

# SEND TEAM TO CALIFORNIA!

## FIGURES INDICATE TOTAL ENROLLMENT PRACTICALLY SAME

Final Marks Should Show  
1900 as Compared to 1948  
Last Year

Enrollment in all college divisions at the University of Idaho at the end of the third day of registration for the 1932-33 university year was within 56 of that for the same day a year ago, according to a preliminary check of records in the bursars and registrars offices. When late registrations and graduate students, who have three weeks yet in which to enroll, are added to the total it is expected that resident enrollment at the university for this year will be approximately 1900, as compared to 1948 for the total residence enrollment for the past college year.

Figures Not Ready  
Registration figures have not yet been apportioned on a divisional basis by the registrar's office. Records kept by the various deans during the registration days, however, indicate that some divisions have slightly higher registrations than a year ago. The school of forestry, reports Dean F. G. Miller, has a few more students than a year ago, many students being attracted from the middle west by the wide reputation of this division. The three-day enrollment in law was only a few below total registration for last year. Agriculture, business, education, and engineering division registrations are practically equal to those for the same time a year ago.

University classes convened Thursday morning, Sept. 22. At the first general assembly held that day, Dr. E. A. Miller, president of the California Institute of Technology and world famous scientist, was the speaker.

**Employ Students.**  
Because of the economic conditions a larger number of students than usual have sought part time employment and the university in the program of finding work for them. Through a university faculty committee of which Dean E. J. Iddings of the college of agriculture is chairman, all part time employment in Moscow and on the campus has been made available to students. Many students have found places in homes. Robert F. Greene, proctor of men and supervisor of the university employment bureau, estimates that the bureau has placed more than 100 students in jobs already this year. In addition a far larger number, estimated as high as 400, mostly old students who know the positions available to student labor, have secured employment through their own efforts.

## WORK WILL START ON ANNUAL SOON

New Gem Will Be Distinctive; All Interested  
Should Report

Many positions offering students a chance to show their creative abilities are open on the Gem of the Mountains editorial and business staffs, according to Paul Miller, yearbook editor, and Clive Johnson, business manager. All persons interested in trying out for these positions are requested to attend the general staff meeting, Thursday at 4 o'clock in Ad 201. Anyone wanting to work on the staff is required to attend. This applies to old members as well as new.

Idaho yearbooks in recent years have held a high place in competition among colleges and it is a distinction to have one's work and ability displayed in a book of this type. Gem staff work offers a varied range of work suitable for either men or women. This assures each person of a position in which he will really be interested. While high school yearbook experience is not a necessity it is sometimes an aid.

Miller is trying a new plan this year at the first general staff meeting for learning the qualifications of prospective staff workers. It is a questionnaire which will be passed out to those attending this meeting. Here one's interests, experience and other qualifications may be listed. All positions will be filled on a basis of ability to produce good results in the respective departments of the staff.

Plans for this year's Gem are progressing well. Early reports are that the book will have many new and very up-to-date ideas incorporated into it and that it again will be a distinctive production in the American college annual field.

## FIND POSITIONS FOR GRADUATES

Music Department Places Every  
Student of Last Year.

"In spite of the depression and the great number of experienced teachers without positions, the music department was able to place every graduate this year in what are considered to be very fine positions," said Carleton Cummings, head of the music department.

Mr. Cummings said that a great deal of credit should go to Miss Bernice McCoy, head of the placement department, for her untiring efforts. Mr. Cummings also spent a great deal of time this summer on this phase of placing music graduates. This whole success in placing music graduates reflects the excellent work done in the instruction and also the devotion of the students to their music.

## OLD TIME ALUMS WILL CELEBRATE

Opening Day for 40th Anniversary Comes on  
October 12

With the approach of the date for the celebration of the 40th anniversary of the opening of the university, an occasion which will be observed by simple but appropriate ceremony, old-time Idaho students are recounting interesting stories about the early days at the university. The opening day anniversary comes on October 12.

One of these stories concerns Gainford P. (Gub) Mix, Idaho's lieutenant governor and a member of the class of 1901. As a result of his experiences as a student at Idaho, Mix can testify that nature performed a wondrous and complicated piece of work in designing the bony superstructure of a horse.

**Knowledge Dates Back.**  
He acquired this knowledge of equine anatomy during his sophomore year, back in 1898 and 1899. One thing in particular he learned, and that through experience, cow bones just can't be substituted promiscuously into the skeleton of a horse.

Mix's education had progressed as far as the fourth reader when he entered the university in the fall of 1894. During the next three years he completed his "sub-prep" and "prep" requirements and entered as a full fledged freshman in the college of agriculture. He received his degree in June, 1901, the first granted by the college of agriculture.

**Took Zoology.**  
Zoology was one of Mix's sophomore courses, and the horse skeleton his laboratory problem. Mix found a whole wagonload of bones near an old straw stack. He worked on the skeleton all year. Bone after bone he wired into place, and finally he needed only a dozen more. Which to choose, he wondered, looking at the pile of bones for which he could find no logical place.

Then came the discovery that the original wagonload of bones included at least the partial skeleton of a cow. That discrepancy had mattered little to Mix. Here and there in his bony horse he had blithely inserted bones of the cow.

The skeleton never was completed. For many years it occupied one of the rooms in the old administration building, and was burned when the building was burned on March 30, 1906.

## FRESHMEN ELECT CLASS PRESIDENT

Inman Chosen; Plans for  
Hulme Fight Discussed  
By Freshmen

Albert Inman of Lewiston was selected for the presidency of the freshman class in what was the most highly contested election in the first year class for a number of years. Neither of the candidates was separated by a margin of more than 15 votes. One group of students even went so far as to have handbills printed with the names of the students, whom they wished elected, on them.

In another close contest James Keel, Twin Falls, defeated Kenneth Thompson of Wallace for the office of vice president. Mary Ellen Brown, also from Twin Falls, won the office of secretary from her opponents by a large majority. The post of treasurer was filled by Thomas Smiley of Bovill. Smiley was chosen by acclamation since he did not have opposition.

The new president took over the meeting and plans for taking care of the sophomores on "edict" night were discussed. The Hulme fight was also talked about, but no definite end was reached.

## HONORARY HOLDS FIRST BUSINESS MEETING OF YEAR

Xi Sigma Pi Discusses Old  
Business and Makes New  
Plans

Xi Sigma Pi, national honorary fraternity in forestry, started the new school year with a business meeting in Morrill hall Friday afternoon September 23. Old business left over from last year was disposed of and plans discussed for another season of activity.

Three new candidates were voted on and elected to membership. The names of those winning the Xi Sigma Pi scholarship award were submitted and the date set for having the names of the winner engraved on the bronze tablet in the Administration building hall. This award goes each year to the member of each class getting the highest average grades during the school year in his class.

A committee was selected to arrange for an award to be given each year to the graduating senior who makes the best record during his school years. The award is to be a membership in the Society of American Foresters and it will be given to a graduating senior who is to be selected on a basis of grades, activity and professional interest.

The committee, consisting of Dr. E. C. Jahn, chairman; Dean Francis G. Miller; Corland James; and Ralph Ahlsgren will draw up the rules for administering the award and get in contact with the Society of American Foresters to make the necessary arrangements with them.

The active membership at the beginning of the school year is thirteen; three pledges will bring the total to sixteen.

The entire group turned out at 7:30 Sunday morning and leveled down and prepared for seeding an area just west of the athletic field. This same plot was planted to Colorado Blue Spruce last spring, each member of the fraternity planting a tree in honor of the Washington Bicentennial. After two hours of appetite stimulating labor the group assembled on Price green and had refreshments in the form of cammie coffee and doughnuts.

Plans are made to seed the Bicentennial plantation site to grass and clear an area between it and the Price green for a parking space. This area, the driveway and the field along the south side of MacLean field are to be cindered. This will aid greatly in the beautification of this part of the campus.

A granite monument on a concrete base bearing a bronze tablet is to be erected on the Washington Bicentennial plot. The tablet will bear the record of the plantation, by whom it was made and why.

## FRESHMAN ABILITY IS TO DETERMINE WEARING OF GREEN

"I" Club to Set date for Annual Mixer in Near  
Future

Will the freshmen have to wear their green derbies till Christmas or will they be fortunate enough to be able to discard them at Thanksgiving? The answer to this perplexing question may be had in the very near future as plans for the annual Hulme fight, which is staged by the "I" club with the freshmen and sophomores being the combatants, are well on the way toward completion.

According to advance information from the "I" club president, Jack Lee, the date for the fight will more than likely be Saturday, October 1. Final steps in the completion of the plans for the event are now being taken to insure a good time for all.

This annual "mixer" is one of the oldest traditions on the Idaho campus, having been originated during the World War by Professor E. M. Hulme. Boxing, wrestling, tug-of-war, cold baths and an old fashioned water fight will provide ample opportunity for the two classes to show their prowess, both in brute strength and mental alertness. Points are awarded for each contest and the team having the best score at the finish of the skirmish is declared victor.

Last year, for the first time in the history of the fight the freshmen won the honor of "licking" the sophomores, thereby gaining for themselves the right to discard their green caps at Thanksgiving until St. Patrick's, the following spring. If the frosh are unsuccessful in their conquest the caps must be worn up to Christmas vacation before they can be put away for the winter.

The whole college is expected to turn out tonight to see Leo Calland and his 29 football players entrain at the Union Pacific depot at 6:40 p. m., according to Harry "Scream" Wilson, acting yell king. The Pep band will be there under the direction of William Ames.

Arrangements have been made to set dinner hours ahead at the halls. Meals will be served at 5:30 tonight.

Fraternity and sorority houses are expected to start their evening meal so that members will be free at 6:30.

Members of the team and coaching staff will give short talks between yells.

## Cow Was Famous On College Campus In Good Old Days

A purebred Jersey cow, the first animal owned by the college of agriculture, was a famous figure on the University of Idaho campus back in 1896 and 1897.

And on the campus she literally was a wild-eyed, flighty, bovine, ready and willing to chase students on the least provocation. A barbed wire fence enclosed the campus in those days, with stiles at the two paths leading to the old Administration building. Women students often waited at the stiles until some brave man arrived to escort them across the grazing ground of the cow.

"Idaho—something or another" is all that can be found as her name. She was a fine looking cow, one early graduate recalls, but she gave only about a pint of milk a day. "No wonder, either," he explained. "She spent most of her time and energy tearing around the campus with her tail up in the air."

Just 40 years ago this fall the University of Idaho was officially opened. Events of the early years following 1892 will play a prominent part in the program of the university's fortieth anniversary celebration October 12.

## PROFESSORS FIND FISHING PLEASING SPARE TIME HABIT

Take a Breathing Spell at  
Times to Angle for  
Fickle Fish

Although not many people realize it, one of the most popular recreational sports, participated in by professors on the Idaho campus, is fishing. With fine fishing regions only a couple of hours distance, Saturdays and Sundays find many of them heading away to the hills.

The most popular river by far is the St. Joe. This river is reached by a fine rock highway by way of Potlatch. The river itself, is shaded the entire distance by giant cottonwood trees, affording wonderful camping spots. The majority of the faculty that go to this stream succeed in getting their limits. There are many streams nearer including the Elk and St. Aries rivers.

**Clearwater Attracts.**  
Steelhead fishing on the Clearwater attract many of the faculty and many good catches have been reported. At the present Prof. C. W. Chenoweth has an 18 pound salmon on record, which he hopes will take the Erb Hardware prize of Lewiston, for the largest salmon taken out of the Clearwater this year.

Idaho professors have many other favorite streams. A very popular river is Silver creek near Halley. Gold, Wood, and Salmon rivers attract many while Twin and Chatochole lakes take an equal amount. John Beckwith, instructor of English holds the record fishing story. Witnessed by Geoffrey Coope and W. A. Roberts, he caught six fish in three successive casts on North Gold river.

Representative Idahoans who are fishermen include such personages as President M. G. Neale, Dr. J. W. Barton, Dr. G. M. Miller, Purchaser Floyd Packer, Proctor Robert Greene, Editor Oren Fitzgerald and Assistant Cecil Hagen and many others.

## FROSH WOMEN MEET TONIGHT

Soccer Will Be the First Sport of  
the Fall Season.

A meeting of the Women's Athletic association will be held in the Women's gym tonight at 7 o'clock. All the new women students are invited to attend and the W. A. A. members are asked to be present.

A review of the various sports to be presented this year, with general talks on the aims and ideals of the association, how to obtain membership and win points will be given at this meeting. A special announcement will also be given in regards to soccer, the first sport of the season. Hopes are held for a large turnout for this sport.

## BLUE KEY PLANS STUDENT SPECIAL

Arrange to Charter Train  
for Idaho-Gonzaga  
Game

Plans were discussed by the Blue Key society at their luncheon at the Blue Bucket inn September 26, to have a special train leaving Saturday morning and returning Saturday night take students to the Gonzaga-Idaho football game October 8. Rates will be \$1.50 or less depending upon the number of students going.

A special train at Thanksgiving and Christmas for southern Idaho students with lower rates was also discussed. The committee appointed Jack Mitchell and Sandy McDonald.

**First Meeting.**  
This was the first meeting of the Blue Key and they will be held every other Monday. Other committees appointed were: president's, Ralph Olmstead, Ken O'Leary and Bill Ennis; alumni, Melvin Stewart, Don Harris and Kenneth O'Leary; athletic, Jack Mitchell, Claude Marcus and John Trueman; high school, Clive Johnson, Ray Davidson and Bob Harris; publicity, Conroy Gillespie, Walt Gillespie and Paul Jones.

Officers for fall semester are: President, Winfred Janssen; vice president, Jack Mitchell; treasurer, Claude Marcus; secretary, Don Harris; sergeant-at-arms, Bill Ennis.

## MUSIC SUCCESS DRAWS MAJORS

Transfers Come From Other Universities and Colleges.

The reputation and success of the music department of this university has drawn a large number of experienced music majors from other schools to our university. Transfers have come from universities and colleges in other states and from junior colleges in Idaho and the southern branch of the university.

**Development Greater.**  
The development in this department promises to be greater than that of any other year, according to Carleton Cummings, head of the music department, after he had checked up on the number of students registered as music majors and minors as well as the many students taking music electives.

The prospects this year for the university orchestra are especially good, and it looks as though the orchestra will have one of its best years.

The Vandaleers will measure up to their last year's success, and more than likely their work this year will even be superior to that of previous years.

## FORESTERS BONFIRE THURSDAY EVENING

Meeting Will Be to Acquaint All  
the Students.

On Thursday evening, the Associated Foresters will stage their annual bonfire. The purpose of the meeting is to acquaint the new students in the forestry school with the school faculty, upperclassmen and the various activities carried on by the organizations. Hot dogs and coffee will be served followed by entertainment. Members of the faculty will give short talks welcoming the new students to the university.

## PUBLICATIONS TRYOUTS

Those who wish to try out for Argonaut Editorial staff meet Wednesday at 4 p. m. Ad. 201. Argonaut Business Wednesday at 4 p. m. 202 Memorial gym. Gem of the Mountains Editorial or Business, 4 p. m. Thursday. Ad. 201.

## WILL GIVE EXAMS FOR NEW STUDENTS

Entrance Tests for Students  
Registering Late Will  
Be Saturday

The final in English and psychology entrance examinations for freshmen and others will be given Saturday, October 1, at 9 o'clock for English and 10:30 for psychology in the auditorium. Dr. George Morey Miller, head of the English department, said that every new student, whether freshman, special student, advanced student, must take these tests. The late tests are for students who registered too late to take the first tests last Monday.

Those students whose grades in the English tests last week were high enough for the, to take the proficiency test which will exempt them from the proficiency exam if passed with a high enough mark are: Jane Archibald, Willina Arnold, Mary Brown, Tom Burnam, Mildred Carson, Robert Cope, Ruth Farley, June Fleming, Hazel Gentry, Jean Harrington, Betty Hatfield, Mary Jean Humphrey, Jayne Jones, William McCrea, Helen Marsh, Helen Martin, Mona O'Connor, Phyllis Peterson, Muriel Silver, and Eleanor Stark.

In the meantime registration in English 1, is the regular thing for entering freshmen and new students, according to Dr. Miller. Exceptions made by high scores will be announced later.

The summer school students who made high scores in these placement tests may be eligible for exemption by taking the proficiency tests at 4 o'clock Wednesday in room 206 of the Administration building. Those students are to get in touch with Prof. John Beckwith in Ad. 204, as soon as possible.

**NEW CANDIDATES  
PLEDGE HONORARY**  
Three new candidates were formally pledged last week by Xi Sigma Pi, national honorary fraternity in forestry.

## Xi Sigma Pi Takes Doctor Miller, John McNair and T. S. Buchanan

The new members are Dr. Wm. D. Miller, John J. McNair, a graduate student in wood chemistry, and T. Stewart Buchanan.

Dr. Miller recently received his doctor's degree in forestry at Yale university. This will be his first year at Idaho as a member of the faculty of the school of forestry.

Mr. McNair comes from the University of Minnesota with a master's degree. He has a fellowship in the department of wood chemistry and will spend the winter working in that department with Dr. E. C. Jahn.

Mr. Buchanan has just returned to Idaho after an absence of several years. He is a junior in the school of forestry.

**Scholarship Awards**  
Each year the student in the school of forestry who makes the highest average in his class gets his name engraved on the Xi Sigma Pi scholarship tablet in the hall of the Administration building. Anyone, regularly enrolled in the school of forestry, who completes 24 hours credits or more in subjects included in the schedule of any one class is eligible. It has proved to be a stimulant to students who are sincerely interested in forestry.

Those attaining the highest average in grades last year and receiving the honor at this time are: senior, Joseph F. Pechance, 5.290; junior, Charles Wellner, 5.615; sophomore, George Haas, 5.379; freshman, Floyd Tumelson, 5.574.

## WILL MEET AT BUCKET FRIDAY

Theta Sigma Will Lay Plans For  
the Coming Year.

Theta Sigma, journalist honorary, will hold a meeting at the Blue Bucket inn next Friday noon to make plans for the coming year. The annual breakfast at which all women members of the Argonaut will be guests is to be planned for the near future.

Plans will also be made for the usual high school newspaper contests. Election of secretary to take the place of Lorraine Stewart who did not return to school will be held.

## WHITMAN WEAKENS AGAINST POWERFUL IDAHO ONSLAUGHT

Fast, Elusive Backs and  
Sturdy Line Spells  
Defeat

The Idaho Vandals opened the 1932 football season at MacLean field last Saturday afternoon by chalking up a 49-0 win over Whitman. Coach Calland's midget ball packers had little difficulty in scampering through holes opened in the Missionary line, and scored heavily in every quarter but the first.

The opening period found the ball almost entirely in Idaho territory, with each team punting frequently. Just before the end of the quarter, a series of passes and runs put the ball deep in Whitman territory for the first time. The ball was on the one-yard line when the whistle blew.

**One Play Needed.**  
Only one play was needed for Willis Smith to take the ball over for the first touchdown. Try for point failed. Idaho scored once more a few minutes later.

Willis Smith, on an off-tackle play, swung wide after clearing the line and dashed down the east-side line for 33 yards and a touchdown, after outrunning two would-be tacklers.

The remainder of the period resulted in a punting duel, ending on the 12-yard line, after a 50-yard Vandal drive down the field, with Smith and Cordon alternating as ball toters.

**Third Quarter.**  
The third quarter was all Idaho with Willis Smith, George Wilson and Cy Geraghty taking turns in scoring touchdowns. Vandal line-men displayed unusual strength, not allowing a single yard from their opponents scrimmage.

Idaho pushed over three more touchdowns through a tired Missionary defense in the final period. The first came on a blocked punt, when Pete Taylor, Idaho end, scooped up the ball, and dashed 25 yards untouched for the goal line. Earl Smith, 195-pound full-back pounded over the other two touchdowns, the second after Genio Plantino had worked the ball down to the one and one-half yard line.

The Vandal quarterback stuck to straight football until the last quarter when they opened up with some forward and lateral passes that bewildered the Missionary defense. Idaho rolled up a total of 380 yards from scrimmage and passes to Whitman's 60. Idaho chalked up 15 first downs to Whitman's 1. Only one of the eight tries for point resulted in a conversion.

The game started in a light drizzle, but the sun soon came out and made the playing conditions almost perfect. The field was dry and fast.

The lineup and summary:

WHITMAN	IDAHO
Sprague.....LB.....	Randall
Nelson.....LG.....	Hall
Clow.....RG.....	Nutting
Perkins.....C.....	Kline
Ullman.....RG.....	Elden
Voris.....RT.....	McInerney
Staines.....RE.....	Schultz
Coston.....Q.....	Johnson
Kolts.....LB.....	Sackett
Haynes.....RH.....	Norby
Edwards.....FB.....	Tyrrill

Score by periods:

Whitman.....	0	0	0	0	0
Idaho.....	0	12	19	18	49

Officials: Referee, Gale Mix; umpire, Fulton Gale; head linesman, Bill Higgins, Gonzaga.

## STUDENT OF AGE HAVE VOTING RIGHT

Interpretation of Attorney  
General Secures Privilege

University students of legal age, long denied the right to vote as Moscow residents, will now be allowed to cast their ballot here in the coming election according to an interpretation of the law by the attorney general of Idaho.

It was ruled that as the law specifically states a citizen need only reside in the state six months and the precinct 30 days to become a qualified voter, university students had the right to vote if they fulfilled conditions.

University students are in the southwest Moscow precinct. Time and place of registration will be announced in Friday's Argonaut.

That students are already aware of their rights and ready to take advantage of the ballot is indicated by rumors of a campus Roosevelt-Ross movement.

## October 12 Is Red-Letter Day at Idaho

University to Celebrate 40th Birthday With Return of First Professor, Leading Graduates

October 12 is a red-letter day in the history of the University of Idaho. It marks the fortieth anniversary of the opening of the institution.

The school which its founders envisioned as the foundation of a great university, opened in the partially completed wing of the old administration building, without books, desks, or equipment of any kind. About 40 students, all of preparatory school standing, appeared for classwork the first day. Registration was on an architect's table, the only piece of furniture in the building. Several in that first student body could hardly write their names.

The fortieth anniversary ceremonies will be featured by the return of John E. Ostrander, first faculty member at the university, who held the professorship in civil engineering and mechanic arts. The staff of the university at the opening consisted of President F. B. Gault, now deceased, and Professor Ostrander. Prof. Ostrander now is head of the mathematics department at Massachusetts State college.

The University of Idaho was officially created by act of the Fifteenth Territorial Legislature, approved on January 30, 1889, which makes the University of Idaho actually older than the state itself. Considerable time was consumed in providing a physical plant and actual registration did not start until October 3, 1892, with classes commencing nine days later. The unfinished building which housed the infant University of Idaho stood in the midst of a plowed field.

According to records, Dr. Jesse L. Raines, a member of the class of 1901, was the first to enroll. Dr. Raines now is a practicing physician in Seattle. The first graduating class, 1896, was four in number, exactly 400 less than the class of 1932, the largest in the history of the university. U. S. Senator W. E. Borah, then a rising young lawyer, delivered the first commencement address. Three living members of this first class have been invited to attend the anniversary celebration and to be guests of honor on the occasion. Dr. C. L. Kirtley, building contractor; and Mrs. Wilson Johnson (Florence M. Corbett), Portland, Ore., are the living members of the first class. Mrs. S. Roberts (Stella M. Allen) is deceased.

Hard times accompanied the panic of 1893, adding to Idaho's

crop failure woes. Despite the difficulties of this first depression in the university history the institution grew. The outbreak of the Spanish-American war drew 39 volunteers from the small student body, more in proportion to enrollment than any other university in the United States. An imposing statue near the center of the campus commemorates the memories of two who never returned.

Dark days followed the burning of the old administration building March 30, 1906. Fire broke out at night and only gaunt, smoking walls were standing the following morning. Students and faculty were bewildered and somewhat hopeless, but an unflinching optimism prevailed and classes were carried on everywhere in town where vacant rooms could be found. Great was the rejoicing when Governor F. R. Gooding wired that the university building would be replaced immediately. The campus literally went wild with joy. The new administration building was completed in 1908 and is known today as one of the most attractive college edifices in the west. Idaho's campus, too, is famed for its beauty.

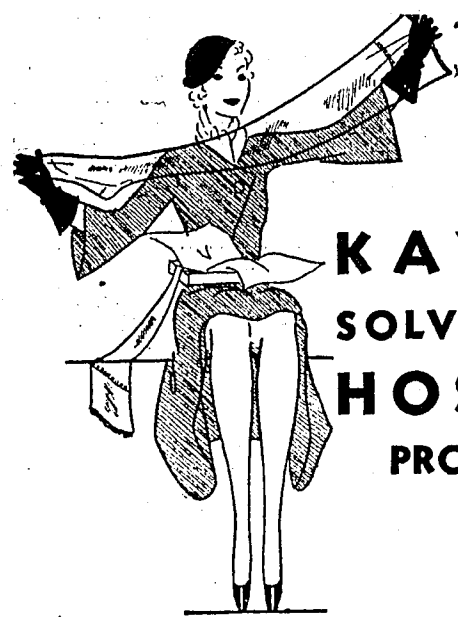

Growth of the university of Idaho during the 40 years of its existence has been slow but steady. By 1900 the collegiate enrollment had reached 100; 26 years ago it had

CREIGHTON'S

## 40-Year U. History Unfolds

Familiar to many a resident of Moscow will be the scenes of the University of Idaho back in the days of the Spanish American War.

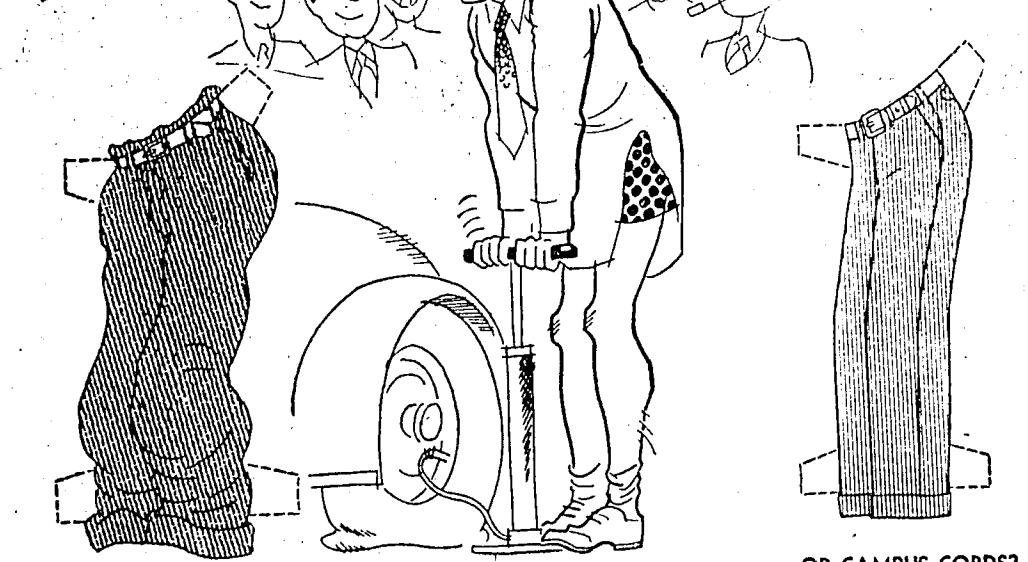

The old Administration building, destroyed by fire on March 30, 1906, in the center is the university's first graduating class, 1896. Two members of that class, in the upper row, holding the ball is Ole Harberg, who never returned from the Philippines in 1898. He is one of the two men in whose honor the campus statue was erected.

reached 200; 21 years ago it had reached 300; 16 years ago it was 500; and 12 years ago it passed the 1000 mark. Eight years ago enrollment exceeded 1500. Last year the enrollment on the campus during the regular university year was 1948. This record of growth is astonishing when it is considered that prior to the World war the University of Idaho had an enrollment exceeded 1500. Last year

What the well dressed Idaho co-ed wore in 1900 is shown at the left center. This group was a class in horticulture. The picture was taken in the university's first greenhouse, located back of the present music hall. In those days a small pond was located on the present site of the tennis courts.

Below and at the upper left are university buildings of today.

PUT YOURSELF IN HIS PLACE

SO-CALLED "BARGAIN" CORDUOYS... OR CAMPUS CORDS?

WHEN the wisecracks wax personal, does your nonchalance stay with you?

The wearer of *Campus Cords* remains cool and calm through all such crises, and the mob subsides into mute admiration.

For no audience, however critical, can find fault with the hip-fit and straight-hang of these handsome light-colored Cords—correct in shade and in every detail of style.

*Campus Cords* reflect the distinctive, conservative taste of university men from Coast to Coast. They wear as sturdily as a prof's jokes, and come up smiling from countless cleanings or washings.

Hold back no longer! A leading store near you is displaying these good looking trousers now. Look for the name—*Campus Cords*.

The rushing season drew to a close last Sunday morning when the eight sororities on the campus pledged 93 girls. The usual parade from Hays Hall to the houses was held after Dean Perneal French announced the bids to the rushes. Pledging took place on the front lawns of the houses shortly after 10 o'clock.

Those pledged:

Alpha Chi Omega—Frances Herbert, Lewiston; Betty Goodwin, Harrison; Marjory L'Harrison, Maldine; Williamson, Geraldine Langes, Jerome; Margaretta, Nez Perce; Inez Equale, Payette; Barbara Geden, Winchester; Jayne Jones, Malad; Evelyn Jones, Mary Jean Humphries, Edna Greiser, Mona O'Conner, Moscow; Ora Laxton, Rupert; Helen Blackaby, Homedale; Helen Thornhill, Kellogg.

Alpha Phi—Ruth Ferney, St. Anthony; Martha Egbers, Coeur d'Alene; Elizabeth Hutton, Emmett; Betty Mallory, Virginia Lee Fisher, Beavert; Ruth Lacy, Sandpoint; Leon Koontz, Beaumont, Calif.; Meryl Wilson, Hammett; Lupina Turnin, Boise; Claudia Jones, Sandpoint; Marlys Parker, Lewiston; Jean Boomer, Payette.

Kappa Alpha Theta—Eileen Richmond, Los Angeles; Alice Stone, Portello; Dorothy Pruss, Tacoma, Wa.; Hattie Thomas, Elizabeth Nall, Helen Winkler, Spokane; Helen Brown, Enid Holmes, Boise; Dorothy Ward, Lewiston; Jane Swenson, Coeur d'Alene; Margaret, Etzenmuser, Kansas City, Mo.; Mary Louise Idings, Peru, Ind.; Elizabeth Stickney, St. Maries; La Rene Richards, Moscow; Mary Hartley, Payette; Elaine Hersey, Lenore; Carol Campbell, Rosalia, Wa.; Marjorie Talbot, Weiser.

Delta Delta Delta—Ruth Foster, Harrison; Rose Meyers, Ruth Meyers, Gooding; Marian Johnson, Burley; Edith Brown, Homedale; Ruth Evans, Weiser; Margery Wilson, Plummer; Lorene Mitchell, New Meadows; Eva Oberg, Moscow.

Delta Gamma—Mary Ellen Brown, Twin Falls; Doris Papesh, Peggy Simmons, Betty Booth, Kellogg; Helen Martin, Lois Naylor, Virginia Zeigler, Moscow; Maxine Stewart, Coeur d'Alene; Abigail Davis, Blackfoot; Blanche Blutzman, Lewiston.

Gamma Phi Beta—Mary Dee Beamer, Jerome; Margaret Brodrick, Mildred Elliott, Helen Lawrence, Spokane; Marian Bell, Pocatello; Ruth Farley, Boise; Phyllis Peterson, Payette; Lois Davies, Wallace; Jean Harrington, Boston, Mass.; Betty Mix, Betty Hatfield, Betty Horton, Moscow; Marian Graham, Twin Falls; Helen Neely Long Beach, Cal.; Eileen Kennedy, Clarkston, Wash.; Lois Specimen, Chewelah, Wa.; Eldred Thompson, Gooding; Helen Moore, Moscow.

Kappa Kappa Gamma—Eulene Martin, Annabelle Laidlaw, Boise; Wilma Fisher, Weiser; Hannah Bozarth, Louise Lyle, Lewiston; Kathryn Lane, Lapwai; Carol Lou Weber, Indianapolis, Ind.; Emily Gascoigne, Spokane; Willa St. Clair, Idaho Falls; Dorothy Dele, Lewiston; Jane Archibald, Portland; Dorothy Menzies, Nampa.

Pi Beta Phi—Marjette Sebern, Christine Orchard, Annette Hartman, Boise; Shelley Olson, Bovill; Hazel Gentry, Virginia Quagley, Wallace; Rita Yost, Ada Yost, Jean Ham, Kellogg; Isabelle Gibson, Victoria, B. C.; Wilma Bennett, Butte, Mont.; Bernice Arnold, Prescott, Ariz.; Betty Obermeyer, Emmett.

There were many guests at the various sorority houses in the past week who were interested in rushing. They included: Alpha Chi Omega—Helen Benson, Juanita Bennett, Coeur d'Alene; Louise Neal, Meridian; Joan

## W. A. A. WILL SELL OLD GYM OUTFITS

Purchasing Office Will Be in the Women's Gymnasium.

The Women's Athletic association are selling the second hand gym suits left from last spring. The prices of the articles are as follows: Bloomers 80c; middies 50c; shoes 50c; belt 10c. Women wishing to purchase these may call at the offices in the Women's gymnasium.

## Kampus Komments

Four boys to every single girl this year on the Idaho campus. A good reason for a girl's popularity.

Saw a lot of the old crowd back for rushing this week. Helen Kerr and Jessie Little.

Doris Armstrong and Duth Eaton also back talking for the Gamma Phi Betas. Jake Daubert as usual having a merry time.

Marty Jean Nail, nee Smith, looking smart and doing her bit for the Thetas.

Mary Brosman is getting her M. A. this year.

John Torrey up from Los Angeles on a business trip to the campus and north Idaho.

What would the campus be without Sandy McDonald and Cec Hagen?

Lloyd Rintzel, our boy from Cal. says he has been harvesting this summer.

Frank McAtee, another old Idahoan, back after a session at Utah. And Utah is famed for its good-looking girls.

On account of the depression Marge Crane returned with only two trunks instead of the usual four. She chances her name to Mrs. Vanderbilt when she rides in the Pelton town car.

Virginia Gascoigne and Betty Merriam have shorn their tresses.

Margaret Moulton is still wearing Bent's Beta pin.

Bonita Lowe back again, but without the wedding ring we all thought she would be wearing.

Paul Miller is all business after a trip to the Soviet Union and Germany this summer.

It's surprising that every house is so satisfied with their rushing. Surely some one must have been slickered.

Walt Gillespie, in the absence of his best girl Pearl, dates Theta rushees.

Casady Taylor is still going strong? this year.

Kollegately, Ko-ed.

## Gertie Gullotine

Boop-a-deep, Campsters. Welcome back everyone. It's mighty fine to see those who had the nerve to come back to school this year. But, then we might have light wines and beer before long so cheer up.

IN A SAD PLIGHT IS HERBIE MOSE. HE FORGOT THE FRAT HIS FATHER CHOSE.

Then there was the frosh who couldn't break his pledge to the Real Silk Hosiery company to go Beta.

We understand there was a student who refused to attend the football game Saturday because he didn't want to cheat the ASTU by getting too much out of his Student Body Ticket.

Departing limousines all remind us that we should keep an open ear and only pledge the house that promises.

THE WEARING OF THE PIN—Freshie dear and did you hear the news that's being spread. Each frat it seems now wants you to fill up an empty bed. Now they may have hot-bedded you and got you dates with queens.

For there's a secretly among The eaters of the beans.

We'll shed some tears For unhappy Teddy Sunday she found her new fellow Was only her roommate's steady.

Then there is the Sigma Chi who decided they must have a new dishwasher because of the different finger prints on the plates this year.

WELL DON'T BACILLI

Gentleman Jim Is at It Again Shoveling Dirt

After observing the frosh for a week, we can only say that each one looks more and more like a block off the old chip.

Little do the dear li'l things realize that their education will start in four years.

And speaking of Pep rallies, let us hope that we won't say the same

of the forthcoming ones. The best that we can say for the last one is that it is all over but the shouting.

We have heard that the most dangerous drivers are of the hip and run variety.

And another thing that is worrying us. When the S. A. E.'s raise the mortgage from over their roof, how are they going to keep out the rain.

What with bank failures and the depression, it is said that the sale of tickets to the Arboretum "ain't" what they used to was.

Due to the increase of the cat population on the campus, one would be safe in saying that the night life of the dear old alma mater will be a howling success.

Imagine our disappointment when some house didn't think to make their pledges capture the porcupine wandering around here Sunday.

And then Angus wants to know what the point is to that idea. On pun-lease, Angus.

And in conclusion may we fervently hope that before another two weeks have passed the frosh will have found their classrooms.

GENTLEMAN JIM.

## GREGORY GIVES IDAHO A BREAK IN OREGONIAN SPORTS COLUMN

Ed note: The following column written by L. H. Gregory, sports editor of the Portland Oregonian, appeared Friday. It has caused so much favorable comment among student body that it is here reprinted in full. Gregory, although a graduate of W. S. C., has long been a favorite with Idaho sports readers. This year he again gives the Vandals a decent break in publicity.

UNIVERSITY OF IDAHO, Moscow—Don't they grow any more big boys in Idaho? The Idaho potato gets bigger and better, but what of the young men? After the horde of over-sized huskies at other institutions, it's startling to find on Coach Leo Calland's varsity squad only one player who weighs 200 pounds.

On a squad of 35 candidates as compared with 53 at Oregon State, 51 at Oregon and at least as many at Washington State, the lone 200-pounder is Bob Moser, a sophomore tackle. He tips the beam just now at 203, which is not inspiring in view of the flock of large gentlemen ranging from a modest 205 to a hefty 240 who are trying to be tackled at the other places. Even 190-pounders are far from plentiful. The rest of the Idaho squad trails off on downward weight scale to as low as 134.

One would think a state that produced the heavy Paul Kershienik and Carl Hutchinson in seasons past to offer. If any of these behemoths are would have a few more 200-pounders left in the state they don't come to college. It seems to be getting worse instead of better. The entire incoming freshman squad has not yet produced one lad who looks like the makings of a fairly husky tackle.

All of which brings out more emphatically than anything I could say the tough outlook Leo Calland faces, and seems bound to face season after season. He hasn't the big men the other institutions get, and his squad is much smaller.

But Calland isn't crying about it. Though only 31, thus being the youngest Pacific coast conference coach, Calland has faced tough outlooks before this in a total of ten years of coaching, three of these being at Idaho. To make up for lack of weight he is adapting his system to what he has. The result is a fast-stepping, fiery charging team that concentrates on blocking hard and well so that its coterie of pint-sized backs can pop into the open—and when they do it try and stop them!

Combine with this a flaming revival of the old time Idaho spirit, and Calland has something after all.

There's no doubt about the comeback of the Idaho spirit, so famous in the days of Bob Mathews. Matty didn't have big men, either, but his teams were so inspired with fervor that nothing scared them. Remember the '23 team, with Dusty Kline at center, Skippy Stivers as quarterback, Vesser and Chuck Diehl and Klefner had Bucklin and Cameron and Fat Stephens and all the others of that scrappy, confident outfit, who so nearly licked the mighty Stanford on Multnomah field that the final count in Pop Warner's favor was only a field goal, 3 to 0? It was spirit that did that.

Idaho spirit seemed to sink after Matty's time, but now watch it blaze! It flared up to the old white-hot peak

yards from scrimmage right through their vaunted line.

It is now perfected still further. In brief, the new Calland system is a combination of Notre Dame and Howard Jones football, with some stuff of Calland's. It includes both a backfield and a line shift—the center and two guards not shifting, however—in passing variations. The backfield shift is Notre Dame, the line shift more like Southern California's, and the combination effectively conceals formations. It uses an unbalanced line, but balanced power with a back to the weak side.

The idea always behind it is to slide a fast, shifty back into the open through a quick hole in the line for long runs. Of course it depends on almost perfect blocking, but these boys block. The blocking assignments, incidentally, are like those of Notre Dame.

It is full of deception, and any time it gets one of these fleet little backs into the open, he is likely to score a touchdown.

Calland has lost his 1931 line from tackle to tackle, missing players including Spangy, the tall center; Martin and Sprout, guards; Bessler and Sullivan tackles; and Davis and Wilkie in the backfield. His 1932 team, first-stringers and alternates, lines up like this:

Centers—Bill Schutte, 175, was alternate with Spangy last year, gets first call. A little fellow, but he can take care of himself. Next comes Emanuel Kline, sophomore brother of the famous "Dusty." If he only had size he would surely go places, for he has "Dusty's" skill and dynamic spirit. He weighs only 162, but has been handling the first string beautifully while Schutte is out from an injury. A third center is Dan Aukett, 180, guard in basketball.

Guards—Max Elden, 185, was first string running guard last year until he got his ribs cracked. He can play guard with anybody on the coast. His running guard alternate is Ap Berg, 194, sophomore, fast for his size and willing, but undeveloped. The other guards are Dick Nutting, 192, soph, a good prospect, and Cliff Herbig, 186, a junior playing football for the first time.

Tackles—Only three of them, and they're about a standoff. One is Russ

Hall, 188, two-year letterman. The second is Bob Moser, soph, at 203 the only 200-pounder on the team. Third comes Howard McInerney, 190, soph. In dire need, Herbig, the guard alternate, and Aukett, extra center, can also play tackle. Idaho players have to master two positions.

Ends are more plentiful. At right end, June Hanford, 172, has the call. Hanford was a halfback until last year. One day Calland ran out of ends so he went Hanford to pinch hit. It turned out to be his niche. In fact this versatile lad can play any position on the team. Orville Schmitt, 178, is a lively alternate; also Russell Garst, 153, a transfer from Idaho's southern branch.

At left end are three more, and if Calland could put the three together he would have about the best end in football. They all shine at something different. Randall, 176, 6 feet 2, long and spindly legged, can punt the ball out of the football lot. Taylor, 183, 6 feet 2, is a good all-around end,

## SPORT SHOP

By PAUL JONES

In spite of the fact that Idaho beat Whitman by the biggest margin in several years, Leo Calland, the head man on MacLean field wasn't too pleased with the performances turned in by his backs. The "green" sophomores in the line did their work and did it well, but Calland was displeased with the work of his veteran backs. As a result the team went through a tough practice last night, has another scheduled for tonight and will taper scheduled for tomorrow in Pocatello off with a long scrimmage in Pocatello tomorrow night with the Southern branch between trains en route to Los Angeles. The scrimmage will be held under floodlights to accustom the Idaho players to the lights. They arrive in Los Angeles Friday morning and meet U. C. L. A. the same night.

The boys in Bill Spaulding's camp are a bit cocky after their 26 to 0 defeat of the California Aggies last Saturday. "On to Oregon" is the war cry of the Westwood team, according to news dispatches from Los Angeles. The Bruins meet Oregon in Eugene on the 15th of October. The Idaho game Friday night receives a sentence in the column turn. There is no doubt that the Vandals have the best team in the history of the school, but if they figure to take Idaho in stride and point for Oregon, Bill Spaulding

is likely to be surprised man when the score is added up after Friday's game. The Idaho boys might not have been clicking as well as they could in the opening periods of the Whitman game last week but there is material on MacLean field for a club that will give any team in the conference a pretty stiff battle. If they start off with heads up football Friday night they may chalk up a win. And those boys can play heads up football—they have. The C. L. A. scout who saw the Idaho-Whitman game was in something of a fuddle during the third and fourth periods when the boys started throwing the ball all over the lot. He filled reams of paper with "dope" but it will take a good pass defense to stop Idaho if the boys decide to use the stuff they threw at Whitman. Calland has some fancy ball handlers this

season, make no mistake about that. Harry Jacoby, reserve halfback, can handle just about anything he could touch with a long pole and there are several boys who can fill 'em.
