## A Tardy Reward

Commendation should be given whenever due, and Harry Sandow, a freshman at the university, certainly performed a praiseworthy act when he broke into the burning farmhouse at Blackfoot recently to rescue a mother and her two children.

To perform the act of entering the smoke filled room required not only courage, but presence of mind in danger. Sandow showed he possessed both. Without hesitation, he entered the window he had smashed, and crawled to the mother and children, because the smoke was less dense near the floor. Courage and presence of mind!

Newspapers throughout Idaho—and the United States for that matter—in printing the tragic story of the mother and one child who finally succumbed after their rescue, failed to devote much space to Sandow's brave act. But The Argonaut feels that he is deserving of all the credit that can be given him.

Though only one of the three victims of the oilcan explosion lives today, that one, at least, owes her present existence to Harry Sandow. He extended every effort to keep the vital spark of life in all three; and it is only pathetic that his courageous endeavors were not completely rewarded.

## PHILOSOPHER AND PSYCHOLOGIST AGREE ON STATUS OF STUDENT

Defying tradition, public opinion and an old Idaho custom, Dr. J. W. Barton and Professor C. W. Chenoweth have at last agreed upon a question. Interviewed separately and unsuspecting of evil intent, the two were found to be in startling concord on a very profound subject—the superficiality of students.

"There is just 100 per cent more superficiality among students and faculty members than there should be," said Professor Chenoweth. He went on to explain: "Students as a whole are very serious—except in connection with classes. Students are not superficial—just those who are enrolled in college are. By a student I mean one who has acquired an interest and found something he wants to know. One driven by such an interest can never be superficial. The thing that has impressed me about Idaho students as I have met them from year to year is that they are just about to arrive. They have the ability and are just about to wake up, but except in rare instances, they never quite seem to."

Two Types.  
"I'm in favor of offering two types of work—one adapted to the student and one to the enrolled student."

## FINGERPRINTS BETRAY TASTES OF TYPICAL STANFORD ROUGH

P. I. P. A.—Fingerprints that would delight a modern criminologist serve also to betray the Stanford rough in his literary tastes. Favorite books of that campus have been revealed on a "black list" of index cards at the library. That is, cards which are renewed every two or three months to escape obliteration from grimy, eager hands.

These much-thumbed volumes are offered by a despairing librarian, who every quarter has to send to the library of congress for new cards, printed there by the government printing office, besides typing numbers of them herself. The list is a trifle startling in its variety. All the alcohol cards are dog-eared with handling, while arithmetic ranks in equally smudged popularity. Works on David Starr Jordan come in for new cards as often as organic chemistry, which is pretty often, as the

## Gentleman Jim

On Monday morning, a certain prof was heard to imply that the students' brains are in their feet, and that their feet are very lame. Such cruelty to dumb animals should not be tolerated. What we need is merely a vacation to recover from vacations.

After gazing on the countenances of some people, the question arises as to whether these big outdoor men were sliding on skis or on their faces.

As a result of last Wednesday night, the Sigma Chi's are wondering whether this new plan of "exchange house desserts" should not be known as "exchange house deserts." It just goes to prove that the 111 fellows shouldn't believe everything they hear over a tele-

## ON THE SPOT

hear ye! hear ye! in case the front page advertisement in the last issue, didn't make it clear, let it be repeated that kappa sigma will hold its traditional "jolly" house party on Saturday. The girls are said to be actually giggling with expectation, and who wouldn't? over an opportunity to spend twelve... frolicsome... hours with a kappa sig... and the boys get a "bang" out of it... even the twelve hours is a long time... to keep a girl satisfied... new perforated stockings we see anking about... look like someone had fired at a self-respecting pair... with a self-respecting pair... many times a day do the librarians... downstairs... mount the ladder... to the hurricane deck... thas, graybill and the missus... coaxing along their stream-lined lizzie... "irish" martin's semi-nautical swagger... avast thar!... "doc" haffton scratching his near-bald pate... expect any minute to see him his forth under a crimson tupee... by the by... he was two days late springing his annual "scotchmen" joke this year... getting careless... comes a tale of a lover who visited his lady in Spokane... over Thanksgiving... and now that they're back she blossoms out one night... wearing his weird pajamas... first instance we know of where a gent has passed his pajamas... rumor says he calls her mouse... and she calls him daddy mouse... phooie!... the awkwardness with which most girls smoke... few sessions before the mirror might help the acquire... the needed finesse... but it's doubtful... seen thru open windows are the delicately molded torsos of the beta boys as they perform their ablutions... or idle about their rooms... is it or is it not significant that on the d. g. side... the sig nu house has but one window... whereas... at the alpha chi end are two windows... and what appears to be a door... any terrifying night noises can be blamed on harry lee horsewill... who has been known... to scream in his sleep...

## Sob Sister

Now the demand of the day, along with painless dentists, home loving dates and a week's good sleep, is a cent-a-mile rate to southern Idaho.

And then my dear, maybe we could get some first hand information about these vacations in the banana belt we've been hearing so much about.

And girls, girls, who's got the Queen?

Have you noticed all the people going around with a far away look in their eyes, muttering under their breath? Don't be alarmed, they're just counting the hours now until the 18.

Oh, well, we were young and eager to get home once ourselves. W. A. A. had a volleyball mixer

## Gertie Guillotine

Boop-a-doop. Campsters. Only 2 more weeks till Xmas—By the way it's time to pick a fite with your girl friend or she might expect a Christmas present from you.

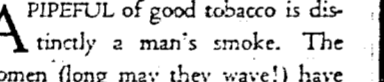

G.G.  
Speaking of all the clubs on the campus we wonder how the Blue Nose club is getting along this year. For particulars, "Scribe" ask some of your fraternity

## Here, MEN, smoke a man's smoke

A PIPEFUL of good tobacco is distinctly a man's smoke. The women (long may they waver) have taken over most of our masculine privileges. But pipe smoking still belongs to us.

In every walk of life you'll find that the men at the top are pipe smokers. And most college men agree that the pipe offers the rarest pleasures a man could ask of his smoking.

When you smoke a pipe, be sure you choose the tobacco that will give you the greatest enjoyment. In 42 out of 54 colleges Edgeworth is the favorite. You can buy Edgeworth wherever good tobacco is sold. Or for a special sample packet, write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va. Sample is free.

The pipe is not for pretty girls.

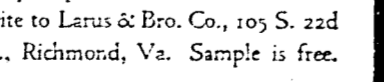

## EDGEWORTH SMOKING TOBACCO

Edgeworth is a blend of fine old burley, with its natural flavor enhanced by Edgeworth's distinctive and exclusive cleansing process. Buy Edgeworth anywhere in two forms—Edgeworth Ready Rubbed and Edgeworth Plug Slice. All sizes, 15¢ per packet package to \$1.50 per pound humidifier tin.

## Thursday night—with no men.

What are these mixers coming to? Speaking of the new house the Sigma Nu's are building, we hear the S. A. E.'s plan to build in the spring.

And now that we're on the subject of the of the brotherhood, we'll take this opportunity of congratulating little Johnny Trzeman on his birthday.

Since we've given you all this publicity, now how about a position on the Blue Bucket staff?

We notice that Walt Gillespie is taking his meals down town these days—and not paying for them either.

O. G., why doesn't some girl love us that much?

## Saw a picture of Ed Coon in the Statesman a while ago you know.

Another S. A. E. makes good. We heard that Ran Wallis was in the infirmary. Hope he doesn't feel any worse, anyway, now that he's out.

At this writing we notice the S. A. E.'s have a brand new picture, all autographed and everything.

You couldn't possibly guess, so we'll have to tell you who it is—hold your breath girls—Rudy Vallee.

Can't you just see all the brothers in a big huddle on Thursday afternoons at five, listening to him broadcast?

Well, maybe most of them do sing, but Ray Sowder can surely play tennis.

And speaking of athletics, have you ever seen all the "I" awards decorating their dining room?

# Society

## Senior Ball At Elks Temple First Formal Dance of Year

With three big annual social events scheduled, this week-end promises to be one of the most interesting of the school year. Now that Thanksgiving holidays are well over and the Christmas vacation is drawing near, the period between can very well be filled to the capacity with exciting features of campus society.

### ENGINEERS SPONSOR ALL COLLEGE DANCE

The annual Associated Engineers all-college dance is to be given this Saturday at the women's gymnasium. The hall will indeed be exquisite. Much time and expense has been put into the decorations. The effect will be obtained from lighting. Shades of pastel blue will be given forth by large floodlights and will blend harmoniously with the beams of the spot light. An exhibit of engineering products will be most interesting.

The programs will be steel engraved and of engineering design. The general committee chairman is Jack Izatt. The decoration committee is composed of Fred Roberts, Gordon Hannum, and Virgil Thompson. The program chairman is Carl von Ende.

### SENIOR BALL WILL PROVE NOVEL

The annual formal Senior ball, one of the outstanding events of the school year, will be held tonight at the Elks temple. The decorations will carry out the Christmas motif. The programs are of black celluloid with silver silhouettes of a man and woman's head. They are engraved with silver letters.

The hall will be exquisite in black and silver silhouetted programs. With this exception it will seem like a forest at night with tall fir trees hedging in the dancers with stars twinkling above.

Two novel stunts are to be given during the evening. Patrons and patronesses will be Miss Permeal J. French, Dean and Mrs. W. E. Masterson, Dean and Mrs. Ivan C. Crawford, and Mr. and Mrs. Leo Calland.

### KAPPA SIGMA GIVES ANNUAL HOUSE PARTY

Kappa Sigma fraternity will give its annual house party starting at noon Saturday with a four course dinner at the Blue Bucket inn. Immediately following this will be a program dance at the Kappa Sigma house. Toward evening the Frosh will entertain with a clever play. Refreshments will be served the guests at seven. As a last event a Mardi Gras will be staged with all the trimmings including serpentine, confetti, and horns.

The honored guests will be Gen. and Mrs. E. R. Christy, Patrons and patronesses will be Dean and Mrs. T. S. Kerr, Mr. and Mrs. H. E. Lattig, and Capt. and Mrs. H. L. Henkle.

### UNIQUE PROGRAMS FOR SENIOR BALL

Heading the list in prominence is the annual Senior ball tonight at the Elks temple. Now is the time to strut forth in that exquisite new evening dress, and the borrowed tuxedo. The programs are of celluloid, carried out in a scheme of black and white. The hall will be decorated in Christmas motifs, and a continuation of the black and white design of the programs. Rosie Layne's orchestra will furnish the music. Several interesting stunts will be presented during the course of the evening.

### ENGINEER'S HOLD ANNUAL DANCE

The Associated Engineers are giving their annual all-college informal dance in the women's gymnasium Saturday. An unusual system of lighting creating a blend of pastel blue effects is being planned. Steel engraved programs are to be used.

Phi Gamma Delta and Delta Chi are both entertaining at informal dances at their chapter houses the same night.

### FRATERNITIES GIVE DANCES

Phi Gamma Delta fraternity is giving an informal dance Saturday evening. The affair promises to be a lot of fun, but they are keeping the decorations and entertainments secret. Patrons and patronesses will be Mr. and Mrs. Max Griffith, Mr. and Mrs. Rich Fox, Miss Bethel Packenham and Mr. Edward Poulton.

### KAPPA SIGMA PLANS HOUSE PARTY

Saturday noon the Kappa Sigma 12-hour house party will begin. The present depression in the stock market and elsewhere is the

## DRAMATIC READER IS GIVEN OVATION

Mrs. Sarah Truax Albert Presents Amusing Modern Comedy

Reading the amusing comedy, "As Husbands Go," at the first meeting of the English club last evening in the L. D. S. hall, Mrs. Sarah Truax Albert received the commendation of her audience.

"As Husbands Go" by Rachel Crothers is the story of an American wife who falls in love with a young English novelist in Paris. She returns to America, and the Englishman follows her. He stays in America just long enough to discover her husband is the better man, and then returns to Europe alone.

Mrs. Albert showed a natural and rare gift for the comic turn causing frequent laughter with her smart handling of the many witty lines. The play had its poignant moments, and these were equally effective with Mrs. Albert's capable handling.

Her interpretation of the different characters were especially vivid. The reading of the play called for the enacting of such various characters as the leading part of Lucille Lingard, a smart and distinguished woman of 35; her husband, Charles Lingard, tolerant and possessed of a rare sense of humor; Ronald Derbyshire, the handsome young Englishman; Emmie Sykes, 45 years old and very young; and Hippolitus Lomi, a suave European.

Following the reading of the play the members of the audience adjourned to the hall downstairs where refreshments were served. At the opening of the meeting, members of various committees gave reports on the work being done by their groups.

## The CINEMANIAC

OVER THE HILL, opening Sunday for a four day run at the Vandal Theatre, is an old fashioned cinema dealing with the story of filial ingratitude and the poor house. In 1920 "Over the Hill" was a vast success in silent pictures, and now, having been made into a talkie, the film is considered even better. Mae Marsh, as "Ma," plays her role in the mood that fits it and contributes an understanding portrayal of motherhood. Sally Eilers and James Dunn, as the young lovers in the picture also deserve a great deal of credit. The film contains many temporal contradictions caused by bringing it up-to-date, but they are minor and do not hinder the success of the picture.

MEN IN HER LIFE, starting today at the Kenworthy, is a cinema based on a novel by Warren Fabian. It is the story of a daring debutante who is out to discover love and life for herself, and accordingly runs into a lot of adventure. Lois Moran and Charles Bickford carry the leading roles. The theme is interestingly carried out with picturesque settings, making the film extremely entertaining.

THE TIP OFF, playing at the Kenworthy Theatre Sunday and Monday, is a radio romance starring Robert Armstrong and Eddie Quillan. The story revolves around a "Mr.-Fix-It," the radio repair man who spends his time getting in and out of trouble. The story is light but amusing.

## PRESENT PROGRAM AT W. A. A. MEETING

Forney Hall Awarded Cup For Horseshoe Tournament For Second Time

W. A. A., with President Bess Louise Hogg in charge, presented an interesting program Thursday after the volley ball game. The sup for winning the horseshoe tournament was awarded to Forney hall. This is the second year Forney has won the cup. The winners this year are Margaret McComb and Marie Rosenau.

Francis DuSault, basketball manager, was responsible for a cleverly staged farce on basketball. The team, modestly dressed in gunny sacks, came onto the floor, each girl dragging a chair. The warming up consisted of tossing baskets while seated on the chairs. The jumping centers began the game by standing on their chairs and jumping for the ball. The audience was hilarious as they watched the game proceed.

New Members Pledged A whistling solo by General McKinney and a hobbledown dance by Grace Nichols concluded the program. After eating refreshments of punch and doughnuts, the girls danced. Everyone agreed that her time and time was well spent.

The new members eligible for pledging W. A. A. as announced by the president are Cecilia Nacke, Evelyn Johnson, Harriet Dwight, Lois Thomas, Jaunita Bennett, Eunice Ruddell, Mae Pugh, Eva Weidman.

## KATHERINE CAT'S DAYS ARE DONE

Major Dissection Proves Fatal to Intellectual Genius.

Mrs. Katherine Cat died as a result of a major dissection at the zoology laboratory Tuesday evening. Mrs. Cat was a prominent figure in university life. Kitty, as she was called by her intimate friends, was not only a brilliant student, but also one of the most popular women on the campus. It was not uncommon to find her seated on the lap of an admirer in the library. Her brilliant intellect took pleasure in many classes, and she was often seen wandering unconcernedly through the aisles during Contemporary Civilization lectures. Mrs. Cat's keen wit, combined with her wide fields of observation, made her a truly catty conversationalist.

Mrs. Cat will be mourned by many friends, admirers, and cat adorers. She is survived by numerous offspring.

## Something to Cheer About!

Three sweet cheers by three fair dears! Each so glad that she's discovered Penney's... the store that helps you express your individuality in clothes. The store, too, that helps you live luxuriously within your regular allowance! What more could a modern Co-ed ask? Or a modest purse demand?

**J. C. PENNEY

## NEW GENERATION IS SANEST YET

"Civilization on the March," was the introductory lecture of Prof. C. W. Chenoweth at Rosalia, Wash. Wednesday night for the benefit of the unemployed in the Washington town. Several lectures will follow on the remaining nights of this week.

Professor Chenoweth declared that the younger generation of today is the sanest in history. "We will not have far to look beyond this depression," he said "to see a man of sound body, free of the majority of diseases that beset us now; a man who knows how to be happy; a man who realizes it's a piece of foolishness to take human life and mould it into machines and profits; a man who will refuse to impoverish our natural resources for money."

 "That's the story, Coach "Rich" Fox's Vandal hoopmen have their hands full from next weekend until the first of March with 24 games on schedule, 16 conference tilts and 8 non-conference.

**Take Vacation Tour**  
 All of the games are scheduled with the exception of a pair with Gonzaga university of Spokane which will be added later, and a few games for barnstorming purposes during the Christmas holidays. The squad usually travels North during the holidays where they play several Spokane athletic clubs, freshman clubs, and professional teams before starting the conference season. However, no plans to that effect have been completed yet.

December 11 and 12 the Vandals will open the schedule with a pair of games with the Ellensburg Normal quintet. Last year Ellensburg presented one of the smoothest clubs to play on the Idaho court and from all indications will have just as good a team this year to try to steal some openers from the Vandals.

**Webfeet Invade First**  
 The Vandals will step into the coast conference circles on January 8 and 9 when the Oregon Webfeet invade the Northwest and the Idaho campus. After Whitman returns the Idaho visit here on the 11, the menu for the Vandals is all conference tilts.

The team is rapidly smoothing out the wrinkles in their pre-season form and by Dec. 11 should present a tough barrier for the Ellensburg boys to scale. There is a possibility that both Pete Wicks and Stan Hale, regulars, will be missing when the Idaho squad trots onto the floor for the first time this year. Wicks is out with a severe "charley horse" and Hale is suffering from a side injury.

## ADD SKI RACES TO SPORTS LIST

The cross-country ski race is the latest addition to winter sports. Faculty members as well as students are enthused over promoting this race, providing enough students on the campus are interested. Wholesale prices will be offered on equipment.

Members of the faculty have been going skiing on a natural ski jump three miles from Moscow at the bottom of Viola grade. Students are offered the opportunity of participating in this winter sport on this ski jump.

## FRESHMEN WOMEN BEAT SOPHOMORES

Freshman won the final women's interclass volleyball game Thursday. Although a close played game with a chance of the sophomores winning showing at all times it ended with the score 16-14 in favor of the Frosh.

Members of the winning team were Ellen Frazier, captain; Jaunita Bennett, Betty Gabby, Esther Hunt, Betty Obermeyer, Eunice Ruddell. The sophomore team was composed of Harriet Dwight, captain, Eloise Emmett, Elizabeth Vincent, Doris Norell, Helen Thornhill, Lois Thomas.

Members chosen by Mabel Locke, director, from all the teams to make up the all star volleyball team are Grace Warren, Marie Bertram, Elizabeth Vincent, Helen Thornhill, Ellen Frazier, Betty Gabby.

## IMPORTANT GAMES COMING THIS WEEK

**W. S. C. Hoping For Win From Tulane; Utah Playing Oregon State**

Three grid skirmishes of major interest to Pacific Coast fans are scheduled for this Saturday. Washington State journeyed to the far South for a clash with the undefeated Tulane eleven. The Cougars are far from being as strong as they were last year and are expected to fall before the Green Wave. Intersectional games have a tendency to result in dope bucket upsets, however, and neither team can rely on an easy afternoon.

**Conference Closes Tomorrow.**  
 The Coast conference season closes with the Trojan-Husky battle at Los Angeles, December 5. After their stunning victory over Notre Dame, Southern California can be reasonably sure of keeping their conference slate clean. Washington fans on the other hand are disconcerting previous dope, and are looking for an upset.

The University of Utah eleven has been running wild this year in the Rocky Mountain conference, and has been having things their own way for some time. Rumors of their joining the Coast group have been the result. They will receive a test next Saturday when they meet the Oregon State Beavers. Although O. S. C. has been handed some defeats this season, they are expected to give the Utes a real game.

## STATE HIGHWAY PLAN THE SAME

**Removal of Harbour Will Not Change Construction Plans.**

During his visit in Moscow Wednesday morning, Governor C. Ben Ross gave a statement to the effect that the removal of Alvin Harbour as commissioner of public works will make no difference in the construction plans of the department. Governor Ross said that the work of completing the oiling of the state highways would begin in spring as planned. As yet he has not considered a successor to Mr. Harbour.

It was also stated by Governor Ross that he was well satisfied with the work being done by the members of the state chamber of commerce and was confident that they would be able to lay before the next legislature a workable plan for the alleviation of the tax burden.

## CLUB GIVES DINNER

Alpha Kappa Psi, business honorary, held a dinner meeting at the Blue Bucket inn, Nov. 24. Mr. Max Griffith of the credit association gave an interesting talk on "Mercantile Credit."

## Weather Breaks Previous Records For This Month

Moscow's winters have always had the reputation of being exceptionally cold, but this November's temperature has broken all records. "November, 1931, was the coldest November Moscow has experienced since 1896," said Fredrick L. Burkhardt, field superintendent of agronomy. "The mean temperature was 30.06, and the maximum temperature was 38.06. Only on two occasions has Moscow had lower mean maximums. The normal mean minimum last year was 33.03, while this year's is 24.05.

The normal snow fall for November is 5.06 inches. During the entire year of 1930, Moscow had 29 1/2 inches of snow, and during the month of November this year 26.09 inches of snow has fallen. "Freezing weather for the month of November is quite unusual for Moscow, but this year for the first time in history the weather man reported—three below zero.

"At present the barometer is falling, which will no doubt cause a change in temperature. The tendency is toward storming weather rather than freezing," Mr. Burkhardt said.

## WALKS CLEANED IN EARLY HOURS

Four men with their "V" snow plows drawn by horses set out early in the morning for their respective districts and before the pedestrian traffic begins the walks are cleaned. This service, provided by the city, includes all the sidewalks within the city limits.

Once in a while a shovel brigade is seen by the cautious observer working on various walks in the town. This is the only evidence that the city's method is inadequate to clean sidewalks to suit the discriminating property owners. The different houses on the campus have been efficient in cooperating with the city in its effort to "do away" with dangerous slippery walks.

## WINDOW TUGGING THING OF PAST

Dr. E. E. Hubert, in charge of the forest products laboratory in the school of forestry is perfecting a unique method for the preservation of window sashes.

In the mortised joint of the sash Dr. Hubert makes a hole about the diameter of a quarter and twice its thickness. In this pocket he inserts a chemical of a preservative nature. Any moisture getting into the joint causes the chemical to go into solution and stop any decomposition of the wood. Dr. Hubert has been experimenting with many types of preservatives. He gets rapid checks by placing his treated window sashes in a "decomposition cellar."

## TAKE MINE RESCUING

George Miller, foreman of mine rescue work for the United States Bureau of Mines, arrived during the month for a three weeks' stay at the Alaska Agricultural college. The mine rescue car is on the college siding.

# SPORT SHOP

Idaho opens her conference basketball schedule here with Oregon, January 8 and 9. The fight for the northern division championship promises to be the toughest in many years. Few teams lost men through graduation. PESCO was the only first string man lost to the Cougars. Swanson and West were lost to the Husky squad. Eberhart, Oregon's pivot man, will be the only man missing from the Webfeet lineup. Roberts, who alternated with Eberhart last year will fill the gap. The rest of last year's team of juniors will be back intact, and should be among the strongest in the conference. Oregon State lost two men from 1931. With nine lettermen returning, Idaho will come a long way toward crawling out of the cellar position which they have held for the past two years.

The injury jinx that followed the Vandal eleven through the season did not leave Idaho after football ended. Starting to take its toll on "Rich" Fox's basketball squad, it chose "Pete" Wicks and Stan Hale. Wicks has not responded to a nine day's treatment of a charleyhorse that was received in a scrimmage over a week ago. Though under the care of the athletic trainer, it is doubtful if he will be in condition to play before the vacation barnstorming tour. Hale received a painful side injury at the start of the season, and has not been out for a practice session for two weeks. The injury will handicap him for weeks to come. Both were regulars on last year's team and will be missed in the season's opener against Ellensburg Normal next Friday and Saturday.

With the exception of these two, Fox's men are in fine condition. Fox expressed himself as being well-pleased with the showing made by the squad this early in the season. Ellensburg always has a good team, and with nearly the same team that beat Idaho last year, stronger than usual, according to their coach, Ellensburg will be represented this year with a rangy group. Some advance dope will result from the outcome of their clash with the University of

## ELECT RUTH COOK CABINET MEMBER EARLY MAILING IS ADVISED BY ESTES

At the A. W. S. cabinet meeting Tuesday Ruth Cook was chosen as the new representative from the Tri Delt house filling the vacancy left by the resigning Norma Lonnetelg.

Girls' grades and activities are being checked this week to see if any one is carrying more than their quota according to the point system.

The loan fund has had many requests. For this reason extra money at present will be placed in the loan fund, instead of being used to bring a speaker to the campus. President Joan Harris expresses hopes of having a speaker for assembly after Christmas.

Usual "mail early" warnings have been given out by Homer E. Estes, Moscow postmaster. He reminds the public that packages mailed to foreign countries must go through the customs houses in the United States as well as abroad and as foreign posts are not very dependable, everything should be mailed very soon.

Since there will be no delivery on Christmas day local packages also should be mailed early.

Students are paid to attend universities in Russia but only those that are in sympathy with the government are accorded the privilege.

# Facts.. FACE-UP

© 1931, LICHT & MYERS TOBACCO CO.

*Let's talk Straight from the Shoulder*

**WHAT** you want in a cigarette is *taste*. You want mildness... smoothness... and satisfying pleasure when you smoke.

All right then... *get this straight.*

**CHESTERFIELD** pays top prices... yes, and a premium for the ripest, mellowest, sweetest-tasting leaf that grows.

The curing and conditioning is done by specialists... men carefully trained in handling these fine tobaccos.

**I**N BLENDING, also, Chesterfields are different... Instead of merely mixing the tobaccos together... we cross-blend them. It's like making a new and better-tasting kind of tobacco. That's how we get that *Chesterfield flavor*. Milder... and a more pleasing aroma.

Cigarette paper? Only the purest that's made is good enough for Chesterfield.

**PICK UP** a package. Note its clean appearance... free from heavy inks. It's moisture-proof, too.

And three big factories at Richmond, Durham and San Francisco—operating under the strictest sanitary standards—rush them *fresh* to you.

Good... *they've got to be good.* Because they're made that way. And most important of all... you can taste this goodness in the cigarette. You can tell it in the smoke.

Light up, Mister! Try Chesterfield.

Let the cigarette do its own talking.

You'll get the whole thrilling story, in just two words... "They Satisfy!"

*"Yes Sir - Mild yet they Satisfy"*
