THE ORDER CHANGETH

TRUST and suspicion no longer mark the relations between the northern and southern sections of the state. The old political battle for a four-year college at Pocatello has died out and in its place has grown up a state-wide feeling of interest in "The Greater University of Idaho."

THIRD OF STUDENTS DELAY REGISTERING

Saturday is Deadline; B. A. Students Must be Through Thursday

Approximately 500 students, less than one-third of the total enrollment, had not finished their second-semester registration up to Monday afternoon, figures from the registrar's office reveal.

Under the new system of pre-registration, more than 1000 students have registered in two weeks without any interruption to the regular academic routine. All students who have not registered by Saturday will be fined \$1 a day until the following Saturday, after which the late registration fee will become \$2 a day.

Students have been urged to pay their fees at the bursar's office at the earliest possible time, to avoid long delay and waiting in line next week. Although registration must be completed by Saturday, fees must be paid before the following Saturday, February 9.

REGISTERING QUICKLY

The new system of pre-registration seems to have received the general approval of the student body. Under the old plan a student was lucky if he could finish his registration in less than half a day.

PRaises DR. KELLY

President Kelly recently spent three weeks in southern Idaho on a good will tour. That he was successful in his mission is shown in the favorable reports and comments in the newspapers of the towns in which he spoke.

Doctor Kelly is, in our opinion, a true educator and is far removed from the go-getter type of university executive. He is a man who is interested in the advancement of education and has ideas and ideals. He does not necessarily believe that colleges should only turn out good blacksmiths, engineers, doctors, secretaries and lawyers, but they should also prepare young men and women to be citizens—in other words, individuals who have a broad viewpoint, a sense of appreciation and know how to live. He has advanced new theories on education for Idaho's in-

Earnest Students Will Not Abuse New Cut Rule, Contends Doctor J. W. Barton

By Elsie Warm.
"I certainly am in favor of the new rule concerning cuts," said Dr. J. W. Barton, head of the department of psychology, when interviewed Monday. "It will throw the men and women on their own responsibility, and there is little danger that the privilege will be abused by earnest students." Doctor Barton stated that men and women going to college are old enough to know whether they want or need to attend classes. If they lack judgment in this matter they probably do not profit from the lectures anyway. It is his contention that forced attendance does not improve academic accomplishment.

When asked if he thought it would do away with the evil of sleeping during lecture periods, Doctor Barton replied that sleeping in classes did not concern him a great deal as long as the sleeper did not snore loud enough to disturb the listeners. He declared, however, that nappers should be given cuts as well as those who are absent in body, as they are completely "gone" for all useful purposes.

It is doubtful that giving out grades only at the end of the semester will improve anyone's average, said Doctor Barton, but the grades will be a better measure of the actual work done. It will also tend to neutralize the overemphasis now placed on grades. Six and twelve-week grades may stimulate temporary spurts of activity, he observed, but they do not increase the amount of knowledge retained.

Doctor Barton does not approve of slang, gum chewing or smoking, especially among women.

During the interview a student interrupted to ask Doctor Barton's ad-

MONITOR RANKED BEST NEWSPAPER

Selection Made by Journalism Students at Washington State; Portland, Oregonian Given 4th Place.

WASHINGTON STATE COLLEGE, Pullman.—The Christian Science Monitor is the best of a group of 13 metropolitan newspapers in the opinion of Journalism students of E. F. Beth, instructor at the State College. The New York Times ranks second, the Washington Post third, and the Portland Oregonian fourth in the favor of the students.

The Kansas City Star was awarded fifth place, followed in order by the Chicago Daily News, the Spokesman-Review, and the Atlanta (Ga.) Constitution. The selection was based upon study of metropolitan newspapers in the course in news writing throughout the semester.

Several students ranked the tabloid papers rather high because of their convenient size, use of pictures, and condensed form of news writing. The best papers were selected for completeness of news service, character of news writing, lack of "color" and sensation, editorial leadership, excellence of special features, and quality of makeup.

Why are there so many charming women today?

NEVER before have there been so many charming women.

WHEREVER you go, you find them. Vivacious, happy, beautiful, delightfully dressed in the most exquisite taste.

CLEAR, pink-and-white complexion, luxurious, well-kept hair, gleaming teeth, trim athletic carriage—these are almost universal characteristics of American women of today.

WHY?
At first thought it may sound absurd, but one of the most powerful teachers has been advertising.

ADVERTISING has helped to teach us all that the real basis of beauty is health and cleanliness. We are the greatest users of soap and water in the world.

ADVERTISING has taught us how to care for our teeth, our hair, our feet, our hands and our complexions.

ADVERTISING has taught us how to dress—how to choose colors and fabrics and becoming styles.

ADVERTISING has taught us how to talk, how to entertain. One reason why so many women are charming is because so many women are reading advertising. From advertising they are learning the secrets of great beauty specialists. They are getting health information of inestimable value. They are learning the secrets of becoming dress from the famous designers of Paris and New York.

Advertising is one of the biggest reasons why so many women are so charming.

SOCIETY

Last week no doubt offered more variety in weekend diversions than any so far this year. The Beta Theta Pi formal dinner dance was the outstanding affair that begins the season of traternity formal. One-act plays, together with the Alpha Chi Omega underclasswomen's sleigh riding party and the interfraternity council dance at the Alpha Tau Omega home, marked Friday night as an important one on the social calendar. Clever in every detail was the barn dance given by Sigma Nu at the chapter house Saturday and which added spice to the social events of the week. The military band concert which was held in the auditorium Sunday was also an affair of importance.

Two activities are scheduled for the middle of the week so far. The senior mixer Wednesday is expected to run serious competition to the similar affairs already given by the juniors. The Mary Banks piano recital on the same night will appeal to music lovers.

BETA FORMAL IS LABORATE AFFAIR

By far the most elaborate and colorful affair this season was the Beta Theta Pi formal dinner dance given at the chapter house Saturday evening. The house was simply, but effectively decorated with cut flowers, in spring-like contrast to the deep snow out-of-doors. Dinner was served in the downstairs dining room where covers were laid for 107 guests. Pink carnations in crystal vases and tall topers were used on the table. Following the dinner the ladies withdrew for demi-tasse. During the dinner hour the guests were entertained by Ruth Newhouse and York Kline, violinists, and Lucile Hadcock, pianist. A feature dance was given by the Misses Lois and Caryl Thompson during the course of the evening.

Patrons and patronesses were Mrs. Lenore Scott, Dr. and Mrs. Harry Elnhouse, Dean and Mrs. J. G. Eldridge and Mr. and Mrs. Francis Jenkins.

Guests were Ethel Lafferty, Ruth Randall, Jean Tedford, Marjorie Bloom, Karleen Morse, George Brown, Estelle Jones, Elizabeth Eastman, Betty Ashworth, Edith Bradshaw, Catherine Roe, Marjorie White, Norma Geddes, Alice Nash, Lyla Wilton, Bernice Parish, Betty Wilson, Margaret Elder, Helen Hanson, Hazel Simonds, Ada Jones, Beulah Papeah, Beverly Laughlin, Margaret Benham, LaVernon Thomas, Doris Fouch, Ardith Melling, Dawn Gibson, Louise Lamielle, Mary Murphy, Virginia Lee Maguire, Betty Driscoll, Marjorie Ford, Florence Reiner, Martha Hummel, Neola Wilson, Catherine York, Goldie Smith, Krista Nelson, Harriet Keldsen, Margaret Stewart, Gladys Locke, Ruth Storey, Charlotte Ginn, Kathryn West, Jane Byer, Opal Patterson, Miss Gillespie, Miss Lynch, Leigh Banbury, Mr. and Mrs. Curtis, Mr. and Mrs. Abe Goff, George Greene, Allen Janssen, Mr. Markwood, Mr. Mielko and C. L. Paulsen.

SIGMA NU HOLDS BARN DANCE

Sigma Nu Saturday night entertained at their chapter house in the form of their annual "Barn Dance." Hay, harness, tobacco signs, lanterns and barn equipment were predominant in the decorative scheme. Old-time dancing was indulged in for part of the evening. Clair Gale's orchestra played for the affair.

Patrons and patronesses were Captain and Mrs. B. M. Crenshaw and Mr. and Mrs. Harold Cornelison.

Those present were Grace Gooding, Agnes Moore, Lulu Grace Allen, Eldora Davis, Bernice Kendall, Helen Kerr, Ruth Roberts, Elizabeth Hummer, Pauline Paterka, Marie Clark, Elizabeth Chapman, Anne Day, Fynette Guthrie, Laura Clark, Louise DeChap, Mildred Abramsen, Estelle Pletch, Elizabeth Dunn, Marguerite McMahon, Fern Scott, Mary Mossman, Phyllis Peterson, Vera Bryant, Katherine Beam, Constance Woods, Grace Parsons, Dorothy Taylor, Valetta L. GREEK COUNCIL HAS FIRST DANCE

Members of the Interfraternity council entertained with a dance at the Alpha Tau Omega house Friday evening. Patrons and patronesses were Dean and Mrs. I. C. Fate Intervenes; Plans for Future Come to Naught

What queer deals fate hands out to us. Its a question whether anyone ever became afterwards, what he wanted to be as a young man.

Here is Homer David, Moscow merchant, who at 21 had been a graduate of the University of Idaho for two years, and was planning to enter medical college. There was no pre-medical course given by the university at that time, but Mr. David and some of his classmates who were interested in medicine, among them Dr. Carroll Smith of Spokane, had taken all the requirements for entrance in a standard medical college. Upon graduation here Mr. David was given a scholarship to the medical college of Columbia University.

This was the time of the big mining boom in this vicinity and Mr. David, together with Bill Griffin, Associated Press correspondent, who died several years ago, Earl Harton, formerly of Moscow, but now of California, and Art Strong, engineer at Seattle, became interested in a placer mine around the Elk river country and so the idea of medical college was put off for a year. The placer mine did not pan out so good the first year and it was decided to try it a second time. It was not much more successful so the idea was given up.

Although his scholarship had run out, he still planned to become a physician. He accepted a position with his father in a merchantile store here temporarily and it was not until he was 26 that he gave up the thought of entering the medical school.

SIGMA ALPHA IOTA PRESIDENT COMING

Mrs. Winifred Quinlan, province president of Sigma Alpha Iota, national music fraternity, will be in Moscow February 8 and 9 in the interests of the musical organization, it was learned this week by Goldie Smith, president of the Idaho chapter.

She gave a concert in the auditorium here last spring while serving as a judge in the state high school music contest. Arrangements are now being made for a round of luncheons, dinners and conferences for Mrs. Quinlan during her brief stay.
