

MANY PARTS ARE FILLED IN CAST OF DRAMA PAGEANT

Cushman, Production Director, Assigns Large Number of Roles
CAST NOT COMPLETE
Most of Principal Characters are Indians, Miners and Explorers

Selection of the cast for "The Light on the Mountains" drama-pageant was partially completed by Thursday evening, according to John H. Cushman, head of the dramatics department, who is directing the staging of the production. A large number of the principal parts have been assigned to students. Mr. Cushman said.

A total of 50 speaking parts are included in the production with 25 of these being principal parts. Most of these principal parts are Indian characters and early explorers and miners.

Frontiersman Part
One of the principal parts of the pageant, that of the frontiersman who gives the prologue for each scene, will be taken by H. C. Carter Davidson, public speaking instructor. Abe Goff will do the part of the Indian Horseman, the part he filled when the pageant was presented four years ago. Marie Gauer has been selected to characterize the part of the Indian Bird woman who guides Lewis and Clark during their expedition trip. The part of Meriwether Lewis will be taken by William Guernsey, who played this part in the pageant when given the first time.

Indian characters are:
Indian woman singer, Miss Jennie F. W. Johnson; Walking Thunder, John Taylor; Wolf, Arthur Peavey; Nampuh; James Dunn; Ollcut, Robert Allshire; Looking Glass, Arthur Ensign; Chief Joseph, James Allen; Buffalo Horn, Con Dewey; Bird woman, Marie Gauer.

Miners
Thirty-four Indians parts are included in the script. Twenty-five parts are yet to be filled. Students are to be named for the parts of Clark, York, Dreyer, Shields and Sergeant Gass, as trappers.

Trappers already named are Frank Egbers, as du Nord, and Beardslee Merrill, as Payette.

THIS ELECTION

ANOTHER election has come and gone; and it went considerably smoother than some people had expected.

Under the system of politics at Idaho there are few losers in the election; so these cannot be condoled.

So the most that can be done in this editorial is to wish the new officers all the success in the world and hope that they fulfill all the expectations of the four hundred voters who put them in office.

A BIG SUCCESS

IDAHO'S first statewide high school music contest has just closed. It was more successful than even the most ambitious of those who sponsored it dreamed it would be.

The success of this initial attempt suggests vast possibilities in this line, and it is understood that some of these already are under consideration for next year.

There were slightly more than a score of high schools represented in the half hundred of juniors and seniors who participated. It is reasonable to believe that next year, if proper exploitation methods were taken early in the school year these numbers could be doubled or tripled.

THE OLD QUESTION

AN OLD question which hits at the most fundamental principle of tolerance has appeared again. It was raised when Stanford University withdrew from the oratorical contest sponsored by the Better American Federation.

The action of this judge, who represents the opinion of many moral Americans, is suggestive of the narrowest intolerance and is a violation of the principles of intellectual and scientific honesty.

George Bernard Shaw has, probably unknowingly, raised the banner symbolic of the fight forward thinking and acting students are waging. He

has placed over his mantle-piece the following legend:

"They say—what do they say? Let them say it!"

THE STUDENT WORKER

WHEN The Nation announced two years ago that it would offer a prize for the best essay written by a college student who had spent his summer vacation as a laborer, either agricultural or industrial, there was a tendency among pessimists to look suspiciously on the project.

While the very fact that the articles were prize winners indicates that they were above average, their general character showed that the student realized himself to be other than a being set apart from manual workers.

The instruments will be strummed lightly in chorus; during the short commencement services, thus promoting wakefulness among the ranks of the graduates during the ceremony.

NEW CAMPUS POET

How many students at Idaho realize the hidden talent among their own ranks? Who knows of the souls of geniuses, inventors, Harold Bell Wrights, Al Smiths, United States presidents, POETS, whose talents are slumbering among Vandal men and women?

Do you waken in the night with an idea, an inspiration, a song, a trophy essay ringing in your ears; if so, you have psychological tendencies toward greatness.

Now Siggie woke up the other night with this inspiration: SAM, THE COLLEGE BRED MAN HE WEARS THOSE CORDS.

OVER two million cubic yards of rock blasted last week under the very feet of New Yorkers—without even jarring their famous metropolitanism! Since the adoption of plans for the Eighth Avenue Subway in 1925, contractors under the direction of the New York City Board of Transportation have been busily blasting a 57-mile tunnel under the most congested traffic centers of Manhattan and Brooklyn.

Steam shovels and motor dump trucks crawl over and under and in between a labyrinth of tubes, tunnels, gas and water mains. Small charges of du Pont explosives, aggregating many tons, are being fired under the rumble of great trucks, scurrying taxis, and hurrying pedestrians, with all the safety precautions prescribed by the city. One of the many wonders of this wonderful city.

When completed, this subway will contain 170 miles of track—more than doubling the subway facilities of New York. The cost of construction will be approximately \$400,000,000. The entire cost of this great subway is estimated at a half billion dollars—one of the most remarkable enterprises in the history of city government.

Du Pont laboratories, du Pont engineers and field service men are working constantly with users of explosives, making available the knowledge and skill of 125 years of explosives experience.
