

## SCIENTISTS ELECT IDAHO PROFESSOR ASSOCIATION HEAD

**Dr. J. A. Kostalek, Physics Instructor, Named President of Order**

### MET IN SPOKANE

**School Sends Big Delegation to Annual Session of Organization**

With the election of Dr. J. A. Kostalek, professor of chemistry, as president of the Northwest Scientific Association of Idaho, Oregon, Washington and Montana, and Dean Ivan C. Crawford, head of the college of engineering, as counselor of the association, to succeed Doctor Kostalek, Idaho was well represented at the meeting of the association, held in Spokane December 28 and 29.

M. A. Brannon, president of the University of Idaho from 1918 to 1917 and now chancellor of Montana schools, was elected trustee for the next three years and F. A. Thomson, formerly dean of the school of mines at Idaho, was elected vice president of the organization.

### Two-day Session.

At the two-day meeting, there were several papers presented to the various divisions by Idaho men. In the geological section, F. B. Laney, W. M. Bever and J. M. Raeder, gave papers. Alfred L. Anderson discussed lava creek canyons of Butte county, Idaho and Thomas Nite, a student, presented a paper on thermal waters near Boise. Herma Albertson wrote a paper for the association on the ecological studies in Yellowstone park.

In the sociology division, W. D. Vincent, Idaho state commissioner of education, touched on the historic spots and events of the northwest from the earliest days and T. S. Kerr addressed the division on the plan of consolidating state administrative functions.

### Discusses Forestry.

Windbreaks and their influence on farm crops in the Twin Falls country was the subject of A. M. Sowder, of the forestry school. F. W. Hassis gave an interesting paper on seed germination and Dr. E. E. Hubert told of the preliminary study of defective fire in the Payette national forest. Dr. F. G. Miller, head of the school of forestry, addressed this section on forestry survey of Beneva county.

T. A. Dahm talked to the physics section on definitions of physics and J. A. Kostalek, spoke on the need of more advanced courses in correct technique of chemistry. G. L. Luke also talked to this section.

Several other papers were presented by other Idaho professors and students. The meeting is an annual affair.

## GROUPS FROWN ON DELAYED PLEDGING

**Interfraternity Council Says Change From Present Plan Unnecessary**

Fraternities on the Idaho campus have indicated that they do not favor the adoption of a deferred pledging plan to replace the present system of "snap" pledging. A petition to that effect, drawn up by the Interfraternity council, has been submitted to the faculty committee on deferred pledging, and copies have been distributed to all the group houses. An investigation on deferred pledging was instituted by President F. J. Kelly two months ago.

The petitioning group believes that the evils connected with the present system are more apparent than real, and that there has been no evidence of any serious ailments or disadvantages with the system of rushing and pledging as it now exists at Idaho.

Some of the more important points brought out in the petition are: That high school pledging does not exist, that the expense of rushing is kept at a minimum under the present system, that there is a great difficulty in regulation and control of deferred pledging, and that a system of this type, if adopted, would seriously complicate the housing problem at Idaho.

In view of the reasons above mentioned, the Interfraternity council, "heretofore respectfully petitions that it be allowed to continue its former jurisdiction of all matters related to rushing and pledging insofar as the same do not materially interfere with the administrative functions of the university, and that no form of deferred pledging be inaugurated, now or hereafter, by the administrative department of the University of Idaho without the approval of the member fraternities of the Interfraternity council."

The findings of the faculty committee have been mimeographed and distributed to the group houses and will be available to anyone interested at Dean Ivan C. Crawford's office.

There will be no meeting of the Interfraternity council this week.

### WHITMAN 27, IDAHO 17

Idaho's varsity quintet lost a fast game marked by close guarding, 27 to 17, to the Whitman Missionaries in Walla Walla last night. Bunker Idaho guard was the mainstay for the losers and Appllegate, star forward, led the Missionaries in scoring with 10 points.

## CHORAL SOCIETY STARTS PRACTICE

**Community Song Group Begins Rehearsal for Oratorio in Spring; Professor Kratt Directs**

"Anyone who can carry a tune," is the slogan of the Moscow Community Choral society which will begin functioning this evening at 7:30 o'clock in the auditorium. Townspeople, faculty and students may join the society, which is under the direction of Prof. Theodore Kratt, head of the music department.

It is hoped to have at least 300 voices in this society, the first of its kind in this part of the country. No try-outs are necessary. The only eligibility requirement is that the aspirants be able to sing a little and show enthusiasm for the project.

## PRESIDENT BUSY ON SPEAKING TRIP

**Doctor Kelly Spends Vacation Addressing South Idaho Audiences**

Christmas vacation was a time of increased activity for Dr. F. J. Kelly, president of the university. After spending Christmas day at home, Doctor Kelly left for Pocatello on December 26. The 28th and 29th were filled with engagements at the State Education convention in that city. From Pocatello he went to Montpelier, then to Paris, Idaho. He gave addresses in Twin Falls, Jerome, and Gooding, and on January 7 he spoke at the meeting of the State Board of Education in Boise. Yesterday he was to talk at the noon luncheon of the Boise Chamber of Commerce. Tomorrow morning he will speak to the Idaho Wool Growers' association in Boise, and at Caldwell in the afternoon he will take part in the Gem State Poultry association meeting and banquet. Burley will hear a "leadership week" address by Doctor Kelly on January 11, and Rexburg on the afternoon of the 13th will have a general meeting in the L. D. S. tabernacle at which the president will speak.

Doctor Kelly's last address will be before the state grange in Pocatello on January 15. He will return to Moscow on January 18.

## ADOPT NEW PLAN OF REGISTRATION

**No Separate Days Given This Semester; Seniors Have Precedence**

There will be no separate days for registration between semesters this year, it was decided at a meeting of the academic council recently. A system of pre-registration will be commenced whereby everyone will register between January 14 and February 2. New students also will register during that period.

Although details have not been worked out, the general plan is that each dean will issue notices making appointments for the students in his school to register on certain days, under the direction of the acting dean, Dean G. Eldridge, acting chairman of the academic council. Registration will probably be by seniority, the seniors enrolling first, then juniors, sophomores, and freshmen last. One and one-half days of the two and one-half days' extension of Christmas vacation will be made up in this way, although that is not the reason the plan is being adopted.

No separate days will be set aside for final examinations as in previous years. The quizzes will be given during the regular class periods at the end of the semester, each instructor utilizing as many periods as he thinks necessary.

## "HIPPO" DICKERSON BURIED AT WEISER

**O. S. C. Athlete and Coach Well Known by Idaho Students of South-Eastern Section**

Lewis "Hippo" Dickerson, ex-O. S. C. athlete and assistant football coach who died December 21 of injuries received in a fight with two men who attacked him when he was leaving a Corvallis cafe with a waitress employed there, was buried in Weiser, December 24.

Dickerson had lived in Weiser for a number of years and was well known by University of Idaho students from that part of the state. Business in Weiser was suspended for an hour during the funeral according to Herman Welker, university senior and close personal friend of the Oregon State football star.

Lantz Bryant, who stabbed Dickerson, was recently taken by police from the Corvallis jail to Portland as a precaution against possible outbreaks of intense student feeling. He awaits trial on a charge of first degree murder.

## FRATERNITY AT O.S.C. WINS GRADE CUP

**Sigma Phi Sigma Chapter Wins Honors of National Group For High Average**

OREGON STATE COLLEGE, Corvallis. (PIP)—Highest scholastic average among chapters of Sigma Phi Sigma fraternity was attained by the chapter here for the past year. The silver loving cup awarded by the national group is the first to be offered for scholastic standing and is to be permanent property of the chapter winning it three times consecutively.

## HOPE WANES FOR LIVES OF COUPLE LOST IN CANYON

**Abandoned Raft of Glenn Hyde and Wife Found On Rocks**

### WAS IDAHO STUDENT

**Indians Join in Final Search of Turbulent Colorado**

Although a desultory search for Mr. and Mrs. Glenn Hyde is being continued in the Grand Canyon of the Colorado by Indian scouts and experienced guides, little hope remains to their being found alive, those in charge of the hunt for the couple who have been missing since Thanksgiving declare. Finding of the stranded scow in which the Hydies were traveling through the dangerous river canyon and the continued absence of the adventurers seems to bear out the opinion of river men that they lost their lives while attempting to swim ashore.

### Was Vacation Lark

Hyde, a former student of the university, with his wife, departed from Green River, Utah, early in November on a cruise of the treacherous canyon, planning to emerge at Needles, California, in December. The trip was termed by Hyde before his start as "a vacation lark." Mr. and Mrs. Hyde lived at Hansen, Idaho. Hyde is a member of Sigma Nu fraternity.

When no word of the voyagers had been received for two weeks, Hyde's relatives and the Sigma Nu fraternity of the University of Idaho appealed to the war department to institute search for them with airplanes. Immediately after petition of the Idaho chapter was made, the department dispatched two planes from San Francisco to the Colorado river. One of the pilots sighted the stranded scow fourteen miles below Diamond creek.

**Diary Reveals Little**

Scouts and searching parties found the boat intact on a log almost in mid-

(Continued on Page 3)

## PALOUSE FIVE TO PLAY ALL STARS

**Semi-Pro Outfit Tangles With Former Idaho Hoopsters in Old Gym Tomorrow**

Basketball fans will get an opportunity to see five ex-Vandal players in action tomorrow night when the Moscow All-Stars play the Palouse town team. Many sport writers say that the Palouse outfit is one of the strongest semi-pro quintets in the inland Empire. They have played several games so far and won them all by large scores.

The All-Stars are made up of university basketball stars of former years. Glenn Jacoby and George Nedros are slated for the center position, while Wicks and Nelson will hold down the forward positions. Keith Shumaker, William Frazier, and Boyd Brigham are the reserves.

The game will start in the old gym at 7:30 o'clock.

## Hides Cash in Drawer, Sees Basketball Game; Returns—Money Gone

Forty-one dollars to see a basketball game—that is what it cost Dick Taylor, junior mining engineer student from Boise, to see the Vandals win the opening basketball game of the season against Whitman college at the Memorial gymnasium December 26.

While Taylor was watching the Vandal hoopsters roll up the score against the Missionaries, a burglar entered his room at the Kappa Sigma house, and found the wallet containing the money that Taylor had placed in his dresser drawer. When the basketball fan returned, he found the empty wallet on top of the dresser, and immediately notified C. M. McCauley, chief of police. No trace has been found of the missing money nor the thief.

Practically all of the Kappa Sigas attended the game, only two or three men remaining at home to study for last-minute examinations. They were in a room on the third floor, and a few minutes before the closing of the game, heard some one walking around on the floor below. Thinking it was one of their own men, they did not investigate.

Taylor was the first one to arrive at the house, and as he was entering, he met a stranger walking out of the front door. He curiously held the door open for him, and proceeded up to his room where he discovered his loss. He described the stranger as rather young, with dark hair and dark complexion, wearing a dark blue double-breasted overcoat.

### POST OFFICE HOURS CHANGED

Post office hours at the university have been changed, following a request by Postmaster Homer E. Estes to the postmaster general. Students bound for 8 o'clock classes will find the office open for business at 7:30 o'clock instead of 8 as before. The windows will be closed a half hour earlier each evening, at 5:30 o'clock.

### RECITAL IS PLANNED

Professor Carl Claus of the music department announces that the recital of the college orchestra will be held after the holidays. A definite date has not yet been set but it will probably be in the middle of January, on a Sunday afternoon.

## KNOWS NATURE

**CORA J. BEST, wild life lecturer, who will address students and townspeople in the auditorium Friday evening.**

## ENGLISH STUDENTS PLAN YEARBOOK

**Helen Kerr Elected Editor of Winged Helmet's Literary Publication**

Something entirely new in student publications will be offered to Idaho students this year in the form of the new literary year book, sponsored by the English club and edited by Winged Helmet, honorary literary society.

Helen Kerr, junior journalism major, was elected editor of the book at a recent meeting of Winged Helmet. She has announced that work on the book, which will be published sometime in the early spring has already started. A business manager is to be elected by the English club executive committee in the near future.

The book, which will consist of the best short stories, plays, sketches and poems written by Idaho students, will be presented in an extremely modern and interesting form. The book will be neither stuffy nor high brow, but will furnish entertainment as well as some serious thoughts, she said. One of the outstanding features will be the varied type which will be used for variety and which will be used to distinguish the different forms of writing.

### EX- STUDENT DIES AT BOISE HOME

**Marion D. Fleming, ex-28 Succumbs to Sinus Infection at Boise Hospital Before Christmas Vacation**

Marion D. Fleming, who was a junior in the college of letters and science last year, died at the St. Alphonsus hospital at Boise December 18, after an illness of more than five months. Fleming was operated on for sinus trouble in Spokane last summer. Death was due to sinus poisoning. He was 24 years old, and was the son of Mr. and Mrs. M. D. Fleming of Boise.

He was commonly known on the campus as "Prexy," and was an active as well as popular student. He was majoring in bacteriology, and served one year as assistant state chemist, and was also an assistant instructor in the bacteriology department. He was president of the freshman class during his first semester in the university. He was a member of the Phi Delta Theta social fraternity.

## FIVE INITIATED INTO BLUE KEY

**Service Fraternity to Investigate Feasibility of Establishing Student Book Store Here**

Five pledges of Blue Key, national upperclassmen's service fraternity, were initiated at a special meeting held at the Beta Theta Pi house December 19. Membership in the organization is based on personal ability and leadership, particularly as evidenced by participation in extra-curricular activities.

Those initiated were Harold Boyer, Dan McGrath, Edward Poulton, Paul Rudy, and Dean Arnold. An informal meeting was held following the initiation ceremony.

Blue Key will investigate the feasibility of establishing a student book store on the campus, it was decided at the regular semi-monthly luncheon meeting held Monday at the Blue Bucket Inn. A questionnaire will be sent to colleges and universities in all parts of the country where student unions or book stores are in operation. Information thus gathered will be compiled and studied, and a thorough investigation will be made of student book store organization.

### KERSHISNIK ON ALL-SIGMA CHI TEAM

**Vandal Fullback First to Win Place on Mythical All-Fraternity Eleven in 1928.**

The first Idaho football player to be named on a 1928 mythical All-Fraternity team is William "Bill" Kershisnik, who Saturday received word that he was named on the All-Sigma Chi team as fullback on the first eleven.

This eleven is chosen annually by Fred Young, who for years has been an outstanding football official in the Big Ten and Missouri Valley conferences. He is at present engaged as a sports writer for a mid-western newspaper.

Kershisnik was named on the second eleven last year, being nosed out for the first position by Herbert Fosberg of Minnesota who was unanimously All-American choice of various critics. Last year the team included two other All-American players,

## VACCINATION EDICT WILL BE CARRIED TO COMPLETION

**Medical Staff Making Check of Rolls to Make Sure no Student Escapes**

### WILL BE NOTIFIED

**Deans of Various Schools to Send Out Notices Within Next Few Days**

All students who failed to be vaccinated before leaving the campus before the holidays will be required to undergo the treatment within the next few days, announces I. W. Jones, assistant president of the university. Lists of students who were not treated have been compiled by Miss Edna Peterson, nurse in charge at the university infirmary and their names sent to the dean of each school Monday morning by Dr. J. W. Barton, chairman of the health and housing committee. The students will be called upon to report to their deans and present certificates of vaccination or other evidence to prove that they have conformed with the vaccination or isolation requirement.

### Many Absent At Time

There is little probability that anyone will refuse to be vaccinated, said Mr. Jones. Many students were away from the campus on leaves of absence or had been vaccinated a short time before, and they will be given an opportunity to clear their records on this score.

The smallpox situation came to a climax on December 19 when President F. J. Kelly announced at a special assembly that every student must be vaccinated before leaving the campus or go into quarantine for two weeks on penalty of being dismissed from school. The work was begun that evening by Dr. C. O. Armstrong and Dr. C. J. Einhouse, and in the next two days vaccine had been administered to almost everyone on the campus.

No serious effects of the vaccinations have been reported to authorities, said Miss Peterson Monday.

## EX-STUDENT DIES AT BOISE HOME

**Marion D. Fleming, ex-28 Succumbs to Sinus Infection at Boise Hospital Before Christmas Vacation**

Marion D. Fleming, who was a junior in the college of letters and science last year, died at the St. Alphonsus hospital at Boise December 18, after an illness of more than five months. Fleming was operated on for sinus trouble in Spokane last summer. Death was due to sinus poisoning. He was 24 years old, and was the son of Mr. and Mrs. M. D. Fleming of Boise.

He was commonly known on the campus as "Prexy," and was an active as well as popular student. He was majoring in bacteriology, and served one year as assistant state chemist, and was also an assistant instructor in the bacteriology department. He was president of the freshman class during his first semester in the university. He was a member of the Phi Delta Theta social fraternity.

## "Did It Take?" Replaces "Fa Down", "Whoopee" For Byword on Campus

**By Helen Veasey**

If Emily Post were on the Idaho campus, she would recommend "Did it take?" as an appropriate beginning for polite conversation—additions and order requiring all students to be vaccinated for small pox before leaving for the Christmas vacation, unwittingly resulted in the coining of the best social ice breaker of the year.

In another way it was a disguised blessing. Think what a protection it has afforded pledges in these days of paddles and playful cavemen. No matter if someone tweaks your ear, pinches your nose, or trends on your neck, with perfect assurance you may scream, "My vaccination!" and be left alone, entirely unharmed.

Santa Claus and his bag of gifts are only second rate subjects now. Only those with middle-class minds desire to discuss such lowbrow subjects. "Do you want to see my vaccination?" has supplanted those old, time-worn questions of, "Do you want to see my new sox" (ties, beads, bath-salts, garters, or cigarette lighters).

If any one offers to show you his wound, always accept, for it will be worth your while. Such varieties of color, size and shape as you will be able to observe! What vast depths of discussion these vaccinations can afford! "When did yours first start to take?" "How many square feet of bandage did you use?" "How many yards of tape did you unroll?" "How did yours itch?" Was it a sharp, quick itch like that of a mosquito bite, or was it just a slow dull itch full of ponderous pains? "When did yours first turn purple, green, or black?"

Ahhh, what a joy it is to the poor skunked souls who have sneaked around hopelessly for so many years, fully equipped with tonsils, appendicitis, adenoids, and what-not, with nary an operation chalked up, now to arise and display their scars among the best: Eureka! Vaccinations did it!

### COUNCIL PLANS DANCE

The Interfraternity council has made plans for a dance which will be held January 25. Harold Smith and Raymond Nims have been appointed to take charge of the affair.

## BANKERS TO TAKE FARMING COURSE

**College of Agriculture Sponsors Three-Day Period of Instruction For Financiers Association**

The first bankers agricultural short course ever given in the state is to be held here on January 17, and 18. It is expected that from 40 to 50 bankers will enroll.

The program is being prepared by the faculty of the college of agriculture and the agricultural committee of the State Bankers association. Many topics of interest to business and bankers will be discussed by members of the faculty of the college of agriculture. Bankers short courses similar to this are held in many states. It is said that they are well attended and are a decided success.

## THACHER TO SPEAK AT AD CLUB MEET

**Oregon Faculty Member Is Leader in Advertising Field**

Prof. W. F. G. Thacher, head of the department of advertising at the University of Oregon, will address members of the Advertising club at a dinner to be held at the Blue Bucket Inn at 6 o'clock Thursday, according to Darius Davis, president of the club. Students and others who are interested in advertising have been invited to attend. His subject probably will be "The Opportunities Advertising Offers to College Graduates."

Professor Thacher is a national figure in the field of advertising. He is a regular contributor to Printer's Ink and similar publications, regional vice president of Alpha Delta Sigma, and was a speaker at the International Advertising association meeting at Detroit last summer. He is a member of the Advertising club of Portland, and a life member of the club. He has trained hundreds of students for advertising and they have been uniformly successful in stores, agencies and newspapers.

Raymond P. Kelley of Spokane, who is vice president of the Pacific Advertising Clubs association, will accompany the speaker to Moscow. Mr. Kelley spoke before the Ad club this fall, and helped in its organization last spring.

## DURANT SCHEDULED FOR LECTURE HERE

**Noted Philosopher and Author to Speak in Auditorium February 1**

Will Durant, author of the well-known best seller, "The Story of Philosophy," will lecture here Friday, February 1, it was announced Monday. He is being brought here under the auspices of the local chapter of American Association of University Women.

"Is Progress Real?" is the title of the lecture he will deliver. Mr. Durant will take up such questions as those concerned with whether arts have decayed, whether civilization is doomed to decay and disappear, or whether, in the history of man, there is a sound basis for the belief in progress and for confidence in the future.

Doctor Durant was formerly a teacher in Columbia university. The lecture-course which he gave at the Labor Temple school in New York several years ago resulted in his famous story of philosophy through the ages. His latest book, "Transition" is a story of his own adventures in the world of contemporary life and thought.

## WILD LIFE EXPERT TO LECTURE FRIDAY

**Cora J. Best, Conservation Representative, Will Illustrate Talk With Slides of Animals and Scenery.**

Echoes from the far places will be brought to the students of the university Friday afternoon and to the people of Moscow Friday evening by Cora Johnstone Best, nature lecturer. Her appearance here is sponsored by the Moscow Izaak Walton league.

"Tales of Trails" is the title of Miss Best's afternoon lecture. This is a talk on the fun and thrills that the novice gets on his first experience while riding a clock-eyed pinto through mountains that are rich with glorious scenery. The evening lecture is a special conservation talk. She is showing birds and other wild and domesticated, home and foreign animals.

Miss Best, with her photographer, has made trips all over the world to collect the material and pictures and slides shown at each lecture. She is sent out to talk to the people of America by the Bureau of Commercial Economics, which is an organization for the conserving of American outdoors.

Friday afternoon the lecture will begin at 4 o'clock and the evening talk at 8 o'clock. Both will be held in Science hall, room 110.

### ATTENDEE S. A. E. CONCLAVE

Edward Peterson, junior from Kellogg, returned to Moscow Sunday afternoon after spending three days in Miami, Fla., as a delegate of the Idaho chapter to the national convention of Sigma Alpha Epsilon fraternity. At the convention petitions of three locals for membership were granted.

Are you a college girl? No, I got this way from riding horseback. —Sou'wester.

## VANDAL MENTOR QUILTS; SUCCESSOR NOT YET NAMED

**Coach Charlie Erb Turns in Resignation Effective on September 1, 1929**

### PRaises IDAHO SPIRIT

**More Than 100 Applicants on File for Vacant Post; Dr. Kelly Cautious**

By Andy Thomson

Charles Freeman Erb, Jr., who for the past three years has guided the destiny of University of Idaho football, has presented his resignation as head football coach of the Vandal varsity, effective September 1, 1929. Choice of a successor will not be made until late spring or early summer, reports indicate.

In his resignation Coach Erb declared that he had always had the unparalleled loyalty and cooperation of my team, the students and faculty and the university administration. Erb came to Idaho in the summer of 1926 from the university of Nevada. He gained national recognition for his playing with the University of California "wonder teams" of 1921, 1922 and 1923. In his final year under Andy Smith, he was named all-American quarterback. It was Erb who introduced "percentage" football, as Andy Smith played it, into Idaho's style of play.

### Is Due Home Soon

Erb is due back to Moscow some time this week, following his attendance at the meeting of the National Association of Athletic Coaches at New Orleans, last week. Accompanied by Enoch Bagshaw, University of Washington grid mentor, Erb left Moscow before Christmas for the south, via Chicago.

More than one hundred applications for the position left vacant by Erb's resignation have been filed with President F. J. Kelly, and the entire matter of selection of a successor was to have been a matter of informal discussion at the meeting of the state board of education, today, at Boise. The new appointee will come to the University of Idaho as director of athletics, as well as football coach, and President Kelly will be unusually cautious in announcing the appointment may not even be made during the second semester.

### Hunting For Big Man

Idaho will be hunting for a big man who can shoulder the responsibility of building up a strong physical education department, not merely from the standpoint of seeing Idaho well represented in Pacific Coast conference competition, but from the educational angle. The Idaho president has regarded the position of athletic director one of the most important.

(Continued on Page 3)

## C. OF C. ENTERTAINS IDAHO STUDENTS

**Banquet, Dance and Theatre Party Adds to Gaiety During Holidays**

An otherwise lonely vacation for 170 university students unable to go home over the holidays was brightened when they attended a banquet given in their honor by the Moscow Chamber of Commerce, Friday evening, at the Blue Bucket Inn.

Abe Goff, toastmaster, welcomed the students in behalf of the chamber and introduced Howard Davis, president of the Moscow organization, who remarked upon the purpose of the banquet. Alden Tall, in behalf of the students, responded to the welcome. Irving W. Jones, assistant president of the university, complimented both students and townspeople upon the spirit of cooperation which exists between them, saying that he had never seen its equal at any time during his work as an educator.

### Prizes Awarded

Prizes were awarded to the students who came the longest and the shortest distances to attend the University of Idaho. H. S. Dhillon, who came 12,000 miles from Allahabad, India, received the prize for the longest journey. H. R. Beadle of Lindley hall, came the shortest distance.

Dancing was enjoyed after the dinner. Tickets for the evening's theatrical performance were presented through the courtesy of M. Kenworthy.

The dinner, an annual affair, had its inception three years ago when a Moscow business man, noticing the downcast faces of a number of students forced to remain in town during the holidays, remarked that "something ought to be done about it."

## PNEUMONIA VICTIM IS OUT OF DANGER

**Luckless Sophomore Forced to Spend Holidays in Campus Infirmary; Was Critically Ill**

Herbert Wikstrand, sophomore, spent Christmas vacation at the university infirmary with a severe case of pneumonia. He reported there on Friday before the holidays with the disease in an advanced stage, and for several days was in a very critical condition. Although he is gradually improving, he will be obliged to remain at the infirmary for an indefinite time, said Miss Edna Peterson, nurse in charge.

Wikstrand is a pledge of the Kappa Sigma fraternity.

IT WASN'T FUNNY
T WAS THE NIGHT before Christmas, and it was just one long job. That is, it was to the 500 collegiates at the University of Idaho, pining away their yuletide vacation on the campus.

OREGON STATE MAN WINS HIGH OFFICE
Reading Reports West Ahead of East In Student Government
The west is more active and progressive in educational lines and matters relating to student government than the east, according to Alvin H. Reading, ASIU president, who attended the meeting of the National Student Body Federation at Columbia, Mo., before the holidays.

REVISE RUSHING RULES
FRATERNITIES at Idaho are not in favor of adopting deferred pledging. The Intfraternity council recently presented a petition to the faculty committee on deferred pledging that was appointed by President F. J. Kelly, stating that conditions did not warrant a change from the present plan of "snap" pledging.

INTRAMURAL DEBATE TO BE RESUMED SOON
Men's and Women's Groups To Meet in Second Series
The second series of intramural debates in both men's and women's divisions will begin next week, according to an announcement made last night by Ralph Peterson, manager. The first round of the series was completed before the holidays with the elimination of seven men's and seven women's teams. No definite schedule for the debates has been made, but the subjects and opposing teams have been announced.

Dr. Upham Wins First Tilt With Miami Freshmen
OXFORD, Ohio, (IP)—The influenza epidemic which has been closing up colleges and universities throughout the middle west, has reached the campus of Miami university, and brought with it a wave of freshman tomfoolery.

FOUR MORE PLAYS PRESENTED SOON
Dramatics Classes Concentrate on Three-Act Work By Bernard Shaw
Dramatic activities will be resumed with the production of several one-act plays to be given this month, and winter plays will be climaxed in the presentation of Shaw's "Arms and the Man" to be given some time in February.

BULLETIN BOARD
"Y" CLUB TO MEET
There will be an important meeting of the "Y" club tonight at 7:30 o'clock at the Beta Theta Pi house. Every member has been asked to be present.

# SOCIETY

Vacation diversions are still the main topic of conversation on the campus. Pan-Hellenic balls and various high school annual dances were the accepted modes of entertainment during the holidays. For those who went to southern Idaho the Special was a thrill.

Six dances of unusual interest were given the Friday before vacation. The annual Tau Kappa Epsilon Apache dance was given at the chapter house which was attractively decorated to represent a house in the Bohemian quarter of Paris; the S. A. E. house was converted into a wild and woolly western dance-hall, equipped with a "bar" for the annual Forty-niner dance; Beta Theta Pi entertained with a "kid party" and Sigma Chi, Kappa Sigma and Beta Chi gave dances featuring the holiday motif.

The Athletic ball which will be held Friday night will be one of the main events of the weekend. Daphne Teth Gimel, town women's organization, will hold a joint formal dance with the Pullman chapter on the same night. Hays hall will entertain with an informal dance. The Kappa Alpha Theta formal dance to be held Saturday will be another outstanding affair.

### KAPPA WEDDING IS COLORFUL AFFAIR

Alece Honeywell, prominent graduate, became the bride of A. B. Curtis, Orofino, at a picturesque formal wedding held at the Kappa Kappa Gamma sorority house December 10. The spacious living room, decorated in the holiday colors of red and green, was crowded with nearly a hundred close friends of the couple. A large fireplace with a smoldering Yule log, and burning red tapers on the mantel, formed the background for the altar. On the two sides were banked tall baskets of poinsettias and Christmas greens.

The bride wore her mother's wedding gown, a Gibson girl dress of white silk and lace with sweeping ruffled train. Instead of the usual long veil, she wore on her head only a small orange blossom wreath. She carried an exquisite bouquet of pink rose blossoms and lilies of the valley. Her attendants were Margaret Bement, Spokane, and Elmore Jackson a former University of Idaho student, and Mrs. Harry J. Brenn.

The bride's brother, Jesse M. Honeywell, Beta Theta Pi, was best man. She was given in marriage by her father, W. J. Honeywell of Orofino. The Rev. H. H. Mitchell of St. Mark's Episcopal church performed the ceremony.

Mrs. Curtis is a member of Kappa Kappa Gamma sorority, a Mortar Board, national honor society for senior women, and Curtain, local honorary dramatics fraternity. Membership in Mortar Board is considered one of the highest honors that can be given to women at Idaho. She was also outstanding as an amateur actress during her four-year college course.

The bridegroom is the son of Mr. and Mrs. H. J. Curtis, Los Angeles, Calif., and is fire warden with the Clearwater Timber company of Orofino. Immediately after the ceremony the couple left on an automobile trip for California. They returned to Moscow Sunday. Mrs. Curtis will retain her position as assistant instructor in dramatics until the close of the school year in June.

### SHIRK-WHITMAN MARRIED BEFORE VACATION

Two 1928 graduates of the university, Marlys Shirk and Eugene Whitman, were married December 20 at the First Baptist church here. A small group of close friends were present. Immediately after the ceremony the couple left for a short honeymoon trip to Lewiston. They are now at home at 811 South Washington street.

The bride is a member of Pi Beta Phi national sorority. Since her graduation she has been an assistant on the university library staff.

The bridegroom is a member of Sigma Chi national social fraternity, Alpha Zeta, honorary national agricultural fraternity, and is an associate member of Sigma Xi, national honorary scientific fraternity. He will continue his advanced work toward his master's degree in plant pathology.

### MARRIED—CAN'T KEEP IT SECRET

Announcement of the marriage of Helen Hargus, Gamma Phi Beta, to William A. McCoy, Phi Gamma Delta, at dinner Monday evening at the Gamma Phi house, verified rumors current on the campus that the couple were married during the Christmas vacation.

They were married at the First Presbyterian church in Spokane December 31. The bride is a senior in the school of education. Her home is in Anaheim, Calif. The bridegroom, a sophomore in the school of mines, withdrew from the university last week to accept a position in Spokane. They had not intended to announce

their marriage until June, but the news leaked out when some Idaho student noticed their names in the list of marriage licenses in a Spokane newspaper.

### VON ENDE'S FETE CHEMISTRY FACULTY

Dr. and Mrs. C. H. von Ende entertained at an informal dinner party at their home on B street last Friday evening.

Their guests, chiefly chemistry faculty members and their wives, were as follows: Dean and Mrs. Ivan C. Crawford, Dr. and Mrs. J. A. Kostalek, Prof. and Mrs. Donald DuSault, Francis DuSault, Phil DuSault, Prof. and Mrs. Louis Cady, Prof. and Mrs. W. H. Cone, Mr. and Mrs. Alonzo Martin, Paul Bellington, Mrs. Rurinsky, Russell Tuttle and Herbert Clare.

### JO BROADWATER MARRIED IN MONTANA

Kappa Kappa Gamma announces the marriage of Miss Josephine Broadwater, 28, to Edward Pickering, Zeta Psi of the University of Washington. The wedding took place at the bride's home in Havre, Mont., December 29. The couple will make their home in Seattle, where Mr. Pickering is in business.

### DOCTOR GRAUE BRINGS BACK BRIDE

Dr. Edwin Graue, assistant professor of economics, was married on December 27 to Miss Sarah Louise Baker of Sioux Falls, N. D., it was learned here when Doctor Graue returned to Moscow with his bride December 29. Doctor Graue, who was added to the Idaho faculty last fall, received three degrees from Cornell university.

### FEW WOMEN AT FORNEY HALL PARTY

Scarcely as popular a group of women as was at Forney hall Christmas eve, Belmont, possessed of the spirit of the season they assembled popcorn balls, cider, a piano player, and nearly all the men left on the campus. Tag dancing was the only kind possible for the fellows outnumbered the women six to one.

The Friday after Christmas Forney hall entertained with a bridge party. Bridge, pinochle, five hundred, and even a little mild poker were indulged in.

The Thursday after New Year's day Lindley hall entertained informally. Several of the fellows and a few girls assembled and played cards and danced until 12.

V. A. Cherrington, assistant in the bacteriology department, was married to Miss Maurine Merwin of Des Moines, Iowa, December 24 in Spokane. The couple will make their home in the Thattuna apartments.

### PRELIMINARY WORK ON GEM COMPLETED

Dummy for 1929 Yearbook Is Finished, Says Editor McDonald

All specifications for the 1929 Gem of the Mountains, including size, paper stock, ink and other details have been completed, George McDonald, editor, said Monday. A dummy for the entire 1929 yearbook has been drawn up, Mr. McDonald said, and work of getting copy ready will be pushed rapidly.

The 1929 Gem of the Mountains will be the largest book in the history of the university, according to the editor. It will be 16 pages bigger than the edition published last year, being made up of 468 pages. Eight main divisions will be included in the book with about 30 sub-divisions. Colorful drawings, done by Allen Janssen, associate editor of the Gem, will be used on subdivision pages and in other parts of the book. The division pages will be in two-color zinc engravings made from pencil sketches drawn for the Gem by Mr. Janssen. Many changes in arrangement of the book and addition of another section makes it possible to produce a book of the highest type, Mr. McDonald pointed out.

The cover design submitted by the David J. Molloy company of Chicago has been approved, Mr. McDonald said, and the company was authorized to start cutting the die for the cut. The same company made up the cover for last year's Gem and has furnished the covers during the last four years.

Practically all of the arrangements for the publishing of the year book have been worked out. The contract for the printing of the book is yet to be announced. This will be given out following approval by the executive board of the ASU, Mr. McDonald said. Although some of the copy has been collected, there is a great deal to be done. The staff will be kept busy for the next month or so in an attempt to get all the copy in as soon as possible, according to Mr. McDonald. Snap shots are being sought by the staff and any one having pictures that may be used should turn them in at once.

Taking of individual pictures is progressing too slowly, the editor said, and students must cooperate in order to get the year book out on time. It has been necessary to set February 1 as the final date for the taking of pictures at one of the two studios.

Advertising work for the year book is progressing rapidly with more space already sold than was contracted for last year. Considerable space for advertising was sold during the holidays in Boise and other south Idaho towns.

### REPRESENTED IDAHO IN MID WEST

THESE THREE MEN RETURNED JUST BEFORE the holidays from trips to the mid-west as envoys of the university. Alvin H. Reading, president of the student body, was Idaho's delegate to the National Student Federation convention in Columbia, Missouri. George Huber and Walter Slaughter completed a 12 days' barnstorming trip with a contest with the University of Indiana just before Christmas.

### DEBATERS RETURN FROM LONG TOUR

Huber and Slaughter Win Five Out of Seven Contests

Idaho's varsity debate team, composed of George Huber and Walter Slaughter, and the coach, Jasper V. Garland, are on the campus again after a successful barnstorming tour of the middle western states.

The team is credited with five wins and two losses out of seven debates. The University of Montana and the University of Dubuque, Iowa, are the teams which defeated Idaho, while the Vandal debaters took decisions from Montana State, North Dakota Agricultural college, Loyola university, Marquette university and the University of Chicago.

The team and the coach were much impressed by the support given during the tour in the middle west and by the treatment accorded them by schools which they met.

### FEBRUARY 1 DEADLINE FOR GEM PICTURES

Only Second Semester Students Will Be Photographed After That Date; Cooperation Urged

February 1 is the deadline for students now registered to have their pictures taken for the 1929 Gem of the Mountains. After that date only second semester students will be permitted to have their pictures entered in the Gem.

Perhaps to some this time limit seems a little harsh, said George McDonald, editor, but it must be realized that after that date the studios must finish the pictures, the Gem staff must check and organize the vast number of prints, they must go to the engravers to be made into cuts, proofs must be made and checked, and finally the cuts must go to the printers to be made up into the book. Group committees have been urged to cooperate with the final day for their photo.

While strictly adhering to the principles of safety and sound banking in every transaction, The First National maintains a progressive attitude and is always glad to consider opportunities to extend its business. Conservative accounts are always welcome.

### THE FIRST NATIONAL BANK OF MOSCOW

A. H. Johnson, Cashier

cooperate with the staff in an effort to have each individual picture taken by February first.

Students moving into new quarters the second semester and desiring to have their pictures transferred should report this change immediately to the studio where the picture was taken. The transfer of last years pictures for use in this publication should be made personally at the photographers in the near future.

### TOWN GIRLS' FORMAL TO BE IN PULLMAN

Joint Affair to be Given at Washington Hotel by Idaho and W. S. C. Chapters

The Idaho and Washington State college chapters of Delta Theta Gamma, town women's organization, will hold a joint formal dance at the New Washington hotel in Pullman Friday evening. Two buses have been engaged for the transportation of 50 Idaho couples, including the patrons and patronesses, Mr. and Mrs. F. W. Candee and Mr. and Mrs. C. W. Heckman, who are going from Moscow.

### HOPE ABANDONED FOR COUPLE LOST IN CANYON

(Continued from Page 1)

stream. Log entries in the boat's diary revealed that the couple had passed Diamond creek on November 30, yet no reference was made to any difficulty of any nature. No footprints were found on the shore to indicate that the Hyde had reached the bank of the river. They led river men and scouts to believe that Mr. and Mrs. Hyde perished when attempting to swim ashore after the boat became stranded and they were unable to dislodge it.

In reconstructing his experiences in comparison with those which the Hydys might have endured, Emery Kolo, veteran riverman and head of

a searching party, expressed doubt that Mr. and Mrs. Hyde were alive, after he had viewed the scow from a dangerous trip through several rapids. Kolo said that probably shortly after the last entry was made in the Hyde diary the scow was stranded and either hurriedly abandoned voluntarily or because of necessity. Equipment found in the scow indicated that the Hydys were not well prepared to face the strenuous climate beneath the canyon rim if they managed to reach shore alive.

Kolo told of being thrown from his boat, together with his brother, Ellsworth, his companion on the search for the missing couple. In the midst of a boiling rapid on the downward trip their boat turtled over and the two clung to the capsized craft while it eddied more than a mile down stream before they were able to weight it and bail out the water. The brothers then landed and searched eight miles of the canyon wall for wood to build a fire to dry their freezing clothing.

Searching for footprints on the canyon rim a large group of Indians and trappers are continuing the hunt on the theory that the Hydys may have succeeded in reaching the river bank

### 8395 Decisions Favoring This Smoke

Larus & Brother Co., Richmond, Va.

In answer to the challenge of J. J. Roberts of Columbia, S. D., as printed in the Minneapolis Journal dated Sunday, September 2nd, I have smoked Edgeworth for twenty-three (23) years and for two years previous to that time I smoked Quid, which, I believe, is manufactured by your firm.

It may be interesting to know that my purchases of Edgeworth during this period have totaled more than 8395 (eight thousand three hundred ninety-five) cans, representing a total expenditure of more than \$1259 (twelve hundred fifty-nine dollars).

I have never smoked any other brand of tobacco but Edgeworth during the twenty-three years.

Yours very truly,  
(Signed) Chas. Bostock  
Justice of the Peace
