

The Argonaut

Opening Assembly Wednesday Morning

New Official "I" Caps On Sale

VOLUME XXVIII UNIVERSITY OF IDAHO, MOSCOW, TUESDAY, SEPTEMBER 21, 1926 NUMBER 4

NEW RECORD MAY BE SET BY TARDY ENTRANTS AT U.

Enrollment Expected to Reach 1800 By End of Week

LATECOMERS FINED

Registrations for 1926 Is Heavier Than Two Days of Last Year

With more than 1700 enrolled Monday evening at the close of the registrars office, indications were that the total at the end of the week would exceed that of past years. A total of 1744 had been registered at the end of the same period last year. Registration not completed Saturday night was continued Monday and gave evidence of continuing strong Tuesday and perhaps for several days. Estimates placed the figures Monday noon at more than 1650 in comparison with 1553 for the same period last year.

Later registrations have been heavier than for several years, according to the records, which showed that the majority registered opening of the two days preceding opening of school. A check-up Monday evening showed that 1704 A. S. U. I. tickets had been issued. A third check came in the form of the number of identification pictures, which showed that in excess of 1835 students had undergone the new method of identification, up till late Monday afternoon.

It is possible, in comparisons with former years, to get a close estimate of the total enrollment by the end of the week. In 1925 the figure had reached 1744 in comparison with 1394 for two years ago. With five days remaining before the close of the week the total is expected to at least exceed 1800. Late comers will be fined \$1 per day for registration.

No check was obtained from the office of the registrar for the divisional enrollment by departments and schools, although figures should be available by the middle of the week. The letters and science college was expected to show the largest single increase, while many other schools, will show slight advances.

Only 133 out of the original 600 freshman and new students who took the standard entrance tests in English were failed, according to Dr. G. M. Miller, head of the English department. The number of failures is far below that of last year, with more students taking the exams. Additional students who may number as high as 150 took the exams at the end of the week, but results have not been announced yet.

Results of the intelligence tests taken by all new students under the supervision of Dr. J. W. Barton, were not made public. The results will figure largely in determining the amount of work a student can carry, and will be a matter of consideration if a student is placed on probation.

CROSS COUNTRY HAS SQUAD IN TRAINING

Ten Answer First Call, With Two Lettermen Back For Action

Ten men answered the first call for varsity cross-country this fall of Coach R. W. Philbrook, track and football line coach, and with two veterans of at least one year's experience prospects for the squad are promising. Freshmen are scheduled to have first turnout Monday evening, with 15 aspirants expected.

Donald Cleaver, Caldwell, star miler and winner of second place in the northwest meet last year, and Arthur Matthews, two-miler, were the only lettermen at the first workout. Promising material was evidenced in the freshman tracksters of last spring, who will perhaps form competition for the regulars over the course this fall. Those turning out regularly are: Klinger, Aschenbrenner, Pierce, Andrews, Ellis, Mooney and Chisholm, who with the exception of Mooney and Ellis served on the freshman track squad last year.

The squad is facing the first and perhaps the only encounter of the season, October 23, when teams from the northwest meet at Seattle, over a three and one-half mile course. Possibility of a sectional meet with several nearby colleges still looms, although none have been slated.

The freshman team will perhaps have a meet with the yearlings from W. S. C., although plans are not definite. An intra-mural meet before the Seattle affair is practically assured and the freshman will be allowed to compete in this. The squad is now under the supervision of Don Cleaver. Football will again appear in intra-mural activities during the fall, and indoor sports for colder weather is assured, and will be carried on in Lewis Court adjoining the gymnasium, according to David MacMillan, head of the physical education department.

Cougar Gridders Give Co-eds Go-by During Training

Washington State College, Pullman, Sept. 20.—Warning to Washington State co-eds: "Keep away from my football players"—O. E. Hollingbery. From time immemorial the movies have depicted halfbacks galloping for spectacular touchdowns to win the love of fair co-eds, but it won't be good form this year at Washington State under Babe Hollingbery. Harold Lloyd may catch a rose from the winsome freshman girl sitting in the first row of the bleachers, but Cougar footballers are due to catch something else meaning the bench—if they mix femmes and football.

"Football and fussing don't mix, if you've got to fuss turn in your suit and do a good job of it, but don't expect to make a place on my team if you're playing football days and lounge lizard evenings," said the "Lightning Frisican" in his training dictums. "Too many men fall for some pretty doll early in the season, get the glove a bit later, and then fret around and aren't worth a whoop the rest of the year. Forget 'em until we've licked these coast teams."

It looks like a lean fall for the fair co-ed, whose secret sorrow is one of Hollingbery's "Iron Men."

FROSH PROSPECTS FOR YEAR BRIGHT

Wealth of Material for Yearling Grid Team; Game October 2

Prospects for the Baby Vandal grid squad this year are exceedingly bright and according to present indications the yearlings will have the strongest team this season that has been turned out in several years. Approximately 85 men are turning out regularly for the yearling squad but the number will be cut to about 30 first string men in a few weeks. The yearlings will open their schedule October 2 on McLean field at 10 o'clock in the morning, while the Vandals will meet the Montana State team that afternoon. Several games are being negotiated for and it is the plan to give the yearlings a good schedule this season.

According to present indications the Baby Vandal team will be heavy and fast. A wealth of former high school material is out this year and the team will be hard to beat. Since the opening of the season the yearlings have drilled in fundamentals of football and Monday afternoon teams were lined up and the men were given their first play. No scrimmages have been engaged in as yet but will be started within the next week. The frosh team is under the guidance of coach Syb Kleffner, former Vandal grid star. He is assisted by Giff Davidson, who played with the Idaho team last year.

The opening game of the season will be played a week from Saturday against the fast Lewis and Clark high school team of Spokane, according to the schedule. The Spokane team captured the state title in Washington last year and all of their men but two are back on the squad this season. The contest here will be a fast opener.

Games are also scheduled with the Washington State yearlings, Montana, freshman and Cheney Normal, the dates for which have not been announced. If possible games will be scheduled with the university of Washington frosh team and the O. A. C. yearlings, it was announced.

ALL STUDENTS "SHOT" FOR REFERENCE FILE

Identograph Functions at Rate of 150 Sittings Per Hour

"Did you get shot?" No this is not hunting season, merely one student speaking to another, (following those hectic days of matriculation and registration,) concerning the new means of identification which the university has installed to get a complete "rogues gallery" of all its ardent seekers of knowledge. What's that?

Merely the new identograph camera which has been clicking at the rate of more than 150 times an hour during the first three days preceding official opening of school.

Here's the way Prof. H. B. Stough goes about it. He takes modest Johnny and gets one of his helpers to print Johnny's name on a piece of blackboard and then sits him at a table with his name in front of him. So far so good!

Then the professor says, "grin like this" and no person under the sun can help it, when he makes such contortions with his facial anatomy, and then presto! its all over with, and Jonny is speedily ushered out before he knows what it is all about.

Thursday evening at 7:30 the Interfraternity council will hold a special meeting at the Beta Theta Pi house.

FRATERNITIES PICK 153 NEW PLEDGES

Men Taken by Greek Letter Societies Announced Tuesday

By Monday night 153 new men were pledged to national and local Greek letter societies after a rushing period of five days. Pledges to sororities will not be announced yet for another week, with a series of teas and "rush" parties under last week's end and the ensuing week.

Pledges announced by fraternities Sunday are as follows:

- Kappa Sigma**
Fred Robertson, Boise; Eugene Flaherty, Spokane; Maxwell Landon, Clarkston, Washington; Carl Nelson, Moscow; Karl McDonald, Grangeville; Robert Drysdale, New Plymouth; Harvey Edleblute, Rathdrum; Maitland Hubbard, Dayton, Wash.; Vernon Thomas, Lewiston; Cyprian Tahler, Nelson, B. C.; Charles Woods, Twin Falls; Roscoe Brooks, Buhl; John Huff, Clarkston; Carlos Zeller, Jerome; John Leiser, Twin Falls; Joseph Turner, Brunau; William Knox, Glenns Ferry; Raymond Nelson, Moscow; Theo. Swanson, Anxoy, B. C.; Allerton Patch, Payette; Henry Gray, Twin Falls; Kenneth Tipton and Richard Smith, Moscow; and Paul Ryerson, Troy; Fred Mitchell and Warren Gorman, Spokane.

- Beta Theta Phi**
John Forrest, Dean Newhouse and Peter McBirney, Boise; Harold Drummond and Robert Drummond, Kellogg; Lee Johnson, Hagerman; Paul Gowen, Caldwell; Jack Ellsworth, Rigby; Denny Hogue, Payette; James Hockaday, Rupert; Donald Modie Diamond, Wash.; Harold Boyer, Culeasca; James Triplett, Spokane; Tom Ashby, Longview, Wash.; and Hatley Nilsson, Tekoa; Ralph Litt, Kellogg; Dick Hollister, Idaho Falls; Maurice Brimhall, Pocatello.

- Phi Delta Theta**
Robert E. Brown, Arco; Jay Christians, Harold Thornhill and Jack Metzgar, Kellogg; Phil

(Continued on page 4)

TWO PHYSICIANS TO HOLD CLINICS

Office Hours Scheduled for Twice Daily at Infirmary

Medical attention by two surgeons, with clinic hours twice daily, will be offered students paying the required \$4 fee at registration, under a new policy adopted by the infirmary for this year. Two physicians have been employed and will hold clinic hours at the infirmary at specified times and also will be available throughout other hours of the day and night.

The following notice of the new system has been issued by L. F. Parsons, executive secretary of the university:

The health fee has been increased from \$2.50 to \$4.00. This additional charge is for the purpose of providing medical service to all students paying the fee. The additional charge is small and it will be recognized that it will be impossible to provide hospitalization and all medical and surgical service together with medication for the charge made.

Available at Night
Two physicians have been employed by the university who will hold clinic hours at the infirmary at specified times and their services are available for consultation and treatment during such clinic hours. Their services are also available at other hours throughout the day and night in cases of emergency by application to Miss June Andrews, in charge of the infirmary.

The service to be given by the physician is limited to the ordinary medical attention and does not include major surgical or specialized services or treatments. Any such specialized services will, when required or demanded, be arranged for between the physician and the patient. Neither does the charge include medication or prescriptions required. These

(Continued on page 4)

Reporters, Editors--Wanted

The Argonaut staff has been depleted by graduation. Consequently there are several vacancies, ranging from issue editors to reporters, to be filled immediately.

There will be a meeting of members of the staff and candidates for members in Room 306 of the Administration building Wednesday afternoon at 4 o'clock.

If you want to be a member of the staff, report at this meeting.

FLOYD W. LANSDON, Editor.

BORAH TO SPEAK AT OPENING MEET

Governor Moore and Other Dignitaries Will Attend Wednesday Assembly

Senator William E. Borah will address Idaho students at the opening exercises of the university, Wednesday morning at 10 o'clock. On the platform with the senator will be Governor C. C. Moore, who will arrive in Moscow at 8:50 o'clock that morning; Huntington Taylor, Coeur d'Alene, member of the board of regents; I. E. Rockwell, Bellevue; former member and Stanly Easton, Kellogg, member of the board and Miss Ethel Redfield, commissioner of education.

Although Senator Borah has not announced the subject upon which he will speak, it probably will be non-political. The address will be the main feature in the opening exercises of the university.

Senator Borah has scheduled three appearances in Moscow during the week. He will be a guest of the Moscow chamber of commerce Wednesday noon. Wednesday night he will speak at the Methodist church. This meeting will be open to the general public. His subjects for each of these addresses have not been announced, but it is believed he will consider some phase of the prohibition question at the Wednesday night meeting.

Because of the enlarged student body and the smallness of the university auditorium, it is believed that only students can be accommodated at the Wednesday morning assembly, according to L. F. Parsons, executive secretary of the university. "Of course we like to have the Moscow townspeople attend our exercises," said Mr. Parsons, but in view of the fact that Senator Borah will speak to the business and professional men of the city at the chamber of commerce Wednesday noon and to the citizens at large in the evening, we are not preferring an invitation to the townspeople for the morning appearance."

FULL GRID CREW BACK IN SUITS

Aggie Practice Pleases Coach Schissler; Season Opens October 2

Oregon Agricultural College, Corvallis, September 21.—A broad smile on Coach P. J. Schissler's face as he left the football field after the first day of football practice indicated that everything was running true to form and that he was satisfied with the turnout. All men expected were on the job with the exception of Dave Luby, halfback. This lad is expected in every minute. Players numbering 47 were on deck. All men are in excellent condition, according to the coach.

The afternoon practice was more snappy than the morning. Signal drills were given and the tackling dummy was brought in for its share of punishment. The day's practice wound up with calisthenics and a few wind sprints.

Two practice sessions every day is the dish set up for players by Coach Schissler and his aids—Newman, King, Stetson, and Plumb—as the Orange and Black prepare for the first tussle of the season against the powerful Multnomah club at Corvallis Saturday. This game comes almost on top of the practice opening and Coach Schissler is going to drive his men at top speed to be ready for Coach "Shy" Huntington and his red-shirted warriors.

This is a list of men who reported for practice: Arvit, Badley, Balcom, Denman, Dickerson, Jim Dixon, Marvin Dixon, Tom Carr, Jim Carr, Edwards, Grider, Hale, Jarvis, Liebe, Logan, Robbins, Schulerich, Ward, Wermark, Savory, Maple, Hafensfeld, Eilers, Carlson, Peterson, Kirk, Hokum, Ingram, Rawlings, George Scott, Delbert Scott, Whitlock, Montgomery, Owens, Metten, Bouten, Essman, Gilmore, Luce, Twitchell, Green, Herzberg, Ireland, Beckley, Crawford, Olmsted, and Horstman.

Former Vandals Play Opening Pro At Rock Island

Ray Stephens, Ted Bucklin and Johnny Vesser, the first two graduates of last year and the latter a member of the 1925 Vandal squad, will play their first professional football game September 28, at Rock Island, Ill., according to word received here. The men are members of George Wilson's "Western Wildcats."

The schedule calls for approximately 12 games through the American league season and several post season contests, which will carry them from the east coast to California. The official season ends December 5. Games will be played in Cleveland, Philadelphia, New York, Chicago and other cities.

The squad is now in training in Excelsior Springs, Mo., and, according to Ted Bucklin, is whipping into good shape for the strenuous season. Bucklin, who spent the early part of the summer at Idaho Falls and the last month at Atlanta, is in excellent shape for play. Ray Stephens spent his summer at Blackfoot, where he did ranch work for conditioning. Before he left to join the team he pronounced himself in the best physical condition possible.

SOPHS TO CHOOSE TEMPORARY HEAD

Second Year Students Will Plan Coming War With Freshmen

Because of failure of Irving Smith, president of the freshman class for the last semester, to return to school this fall, the sophomore class of this semester is without a head and one must be chosen to prepare for the Hulme fight Saturday, according to a call issued by Harry Baughman, A. S. U. I. president this morning. Consequently all sophomores have been asked to meet in room 110 of the administration building at 7 o'clock tonight.

A temporary chairman to take charge of the sophomore participation in the Hulme fight, the "Bury-the-Hatchet" dance Saturday night and other necessary arrangements, will be selected at this meeting. It is probable that plans for the unorganized fight between the freshmen and sophomores will be perfected at this meeting.

If tradition of former years is followed, the sophomores will post their edicts to the rooks, warning them of the superior station in life of the second year men and outlining certain campus rules to the newcomers. This, according to tradition, is signal for warfare. The rooks traditionally resent the slurring insinuations upon their character, station in life and general modes of living and, feeling thus, attempt to tear the edicts down. A fight, during which frequent enforced baths on both sides result.

On Saturday afternoon the organized Hulme fight will be staged. Following this will be the friendship ball, which, according to custom, brings interclass hostilities to a close.

Silver Lance, senior men's honorary fraternity will hold its first meeting of the year on Wednesday noon at the Blue Bucket Inn.

VETERANS LOOM FOR REGULAR POSITIONS

Meeker and Koenig Going Strong for Berths on W. S. C. Varsity Eleven

WASHINGTON STATE COLLEGE, Pullman, Sept. 20.—Although practice has been in progress for less than a week seven men loom formidably for regular berths on the Washington State varsity, on the basis of first team lineups since the first day of practice. "Butch" Meeker, Joe Koenig, Fred Kramer and "Ox" Hansen, lettermen, and Jack Graham, Ted Rohwer and Harry Spiedel, from last year's frosh, are the crew doped for regular berths.

Two end places, a guard's job and fullback are still wide open with strong prospects battling merrily for the calls.

Ar "regulars" position does not mean much in the Hollingbery scheme of things, but it is very obvious that certain individuals will appear frequently in the coach's starting lineup despite his determination to have every man ready to fit into a cog in the machine without disturbing its efficiency.

ARCHITECT ELECTED TO INSTITUTE MEMBERSHIP

Professor David C. Lange, head of the department of architecture at the university was elected to membership in the American Institute of Architects according to word received by Prof. Lange Monday morning.

Prof. Lange has been assigned to the Washington State chapter of the institute.

GRID ASPIRANTS WORKING HARD ON GAME RUDIMENTS

Tough Schedule With Long Jumps Facing Vandals This Year

NINE MEN GRADUATED

Season Opens October 2 With Montanans; Play Cougars Here

Vandal gridiron aspirants have settled down to a seige of hard training preparing for the tough schedule for this year which opens a week from Saturday with the Montana State college on McLean field. Already Coach Charles Erb is putting the squad through stiff scrimmages getting the men into the best of condition for the first encounter. Fundamentals of the game are being taken up each afternoon and last Saturday the squad was given its first scrimmage of the season.

Although Idaho lost nine letter men through graduation last spring and has this year a new coach, who uses a different system of play than former Coach R. L. Mathews, prospects for this season are slightly brighter than they appeared before the season was officially opened last Wednesday. Plenty of fight and spirit is shown by the men on the field and it is evident that the vandals' opponents this year will have to fight for victory.

Coach Erb is holding his squad to approximately 50 men and is shifting the men to various positions in an effort to find their positions. Men probably will not be placed until the season is well advanced.

Following the opening of the season here October 2, Coach Erb will take his squad on its first trip of the season, going to Missoula to meet the Montana team. During the entire season the Vandals will travel approximately 7565 miles to beard their opponents in their own lairs. The schedule for the season calls for four engagements on foreign fields. With such mileage to be chucked up for the Vandals this season, the team will live up to its name as the "Idaho Globe Trotters."

One of the toughest games on the schedule is with the University of Washington eleven in the Washington stadium at Seattle October 16. Two weeks later, October 30, the Vandals will go 370 miles to Portland to meet the Oregon Aggies. On the following Saturday the Vandals will meet the Washington State college Cougars on McLean field in the annual Homecoming day game.

Following the W. S. C. game the Vandals will take a two-weeks rest before starting on their most ambitious tour of the season. November 20 Idaho is scheduled to meet the university of Southern California at Los Angeles. Before returning home they will journey 1811 miles cross country to Omaha where they will meet Creighton university in the second game between Idaho and the middle west team. This will be the final game of the season.

October 23 the Vandals will play the College of Idaho Coyotes here in a non-conference game.

LANSDON NAMED SENIOR MANAGER

Sophomore and Junior Athletic Heads Will Be Selected After Tryouts

William Lansdon, Boise, has been elected senior athletic manager, it was announced Monday night by George Horton, graduate manager of student activities.

Lansdon is considered well fitted for the post, as he holds three baseball letters and a numeral, representing three years of varsity and one year of freshmen activity. In addition to this he has had experience on basketball and football squads. Appointments of sophomore and junior athletic managers will be made by the executive board within the next few weeks, and all students desiring to try out for any of these positions are asked to report to Coach Charles Erb or George Horton, graduate athletic manager. These appointments should have been made last spring before school closed, but it was impossible to get this before the executive board.

According to the constitution four sophomore managers, men attending school here last year as freshmen, two junior managers, men who were sophomores last year, and one senior manager, will be appointed. These appointments are made by the executive board upon recommendations from the coaches, graduate manager and outgoing managers.

In order to make these appointments at once all men interested are asked to report to the graduate manager of Coach Erb at once.

Business Manager CHARLES KINCAID

Rooters Out of Season

With the high-power-salesmanship methods employed by the W. A. A., many "I" rooters' caps are being distributed. Some of these are falling into the hands of newcomers to the university and men who are not familiar, apparently, with Idaho customs. This was shown at a downtown demonstration the other night.

Rooters' caps are that, nothing more. They should be worn at pep rallies, athletic contests and other events where the exuberant Idaho spirit is demonstrated, and not downtown or on the campus. They are the official announcement that Idaho spirit is being dispensed and they should not be worn as this group was wearing them the other night.

Keep To the Right

Following a custom started several years ago, traffic regulations are observed in the Ad building. Under these regulations, persons going upstairs use the stairway on the right hand side of the building and students descending use the stairway on the left side.

Under crowded conditions now existent at the university, this practice must be followed if impassable congestion is to be eliminated.

Together with this regulation should be added another. In front of the bulletin boards are not good places for hall dates and extended conversations; consequently they should not be used for these purposes.

"Hello"

Despite the fact that one editorial already has been devoted to the "Hello" tradition at Idaho, it seems another on this same subject would not be out of place.

Of all the traditions loved by Idaho students, the "Hello" custom is one which should be followed zealously by every student here. In the first place, it makes for a greater acquaintance on the campus. This, in itself, is invaluable to the student. In the second place, it is one of the biggest factors in producing what is known as "Idaho Spirit." The idea of every student knowing every other brings about a feeling that cannot be obtained in any other manner. This feeling, one of family, if you choose to call it that, is one of the greatest things which has helped to make Idaho more than double its enrollment in the last five years. And if that same feeling is maintained for the next five years, phenomenal growth will come.

So, greet every student you meet with the cheery "Hello" that has made Idaho unique among the greater institutions of learning in the world.

Our Campus

Idaho's campus presents the best appearance it has made in years. Remarks on the beauty of the well kept lawns, shrubbery and the campus in general have been made during the past week by old students returning to college as well as new students, who are on the campus this fall for the first time. Idaho has something to be proud of in its campus and buildings and it is the endeavor of the administration, and we hope, of all students to keep our campus beautiful.

One of the simplest ways of doing this is to respect the beauty of the campus and use the walks instead of cutting across the campus on the way to and from classes. Walks were put in so that it would not be necessary to walk on the grass and tramp it out. Last spring it became necessary to erect a fence immediately north of the Ad building and along University avenue to keep the students from cutting across. Let's co-operate with the university and keep on the walks and get these fences taken down.

Considerable interest has also been shown in beautifying the lawns of fraternity and sorority houses during this summer. This too is a measure by which we can beautify our campus.

Vancouver, B. C.—An unusually large and ferocious-looking wolf fish, captured at Seymour Inlet, is attracting much attention in a local store window. The fish is more than five feet long and has two rows of long, sharp teeth in its jaws. In appearance it suits the description of some of the fabled sea serpents of other days.

Bars Sunday Bob

New York.—The bobbing of a maid's tresses on Sunday is to cause lengthy court proceedings. A new state law forbids barbering on the Sabbath.

Spent on Cosmetics

Philadelphia.—The money spent on cosmetics in the country in a year exceeds the salaries of primary and second-grade school teachers, if Miss Nanette F. Weeks is correct.

Cuts, Threshes, Plows 100 Acres in One Day

Hutchinson, Kan.—What a few years ago would have been the wildest dreams of imagination are now becoming matter of fact, everyday stories in the Kansas wheat fields. For instance, there's the case of Irwin Brownlee, a young farmer near Zenith, west of here a few miles. He started in at daybreak one morning with a 50-horsepower tractor and a combine cutting a 20-foot swath. Hooked on behind were plows. As the wheat was cut and threshed the ground behind the harvester was immediately plowed. When night came Brownlee had cut, threshed and put in the bin 100 acres of wheat—some 3,000 bushels in all—and his land was plowed again. All in one day's work. And he and two men did it.

THE COFFEE HOUSE

By Edwin Rule

Salt in the Coffee
Tis early fall; yet hark the call
Of Alma Mater sounding.
From wood and field and right o'way
Come eager footsteps, pounding.
On every face a coat of tan
And visible elation
Which answer well the query made
Regarding one's vacation.

Tis June again; lay down the pen
From soiled notes a taking.
From dorm and frat and garret top
Drag weary forms a shaking.
On all alike the pallid hue
And evident deflation
Which satisfy our own surmise
Ament their situation.

Open house at the Coffee-House
"The coffee-house... might... at that time (1885) have been not improperly called a most important political institution. Nothing resembling the modern newspaper existed. In such circumstances the coffee-houses were the chief organs through which the public opinion of the metropolis vented itself." The History of England, The State of England in 1885, Macaulay.

The Coffee-House has been chosen for this particular column's caption because the title is highly connotative of the style, or rather lack of style, in which the author proposes approach to both subject and reader. It is over the coffee-cup and thru the smoke-ring that that atmosphere of easy camaraderie is best obtained. The spontaneity of give and take is most refreshing, often witty, and far removed from the stilted pedantry of the formal address.

This column is not an editorial, though at times it may sound the editorial note. It is not a column of humor, though Mild Laughter may often sit with us. It will be conversational. It will be... just Coffee-House.

We are sorry that Mr. Stodard King was born before we were. Admittedly, Facetious Fragments is the title. Of course, we should have thought of it at once.

To him who glibly repeats the question, "What's a name, anyway?" we should use great patience in reply. A name may contain a thousand possibilities. Unless the imagination on a name. It can never track down the fleeting images of historical suggestion, of character color, of miscellaneous fact or fancy which the name connotes. One brilliant offer of a name for the column was "Chop-House." The Argument was that everyone knows what a chop-house is; and, further, that the puzzled columnist might avail himself of chop-house logic to sally from a dilemma of his own fabrication.

We thought of calling the column "Grub Street" in memory of that ramshackle passage on which the struggling literary artists of the 18th century were wont to becloster themselves for mutual sympathy and cheap room rent. But the obvious mistake would be that only those wishing to satisfy their physical appetite would give the caption much attention.

Next issue we shall serve black coffee with no sugar.

IDAHO WELL UP IN LIFE SAVING

State Shows Increase of 71 Added to Red Cross Staff During Past Year

Pacific coast states are becoming increasingly alive to the necessity of preventing drownings, more than 4,000 of which occur in the United States each year.

This is shown by the fact that 2,823 persons in the seven westernmost states enrolled in the Life Saving corps of the American Red Cross in the year ending August 31, 1926. There are now 8,926 official Red Cross life savers in the western territory, or over 40 per cent more than last year at this time.

Of the total, 3,482 are men, 1,403 are women and 4,041 are juniors.

Enrollment by states follows:

State	1925	1926	Increase
Arizona	43	102	59
California	3600	5010	1410
Idaho	288	359	71
Nevada	33	74	41
Oregon	835	1325	490
Utah	174	249	75
Washington	1390	1809	379

After thirty centuries, the method of producing gold leaf by beating small crumbs of gold with mallets of wood for weeks at a time has given way to an efficient electro-chemical process. The time and labor necessary are said to be enormously reduced.

The smart collegiate style the young man looks for—all the wearing power hard use demands

CAMPUS CORDS

DAVIDS

ROOKS WILL CHOOSE OFFICERS THURSDAY

Election of officers for the freshman will class be held Thursday evening, 7 o'clock, at the university auditorium, according to Harry Baughman, president of the A. S. U. I. The meeting will be in charge of the associated students and Mr. Baugh-

man will preside. The executive committee to assist the president in handling the election are Edson Morris, Frank Cline, Beardsley Merrill, Arthur Emerson and George Austin.

When peg-tops were in flower

PRINCE ALBERT has been the campus favorite since the days of long-haired fullbacks, high button shoes, turtle-neck sweaters, and hand-painted dormitory cushions. This same wonderful tobacco is even more popular in these days of plus-fours.

And no wonder. Throw back the hinged lid of the familiar red tin and release that rare aroma of real tobacco! Tuck a load into your pipe and pull that fragrant P. A. smoke up the stem! That's Prince Albert, Fellows! Nothing like it anywhere.

When problems press and your spirits slip over into the minus column, just get out your jimmy-pipe and load up with this really friendly tobacco. P. A. is so kind to your tongue and throat and general disposition. Buy a tidy red tin today.

PRINCE ALBERT

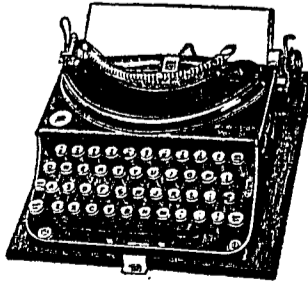

—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and punch removed by the Prince Albert process.

Make the Grade with a Remington Portable

STUDENTS everywhere have found the Remington Portable Typewriter indispensable in their college work.

It is the smallest, lightest, and most compact portable with standard keyboard. The machine can be tucked away in a drawer when not in use, for the case is only four inches high.

You can't get away from the fact that neatly type-written reports and theses get better attention from the profs, and very often mean better marks.

This handy helper, which takes all the drudgery out of college work, can be bought for as little as \$10 down and \$5 monthly.

OTNESS GIVEN POST ON FEDERAL BOARD

Idaho Graduate Passes Civil Service Examination with Honors

Roy Otness, who graduated from Idaho this spring has accepted a position at Washington, D. C. with the interstate commerce commission. Otness was graduated from the college of Engineering with high honors and passed the civil service examination this spring with the highest grade.

OIL MAJOR FACTOR IN PEACE OF WORLD

Experts Agree on Immense Importance of Petroleum.

Williamstown, Mass. — Oil, the source of giant energy that has been a major factor in the world's progress, has been pictured before the Institute of Politics as a potential modern counterpart of Mars, the ancient god of war. Five speakers—three Americans, a Frenchman and an Italian—agreed that oil was a major factor in the future peace of the world.

A warning that America is traveling a dangerous path in its "prodigal depletion" of the country's oil supply was sounded by Henry L. Doherty, public utilities magnate. Maintaining that from the viewpoint of national defense there was no substitute for petroleum, he said that predictions of discoveries about to be made "deserve no more credence than the ravings of a delirious invalid."

U. S. Laws Held Handicap.
Asserting that the present laws of the United States prohibit the application of scientific methods to the production of oil, he said:

"Not even the knowledge possessed by an unskilled child can be used. There is little likelihood that we can maintain much longer even our present rate of oil production. Already we are using as much oil every year as Pennsylvania, long the banner oil-producing state, has produced in 67 years."

He denied the practicability of substituting coal products for petroleum.

R. T. Haslam, professor of chemical engineering at the Massachusetts Institute of Technology, said that chemistry, by perfecting means of transforming coal into oil cheaply, would provide a great safeguard to international peace. He pictured a future when through use of this chemistry-made energy smokeless cities would flourish under conditions of health and prosperity unknown today.

France Has Excess.

Three other speakers agreed that oil was a powerful factor in world peace. Justin DuPont, French perfume manufacturer, said that France now had more liquid fuel than she uses, through the adoption of by-processes with coal, and was thus independent of the rest of the world in this respect.

Umberto Pomilio, Italian electrochemical authority, saw in the conversion of coal into oil a solution of the problem of national defense, as well as cheap power for national development.

A. C. Fieldner, superintendent of the bureau of mines experiment station at Pittsburgh, Pa., said the problem of converting coal into oil was "one of national defense, for perfection of the processes would make each country independent as to oil."

PEP DISPENSERS TO MEET NEXT MONDAY

New Leader Will Be Elected After Tryouts in "U" Hut

The meeting of the pep band originally scheduled for today will be held next Monday, according to "Kewpie" Atwood, manager. New material for every line of instrument will be considered by the regulars at the meeting which is set for 7:30 o'clock at the "U" hut.

Late registration and arrivals of students was given as reason for the postponement of the meeting. With college work under full sway by the end of the week, a full turnout is expected by the manager.

Ruth Greene announces the opening of her Studio of Dance at 807 Deakin Avenue. Courses will be given in Ballet, Character, and Toe. Phone 2747.

FOR RENT—two-man room with light and heat. Call at 684 East B or telephone 355-M.

WANTED—BOY STUDENTS TO room and board at the old Kappa Alpha Theta house.

A new leader to fill the place of Sven Moe, Kellogg, who was graduated last spring will be elected at the meeting following the tryouts.

Ground into a fine powder pure gold becomes ruby red.

Philip Buck Goes To Mills College

Philip Buck, a University of Idaho graduate of three years ago, was a recent campus visitor, on his way

from Oxford university, England, to Mills College, California, where he has an appointment as assistant professor of government. He is accompanied by his bride, who was Miss Barbara Jacobs, daughter of W. W. Jacobs, English author of sea tales.

Mr. Buck attended the Flier and Twin Falls high schools, graduating from the latter. He was awarded the Rhodes scholarship from the state of Idaho to enter Oxford in the fall of 1923 and has now graduated from Oxford with a B. A. degree. He finished his work with first honors in the

school of politics, economics and philosophy, being the second American to receive first honors from that branch of the university.

Mr. and Mrs. Buck were married June 24, before he was through with his examination. The acquaintance began in his first year at Oxford, when his room-mate was Miss Jacob's brother.

AVOID THE RUSH!

Our store will be crowded in the afternoon. Buy your text books and college supplies in the morning and you will be attentively served.

Hodgins'
A BATTLE DRUG STORE

Piping Hot!

Straight from the frying pan comes a tempting steak smothered in vegetables. And when it's damp and rainy outside a plate of Bob's hot chili just "hits the spot." No matter what you may crave, you will always find it at the Varsity, "cooked to a turn" and appetizingly served.

AT THE

VARSITY GROCERY & CAFE

(OF COURSE)

Over two billion
smoked a month!
—it's clear enough what smokers want!

Real delicacy of aroma, but without loss of natural tobacco taste and character

THAT'S what smokers want—and what's more, they know just where to get it.

Witness Chesterfield's remarkable record; for four years' running, America's fastest-growing cigarette.

Chesterfield offers "natural tobacco taste" at its mild and mellow best, just the natural leaf sweetness of fine tobaccos put together right—and "judged by results," that's just what smokers want.

T. Woo, Alumnus, In Wars In China Against Red Army

One of Idaho's alumni, who has been mixed up in the wars in China for most of the time since graduation, is Tsi Tao Woo, who received his B. A. degree here in 1923. He has had much correspondence with the registrar's office relative to a diploma that was lost in transit.

"We are in bad position now," says a letter written August 19 "and shall run away in any minute because the red army directed by the Russian general marching from Canton toward Kuli Kiang only 150 miles afar. If they come, we shall go. The concession in Kuli Kiang is too small to protect us. If you are going to send me another diploma, please address me to 8 Bund care of Anderson & Meyer Co., Ltd., Kuli Kiang, China. I shall remit the money as soon as I have received it. We don't know where we are going to find shelter yet."

Ivan Anderson, '26, of Mountain Home, has been appointed assistant in bacteriology at the university and will have direct charge of the manufacture of culture for inoculation of legumes.

TWO PHYSICIANS TO HOLD DAILY CLINICS

(Continued from page 1)

must be paid for by the student.

President's Authority

In the event any questions arise relative to extra charges made by the physician they will be referred to the president's office and its finding will be final and binding on both the physician and the patient.

Any lack of attention or service on the part of the physician should be reported to the president's office.

Any student is privileged to have medical attention from physicians other than those employed by the university but such service must be paid for by those receiving same.

Open to Town Students

Students resident of the city of Moscow may have the medical service offered by payment of the additional medical fee. In the event such service is not desired a statement to that effect must be presented to the bursar.

Clinic hours—A physician will be at the clinic from 11 A. M. to 12 noon and from 4 P. M. to 5 P. M. each day except Sunday. Students needing medical care are asked to report at these hours if possible.

Visiting hours for house patients

are from 4-8 P. M. and from 7-8 P. M.

Infirmaries excuses for absence from class on account of illness will be given only to those students who have reported in person to a physician or to the clinic nurse during the absence or which excuse is requested. A charge of \$1.25 per day will be made for board to house patients at the infirmary.
