

MEN'S GROUP HOUSES TAKE 159 NEW MEN DURING RUSH WEEK

Twelve Fraternities Choose Neophytes After Intensive Rushing

BOISE SENDS MOST Unusually Small Number From Outside State Are Pledged

One hundred and fifty-nine men were pledged by the 12 Greek letter fraternities on the Idaho campus up to Monday night. More will be pledged this week, and it is believed that the total number will reach 165 before all the houses have completed their rushing.

Intensive rushing began with the arrival of the southern Idaho student special train September 24. Interfraternity council rushing rules prohibit pledging of men before they are fully registered in the university.

Boise furnished the largest number of pledges from any one town with a total of 24. Spokane came second with 17, and Twin Falls and Nampa third with 12 each. Not counting the neophytes from Spokane, 12 men from other states were pledged, an unusually low number.

The list of pledges is as follows:

Kappa Sigma: John Bailey, Spokane; Hugh Jackson, Dayton, Wash.; John Wurster, Charles Radcliffe, Frank McAtee, Robert Nixon and Fred Sanger, Twin Falls; Ralph Olmstead, Minidoka; Ray Maxfield, Pasco; Laverne Randall, Moscow; Phillip Ford, Weiser; Lewis Smith, Warren McDaniels, Calvin Souther, Spokane.

Delta Chi: Norman Steadtler, Pocatello; Donald Wolfe, Palouse; Edgar Aukema, Halley; Ted Showalter, Cleo Eastman, Gordon Hadden, Nampa; George Sumners, Aldon Hoffman, Boise; Jay Rugg, Lige Frost, Jay Kendrick, Bull; Lyell Frazier, Earl Frazier, Hagerman; Byron Sewell, Orofino; Clinton Spence, Chicago, Ill.; Clifford Diehl, Moscow.

Sigma Nu: Lawrence M. Maguire; Sidney Walden, Bonners Ferry; Carl Liethe, Coeur d'Alene; Sidney S. Sogard, Cularesa; William G. Ennis, Gerald M. Craig, Nampa; Roger K. Hoffman, Caldwell; Melvin Stewart, Boise; Robert Moore, Fred Kirby, Cascade; Mark Maxwell, Parma; Jack Booker, Glendale, Calif.; Aldon Hampton, Genesee; George Wilkeney, Nampa.

Phi Gamma Delta: Bryant Koester, Clarence Ehrenberg, Donald Woodward, John Pohlman, William Stenton, Kenneth McCluskey, John Corkery, Gerald Walsh, Eugene Reid, Spokane; Carl Yeneh, Leo Neher, Clayne Robinson, Stanton Hale, Boise; Robertson McBride, Kenegg; William Babcock, Twin Falls; Henry Williamson, Moscow; Marion Steffanson, Chewelah, Wash.; Elmer Poston, Sacramento, Calif.; Jack Lee, Lewiston.

Beta Chi: (local) Donald R. Equals.

HALLS ARE CROWDED DESPITE PLEDGING

Expect 125 Men to Leave Dormitories for Houses by Next Sunday

Although less than 40 men from the dormitories had moved into group houses up to Saturday night, Ted Turner, proctor, expects about 125 to leave before Sunday, October 7, the final date when men may move out and still receive a refund on their semester room deposits.

There are three men in practically every room in Lindley hall, and from two to four men in each room in Ridenbaugh. "All the halls are still filled to capacity, including Jenkins cottage," said Mr. Turner. Congestion will be relieved by the end of the week, he believes.

The men's employment office, in charge of Mr. Turner, will begin operations after all men wishing employment have filed their class schedule cards at his office. Regular part time positions on the campus are all filled, but odd jobs will be given to students as calls come into his office.

Religious census cards are as yet unavailable, due to the rush of work in the registrar's office. They will be ready about the middle of this week, at Mr. Turner's office in Lindley hall.

CHURCHES WILL ENTERTAIN FRIDAY

All Denominations Have Receptions for Students Oct. 4-Other Social Functions Displaced

Church receptions for students both old and new will be given by Moscow churches on Friday, October 5, with the exception of the Roman Catholic church which will not hold its reception until the following week. These receptions will be given to enable students in various churches to become acquainted with each other and to familiarize them with the life and activities of the churches. Other campus activities will be set aside for the evening so that all may attend.

Unique entertainments have been prepared by the different churches which will carry out their programs along such lines as registration, the big sister idea, and radio. Stunts, music, games and formal programs have been prepared by some. Others will entertain with dancing.

HATFIELD HEADS SOPHOMORE CLASS

Bus Grimm Is Vice President; Anne Day, Secretary; and Catherine York, Treasurer

Eldon Hatfield, Nampa, was chosen president of the sophomore class for the fall semester at the first meeting of the class held in room 311 Administration building last evening. Other officers elected were Gerald Grimm, Boise, vice president; Anne Day, Spokane, secretary; and Catherine York, Boise, treasurer. A non-combine ticket was defeated by a large vote.

An unusually large attendance was reported, with about 35 unable to find seats in the large lecture room. A report was made to the class by the committee in charge of posting edicts. Their action was justified after Alvin H. Reading, student body president, explained instructions given to the two lower classes by the executive board.

FRATERNITIES MUST SUBMIT NEW BONDS

Interfraternity Council Urges Groups to Comply With Important Rule

The first meeting of the Interfraternity Council was held last Tuesday night at the S. A. E. house for the purpose of discussing pledging on the campus this semester and the rules concerning it.

It was urged that the different fraternities enter upon rush week with a spirit of fairness to all concerned which is one of the objects for which the council is formed.

The opinion was voiced that rush week at Idaho with a greater amount of cleanliness than the previous years.

Old Bonds Returned. The old bonds which have been held in the bureau's office were given back to the respective houses and new bonds were called for. However, some fraternities have not submitted their bonds and they are asked to do so at once to either Allen Janssen or Alvin Reading.

Another meeting will be held in the near future and it is possible that rushing practices and changes in rushing rules will be brought up at that time. It is planned to have President Kelly talk to the group and give his opinions and counsel.

FROSH ELECT LEMP CLASS PRESIDENT

Other Three Classes Will Hold Election Within Two Weeks

Bernard Lemp, Boise, was elected president of the freshman class for the fall semester at the first meeting of the yearling class held at the auditorium last Thursday evening.

Other officers elected by the class of 1932 were: William Ennis, Nampa, vice president; Anna Frederickson, Malad, secretary; Clark Smith, Wallace, treasurer; and Ralph Olmstead, Minidoka, yell king.

Lemp was prominent in athletics and other activities in the Boise high school, and was high point man at the state high school track meet here last spring. He is registered in the pre-medical curriculum.

The freshman class gathering marked the beginning of campus politics at Idaho this fall. More than five hundred new students attended the meeting, and showed an active and enthusiastic interest in all the proceedings. Alvin H. Reading, president of the ASU, and members of Blue Key fraternity, assisted the freshmen in the balloting.

Elections for the other three classes will be held during the next two weeks. Definite dates for the meetings will be made by the past presidents, and announcements will appear in *The Argonaut*.

ELDRIDGE CHOSEN GRAD SCHOOL HEAD

Fills Temporary Vacancy Left by Dr. Wodsedale's Brief Absence

Dr. Jay G. Eldridge, dean of the faculty and acting dean of the college of letters and science, has been appointed acting dean of the graduate school for the present school year, taking the place of Dr. J. E. Wodsedale, on a year's leave of absence for study in the east.

Dean Eldridge, in addition to his administrative duties, is professor of romance languages and head of the department. Dean Eldridge is one of the oldest members of the Idaho faculty, coming to the institution in 1901, remaining here since. He was the first member of the faculty to be accorded sabbatical leave of absence during the past year.

Dean Wodsedale is pursuing advanced research at the University of Minnesota this year.

INTERCOLLEGIATE KNIGHTS

Sophomore and junior members of Intercollegiate Knights will hold a meeting Wednesday evening, October 3, at 7:30 o'clock in room 207 Administration building.

PAN HELLENIC TEA STARTS SORORITIES ON RUSHING WEEK

Women's Houses Entertain New Girls at Progressive Tea Friday

PLEDGE NEXT SUNDAY

Girls Receive Invitations to Groups at U-Hut Preceding Parade

With approximately 300 girls visiting eight sororities during the Pan Hellenic tea Friday afternoon, between the hours of 4 and 8 o'clock, the 1928 rushing season for Idaho promises to hold the center of interest until its termination next Sunday, October 7, when pledging will take place.

The various women's houses were decorated with fall flowers for the tea Friday. Although some groups were dressed formally and some in afternoon dresses, and although the refreshments ranged from small cakes to candied grapes, the whole affair was one large, progressive tea, with the sole object of that meeting the new girls on the campus and giving them an idea of the different sororities.

Rush Parties end Saturday.

The rush parties, which began Sunday and will end Saturday, are divided so that each house will have three parties. Breakfast, luncheon, tea, dinner and fireside are the different affairs. Invitations are issued 24 hours ahead of each party. Three invitations to the same house is considered a bid of the particular group to affiliate with them. On October 7, those who have received bids from one or more houses go to the U-Hut and under the direction of an official, write down their first, second and third choice of sororities.

The official consults the lists which each house has submitted and notifies the girl to which house she has been bid. The girl then walks to that house and pledging takes place.

OUTLOOK IS BRIGHT FOR DEBATE TEAMS

J. D. Garland, New Coach, Will Have Six of 1927 Team

Prospects for a successful debating season are exceptionally bright this year, according to Walter Slaughter, manager of the varsity debate team. Six members of last year's team are again on the campus, ready to answer the first call for debate candidates, to be issued about October 15. They are Alvin H. Reading, John Ewing, George Huber, Walter Dean, Ralph Peterson and Walter Slaughter.

To bolster this array of veterans last year's freshman team furnishes Cowboy Adams, Warren Goehour, Frederick Marks and Kenneth O'Leary. The loss of Herbert Wunderlich and Farnsworth Jennings through graduation will be felt.

Garland N Coach. J. D. Garland will coach varsity debate during the coming season. He comes to Idaho from the University of Indiana, where he was a member of the debate team. While at Indiana, Mr. Garland had complete charge of frosh and women's debating for two years, and was also assistant varsity coach. Mr. Garland is affiliated with Tau Kappa Alpha and Phi Delta Gamma, national honorary speech societies; Phi Beta Kappa, honorary scholastic society; and Kappa Delta Rho, national social fraternity.

The debate schedule for this year will include some of the following schools: Washington State college, Whitman college, University of Washington, University of Oregon, University of Montana and University of British Columbia.

Candidates for the women's team and the freshman squad will try out some time this month. Tryouts for both teams will be held in conjunction with the varsity turnout. Announcements will be made later.

DR. RUSSELL TAKES LONG VACATION TRIP

Education Professor and Wife Tour by Auto to East During Summer; Also to California.

Dr. and Mrs. R. D. Russell recently returned from a vacation trip in which they traveled by automobile more than 9500 miles. Leaving Moscow they drove to Martin, Tennessee to visit relatives of Doctor Russell. They crossed the Arizona desert during the hottest part of the year, and visited interesting places in the southwest. From El Paso, Texas they drove into Mexico to Juarez. Driving by the coast of California they visited friends, and relatives of Mrs. Russell, and enjoyed the summer resorts along the way. They returned by way of the Columbia River highway.

They were accompanied part of the way by Miss Elizabeth Russell of Lewiston, Idaho, a sister of Doctor Russell; and by Howard Basley, assistant professor of psychology, and his bride who will be remembered as Miss Eleanor Beamer.

PEP BAND

The pep band will hold a rehearsal Wednesday afternoon at 4 o'clock in the U-Hut.

"CHARLIE"

ONE MAN WHO HAS A good part of the world on his shoulders this week is Coach Charles Erb, faced with the problem of whipping his men into shape for the crucial Gonzaga game at Spokane Saturday. If any body has a right to worry, he has.

CARVED FIGURES TO DECORATE TOWERS

Life-like Carvings Ready for Frieze on Memorial Gym Shaft

Figures of cowboys, Indians, miners and plainsmen will form the frieze for the upper elevation of the memorial tower of Idaho's new armory-gymnasium. Eight oblong cement slabs, specially sculptured for the purpose by the O. N. Wolff company of Spokane, have arrived in Moscow and will be put in place as soon as preliminary construction on the tower, now under way, is completed.

The realistic representations of the pioneers of Idaho depicted on the blocks were cast from forms cut by the Wolff company's own sculptor. Precast concrete stone of a pinkish hue is the material used on all stone decoration on the new building.

Cowboy is Typical. The figure of the cowboy shows a gangling puncher, be-spurred, wearing chaps and typical broad brimmed hat. A cigarette dangles lazily from his mouth as he takes aim with his "six gun" over his knees. Tomahawk in hand and naked except for a breech clout, the Indian warrior on another stone appears about to scamp an unsuspecting victim from behind.

The Daniel Boone type of early woodsman is shown in a third block. A coonskin cap, buckskin trousers and a flint-lock firearm provide the touches that make the figure a fitting companion for that of the Indian.

Prospector Pays Gold. With his gold pan in his hands, the miner of the fourth block kneels over expectantly, a stern yet hopeful expression on his face, shaded by the flat topped, round brimmed miner's hat.

Two blocks of each figure have been made. Four will be used on the north side, the front of the gym and two each on the east and west sides.

The main entrance to the building is being constructed rapidly. Gothic arches and carved ribs being the main features of the work.

FIRST ASSEMBLY FRIDAY MORNING

President Kelly to Address Students at Initial Meeting; Assemblies Not Regular This Year

President Kelly will address the student body at the first general assembly of the year Friday morning at 10 o'clock. Doctor Kelly will return Thursday morning from southern Idaho where he has spent the past week on a speaking tour.

Regular Wednesday assemblies have been dispensed with this year, gatherings of the students being called only when there is a particular reason for doing so. The committee in charge will arrange the schedule so that the same classes will not be interfered with each time there is an assembly.

FROSH SCHEDULE

October 20	U. of Washington at Seattle
October 27	Washington State at Pullman
November 3	U. of Montana at Moscow
November 10	Ellensburg Normal at Wenatchee
November 17	Cheney Normal School at Cheney

NEW FRATERNITY HOUSES TAKING SHAPE RAPIDLY

Alpha Tau Omega Home Ready in Two Weeks; Delta Chi Soon

PLANS ELABORATE

Contractors Making Rapid Progress on Additions to Fraternity Row

Virtually all exterior construction on the Alpha Tau Omega fraternity home at Idaho and Deakin avenues are now rapidly completing the exterior, announces Hal D. Bowen, president of the group.

Another important addition to Idaho's fraternity row is fast taking shape as the contractors speed construction on the Delta Chi house at Blake and University avenues. This house will be ready for occupancy in eight weeks, although the structure may not be fully completed at that time, the contractors say.

Ready Within Two Weeks.

Mr. Bowen indicated the Alpha Tau Omega house would be completely finished within two weeks.

Exterior work on the Delta Chi home will be given the right of way to prevent any delay from stormy weather.

Alpha Tau Omega and Delta Chi's new homes will contribute a valuable addition to Greek letter organizations of the campus and will provide housing for nearly one hundred men. The A. T. O. home is designed to correspond with the Gothic architecture of older houses on the campus and will contain many modern interior features. The house is of four stories. Delta Chi's home will be built of sandstone and its interior will combine many modern details in use in other fraternities and sororities in Moscow.

PEP BAND CHOOSES THREE MUSICIANS

Band of 21 Instruments May Play Saturday at Gonzaga Game

One clarinetist and two trombone players were added to the Pep band following tryouts held last Thursday and Friday afternoons at the U-Hut. The new members are Mills Fisher, Lewiston, clarinet; Peter Pence, Payette, and Forest Irwin, Nampa, both trombone. Including the new members the band now comprises 21 men which will be the size of the organization for the year, according to Sam Hutchins, student director, who conducted the tryouts.

Plans to have the band play at the Gonzaga-Idaho game in Spokane next Saturday lack the approval of the executive board. If the band makes the trip it will play for a dance in Spokane Saturday evening.

Practice More Often. This week frequent rehearsals are being held, special emphasis being laid on Idaho's "Victory Song," which will be played at the next game here. The words were written by Ethel Lafferty and the music by Claire Gale.

The complete personnel of the band is as follows:

Clarinet: Lee Gittins, Pocatello; Tom McGonigle, Moscow; James Hawkins, Coeur d'Alene; Sam Hutchins, Lewiston, and Mills Fisher, Lewiston.

Alto: Charles McConnell, Moscow; Melvin Fuller, Moscow; Dale Goss, Kellogg; Hoyt Stephenson, Twin Falls.

Trombone: Ray Kelly, Rexburg; Aldon Tall, Rixby; Peter Pence, Payette; and Forest Irwin, Nampa.

Cornets: Harry Walden, Bonners Ferry; Arthur Kryger, Coeur d'Alene; Joe Pierson, Spokane; and Maurice Nelson, Boise.

Baritone: Gilbert Burns, Coeur d'Alene.

Bass: Frank Rettig, Lewiston.

Drums: Allan Stowasser, Coeur d'Alene, and Charles Terhune, Burley.

PLENTY MUSICIANS, INSTRUTOR SAYS

Increased Interest in Activities Will Mean More Advantages For Class, Prof. Claus Asserts

Increased interest in musical activities has been manifest by the larger turnout of students interested in the orchestra.

The increased enrollment in the orchestra probably will mean increased advantages for its members, says Prof. Claus. Two public performances will be given during the year, one each semester and probably several trips will be made to neighboring towns.

The university orchestra, under the direction of Professor Claus, assembled Thursday for the first time. Regular rehearsals will start Tuesday, October 2. Any students who have not reported have been asked to see Mr. Claus at the next meeting of the class.

hold the main light Friday afternoon. The committee board has petitioned the Board of Trustees to excuse classes from attending as football games and other sports conflict on following days. If the petition is granted, notices will be posted beforehand.

SOCIAL CALENDAR UNDER NEW PLAN

Petition For Dates, Must Be Filed With Dean French and Granted by Doctor Church in New Scheme.

The Calendar committee, which grants dates for social events, will work under a new system this year, with the petitions and the calendar on which social dates are marked being removed from the presidential office.

Petition blanks will be found in the office of Miss Permeal French, dean of women, while answers to petitions will come from Doctor J. O. Church, secretary of the calendar committee. The social calendar itself now hangs in the hall leading to the rear door of the Administration building. Petitions for house functions will be granted according to the time they are filed with Miss French, those coming in first being given the preference.

KELLY INTERESTED IN AIR PORT PLAN

Believes Aviation Would Link Main Campus and Branch

When the Moscow chamber of commerce considered recently the proposition of developing a community airport at Moscow, Dr. F. J. Kelly, president of the university, said the institution was deeply interested in the development of aviation as an aspect of higher education in the state. With the main campus in northern Idaho and the southern branch in southern Idaho, about 700 miles apart, the possibility of aviation to bring the two campuses closer appeals to the new president. Faculty members particularly those engaged in the technical and professional division of the institution, agriculture, mining, forestry and engineering, business administration education, and law could use planes advantageously to reach the southern part of the state without excessive time spent in travel.

The university finds interest in aviation among Idaho high school students is growing and in questionnaires returned by high school seniors this year a large number of boys expressed a desire to specialize in aeronautics. Doctor Kelly feels development of airways in Idaho holds a partial answer to final elimination of the effect of the mountainous barrier between southern and northern Idaho.

NEW RIFLE RANGE IS READY FOR USE

Modern Target Gallery Set Up a Mile West of Moscow

Construction on the new outdoor rifle range located about a mile west of Moscow near the Pullman road has been completed, according to Major A. T. Schenck, who was in charge.

The new range will be modern in every respect and although it will have only five targets, it will be equal in any range in the country. The pit is built of reinforced concrete, about 50 feet long and seven and one-half feet deep. Drainage has been provided so that the pit will always be dry. Firing will be from 200, 300 and 500 yards, from dirt mound points.

Funds for construction of the range were appropriated by the state legislature. The federal government is furnishing the standard type disappearing targets.

It is not expected that the new range will be used very extensively before next spring when advanced military students who expect to attend the Summer R. O. T. C. training camp at Fort Wright go out for practice.

PLEDGING RELIEVES CONFUSION IN MAIL

Two Clerks Handle Increased Business at U-Hut Station

Just at this time of year, the post office is about the busiest place on the campus. Although no new help has been added, the two clerks who handle the post office business at the U-Hut are very rushed. Some of the confusion is over now that men who have pledged out to the different houses are located, and their addresses settled.

Women who will move to the various sororities help the postmaster and cause less confusion and delay for themselves, if they will, when they find their new addresses, go to the U-Hut and file change of address cards.

Many students have their own boxes at the university post office although mail is delivered directly to the street addresses. Students who have C. O. D. packages in the station do not need to worry for they will be sent notification cards. After this week the work will be easier for every one will be settled at his own address.

BLUE KEY MEETING

A special meeting of Blue Key will be held at 8 o'clock this evening at the Kappa Sigma house. Plans for handling the ticket sale for the special train to Spokane Saturday will be discussed.

SPECIAL TRAIN WILL TAKE STUDENTS TO SPOKANE SATURDAY

Blue Key Sponsors Project; Two Dollar Fare for 300

NO CLASSES EXCUSED

Freshman Women Must Stay Home for Last Rush Parties

Permission to operate a student special train to the Idaho-Gonzaga football game at Spokane was granted to Blue Key fraternity, by the president's office Monday afternoon.

Two railways, the Great Northern and the Northern Pacific, are willing to grant a special \$2.00 round-trip fare, provided a guarantee of 300 passengers is made. Passenger agents of both companies are in Moscow, and definite selection of one road will be made by members of Blue Key today. This special train is sponsored by Blue Key as a student enterprise, and resulted from plans outlined at the first meeting of the organization held at the Blue Bucket Inn last Wednesday. The petition was handled by the ASU executive board.

Includes Townspeople. Tickets will be sold to students and townspeople, and will be apportioned to the various group houses on the campus. A special meeting of Blue Key has been called for tonight to plan the ticket sale.

The train will leave Moscow about 8 o'clock Saturday morning, and will leave Spokane on the return trip at 11 o'clock that night. The excursion rate will be good for one day only. The president's office granted permission with the following provisions:

Freshman women will not be allowed to go, due to the interference with the Pan-Hellenic rushing party program. Several sororities have rush parties scheduled for Saturday, and absence of rushees from the campus would be a decided injustice to the groups concerned.

Must Take Care. Saturday classes will be held as usual, and students who go will receive cuts for all classes missed. Proper chaperones will be appointed by Dean Permeal J. French, and Blue Key fraternity will be held responsible for the conduct of students who go. University officials added this clause with the idea in mind that no reflection can come to the good name of the university.

Blue Key members will announce the detailed plans for the ticket sale after the meeting tonight. It is thought that representatives will be appointed in each group house and hall on the campus who will make an intensive effort to have their quotas sold not later than Thursday.

MUSIC DEPARTMENT WILL GIVE ORATORIO

Glee Club Candidates Soon To Begin Tryouts for New Troupe

Plans for music groups this year include the organization of a University Choral society which will be open to students, faculty members and townspeople, according to Prof. Theodore Kratt, head of the music department and director of the glee club.

A Victor Herbert operetta and an oratorio, perhaps Mendelssohn's "Elijah," will be given by the University Glee and the Treble Clef clubs, and the oratorio by the choral group, after the three groups have been completely organized.

The orchestra this year will have a program of travel to neighboring towns if it can be arranged. Professor Kratt says. Anyone interested in the instrumental group may apply for membership to Prof. Carl Claus, the director, at this studio.

Meetings of those who wish to make the glee clubs will be held for several weeks after the first call for meetings, and then tryouts will be held. Those aspiring to membership must be present from the first of the general get-togethers which will be held in the science hall auditorium.

Those who do not get into the glee clubs will be given an opportunity for training in the Choral society.

TWO HOME EC GRADS GET GOOD POSITIONS

Julia Pond and Sara Sumsion Accept Work With Extension Dept

Julia Pond and Sara Sumsion, both Idaho graduates, have accepted positions in the extension division. Miss Sumsion is the district home economics demonstration agent, and Miss Pond the county agent at Pocatello.

The district home economics agency of Rupert is held now by Miss Nora Yarborough, Miss Mary Van Deusen, whom she succeeds having been called to Freshman, Oregon, because of her parents' illness. Miss Yarborough taught at Clifton, Arizona last year, where her sister Ethel, a graduate from Idaho last June, is taking her place.

REGISTRAR'S NOTICE Students who have changed addresses are requested to fill out change of address cards at the registrar's office immediately.

PREDICT BIG YEAR IN HOME ECONOMICS

Instructors Back From Summer Travel Ready for Increased Enrollment

With increased enrolment in every class of the department and all instructors returning to the university with new ideas on their various phases of the curriculum, the home economics teachers are expecting an unusually good term, Miss Katherine Johnson, head of the department, said Wednesday afternoon.

Thirty-five freshmen girls, an increase of 40 per cent over last year's number, 20 seniors, and a large number of transfers in the junior and sophomore classes are registered this week.

From Alaska to Europe the instructors claim their summer spent. Miss Adah Lewis visited Alaska, traveling over the new Richardson highway from Chitina to Fairbanks, where she spent much of her vacation. She visited the only college in Alaska, the Alaska Territorial at Fairbanks, and old gold fields in that vicinity.

Gleaning ideas from shops in the east for her clothing classes was on Miss Ida Ingall's summer program after she attended the convention of the American Association of Home Economics in Des Moines.

Bicycles Thru Holland. Books on modern design, textiles, which she got from Italy, pictures and etchings are some of the materials Miss Elizabeth Johnson brought home with her from Europe for her interior decorating classes.

Old castles and palaces, especially those in Germany and England, were visited for their interior decorating schemes and their old furniture. Miss Johnson attended the International Press Exhibition at Cologne, shopped in Paris and Berlin, visited Heidelberg and bicycled through Holland.

Her complete trip took her through Scotland, England, Austria, Switzerland, Czechoslovakia, Holland, Belgium, France, Germany and Italy.

Miss Jensen attended the convention at Des Moines, to which Helen Jensen, Millie McCoy and Gwendolyn Griffith, graduates of the University of Idaho, also went.

Miss Dorothy Ellis, state supervisor of home economics, has not returned yet, but will be here soon.

ANDERSON TAKES KIRKHAM'S PLACE

Idaho Mines Bureau Expert Appointed to Geology Position

Appointment of Alfred L. Anderson, geologist with the Idaho State Bureau of Mines and Geology, as assistant professor of geology in the University of Idaho school of mines has been announced by the president's office. Mr. Anderson takes the place of Prof. Virgil R. D. Kirkham, on leave of absence for graduate study at the University of Chicago.

Following his graduation from the Idaho school in 1925, Mr. Anderson did graduate work at the University of Chicago, and was appointed to the mines bureau position upon his return.

During the 1927 summer field season Mr. Anderson made an extensive geological survey of the Clarks Fork area in northern Idaho. During the past summer Mr. Anderson made an examination of the silver-lead discoveries which have been reported recently in areas lying south of the St. Joe river in Benewah and Shoshone counties. The second half of the summer found him engaged in study of the nature, genesis, and depth of ore deposits in the Lava Creek area near Arco in south Idaho.

PAIR NAMED TO RESEARCH JOBS

School of Mines Announces Selection of Two For Work on Metallurgical Problems.

Metallurgical research fellowships at the University of Idaho school of mines for the 1928-1929 school year have been awarded to W. W. Staley of the New Mexico School of Mines and Edward C. Miller of the Missouri School of Mines, according to an announcement by Ernest W. Ellis, acting dean of the school.

Two fellowships are awarded each year by the Idaho school in co-operation with the United States bureau of mines for research on Idaho complex ore problems.

PROSPECTS BRIGHT FOR R.O.T.C. BAND

Many Trying Out for Places With Twenty-five Old Men Back

With a nucleus of 25 men around which to build, Bernt Nelissen, director of the R. O. T. C. cadet band, believes that he will have a better musical organization than he has had for a number of years. Mr. Nelissen chooses new material for the band from the incoming freshmen each year, and from the large number of new men who have turned out this fall, he expects to find the best of material.

The saxophone candidates are out in large numbers, more than enough to fill the vacancies. The bass section will be almost entirely new, and will be made up of the best musicians available. It will be some time before the personnel of the organization will be definitely decided.

The band will begin practicing on march numbers immediately in preparation for the Armistice day parade, when the R. O. T. C. unit will march downtown. It is possible that the band may have some part in the dedication ceremonies of the new memorial gymnasium at the annual homecoming game here November 3. No definite plans have been made to date.

The band will give its regular semi-annual concert sometime at the end of the first semester, Mr. Nelissen said.

YEAR BOOK EDITOR ORGANIZES STAFF

McDonald Prepared to Start Actual Work on "Gem" Before End of Week

Work has started on the 1929 "Gem of the Mountains" and the editor, George McDonald, expects to have organization of the staff completed by the end of this week. Appointments will be made following a meeting of all interested students in room 206 of the Administration building, Wednesday at 4 o'clock.

Several new sections will be seen in the book this year, according to McDonald. The motif has not been definitely decided on but the new Memorial Gymnasium is to be featured in this year's Gem. Ideas are being taken from fifty of the biggest and best college annuals in the United States, including the University of Washington "Tee", the University of Illinois "Jillio", and the "Badger" of the University of Wisconsin. There will be several night scenes in the campus section of the book. No change will be made in the size of the Gem this year.

The staff is headed by George McDonald, editor, who will be assisted by Allen Janssen. Don Warner, who was to have been the business manager, failed to return to school this year and his position has been taken by Edward A. Coon, assistant business manager. Advance sales have been very good so far, according to the manager.

McDonald urges all of the students, who have not already done so, to make appointments with one of the studios in town to have their pictures taken for the Gem as soon as possible.

VETERANS REPORT ON BRANCH SQUAD

Twelve Lettermen Answer Grid Call at Pocatello; Seven Games Scheduled in South Conference

Twelve lettermen form the nucleus of the 1928 Southern Branch eleven which held its first workout September 24 under the tutelage of Felix Plasting. Experienced men are returning for all positions and Coach Plasting expects to find in Charles Garner, Pocatello, one of the best quarters in the southern conference. Garner starred last year on the Mount St. Charles, Montana team. The first game of the season will be played October 6 at Pocatello with Montana State normal. Six other games with junior colleges of Montana and Utah are scheduled.

L. D. S. INSTITUTE DEDICATED TUESDAY

New Church Building Near Campus Ready for Winter Services

Opportunities in cooperative religious education were stressed this week by higher education directors of the Latter Day Saints church at the dedication of the new L. D. S. institute near the campus of the University of Idaho last Tuesday.

The new institute will care for the religious needs of L. D. S. students attending the state university, the majority of which come from southern and southeastern Idaho. Charles W. Nibley of the first presidency, came from Salt Lake City to participate in the dedication. "The institution is a wonderful plant, a credit to the church and to the university," said President Nibley.

Governor Takes Part. Among the others participating were Governor H. C. Baldrige of Idaho, W. D. Vincent, state commis-

sioner of education, Dr. Joseph F. Merrill, in charge of education for the L. D. S. church; Peter G. Johnson, prominent church member from Blackfoot; Senator John W. Hart, Rigby, J. Wylie Sessions in charge of the Moscow institute.

President Frederick J. Kelly of the university, although unable to attend the exercises personally, sounded a fundamental keynote in the matter of religious education. Doctor Kelly feels there is need for greater cooperation between school and college and the church in supplementing a student's cultural education with spiritual training. He pledged the support of the university to the L. D. S. church in the new undertaking.

PSYCH CLASS USES MENTAL TEST DATA

Results of Quiz Used for Future Records of Students; Papers Not Graded Yet

Results of the mental tests given to all new students of the university last Tuesday, will be used by the psychology department as the basis for an intensive study of the relationship between mental capacity and the future record of students. The test was prepared by the American Council of Education, and contained 188 problems.

In connection with the mental test the following information was gathered from all the new students: School formerly attended, vocation he wishes to follow, division he expects to enter, and amount of financial self-support exclusive of summer earnings. The psychology department will study these facts to see if they have any relationship with the results of the mental test, or the success of the individual at college. In time these mental tests and facts concerning the lives of the students may be studied to see if any relation exists between the test results and the station in life of the students, both economically and socially.

Since similar mental tests have been given new students for the past seven years, the results of these tests may be used to discover any existing relationship between the test results and the success in life of former Idaho students.

As 649 freshmen and new students took the test, it will be two weeks before the tests are corrected, checked, evaluated, and comparisons made.

IDAHO IS RECIPIENT OF BANK LOAN FUND

American Bankers' Society Awards \$250 Loan Fund. Only One Student Can Borrow

The American Bankers' association, a national organization, has awarded one of its loan funds to the University

of Idaho this year. This fund enables one student each year to borrow \$250 without interest. The student agrees to return the money one and one-half years after his graduation. One student at the University of Idaho has availed himself of the loan this year.

VANDAL GOSSIP

By Herman Welker

The Montana State game is over and leaves many Idaho backers with a hazy idea of what the Vandal success will be this year. Many are critical and probably justly so. The game was terrible, not only from the spectator's viewpoint, but from the brand of football displayed by both teams. In short, Idaho played very poor ball from the sound of the first whistle until the end.

Coach Erb, in an interview given Sunday night, was clearly disgusted with the showing of his team.

"I'm surprised with the showing of my squad. The boys know how to tackle, but for some reason utterly failed to put into practice what they had yearned. Our chances for winning the Gonzaga game are doubtful and rest entirely upon the boys themselves. If they have the right spirit and improve fully 100 per cent, we might play Gonzaga a fairly close game."

The tackling of the Idaho team was what one would call pathetic, and in no way could be contrasted with the tackling of the last year's Vandals. Many tackles were missed and twice as many were shaken off. Until the Idaho team learns to get a man, and then apply the "death grip," chances for winning a coast conference game are vague. In a talk with eight Montana State players it was learned that they too were surprised at the tackling and blocking of the team.

Of course it must be considered that Saturday's game was the first of our season and the second scrimmage game the boys have had this year. Kershnik and Perrins will be back to help in the backfield but the real problem seems to be in the line.

The team appeared slow and groggy. Little life was shown by the line and the characteristic "booming" of the backfield was missing. Poor Paul Hutchinson worked well but too often. No back can ever stand the task that was handed Paul by his quarterbacks. Paul appears to have improved immensely from last year, with all prospects for a wonderful season. He showed the only ball-carrying class of the Idaho backfield, and should be complimented highly for his play.

The most unique play of the game was when "Spec" Diehl was called back from tackle to punt, punted beautifully, and then dashed down the field and made the tackle. "Spec" is certainly a ball-hawk and is fair to fill the shoes of his older brother, Chuck, the star of the Idaho line last year.

Next Saturday Idaho meets Gonzaga at Spokane and if the team plays anywhere near the brand of ball displayed here Saturday, well, it will be hard to explain to the folks at home. With such a spirit and such tackling, Paany Hunting and Mel Ingram will have a large afternoon, not only in the eyes of their school, but in the eyes of contenders for coast high scoring honors.

Idaho's pass defense was decidedly weak and on the aerial toss that decided the game, three eligible Montana State men were waiting to receive the ball. It certainly looked like some Idaho backs had forgotten one of their primary duties, that of protection against passes. Gonzaga will throw a lot of passes and will play fast, smart, head-up ball and the Idaho backfield cannot rely upon Robertson to protect all eligible men on pass plays.

In contrasting chances of a winning team, from the game played Saturday it appears that Whitman will be the only team to succumb. Idaho's season is tough, broken only by long, hard road trips, and nothing but a new spirit and true, hard work will pull the Vandals through with anything like a decent percentage of wins.

Vandals, Idaho is going to follow you to Spokane and back you to the end. You have the potential power to win if the pover is properly executed, and 2000 Vandals are back of you. The odds are seven to five against you so upset that old dope bucket by playing smart football and win.

PEPPY JUNIOR SONG MAY BE VICTORY TUNE

Idaho Students Write Music and Words of Song Which May Become Vlm Inspiring Favorite

The Vandal Victory song, the words of which were written by Ethel Lafferty and the music by Claire Gale, is to be introduced to Idaho students at the next home football game, to be adopted as one of Idaho's official victory songs. The song was used for the first time last spring when the juniors sang it at the annual class stunt fest. It was awarded second prize in that contest. The song is peppy, has a catching tune and should prove popular with the students according to those who have heard the Pep band practicing on it.

The words are as follows: Oh, fight for victory, our Idaho We want a victory, our Idaho Steadfast we stand With you against the foe So, fight, fight, fight.

We proudly sing to you, our Idaho Our praises ring for you, our Idaho You're backed to stand The best in all the land So, fight, fight, fight.

Herbert Wanderlich, 27, a member of the Coeur d'Alene high school faculty, and Clyde Richards, 27, Lewiston, were weekend guests of Sigma Alpha Epsilon.

WEEKEND GAMES PRODUCE LITTLE IN SPECULATION LINES

Idaho's Defeat Surprises But Stanford is Beaten Too

RACE WILL BE CLOSE

Oregon Teams Show Power; California Indicates Hidden Strength

Pre-conference games of Saturday produced no startling upsets although two conference members went down to defeat, namely, Idaho and Stanford. The Cardinals, always referred to as slow starters, lost to the Olympic Club 12-6. Pop Warner's men failed to impress, while the Olympics ran behind splendid interference to victory when Morton Kaer returned a punt, 65 yards for a touchdown.

A last minute pass won for Montana State over Idaho 15-13, the winners scoring a safety, in addition to two touchdowns. The Bobcats' plunges failed to dent the Vandal line and a desperate pass over the goal line decided the contest. The Idaho squad played flashy football in spots, recovering their amble as well as the Montana's, and with the smoothing out of the rough spots brought to light in this game, the Vandal gridders will be ready for Gonzaga next Saturday.

California Routs Will. California romped over Santa Clara in an impressive style to win 22-0. The Golden Bears displayed speed and power, and will offer a real bid for the conference honors. Santa Clara while not a conference member, has a strong team, and has practiced since August 15 under the coaching of Adam Walsh, former Notre Dame all-American. Moose Garrity of Twin Falls is a member of the Bear squad and great things are expected of him this year. He was declared ineligible for varsity competition last year due to his enrollment in a Portland college.

Pacific offered but little resistance to the University of Oregon eleven and lost 45-0. The Webfoot stars were Robinson and Woodie, the latter from Nampa. Despite the lopsidedness of the score, Oregon does not appear to have the team that will be in the race for leadership.

Oregon State defeated the California Aggies 14-0 in a game in which Coach Schlessler had the opportunity to try out his entire reserve force and still prevent the visitors from scoring. The California Farmers showed little or no offense, and were able to register but one first down against 12 by the Orangemen. The Oregon States have a veteran squad and are rated highly by Coach Warner of Stanford.

Games Lopsided. Washington and U. S. C. both won unimportant, one-sided victories against weak teams. The Huskies trounced Williamette 26-0 and the Trojans trounced Utah Aggies 40-12. Washington will miss P. L. Wilson, who featured last year with his leading of interference. U. S. C. is again working the quarterback on three-fourths of the plays, which makes him the heavy ground gainer. Eventually the scribes who select all-Americans, will awaken to the fact, that Jones' football and not the individual, is the reason for the scintillating performances of the quarterback. The last two men to receive the coveted honor for this position, Kaer and Drury were U. S. C. players, and Don Williams of the 1923 team will likewise make an impressive showing.

The "baby" conference member, U. C. L. A. tied with Arizona 7-7. The UCLA's, who journey to Moscow, Idaho in October, did not display much strength Saturday but have the makings of a real team and should offer the Vandal's a hard contest. Most local interest centered around Gonzaga losing to Washington State 9-0. The Cougars were outplayed the first half but a last quarter drive, starting with powerful line thrusts by Ted Rohwer and ending with a 15-yard field goal by Archie Buckley which decided the game. The Gonzagas twice threatened the Cougar goal but lacked the necessary punch to carry it over.

DRAMATISTS NEED TRYOUT NO LONGER

Play Production Classes Will Be Conducted On New Plan

Elimination of try-outs for those who wish to take up elementary play-production is one of the plans going into effect in the dramatics department, under the direction of Prof. John H. Cushman, and his two assistants, Mrs. Harry Brent and Miss Alene Honeywell.

Rather than lose talent which might not be discovered in a single try-out, Professor Cushman, prefers to give every individual in the class a chance to take roles in the groups of plays given during the year. Should more than one person prove himself fitted to any role in the casts, he will be given a chance to appear publicly.

Work on a series of one-act plays for the elementary group is beginning and the advanced class, whose members have been chosen, will soon start on a three-act comedy to be given before Thanksgiving. Long plays will be given in November, sometime near mid-semester and in April.

Six of the first eight one-act plays are the following: "The Home for the Friendless," "The Vanishing Princess," "Two Crooks and a Lady," "Smart's Party," "The London Ferry Air," and

THE WEEK SPOT

Advanced Class Named

Those admitted to the advanced play production class were: Germaine Gimble, Miriam Howerton, Eldora Davis, Carol Feltis, Ethel Lafferty, Louise Lamelle, Jeraldine Sherley, Grace Parsons, Estelle Pickrell, Lillian Woodworth, Burdette Belknap, Frank Eggers, Art Eneigh, Mac Harawick, Jess Honeywell, Maifland, Hubbard, Dan McGrath, Frank McKewen, Harold Packer, and Harry Robb.

Miss Alene Honeywell, a graduate from Idaho last June, and one of Idaho's leading actresses, has been added to the dramatic staff this fall to succeed Mrs. Warren Montgomery, nee Marie Johnson, who assisted last year. Mrs. Harry Brent, who also assists, was prominent in dramatics when she attended the university. She was on the staff last year.

Making Primers

BLASTERS' HANDBOOK

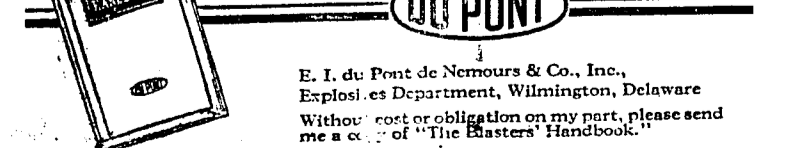

PRIMING a dynamic cartridge seems like a very simple job when you watch a professional blaster—a thrust into the cartridge, a blasting cap crimped onto the fuse and inserted into the hole, and the fuse tied to the cartridge with a piece of twine.

But each of these apparently simple steps requires experienced handling for the sake of efficiency and safety. Upon proper priming depends complete detonation, avoiding the pulling out of detonator, guarding against moisture, easy and safer loading of bore holes. There are two methods of detonating a charge—safely: fuse and blasting cap or electric blasting caps.

Each step of the several methods of priming a cartridge is fully explained in classroom terms and clearly illustrated in Chapter Two of the Blasters' Handbook.

The entire Handbook, in fact, is one of the practical reference and study works found in the classrooms of leading technical schools, colleges and universities. Written out of the experience of du Pont field service men over a great many years and taken from all fields. Meaty, well arranged, and condensed into handy pocket size.

This coupon will bring you a copy absolutely FREE

Form for requesting a free copy of the Blasters' Handbook, including fields for Name, Dormitory Room No., Street, City, and State.

GREEN CAP EDICTS

FRESHMEN on the campus are in a quandry, wondering whether or not they should wear green caps this week. Since the edicts were posted early Sunday morning, some of the freshmen have worn their caps, while others have been told to wear them until the day of the Hulme fight.

Late opening of the university is the real cause for the whole trouble. Ordinarily the edicts are posted a night or two before the Hulme fight. Registration, rush week, football games and other scheduled events come all at once. The president's office requested the executive board to arrange some plan whereby the freshman-sophomore fight would not interfere with any of the regularly scheduled events.

Last week-end seemed the best time, but the sophomores were unable to call a class meeting to organize their forces. Seven sophomores posted the edicts shortly before daylight Sunday morning, at considerable risk to themselves. Afterward they awakened the freshmen in several fraternity houses and the edicts soon were torn down. As it was, several men in both classes were ducked in Paradise creek, but for the most part, few people on the campus knew that there was a fight until told by others.

The freshmen should have posted sentinels around the campus, and the sophomores should have organized. The whole thing is past and had better be forgotten until next year. The freshman-sophomore scrap is one of Idaho's oldest traditions, and it will not die out simply because of the unavoidable circumstances which surrounded it this fall.

A petition has been presented to the president's office by the executive board to hold the Hulme fight Friday afternoon because of the football games that are scheduled for the next two Saturdays. If approved, classes will be excused at 2 o'clock and the events will be run off under supervision of the "IT" club.

All men in the freshman class must wear their green caps to the fight. If they win the fight, they must wear them until Thanksgiving day. In either case they must wear them from St. Patrick's day next spring, until the close of school.

SORORITY RUSHING

SORORITY rushing is once more upon us in all its glory and with it comes all the pettiness, all theanness, and all the sportsmanship and all the magnanimity of the sororities concerned. During most of the year they are merely houses, good bad, or indifferent as the case may be, but during this great hectic season of the year we see them as they are in spite of the nice appearance of Paola's Packard and mama's oriental rugs.

Of course this is not meant to hurt the chances of any poor little kitty house. As far as that goes, the freshmen women will manage to see the Packard and the rugs and overlook the rest anyway. But the rest there.

And to the women who are in the of all this very flattering whirl of parties and excitement, we say, Look out! You are choosing the group with whom you are to associate for four years. Your college life, your friends and your activities will depend mostly upon them. And in these two short weeks you have to meet them, size them up, weigh them in the balance and then jump one way or the other. Here are a few tips:

Remember that good appearance can be stuck on temporarily. Although you may be flattered when one house asks you to break a date which you had made with another, stop and consider whether you want to affiliate with a group which does not consider social politeness.

If house A tells you that house B is funny or something, look at house B twice in order to find out why they are so superior that house A is afraid of them.

Remember that sororities rate according to the person who rates them. Don't get such a wild crush on any

house that you get snooty about the others. You have four years in which to do that after you have been pledged.

We offer encouragements, condolences and congratulations. And don't be too trusting. It's a bold, bad world after all and in the next two weeks all the hosts of the wise and wordy coeds will be doing their utmost to tie you up in knots.

IF I WERE A FRESHMAN

If I were a freshman I'd be a senior knowing what I know: I thought about it the other day, and then decided to put it in writing, which sounds like this:

If I were a freshman, I wouldn't listen to anyone who thought he was giving advice to freshmen. Instead, I'd watch the manner, dress and habits of all the other freshmen on the campus and then try to do everything they didn't do because it is inevitably wrong.

I would come to Idaho with different ideas about college than anyone has ever held before, not expecting a thing, and then I would never be disappointed. I wouldn't expect college to do anything like I thought it was going to do for me, nor would I expect it to be what I imagined.

I'd discard everything that would remind anyone that I had ever attended high school, such as sweaters, pins, letters, annuals and all such knick-knacks. If anyone asked me about my high school years, I would say: "I never attended one," because I would rather have him think that I was clever enough to evade the entrance requirements rather than have him think that the heights of my present education was reached when I received my high school diploma.

I would have definite ideas about religion, sex, politics and other topics of the day, and I'd keep them as long as I could without expressing them to anyone except my best friends, and then I would uphold and defend them through thick and thin, bullfight and debate. I would be an individual, myself, as distinctly different from all the other freshmen as I could.

Now, if you are a freshman, don't pay any attention to this article at all because all the other freshmen will be reading it too, and you want to be different, don't you? —Fred Auger.

IDAHO'S MARKSMEN GRAB CUP AT CAMP

R. O. T. C. Unit Wins at Ft. Wright; Seven Men are High

Idaho marksmen for the second consecutive year won the marksmanship trophy cup offered by the Spokane Chamber of Commerce, shooting an competition with advanced military students from five other universities in the Northwest at the annual six-week R.O.T.C. camp held at Fort Wright during the early part of the summer. The trophy becomes the permanent possession of the school winning it three times.

Place Fourth in West. Idaho riflemen placed fourth in the list of 11 universities in the Ninth Corps area competing for the Hearst "Doughboy of the West" trophy with an aggregate score of 213.2 points. First place went to the Oregon Agricultural college team with a total score of 429.118, second to University of Oregon with 418.206 points and third to the University of Washington with a score of 417.350.

At the Fort Wright camp, Idaho and close to three times the number of men firing than any other school represented. Seven men who failed to qualify pulled down the score of the whole group. The score for the even highest men on any team went to Idaho by a margin of several points. The high man for Idaho was as follows: Claire Collier, 225; Wilford B. Stanley, 222; Charles Diehl, 221; Philip Manning, 220; Golden Ryan, 213; John Glasse, 212; and Everett Lawrence, 209.

Urgo Rifle Practice. Students in the advanced military courses who plan to attend the summer camp next year are urged by Capt. B. M. Crenshaw to turn out for rifle practice next spring. Firing on both the indoor and the new outdoor range will be held to get the new men into shape for the matches to be held in the summer. An outdoor rifle team may be organ-

Frosh Have Difficulty Attending Own Mixer

From the upper classmen's point of view the frosh mixer was a howling success.

The freshman girls were there—all of them; blondes, brunettes, red heads, short, tall, sweet, and plump, excited and eager they all turned out for the big event. Belles from Pottlatch, girls from Burley, from Salt Lake, and Spokane. All had an extra special brand of sparkle in their eyes; this, they seemed to say, is college.

All the senior, junior, and sophomore men turned out to do their bit to make it so. The men stood around six deep by the walls and crowded as though it were an Idaho-W. S. C. basketball game. They stood up in the middle and they lined up in the balcony and the floor with one eye open for that little blonde from Weiser and the other on the lookout for anyone new and different.

So far no broken ribs nor smashed feet have been reported. The crush was so bad that the inter-collegiate police patrol had to pry the watchers away from the squirming, gyrating couples on the floor.

Only one thing happened to mar the evening. Two frosh boys were found at the mixer. So far the academic council has taken no action on the matter.

LESS THAN QUARTER FAIL ENGLISH TEST

Reino Vertanen Makes Only Three Errors; Girl Makes Five

One hundred and fifty of the 649 who took the uniform English placement examination last Tuesday, made more than 49 errors apiece, necessitating their registering for substitute English, without credit.

Statistics compiled by the English department show that only 23 percent of the new students failed to pass the examination, a figure somewhat smaller than usual. The figures include all freshmen and students with advanced standing.

150 Flunker Test. It was found that 291 students made passing grades, with less than 35 errors; 208 students made probationary grades, 35 to 49 errors; and 150 students made more than 49 mistakes. Those who made less than 49 errors were allowed to register in the English, while those who made more than this number of mistakes were required to register in sub-freshman English, a non-credit course.

In cases where the individual was especially weak in spelling, although strong or average in all other lines, he was placed on probation in the English classes.

Three Errors Is Record. The best individual record was made by Reino Vertanen, Mellhan, who made only three errors; Kathryn Hart, Rigby, made the second highest record with five mistakes. Abigail Wadsworth, Kellogg, and Ina Peterson, Moscow, came next with six errors each.

The classes in research in the English department are tabulating the information derived from the tests, and more elaborate statistics will be available when this research work is completed. As has been the custom for the past five years, very full reports will be sent to the various high schools of Idaho concerning the individual records of their students.

Dr. George Morey Miller, head of the English department, says that apparently the new students this year are of higher quality in English than those who have taken the test previously.

Argonaut Editor Issues Call for Cub Reporters

Students who would like to try out for positions on The Argonaut editorial staff as asked to make their applications in person at the next staff meeting Wednesday at 4 o'clock in room 201 Administration building.

Thirty applicants turned out for the first meeting last Wednesday, and were given assignments for this issue. More would have attended had it not been for registration. Applicants will be given general assignments until the editors are able to judge their newspaper ability.

Previous newspaper experience is desirable, but not absolutely necessary. Responsibility and willingness to work will be big factors in the selection of staff members.

CECIL HAGEN —Editor.

POSITIONS ON YEARBOOK OPEN

Applications for positions on the editorial and business staffs of the Gem of the Mountains will be received at a general staff meeting at 4 o'clock Wednesday afternoon in room 207 Administration building.

Pipe Convert Ends Agonizing Tobacco Hunt

New York, N. Y. June 30, 1928

I started smoking on cigarettes, but after meeting a young lady for whom men who smoked pipes had a greater charm, I promptly switched to one.

Then my agony began. I tried one brand of tobacco after another, always working on the theory that the more you paid for tobacco, the better it would be.

I tried imported special mixtures. I paid as much as fifty cents a ounce. All to no avail.

Then came the day I tried Edgeworth. It was at a ball game. I had run short of the certain brand I was smoking, and a casual acquaintance offered me a pipeful from his pouch.

Imagine my delight when after the first few puffs I did not feel the old familiar bite. I puffed on, inhaling the delightful aroma, and oh, boy! It was sweet right down to the bottom.

Nothing has separated me from my pipe, or my pipe from Edgeworth, since then.

Yours very truly, (signed) David Freedman, Jr.

Edgeworth Extra High Grade Smoking Tobacco

Old Gold hits a homer for Babe Ruth

in Blindfold cigarette test.

Yes, I am well over 21... so I could see no reason why I shouldn't make the blindfold test.

As I tried the four leading cigarettes I kept this 'box score' on the results:

- No. 1 out at first
No. 2 . . this one 'fanned'
No. 3 . . out on a pop fly
No. 4 (OLD GOLD) a home run hit!

"OLD GOLD'S mildness and smoothness marked it 'right off the bat' as the best."

Former Instructor Dies in California

Miss Ramona Antisdale Pease, a former teacher at the University of Idaho and a graduate of Columbia university, died in Pasadena, Calif., August 31, where she had been teaching in public schools.

Miss Pease was at the University of Idaho for one year from 1922 to 1923, when she was assistant professor of home economics under Miss Katherine Jensen.

Before coming to the University of Idaho, she taught at the regular and summer sessions at Columbia university, from which institution she received two degrees.

Hip Flasks Social Plague

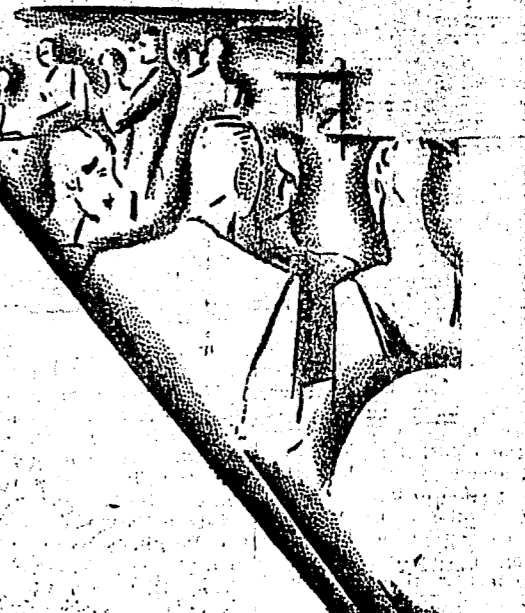

MONTREAL (IP)—The use of hip flasks by Canadian co-eds was deplored as one of the social plagues of Canadian life by a gathering of French speaking surgeons at their annual convention at Quebec.

The medical men declared that if the new fashion is to prevail, the dignity, virtue and mental state of Canadian young girls is in real peril.

The surgeons passed resolutions which asked the government to prohibit the sale of hip flasks as it already does the sale of dangerous firearms, and that liquor advertisements be suppressed.

FROSH ADOPT NEW ASSEMBLY SCHEME

Proposed Schedule Said to Place More Responsibility on Students

Nine freshman assemblies for the fall semester are outlined in the proposed assembly schedule presented to the freshmen class at their first meeting held in the auditorium at 11 o'clock last Tuesday.

The first assembly, held shortly after the new students had taken their uniform English examination, was devoted to temporary organization of the class under the direction of Alvin Reading, president of the ASU. Clarence Robinson, Boise, was elected temporary chairman, and Jay Russ, Buhl, secretary pro tem. Gives More Freedom.

The new assembly plan follows out the ideas President Kelly has stressed, giving students more responsibility in their own government. The new plan was suggested to the freshmen, and was adopted by a majority vote. At these assemblies President Kelly and members of the faculty will meet informally with the freshmen to discuss with them the questions that are likely to arise in connection with the beginning of university life. Such of the periods as are necessary will be used for class deliberation and the transaction of business. The class voted to keep the assemblies strictly for freshmen, excluding townspeople and members of other classes. Prof. O. W. Chenoweth, head of the department of philosophy, presented the new assembly plan to the class.

The second assembly was held this morning, the speaker being Dr. J. W. Barton, head of the department of psychology. He spoke on the subject, "Choosing a Vocation."

The remainder of the assemblies scheduled are as follows:

- Frosh Assembly Schedule.**
- October 9. "Traditions—The Freshman Cap".....President F. J. Kelly
 - October 16. "Scholarship—What Is Hard Study?".....President F. J. Kelly
 - October 23. "The University Library".....Miss Sweet
 - October 30. "Loyalties—Singing Her Way To Fame".....President F. J. Kelly
 - November 6. "Social Conventions".....Dean French
 - November 13. "Conduct—The Peaceful Slacker".....President F. J. Kelly
 - November 20. "Religion and Enlightenment".....Professor Chenoweth

KRAMER ASSISTANT COACH

WASHINGTON STATE COLLEGE. Pullman.—Fritz Kramer, captain of the Washington State football team in 1926 and former all-Pacific coast guard, has been appointed assistant coach of the grid sport at W. S. C. J. Fred Bohler, director of athletics, has announced. After making a brilliant record of three years in conference football, Kramer played for Coach O. E. Hollingbery in the East-West contest at San Francisco. Last year he joined Red Grange's New York Yankees and enjoyed a successful year of professional football.

BURY HATCHET DANCE SATURDAY

Underclassmen End Hostilities With Traditional Hop Day After Hume Fight Decides Supremacy

Saturday night, October 6 has been set for the traditional "Bury the Hatchet" dance, sponsored jointly by the freshman and sophomore classes. This dance, in accordance with tradition, is held each year following the Hume fight. The purpose of the affair is to bury any hostilities between the two under classes that may remain.

Due to the fact that the rivalry between the two under classes is very keen this year, the dance is expected to draw a large crowd. It will be an all-obligation dance, and everyone is invited to attend. Detailed plans will be announced Friday.

IDAHO PEP THEME OF FRESHMAN MIXER

New Students Gather in Old Gym for Yell Rally and Dance

Introduction to Idaho spirit was given to several hundred new students at the combined freshman rally and faculty reception or mixer, held at the old gymnasium Friday evening.

Due to the late opening of school this fall, the dates for the rally and mixer coincided. The freshman mixer or faculty reception is usually held during the first week of school, and the freshman rally the night before the first intercollegiate football game.

Edwin Sigleus, yell king, and Horace Porter, yell duke, led the freshmen in a number of yells. Addresses of welcome were given by Dr. Irving W. Jones, assistant president of the university, Miss Permel J. French, dean of women, Charles Erb, Jr., football coach, Ted Turner, proctor, and Alvin Reading, president of the student body. Each of the speakers gave advice on student spirit and observance of Idaho traditions.

Identification badges were supplied to all new students as they entered the gymnasium, to provide for easy introductions. Signs bearing the names of the counties of Idaho were posted in different parts of the hall to indicate gathering places. Members of the Intercollegiate Knights and Spurs acted as directors of the program.

The greater part of the evening was spent in dancing, to music furnished by Clair Gale's orchestra. Freshmen were almost outnumbered after the dancing started by upperclassmen who "crashed the gate." The gym floor became so crowded that dancing was virtually impossible, even those who were fortunate enough to dance, getting barely half way around the floor before being tagged.

TOWN MEN PLAN SEMESTER WORK

Tau Men Aeph Incorporated Last Spring; Erval Johnson Is New President of Club.

Plans for the coming year were discussed at the first fall meeting of Tau Men Aeph, town men's organization, held last Monday evening at the U-Hut.

At the close of last semester the organization became incorporated officially and elected the following officers for the current term: Erval Johnson, president; Gilbert Schuman, vice president; Wayne Shook, secretary; G. D. Ryan, treasurer; Jess Thomson, sergeant-at-arms; Wayne McCoy, athletic manager; Robert Lansberry, Argonaut reporter.

and the Moscow Rifle club have entered teams and invitations to enter have been extended to Washington State college, Pullman and Pomeroy teams.

Five events: team match, individual match, hiping rifle match, small bore match and pistol match have been arranged for the contestants. Entrance fees of \$5.00 for each team and \$1.00 for each individual entering the matches are to be paid to the secretary of the Moscow Rifle club by Friday, October 5. Cash prizes are to be awarded to the first and second place winners of each event.

The first match to be shot over the university's new rifle range, one mile west of Moscow on the road to Pullman, will be fired Sunday morning, October 7. The university R. O. T. C.

ON TO GONZAGA!
Revenge as well as an attempt to maintain her 15 years' supremacy will be a motive as Idaho invades Gonzaga next Saturday. Plan to give your support by attending the game!

Vandals Lose to Montana State, 15-13 on Last Minute Pass

Idaho Team Misses Several Chances to Score; Hutchinson Star on Offense
Makes More Yardage Than Entire Montana
Backfield; Idaho Reserves Show to Good Advantage

(By Andy Thomson)
A well placed pass, completed only after hair-raising juggling over the goal line in the last few minutes of play, Saturday afternoon brought a touchdown and victory to Montana State college, 15 to 13, over the Idaho Vandals in their first game of the season on MacLean field.

With less than five minutes to go, Montana held Idaho for downs on her 25-yard line, and then proceeded to march down the field beginning with a pass from Richards to Wellington for 25 yards. Four tries at the Idaho line netted another first down, and two short tries and an 8-yard dash off tackle by Wellington put the ball in dangerous territory.

Despite Montana's lead of 8 to 6 the most consistent ground gainers for Idaho doing practically all the ball-lugging. Notby and Barrett each made fair gains when they were in the game.

Idaho made 269 yards from scrimmage to 122 for Montana, and 14 first downs to five for the visitors. Idaho suffered heavily in the first half on penalties, receiving six for 40 yards.

Idaho got her first score less than three minutes after the start of the game, when Starke recovered a fumble, due to a bad pass by the Montana center.

Loss of the ball on downs within the 25-yard line five times, two of them in the last quarter, was the most significant feature in the Idaho defeat. Hutchinson and Robertson seemed to be able to gain at will through the heavy Montana line in the center of the field, but time after time the invaders' forward wall held when Idaho needed yardage.

Hutchinson and Robertson were the star of the Montana line. Hutchinson's and Robertson's were the star of the Montana line.

Nine Sports Listed In Outlining The Intramural Athletic Program

Vandals Start With Huddle System But Find It Impractical

The well-known "huddle system," adopted for the first time several seasons ago by Knute Rockne, famed Notre Dame coach, for the purpose of concealing plays by avoiding signals, has been abandoned by Coach Charley Erb, after he had spent 10 days on the system at the beginning of the season.

Erb tried the system at the outset of the season, was dissatisfied with the way it went off in a practice scrimmage against the freshmen, and finally decided to abandon it after witnessing the W. S. C. Whitman game 10 days ago.

Washington State college is using this system as a number of other coast eleven's this year.

Injury "Bugbear" Thus Far Avoids Idaho Grid Squad

Idaho came out of the Montana State college game nursing only a few minor injuries—but it could not forget Big Bill Kershnik, who did not even dress down for the game from injuries received during first practices of the season.

Bill has been favoring an injured side the past week, which has kept him from practice scrimmage and Erb was puzzled whether or not to take a chance using him in Saturday's game.

Clarence Dittman, sophomore end, who received a wrenched ankle in the first scrimmage of the season, got back into practice the first part of last week and played nearly two quarters against Montana State college.

Regular should be out of the game Saturday on account of injury.

HOW IDAHO AND GONZAGA HAVE LINED UP IN PAST SEASONS

PIRATE NINE SIGNS IDAHO SOUTHPAW

Ralph Erickson Gets Chance With National League Team Next Year

Ralph "Lief" Erickson, who for three years previous to his graduation from Idaho in 1927 was the pitching ace of Vandal baseball teams, has been given a contract with the Pittsburgh Pirates in the National league, according to word from Boise where Erickson is finishing the season playing in the Idaho-Utah league.

Erickson has all the dazzling stuff he ever had and plus this he has learned how to pitch. He worked for Baker in the Blue Mountain league this summer. I umpired in eight or ten games in which he worked—so guess I know what he has—plenty. Anyone will admit that Lefty Brandt, now with the Boston Braves after a big year in 1927 with Seattle, has enough "stuff" for any company.

Erickson arrived on the Idaho campus last week at the conclusion of his season with Boise and will remain here for several weeks. His plans for the winter are not definite. In February he will join the Pittsburgh squad in California for the early spring training season.

Prof. R. H. Farmer, acting dean of the school of business, was engaged during the early summer in making a special survey of financial loans granted in Montana by the Federal Farm Loan bank in Spokane.

"Chuck" Diehl Going Strong With Olympic Club; Critics Smile

Charles (Chuck) Diehl, '28, for three years one of the most valuable and consistent linemen Idaho has ever seen, is now residing in San Francisco and playing football with the Olympic club aggregation of that city.

Reports prior to the first game of the club against the Army, failed to mention the big husky filler lad, but included lengthy praise of Pat Wilson of Washington, "Cowboy" Kutch of Iowa, and Morton Kaer of U. S. C. After the game was over they could not say enough about his playing and critics declared with wonder that it was a wonder more sports writers did not select him unanimously for all-coast guard last year.

After the game in which the Army was severely trounced one critic said: "Diehl of Idaho led the interference in an amazing manner and is the fastest man coming out of the line that has been seen here in many years." This bears out the convictions of Idaho followers that Chuck was vastly under-rated on the coast last year, but never by those sports writers who had seen him in action.

George Ross, '28, has gone into the accounting department of the Mountain States Telephone company at Boise. This company is a subsidiary of the Bell Telephone system.

E. W. Equalls, '28, has accepted a position in the office of C. C. Anderson and company at Boise.

Rich A. Fox Announces Greatest Arrangement of Interfraternity Competition in the History of University of Idaho; Three Divisions Set, With Three Sports in Each; Managers From Various Groups Will Have Direct Charge

The most extensive intramural program of athletics ever launched in the history of Idaho inter-fraternal relations has been announced by the department of physical education this week through Rich A. Fox, acting head of the department.

A plan which will make possible intramural athletic activity during the entire year was outlined with nine separate sports listed—three in the fall; three in the winter and three next spring. The action comes as a culmination of plans last spring to increase the number of sports from four—cross country, swimming, basketball and volleyball—to give a greater number of students a chance to make group house and hall teams to volleyball, cross-country and indoor baseball for the fall season have been listed; basketball, swimming and wrestling for the winter portion, and outdoor baseball, track and tennis in the spring.

A cup will be given for first place at the end of the year to the team making the greatest number of points during the year, a point system to be adopted to carry throughout the year in the nine different sports. Awards will be made also to those winning second and third places in the various sports.

By adoption of the final award system it will be necessary that the various groups take part in every sport in order to be considered in the final awarding. Any group will lose points when it fails to enter a team in each branch of the system.

Another new feature of this intramural plan will be the appointment of group managers. These managers will co-operate with the physical education department by carrying out the plans, and in many instances will serve as coaches to the respective groups.

More definite features, schedules and plans for the fall division will be outlined this week at a special meeting of all the group managers, and according to present plans the program will get under way within the next 10 days. Volleyball will be the first on the list of sports this fall.

Complete schedules for the year will be given attention in the near future.

Head Coach Charles F. Erb predicts that Stanford and Southern California will fight it out for the Pacific Coast grid championship. Erb sends his eleven against each this fall. Idaho tacks the Cardinals at Palo Alto and the Trojans on their home field at Los Angeles.

The Vandal coach, whose 1927 eleven played through its conference schedule without defeat, gives California an outside chance. The Golden Bear eleven, his alma mater, will be strong this year, he says, but is faced with an unusually tough schedule.

Idaho-Stanford Game To Be Before Large San Francisco Crowd

Announcement of a change in the place for the Stanford-Idaho game, Friday, October 19, was heralded through the Associated Press this week—the new Kezar stadium at San Francisco instead of the Stanford field at Palo Alto.

With the shift to San Francisco, a crowd estimated at 65,000 people probably will witness the game which marks the opening of the Pacific coast conference season for Idaho. Rarely is it possible for any team to open its conference season before such a crowd, and despite playing the game on Friday, a large crowd is expected.

Idaho plays two more non-conference teams—Gonzaga and Whitman—before starting south to play the Cardinals.

Individual Stars Comprise Bulk of Frosh Football Turnout; Face Heavy Schedule

Coach Glenn Jacoby, Vandal star quarterback of the past three years, issued his first call for freshmen football men last week and was answered by more than 60 players. With some of the best material that has ever turned out for "rook" service, the Idaho star should develop one of the best first-year aggregations that has ever represented Idaho on the gridiron.

Late starting of the frosh this year is due primarily to the fact that all universities and colleges on the coast agreed not to launch freshman grid season until Monday, October 1. This rule has been adhered to by practically every coast institution, although press dispatches indicate that the Stanford freshman eleven has played at least one game thus far.

Scholastic work of at least a satisfactory nature is the first requisite of playing on an Idaho team, the varsity coaches told the freshmen candidates at the first turnout. Coach Charley Erb laid particular emphasis on the fact that each man is expected to do all assigned work if he has playing ambitions. Coach Stewart Beam and Coach Rich Fox also talked to the men before they were given their first feel of the pigskin after a summer's layoff.

Idaho material turning out at the present time looks excellent, largely due to the fact that a third of the men have been all-state choices at one time or another during their high school careers. In looking over prospective material, this year's varsity backfield should rival that of 1923 which sent four men direct into the varsity backfield of the following season. Among the backfield candidates are Kenneth McCluskey, Spokane; Jack Lee, Buss Paulsen, Emmert Davis, Howard Berg and Laverne Randall. Coach Neal Nelson, former Idaho football, basketball and track star, and now in Spokane, declared that McCluskey is one of the best ball carriers he has ever seen come out of any high school.

Line Will Be Heavy
The freshman line will be nearly as large as that of the varsity—maybe. It is presumed that the average weight per man will be near 175 pounds and the backfield will weigh at least 165 pounds per man. R. Ahlskog, Spokane, has decided to enroll here and with a promising high school career behind him, he may find himself face to face with his brother next year, his brother being a regular Washington State college varsity lineman. Arthur Spaugy of Nampa is doing some excellent punting in practice and may be converted into a ball carrier, although he won his high school laurels in the line. Among other outstanding line contenders will be Wes Shurtliff, L. King and Fred Wilkie.

Turnout Large
The following men were issued uniforms during the weekend: Emmert Davis, Louis King, Mark Maxwell, Kenneth McCluskey, Cal Southern, Homer Seiffert, Jack Lee, Buss Paulsen, Arthur Spaugy, Gerald Craig, Howard Berg, Joe Cass, L. Barton, Fred Wilkie, Laverne Randall, Wes Shurtliff, Louis Morgan, Marion Stephenson, John Delo, Jerry Welch, Tom Nielson, Firth Garrison, Ralph Carlingshouse, George Krenkau, Peter Jensen, Ray Rostock, R. Ahlskog, Henry Hollnhorst, Melvin Conrad, Ernest Bauman, Jack Rushton, Clifford Wren, Douglas Bradshaw, Orin
