## Deferred Pledging

A storm is rising in the east. A storm of criticism that has originated in some of our eastern universities is sweeping rapidly over the United States and is prompting press notices and editorials from a thousand college newspapers.

The present form of fraternity and sorority pledging, with its disillusioning and nerve racking "rush week," is coming under the search light of college journalistic and student investigation. The general trend of opinion indicates unmistakably that the conventional "rush week" and period of early pledging are soon to be set aside for deferred pledging and more careful consideration of fraternity candidates.

"A pledge to a fraternity," according to a prominent authority on Greek letter societies, "should be selected with the same careful consideration that a man would use in picking out his future wife." Do the fraternities and the sororities on the Idaho campus use any of this "careful consideration" when they are choosing those who are to become members of their groups?

Expressions of dissatisfaction with the present system of pledging are heard from every point on the University of Idaho campus, but as yet no feasible plan for altering it has been offered. Any enduring improvement must be based upon the opinions of the general student body and sanctioned by the administration of the university, so accordingly, the Argonaut is issuing the call for expressions of the public will. Beginning next week the Argonaut will publish a series of statements and proposed solutions by officers of the university administration and representative members of the Idaho student body. Watch for them!

## Well-Read is Well-Bred

Have you read the latest books? You've heard the expression: "For two cents I'd do this or that or something else," haven't you?

Well, starting tomorrow morning, for two cents any student or faculty member can read any one of the eighteen new books of representative modern fiction to be placed on the "English Club Book Shelf." This shelf of modern fiction is one of the services to the university undertaken by the English club. It provides an invaluable opportunity for every interested person on the Idaho campus to become well-read, at least along modern lines.

And today, being well-read is almost as important as being well-bred. Next to having actually seen the world and its people the best thing is discriminate reading about the world and its people today. A wide and varied knowledge of books and writers is a most valuable asset, providing the fortunate possessor with a talisman which will draw to him friends and which will open to him a veritable storehouse of enjoyable times.

The success in past years of the English club book shelf of modern fiction promises a discriminating and thoroughly interesting list of new books this fall. No reader will be disappointed if he knows what he wants and can appreciate good contemporary fiction.

## Credit Where Credit is Due

"Art for art's sake" often means endless effort without apparent reward. But the reward is always there, hidden, perhaps, deep in the heart of someone, unnoticed, unknown... but always there.

The Art Exhibit of modern paintings was packed and shipped today. Its visit is closed and done. Because of the myriads of "other things" of the past ten days, its success on the Idaho campus has not been so apparent. But a success it has had, somewhat dimmed, perhaps, by the flare of more immediate events of Homecoming.

At all events, to the patient and thoughtful men and women of Idaho who worked persistently that the Art Exhibit should be provided for discriminating students, faculty members and Moscow townspeople... to them all credit is due for the success of the exhibit.

Chief among these are: Dr. Henrietta Tromanbauser, Miss Grace Zudrele, Mr. Olaf Fjelde, Mr. Fred Hannaford, the women of Pi Sigma Rho, Mr. Walter Mooney and his fellow-members of the student architects' club, "Atelier Idaho," and many English club members and the English club committee in charge.

## THREE TEAMS LEAD

(Continued from page one)  
 versity of Washington showed every sign of its touted power against Washington State college, smashing the latter 23 to 0 in an attack in the first half. California did not play in conference circles, but took a listless game from Pomona, 27 to 0. Gonzaga all but stopped the famous Haskell

Indians, losing 10 to 9.

The middle western teams were called upon to defend their prowess in intersectional battles and scored three spectacular triumphs. "Red" Grange gave the east one of the greatest exhibitions of his career, when Illinois humbled Pennsylvania, 24 to 2, and Michigan tore the Navy to pieces for a score of 54 to 0. Both the Navy and

of Yale. The sons of Eli held the up-Pennsylvania were unbeaten until these games.

Notre Dame used its second team to score a 13-0 win from Georgia Tech. Michigan was still topping the Big Ten teams after the days play, Wisconsin and Minnesota playing to a 12-12 tie in one important conference game and Chicago defeating Purdue, 6 to 0, in the other.

The biggest upset of all was the 28 to 7 defeat of the Army at the hands per hand throughout. Dartmouth, which plays in this year's intersectional Pasadena game, defeated Brown 14 to 0. Cornell came from behind in the final minutes of the game with Columbia and defeated the New York team, 17 to 14.

The battle for championship on Idaho high school fields is narrowing to a few contenders. Filler took the lead in their district by defeating Burley 26 to 7, while Pocatello forged ahead in the southeast, stopping Idaho Falls 20 to 0. Caldwell checked the sensational rise of Parma, winning 13 to 6. Genesee continued to share honors with Lewiston as the undefeated teams of the north, winning from Lapwai, 14 to 6.

## KAPPA SIGS WIN

(Continued from page one)  
 their possibilities to achieve a monumental and decorative effect adequately befitting the spirit of the occasion. Not only did their design present a good view in the daytime, but also at night. They proved again the simple straightforward scheme is after all the most impressive.

"Second place was given to Alpha Chi Omega sorority. This group also took very fine advantage of the possibilities their house presented for this sort of decoration. The design occupied the whole space well and was of good proportions. The fine spirit of sportsmanship displayed in the use of colors and monograms of the opposing teams was highly commended. It is to be regretted that the lighting at night did not show off to better advantage.

"Kappa Kappa Gamma was placed third. Their design gave a very commendable showing at night, but in the daytime looked a trifle flimsy.

"Fourth place was given to Tau Kappa Iota for cleverly taking advantage of an awkward and inaccessible situation."

## (SIGNED)

John H. Cushman.  
 Fred T. Hannaford.  
 Olaf Fjelde, chairman.

Interest in the homecoming welcome signs began as soon as Ted Turner, general chairman of homecoming arrangements, made the announcement offering the loving cup. The campus was a striking contrast this homecoming to that of several years ago when no signs welcomed the alumni or guests.

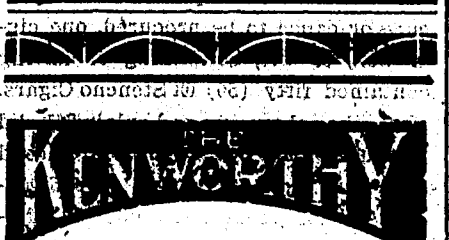

Besides the winners, there were other signs which added to the spirit of the day. Phi Delta Theta used U. S. C. colors and silver and grey, which were arranged to fit the design of their house and the words "Welcome Alumni" greeted the passersby. Kappa Alpha Theta uniquely presented a large black shoe crowded with dolls, and welcoming strangers with "Thea's old woman in the shoe always has a place for you." The familiar Vandal attracted attention in front of the Beta Theta Pi house when he pointed the red sign reading "Stop! Come In." Delta Gamma placed a flashing lighthouse above their "Welcome" sign. Besides an electrically lighted emblem, Sigma Alpha Epsilon used a sign "Hi Men, Get yourselves a native son," to work in with silver and gray streamers.

The old familiar greeting of "Hello," in gold letters, on a background of evergreen, was placed in the arch above the doors of the Sigma

ma Chi house. Pi Beta Phi arranged a figure representing a Vandal, and on whose shield were the words: "Yea Vandals." Lindley hall added variety with "Welcome Home," and a painting of the Administration building, which hung from the roof of the hall. Sigma Nu seized the advantage of a play on words with "Sigma Nu Welcomes You," and from the large roof of the porch of their house represented a football field with players in action. A rustic frame, hewn from logs, and with the word "Welcome" in university colors and decorations was in the yard in front of the Alpha Tau Omega house.

An electrically lighted crest and "Come In" were arranged with draped bunting in front of the Gamma Phi Beta house. The art exhibit welcomed every one to the Pi Sigma Rho house although there was no printed sign.

Using for the only time the word "E-da-ho" in connection with the welcome to visiting guests, Kappa Kappa Gamma brought out another word of welcome as well as significance.

"THE  
 TEN  
 COMMANDMENTS"  
 TUESDAY  
 WEDNESDAY  
 THURSDAY

Phi Gamma Delta used the slopes of their lawn as a background for the words "Welcome to You." An old Vandal, mounting a flight of steps on the top step of which "U. of I." and on the bottom of which "Welcome was lettered; was the subject of a painting which rested on an easel in front of Ridenbaugh hall. The archway to the entrance of Forney hall was draped in gold and silver, and a love that a "Welcome" was painted on a background of a mountain scene. Sigma Pi Rho used the words "Welcome to Idaho," while Delta Chi welcomed with a sign held by two miniature Vandals. Beta Chi made use of a college lad, with his oxford bags, to express their greeting.

In an isolated region, almost inaccessible in winter, this 6500 h.p. hydro-electric plant located on the Deerfield River in New England, starts, protects, and stops itself.

## A Self-Starting Power Plant

Dawn—the slumbering city awakens and calls for electric current. Many miles away the call is answered. A penstock opens automatically, releasing impounded waters; a water turbine goes to work, driving a generator; and electric current is soon flowing through wires over the many miles to the city. This plant starts and runs itself.

Power plants with automatic control are now installed on isolated mountain streams. Starting and stopping, generating to a set capacity, shutting down for hot bearings and windings, gauging available water supply, they run themselves with uncanny precision.

Thus another milestone has been reached in the generation of electric power. And with present-day achievements in power transmission, electricity generated anywhere may be applied everywhere.

The non-technical graduate need not know where electricity comes from—nor even how it works. But he should know what electricity can do for him no matter what vocation he selects.

The General Electric Company has developed generating and transmitting equipment step by step with the demand for electric power. Already electricity at 220,000 volts is transmitted over a distance of 270 miles. And G-E engineers, ever looking forward, are now experimenting with voltages exceeding a million.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

# SOCIETY

Homecoming week has come and gone and the campus has settled down to the regular routine after a frenzied whirl of activity. A host of alumni and visitors were given the glad hand everywhere. Bright and cheery welcome signs before the houses and halls added to the spirit of the occasion and everyone was entertained in the true Idaho manner at a galaxy of dances and parties. Among the social events of the last weekend were the alumni dinner dance at Ridenbaugh Hall and dances at the Blue Bucket Inn and the Elk's club rooms.

The coming weekend promises to be a busy one for the socially active students on the Idaho campus. The new chapter house of Beta Theta Pi will be formally opened on Friday. The guests will be received from 3 until 5 o'clock in the afternoon and from 8 to 11 o'clock at night. Friday evening is also set aside for the joint dance of Daleth Teth Gimel and Tau Mem Aleph that will be given in the Guild Hall. On the calendar for Saturday evening are listed the Beta Theta Pi formal and the house dance of Kappa Sigma.

Homecoming guests at the Sigma Chi house were Hubert Martin, J. Herring, Portland, Oregon. Arthur E. Burr, A. Myneth, J. McCrear, V. Wayland, Seattle, Washington. Mr. and Mrs. H. W. Evans, Mr. and Mrs. A. J. Callahan, Kellogg, Idaho. Judge Givens, Frank Cuddy, Mr. and Mrs. J. S. Penn, Boise, Idaho. Carl Claire, Chewelah, Wash. O. Allen, Twin Falls, Idaho. Elbert Shaw, Walter Tucker, H. R. Cleaver, Caldwell, Idaho. D. McCleod, McCall and Harold Wittenberg, Burke. T. S. Greene and E. Hadlock, Los Angeles.

Sigma Chi announces the pledging of Leonard Mee and Laird Jenkins, of Twin Falls.

Alpha Tau Omega: Edwin McHenry, Paul Davis, and Kenneth Redfield, of the University of Washington, and Robert Beglan, Matt Beglan, Ray Archibald, Fred Laidlaw, Frank Cuddy, and Gerry Manville of Boise.

Delta Gamma: Esther Byssinger, Velma Kelly, Wallace; Margaret Clinton, Thelma Shepherd, Dorothy Moore, Whitman; Mrs. Elrod, Pocastello; Elaine Wheeler, Caldwell, Katherine Bowden, Sandpoint; Florence Walchler, Seattle; Gladys Pence, Pauline Pence, Payette; Mrs. Leonard Penn, Mrs. Ruel Smith and Miss Elizabeth Woods, Boise; Miss Josephine Schriber, Boise; Mrs. Blair, Spokane, and Miss Nina VanSicklin, Weiser.

### Dinner Guests

Kappa Kappa Gamma: Mr. and Mrs. Huff, Kellogg; Mrs. S. J. Elrod, Pocastello, Miss Edna McDonald, Grangeville, Miss Lucile Mayer, Lewiston, Miss Rachael Porter, Kellogg, Miss Fern Gilson, Lewiston; Mr. Charles Stewart, Mr. John Cramer, Boise; Mr. Louis Helfrey, Plains, Montana; Mr. Carl Hutchison, Chewelah, Washington, Mr. Paul Hutchison, Moscow, and Mr. Earl McDonald, Grangeville.

Delta Gamma: Mr. Leland Scott and Mr. Charles Darling, Boise; Mr. Walter Tucker, and Mr. Elbert Shaw, Caldwell, Mr. and Mrs. Brody, Bonners Ferry.

Pi Sigma Rho: Winifred Turner, Lewiston, Mrs. F. J. Walmesley, Mrs. Newport, and Georgia Newport, Parma, Idaho.

Phi Delta Theta: A. A. Martin, "Huck" Beshears, Lynn Rogers, Harold Telford, "Bunt" Beshears, "Beany" Beshears, Tom Martin, W. B. Johnson, Ford Johnson, Tommie Thompson, "Pusie" Davis, Port Arthur, John Middleton, William Calloway, Reginald Leonard, "Mike" Leonard, Mr. Mitchell, Ted Sherman, Mr. and Mrs. D. J. Elrod, Mr. and Mrs. F. B. Sherman, John Beale, B. G. Davies, Joe Robinson, Homer Hudson, Bob

Coffee, Mr. and Mrs. Arthur Ensign, Jack McGregor, Mr. and Mrs. Pren Moore, Arthur Peavy, sr., George Bodie, Leland Cannon, Mrs. Cannon, A. M. Kitto, Dr. Stewart, and Mr. and Mrs. A. Ware.

Gamma Phi Beta: Mrs. O. E. Cannon, Mountain Home; Mrs. Geo. Mackenzie, Catherine Mackenzie, Miss Ina Auld, Miss Dorothy Simmons, Kellogg; Mrs. J. E. Howes, Mrs. J. J. Brill, Wallace; Mrs. Jack Skillern, Billie Skillern, Mr. J. O. Athey, Boise; Miss Gladine Thompson, Mr. David Falk, Seattle; Mr. C. W. Simmons, Kellogg.

Tau Kappa Iota announces the pledging of Phillip Leach, Bonners Ferry, Neil Jones, Wenatchee; Chas. Stout, Glenns Ferry, and Everett Saunders.

Pi Sigma Rho announces the pledging of Josephine Numbers, Boise, Idaho.

Delta Tau of Alpha Tau Omega announces the initiation of Arthur M. Piper and Clayton M. Pickett.

Fifteen members of the Washington chapter were guests of Delta Chi during Homecoming week. They were: Leland Bartley, Fred Farman, John Hellest, Frank Calkins, Bill Beck, Evan Peters, Dick Brachvogel, Bill Wimberley, Harold Hanson, Clive Abel, Craig Hanna, Sterlin Camplan, Paul Moore and John Baldland. They attended the game at Pullman during their visit here.

Week end guests at the Beta Chi house were the Messrs. Slipper, Flohr, Grisdale, Flohr, McMillan, and Burnett of Seattle, Wash., and Wayne Carpenter of Lewiston.

Beta Chi dinner guests Wednesday were: William Bolander, Saturday, Mr. and Mrs. C. A. Roe of Boise, Miss Hazel Roe, and Mrs. C. L. Weeks, Boise. E. B. Sherman of Boise and Fred Sherman were luncheon guests Saturday.

### Home Coming Guests

Tau Kappa Iota: Mr. W. K. Long, Everett Hickox, and W. Brooks of Weiser. Mr. Truitt and Mr. M. Johnson of Lapwai.

Pi Sigma Rho: Mr. and Mrs. Eugene Ware, and Mary Ware, Mr. and Mrs. James Thornton, Coeur d'Alene. Norma Barnes, Vera Johnson and Lillian Hedger of Spokane.

Kappa Kappa Gamma: Mrs. Nelson, Idaho Falls, Mrs. Breshares, Emmett, Mrs. Ford Johnson, Spokane, Mrs. Hudleson, Boise, and the Misses Jean Springer, Boise, Agnes Dunn, Boise, Vaughan Prater, Plummer, and Helen Marehouse, Spokane.

Alpha Chi Omega: Roberta Fisher, Weiser, Dorothy Teats, Payette, Mrs. Julius Grunbaum, Boise, Jeanne Shea, Spokane, Mrs. Trethway and Miss Alice Sutherland, Seattle

Kappa Alpha Theta: Marian Sweet, Jewell Coon, Elizabeth Bartlett, and Mr. and Mrs. G. H. Smith of Boise, Mr. and Mrs. F. W. Reed and son, Junior, and Miss Morea Harris, Mrs. Jim Thornton, and Mrs. E. H. Ware and daughter Mary, of Coeur d'Alene, Mrs. Mary Nodle Crozier and Mary Langdon of Lewiston, Mrs. Bowland, and Mrs. Brassard of Twin Falls, Mrs. Bertram Dingle of Dayton, Wash., Mrs. Arthur Guerin of Orofino.

Gamma Phi Beta: Mrs. E. E. Bowen, Boise; Miss June Crossan, Mary Kent, Boise; Sally Gyde, Seattle; Helen Bloom, Spokane; Mary Newman and Albertine Benoit, Twin Falls; Mr. and Mrs. A. J. Dunn, Wallace; Mr. and Mrs. E. H. Holden.

House guests of Beta Theta Pi for Homecoming were: Mr. and Mrs. James W. Gwinn, of Boise; Mr. and Mrs. Edwin Holden of Idaho Falls; Mr. and Mrs. John Breckon, Mr. and Mrs. Neal Irving, Coeur d'Alene;

Judge Fremont, Boise; Miss Beulah Burnett of Walla Walla; Miss Francis McKee of Spokane; Joel Priest, Sr., Boise; Dr. Ronald Romig, Tacoma; Raymond Spangler, Boise; Charles Darling, Boise; Robert O. Jones, Seattle; McKee F. Morrow, Boise; Fred Veatch, Boise; Stanley McDougal, Kellogg; Leland Scott, Boise; Alvin McCormack, Lewiston; Jack Richmond, Sandpoint; Cleo Clinton, Jerry Tonergon, Otto Anderson, Martin Gullus, Jude Atwater, Max Anderson, all of Walla Walla, and E. Russel Husted of Twin Falls.

### MEN OF TROY DOWN

(Continued from page one)  
tackle and across the Idaho goal.

No. 2.—After taking the ball to the Idaho 6 yard line on line plunges Drury bucked the ball over the Idaho goal.

No. 3.—Reget grabbed a Trojan kickoff on his 1 yard line, ran it back to the Idaho 18, and fumbled it, Earle, California right-half recovering and sprinting unimpeded across the goal.

No. 4.—The Trojans were put in striking distance by intercepting an Idaho pass, advanced the ball on end runs, and with the aid of an Idaho penalty had it on the Vandal 1 yard line. Kaer took it over in one smash.

No. 5.—Kaer made the touchdown with a straight buck 91-2 minutes after the second half started.

No. 6.—Drury swept 30 yards around one Idaho end and Lefebvre 15 around another. Kaer passed 15 yards to Drury who ran 15 more for a touchdown.

No. 7.—Howard Elliott, king of coast football scorers, bucked it over after a series of end runs and line plunges.

No. 8.—Laranetta; another of the Trojan speed-boys, intercepted a pass in mid-field and raced 51 yards to the goal line.

Idaho's touchdown came in the second quarter, the reward of their continual fight to the last whistle. Idaho intercepted a California pass on her own 5-yard line, and on a series of passes worked the ball up to the Trojan 30-yard mark. A sudden switch to a line attack carried the ball to the 20-yard line. Cameron ran far to the side of the field on the next play and tore toward the Southern California goal. Powers, substituting for Reget, made a mighty heave to Cameron, who took it on the 10-yard line and ran another 10 for a touchdown. The stands went wild as they realized that the Vandals had, momentarily at least, conquered the Trojan defense.

The lineups were:

**How soon can you deliver?**

ASSURANCES of time of shipments and deliveries are based on actual knowledge of manufacturing and shipping conditions at our plants.

Prompt shipments of explosives are made because of the ample stocks available at plants and in storage magazines located in regions where industries require our products.

This nation-wide ability to serve industry promptly with explosives of the highest quality is only one of the reasons why du Pont enjoys leadership in the explosives field.

The engineering student will find in our Blasters' Handbook valuable information relating to selection and application of various types of du Pont explosives required in mining and construction operations. The Blasters' Handbook is a most useful reference and should be among the text-books in the student engineers library. A postal request and mention of this advertisement secures a copy of the Blasters' Handbook without cost. Send in your request NOW!

## LECTURE GIVEN ON EARTHQUAKES

Effect of Quakes on Buildings Taken up by Visiting Engineer Before Students

The Associated Engineers were addressed by Homer M. Hadley, district engineer of the Portland Cement company of Seattle, in an illustrated lecture in the Science hall lecture room, Monday afternoon.

Mr. Hadley has been designated by his company to visit the scenes of the recent earthquakes, and study the effect on various types of buildings. He has returned with a large collection of slides which illustrate his points in earthquake effects on structures. In introducing Mr. Hadley, Dean Crawford remarked that he was probably the best informed and most qualified civil engineer in America to speak on such a subject.

"Probably the best informed of all men on earthquake resisting structures is Dr. F. Omori, who is a Japanese engineer," said Mr. Hadley, "and it is interesting to note that Japanese designed buildings are much superior to American planned structures when earthquake resistance is desired. The Japanese have accumulated more earthquake data than that compiled by any other country, because that country has suffered the most damage from these disasters."

After explaining the various movements of the earth's crust under the strain of a quake, and enumerating the magnitudes and directions of the stresses, he proceeded with his illustrations. These were pictures of all the important buildings in Santa Barbara and in Japan, which were affected by recent earthquakes. His pictures explained the various types of architecture which would, and which would not, stand the strain of an earthquake, and it was interesting to note that in a city where there were more than one building designed by a single architect, these buildings were damaged in the same identical way, while another architect's buildings were undisturbed.

The Industrial Bank of Japan building was the most remarkable example of a well designed, undisturbed building and was the work of Dr. Taichu Naitow, head of the department of architecture of Waseda University. This architect seems to have solved the problem of designing a building that will withstand the shocks of even the most violent quakes.

At the meeting Dean Crawford commented upon the Engineer's stunt staged between the halves of the U. S. C. game, and told of the interesting remarks which were made by many out of town guests.

### COULD PHIDIPIDES HAVE PASSED THIS ATHLETE?

Berlin, Oct. 26.—As a feature of the 500th anniversary of the city of Lyck, East Prussia, an athlete, Dziadek ran from Lyck to Berlin, a distance of about 450 miles, with a scroll of President Von Hindenburg, which proclaimed the field marshal liberator of Lyck during the war. Dziadek covered the distance in six days, arriving at the executive mausoleum today.

### SUITABLE TUNES

"My Wild Irish Rose" is a more suitable tune than "Red Hot Mama" for student social affairs," said President W. A. Brandenburg of the Pittsburg Teacher's college, in addressing the students before an all-college party.—Ex.

### STUDENT OPINION

How about smoking on the steps of the "Ad" building—does it show the proper respect for our University? Not long ago the student law prevented smoking anywhere on the campus, but now it is not uncommon to see great clouds of smoke suffocate those in the halls—if the wind happens to blow in the right direction. Has any student the right to use the entrance to the chief educational institution of Idaho for a smoking room?

A visitor would be very apt to notice this—and certainly it does seem a shame to make a garbage can or the receptor of cigarette stubs of the entrance to the "Ad" building. The next time you crave a smoke just think of this and maybe you'll decide to smoke some place else.

B. F. L.

### THANKS EXPRESSED

Appreciation for the cooperation of the members of the student committees and student body at large in helping put over the homecoming day program is expressed in a statement issued by Ted Turner, chairman in charge of the entire program. Students did their part in entertaining and showing visitors over the university campus while the committees worked well to make the program worth while, Mr. Turner said.

## NEW ENGLISH CLUB BOOK SHELF OPENS TO IDAHO READERS

Latest Modern Plays, Novels and Stories are Provided in List of 18 Copies of Fiction Now Ready

Eighteen new copies of representative modern fiction will be placed on the "English Club Book Shelf" in the main hall of the Ad building near the Library door Wednesday morning, according to Pauline Mitchell and Maurine Chenoweth, who are in charge of the shelf.

This year's list includes every popular variety of up-to-the-minute fiction. There are two modern and quite interesting plays for those interested in drama, and society novels, historical novels, humorous novels and realistic novels... all of them good books, intensely interesting and immensely popular the country over.

The books will be placed on the regular English club book shelf table in charge of an English club librarian. A charge of two cents a day for the first week the book is kept out, four cents a day the second week, and a proportionate increase for following weeks will be made. This fee is to cover wear and tear expenses and to be used for the purchase of new books as they come out.

Included among the list of new books now at the disposal of all students and faculty members are the following:

"The Ancient Highway," by Curwood; "Drums," by Boyd; "The Emigrants," Bojer; "The Glorious Apollon," Barrington; "The Great Pandolfo," Locke; "Mischief," Travers; "One Increasing Purpose," Hutchinson; "The Perennial Bachelor," Parish.

"The Portrait of a Man with Red Hair," Walpole; "The Power and the Glory," Parker; "The Professor's House," Cather; "Queer Judson," Lincoln; "The Red Lamp," Rhinehart; "They Knew What They Wanted," Howard; "The Venetian Glass Nephew," Willie; "Wild Geese," Ostenson.

Partial review of each of these books will be written for The Argonaut soon by Maurine Chenoweth.

## NEW VOLUMES ARE ADDED TO LIBRARY

88,000 Volumes Now Available to Students, Including Government Publications

Approximately 88,000 volumes, of which 40,000 are government and state publications available for use but not cataloged, comprise the library of the University of Idaho, according to Miss Belle M. Sweet, librarian. Recent additions to the library since last March are valued at \$1,250, Miss Sweet stated.

Most important of these additions, probably, are the 10 volumes of plays and other dramatic material and criticisms recently purchased. Most of these are single plays costing from 30 cents to more than a dollar. A few are collections of 20 or more plays in a single volume.

Two famous old sets of great value have been secured by the library. One is a set of Racinet's "Le Costume Historique," a noted work on native costumes in all countries of the world written by a famous Frenchman. The six volumes composing the set contain remarkable examples of the finest French color printing. This work was published in Paris in 1888 and is the nucleus around which the library authorities hope to build a fine collection.

The other work of great value and interest is a four-volume set "Birds of California," by W. L. Dawson. These volumes are copiously illustrated, by accurate color plates and hundreds of black and white half-tones. As birds of California are very similar to those in Idaho, this set is particularly useful to Idaho students.

For general reading a generous selection of history, travel, fiction, biography, poetry and art books has been made. One of the most authoritative and interesting of all books written about the World War, "Twenty-five Years, 1892-1916," by Lord Grey, has been secured by the university library.

In addition to books purchased recently more than 400 volumes of periodicals have been bound for the library. Also the library reading room has been extended so it now seats approximately 40 students.

**Flags are Sought**  
"Anyone who can give any information as to the whereabouts of the flags used in decoration for homecoming is requested to communicate with any of the heads of the student body or George Horton and Everett Erickson," said Emil Strobeck, president of the student body. "No one seems to know what has happened to the hunting and we are anxious to find out."

Experiments conducted at George Washington university in Washington D. C., disclose that there was no loss of mental power caused by the loss of sleep.

**ANNOUNCEMENT**  
All members of the Senior class are urged to attend a meeting Thursday night at 7:30 in Room 110 Ad.

THREE BIG DAYS—THURSDAY, FRIDAY AND SATURDAY—NOVEMBER 5th, 6th and 7th

Do You Know?  
"HOW TO STUDY"  
The Students' Hand-Book of Practical Hints on the Technique of Effective Study

WILLIAM ALAN BROOKS  
A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy and fatigue.  
ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

Some of the Topics Covered  
Scientific Shortcuts in Effective Study  
Preparing for Examinations  
Writing Good Examinations  
Brain and Digestion in Relation to Study  
How to Take Lecture and Reading Notes  
Advantages and Disadvantages of Cramming  
The Athlete and His Studies  
Diet During Athletic Training  
How to Study Modern Languages  
How to Study Science, Literature, etc.  
Why Go To College? After College What?  
Developing Concentration and Efficiency  
etc., etc., etc., etc., etc.

Why You Need This Guide  
"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.  
"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale.  
"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M.I.T.  
"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.  
"HOW TO STUDY" will show you how to avoid all misdirected effort. Get a good start and make this year a highly successful one by sending for this hand-book and guide NOW.
