

## "TURKEY RUN" WILL BE OPENING EVENT ON GROUND PROGRAM

### Men's Teams Are Eligible To First Race of Kind On Campus

### WINNERS GET BIRDS

#### Executive Board Adopts Intramural Schedule At Tuesday Meeting

A "turkey run" will be the opening of the Idaho intramural athletic schedule set for October 20. It was decided at the A. S. U. I. executive board meeting Tuesday evening in the A. S. U. I. office. The "turkey run" is to be in the form of a cross country race, open to all men's groups on the campus. The program was adopted by the board Tuesday.

This will be the introduction of the "turkey run" on the Idaho campus, the name being derived from the fact that the winning group will be presented with turkeys for a dinner. In the past it has been the custom to offer trophies for the winning team, but in order to stimulate more interest in the race this year it has been decided to offer turkeys.

A cup, however, will be awarded the winning group by Capt. W. Bryan, Vandal trainer, it was announced at the board meeting. This makes two prizes instead of one being offered.

Entries will be received from all fraternity houses, halls, town men and other men's groups. Eight men from each organization may register for the event with but five out of this number to start.

A new system will be employed this year in judging the race. Instead of giving first place to the group whose entrant places first, the winning horse will be the one which has the greatest number of runners placing in the first ten men across the finish line. This makes the competition much keener. It was pointed out at the board meeting.

The race will be held on Saturday, October 29, starting at 3 o'clock in the afternoon. The length of the run will be two miles. No lettermen will be allowed to take part in the race. Judges for the contest have not been named, this to be done shortly before the race.

To Handle Homecoming In other business taken up by the executive board, it was decided to grant permission to Blue Key, honorary national upperclassmen's service fraternity, to handle the homecoming program this fall. This will include the arranging for housing facilities for guests coming here, information booths, decorations, transportation to Pullman and several other details. Blue Key handled this program last fall and asked permission to take it over again.

Homecoming this year will be at Pullman November 11 when the Vandals and W. S. C. meet. Due to the fact that it is to be held at Pullman it is probable that not as much work will be required on the Idaho campus, Fisher Ellsworth, president of Blue Key, pointed out. Work will be started at once by the fraternity to get ready for homecoming.

## PSYCH CLASS VISITS INSANE HOSPITAL

### See Various Types of Insanity at Medical Lake Institution

Something new in the form of a lab was instituted by the psychology department last Saturday when 31 members of the abnormal psychology class accompanied by Dr. J. W. Barton, Prof. Howard Easley and Miss Edna Peterson visited the Eastern Washington Hospital for the Insane at Medical Lake.

The party left Moscow early Saturday morning in automobiles. On their arrival at the institution, they were conducted through the State Custodial school for the feeble minded. There are more than 1000 patients in that branch of the institution alone, members of the party stated. In the afternoon Dr. Oliver, superintendent of the institution, gave the class a lecture on brain diseases and abnormalities, supplementing his lecture with a three-hour clinic using patients in the various wards to show different brain disorders. The party was conducted through the entire hospital by resident officials during the clinic.

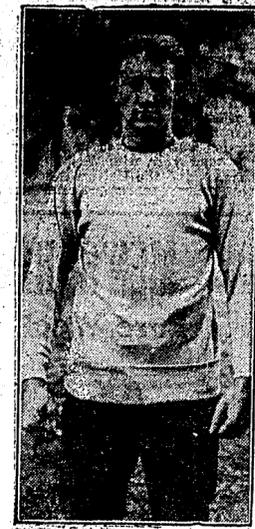

Doctor Barton stated that the trip was a success, and that from now on similar clinics will be a part of the course in abnormal psychology each semester.

The main reason for such clinics, he said, is to give the members of the classes who plan to take up teaching and employment work a chance to study the symptoms of the various types of mental defectiveness. Out of clinical work of this kind a student can gain more knowledge than he can by weeks of study from textbooks.

Doctor Barton also mentioned that the officials at Medical Lake co-operated in a fine way and gave every assistance to make the trip a successful one.

The next trip will probably be to Orofino to the Idaho State Hospital for the Insane. It will be sometime within the next month, according to present plans.

## LEADS WHITMAN

MICHELSON, CAPTAIN OF THE Missionary squad which invades the Idaho camp Saturday afternoon. He was selected as an all-conference back in 1926 and this year is considered one of the most outstanding men in the conference.

## DEBATE SEASON TO OPEN HERE OCT. 24

### Idaho Men Meet W. S. C. on War Question Before Kiwanis Club

Debates of the University of Idaho will open the intercollegiate season October 24 here, when an Idaho team composed of Arthur Peavey and Jean Collette debates a Washington State college team before the Moscow Kiwanis club at their weekly dinner at 6 o'clock.

The question to be debated will be: "Resolved: That War Should Be Declared Only by Popular Vote, Except in Case of Invasion." Members of the Pullman Kiwanis club will be present; the debate will be held at the Moscow hotel banquet room. All university students desirous of hearing the debate may obtain invitations through the members of the Moscow Kiwanis club, says H. Carter Davidson, debate coach.

Three new members were added this week to the women's varsity debating squad and two to the freshman squad. Julia Hunter and Thelma Melgard, Moscow, and Alice Waldrop, were successful in tryouts for the women's squad and Kenneth O'Leary, Boise, and Ralph Peterson, Pocatello, to the freshman squad, following scheduled tryouts.

Announcement of scheduling of debates with five mid-western institutions this year, but with no fixed dates as yet, was made this week. Debates are to be held with the University of Oklahoma, Redlands university, California, Boston College, Wisconsin, Marquette University, Milwaukee and Iowa State college. Ames, Whether the debates are to be held here or afield is uncertain.

An audience decision will be given in Kiwanis debate here, it has been announced.

## PIANISTS TO PLAY AT FIRST VESPER

### Nine Pupils Will Appear at Sunday Recital

Piano Pupils of Miss Isabel Clark will be presented in recital at the first vesper program of the year at four o'clock Sunday October 16, at the university auditorium. Fanny Baker, violinist, will assist the piano students.

The program is as follows: "Pastoral Variations".....Mozart "Prelude".....Chopin "Impromptu in A flat".....Chopin Grace Jain "Romance in D flat".....Sibelius "Tocatta in D minor".....Leshetzky "Waltz in A flat" op. 34 no. 1 Chopin Blanche Brossard Violin solo: "Allegro Maestros" from seventh concerto.....D. Beriot Pauline Baker "Whims".....Schumann "Soaring".....Schumann Lucille Haddock "Nocturne in B major".....Chopin "Polichinelle".....Rachmaninoff Nadine Tucker "Waltz in A flat" op. 64 no. 3 Chopin "Song of the Lark" Glinda-Balekrew Josephine Harland "Preludium".....MacDowell Dorothy Whitnack

## PI LAMBDA THETA HAS BIG FIRESIDE

### Forty New Girls in Education Are Guests; Next Meeting Will Be Monday

Approximately 40 new girls in the school of education were present at a fireside given in their honor by Pi Lambda Theta, national honorary educational society, last Monday evening at Forney hall.

Next meeting of the society will be held next Monday at 7:30 o'clock at the office of Dean J. F. Messenger, of the school of education in the Administration building. A business session is planned for the meeting.

## CONCRETE POURING PROGRESSES FAST ON NEW IDAHO GYM

### One Carload of Cement Has Been Used in Work Since Monday

### WILL TAKE 65 CARS

#### Eight Pier Bottoms Are Built; No Steel Raised This Fall

Pouring of the concrete for the new armory and gymnasium started last Monday and work is progressing rapidly, according to W. W. Whiteside, foreman of construction.

So far, one carload of cement has been used in the work. About 65 car loads, 25,000 sacks, will be used in the entire structure. In addition to the cement there will be 50,000 cubic feet of sand and 200,000 cubic feet of gravel used.

Eight pier bottoms have been constructed with the cement, using several tons of reinforcing steel. There will be approximately 255 tons of this steel used in the building. There will also be 220 tons of structural steel used. None of the latter will be raised this fall owing to the fact that the cement will not be hard enough to stand the strain.

Cutting Cost of Work Several labor saving devices are helping to cut the cost of construction. The cement mixing and pouring device is probably the most interesting. This is an original idea used by Mr. Wiseman, foreman in charge.

The trucks, bringing the sand and gravel to the grounds, drive up on the platform above the cement mixer and dump their loads into bins. The bins empty into containers where the proper amount of gravel, cement, and sand are measured before being put into the mixer. The ratio is one sack of cement to two cubic feet of sand and four cubic feet of gravel.

This container is loaded into the hopper that puts the material into the mixer. Water is added by means of a cylindrical carrier which empties into the mixer the proper amount of water needed. The mixer is dumped into the car that carries the cement to the top of the distributing tower. When the car returns to the bottom of the tower, it trips the mixer and the mixer automatically dumps its load into the car.

When the car full of cement reaches the top of the tower, it empties into a chute and the cement runs down

(Continued on Page 3)

## OFFER NEW COURSE FOR AIR ENGINEERS

### Preliminary Aviation Study Follows Possibility of Airdrome Here

With the possibility of getting an airdrome and landing field in Moscow, announcement comes from the college engineering that for the first time in the history of the institution, instruction work is being given this year in aeronautics.

The courses are preliminary ones and deal almost entirely with the mechanical end. The best texts available for modern aviation schools are being used. The work is given as part of the mechanical engineering curriculum and is offered only to juniors and seniors.

Will Enlarge The curriculum will probably be enlarged and aerical engineering may follow within the next few years. Several students have enrolled for courses this year and a number of others are expected to take similar courses next year.

Cyril C. Thompson, Idaho always board president, is negotiating with army and navy aviation officials at present relative to getting engines and equipment here for a study, a Boise report says. Mr. Thompson was a visitor on the Idaho campus a week ago, and conferred with members of the engineering faculty.

An Aero club of Moscow business men was formed last week for the promotion of commercial aviation. Moscow is one of the main stops on the proposed Eastport-Boise air route, according to Mr. Thompson.

## SOPH SUES GARDNER FOR AUTO INJURIES

### Dorothy Keinholt Wants \$1000 for Damage Suffered Through Glass Cuts

Dorothy Keinholt, a sophomore in the university, filed suit in the Latah county district court Thursday against Floyd Gardner to recover damages of \$1000 following an auto accident in Moscow, in which Miss Keinholt was thrown through the windshield. The car was being driven by Lucile Howe, another university student, when the Gardner car is alleged to have backed from a parking place, striking the Howe car and throwing Miss Keinholt into the windshield.

Miss Keinholt was active in women's debate last year and this year is a member of the varsity debating squad for women.

DEAN NOW AT HOME Dean Louise Blomquist, assistant dean of women, is back at her apartment in Forney hall after having been in the Gritman hospital for two weeks with flu.

## CANNON HEADS JUNIOR MIXERS

### Ethel Lafferty and Alice Waldrop Complete Committee to Outline Social Activities

Lambert Cannon, Mountain Home, this week was appointed chairman of the junior mixer committee for the present year by Herman O. Welker, president of the third-year class. The committee will have charge of all junior social activities.

Ethel Lafferty and Alice Waldrop were named on the committee to serve with Cannon in outlining the year's activities. It is Mr. Welker's plan to bring members of the class closer together by these entertainments of dancing, stunts, and musical entertainment.

First of these entertainments will be held soon, and will take the form of a "get-acquainted" mixer. Contrary to a rumor on the campus several weeks ago, dancing will be allowed at these mixers, although no dates are to be taken.

Plans of the committee are not announced, but it is understood that five mixers will be held during the year before the annual junior week next May.

## REGISTER CAR OR SUFFER PENALTY

### File Data Saturday or Operation Privilege Will Be Revoked

All students operating autos on the campus must have their cars registered in the office of the president not later than Saturday, it was announced Thursday by President A. H. Upham. This regulation is in compliance with a rule adopted by the university faculty June 3, 1927.

The regulations adopted by the faculty are as follows: "That all students when registering be required to state whether they own or regularly operate cars and register such cars as follows: "License number, motor number, make of car, where stored and owner or owners."

"That all students becoming owners or regular operators of cars during the semester register such cars within five days of becoming owners or operators."

"These regulations are in force at the present time and all but approximately 50 cars have been registered, Doctor Upham said. There are approximately 150 autos being operated by students on the campus, according to the number obtained during registration, he said. Students who have not registered their autos must do so by Saturday afternoon in order that they may operate them on the campus, President Upham said.

The regulations are based on the principle that all but approximately 50 cars here only by consent of the administration and faculty of the university and that such consent may be revoked at any time for sufficient cause, according to a letter sent out by the president's office at the opening of school, to all car owners. If at any time during the semester the owner disposes of his car, he is asked to report this fact at the president's office at once, the letter continued.

## DEAN OF WOMEN ON STATE TOUR

### Miss French Will Return From Southern Idaho Next Week

Dean Permeal J. French, who left Moscow October 3 for a business trip to southern Idaho, is expected to return to the university October 19. She will have visited most of the towns around Twin Falls on her tour.

Miss French spoke before the district meeting of the Parent-Teachers association which was held at Rupert last week. In various towns which she visited, she gave talks before the clubwomen.

Her itinerary was arranged by Miss Mariol Hepworth, state home demonstration leader, in conjunction with the women of the towns. This summer, Miss French was asked to be on the programs that were given in the women's camps at Mack's Inn, St. Anthony, and at Guyer Hot Springs, Hatley. Those who heard her speak added their invitation to the many others which Miss French has received to come to the southern part of the state.

Besides addressing the convention and the various women's clubs, Miss French is scheduled to speak at several southern Idaho high schools.

On October 1, two days previous to her departure, Miss French attended the State Federation of Women's clubs of Idaho, held at Lewiston.

Miss French visited the following places on her journey: Rupert, Kimberly, Twin Falls, Filer, Gooding Eden, Wendell, Hazelton, Shoshone, and Mountain Home. She expects to stay over a couple of days at Boise.

## SENIOR HATS ARE SELECTED AT O. A. C.

### Pick Useful and Ornamental Headgear from Assortment of Over 20

Oregon State College, Corvallis, Oct. 13 (PIP)—Three styles of hats have been chosen by the senior insignia committee as possibilities for this year's senior hat. They were selected from an assortment of over 20 hats with the idea of utility as well as of appearance in mind. They are the broad brim-low crown, white and light brown in color. All three hats are soft felt; one with a bordered brim.

## WALKER SELECTED ON BLUE BUCKET MANAGER STAFF

### Named Assistant Business Manager By Executive Board Tuesday

### FIVE MEN APPLY

#### Will Automatically Become Business Manager Next Year

P. H. "Bunny" Walker, was appointed assistant business manager of the Blue Bucket, student literary publication, by the executive board of the A. S. U. I. at the meeting Tuesday evening in A. S. U. I. office. Five applications were read to the board and the selection made from this group.

The office of assistant business manager of the magazine was declared vacant when Thelburne Moore, named last spring, failed to return to school. Applications were received during the week from the following students: Howard T. Andrews, Denny R. Hogue, P. H. Walker, Glenn Wright and Phil DuSault. The constitution of the student body requires that the person filling this position must be a member of the junior class during his term of office and then the following year automatically becomes business manager.

Board to Pullman A communication was read from the board of control of the Associated Students State College of Washington, extending an invitation to the members of the executive board to be the guests of the Pullman board at a joint meeting and dinner next Wednesday. The executive board accepted this invitation and members of the board will go to Pullman Wednesday evening.

Last year the holding of joint meetings between the two student boards was inaugurated by Idaho attempting to create a better feeling between the students of the two institutions.

The W. S. C. board came to Moscow last fall for the meeting. Matters relating to students painting up the Idaho and W. S. C. campuses and destroying property preceding the annual Idaho-W. S. C. football games will be discussed at the meeting Wednesday. Last fall an agreement was reached whereby the old "tradition" of painting up the opposing college's campus would be discontinued.

Members of the board who will go to Pullman are Frank Click, Chairman, George Yost, vice chairman, Joseph Jensen, and Col. Charles Lindbergh, alumnus of the school. President A. H. Upham was toastmaster.

Miss Jensen was chosen queen of the derby by popular vote. "We Won't Get Married, We're Having Too Much Fun," was the title of a skit given by six Phi Beta Phi dressed in corsetry trousers and derby hats. The girls were: Letha Wilton, Ruby Williams, Marylou Craven, Helen Douglas, Alice Harding and Catherine York.

Olive Giffen, accompanied by Helen Peshak on the piano and Pauline Eker on the violin, gave a toe dance. Prof. John H. Cushman presented Ethel Lafferty and Don Warner in a skit.

Mildred Axtell, Violet Spurgeon, Ruth Newhouse, Emily Osgood and Evelyn White also gave a dance. H. A. Howe, Orchestra and Band Instructor, directed the music.

The banquet is an annual affair given by the faculty in charge of the committees. Mrs. T. S. Kerr is president of the club.

## MINES ENROLMENT SCHOOL'S LARGEST

### More Than Fifty This Year; 25 Per Cent Out of This State

More than 50 men including graduate students are enrolled this year in the school of mines according to Dean Francis A. Thomson.

"Ten years ago when I arrived on the Idaho campus, there were two sophomores, one senior and a handful of freshmen whom I drummed up during the summer myself," Dean Thomson declared. "There were serious doubts among many members of the faculty at that time as to justification for organization of a school of mines, but the present enrollment, together with success of 54 graduates since 1917, all of whom, with three exceptions, are in some phase of the mining industry, is a very adequate answer to criticism of board action taken in creating a separate school of mines."

An interesting feature of the 1927 enrollment in the school is that fully 25 per cent of the students in the mines school come from outside of Idaho. A number of men from the Coeur d'Alenes, apparently due to construction of an electrolytic zinc plant at Kellogg, have changed over to the mining curriculum this fall. Electro-metallurgical processes of this type require a large number of technically-trained metallurgists for plant operation, he declared.

In addition to instructional work, the school of mines since 1919 has carried on an extensive program in metallurgy and geology in co-operation with the Idaho bureau of mines and geology.

## ATHLETIC BALL TO BE NOVEMBER 11

### Climax of Idaho-W. S. C. Homecoming Game Announced

The formal Athletic ball, one of the campus classics, will be the climax of the Idaho-W. S. C. homecoming football game, November 11, it has been announced this week.

This year the affair is limited to 128 couples, with all men participating in the game to be guests. An imported nine-piece orchestra, not yet named, is to be engaged for the date. The place has not been decided.

The Athletic ball is an annual event sponsored by the "I" club and traditionally held on the night of the annual football homecoming game. Last year it was held on the night of the W. S. C. game played here.

Minneapolis, Minn.—(IP)—Only one student in fifty of those entering the University of Minnesota this year was found to be physically perfect by the examining physician.

## HEAVY TACKLE

CALEY, 185 POUND Whitman tackle and an all northwest conference selection for 1928, who will run up against one of the Idaho linesmen Saturday afternoon on MacLean field. He is a junior.

## AIR DERBY BANQUET STAGED BY FACULTY

### Annual Affair Held at Elks' Temple Tuesday Evening

## FROM SAWDUST TO LUMBER IS LATEST

Two hundred forty faculty members and their wives made merry Tuesday evening at an air derby banquet given by the Faculty Women's club at the Elks' temple.

A huge airplane above the tables in the center of the banquet room with its propeller whirling, was used to carry out the derby idea. All the guests wore paper goggles.

Miss Ruth Elder, alias Miss Katherine Jensen, and Col. Charles Lindbergh, alias Prof. Edward F. Mason, debated on the relative value of hot air and gas. President A. H. Upham was toastmaster.

Miss Jensen was chosen queen of the derby by popular vote. "We Won't Get Married, We're Having Too Much Fun," was the title of a skit given by six Phi Beta Phi dressed in corsetry trousers and derby hats. The girls were: Letha Wilton, Ruby Williams, Marylou Craven, Helen Douglas, Alice Harding and Catherine York.

Olive Giffen, accompanied by Helen Peshak on the piano and Pauline Eker on the violin, gave a toe dance. Prof. John H. Cushman presented Ethel Lafferty and Don Warner in a skit.

Mildred Axtell, Violet Spurgeon, Ruth Newhouse, Emily Osgood and Evelyn White also gave a dance. H. A. Howe, Orchestra and Band Instructor, directed the music.

The banquet is an annual affair given by the faculty in charge of the committees. Mrs. T. S. Kerr is president of the club.

## CLUBS TO MEET AT CHICAGO SOON

### 4-H Boys and Girls Given Prize By Railroad

About eleven boys and girls will represent the 4-H clubs of northern Idaho at the national club congress to be held at Chicago next month in connection with the International Livestock exposition.

A cash prize offered by the Chicago, Milwaukee, and St. Paul railroad, amounting to travel expenses to and from Chicago, makes the trip possible. The prize will go to county agents of Kootenai, Benewah, and Latah counties, and to three boys and girls from each county.

A club fair will be held at Moscow under the supervision of the University of Idaho Agricultural and Home Economics bureau, October 21 and 22. This fair will open competition for the boys and girls over the state to win prizes. The winners will be chosen from among the best cattle raiser and pig raisers, judging teams, and girl demonstration teams.

Six prizes, two district, and four all-state, are offered. Armour and Company, a trip to Chicago; Montgomery Ward and Company, two trips to Portland; Swift and Company, a trip to Portland, other prizes are to be offered besides the one by Chicago, Milwaukee, St. Paul.

## SILVER LANCE WILL MEET EVERY WEEK

### Honorary Senior Men's Fraternity to Have Social Luncheons

Silver Lance, honorary senior men's fraternity, will hold weekly luncheons every Wednesday, it has been announced by the organization.

Meetings are to be of a social nature, the organization has no officers. Matter of mutual interest to the fourth-year men will be discussed at the luncheons. Seniors pledged to the society were chosen last year at the annual May fete.

## DIFFERENT LINE OF ATTACK FOR WHITMAN GAME

### Vandal Reserve Material To Be Used Against Missionaries

### PLAYERS RECOVER

#### Walla Walla Team One of Strongest in Northwest Conference

A new line of attack has been prepared by the Vandals for their game with Whitman, Saturday afternoon at MacLean field. This line is the Idaho season has been far strenuous to allow Coach Charley Erb to use his reserve material. Both Mountain State and Oregon called for every bit of power the first string could mobilize and no trick plays or formations were held back. For this reason Erb has begun to build his attack again.

Perrins Injured In practice Thursday afternoon Sammy Perrins, fleetfooted Vandal half, received an injury to his right leg that will very likely keep him out of Saturday's game. Ligaments were strained in the same leg early in the season and it has been giving him a good deal of trouble. Hutchins will probably start at one-half in Perrins' place.

Although several of the squad were bruised and scratched up in the Oregon contest last week there were no injuries considered serious enough to keep a player on the bench. Con Dewey sustained an injured nose and "Spock" Dietz received a bad bruise on his forehead; both men are recovering rapidly and have been out for practice this week.

Men Recovering Red Jacoby and Kirkpatrick, taken out on account of injuries in the second quarter of the Oregon game, have returned to their regular positions at quarter and center respectively, which they are expected to hold against Whitman. Several changes have been made on the squad during the week and a few new faces may be seen in the lineup Saturday.

Bill Price of Malad, junior in school but in his second year of football, looks good as an end, and may start opposite the dependable Darwin Burgher. In both games this season Price had a chance to show "his stuff" and he continues to show improvement may have a regular berth on one of the wings. Kenneth Barrett, sophomore, is being groomed as an understudy to Red Jacoby.

Men Working Hardly A new spirit of serious-mindedness has come upon the Vandal squad since the Oregon game. Much of the hilarity and horseplay common on college football fields during the "practice" hours has disappeared and the regulars are gritting their teeth and digging in their toes with a determined vigor. They are realizing that Idaho's future task is a serious one and requires a serious-minded team.

Graduation took many of the regulars from the Whitman squad of 1926 but Coach Borleske optimistically says his 1927 team is better than that

(Continued on Page 4)

## NOMINATE HARMON FOR A. S. U. I. BOARD

### Associated Students Name Junior Candidate at Assembly Wednesday

Leonard Harmon, Boise, was nominated Wednesday as junior representative to the executive board of the university at the general assembly. The nomination was the only one made from the floor.

Discussion of business, introduction of the executive board, formal Mortar Board pledging, and discussion of plans for cheering at home games, interspersed with pep band music, comprised the program of the morning. Frank Click, Lewiston, president of the associated students, presided.

Harmon is a junior in the college of engineering and is majoring in electrical engineering. No additional nominations were made for associate editorship to the Blue Bucket, and the nomination of Smith Miller and Harmon will be voted upon at the A. S. U. I. election next Wednesday.

Mortar Board Pledges Miss Ada Burke, instructor in the English department, was formally pledged to Mortar Board, senior women's honorary, at the beginning of the assembly. Members of the society were present in cap and gown for the ceremony.

George Yost, vice-president, Josephine Brossard, secretary and other members of the executive board—Aldon Tall, Alice Waldrop, Lucile Eaton, Mildred Perry, Burton L. Moore, and Murtha Clite, were introduced to the assembly.

The pep band under the direction of Sam Hutchins played a number of selections during the assembly, their first public appearance this year.

Stanley A. Easton Visits Stanley A. Easton, member of the Board of Regents, stopped in Moscow Wednesday for a few minutes and called on President A. H. Upham. He was on his way to central Idaho to inspect some mining properties. Mr. Easton has been a member of the Board since 1921.

THE "KID" SITUATION

Handling of kids at university athletic events has developed into a real problem. A feasible solution has been offered by the yell leaders and this experiment will be given a trial at Saturday's game with Whitman.

The kids seem to have the impression that when contests are half over it is their signal to take the field and perform for the audience. At each contest, as the teams leave the field at half time, the kids swarm onto the field and do their stuff.

It is probably true that some of the pranks pulled off are clever and perhaps funny, but for most of those in the stands this kind of entertainment soon becomes stale and entirely out of place. It is of no use to try to keep these youngsters in the stands, for they are like so many wild colts running around.

The method of detaching members of the Intercollegiate Knights to watch over the youngsters and attempt to keep them off the field, has been tried. But it would take most of the R. O. T. C. to succeed with this method to any extent whatsoever.

Porter and Siggins have suggested that a special section in the stands be provided for the kids and to admit them free provided they remain in this section. This system is worked at other schools and good results are obtained in that the youngsters lend their aid to the cheering. Another thing is that when the kids are given a section to themselves, they will take a little of the responsibility of helping win the game upon their own shoulders and by playing upon their ego, they will be easier to handle. Kids have lots of pep and with a little training they will help materially in the rooting.

The most difficulty, with respect to the youngsters, is experienced at basketball games when they insist on getting onto the floor between halves. University students help this along a great deal when they throw pennies and other coins on the floor for the kids to fight for. The gym floor is in none too good condition as it is and when the kids get through sliding all over the floor trying to rescue a penny or a nickel, it is in no condition at all for playing.

DISILLUSIONED

Four weeks of the first semester of this school year are practically over and six weeks examinations are fast approaching. To some students who came to the Idaho campus for the first time this fall, there have come sad disappointments. College hasn't turned out to be everything that it was pictured—in fact the picture left out almost entirely the one important thing, that being studies.

Many freshmen came to Idaho with the impression that studies come at the bottom of the list of activities. It wasn't entirely their fault that this was the picture presented them. Idaho students, in talking some freshmen into coming here for his higher education, pointed out the extra-curricular features of college life and merely indicating that one must keep within the scholastic limits set by the university in order to enjoy these other pleasures.

Idaho has one of the highest scholastic ratings of universities on the coast and this rating must be maintained. This cannot be done if studies are placed under extra-curricular activities. The university has no place come sad disappointments. College means.

A number of freshmen entering this fall were required to do so on probation. This means that unless they come up to the standard of the university at the end of the first six-weeks period they will be dropped from school. Those not entering on probation are given an extra six weeks, if they go on probation at the end of the first grading period. With the nearing of examination

week, the best suggestion is to hit the books.

LATIN AND GREEK ARE REVIVED

Contrary to popular opinion, the classic languages, Latin and Greek, are becoming more and more popular the older they get. No longer are they considered the "dead" languages. Today they are taken by more students in the high schools of this country than all the other foreign languages together. More than one and one-fourth million students are now studying Latin in the high schools alone.

New words in the English, French and German vocabularies as well as new words in other languages are constantly being derived from Latin or Greek words. Some examples of creations in English are "indestructo," "vitaphone," "vitatonic," "rectifier," and "radiola."

Part of the reason for the new interest taken in the classical languages is due to the new methods of teaching that are being employed in those subjects. Modern things are being brought in to compare with the Latin and Greek. The influence of the Latin and Greek is being studied much more than it used to be, and the language in each case is being approached in a new manner.

These new methods have been introduced as a result of a survey of the methods of teaching classical languages in the United States. The survey was nation wide, and was one in which several thousand persons took part. Most of the change in teaching methods and the increase in the popularity of the languages has taken place in the past five years.

—University Daily Kansan.

Student Opinion

To the Editor of The Argonaut: It may be said with a perfect certainty that there is no higher institution of study in the world where there is no cosmopolitan organization. Same is true of all the universities of the United States of America. One may question what is the necessity of having such an organization at universities.

It would be unwise to go into a detailed discussion of the necessities and function of these clubs. Suffice to say that those who realize their necessities and are able to appreciate their values are fully aware that they are the most requisite organs that every university must have.

Their foremost function, as their title indicates, is to increase the mutual understanding and to create friendship among the students of various nations. Perhaps these are the only clubs where the foreign students can have a sociable opportunity to associate with the native students.

The achievements of cosmopolitan clubs are really praiseworthy. Those who have been in contact with them have a fair estimate as to how much they contribute in bringing about the world peace, for which all nations of the world are striving.

With such purposes in mind there exists a cosmopolitan club on our campus. It is here that wide international affairs are discussed deliberately and openly. All students of the university and members of the faculty who love universal brotherhood of mankind and the really interested in international affairs are welcomed to the club.

I hope that we (the foreign students) shall not go back to our motherlands from this university with the impression that "They did not care about us". We hope that this university shall provide us with glorious examples to be carried to our homes.

—H. S. D.

FAHRENWALD WILL REMAIN AT IDAHO

Although no official announcement has been made, it is understood that A. W. Fahrenwald, ore dressing engineer for the United States Bureau of mines stationed at Moscow, has declined an offer from Stanford university and will continue his work here with the Idaho school of mines. Mr. Fahrenwald recently returned from a trip to Palo Alto, which was taken relative to a similar position at Stanford university. Mr. Fahrenwald is engaged in research work on flotation problems and other phases of the metallurgical field.

IDAHO ALBERT

Starting with this issue, Idaho Albert will conduct a "Tips to Social Climbers" column designed to help fresh who are missing out on campus social life.

These "tips" from the "old master" are positively guaranteed to make the greenest frosh a polished Bean Eater if followed carefully.

TIP NO. 1.

The informal introduction at the Nest.

Although this form of introduction is very informal, still the well-mannered Bean Eater recognizes that a certain procedure has grown out of tradition.

Let us say that the desirable, co-ed is parked in booth 3 when our hero breezes in.

The well-informed frosh will stop, look the lady over, take one puff from his Old Gold (never more than one) and say—

"Well—hello baby,—where was her when you broke out?"

"Never mind where I broke out, and lay off the smart cracks,—Who's who are you anyway?"

This will call for a delicately worded answer in order to get the dirty work over quickly.

The correct answer is—

"Say, babe, ain't you never read about me? Don't you get the papers?"

"Well, I ain't but I'm a guy who looks quite a bit like me."

This, or a similar answer will give her the impression that you are probably no less than the Prince of Wales.

You may now say, "Move over babe and I'll have a coke with you."

You are now ready to give her your sales talk.

MERCHANTS LUNCH

Two Bits Choice of

Ham— Ram —Lamb— Mutton— or Sheep.

Coffee— java— Draw one— or Muddy Water

The height of all co-ed's ambition, —To get in the Nest after midnight.

Bright sayings of the children!

Little Butch Boyer, age 16, when asked whether he liked the P Sigs or the Gamma Phis best, answered— "I'd decent a Beta but thank God I might—I won't wear long hair."

Today's candidate for Phi Beta Kappa.—The Thirty-one who thinks the Zoo Prof. combs his hair with a Gillette.

ALUMNI NOTES

The school of education has been successful in securing positions for its graduates, several students having been placed, it has announced Thursday.

Chang Yu Chang, one of the best known oriental students on the campus last year, has returned to his home in China to take up educational work there.

Gertrude Drissen was offered a splendid position in the East but illness prevented her from accepting. She is resting now till the second semester.

Clement Slevers, after receiving his

master's degree went to Stanford to work toward a doctor's degree. At present he is a professor in the College of the Pacific at Stockton, Calif.

Gertrude Walter accepted a position in Bellingham normal school but illness made it necessary for her to resign.

Johnny Miles, all-Pacific coast last year, was offered a position in California, but it is not known whether or not he has accepted.

Irene Costello, the senior who was injured last year in the senior sneak, has been removed from the hospital in Seattle to the Waldorf Hotel where she is taking treatments. In a letter to Dean Messenger she stated that she is slowly recovering from the accident which nearly cost her life.

Philip T. Christen, graduate of the school of business administration in 1925, is manager of one of the larger units of one of the national corporations, according to a letter received by Dean H. C. Dale.

Christen writes: "After a check-up a few years ago we found that 90 per cent of our production was bread, so our company opened a new field in pastry work. Eighty percent of this field is yet untouched and offers a wonderful opportunity. We added a woman to our staff and have increased our variety of cakes and pies from four to 25."

"I have obtained great results from issuing a bulletin every night criticizing and praising work for the day. When someone gets bawled out where everyone else can read it he is not so apt to repeat the offense, and also any recognition of good work is an incentive for more. Our plan is to put in a new type of standard stores in towns all over the country and then do some concentrated national advertising."

Lawrence Pugh, forestry ex-'25, and R. H. Johnston, forestry, ex-'27, were callers on the campus yesterday.

At the petroleum division meeting of the A. I. M. E. at Fort Worth, Texas, October 19, 1927, Edwin V. Foran, '21, will deliver a paper on "Mechanical Installations for Air-Gas Lifts in Texas Oil Wells", according to word received here. He will be remembered as a "southpaw" on the Idaho baseball squad of 1920 and 1921.

Otto A. Hueftner, a graduate of the Idaho school of mines last spring and Cecil Balkow, a graduate in electrical engineering are working for the Angus Research Corporation in northern Washington on radio prospecting for minerals.

SCARLET FEVER PATIENT IS GAINING STRENGTH

Harold Waters, sophomore, of Cottonwood, who is in the infirmary with scarlet fever, is getting along very nicely, according to Miss Edna Peterson. Members of Tau Kappa Iota, of which Mr. Waters is a member, were in quarantine last week and were released Monday. All members were vaccinated.

CHAPEL NOT COMPLETED AT ROCHESTER

Rochester, N. Y. (IP)—Compulsory chapel has been abolished at the University of Rochester by action of the board of trustees of that institution. In place of the required chapel, services there will be held two weekly meetings of the students, both voluntary. One will be of a religious purpose, and the other for the transacting of student government business.

Hays Hall Is Kept Incognito, For No Opening Date Set!

Hays hall must keep on being inconspicuous for an indefinite length of time, it appears, with no date set as yet for formal opening. Until that time it must remain in the background.

The incomplete interior decorating of the new \$100,000 building is given as the reason for the delay. There has been some difficulty in obtaining the proper drapes for a portion of the new hall, and some electric light fixtures are not installed. It was first thought that the opening would be held as soon as Miss French returned from a south Idaho trip.

A number of shades yet remain to be placed on several of the standing lamps. As yet the hall has not been provided with a piano, and no opening can be made without a piano!

A formal evening reception will be held in lieu of an afternoon opening. It was first planned to have dancing in the dining room, but a change in the dining room has made this impracticable.

ELDRIDGE TO SPEAK

"Student Life Abroad" is the subject of a talk to be given by Dean J. G. Eldridge at the meeting of the Cosmopolitan club Saturday, October 15, 7:30 o'clock in the U-hut.

Short talks on the same subject will be made by foreign students of the university.

A musical program will be furnished by Filipino students. Part of the evening will be devoted to social activities.

Lawrence Pugh, forestry ex-'25, and R. H. Johnston, forestry, ex-'27, were callers on the campus yesterday.

At the petroleum division meeting of the A. I. M. E. at Fort Worth, Texas, October 19, 1927, Edwin V. MISSOURI VALLEY CONFERENCE ENDS

Six Leading Schools Withdraw to Start New Conference

Lawrence, Kans. (By Intercollegiate Press and Daily Kansan)—The withdrawal of the six leading institutions of the Missouri valley conference has brought to an end one of leading athletic organizations of the middle-west. The valley has played an important part in athletics and has given a good account of itself in all inter-sectional contests.

A preliminary meeting for the organization of an athletic conference was held Jan. 12, 1907. The organization was perfected in February of the same year, with Washington University, and the Universities of Kan-

sas, Missouri, and Iowa as the first members. In 1908 Iowa State, Colorado, Drake and Oklahoma became members. Still later Nebraska joined the organization. In May 1911 Iowa withdrew to become a member of the Western Conference.

Kansas State Agricultural college became a member in 1909, Grinnell in 1918, and the University of Oklahoma in 1919. The next year Oklahoma took the conference championship. Oklahoma A. ann M. became a member in 1925 and the next year that school took the conference championship.

Notice was served on Sept. 24 of this year by Nebraska, Oklahoma, Missouri, Kansas, the Kansas Aggies and Iowa, state, that with the end of the present school year they would withdraw from the conference. They will form a new conference.

Ag Bawl

The hectic social whirl has now begun and the dates on the social calendar are rapidly being filled. Pledge dances are in vogue now as well as the dinners given by the various sororities and fraternities in honor of sisters and friends.

As something new and different, there is the Ag Bawl Saturday evening to which every one will come looking his or her worst in "hick" clothes. We are anxious to see if the fair co-eds will comply—the award offered to the most representative couple will be the inducement.

Fifteen sisters of Beta Theta Pi were guests of the fraternity at an annual dinner given in their honor at the chapter house Wednesday. The guests were: Misses Lynn Johnson, Pauline Hackaday, Catherine York, Alene Honeywell, Bernice Turner, Mildred Hausen, Virginia Whittier, Elizabeth Simpson, Grace Parsons, Helen Jensen, Lucille Eaton and Frances Stanley.

Phi Delta Theta entertained in honor of its sisters Wednesday evening. Those present were Mrs. McCoy, Elinor Jackson, Corona Dewey, Marion Dumvill, Virginia Cornell, Helen McGirr, Virginia Nell, and Virginia Alley.

Sigma Chi entertained in honor of its sisters at dinner Wednesday. Guests were Capatolla Davidson, Jean Rawlins, Helen Douglas, Helen Young, Audrey Randall, Evelyn Sheehan, Frances DuSault, Geneva Dyer, Elizabeth Murphy, Leah Tuttle, Inez Azcuena and Evelyn Styner.

Dinner guests of Gamma Phi Beta Wednesday were Dean and Mrs. J. G. Eldridge, Dean and Mrs. L. C. Crawford, Dean and Mrs. H. C. Dale, Dean and Mrs. F. G. Miller, and Dr. and Mrs. H. L. Axtell.

Complicating their housemother, Mrs. W. H. Trenner, Kappa Alpha Theta entertained at tea Saturday afternoon, October 8. In the receiving line were: Mrs. Trenner, Mrs. H. L. Axtell, Mrs. T. S. Kerr, Miss Mildred Perry and Miss Helen Voak. Mrs. Lenore Scott, Mrs. V. K. Kirkham and Mrs. J. G. Eldridge poured.

Dinner guests Wednesday evening at the Kappa Alpha Theta house were Prof. and Mrs. Theodore Kratt, Mr. Charles Erb, Dean J. F. Messenger and his sister, Dr. Harriet E. Messenger of Pasadena, California.

Maurine Godfrey, Spokane, was a guest at the Kappa Alpha Theta house last week end.

Beta Chi dinner guests Wednesday evening were: Nita Pitsch, George Anne Brown, Elizabeth Eastman, Mary Thomas, Josephine Hargreaves, Mrs. W. G. Cox of Everett, Wash., Madeline Yeo and Jack McNamera were dinner guests of Pi Sigma Rho Monday.

The sisters of Kappa Sigma entertained at a supper given in their honor, Wednesday evening. Those present were: Louise Dunlap, Ava Sullivan, Julia Hunter, Mary Murphy, Florence Sampson, Marion McGonigle, Nell Turner and Elva Pierson.

Miss Neva Rice was a dinner guest at the Kappa Alpha Theta house Monday evening.

Anne Day and Vivian Mosher were Sunday dinner guests of Kappa Alpha Theta.

Charlotte Smith, who spent several days at her home in Spokane, returned Monday evening.

Kappa Sigma luncheon guests Thursday were: Colonel E. R. Christian, Capt. B. M. Crenshaw, and Lieut. Chas. H. Hart.

Francis Fortfuss was a dinner guest of Delta Chi Wednesday.

Lambda Chi Alpha dinner guests Wednesday were Dr. H. R. Smith and Prof. G. L. Luke.

land, Dorothy Hirschman, Eunice von Ende, Ruth Garver and Mrs. Fudge.

Arthur Perry was a luncheon guest of Kappa Sigma Monday.

H. Thompson, Spokane, was a dinner guest of Sigma Chi Tuesday.

Prof. and Mrs. Theodore Kratt, Dr. and Mrs. R. D. Russell, and Mrs. Margaret Sargeant were dinner guests of Sigma Alpha Epsilon Thursday evening.

William Felton was a dinner guest of Phi Delta Theta Tuesday evening.

Alpha Tau Omega dinner guests Tuesday were: Messers. Cheyne, Nuttli, Yost, Berglund, James, Peterson, Kerns, Higgins, Steele.

President and Mrs. A. H. Upham were dinner guests of Omega Alpha Wednesday evening.

Elsie Warm was a guest of Omega

Alpha at dinner Tuesday evening.

Mr. and Mrs. Harry Brenn, Beulah Brown, Eva Litzberger, Ruth Smith, and F. Craig were Sunday dinner guests of Alpha Tau Omega.

Dinner guests of Sigma Alpha Epsilon Tuesday were: Messers. Shook, Samuels, Michaels, Sorenson, Ruchtblid, Clarence Layne, Frost, Claude Layne, Crause.

Martin Herr, national traveling secretary of Phi Gamma Delta, and Dr. George Morey Miller were dinner guests of Pi Sigma Rho Thursday.

The following brothers of Delta Gamma were entertained at dinner Thursday night: Walter Young, Kenneth Tipton, Howell Hall, Gils Kelcey, Harrison Simpson, Paul Gowen, Arthur Peavey, Dick McGirr, Con Dewey, Jay Taggart, Frank Leute, and Wm. Shamberger.

Sigma Nu entertained Tuesday evening in honor of ten sisters, most of whom are on the Idaho campus. They were: Agnes Bowen, Elizabeth Dunn, Viola Diehl, Dorothy Messenger, Frances Anderson, Mary Oming, Alice Wang, Betty Stalker, Virginia Allay, and Merce Cornelison.

Thursday dinner guests of Beta Theta Pi were Mr. and Mrs. Leland Scott, of Boise, Mr. Bob Naylor, of Boise, and Miss Jessie Little of Moscow.

Leland Scott, Boise, with his wife, the former Miss Billie Upayke of the same city, have been spending a few days of their honeymoon as guests of Beta Theta Pi. Mr. Scott is a son of Mrs. Lenore Scott, housemother of Beta Theta Pi.

Patrick Richards was a dinner guest Thursday evening at the Sigma Nu

Sunday dinner guests of Delta Gamma were Pauline Bielec and Grace Shellworth.

Mary Alene Kelley of Coeur d'Alene is a house guest of Delta Gamma.

GREEK VS. GREEK DEBATES STARTED

Five Debates Run Off in Two Sessions Tuesday and Thursday

Lambda Chi Alpha and Daleth Teth Gimel held Thursday evening, with Kappa Kappa Gamma and Sigma Nu automatically eliminated through default, when neither team appeared.

Lambda Chi Alpha defeated Kappa Alpha Theta on the question "Resolved: That All University Final Examinations Be Abolished." Charles Fowler and Lincoln Shropshire represented the winning negative and Evelyn White and Gae Barth the affirmative.

Daleth Teth Gimel defeated Gamma Phi Beta on the question: "Resolved: That Coeducation in Institutions of Higher Learning is a failure." Members of the Daleth Teth Gimel affirmative team were Helen Anderson and Jean Jones, while the negative was represented by Edna Rice and Margaret Benham. Judges were Miss Hildegard Wanous, Miss Margaret Barry and Prof. Arthur S. Howe.

Pi Sigma Rho, Kappa Sigma and Beta Theta Pi were winners of the first intramural debates of this year, held last Tuesday evening in room 206 Administration building. Pi Sigma Rho, represented by Gladys Locke and Alice Stamm, defeated Ridenbaugh hall, represented by Wesley Boise and Clayton Loosle. Gordon Kershaw and Harold Wayland, Kappa Sigma, defeated Hays hall, represented by Aley Raymond and Ada Henry. John Patrick and James Allen, of Beta Theta Pi, won from Alpha Tau Omega, represented by Dewitt Higgs and Harold Niczel.

The next series of debates will be held Tuesday evening, October 18, at 7:15 o'clock in room 206 Administration building.

Phi Delta Theta, affirmative, will debate Delta Gamma, negative, on the question, "Resolved, That the Honor System Be Established in Conducting Final Examinations of the University." Beta Chi, affirmative, will debate Delta Chi on the question, "Resolved, That Compulsory Military Training in Colleges and Universities Be Abolished."

Phi Gamma Delta, affirmative, will debate Alpha Chi Omega, negative, on the question, "Resolved, That All Juniors and Seniors Be Exempt From Compulsory Attendance at University Classes."

The following debates are scheduled for Thursday evening, October 20: Lindley hall, affirmative, vs. Tau Kappa Iota, negative, on the question, "Resolved, That Participation of Students in Athletics Be Limited to Two Sports a Year."

Sigma Alpha Epsilon, affirmative, vs. Forney hall, negative, on the question, "Resolved, That The University Should Prohibit Student Ownership of Automobiles."

CONCRETE POURING PROGRESSES FAST ON NEW GYM

the chute to the place where it is needed. The cement goes down the chute by means of the force of gravity. Because the cement runs down the chute, it becomes much smoother than if it were carried in a wheelbarrow and makes a better job. The entire system saves the labor of

OLDEST GREEK PIN IN U. S. IS FOUND

Thornbury, Pa. (IP)—The oldest fraternity pin in America, presented by William and Mary's college of Virginia in 1776, is the possession of Joseph Brinton, of this city.

The pin was plowed up on the Brinton estate near Brandywine Creek, Chester County, Pa., the battlefield on which General Washington outmaneuvered General Howe and where the Marquis de La Fayette was severely wounded.

The pin is of the old watchkey shape familiar to college men as the insignia of Phi Beta Kappa. On one side it bears the name, "John Graham", with the date of the founding of the fraternity, Dec. 6, 1776.

Investigation at William and Mary's brought to light the fact that John Graham was graduated from there and left to join the Revolutionary Army in 1777. He disappeared about eight months later, and the finding of his pin on the battlefield indicates that he must have died on the battlefield.

Start O. A. C. Union Building in Spring Oregon State College, Corvallis, Oct. 13. (PIP)—Brick work on the memorial union building will not be started until good weather next spring. This will not delay work on the building which is to be completed by August 1, 1928.

10 men. Ordinarily, six men would be needed to tend the mixer and six to wheel the cement. As it is, one man measures out the proper amount of materials and another runs the levers that control the working of the mixer. It requires one and a half minutes to mix a batch of cement and 45 seconds for the cement to get from the top of the chute to the forms.

At the present, only one sack of cement is being mixed at one time. A new motor is being installed to run the mixer and, when the power is furnished to handle a bigger load, the mixer will produce twice as much without any added labor. It will be possible to pour all of the cement from the distributing tower that is now used.

Excavation work for the foundation is about two-thirds completed. About 19 men are now working on the building and it is expected that the crew will be doubled next week.

MUSIC HONORARY HOLDS ELECTION

Sigma Alpha Iota Officers Named Tuesday

Josephine Harland was installed as the new president of Sigma Alpha Iota, national music fraternity, at the last meeting of the society held last Thursday night at the studio of Miss Jonnie Johnson, province president.

Other new officers installed at the same time are: Helen Peshak, vice-president; Eleanor Beamer, secretary; and Mary Mable Morris, editor and publication chairman.

Plans are being made by the fraternity to entertain Miss Hazel Ritchey of Lincoln Nebraska, S. A. I. national president, and Miss Winifred Quinlan, of Seattle, national secretary, who will visit the Idaho chapter of Sigma Alpha Iota October 24 and 25.

ENGINEERS VISIT CLEARWATER DAM

Students Inspect New Power Project at Lewiston

Fifteen electrical and civil engineering students motored to Lewiston Tuesday to inspect the newly constructed dam and power plant on the Clearwater river. Dean O. Crawford, of the college of engineering, and Prof. J. Hugo Johnson accompanied the party.

The morning was spent in going over the engineering developments included in the new project. In the afternoon the party visited the adjacent Clearwater Timber Co. mill. G. W. Hewett, resident engineer for the Phoenix Utility company a subsidiary of the Electric Bond and Share company of New York, is promoter of the development, have the construction contract.

The trip in the opinion of Dean Crawford gave the students a chance to view and study some of the modern engineering equipment in the country.

DAHM ELECTED PHI BETA HEAD, FRIDAY

Dr. Thomas Matthew Dahm, assistant professor in the department of physics, was elected president of the

Idaho chapter of Phi Beta Kappa, national honorary fraternity scholarship fraternity, at a meeting Friday night.

Other officers who were elected were: Prof. Eugene Taylor, professor of mathematics, vice president; Dr. F. C. Church, professor of European history, secretary; Miss Pauline Mitchell, assistant in the romance language department, treasurer. Beulah Brown and Herbert Wunderlich, both of St. Maries and seniors in the college of letters and science, were elected councillors two weeks ago.

### FROSH HAVE THREE LEFT ON SCHEDULE

Next Game is Slated With Montana Cubs; W. S. C., Cheney Follow

Three games remain to be played on the freshman football schedule. The next one is slated with the Grizzlies Cubs of the University of Montana, at Missoula, October 22, and the other two will find the Vandals rooks playing on their home field with W. S. C. and Cheney.

Little pre-season dope is available on the Montana frosh, but a stiff battle is expected. Two years ago the Vandals made the trip to Missoula where they were defeated by a small margin but last year the class of '26 avenged the defeat on the home grounds. Whether the yearling club of this year will be able to keep last year's slate clean remains to be seen.

On November 5 the yearlings of our ancient rivals, the W. S. C. Kittens will invade the Idaho field. Last year the Cougar cubs were victorious on the away grounds.

### BACKFIELD MAN AFTER OLD JOB

Walmsley, Triple-threat Back, Returns to School; Works With Varsity

Idaho's football team was given the addition of a 150 pound triple-threat back in the return to school of Wilfred Walmsley, of Parma who was on the bench almost all of last season due to injuries. As a freshman his playing was consistently good and he had a regular position in the backfield.

If he is able to kick as he has done in the past he will very likely alternate with Burgher at the punting job. His punting, passing and packing will be of value to Idaho for the remainder of the season as the Vandals can make good use of a triple threat back. Walmsley has been out for practice all this week and may get into the starting lineup of the game, Saturday afternoon against Whitman.

### SPURS ELECT AT MONDAY MEETING

Ruth Newhouse is President, Agnes Moore Vice-President, Dorothy Fredrickson, Secy-Treas.

Ruth Newhouse, Kuna, in the collection of letters and science, was elected president by the new Spurs, honorary sophomore women's fraternity, at a meeting Monday night.

Agnes Moore, Gooding, and Dorothy Fredrickson, Malad, were chosen vice president, and secretary-treasurer, respectively.

Twenty-two new Spurs were initiated a week ago. The electoral meeting was the first of the new group.

### DIFFERENT LINE OF ATTACK FOR WHITMAN GAME

(Continued from page 1)

of last year. Gonzaga was barely able to notch a 7-0 victory over the Missionaries last Saturday and Linfield college fell before them 12 to 0, the previous week. Oregon won from Linfield 7 to 0.

Whitman Strong  
The Whitman eleven is said to be built around Captain Meckleson, half-back; Wayne Warwick, tackle; and Clark Eckert, halfback. These three men have been outstanding in play this season and are the trio on which Whitman will pin its strongest hopes Saturday afternoon.

The strength of the Whitman line is shown by the fact that in the closing minutes of play against Linfield, with the ball on Whitman's eight-yard line and four downs to make goal in, the Linfield backs were unable to make more than four yards in as many tries. The Gonzaga eleven was forced to change its attack from the line to the ends and passes and found going rough even then against the Missionaries.

A definite lineup has not been announced but it is indicated that the starters of the Oregon game will be on the field at the kickoff Saturday afternoon.

Tentative lineup: Idaho vs Whitman

Price	L. E.	Flelds
C. Hutchinson	L. T.	Caley
G. Diehl	L. G.	McKeller
Kirkpatrick	C.	Napier
Brimhall	R. G.	Lindman
C. Diehl	R. T.	Warwick
Burgher	R. E.	Schiller
Jacoby	Q.	Anderson
Hutchinson	L. H.	Meckleson (Capt)
Hult	R. H.	Eckert
Kershisnik	F.	Neilson

A general call issued to all men interested in rifle marksmanship will soon be sounded. A schedule has been posted on the bulletin board of the military department for all men intending to try their fortune with a Springfield stating the most preferable days to appear on the range. Intensive practice will not begin until the first of November. The most suitable days for men's rifle team practice is attempting to be solved at this time, stated Lieutenant Hart, officer in charge of the marksmen's tryouts.

A duplicate of last year's success is trying to be brought about. In previous years this unit has had great success in competitive marksmanship with other college units of the Ninth Corps Area, and also in telegraphic shoots with other teams all over the country. With the material to pick from the University's rifle team should be quite triumphant. This summer at camp, the R. O. T. C. division of Fort George Wright, Idaho was very fortunate in having five men who qualified in the upper strata of rifle shots.

### GIRLS SHOWING GOLF INTEREST

May Use MacLean field for morning Practice; course ready in Spring

With Charlie Erb's promise of MacLean field during the morning and with use of the new Moscow course after next spring, University of Idaho women plan to take up golf in earnest.

A number of girls have expressed intentions of wanting to start a "golf class" and if sufficient interest is shown the sport undoubtedly will be recognized among the numerous women's activities.

Practice this fall will put a number of girls in trim for the course next spring, it is pointed out.

### BUY YOUR I CAP BEFORE GAME

No One Should Attend Games Without Traditional Dome Piece

There are eyeglasses and "I-lids". Everyone has two perfectly good eyeglasses, which usually function. Of course, they sometimes show a tendency to remain at ease toward the middle of a lecture hour. This fact, however, is beside the question. Eyeglasses are common. "I-lids" are uncommon. One has to be an Idaho student in order to have the privilege of wearing one. Ever think of that?

For a paltry sum one might secure one of these becoming little dome decorations. Every new student should get one—every old student should already have one. No college man needs to be told that lapels this fall are wide, ties striped and very loosely knotted, and trousers voluminous. The women also know what is being worn. "I" caps are being worn.

### WALKER SELECTED ON BLUE BUCKET STAFF

(Continued from page 1)

ephine Brossard, secretary, Lucile Eaton, George Paulson and Martha Cline, senior representatives; Alice Waldrop, Aldon Tall, junior representatives, George Horton, graduate manager, Horace Porter, yell king, Mildred Perry, ex-officio member representing the associated women. The dinner will be served in the Green Lantern at Pullman.

Meet Tuesday  
The regular meeting of the board will be held Tuesday evening, Mr. Click announced Thursday, due to the fact that bids for the printing of the Gem of the Mountains, yearbook, will be opened at that time as advertised. Representatives of the various printing firms receiving specifications will be here to attend the meeting and submit their bids.

With the nominating of Leonard Harmon for position of junior man on the executive board, at the assembly Wednesday, the general student body special election will be held Wednesday October 19, Smith Miller, who was nominated for the office of associate editor of the Blue Bucket last week, will be placed on the ticket at the special election. These are the only two vacancies to be filled.

### HARVARD AND PRINCETON HAVE ALUMNI GAME

New York—(IP) Alumni of Harvard and Princeton, all former football stars in college days, are planning an "inter-alumni" football game between the two universities in an effort to heal the athletic breach between the institutions. Some of the most famous players from both schools are on the tentative lineup for the game. The game will be played in Yankee Stadium here on October 30.

### CO-EDS MEET ENGLISH-MEN IN DEBATE

Springfield, Ohio—(IP)—Something new in international intercollegiate debates will be inaugurated here on December 1 when the Co-ed debating team of Wittenberg college will meet an English men's debate squad made up of a Welchman, a Scotchman and an Englishman.

Resolved, that co-education is a failure will be the argument that the foreigners will support, while the co-eds will defend their own side of the question.

### PROMINENT FORESTERS VISIT IDAHO CAMPUS

W. D. Humingston, assistant general manager of the Potlatch Lumber company at Potlatch, Carl Stevens, consulting forester from Portland, and Donald Bruce, of the forest service from Washington, D. C. were business callers at the school of forestry Monday.

### "Puffed Chips" Is Step in New Manufacturing Process for Insulating Boards

An exploding process whereby waste products in sawmills may be utilized for insulation and plaster boards has been invented at a mill at Laurel, Miss. It was announced by the forestry department today.

The process is a boon to the lumber business not only as a solution to the problem of utilizing waste material, but also as a time saver in the manufacture of insulating boards, and the finished product rivals natural wood in strength.

Waste wood is run through a chipping machine, screened, and fed into a heavy steel cylinder. The chips are steamed, then subjected to high pressure for a few seconds. A valve is suddenly released and the wood is exploded much in the same manner that rice is "puffed". The pulp produced is conveyed on rolls through presses and made into the board material. But 40 minutes are needed for the entire process of manufacture.

That smile of satisfaction follows a visit to the Idaho Barber Shop. Adv.

### GIRLS TURN OUT FOR VOLLEYBALL

One Hundred Answer First Call; Practice Started Monday

More than 100 girls turned out at the first call for volley ball this week, when practices were begun in Lewis court Monday afternoon.

Volley ball is the first major sport on the W. A. A. fall program. If a sufficient number of girls turn out both the first and second teams will be chosen from each of the four classes. This will permit a girl to earn 100 or 50 points toward her sweater. Six seniors, 24 juniors, 31 sophomores, and 41 frosh have attended practices so far.

Coach Fundamentals  
The groups are coached in the fundamentals of handling the ball before playing the game on the regulation court. Practices will be held out of doors when weather permits; otherwise, in Lewis court.

Seniors and freshmen meet at 4:15 Mondays and Wednesdays; juniors and sophomores meet at the same hour Tuesday and Thursday afternoons. There is still time for any girl interested to complete the required minimum of nine practices if she starts the beginning of next week. Seventy-five percent attendance at coaching hours is essential for eligibility to teams.

All theory classes, swimming classes, and sports in the department of physical education for women began Monday, October 10. The beginning, advanced, natural gymnastic, and dancing classes will begin Monday, October 17.

### THREE DEANS IN ROUTE SURVEY

Mines, Forestry and Agricultural Heads Compiling Data on Snake River Route

Dean Francis A. Thompson of the school of mines, F. G. Miller of the school of forestry and acting Dean C. W. Hungerford of the agricultural college, are compiling facts, information and statistics relative to resources along the proposed route of Lewiston-Homestead rail route up the Snake river.

Hearing on the matter is to be made before the Interstate Commerce commission at Lewiston, probably some time this year. The three deans will present the material before the commission at that time.

The proposed rail route is considered one of the best unifying factors possible in bringing north and south Idaho together.

### ALL SAINTS' EVE AT CO-ED PROM SOON

Spirit of Hallowe'en to be Carried Out at Dance

The Hallowe'en spirit will be carried out in the decorations of the annual Co-ed Prom which will be given at the gymnasium, Saturday, October 23, according to Ella Waldron, chairman of the decorations committee.

A grand march, songs, stunts, and special dances will be features of the evening.

Fashions of every day and age will be represented at the dance where faculty women and university girls will with one another for the prize of the most original or best costume.

The prom is sponsored by the Home Economics club.

to  
Clare Gale's

BLUE BUCKET ORCHESTRA

at the  
Blue Bucket Inn

from 8:30 to 11:30

Admission \$1

### VANDAL VIMS

Critics are giving Idaho the edge on the Whitman eleven and odds are slightly in favor of the Vandals but that Whitman will prove to be no easy mark is indicated by her past performance this season. On paper on the basis of comparative scores she has an advantage over Idaho. If she could pile up a larger score against a team that Oregon barely won from and Idaho was tied by Oregon, then the Missionaries should beat the Vandals.

The fallacy in trying to dope football games is that team spirit, "fight" that wins the ball games regardless of the odds. Breaks of a game will

sometimes turn victory into defeat but the team that has the most grit usually gets the credit for a victory.

We call it "pep" the highbrows call it "potentiality" and our grandfathers called it "get-up" but what ever it is, it is a necessary quality or ingredient for any athletic team.

It was that quality that enabled little Centre College to defeat teams of big three conference and it is the spirit that Coach Erb has been instilling into his men, the spirit that they have been manifesting more than ever this week and the spirit that will win games the rest of the season.

For Sale—A good used car. A bargain. Call Room 37, Morrill Hall. Adv. 8-9

### Are They Neck-tired?

Give your collected cravats the once over. Sort out the spotty ones, the wrinkled, crinkled, necktired ones...

And then don't give them to the janitor! Send them to us for dry cleaning! They'll come back to you clean and glossy—ready for a long-continued life of colorful necking!
