

The Idaho Argonaut

VOLUME XXX

UNIVERSITY OF IDAHO, MOSCOW, MONDAY, SEPTEMBER 22, 1928

Citizens Assembling For President's Inauguration

"Strictly State Affair" Will See Induction of Dr. Frederick J. Kelly to Office This Afternoon

Visitors from all parts of the state are expected to attend the inauguration ceremonies for Dr. Frederick J. Kelly, new president of the University of Idaho, which will be held in the auditorium this afternoon and tomorrow morning.

The proceeding will be of state wide interest instead of a formal academic nature customary to such occasions. Junior and senior university students have been invited to attend the ceremonies which begin with an academic parade into the auditorium at 4 o'clock today.

Dr. Kelly will deliver his inaugural address this afternoon, and will outline his views on higher educational problems. It is thought that he will stress the point that students come to the university to educate themselves, not to be educated.

Dr. D. L. Coffman, president of the University of Minnesota, and recognized as one of the leading educators of the country, will be the principal speaker at the exercises tomorrow morning.

Many Are Invited
Citizens from all parts of Idaho have been invited by the inauguration committee to attend the ceremonies. Numbers of them arrived yesterday and this morning in auto caravans that followed the North and South highway. Special rates were granted by the railway companies from south Idaho and many who were attracted by the inducement will arrive today.

Registration of old students will cease at 3 o'clock, enabling juniors and seniors to attend the exercises at 4 o'clock. Governor H. C. Baldrige, members of the board of regents and distinguished representatives from institutions of higher learning in the northwest will be included in the academic parade and will occupy the stage with the inaugural group.

Inaugural Banquet Tonight
Three hundred and fifty guests have been invited to the inaugural banquet to be held at the Elk's temple tonight at 7 o'clock. Out-of-town guests, faculty representatives and club members will attend, the limitation being necessary because of limited capacity of the banquet hall. Stenley A. Eeston, chairman of the executive committee of the board of regents, will be toastmaster.

Responses will be made by the following seven speakers: Dr. L. M. Spencer, president of the University of Washington, in the northwest; J. E. Turner, president of the Lewiston State normal, representing higher education in Idaho; J. J. Rice, superintendent of schools in Coeur d'Alene, for the state's secondary schools; W. C. Geddes, lumberman from Winchelsea, for Idaho industries; Mrs. J. G. Grady, of Boise, for the women of Idaho; Congressman Burton L. French, Moscow, for the alumni; and Dean J.

(Continued on page four)

HOOVER CLUB IS ORGANIZED HERE

Campus Campaign Planned To Arouse Interest In Election

Organization of a campus Hoover club has been announced by a group of students actively associated with campus affairs and student government. The nucleus of the organization was formed at a meeting held Friday. A working policy was outlined, and the organization is now being affiliated with the nation-wide college Hoover club division of the republican party.

Officers chosen are as follows: Robert Ailshie, president; Cecil Hagen, vice president and publicity manager; Elmer Berglund, treasurer; Mary Thomas, secretary; Burton Ellis, campus campaign manager; Jack Sheehy, chairman of the membership committee; and Ebel Laferty, head of the women's division.

Will Stir Up Interest
The purpose of the club, as outlined by the officers, is to stimulate and further interest in the national presidential campaign and to aid in the election of Herbert Hoover and Robert Curtis. As a secondary aim, the club hopes to arouse interest in the state political campaign and to aid in the election of candidates on the state republican ticket.

Plans have been made for a very thorough and extensive campaign on the campus during the next six weeks before the election. The club will begin its operations with an active drive for membership as soon as the rush of registration week is over. Political speakers will be brought to the campus during the campaign, to address students and townspeople.

Indications point toward a great deal of interest among students in the presidential campaign this fall, say the officers, who predict that students of the university will support Hoover by a substantial majority.

TUSCON, Arizona. (IP)—I have just found a college editor who never has nor never will write an editorial telling students to keep off the grass. He is in the University of Arizona. The campus is covered with cactus. Yours for ingenious campus architects, Collegiate Bill.

NEW PRESIDENT

DR. FREDERICK J. KELLY, who will be inaugurated as president of the University this afternoon, is a member of the faculty of the University of Minnesota. He is a member of the faculty of the University of Minnesota, and is a member of the faculty of the University of Minnesota.

KNIGHTS TO GUIDE VISITORS ON CAMPUS

Will Assist In Inauguration; Spurs Will Usher At Ceremonies

Intercollegiate Knights, underclassmen's service organization, and Spurs, a similar group for freshmen and sophomore women, have taken over the task of guiding the large number of visitors who are on the campus for the inaugural ceremonies about the campus.

The Spurs will act as ushers at the exercises to be held this afternoon in the auditorium, the formal inaugural ceremonies. They will be on hand wearing their sweaters, at 3 o'clock Monday afternoon at the library to get instructions regarding ushering.

They will usher again Tuesday morning when President Coffman of the University of Minnesota makes his address. Intercollegiate Knights will be stationed at the Hotel Moscow Monday at 3:30 o'clock to aid visitors in finding their lodgings about town. Tuesday all the members of the organization will be posted at 10 o'clock in the morning in the various buildings on the campus to guide visitors who will make an official inspection tour immediately following the close of the inauguration.

NEW NATIONAL INSTALLED HERE

Kappa Delta Pi, National Educational Group, Installed Last June

Twenty-two seniors, juniors and graduate students in the school of education were initiated into Kappa Delta Pi, national professional educational fraternity, here last June. The Idaho chapter is the fifty-fourth one of the organization to be installed. The purpose of the organization is to foster the teaching profession and to aid in solving the problems that the college and normal school graduate encounters during his first years of teaching. The officers of the group elected after the installation ceremonies are as follows: George Green, president; James Stover, vice president; Kenneth Dean, secretary; and Jane Manning, treasurer.

Cincinnati has one more thing to feel superior about, George Remus says. It is the best he was ever in.—Daily Kansan.

CHORAL SOCIETY TO BE ORGANIZED

Membership In New Section of Music Department Open To Students

A choral society, open to members of the student body, the faculty and townspeople is to be organized this fall as a part of the university program, according to an announcement by Prof. Theodore Kraft, head of the music department. All choruses of several hundred voices is planned. Mendelssohn's oratorio "Elijah" will be studied by the chorus and will probably be presented at a feature of the all-university music festival next May.

The date of the first practice will be announced later.

President's Greeting

I am glad to avail myself of this space in the Argonaut to extend greetings to the students at the opening of the new college year. Having spent a few weeks in Idaho, I have come to realize more keenly than before the source of inspiration and enthusiasm with which students and faculty of the university have appeared so stimulated. I feel sure you are entering upon one of the best years which the university has experienced. Even though we shall all miss greatly the leadership of Doctor Upham, former president of the university, it appears certain that with the loyal cooperation of faculty and students the new president can begin his work with a minimum of lost motion.

I hope that as the year goes on students will come increasingly to realize that the success of the institution depends upon them. No amount of driving on the part of the faculty can make a real university. Only as students come to assume responsibility for their own education can that sort of development take place which persists throughout life.

We invite the students to come to the faculty and to the president with their problems and even with their criticisms. Let us all join in making the University of Idaho a great place to live and work!

Very cordially yours,
F. J. Kelly

What, No Rain? Jinx Broken; Clear Skies Greet Students

What's happened to the weather man? Is the time honored tradition going to be broken this year? Thick dry sunshine permeates the air. It oozes into the cracks on the old brick clock tower which squats in shadow over the fountain. Open office windows absorb it. The ivy over the auditorium windows is green and moistureless.

Green still clings to the campus trees. The flower gardens are not mud puddles but flower gardens filled to the hedged brim with purple asters and late roses. Bits of rainbow catch in the busy artificial lawn sprinklers. Is this the Idaho campus or is there some mistake? Galoshes and slickers, all perked up for service are getting a dejected, unusual droop. Something's wrong somewhere. The special will be in Monday and still there is no sign of rain. School will open next week and there's not even a dim wet film on the horizon.

Cincinnati has one more thing to feel superior about, George Remus says. It is the best he was ever in.—Daily Kansan.

DOCTOR COFFMAN

Will Deliver Principal Address at Tuesday Morning's Program

Dr. D. L. Coffman, president of the University of Minnesota, who will deliver the principal address at Tuesday morning's program, a continuation of the inauguration, Dr. Coffman is nationally recognized as one of the leading educators in the United States.

IDAHO LEGION LAYS GYM CORNERSTONE

Sealed Copper Casket In Block Contains War Mementos

Ceremonies attendant to the laying of the cornerstone of the new memorial gymnasium were conducted by the Idaho American Legion August 31. The marble cornerstone, bearing the simple inscription "1928", was set in brickwork near the entrance to the memorial tower.

List of Idaho's war dead, state officials, officers of the Legion, officers of the university and the ASU, badges of veterans' organizations and auxiliaries, and other mementos were placed within the stone, sealed in a copper casket.

Judge T. T. Downing, past commander of the Idaho American Legion was in charge of the ceremonies. C. A. Longman, present commander of the state organization, spread the mortar with a souvenir travel made of Idaho silver. Congressman Burton L. French and President F. J. Kelly spoke briefly and Prof. C. W. Chendew delivered the invocation.

Dedication ceremonies for the new building will be held November 3, preceding the homecoming game with Washington State college.

IDAHO ENGINEER TO CHOOSE STAFF

Business Manager Will Be Elected To Fill Vacancy; Editor Checks Alumni Lists

Staff members of the Idaho Engineer, technical publication of the Associated Engineers, will be selected soon after the opening of school, according to W. Vaughn Iorns, editor.

A new business manager will be elected to fill the vacancy in the staff left by Fred Johnson who is not returning to the university this fall. Students interested in working on either the editorial or managerial staff are asked to see Mr. Iorns this week.

Articles are now being collected by Mr. Iorns from former students' who now hold responsible engineering position in all parts of the country.

During the summer the alumni lists have been carefully checked to find the location, positions now held and other information about former students of the college of engineering.

Speediest Registrar In History

New Methods Give Promise of Delay and Confusion; Work Through on Wednesday

More efficient methods adopted by the registrar's office will enable a record number of students to register this fall with a minimum of confusion and delay. Registration of old and new students will be completed late Wednesday afternoon, without the two special "rush" days formerly used.

A substantial increase in the total enrollment is predicted based on the larger number of permits to register that had been issued up to Saturday night. Postponement of the opening of the school with the inauguration ceremonies for President F. J. Kelly necessitated the shorter period this fall.

TWO EX-VANDALS LAND GOOD JOBS

"Bus" Canine Appointed Coach at Gooding High; Bayliss Takes Similar Post at Payette High

Herbert "Bus" Canine, a graduate of the university last June, and a three-year guard on Vandal basketball teams, will coach athletics at the Gooding high school this year. His appointment was announced by the Gooding school authorities during the summer school activities.

Ray Stephens, former football star under Coach Matthews, has signed up to coach the Payette high school for the coming year. Mr. Stephens played professional football with the National League's Seattle Seahawks and the Idaho American Legion August 31. The marble cornerstone, bearing the simple inscription "1928", was set in brickwork near the entrance to the memorial tower.

FRESHMAN EXAMS SET FOR TUESDAY

English Quiz at 8 o'clock; Mental Test in Afternoon

Students entering the university for the first time will take two examinations Tuesday, a uniform placement examination in the morning to determine their standing for registering in English courses, and a mental examination in the afternoon.

The English examinations will be given to all new students in assigned rooms at 8 o'clock in the morning. Room lists appear on another page of this page, alphabetically arranged. Students are asked to bring fountain pens filled with ink to their proper rooms on time.

Assembly at 11 o'clock. All freshmen will meet in the auditorium at 11 o'clock for the first freshman assembly to receive detailed instructions regarding registration. Student body officers will speak and help form the class organization, and Blue Key representatives will hand out copies of the student handbook.

Ment tests will be given Tuesday afternoon at 1 o'clock to all new students in designated rooms under the direction of the department of psychology. Results of the tests will be available in about a month. Results will in no way effect the standing of new students for registering. They are referred to at times by faculty members to determine students' ability to carry extra work. Room assignments for the mental tests also appear on this page.

Registration for new students begins at 8 o'clock Wednesday morning, when blanks on which are recorded the results of the English examination must be obtained. The blanks will be given out in four lines that will be formed in the main hall of the Administration building. Certain divisions of the university will hold general meetings for new students at 9 o'clock; notices will be posted later in the halls.

Freshmen who pass the examination will register in English I, and those who fail will register for, sophomore English, without credit. New students with advanced standing will apply for their results at the office of the head of the department of English, room 309, Administration building.

Printed instructions for registering will be placed on tables in the main hall of the Administration building, for both new and old students.

CITES HUGE TIMBER RESERVES OF NORTH

Dean F. G. Miller Tells Resources of Five Northern Counties at Hall Hearing

Five northern Idaho counties have 6,619,000 acres of timber, including 34,000,000,000 board feet of fine commercial timber, ready for the saw, declared Dean F. G. Miller, head of the University of Idaho school of forestry, testifying before the interstate commerce commission yesterday on the proposed Lewiston-Homedale, Ore., railroad recently. The timber counties referred to are Idaho, Adams, Nez Perce, Lewis and Clearwater.

This tremendous supply of green timber, Dean Miller declared, is sufficient to permit the cutting of 500,000,000 board feet annually without touching any of the new growth of timber.

Patent (angrily)—The size of your bill makes my blood boil!

Doctor—Then that will be twenty dollars more for sterilizing your system.—Hillsdale Collier.

FACULTY CHANGES MARKED BY NAMING OF ACTING DEANS

Assistant President and Two School Heads Named During Summer

FARMER, ELLIS PICKED

Other Changes Here and At Southern Branch Comparatively Few

Changes in the university faculty for the year 1928-29 are comparatively few, the most important being the appointment of two new acting deans to fill places vacated by resignations. Another important change is the appointment of Dr. J. W. Jones as assistant to the president, a new office in the university.

Ralph H. Farmer, professor of finance, has been appointed acting dean of the school of business administration, following the departure of former Dean H. C. Dale to take the deanship of the business at Miami university.

Ellis Is Acting Dean
Prof. E. W. Ellis has been appointed acting dean of the school of mines, taking up the duties of former Dean F. A. Thomson, who resigned to become president of the Montana State school of mines at Butte.

The new assistant to the president is Dr. Irving W. Jones, who comes to Idaho from the University of Minnesota, where he has been associate director of the summer session and head of the correspondence study department.

He is a graduate of the New Hampshire State Normal school and attended Harvard university and the University of Wisconsin. He received the Ph. D. degree from the latter school. His subjects of special study are psychology education and music education.

Woodsdalek on Leave
Dean J. E. Woodsdalek of the graduate school will be away for a year on leave, having a research appointment at the University of Montana. In his absence Dean J. G. Eldridge will act as dean of the graduate school and Dr. H. B. Stough as head of the zoology department.

The place of Mrs. Louise Blomquist, assistant dean of women in charge of Pomeroy hall, who resigned to become dean of women at Whitman college, is being taken by Miss Helen Kersey, a graduate of Pe Pauw university. Miss Kersey spent the last two years as general representative for the American Red Cross in the state of Idaho.

"Pop" Retherford Here
From the Southern Branch has come Prof. J. E. Retherford, who will teach the courses in American history that have been formerly under Prof. C. J. Brosnan. Professor Brosnan has a research fellowship at the University of California for the year.

The place left temporarily vacant by the leave of absence granted to Prof. Virgil R. D. Kirkham will be filled by Alfred Anderson, who becomes an assistant professor of geology.

Miss Elizabeth Norris, B. A. 1928 University of Washington, and Metro

Williams, M. A. from the same university, have been added to the English faculty. Miss Norris will be a teaching fellow and Mr. Williams an instructor.

Prof. Robert Barstford returns to the university this year as head of the department of agricultural engineering, succeeding Prof. M. D. Lewis, who is engaged in irrigation investigation in Oregon.

Richard R. Hefelblower comes from the University of California as assistant economist in the agricultural experiment station and instructor in economics in the school of business.

FACULTY MEMBERS VACATION IN EAST

Dean Messenger and Family Spend Six Weeks on Motor Trip; Dr. Church Visits Relatives

J. F. Messenger, dean of the school of education, Mrs. Messenger and daughter Dorothy, returned last week from a six weeks motor trip on which they traveled more than 9000 miles. Leaving Moscow the family motored to Burlington, Vermont to visit relatives. From there they drove down the Atlantic coast to Daytona Beach, Florida. The return trip was made by way of Indiana, Kansas City and Nebraska. Doctor Messenger reports that the Idaho license plate attracted attention wherever they stopped.

Dr. Frederick C. Church, professor of history, returned Tuesday from a several weeks visit with relatives in several weeks visit with relatives in the trip east Doctor Church attended the national convention of Phi Beta Kappa, scholastic fraternity, at Delaware, Ohio.

DEDICATE MORMON SEMINARY TUESDAY

Heber J. Grant, L. D. S. President, Will Be the Principal Speaker

The new Latter-Day-Saints institute, built near the campus during the summer at a cost of more than \$60,000, will be dedicated Tuesday afternoon, according to J. Wyle Sessions, director. Dedicatory ceremonies will be held following inauguration of Dr. Frederick J. Kelly, new president of the university, and are

expected to attract large numbers of church members from southeastern Idaho.

Heber J. Grant, Salt Lake, president of the L. D. S. church, will be one of the principal speakers on the dedication program, according to Mr. Sessions. Bishop W. R. Sloan, president of the northwest states mission of the L. D. S. church, Dr. Joseph F. Merrill, superintendent of education for the church, and W. D. Vincent, Idaho state commissioner of education, are expected to address at the ceremonies.

The new institute contains a chapel with a seating capacity of 225, three large classrooms, library, office, a large reception room, and a recreation hall. In addition the third floor contains 11 well equipped dormitory rooms, designed to accommodate 22 men. The building is of Tudor-Gothic architecture and harmonizes with other buildings of the university campus.

A college student dropt into the dental chair. "I'm afraid to give him gas," the dentist said to his assistant. "Why?" "How can I tell when he's unconscious?"—Linfield Review.

REGISTERING DELAY IS THING OF PAST

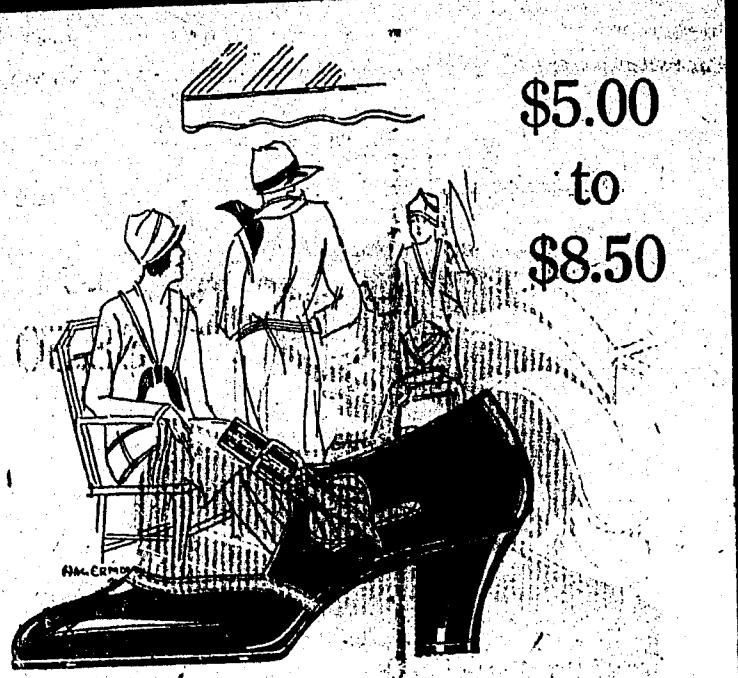

More Efficient System Will Eliminate Crowding in Library

Adoption of more efficient methods by the bursar's office in collection of fees in the registration procedure will totally eliminate the crowding in the library and the long lines in the halls, according to Frank Stanton, bursar. The new system of five fee writers, one full-time and one half-time, Tuesday afternoon and Wednesday have been set aside during which the library will be open for the collecting of fees. Five fee writers instead of only two as formerly will enable cashiers to handle more than double the number of students in one day than under the old system. New forms to be used by the bursar's office will eliminate copying fees and amounts on a separate receipt book. Fees will be checked in a bank form. Totalled on an adding machine, and

then the forms will be handed to the cashier, who will stamp them and issue a duplicate receipt.

Being "Exact Change." Considerable time can be saved even under the new system if students will deposit their money in one of the down town banks, instead of bringing large checks or bills to the cashier's desk. The ticket system used last year to cut down needless waiting in lines, will not be used this fall, as the bursar's office will be able to handle the students as rapidly as they come from their registering rooms. Registration fees will be about the same as they have been before, ranging from a minimum of about \$30 for those who live outside of the halls who have no laboratory fees, to a maximum of \$150.

Executive Board Meeting.
The first meeting of the executive board will be held Tuesday evening, October 2, in room 104 Administration building. It has been announced by Alvin H. Reading, president of the ASUI. Several matters of importance will be brought up.

BEAUTY and GRACE Personified Here In Shoes

Delightfully modern, daintily youthful and trim of line, Brown and Dark Tans—the predominating tone. Blue—so smart and easy to wear—Black kid and Patent leather—always correct.

WOMEN'S DORMS FILLED TO BRIM

Forney and Hays Halls Accommodate 250 Girls; Will Take First First Meals Monday

Women's dormitories will be filled to capacity today on the arrival of the special train from southern Idaho, but all late comers will be taken care of, said Miss Parmel J. French, dean of women. Both Forney and Hays halls have been redecorated during the summer, and all arrangements have been made to handle the large number of women students.

Instructions mailed to all new women students during the summer should be followed carefully, said Dean French. Upon the arrival of the special train in Moscow, girls are asked to go directly to the halls, carrying their own luggage.

First meals will be served in the women's halls at 6 o'clock today.

Alpha Chi Ford Wins Meridian Show Prize; Original Slogans Best

First prize for the worst looking Ford decorated with the best sounding mottoes was awarded to three university women, Dorothy Neal, Dorothy Tomlin and Charlotte Tollett, in a unique contest sponsored by the Strand theatre at Meridian, Idaho, in the latter part of August.

The three girls, members of Alpha Chi Omega sorority, bought the ancient Leaping Lena here last June, and successfully navigated their purchase to their homes at Meridian. The judges, said to be experienced in junk appraisal and possessed with a sense of humor, awarded the \$5 prize to the car because of the originality and number of the slogans and slogans which entirely covered the framework.

The trio of sorority women left for Moscow last week in their trusty Ford, college bound.

C. OF C. TO SHOW INDUSTRIAL FILM

A seven reel picture depicting the industries of Idaho as made under the supervision of the Idaho state chamber of commerce to show the development of the state, will be shown at the Vandal theatre Wednesday evening, September 26 under the auspices of the Moscow chamber of commerce.

The film is being sent to all important cities of the state and Milburn Kenworthy, proprietor of the Kenworthy theatre, is donating the house and operator. The film will be shown at 8 o'clock.

No admission charge is to be made but a collection for the Red Cross Florida disaster will be taken.

ARTISTS' COURSE IS PLANNED FOR YEAR

Artist course numbers to be presented in the auditorium during the year are being planned by the public events committee of which Prof. Theodore Kraut of the department of music is chairman. The contemplated group includes an outstanding soprano, a leading violinist and a noted pianist. Negotiations are being conducted with Florence Astral, soprano; Jacques Seidel, violinist and Alexander Bralowski, pianist, but no announced.

The artist's course was not included on the university's program last year. In former years however it has been a notable feature of public events entertainment, such artists as Mary Lewis, Louise Graveure, Mayor and Patterson and Mikal Morikin having been successfully presented.

RUSHING RULES TO GOVERN PLEDGING

Few Changes in Interfraternity Regulations; Will Be Enforced

Rushing and pledging regulations drawn up by the interfraternity council are to be strictly enforced this fall, and all fraternities are warned to be not in violation of rules of the council. The rules for 1928 remain practically as they were for the past year with only a few minor changes. The most important of these changes, adopted at the last meeting of the group last May, states that new bonds, in the form of signed \$50 checks, will be posted by all fraternities with the bursar this fall. Bonds for the previous year will be destroyed if they have not been forfeited by infraction of the laws.

According to a second minor change in the regulations, any fraternity that breaks a pledge must notify the council of the fact in writing within ten days. Such a regulation was found necessary in order that the fraternities might know the status of a man in case he was to be pledged again.

Rushing Rules for 1928
1. Each house shall submit a signed check for \$50 to be held as bond in case a fine is levied. In such a case the house shall pay the fine and the interfraternity council keep the \$50 bond in reserve. All bonds will be kept with the bursar of the University of Idaho and at the start of a new school year each fraternity shall recall its old bond of the previous year and submit new ones.

2. No man shall be pledged who is not registered in the university. Penalty: Forfeit the right to initiate any man so pledged and a fine of \$20.

3. Until three days before registration no house shall start its table, have smokers, dances, or in any way entertain rushees as a group. This rule does not prohibit a pre-student from rooming in a fraternity house before this period. Penalty: Same as No. 2 regulation.

4. Pledge pins shall be worn where visible.

5. No fraternity shall attempt to restrain any rushee from visiting another house, nor shall they give contradictory information as to the whereabouts of such rushee. Penalty: \$25 fine.

6. Each fraternity shall, in case a pledge is broken, notify the president of the interfraternity council in writing within ten days. No man shall repledge for a period of 90 days. Penalty: \$10 fine. This shall apply to both sections.

7. Any fraternity, found guilty of lifting a pledge pin of another group shall forfeit the right to initiate the new pledgee.

8. Not cars shall go to points other than Moscow to meet students on the student special.
9. The interfraternity council shall act as court and each group shall have one vote. Two-thirds majority shall decide the case, the vote being taken by secret ballot. The court shall consist of a president, two judges and senior members to act as a jury. In case the house of the president is concerned, the vice president shall take his chair and so on down the line until an impartial judge is found.

IDAHO ALBERT

Howdy, folks—Glad to get back—Java good summer—Gee you're looking good—Yeh so did I—and all that sort of rot.

—IA—
O well—the Betas won't have a monopoly on the hotel business anymore.

—IA—
We almost crashed the movies this summer. We asked Goldwyn, could we please act for him, but he said "No."

EMBARRASSING MOMENTS

Kind Lady:
Last week I was bumming up from Los Angeles on the highway. Imagine my embarrassment when a guy drove up in a big Lincoln sedan and asked me did I want to ride with him.
And aool

Fraternally,
CASTOR DEARIN.

—IA—
And then there is the old familiar melody that goes:
I may be a hobo
I may be a bum
But I'm thankful for one thing
I'm no native son.

—IA—
Famous Last Words: Yeh, I brought back some bonded stuff.
The Yellowstone Park club announces the pledging of Jack Sheehan.

—IA—
A little ditty entitled "The game was kinda scarce that day so the hunter shot the rapids."
—IA—
A dim witted guy
Who I'd hang to the sky

—IA—
Is the yodel who yodels
"When I went to high—"

—IA—
There was a young guy from St. Paul
Who thought he'd go out for football
One sock in the pan
And they wrote his old man
Your kid ain't in school now at all.

—IA—
Take away the cut system if you must, but for the love Mike give us our Wednesday assemblies.

COUGAR BABES PLENTIFUL

Idaho Girl Proves That "Hello" Tradition Pays

The "hello" tradition at Idaho proved profitable to a Vandaleite last summer, Lulu Grace Allen, a member of Kappa Alpha Theta sorority.

Miss Allen spent her vacation soliciting job work for her father's printing shop in Lewiston, and in a letter to Sylvia Oldman, feature writer on The Argonaut staff last year, she related the following incident:

"It's a good thing I've had the training of the 'hello' spirit at Idaho, because when I go up and down the street I have to say 'Hello' and smile at all these business men, or I might lose a job. Several of them have asked me for dates, but I smile again and say, 'No! My line is strictly business and printing.'"

This enterprising co-ed is now back on the campus getting further training in saying "Hello" impartially at all encounters. Whether she is still declining dates has not been ascertained.

Miss Oldman is at present in McGill, Nevada.

TWO FRATERNITIES WAIT ON BUILDERS

A. T. O.'s and Delta Chi's "Camping Out" for Time Being

Two Idaho fraternities, Alpha Tau Omega and Delta Chi, are using temporary residence quarters until their new homes now in process of construction are completed. The new Alpha Tau Omega house is practically finished, just the interior finishing remaining to be done. The exact date when the building will be turned over to the group by the contractor is not known, but it is thought that it will not be more than a month.

Framework of the Delta Chi house work has been put up in the last two weeks and workmen are now laying the roof. With the roof in place, contractors will be able to work on the outside stone work and the interior throughout the rainy season in the late fall.

A. T. O. Rent House
The A. T. O.'s are making their temporary headquarters in a small frame house on Elm street, between the Alpha Phi house and the Lambda Chi Alpha house. The quarters are far too crowded for use other than a meeting place. Most of the members of the group will sleep there, but will board outside until they can move into their new house.

The Delta Chis are more fortunate as they are living in their former residence, which was moved from the old location across from the Phi house to property south of Hays hall. They will operate the dining room as before. Construction on their new house will be completed around the first of the year.

The two new houses will be impressive additions to Idaho's fraternity row and will add around \$90,000 to the large investments already represented

MEN'S HALLS ARE TAXED TO CAPACITY

Congestion Is Temporary; Situation Will Be Relieved This Week

Men's dormitories will be taxed beyond capacity to house the record number of new students expected on the campus today. All rooms in Lindley and Ridenbaugh halls were reserved some time ago, and 25 men were assigned to Senior hall, formerly the old A. T. O. house. The overflow will be taken care of temporarily in Jenkins cottage, and probably some private residences in Moscow.

Must Check in Rooms

All students who have made room deposits for reservations at any of the men's halls must report to Ted Turner at Lindley hall not later than 3 o'clock this afternoon to check in their rooms. Failure to do so will mean forfeiture of room deposits.

University officials have set Sunday, October 7, as the final date by which men can move out of the halls and still receive a refund of the balance of their semester room rent. In fairness to the men who want rooms in the halls, the "checking in" idea and moving out date were adopted by the administration to relieve needless congestion and delay.

First meals will be served at Lindley and Ridenbaugh halls tonight at 6 o'clock. All men must bring with them their room deposit receipts, without which they will not be admitted to the dining rooms. Men living at Senior hall will be served at the Lindley hall dining room.

Adopt New Plan

Segregation of hall men by classes will be made this year in accordance with new plans adopted by Mr. Turner. As nearly as possible, freshmen will be housed at Lindley and Ridenbaugh halls, and seniors at Senior hall, the old A. T. O. house, which has been entirely reconditioned during the summer. Mr. Turner will be in charge at Lindley hall, William Harris, instructor in the mathematics department, will be assistant director at Ridenbaugh, and George Greene, former Vandal basketball star, will be in charge of Senior hall. All the dormitories have been completely redecorated and reconditioned during the summer, and will present a spic and span appearance to the new students.

New students are asked to cooperate with Mr. Turner and take the temporary congestion in the halls as a necessary evil. A list of rooms in private residences about town is available to everyone at Mr. Turner's office. People who have rooms they wish to rent are asked to register them with Mr. Turner immediately.

FROSH BIBLE WILL BE OUT TUESDAY

Edited For ASUI By Blue Key; Distributed At Assembly

The official student handbook of "Frosh Bible" will be of the press Monday and will be distributed to all new students at the freshman assembly Tuesday morning.

The handbook is an official publication of the ASUI, and contains the constitution of the Associated Students, campus rules, Idaho songs and yells, and a large amount of useful information concerning every phase of campus life. It was published for the ASUI under the direction of Blue Key, upperclassmen's national service fraternity. Members of the editorial committee were Cecil Hagsh, chairman, Burton Moore and Harry E. Jones.

A representative of Blue Key will explain the handbook to the new students at the assembly at 11 o'clock Tuesday morning. Copies of the book will be handed to all the new students as they leave the assembly.

Contents of the book have been revised and brought up to date during the summer. It contains information that can be used by all students in the university, such as mailing times, football and basketball schedules, organizations, by-laws and constitutional provisions.

A student directory will not be published this year under university jurisdiction. One will be issued in about three weeks by a junior in the department of journalism who will do the work on his own initiative, and sell copies of the directory to the business men downtown.

RELIGIOUS CENSUS DATA READY SOON

Information Will Be Available at Ted Turner's Office By Thursday or Friday

Religious census cards for every student in the university will be ready at Ted Turner's office in Lindley hall about two days after registration. The cards will be attached to the registration blanks and as students register the cards will be turned over to Mr. Turner by the registrar's office. All those who wish to refer to the files are asked to wait until Thursday or Friday, September 27 or 28, in order to give him a chance to have the cards filed alphabetically.

"Is he a popular boy?"
"Popular. Why, when he left town 30 girls went back into circulation."
—Sun-wester.

'Carry Own Luggage,' Is Warning Given to Students on Special

"Carry your own baggage," is the warning given to students coming to the university on the southern Idaho student special train by university authorities.

In the past one of the most annoying sources of trouble to come up every fall has been the loss of personal baggage by students arriving on the campus. To prevent confusion and delay on this score, new students are asked to carry their own luggage from the depots to the halls. The practice of leaving bags at the railway stations, many times unmarked, invariably results in trouble for those concerned.

Trunk checks will be collected by a university representative on the special train several hours before it arrives in Moscow. A fifty-cent drage charge will be collected from all students on the train, and on arrival in Moscow, the checks will be apportioned to the different transfer men who will deliver all trunks to the dormitories and group houses on the campus this afternoon.

MUST HAVE PROOF TO EVADE R. O. T. C.

Rook Companies Will Be Formed on Campus Thursday

All new students who expect to be exempted from the military training requirement of the university must present satisfactory evidence to the military officers in the library when they go through the registration lines. All new students are required to take the two-year basic military course, unless they receive equal credit for work in the national guard or in the C. M. T. C. Foreign nationality and physical disability are also other military units count toward exemption but not toward standing in the advanced course.

Sign Name in Full

Freshmen and new students are asked to sign their names in full on their military class cards when they register. Initials only cause confusion and delay in assigning men to companies. All military classes meet at 11 o'clock on the campus Thursday morning. Men will be assigned to their companies, and will receive detailed information regarding drawing of uniforms and rifles and other matters pertaining to the department.

Idaho's quota of advanced military students has been reduced from 70 to 65, with no limitation on the number of men in the basic course. The change will mean all juniors and seniors in the advanced course will be officers as before. Last spring 40 was planned to use juniors as non-commissioned officers only. A recent act of Congress makes it possible for students who did not register for the advanced course immediately after they finished their basic course to apply for the advanced work. Previously the two courses had to be consecutive. Uniform allowances have been increased from \$7.15 a year to \$30 a year, according to Captain

WILL ORGANIZE TUMBLING CLASS

Coach A. F. Hutchinson Will Instruct Men in Tumbling; Taught Skills His Skills

Tumbling classes under the supervision of R. F. "Hutch" Hutchinson are to be started this fall for men registering in physical education courses according to tentative arrangements of the department.

Hutchinson, who comes to the university this fall from the southern branch where he has been director of athletics since 1920, has gained a reputation for producing agile and entertaining acrobatic squads from inexperienced material. At the Southern Branch all men are required to take physical education of this type instead of military training, and Hutchinson each year picked the best of his men for tumbling squads, often having a majority of freshmen. Edwin Higgins, Idaho yell king, learned most of his stunts under Coach "Hutch."

Fundamentals and easy exercise are to be taught at first with the difficult performances being left until later in the year.

"Too bad that Shakespeare wasn't born in London."
"How come?"
"Because I wrote it in a theme."

BIG SISTERS TO AID FRESHMAN GIRLS

Will Meet New Girls At Trains; Help Them Register

Assisting new girls in registering and helping them get started properly in college will be the main duties of 150 big sisters of the campus during the first two weeks of school, according to Dorothy Hall, chairman of the big sister movement.

The big sisters will meet their little sisters at the trains and take them directly to their rooms in the girls' dormitories, where they will assist them in unpacking and getting settled. During the registration days they will help the new girls with their schedules, matriculation, conferences, identification, appointments, assemblies, and the general freshman reception. The purpose of the movement is to provide a system whereby new girls can obtain authentic information concerning anything con-

ected with the university, which they are unfamiliar with.

Used For Two Years.

The big sister movement was used for the first time on the Idaho campus two years ago and proved to be a big factor in the handling of the congestion of the first week of school. Miss Hall has working under her 15 captains who in turn have 10 lieutenants each, making a total of 150 big sisters. During the summer the names of all girls who had permits to register sent them by the registrar were forwarded to Miss Hall who sent a letter to little sisters and to the older girls on the campus to act as their helpers.

Report to Dean

Girls who applied for admission late in the summer, have not been assigned to a big sister. They will be taken care of as soon as they inform the proper authorities. Late arrivals should report to Dean French at the office of the dean of women in the Administration building or at Hays hall or to Dorothy Hall at the desk in the front hall of the Administration building.

QUARTERBACK SELECTION NOT MADE BUT LETTERMEN OUT FOR ALL OTHER POSITIONS

Coaches With Double-duty Praticce are Whipping Team into Shape for Montana Game Here Saturday

Fifty varsity grid candidates—twelve of them lettermen—have spent the past week in double duty on MacLean field as Coach Charley F. Erb, Jr. attempted to whip them into shape for the dangerous Montana State college eleven due in Moscow next Saturday. The quarterback problem and development of capable reserves seem about the two greatest problems facing the Idaho mentor.

Forty men were present for the initial call, but within three days nearly a dozen more drifted in. A man for each position except the signal-calling job could be chosen from lettermen, although the varsity reserves of last year and the freshmen backs and linemen of last fall will continue to press the regulars hard to retain their berths. Only three or four of the first string positions have anything like a permanent ring to them.

Plenty of Beef in Line.

A veteran line with an average of about 195 pounds seems likely under the present scheme of things with Harvey "Fat" Sumpter easily the heaviest man at 225 pounds. Fat is due to see action at guard with Lyle Stark spotted at the other side of center. Lester Kirkpatrick, at 187 pounds, was given first call for center on the first string. Maurice Brimhall, outstanding guard of the past two years, has been shifted to tackle as a running mate to Gordon Diehl, the only veteran returning for this position. Each man will weigh past 200 pounds, with Brimhall perhaps 10 pounds heavier. At ends three lettermen present themselves led by Captain Darwin Burgher. Burgher is sure of one end with Walter Price and James O'Brien out for the other.

The backfield tonnage is high again this year with William "Big Bill" Kershnik leading the pack at 212 pounds in the fullback position. Orville Hult, Paul Hutchinson and Fred Robertson are all back for the halfback placings, with Hutch topping this trio with his 190 pounds. With the possible return of Sammy Perrins the first of the week, the fifth backfield letterman will make his bid for first string honors.

Quarterback wrinkle is still in the process of being ironed out. Four candidates have presented themselves—James "Monk" Halliday, fresh star of two years ago; Arthur "Shorty" Cheyne, varsity substitute of two years experience; Kenneth Barrett, varsity substitute last year, and William Felten, who turned out last year but was ineligible for play. All four have shown considerable action in practices of the past week, but until the night before the Montana State game no definite selection of a pilot to lead the Vandals will be made.

Three promising end candidates are to be found in the form of Ted Jensen, substitute last year; Clarence Dittman, of Illinois, ineligible for play last year, and Al Morgan. Among other varsity players of last year will be Arthur Norby and John E. Norman, halfbacks of promise. Richard Thomas, varsity material for two years, looks good at tackle.

1927 Frsh Formidable. But the freshman contribution to Erb's machine this year looks most formidable, and plenty of competition is evident from early scrimmages. Hugh Sproat, George Scatterday and William Bessler are excellent guard candidates, and Harold Carlson, center, is a likely candidate at the pivot position. At ends Elmer Martin, guard last year, George Swindman and Peyton Sommercamp are promising. In the backfield Elliot Redman, John Booker, Herbert Owens and Victor Werner are seeing considerable action, with Booker being groomed for the fullback position. William Rosenbaum, freshman fullback last year, has been shifted to tackle where with his 198 pounds he is a likely line candidate.

Erb effected a slight lineup shift for defensive purposes when he put Sumpter at defensive center, moved Brimhall to guard and put Kirkpatrick at tackle along with Diehl. This move he feels will strengthen the center of the line considerably and give him a set that will make consistent gains through the center of the Idaho line almost impossible. Kirkpatrick has had experience at this position when a freshman and he played at tackle during his high school days. Brimhall was a regular guard last year. This playing combination will give an average of about 210 pounds in the center of the line.

Three Slightly Injured. Injuries have been steering clear of the Vandals thus far although the bugbear stalked into the Vandal camp for a short visit the end of the week claiming three in the reserve ranks. Clarence Dittman suffered a sprained ankle, Redman, a sprained ankle in scrimmage and Frank Tatum, guard, suffered injury of a bad knee that troubled him last season. A number of other promising varsity and freshmen players of the past two years have reported for practice and are doing considerable work on the second and third strings. Among the most outstanding are Russell Juono, center; Harold Stowell, halfback; Norman Forster, tackle; Elmer Johnson, end; Glenn Cooper, halfback; Harry Daubert, halfback; Clarence McCall, halfback; Richard Aman, halfback, and Gus Powell, tackle.

JENKS EDITS WEEKLY

Clarence Jenks of Stiles, Idaho, graduated from the university school of journalism last June, was for five weeks this summer the editor or the progress and the Enterprise, papers of his home town. According to the editor of the papers, on his vacation, while Mr. Jenks had charge of the work, Jenks made a favorable showing. Mr. Jenks has returned to Moscow and resumed his work as a freeman for the Queen City Printing company.

TWELVE VETERANS READY TO BATTLE MONTANA STATERS

Vandal Squad Ready for First Game of Season Saturday

EXPECT AERIAL GAME

Vandals Probably Will Play Straight Line Punting Game

An even dozen lettermen who saw action last year at the start of the season against Montana State college will be on deck next Saturday when Idaho lines up against the Bobcats for the third time in three seasons. The game is called for 2 o'clock on MacLean field.

Only two men—Captain Darwin Burgher and Lyle Stark—remain of the lineup that was pitted against the Montanans here two years ago. Burgher was then playing in the backfield while Stark saw action as a substitute linesman. Brimhall at tackle; Diehl, tackle; Sumpter, guard; Kirkpatrick, center; O'Brien and Price, ends, and Kershnik, Robertson, Hult and Hutchinson, backfield men will face the Bobcats for the second time.

If Idaho's inability to solve the Montana team's aerial game is as evident this year as last, Idaho is going to have tough sledding to down the crew from Bozeman. If the field is fast and dry, however, and Idaho can get more of the offensive than she did last year, the odds should be well in her favor. To offset any advantage in this line, the Bobcats have advantage of a practice game before meeting Idaho.

Idaho had two mighty close calls at the hands of the Bobcats during the past two seasons, and this was an inspiring factor as Erb drilled his men the past week for the opening clash. Two years ago the two elevens battled scorelessly on a rain-saturated field, and last year Idaho fans will remember the last-minute rally coupled with a play in motion at the final gun that gave Idaho her winning touchdown and the game 19 to 12. Romney in his five years with the Montana school has brought his squad from obscurity to championship of the Rocky Mountain conference for the past two years.

Last year the spectacular work of Babcock and Chee and especially their passing combinations, proved a thorn in Idaho's side. Another versatile backfield is reported ready to invade the Vandal camp and this will mean a real trial for the veteran Idaho backfield.

Idaho is not expected to attempt the passing game and from all indications straight line punting with Kershnik, Hutchinson, Hult and Robertson leading the ball will be the vogue. Several candidates for the quarterback notch are due to get a trial as will a great host of reserve material.

Burgher probably will be called upon for all of the punting and most of the passing, if any. The Idaho captain is a consistent punter and thinks nothing of putting the ball beyond the 45 and 50 yard markers in play. Sumpter will do the place kicking, a field in which he won recognition last year in being up the score in the St. Mary's game with a 25-yard boot.

GRIDSTERS NAMED "ROVING VANDALS"

Idaho Men Will Cover More Than 6000 Miles During 1928

The title "Roving Vandals" again becomes appropriate for Idaho's gridiron crew. Approximately 6000 miles will be covered by the Idaho team to play its 1928 schedule of eight games, three of them non-conference.

The Vandals open this season with a home game, Montana State college, September 29. The following weekend, October 6, they meet Gonzaga at Spokane. The trip for this game will begin the count with 180 miles. On October 13 Idaho plays Whitman college at Moscow, but the next week the team goes to Palo Alto, Calif., to meet Stanford, October 19, which adds 1250 miles of travel.

Returning to Moscow, retracing 1250 miles, the Vandals will meet the University of California at Los Angeles on MacLean field October 27. November 3, homecoming day, Idaho meets its traditional rival from across the state line, Washington State college, at Moscow. After a two week rest Erb will take his men to Missoula, Mont., to meet the University of Montana on November 17.

Following the Montana game, which will add 700 miles to the total, the Vandals make their longest jump—to Los Angeles, to meet the University

of Southern California, November 24. The trip down and back will add 3050 miles to the figure. Washington State college travels the greatest distance with 8500 miles, Idaho being second.

IDAHO'S SCHEDULE	
Sept. 29	Montana State Moscow
Oct. 6	Gonzaga Spokane
Oct. 13	Whitman Moscow
Oct. 19	Stanford Palo Alto
Oct. 27	California L. A. Moscow
Nov. 3	Washington State Moscow
Nov. 17	Montana Missoula
Nov. 24	Southern California Los Angeles

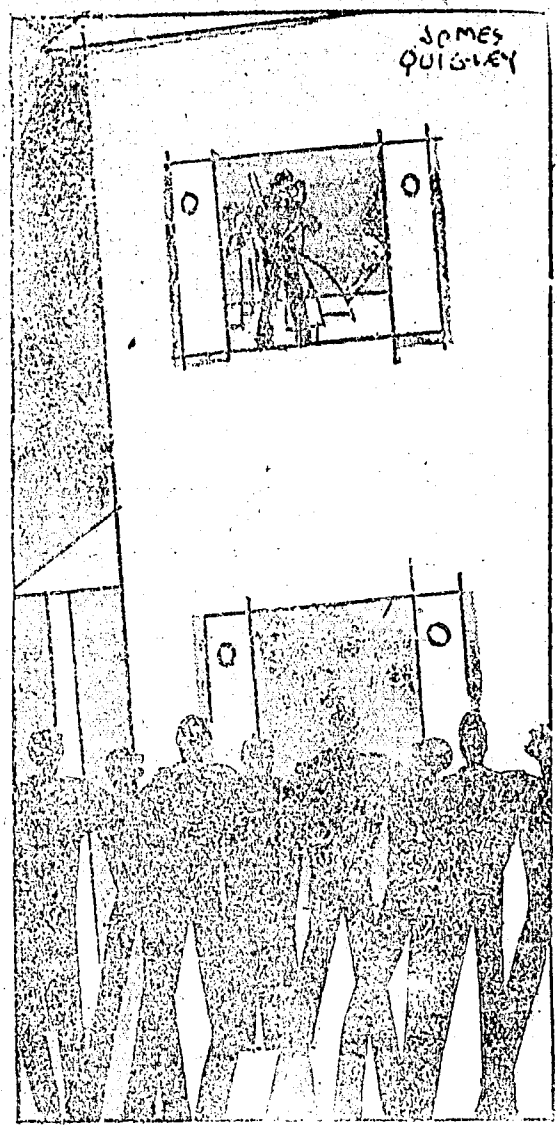

Members of the Idaho chapter A.T.E.E. will have a banquet Tuesday evening, October 2 at the Blue Bucket. Orland Meyer will give a report of the recent Pacific coast convention in Spokane.

VANDALS SOON TO GET GRID TROPHY

Conference Championship Cup Will Remain Here Three Months

The Schwabecker cup, awarded each year to the championship football team of the Pacific Coast conference, will soon arrive in Moscow and for three months be placed in the Idaho Vandals' trophy case in the gymnasium. Idaho ended the 1927 season in a technical triple tie for first place with Stanford and Southern California. Idaho played neither of those teams but was undefeated in four conference starts, two of the games ending in ties. Stanford took possession of the championship trophy first and played it for four months before passing it on to U. S. C. The Trojans are now turning the cup over to Idaho with whom it will remain until it is reawarded to the 1928 title squad.

ASSOCIATED ENGINEER program "committees" will be held at the meeting. There will be a meeting of the Associated Engineers, Monday October 1, room 204 Engineering building, at 4 p. m. Reports of membership and Louis Boas '24 and Ruth Hawkins '25 were married during July at the bride's home in Emmett.

WELCOME To Old Students and Faculty

Welcome to all New Students and we congratulate you on choosing the University of Idaho. We know you will not be disappointed for we believe that the U. of I. is embarking upon a new and wonderful era in education. And you will be a part of this great work. Let everyone help to carry on and improve the traditions of Old Idaho. When down town we will be glad to have you make our place your headquarters.

Presenting . . .

CHARLIE CHAPLIN

in the blindfold cigarette test

Famous star selects OLD GOLD

"One cigarette of the four I smoked in the blindfold test was like shooting a scene successfully after a whole series of failures. It just 'clicked' and I named it as my choice. It was Old Gold. Which clears up a mystery, for the supply of Old Golds in my Beverly Hills home is constantly being depleted. It seems that Strongheart and Rin-tin-tin are the only motion picture stars who don't smoke them."

Charlie Chaplin

CHAPLIN was asked to smoke each of the four brands of Old Golds, blindfolded, and to select the one he liked best. He selected Old Gold.

MR. CHAPLIN was asked to smoke each of the four brands of Old Golds, blindfolded, and to select the one he liked best. He selected Old Gold.

How does OLD GOLD do it?

What's the secret of OLD GOLD'S winning charm? The answer is very simple. Three types of leaves grow on the tobacco plant . . . coarse, heavy leaves, irritating to the throat . . . with real "smooth" leaves, without taste or aroma . . . and the leaves . . .

Made from the best leaves of the tobacco plant

SMOOTHER AND BETTER—NOT A COUGH IN A CARLOAD
