; it must flow freely and never clog. Waterman's Ink will do this. It's packed in neat boxes, so that you may keep one bottle at the office and one at home. We recommend Waterman's Ink for use in any fountain pen.
