

### R.O.T.C. TO HOLD FIRST DRILL OF YEAR MONDAY

Will Wear New Uniforms For First Time; 633 Men to March

### LEMP IN COMMAND

Three Battalions and Band of 50 Pieces to Drill

Monday morning at 11 o'clock the R. O. T. C. unit of the university will go onto MacLean field and hold their first drill of the year in new uniforms. This year's corps is very similar in size to that of last year, containing about 633 men, 558 are in the basic unit and 75 in the advanced.

The regiment will be under the command of Colonel Bernard L. Lemp. He will be in charge of three battalions each containing three companies and also a band of 50 pieces. This year the drill will be the same as last year, with a parade every Thursday at 11 o'clock.

Under the command of band master, Bern Nielsen about 75 men are trying out for one of the 50 positions that will make up the band.

Following is a better tentative assignment of commissioned officers from the advanced corp for the first semester of this year.

Regimental Staff Colonel Bernard L. Lemp, Lieut. Colonel Frank Tate, and Captain (Adjutant) John A. Croy.

**First Battalion**  
First Battalion Major (Comdg.) Charles L. Walker and Capt. (Adjutant) James M. Devery, Company "A" Capt. J. G. Anderson, First Lieut. George R. Swindaman, Second Lieutenants Martin B. Rossell, Winnie J. Bell, Stuart F. Kimball, and Elmer Thorsen, Company "B" Capt. Clarence E. Conway, First Lieut. Theodore R. Horning, Second Lieutenants Dynes H. Lawson, John C. Kugler, Richard E. Groves, and Harold Picke, Company "C" Capt. Elmer H. Johnson, First Lieut. Harold C. Parsons and Second Lieutenants Harold Doty and Milton H. Williams.

**Second Battalion**  
Second Battalion Major (Comdg.) Kenneth A. Dick, Capt. (Adjutant) Jack McQuade, Company "D" Capt. Charles Herndon, First Lieut. Ray H. Kelly, second Lieutenants Bruce Bunker and Jack Dodd, Company "E" Capt. McKown Joseph, First Lieut. David L. Nelson, Second Lieutenants Paul A. Danilson and C. L. Graybill, Company "F" Capt. E. Werner, First Lieut. Lyman G. Youngs, Second Lieutenants Parker E. Wickwire and Thomas J. Kurdy.

**Third Battalion**  
Third Battalion Major (Comdg.) Edward L. Douglas, Capt. (Adjutant) Ralph W. Reed, Company "G" Capt. Vining C. Thompson, First Lieut. Ervin L. Werner, Second Lieut. David O. Ehrenburg, Company "H" Capt. John F. Sullivan, First Lieut. Arthur V. Werner, Second Lieutenants Charles Heath and J. E. Kelly, Company "I" Capt. Eugene E. Hutteball, First Lieut. Lawrence F. Fleming, Second Lieut. S. L. Johnson. Supernumerary lieutenants with the first battalion are P. G. Dolan, W. S. Dolan and Frank Sinaim.

### "I" MEN TO MEET MONDAY EVENING

Will Draw up Constitution for Organization; Attitude Toward Traditions to be Discussed

"I" club men of the university will meet for the first time this year next Monday evening at 7:30 in the Beta house, announced Charles Heath yesterday. This meeting will be open to members of the club and anyone who is interested in campus traditions either pro or con.

Whether there will be strict observance of campus rules all depends upon the attitude the lettermen take in this meeting. If those who are not in favor of the present administration of the paddle can show a good reason as to why it should be curbed maybe the situation will be changed.

A constitution will be discussed and drawn up in the near future announced President Harold Carlson. It is hoped by the end of this year that some definite conclusion as to traditions and the student body will be reached.

### FENCERS TO MEET

All students registered in fencing as a sophomore sport are requested to meet on the main floor of the Memorial gymnasium, Monday afternoon at 4 o'clock. Schedules will be arranged and course plans outlined.

### NEW GREENHOUSE FINISHED SOON

Building 60 by 20 to be Used for Testing Potato Seed by Growers of State.

The new greenhouse on the campus is nearing completion, according to Dr. C. W. Hungertford, acting dean of the college of agriculture. This structure will be used for the growing of potato tubers to be used for testing by the potato growers of the state. An area 60 feet long by 20 feet wide will be inclosed and will be planted with potato tubers, which will be graded and indexed, and the results will be sent to the growers.

### MARQUETTE SLATES MORNING GRID GAME

MILWAUKEE, Wis. (I.P.)—Marquette university, not satisfied with having had the distinction of introducing night football to the college mid-west last season, will legiate mid-west league in college football this year when it stages the Thanksgiving day game with Butler university at 10 o'clock in the morning.

Marquette has recorded some of the best football turnouts on Thanksgiving afternoon, but college authorities believe that even more fans will be able to see the game if it is played in the morning.

Members of the Marquette team are reported to be jubilant as they think of the Thanksgiving dinner they have been denied in the past, which now will be theirs after a well-earned shower bath at noon.

### THE SHOW-OFF IS SCHOOL PLAY

"The Show-off" is the title of the satirical comedy to be presented in mid-November by the University of Idaho dramatics department under the direction of Prof. Fred C. Blanchard.

Tryouts are now in progress and a complete cast will be selected by the end of this week. This presentation marks the first appearance in Moscow of George Kelly's intriguing comedy, "The Show-off", which originally played in New York and has been on the road for several seasons.

As the name implies, the plot centers around a young man whose capacity for showing off offers a dramatic opportunity to the male lead. Several students are in brisk competition for the title role.

### HONORARY SOCIETIES ANNOUNCE WINNERS

McRae, Lawton, Filseth, Carlson Given Awards

Winners of special scholastic trophies for last year have been announced by officers of four national honorary societies represented on the University of Idaho campus. Awards are made each fall. Robert J. McRae, McCall, a sophomore in the school of mines, is the winner of the Sigma Tau Medal, awarded each year by the Idaho chapter of Sigma Tau, national honorary engineering fraternity, to the sophomore who in the preceding year has made the highest grades as a freshman in the college of engineering or the school of mines. Mr. McRae's average was 5.766, calculated on a basis of 6,000 for "A" grades.

Wins Alpha Zeta Cup. Leslie Lawton, Wendell, was awarded a cup by Alpha Zeta, national honorary agricultural fraternity, for maintaining the highest scholastic standing among the freshmen in the college of agriculture last year. His average was 5.594.

Joseph Filseth, St. Maries, is wearing a scholarship key offered by Alpha Kappa Psi, national honorary business fraternity. The key is awarded to the junior man in the school of business with the highest grades in his sophomore year.

Mildred Carlson, Moscow, a senior in the school of business, is the winner of a similar award offered by Phi Chi Theta, national honorary business fraternity for women. The Phi Chi Theta key is given to the senior woman who in her junior year maintained the highest grades among women in the school of business. Character and outside activities are also considered.

### FAST WINGMAN

Harold Carlson returns for his last year of varsity play and should have a great season. Transferred from center to end last year he performed brilliantly in his new position. That's one wing Calland does not have to worry about.

### FOUR SOPHOMORES START TOMORROW

Second Year Men Selected for Opening Kick-Off Against Montana State College.

Four new faces will appear in the Vandal starting lineup when Idaho takes the field for the first time tomorrow. At left tackle will be Russell Hall of Filer. Hall is 21 years old, weighs 192 pounds and is 6 feet tall. He bids fair to make the experts sit up and take notice before the season is over. Paul Taylor of Twin Falls will fill in at left end and is certain to turn in a good game. Taylor is 19 years old, weighs 174 pounds and is 6 feet 1 inch tall. Melvin Sackett of Twin Falls will be at the other wing replacing Carlson. Sackett is 19 years old, weighs 170 pounds, and is 5 feet 10 inches tall. It looks as if the Vandal ends are a Twin Falls affair this season. Lee Tyrrell of Moscow is the only untried man in the backfield. He is 20 years old, weighs 173 pounds and is 5 feet 9 inches tall.

### IDAHOANS TAKE HONORS AT MEET

Werner and Hutteball Place in National Rifle Matches

Two University of Idaho R.O.T.C. students, Eugene E. Hutteball and Ervin L. Werner, participating in the National Rifle Matches held at Camp Perry, Ohio, won second and third places according to word released by Captain B. M. Crenshaw, this morning.

Werner and Hutteball were high score men with the rifle during the summer encampment of the R. O. T. C. Ninth Corps Area held at Ft. George Wright, Washington. Students from Idaho, Washington State college, Montana State college, Montana university and Wyoming university were included in this competition and as a result of their standings, Werner and Hutteball were designated to attend the Camp Perry Matches as members of the Ninth Corps Area Rifle team.

Both Mr. Werner and Mr. Hutteball are seniors in military at Idaho this year and both will be awarded medals for their work at the national matches. These medals will be presented to them on the occasion of the first regimental review on MacLean field.

### NEW FROSH COACH

Gordon Diehl all coast tackle who returns to Idaho this fall to assist Glenn Jacoby in whipping the 1930 Frosh squad into shape. Diehl finished his intercollegiate gridiron career last year and was rated one of the best linemen in Idaho's history.

### GRID SPORTLIGHT

By Bill Pohlman

Coach A. A. Stagg is beginning another year at Chicago. He has never been blessed with the material that other Big Ten coaches have; still, he always puts a good team on the field and manages to grab off his share of the victories. This year his style has changed a bit and a "passing game" seems to be in the offing for Chicago fans. The "old man" has seven or eight good heavers headed by Captain Van Nice at halfback. In spite of this prospect the line will be weak so conference teams are not considering the Maroon very seriously as a championship contender.

U. S. C. boasts a heavy powerful line of veterans to place in front of their mighty backfield this year. Not one team on the Southern California schedule last year had a line that could outplay the Trojan forward wall. Every man's name from end to end is known wherever football is discussed. Here is the list—Arbelbide, Brown, Baker, Williamson, Shaw, Hall, and Wilcox. This line will be seen in the northwest this year when they play W. S. C. at Pullman in October.

Idaho starts the 1930 season tomorrow against the Bobcats from Bozeman. The squad, as a whole, is in good condition and all set to give the Montana men a rough afternoon. This game is attracting much interest in the northwest as everybody is anxious to see what Leo Calland's 1930 grid machine looks like.

Gonzaga's untried Bulldog's go to Corvallis this week-end to mix with the Oregon State squad in the first night game of the year in the northwest. The Bulldogs left Spokane yesterday 41 strong, high hopes and a new coach.

Nothing much is being said about Notre Dame yet this fall but it's a bet that every school in the Irish schedule is doing some tall worrying. Rockne called some eminent gridiron officials in the other day to witness the first formal scrimmage and to check the stops and timing of his backfield shift. The guests came away singing the praises of a new Rockne championship. Caridlo, at quarter, looks better than he was last year and even then he was rated the best ball carrier in America.

### CROSS COUNTRY MEN TO REPORT

Half Credit in P. E. Offered Men of Sophomore Standing Who Report for Team.

Cross country men of at least sophomore standing are requested by Charles Heath, manager, to meet at 5 o'clock Monday in the coaches' room in Memorial gymnasium. One-half unit credit in physical education will be given for six weeks of cross country training. The intramural cross country run will not be held until the end of the season, and all men who have not received a varsity letter will be eligible for the event, stated Heath.

### PAIR OF W.S.C.'s BEST BETS

WASHINGTON STATE COLLEGE PULLMAN—In these two powerful stars, Mel Hein, left, and Harold Ahlskog, right, will lie much of Washington State's power when the Cougars meet Southern California here October 11. Hein has sparkled at center for two years, and Ahlskog has played as many seasons at tackle. Besides this pair, Coach Babe Hollingberry has 18 other veteran Cougars to throw at the throats of the Trojans in the annual Homecoming classic. The Friscan has developed a versatile aggregation with speed, power and deception that should cope with all the Howard Jones' Thundering Herd may choose to offer. Between 20,000 and 25,000 spectators will gather at Rogers field for the battle, advance ticket sales indicate. Two hundred Southern California rooters will travel to Pullman in a special train, and similar parties will be organized to trek to the scene of combat from many northwest points.

### RANDALL TO HEAD BENCH AND BAR

Ware, Ewing and Cross Chosen to Fill Offices of Honorary Legal Fraternity.

Bench and Bar, law student organization, elected officers for this semester Wednesday morning.

The winning candidates were: Russell Randall, chief justice; Eugene Ware, associate justice; John Ewing, clerk; and Edward Cross, treasurer.

Bench and Bar was organized in 1912, and is one of the oldest professional organizations on the campus.

FOR A REAL TREAT TRY OUR SUNDAY DINNER HIGH QUALITY — MODERATE IN PRICE THE VARSITY "Home of Tasty Foods"

### REGISTER ALREADY IN DAIRY COURSE

Five Months Practical Commercial Course Draws Students Early in Season

Advance registrations are already being made for the annual five-months course in practical commercial dairying which will be given by the University of Idaho, college of agriculture, department of dairy husbandry, October 27, 1930, to March 27, 1931. Members of the dairy husbandry staff predict a good enrollment. Students who have had some experience will deserve the greatest benefits from the course, although such experience is not required. No

### "LEARNING TOWER" NEARS COMPLETION

University of Pittsburgh Will Soon Have No Room for Idle Students.

NEW YORK CITY, (I.P.)—With the "Tower of Learning," or "Cathedral of Learning," at the University of Pittsburgh rapidly nearing completion, and plans being made for the erection of a 25-story educational center here, American education is continually getting more up in the air. The New York educational skyscraper is to cost about four million dollars, and will house the board of education and considerable museum space.

### SERVICE HONORARY TAKES SEVENTEEN UNDERCLASSMEN

#### Idaho Chapter of Intercollegiate Knights Pledges at Meeting Last Night

#### 3 FAIL TO RETURN New Neophytes Include Several Sophomores List Shows

Seventeen pledges were taken by the Ball and Chain chapter of the Intercollegiate Knights, honorary underclassmen's service honorary at a meeting held at the A. T. O. house last night. The neophyte pages include three sophomores taking the place of Knights who failed to return this year.

The newly selected descendants of King Arthur's round table and the groups from which they were selected are: L. D. S. LeMar, Williams, Blackfoot, Ridenbaugh hall; Robert Harris, Sandpoint, and Ed Tobin, Idaho Falls; Phi Delta Theta, Bud Lewis, Boise, and Charles Walker, Boise; Phi Gamma Delta, Marion Stephenson, Chewelah, Washington; Sigma Chi, Austin Davis, Miami, Florida; Sigma Alpha Epsilon; James Reynolds, Spokane; Beta Theta Pi, Jack Hogue, Payette, and Luther Carl, Caldwell; Kappa Sigma, John Torrey, Ghendale, California, and Rollin Hunter, Moscow; Lambda Chi Alpha, William Gnaedinger, Wallace, and Erwin Fairweather, Wallace; Tau Kappa Epsilon, Claude Marcus, St. John's, Washington; Sigma Nu, Ray Davidson, Boise, and Bud Keating, Wallace. No selections were made from Beta Chi, Delta Chi, or Alpha Tau Omega, their quota of two knights having been already filled.

Due to a change in the national constitution, initiation of the knight pledges will be deferred this year till some time during the spring term, whereas during the past, this initiation has always taken place before Christmas. At the end of the school year an award will be made to the freshman member who has shown the most initiative and enthusiasm and has rendered the most service to the organization during the year. A similar award will be given to a member of the sophomore class. Both of these awards are new this year, having been decided on at the national convention in Logan, Utah, last spring.

Stanton Hale, honorable duke, announced last night that selections from junior knights to head various working committees will be made next week. These committees are also a result of the national convention last year, and are being tried out in the Knight chapters of other schools.

The knights will begin this year's duties Saturday, when they will handle the crowd at the Idaho-Montana State football game, ushering and handling the score board.

### VANDAL CENTER

Art Spangy returns for his second year of varsity play. His presence in the center of the line will increase Idaho's chances materially. After the experience gathered last year he should look good against any conference center.

### THIRD OF FROSH FLUNK ENTRANCE EXAM IN ENGLISH

200 Required to Take Sub-Frosh English; 400 Pass

#### MARY AXTELL HIGH Turns in Score of 176; 13 Exempt From English I

According to reports received from Dr. George Morey Miller, head of the English department, approximately 400 students passed the English test which was given to all the new students entering the university. Of the remainder, about 200 will be required to enroll in sub-frosh English while 13 passed the proficiency test which exempts them from taking English one.

The students were grouped into four classes. Those who failed to make a grade of 85, the standard for passing, were advised to take English A. Students maintaining averages of 85 to 100 were able to enroll for English one on probation, while no restrictions were placed on those whose records ranged from 101 to 150. Permission to take the proficiency test was given to the 31 students whose grades were above the 150 mark.

The committee on English in higher institutions of the Inland Empire Council of Teachers of English, of which Dr. Miller has been a member for 12 years, compiled the examination. This year's test differed in one respect from those given in the past years under the auspices of this organization. It was arranged by Prof. T. S. Fowler of the Bellingham Normal, assisted by psychological experts and limit for each part.

### FACULTY SELECTS ROUTINE WORKERS

#### Authorities Choose Deans And Professors for Standing Campus Committees

A complete list of standing faculty committees and their members were recently named by the administrative officers. These committees will supervise and work in accordance with practically every faculty and student enterprise and are very wide in scope.

The committees named are as follows: Academic council; President Neale, chairman; Dean Eldridge, vice-chairman; Deans Axtell, Iddings, Crawford, Masterson, Farmer, French, Messenger, Miller, Finch, General Chairman, Professors Jensen, Cummings, McCoy, Kostalek, Taylor, Mr. Turner and Miss Olesen.

Administrative Council for the Junior College; Dean Eldridge, chairman; Deans Farmer, Messenger; Professors Burke, Chenoweth, Kostalek, Moshier, Taylor, and Miss Olesen.

Graduate Council Graduate council; Dean Eldridge, chairman; Deans Messenger, Farmer, Hungerford; Professors Hubert, Johnson, Miller and Miss Olesen.

Representative in Athletic Conference, Dean Crawford.

Admissions and Advanced credit, Professor Axtell, chairman; Professors Gail, Hulbert, Barton, Sargent, Taylor, Sowder, and Miss Olesen.

Athletic; Dean Crawford, chairman; Professors Axtell, Calland,

Fahrenwald, Hulbert, Rearden, Wirt.

Calendar; Professor Church, chairman; Dean French, Professor Snyder, Mr. Horton, Mr. Turner, and Kostalek.

Student Organization; General chairman, Professors Hickman, Howard, Kerr, Johnson, and two student representatives.

Exhibits; Professor Laney, chairman; Professors Hickman, Jensen, Prichard, Snyder, Hubert, and Beresford.

Grounds and Buildings

Grounds and Buildings; Mr. Lind, chairman; Dean Miller; Professors Beresford, Prichard, Vincent and von Ende.

Health and Housing; Professor Halverson, chairman; Dean French, Professors Lewis, Calland, Stough, Wirt; Doctors Armstrong, Elmhour, and Miss Egerson.

Library; Miss Sweet, chairman; Dean Masterson; Professors Church, Howe, Laney and Norby; Loan Funds; Mr. Stanton, chairman; Professors Moshier, Taylor, and Tromanhauser.

Public Events; Professor Kerr, chairman; Deans Messenger, F. G. Miller; Professors Cummings, Hungerford, Jensen and G. M. Miller.

Scholarship; Professor Taylor, chairman; Professors Graue, Hungerford, Tromanhauser, and von Christman, chairman; Deans Crawford, French; Professors Barton Discipline; Professor Kostalek, and an A.S.U.I. representative.

### VETERAN TACKLE

William Bessler will be the only veteran tackle in an Idaho uniform this fall. Last year he was a tower of strength in the line and even better things are expected of him this season.

### HEADY QUARTER

Herbert Owens is another veteran back who should rip through opposing lines for heavy gains when the conference season starts. Owens has done his share of heavy work for two years and will undoubtedly continue to do so.

### AID PHELAN

SEATTLE—Chester Wilcox, backfield coach, and Dan Lamont, line mentor, are expected to be standbys of Jimmy Phelan, University of Washington coach, who is shaping up what coast fans hope will be a team of championship caliber. Both assistants are shining examples of the type of player demanded in the Phelan system.

Lamont came to Washington from Loyola at Chicago, where he has been athletic director, and "Cotton" Wilcox was Purdue's one-time All-America halfback.

### STUDENTS FINED BY POLICE JUDGE

Police Judge L. G. Peterson made expenses for the day when he fined four university students for minor traffic violations. One dollar apiece was the amount collected.

Leslie Mix, for wrong parking; Charlie Heath, for failure to stop; Warren Brown, for wrong parking; and Russ Hall, for wrong parking, were the offenders.

The First Lesson for the Fall Term of School

Pocket Duofold, plus Base and Free Taper Equals Complete Desk Set for Home Study

- 1—Parker Pocket Duofold being Convertible—
- 2—saves the Price of a Desk Pen—Now or later
- 3—which pays for the Desk Base!

Every Parker Duofold is convertible—a combination pocket and desk Pen both, at no extra charge. Choose Parker Duofold and you virtually get two Pens for the price of one.

Yet you have only one to fill. And you have your accustomed point wherever you are.

When you're on the go, it wears its trim, streamlined cap, with Parker's patented clip that holds the Pen low and unexposed in your pocket.

On your desk, it rests in Parker's ball and socket Base. And with this comes the tapered end for the Pen (once \$1 extra), now included free.

Attaching the taper converts the Duofold into a Desk Set. Removing it restores the Pen to a pocket model.

**Guaranteed for Life**

Paying more won't get you a thing—but will deprive you of this double value. For only the Parker offers this. And a Pen that holds 17.4% more ink than average, size for size, **Guaranteed for Life!**

Go try them at any nearby pen counter, side by side, with any other pen, regardless of price. You'll be surprised.

### Tomorrow's Big Game

Football, the great God on American camp, makes its bow for another season at Idaho tomorrow afternoon when Coach Calland sends his squad out to meet the Montana State eleven on MacLean field.

For the past ten days Calland and his staff have been drilling their men feverishly, driving them to the limit. And when the red-jerseyed warriors burst through the gym doors tomorrow, you can rest assured they are going into the game determined to win.

Wide-eyed, eager freshmen will get their first glimpse of the Vandal fighting spirit which has won deep admiration up and down the Pacific coast when the first play gets underway.

In the bleachers these frosh will also find the Idaho fighting spirit. A cheering student body will be there pushing its team on to victory and before the first quarter ends the frosh who has not yet been swept into the never-to-be-forgotten Vandal rally is doomed to miss one of the greatest thrills this old life has to offer.

### An Opportunity

This evening an opportunity will be offered the students of the university to attend informal receptions of their respective churches. Those students who pass up this opportunity with some custom built excuse will be doing themselves and their parents an injustice.

There is a tendency among college men and women to lose contact with religious influence once they leave home for this new environment. Perhaps it is the first time away from their parents. A new freedom from old restraint is felt. They may not be able to parallel their instruction in class with that of their church. Other young people will relax in their church interests because they have not the initiative to attend. Many of them can see no value in the church influence.

If the body and the soul are not developed apace, with the mind there will be no balance. And without balance ideals are formed on an uncertain basis. The leaders of men tomorrow must have trained minds—but they must not be at the expense of a moral sense.

Tonight the townspeople, faculty and ministers of the several churches are prepared to meet student members and preferences. Why not spend a few minutes this evening making some new acquaintances and perhaps you will decide to attend church Sunday.

### FROSH GRIDMEN WORKING HARD

#### Southern California System Will be Brought to Vandal Babes This Year

The University of Idaho freshman football squad has been sharing MacLean field with the varsity in practice workouts for the last three nights. Coach "Red" Jacoby has a large group of rooks on the field every night lumbering up. The linemen get their share of bumps through use of the "two on one" system and man to man blocking. The backs are going through the usual passing and punting practices. Jacoby plans to have his men scrimmaging before the week is over and it won't be long before the Babes will be tangling with their big brothers on the varsity. Over fifty young Vandals have been issued suits and when they are running around the field it appears that their weight average will compare favorably with the varsity. At least there are some awfully big men out on the freshman side of the field. The Vandal Babes will be taught the Southern California system the same as last year so they will have the fundamentals learned when they become eligible for varsity competition next fall. The first freshman game is scheduled with Lewiston Normal on October 11. The Normal men took the measure of the rooks last year by resorting to two sleeper plays in the last half.

The men have had no chance to show their class as yet, but Jacoby plans to hit the squads as soon as he gets a good line on the abilities of the men. Many high school stars from all over the west are included on the roster at the present time and it is certain there are at least two first class teams contained in that array of talent.

### MANAGER'S CLUB ELECTS GRIMM

Egbert, Young and Reiniger Also Elected; Hoffman Has Charge of Game

"Bus" Grimm was elected president of the Manager's club Wednesday evening at their first meeting of the year in the Sigma Chi house. Kenneth Egbert took the office of vice-president, Wilford Young secretary, and L. Reiniger, treasurer. "Curley" Hoffman was put in charge of the next Saturday's football game. A discussion was held as to the possibility of getting closer cooperation between graduate manager, George Horton, the Inter-collegiate Knights, and the managers.

The most densely populated body of land in the world is Java with a population of 690 persons per square mile.

Measurement of noted brains at Cornell University has demonstrated that women are equal mentally to men.

### ENGINEER STAFF TO MEET MONDAY

#### Increase of Publications and Appointments on Staff to be Discussed

A joint meeting of the business and editorial staffs of the "Idaho Engineer", semi-annual technical publication of the Associated Engineers will be held Monday at 4 o'clock in the engineering school library.

Among other improvements the feasibility of increasing the number of publications from twice a year to four times will be discussed.

Harry Owens, Montpelier, is editor and Laurence Smith, Moscow, is business manager of the magazine.

All engineering students interested in working on either the business or editorial staffs have been requested to attend the meeting.

### PUBLICITY CHIEF TAKES EDITORSHIP

Oren A. Fitzgerald, director of publicity and agricultural editor for the university, has been appointed head of the combined office of university editor and director of publicity. Reorganization of the two offices followed the resignation of Edward F. Mason, professor of journalism and university editor, who leaves Idaho to join the journalism staff of the University of Iowa.

Mr. Fitzgerald will have charge of the editing of the university's numerous publications and will direct the news service as well as conduct the many interests in the state which call upon the university for service. Mr. Fitzgerald is a graduate of the university with the class of 1923. He is well known in southern Idaho and the Salt Lake region, having been associated with the Salt Lake Tribune for several years before joining the university staff in 1927. His home town is Grangeville.

Elmer F. Beth, formerly instructor in journalism at Washington State college, comes to the University of Idaho this fall as successor to Professor Mason in journalism teaching. He will also do cooperative work with the state editorial association.

### SHORT COURSE IN MOTORS FOR AGS

Two short courses in motor mechanics and power farming will be offered this fall at the University of Idaho by the department of agricultural engineering. One is scheduled for five months, October 27, 1930 to March 27, 1931. The farmers tractor short course lasts two weeks, January 26 to February 7, 1931.

Work is grouped in special courses such as motor repair, ignition, generators, starting motors, welding, machine shop, drafting, farm electricity, shop mathematics, tractors and auto chassis. In offering the courses the department of agricultural engineering is endeavoring to fill the need for training that meets the requirements of the mechanical age as it applies to agriculture.

### SLEEPER SAM

O-Hell-O—And just who is this Gertie Guillotine—that's what we want to know. Anyway we don't relish the competition. Anytime one of these smart campus co-eds mixes with good clean fun it's time to be careful—the female species are so broad minded. And might we also add that this Boyd-Simm combination is going to be hard to beat. Since Gertie's column, Boyd has deserted the D. G.'s park-like lawn to trail the Kappa's. (There's one consolation—the Kappa's front yard is more hazards than the Russian Steppes—and an accident might occur any time.)

FAMOUS CAMPUS SONGS. Cowboy Song: "I'm dancing with STEARS in my eyes."

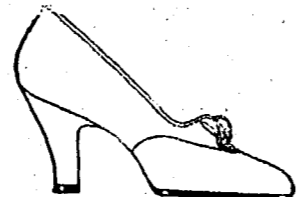

AND speaking of songs, now that rush week is over we can tell you that the theme song used by most tongs was "Little White Lies."

While dating a freshman named Smith After many a sock and a bill Da-dad-dle-da-da Da-dad-dle-da-da And morals are only a myth.

According to the rushees reports during rush week the Sigma sv's will have four Intercollegiate Knights, six men on the football team, five new leaders of the Pep band and at least thirty big bean-eaters.

YES, AND JUST THEN A HORSE CAME IN TO GET A SHAVE!

INCIDENTALLY—we do not care when people give us the raspberry. Ho! Hum! The reason is probably because we have always loved horses.

And here we have a shoe! Some sororities remind us of a ladies' shoe. There is a tight fit to make ends meet—sometimes extroceptive means are used. The sole is narrow and tough. A lot of oiling is needed to take the squeaks out. A lot of paint and coloring is needed to present a respectable appearance—and, as in shoes, the heels predominate!

We understand the Betas are having a platform made for their new Marimba, so that they can use it for a tea wagon.

BELIEVE IT OR NOT. The Sigma Chi's have a two thousand dollar piano and no one to play it. The "Hot-Box" on the playing device wouldn't work. Yes, just one of those little human elements entering in.

Jerry Walsh, Filj, is trying to sell his car on a punch board so that he may enroll.

Johnny Soden, an A. T. O., is living in a sorority house—by living, we mean not only eating, but sleeping there. (We are happy to say it isn't Daubert.)

\*\*\*Kappa Kappa Gamma

It has been rumored that there will be a special assessment at the A. T. O. house to buy gas for the new cars they have pledged.

—SNORFERS—

### Student Opinion

Dear Editor: What becomes of all the pins which are born upon this earth? Or where do all the thumb tacks spend their declining days? These are great mysteries—but there is another of distinction. Where does all the money go that Idaho students donate each semester to the gods of Health?

Twice a year 2000 students deposit \$4.00 each to the credit of a tiny yellow frame shack which carries the distinguished title of infirmary. College mathematics says that this is still a lot of money. But what is there to show. Two physicians spend a few hours daily on the job, and a couple of nurses hang their hats in the hall. And a book-keeper sends students bills for service rendered.

A part of that \$16,000 must be left to the cruel cruel world. What, Oh, what becomes of it?

Yours Sincerely, M. R.

### REMOVED HEART BEATS 36 HOURS

Organ of Turtle, in Salt Solution, Records 72,000 Pulsations

Princeton, N. J. (IP)—A disembodied heart not only still beating steadily, but writing as it throbbed a permanent, minutely precise record of its pulsations, was exhibited here in a demonstration of new instrument developments by science for the advancement of medicine and psychology.

The device, invented by A. L. Loomis, of Tuxedo Park, N. Y. in collaboration with Dr. Edmund N. Harvey, professor of physiology at Princeton University is called the Loomis chronograph. Dr. Harvey said it will facilitate study of the phenomena of heart action and the effect of drugs on that vital organ.

The heart of the demonstration here was that of a turtle, removed from the reptile while alive, freed of all extraneous tissue and suspended in a physiological salt solution exactly duplicating body conditions.

In this state the organ continued to beat 36 hours, at the same time setting down by means of the chronograph a graphic history of that time.

With each beat the tiny organism pulled down a little lever that dipped a fine filament into a drop of mercury and made a contact that transmitted an electric impulse to the chronograph. There it was translated in a fraction of a second into a record inked on a chart.

Introduction into the solution of nicotine—one part in ten thousand—and of adrenaline—one part in a billion—was immediately noted by a marked retarding of the heart tempo in the first case and a swift acceleration in the second.

### FORESTRY HEAD TO SHIP TREES

Fall shipments of forest and shade trees from the state nursery operated by the University of Idaho school of forestry will be made within the next few weeks according to conditions existing in the nursery for lifting and packing the trees, reports Dean F. G. Miller,

head of the school of forestry. Most of the orders for trees are filled in the spring, but the nursery is able to fill many requests for fall shipments. Fruit trees and shrubs are not handled. A list of forest and shade trees available will be sent upon request, Dean Miller said. Farmers may obtain young tree stock for woodlots, shelterbelts and windbreaks at about one-half cost of production, the federal government paying the other half to the school of forestry.

### BOISE SPECIAL BEING TALKED

Plans For Train to College Of Idaho Game Tentative

The possibilities of a special train to Boise for the football game with the College of Idaho one week from next Saturday loomed up again today when "Bus" Grimm, yell duke, announced that Union Pacific officials will arrive in Moscow Friday to arrange the details of the trip

and fares. The train will probably leave late Friday afternoon and arrive in Boise Saturday morning. At 2:30 the same afternoon the game will be played at the Public School field. Saturday evening the Pep band will play at one of the dance halls. Early Sunday morning the train will pull out from the Boise depot and will arrive in Moscow in time for eight o'clocks. This is only a tentative program. Further information will appear in the next issue of the Argonaut, said Grimm.

"ONE SIDE, FELLA.."

YOU NEED CAMPUS CORDS TO BE IN THE PICTURE . . . . ."

Campus Cords are corduroys for campus wear. Even ignominious Ichabod, the gentleman being snubbed above, should be able to remember the name. And if he's wise he'll lose no time in buying at least one pair.

Not only will they put him "in the picture"—smarter trou were never designed—but they'll last and last and last.

Best quality corduroy and expert tailoring do the trick. Straight hang. Wide bottoms—not extreme, just right. Two-inch cuffs. Two front slash pockets. One flap pocket.

Made in several colors. The distinctive cream color is popular. In narrow and wide-ribbed corduroy. And if you want to wear them off the campus also, we can't stop you.

Look at them at the leading stores now. Be sure you see the label inside the waistband.

# SOCIETY

LILLIE GALLAGHER, Editor.

**T**ODAY ends the gay round of rush parties which have been keeping the sorority houses of the campus in an almost endless whirl of excitement for the last ten days. With pledging scheduled for tomorrow, the new girls will finally settle down in their respective groups and society will be free to assume its fall program of group dances. Pledge dances will occupy the limelight for several weeks to come, after which informal novelty house dances usually fill the social calendar up until the Christmas holidays. The first football game of the season on Saturday foretells visits to the campus from out-of-town alumni and other Vandal football fans.

Parties which were scheduled for the last few days of rush week included the Alpha Phi luncheon, the Delta Gamma formal dinner, and the Gamma Phi Beta fireside, all held yesterday. Today's parties are the Kappa Alpha Theta luncheon, the Alpha Chi Omega formal dinner, and the Delta Delta Delta fireside tonight.

Phi Delta Theta has the distinction of being the first fraternity to honor its recent pledges by a pledge dance. The dance is scheduled for tomorrow evening at the chapter house.

**CALENDAR.**  
 Saturday, September 27  
 Phi Delta Theta Pledge Dance  
 Saturday, October 18  
 Kappa Alpha Theta Pledge Dance  
 Alpha Tau Omega Pledge Dance

Delta Gamma announces the marriage of Gladys Pence, 30, to Herman Welker, 29. The wedding took place September 20 in Payette. Mr. and Mrs. Welker then went by plane to Portland for a wedding trip. They will make their home in Weiser where Mr. Welker is prosecuting attorney. He is a member of Sigma Chi social fraternity and both Mr. and Mrs. Welker have been prominent on the campus.

The fraternity of Phi Gamma Delta entertained during the past week, Eugene Andres, national field secretary. He left Tuesday afternoon to continue his tour of the western chapters.

Lambda Chi Alpha announces the pledging of William Hill, Donald Griffith of Burley, Clifford Berkley of Orofino, Robert Kellogg of Naches, Wash., Carl Jones of Boise, Ross Bennett of Wallace, and Joseph Stone of Bovill.

Albert Schmitz, student at Gonzaga, was a Wednesday luncheon guest of Sigma Chi.

The fraternity of Phi Gamma Delta announces the pledging of Holden Bowler, Gooding.

Willis Smith of Boise was a dinner guest of Sigma Chi, Wednesday evening.

There will be a church party given at the L. D. S. Institute recreation hall Friday night at 8 o'clock. All L. D. S. students and their friends are cordially invited to attend.

John Armitage, Nampa, returned to the campus Wednesday. Mr. Armitage is a junior.

John Montgomery, '28, was a dinner guest at the Phi Delta Theta house, Wednesday evening.

Paul Gibbs, Moscow, was a dinner guest Wednesday evening at the Phi Delta Theta house.

New York has 1,200,000 school children.

The two hundredth anniversary of the invention of the cuckoo clock is being celebrated in Germany this year. The first one was made by Franz Anton Ketterer in Schoenwald in 1730.

The Carnegie Foundation for the Advancement of Teaching has given more than \$18,817,000 in 837 retiring allowances from 1906 to 1930.

## Career Of Service Is Claim of U-Hut, Campus Landmark

The U-Hut, dispenser of good news, bad news, bon mots, and advertising circulars, has had a colorful and varied past, according to Frank Jones, mail clerk in charge.

The U-Hut was built during the war for a social and dining hall by the Y. M. C. A. from local contributions. At that time over 900 men were studying vocational subjects on the Vandal campus in preparation for war-time duties.

After the war, for a time, a Y. M. C. A. representative used the U-Hut to carry on social work among the university students.

For the past four years the U-Hut has been used as a branch of the down-town postoffice. September 1 was the fourth anniversary of the branch office in the U-Hut.

Most of the halls and fraternities and many individuals have rented lock boxes. The advantage of a box is in being able to obtain mail on Sundays and holidays.

Contrary to popular opinion, approximately as much money goes out in money orders as is received. Jewelry, clothes from the home-town clothier, and miscellaneous scientific equipment require money orders when sent C. O. D.

"Annual has been on the increase every year. And plenty of it goes to south Idaho via Pasco. It is a saving of four or five hours for the southern points," said Mr. Jones.

"The volume of mail has increased so much that Ione Adaire, my assistant, and I have been unable to handle the cancellations easily. Postmaster Estes has granted us a modern cancellation machine, and it will be installed this winter," he continued.

"Is there much air-mail for family names in the east?" was one of the questions.

"Well—there is a lot of air-mail for the east, but as to who it is for I couldn't say. But there is some big attraction from those parts for a lot of the boys."

**NEAR-HERMIT WILLS SCHOOL GREAT SUM**

ANN ARBOR, Mich. (I. P.)—A near-hermit, who lived in a tumble down estate near Rye, N. Y. was in life and in death one of the greatest benefactors the University of Michigan ever had, and its most modest.

Although he gave the university between eight and fifteen million dollars during his life-time, and bequeathed the institution about twelve million. William Wilson Cook never visited the place after his graduation in 1882, not even for the dedication of the beautiful Lawyers' club and the Martha Cook dormitory, both of which were his gifts—the latter named after his mother.

The house in which Cook lived at Rye has been described by neighbors as not worth more than \$500, and containing furniture which was mostly junk.

**ARROWS DECLARED DEADLY WEAPON**

BERKELEY, Cal. (I. P.)—That the skill of the primitive man in making bows and arrows has been greatly exaggerated, and that much more deadly weapons of this kind can be made by civilized archers, is the contention of a book, "A Study of Bows and Arrows" by late Dr. Saxton Temple Pope, just published by the University of California Press.

Doctor Pope, who was graduated from the University of California in 1899, and was for many a year a member of the faculty of the University Medical school, tells of one particular experiment with a bow from Paraguay, South America, at the University of California museum. The heavy, crooked bow, made of ironwood, 71 inches long, drawing 25 inches and pulling 60 pounds on the string, cast an arrow 170 yards.

By perfecting the bow, civilized man was able to cast an arrow with it 275 yards.

Other tests have shown that an arrow can be shot through a piece of armor plate from a distance of 21 feet.

**W. A. A. BOARD TO MEET**

Women's Athletic Association executive board will meet Monday evening at 7 o'clock at the Women's gymnasium.

## SIXTY-FIVE OUT FOR FROSH TEAM

Outstanding Prep Men on Roster Make Season's Outlook Bright

Sixty-five frosh gridsters reported to Coach Red Jacoby for practice Monday afternoon. With a squad of this size, many of whom were outstanding in high school competition, the Babes' outlook is promising. Coach Jacoby predicts a very light team this year.

Most of the first week of practice will be devoted to merely reviewing the fundamentals of football and giving the men a chance to adapt themselves to the Calland style which is new to most of them. The following men who were prominent football players in high school have called for uniforms: Mez McMurray, John Norby, Cy Geraghty, Cy Bearson, Earl Smith, Willis Smith, Harold Alby, Leonard Tover, Walter Wrasper, Ray Russell, Paul Graves, Orville Schmitz, Lovett Giffin, Barton Nitting, Jack Barby, Edward Webb, Edwin Bowker, Bill Brailsford, Clayton Hadley, Edward Togan, Norman Roberts. Jacoby has many others whom he expects to develop into strong players before the end of the season.

The yearlings have six hard games confronting them this season.

The schedule:  
 October 3.  
 Practice game with varsity reserves  
 October 11.  
 Lewiston Normal. . . . . Moscow  
 October 18.  
 Spokane university. . . . . Spokane  
 November 1.  
 Ellensburg Normal. Ellensburg  
 November 8.  
 W. S. C. Frosh. . . . . Pullman  
 November 15.  
 Gonzaga Frosh. . . . . Spokane

## CRAWFORD TAKES EXTENSIVE TRIP

Dean of Engineering School Returns From Visit to Lending Technical Schools

Dean Ivan C. Crawford, head of the University of Idaho college of engineering, recently returned to the campus after a six-weeks trip to the east which included attendance at a national engineering education meeting and visits at leading technical schools and large industrial and engineering corporations.

Dean Crawford represented the University of Idaho at the annual meeting of the Society for Promotion of Engineering Education, held at Montreal, Can., June 26 to 28. He reports 450 leading engineering educators and practicing engineers from all parts of the United States and Canada were present.

Dean Crawford was re-elected a member of the society's board of directors to hold office for another two years. On his return he visited several industrial corporations employing Idaho engineering graduates and found the corporations more than satisfied with the Idaho men in their employ.

Among the technical schools Dean Crawford visited were the University of Colorado, McCall university, University of Philadelphia, and the University of Utah. At these institutions he inspected laboratory equipment used in the engineering colleges.

## Idaho Hog Wins Fame And Honors Over 60,000,000

Fame and distinction comes even to hogs. Witness the case of Robber's Maid 40th, a purebred Poland China sow owned by the University of Idaho college of agriculture. Out of a field of 60 million competitors, the swine population of the United States, she was chosen by the U. S. department of agriculture as the ideal type of market hog.

Last year she was a junior champion at the Spokane Interstate fair and the Portland International Live-stock show. Experts of the bureau of agricultural economics, livestock and wool division chose her this year as the ideal model toward which to work in breeding market hogs.

Championship herds in the great hog producing states of the middlewest were considered, including all breeds, in choosing an individual whose figure was the ideal in porky lines. Out of 60 million hogs in the United States, Idaho is credited with only 400,000.

Points in which Robber's Maid 40th excelled were her long smooth sides and shoulders, uniformly wide and deep, symmetrical development with the least waste, sound straight feet and legs and strong heavily muscled back.

## No Rhodes Scholar Will Be named to Succeed Huber

No successor will be chosen this year to George L. Huber, Kellogg, Idaho's 1930 Rhodes scholar, who died of heart failure while swimming in Hayden lake July 20, according to word received by university authorities from McKean F. Morrow of Boise, secretary of Idaho Rhodes' scholarship committee.

Huber was to have entered Oxford university in England this September. Mr. Morrow received word from Frank Aydelotte, American secretary for the Rhodes trustees and president of Swarthmore college in Pennsylvania, that it was too late to select a man in Huber's place. In the past such vacancies have been filled by selecting a scholar at large where time permitted, but it is believed that there are no cases on record during the last 10 or 12 years when states have been allowed to fill such vacancies.

Idaho may not even have a Rhodes' scholar next year because of the change adopted this year in the system of selecting candidates, from a state to a regional basis. Mr. Morrow expressed the hope that arrangements could be made for choosing one man from Idaho in the next appointments from this region.

There are only 27 moving picture theaters in the province of Szechwan, China, although the province has a population of sixty million people.

John Masfield, poet laureate of England, who used to be a New York bar tender, and whose poetry frequently sings the praises of wine, is a teetotaler.

## THREE VETS OUT OF BOBCAT TILT

Captain Berg, Wilkie and Carlson to View Game From Bench

Idaho will enter tomorrow's fray against the Bobcats without the services of three veterans. Captain Howard Berg will adorn the bench because of a slight injury to his leg, while Otto Lichtl, a last year's reserve, will be at left half. Fred Wilkie, plunging fullback star, will also view the game from the sidelines because of a shoulder injury suffered in scrimmage last week.

Harold Carlson, veteran end, is also suffering from slight injuries and Calland is taking no chances with him. Sackett, a sophomore will fill Carlson's shoes at the right end of the line. Jack Booker will start at the fullback post. The team will not be weakened a great deal as Booker and Lichtl have shown their stuff under fire before and both look good. Sackett has everything in his favor except experience and will be out tomorrow, fighting to make his job permanent.

By using a violet ray, experts were able to determine that the body of a man taken from the drainage canal at Chicago recently was that of a Chinaman. An extracted tooth was used for the test.

Notices of meetings must be in the Argonaut copy box in the main hall of the Administration building by 3:00 p. m. on Mondays and Thursdays.

Last year there were more college students in the United States than in all the rest of the world combined. There were 1,237,000 students enrolled in colleges and universities in this country.
