WAR DEPARTMENT TO INSPECT R. O. T. C. FOR HONOR RATING

April 23 Set For All-Day Inspection by Lieut. Col. Lewis Brown

MANY ARE INSPECTED

Synopsis of Rating Sheet and Points Announced by Department

The Idaho unit of the R. O. T. C. is putting forth every effort to be given "distinguished" rating...

At no time has Idaho passed the inspection necessary to place it on the Distinguished List...

"Many colleges are chosen for the inspection," said Major F. R. Fuller, executive officer today...

ROOKS WIN EASILY FROM HIGH NINE

Youngsters Work Together for 7 to 1 Victory.

Idaho's freshman baseball team scored a flashy 7 to 1 victory over the Moscow high school nine Wednesday afternoon in the first game of the rook schedule.

The Vandal Babes worked together in nice style, stopping every Moscow assault and pattering the high school pitcher for several long hits.

"Shorty" Cheyne, freshman stopper, led the batting barrage with a home run, three bagger and a single in three trips to the plate.

VANDALS DEFEAT TEACHER'S NINE

Erickson Fans Twelve men and Allows Six Hits; Score 6 to 2

Ralph "Lief" Erickson showed no mercy when hits meant runs yesterday afternoon and hurled the Vandals to a 6-2 win from Cheney Normal.

Two runs in the second inning gave Idaho a margin which increased with 3 scores in the seventh and one in the eighth.

Turner of Cheney and "Red" Sullivan, Idaho catcher, shared the long distance slugging honors.

Erickson fanned 12 men and Moore two. Moore was relieved by Durland in the eighth inning.

The score by innings: Idaho 0 2 0 0 0 3 1 x Cheney 0 0 0 0 0 0 2 0

IDAHO TRACK MEN TO MEET WHITMAN

Vandals Leave Saturday for Dual Meet at Walla Walla

Idaho's track squad, 20 strong, leaves Sunday morning by motor bus for Walla Walla where it meets Whitman college in a dual meet.

Tryouts will be held this afternoon to pick the team which will make the trip. Coach Philbrook is noncommittal about the outcome of the meet.

ARGONAUT HEADS DEFINE POSITIONS

Editor and Manager Discuss Amendments Before Executive Board

Discussion of the proposed Argonaut amendments occupied several hours at the regular meeting of the executive board of the A. S. U. I. Wednesday night.

He asserted that he did not think good men could be obtained for the manager's position if the present system of paying the manager 20 per cent of advertising receipts over \$1000 were changed to 12 per cent.

The board did not officially go on record as regards proposed changes, but several members expressed themselves as favoring a delay on voting for the manager's cut until figures for the year are available.

Every division of the department will be represented. The home nursing division will, as in previous years, conduct a series of demonstrations.

RAILROADER TELLS OF IDAHO'S PAST IN WORLD'S WORK

C. E. Arney Details Historical Events; State is Popular, He Says

GIVES RADIO SPEECH

Idaho in the air, Idaho at the national capitol, and Idaho on the high seas, were the three topics discussed on which C. E. Arney, immigration agent for the Northern Pacific, spoke at the student body assembly Wednesday, telling of Idaho's fame throughout the nation.

Mr. Arney is a booster for Idaho and an old friend of the university. He was in Moscow 34 years ago when the foundation for the first university building was being laid.

GIRLS' DORM PLANS APPROVED BY BOARD

Location of Proposed Building Is Not Settled; To Start Soon

Plans for financing and constructing the new \$100,000 girls' dormitory on the university campus have been approved by the Idaho Building association and will be submitted to the regents at their next meeting.

The new dormitory will be erected on a tract of land purchased by the association at the time Forney hall, newer of the two present dormitories, was built.

Plans and specifications for the new structure, which is to house 115 girls, are being prepared by David C. Lange, university architect, and as soon as they are approved, steps toward actual letting of contracts will be begun.

"Every effort is being made," said Mr. Parsons, "to rush the financing and construction work so that the building will be available to the university when college opens next September."

Officers and directors of the University of Idaho Building association are: President, C. A. Hagan; secretary-treasurer, L. F. Parsons; directors, C. L. Thompson, C. I. Butterfield, C. E. Witter, R. Hodgins, Grover Beckman, C. B. Green, J. S. Heckathorn, F. A. David, Tom Wright, Hawkin Melgard, W. A. Lauder, Robert Whittier, M. Kenworthy, and George N. Lamphere.

CAMPUS GENTLEMAN DEFINES IDEAL CO-ED; STANDS FIVE FEET IN HOSE

(By Don McCrea)

Whimsical connoisseurs of co-edism chuckled and rubbed their hands yesterday as a lanky lawyer uttered luminous commentaries on what should constitute an ideal co-ed.

Many campus gentlemen were propounded the question, "what is an ideal co-ed," and many and varied answers were received.

GONZAGA-IDAHO GAME OPENS 1926 BASEBALL SEASON

Pitching Staff in Mid-Year Form; Fielding and Hitting Improved

LINEUP IS UNCERTAIN

The sharp crack of wood on horsehide will officially echo in the 1926 afternoon when the Idaho Vandals meet Gonzaga university in the initial fray of a two-game series.

Infield Lineup Uncertain. Disruptions in the infield have been nearly healed. The starting lineup will probably depend a great deal on whether Sammy Ferrins goes to Whitman with the track team or stays home to play baseball.

Howerton May Play. The outfield positions are more settled with Nye or Beall in right field, Vic Cameron in center and Bob Lough in left.

HUEFNER SCORES HIGHEST IN SHOOT

U. of Texas Rifle Team Wins From Idaho; Score 1901-1840

The University of Texas rifle team won from the men's rifle team of the University of Idaho, according to returns received by Lieut. Charles H. Hart, Jr., coach.

The scores were made by the Idaho team: Otto Huefner, 378; N. Luvaas, 370; P. Crox, 367; P. Manning, 364; A. Anderson, 361.

Answers to Correspondents  
Blue Eyes:  
No, we wouldn't like to buy a Kap-  
pa's dresses,  
We wouldn't like to pay a Theta's  
bills,  
We couldn't eat a Pi Phi's  
'cooking  
For it would surely give us ills—  
Don't want to pick a Gamma Phi's  
hats out  
Nor love an Alpha Chi or Delta  
Gam,  
We're going to be Bachelor's  
always,  
Unless—some of them wants us for  
her man.  
T. M. F. C. and others:  
We'd hate to patch a Beta's  
trousers,  
Thought it wouldn't be so hard to  
darn his socks;  
We'd even try to bake for him  
some biscuits,  
'Specially if he'd buy us lots of  
treats!  
We've often thought about the  
Phi Delt's,  
The Phi G's, too, and classy Sig-

### BROKE, BROKE, BROKE.

Broke, broke, broke,  
These are the cold gray facts for  
me,  
And I would that my pocketbook  
would utter,  
There's enough in me for a spree.  
O well for the business man's boy  
That his money should vanish like  
spray  
O well for the college lad,  
That he still has his board to pay.  
And the stately shows go on  
Where the villians work and fall;  
But he dare not ask his creditors  
For the necessary portion of kale.  
Broke, broke, broke,  
Is this college student's decree;  
And all he can do is sit down and  
study,  
But on the first of the month he'll  
be free.  
—James K. Allen.

### Adonis.

You should have seen Adonis.  
He waited table in a dining hall,  
And passed the girls by one and all  
Without a smile.  
And all the while  
He passed out plates with an unnat-  
ural grace,  
And a romantic pallor on his face;  
With his sombre air,  
And curling hair;  
You should have seen Adonis.  
But Adonis fell.  
He met a girl with a roguish air,  
Greyish eyes and blondish hair,  
And face divinely fair.  
You may think that it was well,  
But still, Adonis fell.  
And now, when e'er his fair one hap-  
pens by,  
He wears a foolish grin, like you  
or I.

### Spring Poetics.

You thought it spring,  
When you heard the robin sing;  
And you thought of that,  
When first you saw a new spring  
hat.  
But when you read the ravings of  
a poet,  
There'll be no doubt about it then,  
you'll know it.

## WHO'S WHO

Harrison C. Dale

Dean Harrison C. Dale needs no introduction to the University of Idaho students. He has spoken at assemblies and is known for the excellent outside work that he has done for our Alma Mater. Dean Dale has not only played an important part in our university, but also in the economic history of the United States. His work has been important enough to warrant placing his name in "Who's Who," book of prominent Americans who have done some important thing, different from that of his contemporaries. Mr. Dale has done this thing and we take great pride in repeating his biography as taken from "Who's Who."

Dale, Harrison Clifford, economist; born, Lynn, Mass., March 7, 1885; son, Alvin Clifford and Helen Mary (Worthem) Dale; A. B. Harvard, 1907; A. M. 1908; Studied at Harvard, 1907-10; married, Beulah Mae Gardner of Laramie, Wyoming, June 5, 1916. Asst. Prof. history, Utah Agr. college, 1910-12; Instructor of history, Washington Univ., 1912-15; Prof. Political Science, Univ. of Wyoming, 1915-20; Prof. economics and political science, Univ. of Idaho, 1920-25; dean of school of business, Univ. of Idaho, 1925—; Wyoming state director of speakers Victory Loan Campaign 1919; member of American Political Science Assn.; American Economic Assn.; American History Assn.; Alpha Tau Omega; Episcopalian; Author—The Ashley-Smith Explorations and the Discovery of a Central Route to the Pacific 1822-1829, 1918. ### What is a Fresh?

We notice that College Humor offers a prize for the best definition of a freshman. That ought to be easy. Ask a freshman. If he hasn't the intelligence examination taken yet, he will tactfully give you to understand that he considers himself next in importance to President. Now, there's a definition! But ask a sophomore. To a sophomore, a freshman is what little Johnny from the country on a visit to the metropolis, is to his city cousin.  
To a junior: He's a necessary evil.  
To a senior: He's the hope of the college.  
To a co-ed: A possibility.  
To a professor: Despair.  
To the coach: Ambitious minus all brains.  
To a "Big Sister": An animated question mark.  
To his mother: An exceptional child going out into an unappreciative world.  
To his father: His son.  
To his little brother: A future Langley Collis.

When it's the night of the season's most festive dance—and Mimi, herself, has consented to go—when in a last moment before starting you thank your good fortune—have a Camel!

WHEN the night of the famous prom has come—and you contemplate your luck and your greatness—have a Camel!  
For Camel adds of its own romance to every memorable event. Camels never tire the taste, never leave a cigarette after-taste. When you light a Camel, you may know you are smoking the world's mellowest cigarette.  
So this night, as you fare boldly forth to society's smartest and gayest affair—learn then how sympathetic, how really fine and friendly a cigarette can be.  
**Have a Camel!**

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and Domestic tobaccos. The most skillful blending. The most scientific package. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

### SPRING DAYS BRING BIG SOCIAL EVENTS

#### Campus Day—Many Dances Adds to the Plays and Artist Course

As spring days advance, and the weather grows warmer thoughts naturally turn to those functions that surround the closing of school. Already the seniors have begun on their rounds of parties and social functions. The calendar is always full for the seniors in these last few weeks, but all indications are that it is well taken care of for everyone. There are many of the most delightful functions of the year yet ahead.

An examination of the calendar shows a large number of house dances scheduled, but there are also many other events. The last number of the Artists' course promises to be up to the standard of the other numbers. On April 30 the London String Quartette will play here, as the final number on a well-balanced and highly enjoyable course.

May 10, as Campus Day is always one of the outstanding events in the college year. This year the pageant is to be better than ever, as plans are even now under way, and work is being started. The dances are to be elaborate, with a large number participating. It can hardly fail to be a lovely spectacle of color and motion.

"Romeo and Juliet", the university play that is running this week, serves to make the calendar interesting. It is one of the most elaborate things ever produced here, and has been more than enthusiastically accepted in the two preceding performances.

The calendar itself follows:

- April 16—Alpha Chi-Omega dance.
- April 17—Pi Beta Phi dance.
- April 18—All University play.
- April 19—Kappa Kappa Gamma dance.
- April 20—Delta Theta Glee Club dance.
- April 21—Miami Triad dance.
- April 22—London String Quartette.
- May 1—Pi Sigma Rho Formal dance.
- May 1—Club dance.
- May 1—Tau Mem Aleph dance.
- May 1—Sigma Nu dinner dance.
- May 1—Freshman Glee.
- May 1—High School Glee Club Concert.
- May 1—Gamma Phi Beta dance.
- May 1—Kappa Kappa Gamma Tea dance.
- May 1—Lindley Hall dance.
- May 1—Senior Dinner.
- May 1—Campus Day.
- May 1—Forney Hall Formal.
- May 1—Tau Kappa Iota Dance.
- May 1—Pre-Med Club Dance.
- May 1—Delta Gamma dance.

### PRINCE, PREMIER ARE "NICE LADS"

#### Former Idahoan at Oxford Travels in Social Whirl

A letter from Philip W. Buck, Idaho Rhodes scholar in 1923, who this year is finishing his course of study at Oxford university, tells of one of those once-in-a-lifetime thrills. The following paragraph is quoted from the letter:

"I am staying in London this vacation and working in the library of the London school of economics. I had a little shot at high society—went to a dance given by Lady Astor, and had the good fortune to have quite a little chat with the Prince of Wales and with Mr. Baldwin (the English prime minister). I am glad to have had the pleasure—they are both nice lads."

Buck, who received his B. A. degree from the University of Idaho in 1923, has made an enviable record at Oxford. In addition to his scholastic achievements he has been leader of the Oxford Union debate and is now president of the American club of the university.

### BOOK-SHELF GIVES 14 SHORT REVIEWS

#### To Aid Students in Choice of Reading Material Tells Story of Each

The English Club book-shelf is offering here short reviews of some of its most recent and best books so that its readers may have some help in selecting the type of book they will most enjoy.

1. **Gentlemen Prefer Blondes**—Anita Loos. "Kissing your hand may make you feel very good but a diamond bracelet lasts longer," so says the heroine of the funniest book of the year.
2. **The Diary of a Young Lady of Fashion**—Cleone Knox. Purporting to be the diary of a seventeenth century young lady. "As clever as Peppy Dairy," says one reviewer.
3. **Mary Glenn**—Gertrude Millin. A story of an English girl in South Africa. There is an unusual ending.
4. **The Oldest God**—Stephen Pan. The oldest god, is brought to England and has a most unfortunate effect on the members of a staid British house party.
5. **Thunder on the Left**—Christopher Morley. This is delightful reading but difficult reviewing. If you like Morley, don't miss this.
6. **Harry Idaho**—Hugh Poindexter. A rousing tale of the gold rush in Idaho. Boise City valley, Lewiston and "Oro Fino" are all here.
7. **The High Adventure**—Jeffrey Farnol. Beautiful heroine, stalwart hero, and an intelligent dog form the ingredients of this latest and best Farnol yarn.
8. **Clara Barton**—Harvey O'Higgins. Clara is a heroine without a sense of humor. She is drab, commonplace and—interesting.
9. **Pig Iron**—Charles Norris. One enthusiastic critic has called this even better than anything of Frank Norris', the author's brother.
10. **Startrace**—Shella Kaye-Smith. This is one of her earlier romantic novels, but it has the typical Kaye-Smith flavor. There is a fascinatingly wild hero.
11. **The Private Life of Helen of Troy**—Erskine. This is one of the most talked-of books of the year—as its heroine has been one of the most talked-of women of all ages.
12. **The Trials of Mr. Fortune**—Bailey. This is a group of stories centered around Mr. Fortune the detective. The plots are all good, with lots of excitement.
13. **What the Queen Said**—Stoddard King. This is "Facetious Fragment" in book form.
14. **Unchanging Quest**—Philip Gibbs. A lively story of the younger generation with its "unchanging quest." It takes place in war-time England.

### PLANS PROGRESS FOR CAMPUS DAY

#### Supper Will Be Served Following Cleanup of Grounds.

Plans for Campus day, May 13, are progressing rapidly, according to Ruth Zornes, president of Mortar Board, which is sponsoring this annual festival.

In the morning the customary "clean-up" program is planned, under the direction of Sidney Yager. The men are detailed in squads and assigned definite work in beautifying the campus.

In the afternoon the festival will start by the professional of the Mortar Board members and senior girls. The crowning of the May Queen will follow. Miss Mirth McArthur has been nominated for this position. After the coronation will come the Mortar Board pledging, in which the members of the society choose the pledges from the audience.

The program will end with the pageant, "Maying," which will be a true May festival. The pageant shows the awakening of Spring and the coming of May, portrayed by dances. Many of the dances will be in typical English costumes. A feature of the pageant will be the May-pole dance. According to Miss Jacobson, who is directing the pageant, there are to be about 250 girls in this production.

After the pageant, supper will be served on the lawn of Ridenbaugh hall at 5:30 o'clock. This will be in charge of the senior girls.

Campus day is one of the most interesting of college traditions. Sixteen years ago, in 1910, the first May fete was organized, and since that time as nearly as possible the original program has been carried out. Today, the program is almost identical with that of 16 years ago.

Letters from old graduates indicate that many are thinking of returning for the festival.

PRESENTING THE HATS OF UNEXAMPLED SMARTNESS

### PRIZES OFFERED FOR POSTER DESIGNS

#### All Campus Artists May Enter Contest for Cash Awards

Cash prizes will be given for the three cleverest designs submitted for a poster advertising "Maying," the campus day pageant to be given May 13. The competition is open to all students of the university. First prize winner will be given \$5, second \$2, and third \$1. All other posters deserving attention will be given honorable mention. It is recommended that some illustrations appropriate to the subject of the festival appear, which might be the illustration of the dances, some subject symbolic of the title, event, or other attractive decorations.

The following rules have been made: The posters shall be made on a sheet of stiff paper or illustration board cut 18x24 inch size, and may be done in any appropriate medium such as show card color, water color, ink, etc. The wording used shall give the title of the event, the time set for the performance and any other information deemed appropriate by the author.

The posters will be judged according to their qualities of decorative design, also for their effectiveness as advertisements to attract attention. All posters submitted for a prize must be in the Architectural Department office 303 Ad building not later than 5 P. M. April 30.

It is urged that all those who have abilities and interests in this line of work, submit a poster so as to make as possible.

The judges will be Miss Grace Zudrele, Miss Elsie Jacobsen, and Olaf Fjelde. If any further information is wanted, see Francis Anderson, or call 227W.

### "DAMNED SOULS" CLUB IS FORMED

A movement looking to the formation of atheistic organizations to solidify the country's unbelievers was announced recently at San Francisco by Theodore Beard of Colorado, organizer for the American Association for the Advancement of Atheism.

"Plans have been made to form chapters in almost every university town in the west," he said. Mr. Beard's announcement declared the chapters would be styled after the "society of damned souls," which was recently organized in New York.

Simultaneously an announcement was made by W. W. Campbell, president of the University of California at Berkeley, that "any attempt to organize an atheistic chapter here would be squelched."

Mr. Campbell's statement on the subject came after Mr. Beard was reported to have announced he had broached the plan at Berkeley and that he expected "some cooperation from the university students and faculty shortly."

Mr. Beard's announcement said a San Francisco office of the atheistic association would be established "in a few days" and that organizers are at work in Seattle, Los Angeles, Portland and other Pacific coast cities.

Mine." The songs had been furnished Mr. Arney by Mr. Parsons and Professor Bangs.

March 3, while in Washington, D. C., Mr. Arney said he was surprised to read the headlines of The Washington Evening Post, "Idaho will honor its great big baked potato tonight, in memory of the admission of Idaho territory to the Union, 63 years ago." He spoke of the banquet held by the Idaho-Washington club, and prominent Idaho men, the old pioneers of the state.

At a convention in Los Angeles, held by the chamber of commerce men, Mr. Arney spoke of the surprising amount of products interchanged between California and Idaho.

One afternoon the Idaho party were taken out into the Pacific ocean to see the U. S. warship "Idaho." "There were 1400 men on this battleship, as beautiful and competent a fighting machine as one could wish to see," said Mr. Arney. Arrangements were made by Mr. Arney to send to the Chaplain of the ship, some of the University of Idaho favorite songs.

As a climax to his interesting talk, Mr. Arney presented the university students with an "Idaho" warship pennant, and there is a picture of the battleship in the president's office, and that is for the students, he said.

### U. OF C. PREXY DENIES STORY.

UNIVERSITY OF CALIFORNIA, APRIL 7, 1926 (P.I.P.). President W. W. Campbell has issued no statement concerning the suppression of any atheistic society on the campus, and also denies ever hearing of Theodore Beard of Colorado who is the organizer of the American Association for the Advancement of Atheism. All of this is contrary to reports made recently in local newspapers.

An all-college informal dance will be given by the "I" club May 1, according to Ray Stevens, president. The famous ten piece pep band orchestra will furnish the music, and "I" club men will work the floor into shape for dancing.

Men outnumber women by 18 per cent at the University of Oregon.

### S. C. DAILY GRIZZLY TO RUN WORLD NEWS FOR BUSY STUDES

UNIVERSITY OF CALIFORNIA SOUTHERN BRANCH, April 13—(P. I. P.)—Answering the request of a number of students who find it impossible because of a scarcity of time, to glance over the headlines of the daily papers, two columns of briefs of international and national news items will be carried hereafter in the California Daily Grizzly. Because of the impossibility of obtaining a special leased wire service at the present time the news will not be as late as that in the morning papers. Every effort, however, will be made to print the briefs as fresh as is possible and to print the most important news items.

**SCIENCE GIVES WAY TO MYTH TO EXPLAIN NORTHERN LIGHTS**

by competent observers.

Nitrogen Frost Is New Theory

The newest theory which was advanced in 1924 by Dr. L. Vegard believes that the upper atmosphere is cold enough to freeze the nitrogen which composes nearly all of the atmosphere above 20 miles. He says this nitrogen crystallizes like snow or ice particles and that this nitrogen frost approaches the earth closely at the poles. This would furnish a better conductor than the rare gas. Curiously enough the spectrum of the aurora is dominantly green. This is also the spectrum of nitrogen and krypton, which are found at these heights. Many scientists believe that the lights are closely related to the magnetic pole and that the radiating rays of the sun actually change at this magnetic pole. This, however, fails to explain a similar phenomenon called Aurora Australis at the south pole.

"Violent magnetic storms are often supposed to accompany these displays, although notable displays have produced no storms. Telegraph and hampered it is also supposed to be inconsistent.

"With a frequency of only five per year it is next to impossible to predict their occurrence in this latitude even in years of high sun spot occurrence. Their chief importance to man seems to be only that of a pyrotechnic display.
