

VOLUME XXXIV

MOSCOW, IDAHO, FRIDAY, APRIL 28, 1933

## PEP BAND SHOW SCORES BIG HIT WITH AUDIENCE

### Bill Ames and Entire Company Put Over Most Successful Production

"Professional! Did you ever see anything so great?" was the comment on the lips of many students and townspeople who saw the Pep Band show under the direction of William Ames, in the university auditorium last night. The show was presented before a packed house.

"I think that the Pep Band show," said Margaret Mischelhorn, national president of Spurs, "is the best campus show that I have ever seen. I enjoyed it very much." Miss Mischelhorn visited the campus Wednesday. She left for Pullman after the show that evening.

### Glee Club Exceptional

The glee club of 33 voices was a surprise feature of the program. The group under the direction of Orville Westberg, sang "Bedouin Song" by Arthur Ferte, "Ola Try" by Reisinger, and "Italian Street Song" from "Maretta" by Herbert. Miss Agnes Bothne, instructor in the music department, was the featured soloist of this selection. Miss Josephine Harlan was piano accompanist.

The third section of the program was devoted to the popular type of music. In the spot, "Goin' to the Sun" opened the act. Spot lights were effectively used to display the different soloists.

### High Class Trio

The women's trio composed of Marjorie Wurster, Louise Lyle, and Margaret Moulton sang "Goin' to the Sun." This is claimed to be the best trio that has appeared singing popular music in any university presentation. This was followed by the orchestra play "Just Once Again."

Elvon Hampton was the featured soloist in Joyce Kilmer's composition "Trees," accompanied by the orchestra.

### Brandt Pleases

Catherine Brandt's low melodic voice pleased the audience when she sang "The Blue Bird" accompanied by Morris O'Donnell at the piano.

The men's trio, Harold Boyd, Wendell Olson, and Orville Westberg, were attractively presented underneath a blue spotlight while they sang "Nothing is Sweeter Than You."

"Imagination" an arrangement by Ted Borson, was the concluding number of this section of the show.

The last section saw the Pep Band as they are known to many people in the state and coast cities—dressed in the flashy yellow sweaters and gray trousers.

### Show Members

Members of the band are Charles McConnell, John Cusano, Frank McAtee, Elburn Pierce, Sam Stone, Richard Stanton, Robert Seymour, Paris Kall, Charles Mason, Fred Sanger, Charles Thompson, William Woods, Morey O'Donnell, Clayton Boyd, Glenn Exum, Lyle Fraley, William Hudson, Don Wolfe, Wendell Olson, Marvin Olson and Dick Edwards.

## BUTTLER MAKES EDUCATION TALK

### Higher Education Is Still in Period of Development

Higher education is still in the period of startling development, experiment and change which began about 60 years ago, according to Dr. Nicholas Murray Butler, president of Columbia university.

## Professor Hubert Makes Collection Of Indian Relics

Though junior week is over, perhaps a little reminiscing would not be amiss. During the week, two junior committeemen visited the exhibit of Indian relics which has been collected by E. E. Hubert, professor of forestry. They were in search of ideas for decorations for the prom.

Professor Hubert invited the boys into his home at 801 East B street, and showed them into a small room just off the parlor. The walls were covered with beaded work and old Indian weapons, and an every available shelf was piled with moccasins, miniature wigwags, and head dresses.

He stepped to a tall filing cabinet and from it he began to draw tray on tray of mounted arrowheads, trod leather bags, awl cases wrapped with split porcupine quills, medicine men's ceremonial decorations, and any number of unusual and valuable curios.

"I began collecting these articles when I lived near a Montana Indian reservation as a boy," said Professor Hubert. "I had a great deal of personal contact with members of the Sioux tribe, and from them I learned a great deal about their sign language and the meanings of their pictures."

### Bead Writings

With this remark he drew out a particularly striking piece of beadwork done in bright reds and blues. From the seemingly meaningless, but decorative design he drew the description of an Indian camp set in a valley between two high wooded mountain ranges.

"One of the most interesting groups in my collection is this collection of knives," he said.

From one of the trays he drew two bonehandled instruments. The blades were made from finely ground fish bones. He explained that they were ceremonial knives from a Central American tribe, and were used by them for slicing up human sacrifices. The same tray contained a medicine man's whistle made from the wing bone of an eagle.

The entire collection is a most interesting one, and Professor Hubert expressed the wish that any student or member of the faculty was welcome to inspect the collection at any time. A portion of it was on exhibit in the man hall of the administration building during Junior week.

## CAST READY WITH A.S.U.I. PRODUCTION

### "Torch Bearers" Will Be Given May 5 and 6 With Experienced Players

"Torchbearers," dramatic department play now being prepared is nearing readiness for production and will be staged May 5 and 6. Besides the three leading players, Lee Cannon as Fred Ritter, Catherine Brandt as Mrs. J. Duro Pampinelli and Grace Eldridge as Mrs. Blair, nine more students will have parts. Except Sarah Louise Throckmorton and Lee Cannon, all the students in the cast are seniors, giving Mr. Fred Blanchard, director, an experienced cast with which to work.

### Other Students

The other students in the cast are Edwin Ostrook as Mr. Huxley Hossfrosse; Jack Blair as Mr. Splinder; Harold Netzel as Mr. Ralph Miller; John Milner as Ted Sparring; Bill Greaghty as the Stage Manager; Marthalene Tanner as Mrs. Paula Ritter; Eleanor Jacobs as Miss Florence McCrick; Lucille Moore as Mrs. Clara Sheppard; Sarah Louise Throckmorton as Jenny.

Reserved tickets for "Torchbearers" may be secured at Hodgkin's on April 28 and 29. The admission for the general public is 40 cents. Students will be admitted free on presentation of their A. S. U. I. cards.

## RESIDENT STRUCK BY BANK DECISION

### Bank Teller Gives Hard Blow to Gold Hoarder

An old resident of this city probably was hit as hard by the bank holiday as anyone yet discovered.

## AG CLUB EXHIBITS ARE IN READINESS FOR ANNUAL SHOW

### State Wide Interest is Expected to Draw Large Crowd

New and unusual displays, surprise features, and all the pomp of a "real international" are in readiness for the large crowd that is expected to attend the big exhibit sponsored by the "Ag" club here tomorrow. The publicity created by items in state papers and individual letters sent to 300 people have created a statewide interest that is expected to draw an immense crowd for tomorrow's show, according to Russel Gladhart, general manager.

"The features are being kept a secret," said Gladhart. "We want these to be special, unusual surprises for the spectators."

Starting at 7 a. m., livestock judging will take up most of the morning. Beef cattle, dairy cattle, sheep, horses, and hogs will be in line for the choice. The "big feed" in the dairy building, given for participants and those here for the vocational guidance conference, will be next on the program. From 300 to 350 people are expected for the lunch.

The grand parade comes next on the program. The girls riding corps will lead, followed by Earl Sawyer's six-horse team. Successively following these will be the horses, dairy float, dairy cattle, beef cattle, and agronomy, horticulture, and agricultural engineering floats. Starting at the inland depot at 1:30, the procession will make its way down Main street to Sixth, turning up Deakin and proceeding to the Delta Chi corner, where it will turn and go by way of Ridenbaugh hall to Lewis court, the end of the course.

### Livestock Display

Evening interest will be centered in Lewis court where livestock and displays will be exhibited for spectators. Bleachers have been set to accommodate 400 people for the program, which will begin at 7 with an introductory address by E. J. Iddings, Dean of the College of Agriculture. Following this introduction, at 7:30, the "big feed" livestock fitting and showing will begin, and the 70 awards presented.

Several special surprise features of unusual interest will follow the judging.

All of the displays are creating great enthusiasm and interest this year and promise to be uniquely interesting, according to Gladhart. Four of these displays are entirely new on the campus. These are: agricultural chemistry, agricultural economics, bacteriology, and poultry. Other displays will be horticulture, agronomy, entomology, plant pathology, agriculture engineering and dairy.

### Shows a Tradition

The Little International Livestock show has become an annual tradition with the "Ag" men bringing their activities to a fitting climax in the spring.

Ever since the Little Internationals were begun by R. E. Everly, the first manager in 1924, the Ag club has sponsored this spring event with the purpose of affording the university and community an opportunity to get an idea of the nature of international livestock & exhibitions of Chicago and the Pacific coast and enjoy the transformations that livestock can undergo in the process of fitting and showing. Not only is the annual event a source of enjoyment and education to spectators, Gladhart says, but also a valuable training for the students participating, giving them experience which may prove of great benefit to them later.

A complete story of the livestock show for the last two years is afforded by moving and stationary pictures taken during the course of events. This year Charles Diamond will handle the movie camera to continue the pictorial record.

"Besides making an interesting story, these movies bring to our eyes the changes that have taken place in our show," said Gladhart.

## VALUABLE RESEARCH IS BEING CONDUCTED

### Laboratory Work of Past Years Is Valuable to State

The metallurgical research conducted by Mr. Joseph Newton, instructor of metallurgy, Mr. Clarence F. Zeuch, and Mr. Robert Raring, research fellows, under the direction of Prof. A. W. Fahnenwald, has been very gratifying. This development, under the guidance of the department, has been greatly enlarged upon as a result of these studies. It is worth while to mention a few developments that illustrate the value of research in relation to practice and industry.

## NOTICE! Argonaut staff meeting in Ad 201 at 5 o'clock. All members of the editorial staff are expected to be there or else—

## SUMMER SESSION OFFERS FEATURE TRAINING COURSE

### Special Conferences on Education Problems Will Be Given by Condie

Current state education problems, chiefly those arising through application of the legislation adopted at the last session of the state legislature will feature the special two weeks' short course for county superintendents incorporated in the university 1933 summer session. This course will be given June 19 to 30. The summer school proper opens June 13 for six weeks.

"The new educational legislation has brought many problems which we never anticipated," said J. W. Condie, state superintendent of public instruction, on recent visit to the campus to confer with university administrative officials relative to the 1933 summer session plans. Superintendent Condie will take an active part in the special short course for county superintendents.

### Special Conferences

In addition to conducting the course work in Idaho education problems Superintendent Condie will hold special conferences with county superintendents, rural supervisors, teachers and others concerning application of the new legislation to their particular districts.

"This short course offers an ideal opportunity for county superintendents from all parts of the state to analyze and interpret as a group the recent legislative acts, involving equalization between school districts consolidation, and the right to refunding authorization bonds to refunding outstanding warrants. The work at the conference not only will cover a study of how the enactments operate but analysis of places in which needed corrections should be made at the next session of the legislature," he said.

Superintendent Condie visited the university campus while on a tour of northern Idaho schools. "Never have I seen so much interest in educational matters," he explained. "A large part of it is due to the new legislation but I believe there is a growing awakening and realization that our education system must be safeguarded." Superintendent Condie predicted a large attendance at the coming summer sessions.

### Offer Special Courses

The special short course for county superintendents will embrace four phases in addition to the work in state educational matter arising from recent legislative action. Prof. J. L. Clifton, professor of school administration at Ohio State university, one of the visiting faculty members at the 1933 session, will offer work in supervisory problems. Three resident faculty members will take part in the course. Prof. F. B. Laney of the school of mines will give instruction in geography and natural resources of Idaho; Prof. W. Wayne Smith of the school of education will conduct work in general supervision and will have general charge of the course; and Miss E. M. Howard will introduce the new music supervision work. Two units of college credit will be given for this course.

## OPEN NET SEASON WITH W. S. C. MATCH

### Owen Carpenter to Play as First Man in Saturday Meet

The opening match of the season for the university tennis team will be played against the Washington State college team here Saturday morning at 9 o'clock. Five single matches and two double matches are scheduled. All matches will be two out of three sets.

Owen Carpenter, now at the top of the tennis ladder as the result of a win over Ray Sower, will play as first ranking man for Idaho. The next four men who will play in order of their ranking, are: Ray Sower, Henry Rust, Howard Altnow, and Paul Rust. Fred Serafin, sixth ranking man, will be the alternate player.

Altnow and Sower will play as the first doubles team for Idaho and the two Rust brothers will be the second ranking pair.

The W. S. C. team last week defeated the Gonzaga university squad six matches to one. Clarence Morris, a three year tennis participant, is first ranking man for W. S. C. and has proved to be one of their most consistent winners.

## RECEIVES NO MONEY

Although no appropriation for the University of North Carolina summer school has been granted by the Advisory Budget commission, the faculty of the university feels that it would be a great mistake to abandon it and have volunteered their services in order to keep the summer terms going.

## "T" CLUB ASSISTS COLLEGE HUMOR TO PICK MOVIE STAR

### "Miss America" Will Be Named July 15; Idaho Sends Two Entries

A nationwide contest to find America's typical co-ed for 1933, is being launched by the publication College Humor and Sense, Universal Pictures and the "T" club at the university has been asked to send in their selections.

The winner will be named "The All-American Girl" and will receive a movie contract this summer for not less than \$100 a week, with expenses to and from Hollywood.

The "T" club will send the pictures of Louise Morley and Betty Merriam, last year's queen. Both women's pictures will appear in the College Humor after the contest closes, July 1.

Betty Merriam

"I think that this," said Max Eiden, president of the "T" club, "will give the university good publicity. This is the first time in the history of the school that any woman has been entered in a nationwide contest of this kind, and we have a good chance to win."

Judges in the contest include such figures as Russell Patterson and Jefferson Macomber, nationally famous artist; Stanley V. Gibson, publisher of College Humor and Sense and other popular magazines; Carl Laemmle, Jr., general manager of Universal Pictures; and Larry Reid, editor of Motion Picture and Movie Classic.

In order that students may participate in the contest, without interruption of school work, all decisions will be made from photographs. No one will be asked to make a personal appearance.

### Will Be Star

Universal Pictures, under the direction of Mr. Laemmle, will star the lucky student in a football picture to be produced in Hollywood shortly after July 1st. Universal already has the two outstanding football pictures of all time to its credit, "The Spirit of Notre Dame" and "All-American." If the contest winner shows promise in this regard, she will be given an opportunity for continued stardom, as well as a chance at radio and television work.

## CHOIR TO BROADCAST SUNDAY EVENING

### Lutheran Group Will Go to Spokane This Week End

The First Lutheran choir, under the direction of Miss Agnes Bothne, will broadcast a program of sacred music over station KHQ Sunday evening from 9 o'clock until 9:30.

The following university students sing in the choir: Jean Clough, Eva Oberg, Neve Green, Ellen Jack, Elizabeth Thompson, Audella Johnson, Agnes Ramstedt, Nevada Ostrook, Jean Saunders, Carl Hennings, Stanley Jepson, Elvon Hampton, Orville Westberg, and Edwin Ostrook.

The choir will be assisted by York Kildea, violinist, and Lucille Ramstedt, accompanist.

## GEORGE HORTON HAS OPERATION

### Graduate Manager Is Resting Easily

George "Cap" Horton, Graduate Manager of the university, underwent an operation this morning at Gritman's hospital.

Drs. Gritman and Armstrong performed the operation. Mr. Horton was suffering from a neck inflammation. He is resting easily but will probably be confined to the hospital for a week.

## RESEARCH OPENS VAST NEW FIELD

### Study of Insect Blood Has Been Carried on By Shull and Rice

A research discovery which will open a vast new field in the study of insect blood has recently been made by Dr. W. E. Shull and Paul L. Rice of the entomology department as a result of experiments with cockroaches. The study now being rapidly completed is a continuation of work on which Dr. Shull has previously published material.

"It appears that this method we have discovered will be very useful in the study of the effect of insecticides and in the study of normal and pathological physiology of insects. The method consists of exposing the insects to the vapors of acetic acid under known constant temperatures at varying lengths of time.

"This treatment inhibits the coagulation of blood which under normal circumstances occurs as it is removed from the body. By this inhibiting coagulation, this method makes it possible to obtain, outside the body of the insect, blood in which the cells retain their normal shape and in which the plasma does not congeal. Any desired degree of inhibition may be obtained. Only when placed in the condition described can it be studied scientifically. The inability to study the blood insects has been responsible for the present lack of knowledge on its nature and function.

## METHODIST GROUP TO REPEAT DRAMA

### Second Performance of "The Prodigal Son" Scheduled Sunday Night

A second performance of "The Prodigal Son" will be given by the Wesley Players Sunday evening at 8 p. m. in the Methodist church auditorium. This will be the 16th presentation of the Biblical drama. A free offering will be taken.

The cast will return Saturday evening from a good will tour of southern Idaho, where they fulfilled 10 engagements. Towns played included Cottonwood, Payette, Emmett, Twin Falls, Nampa and Caldwell. The play had already been given at Kendrick, Coeur d'Alene, Genesee and Moscow.

Based entirely on the parable of the prodigal son, exact Biblical costumes are used, and the lighting effects are elaborate and unique for church production. The cast includes all university students, and those making the southern trip were Jessie Keeney, Musetta Christopher, Mabel Mullikin, Mildred Carson, Margaret Shepherd, Margaret Jones, Edward Davis, Stanley Skiles, Glenn Craig, Jimmy Jay, Dr. J. Edgar Priddy, Methodist minister, and Dr. C. D. Wells of the Institute of Christian Education.

## RIVALS COMBINE IN LAW COURSE

### Yale and Harvard Get Together in Small Way

Yale and Harvard, the two most ancient rivals in American university history, are to get together—in a measure.

It will not be an athletic truce, however, but an academic one. The two universities have united in arranging a joint course to train men for the practice of law in fields involving business problems.

## CANDIDATES SILENT REGARDING RESULTS OF NEXT ELECTION

### No Whispering Campaign To Mar Serenity of Political Sea

No new political developments have taken place during the last few days unless it has been the discovery of a new technique in whispering campaigns without even the whispering. Neither party and neither candidate for president of the student body had any pronouncements to make. Both parties have made their initial statements as to intentions if successful at the polls and they are adding nothing to those stands.

That leaves the Alpha party standing on a promise for continued economy and efficiency while the Campus party is still intent on returning student government to the student body in a new deal which will include the election of members of the executive board from residence groups and the appointment of student body officials on merit basis wherever possible.

### Little Sentiment

Two weeks ago there was a good deal of feeling on the campus among certain groups concerning the elections. Since that time, however, spring has arrived to such an extent that even continual prodding of party leaders results in nothing but the ordinary casual conventional boasts that their party will win by an overwhelming landslide. The head men of both parties are consistently responding with such lines, however, and refuse to say anything further. As is usual in political campaigns, both sides are making their own claims, but unlike most campaigns, they are actually refraining from calling each other black. The general attitude seems to be that either side will be glad if the other side is successful. It has been remarked that the politics must be in an awful depression. This is merely an opinion, however.

Fern Paulsen, the secretary of the executive board, reports that no further question has been raised concerning the eligibility of certain candidates on the grounds that they were members of the wrong classes for positions which they were seeking has apparently been dropped.

### Candidates for Publications

Although not strictly elective, names of candidates for the positions of managing editor of the Argonaut and associate editor of the Gem of the Mountains will appear on the ballots at the coming election. The constitution provides that the managing editor of the Idaho Argonaut shall be elected from not more than three members of the editorial staff who shall be nominated by a board consisting of the incumbent editor and members selected by the persons holding staff positions. Nominations shall be subject to the approval of the Executive Board. The nominating board this year has named two candidates which have been approved by the executive board. These men are Perry Culp, present day editor of the paper, and Paul Rust, former news editor.

Robert Herrick has been nominated for the position of associate editor of the Gem of the Mountains. That nomination was also made by a board consisting of the associate editor of the Gem, the editor and two members of the staff chosen by the staff. This information has also received the approval of the executive board.

Both the associate editor of the Argonaut and the associate editor of the Gem automatically become the editor of their publications for the year immediately following the year served as associate editor. These positions are not definitely connected with politics, but the support of the parties are usually thrown behind the candidates. This year Perry Culp is supported by the Alpha party as is Robert Herrick while Rust has not definitely been backed. The campus party has intimated that they were done dirt in this last instance by the fact that a previous promise had been made to nominate Hugh Eldridge, but that that was not done when Beta Theta Pi turned into Campus party ranks. That, too, is reported merely as a rumor.

## I. K'S MEET TUESDAY

Plans were laid for the handling of the Pep Band show and the Idaho-Whitman baseball game Saturday at a meeting of the Intercollegiate Knights at the Phi Delta Theta house at 5:00 p. m., Tuesday.

The Knights worked in conjunction with the Idaho chapter of Spurs in ushering for the show on Wednesday and Thursday nights.

## J. W. Condie Will Lead Attack On Current Educational Problems

Current state educational problems, chiefly those arising through application of the legislation adopted at the last session of the state legislature, will feature the special two weeks short course for county superintendents incorporated in the University of Idaho 1933 summer session. This course will be given June 19 to 30. The summer school proper opens June 13 for six weeks.

"The new educational legislation has brought many problems which we never anticipated," said J. W. Condie, state superintendent of public instruction, on a recent visit to the campus to confer with university administrative officials relative to the 1933 summer session plans. Superintendent Condie will take an active part in the special short course for county superintendents.

In addition to conducting the course work in Idaho education problems Superintendent Condie will hold special conferences with county superintendents, rural supervisors, teachers and others concerning application of the new legislation to their particular districts.

**Ideal Opportunity**  
"This short course offers an ideal opportunity for county superintendents from all parts of the state to analyze and interpret as a group the recent legislative acts, involving equalization between school districts, consolidation, and the right to issue refunding amortization bonds to redeem outstanding warrants. The work at the conference not only will cover a study of how the enactments operate but analysis of places in which needed corrections should be made at the next session of the legislature," he said.

Superintendent Condie visited the university campus while on a tour of northern Idaho schools. "Never have I seen so much interest in educational matters," he explained. "A large part of it is due to the new legislation but I believe there is a growing awakening and realization that our educational system must be safeguarded." Superintendent Condie predicted a large attendance at the coming summer sessions.

The special short course for county superintendents will embrace four phases in addition to the work in state educational matters arising from recent legislative action. Prof. J. L. Clifton, professor of school administration at Ohio State university, one of the visiting faculty members at the 1933 session, will offer work in supervisory problems. Three resident faculty members will take part in

the course. Prof. F. B. Laney of the school of mines will give instruction in the geography and natural resources of Idaho. Prof. W. Wayne Smith of the school of education will conduct work in general supervision and will have general charge of the course; and Miss Berenice Barnard will introduce the new music supervision work. Two units of college credit will be given for this course.

## Two Moscow Students Win Places Saturday In Musical Contests

Although Moscow high school failed to enter officially in the district music contests at Lewiston over the week-end, two Moscow musicians won places in the finals conducted there Saturday.

More than 300 students from the district participated in the various events. Second places in their respective divisions were won by Goldie Larson, mezzo soprano, and Don Tracy, baritone.

Judges included Cliff Mulliken, vocal and piano, and Harold Enginger, instrumental, both of Moscow. Lewiston and St. Maries tied for honors with nine firsts and five seconds.

## GIVES PRAISE TO CAVALRY TROOP

Moscow's troop K, 116th national guard cavalry, temporarily scored again over the other units of the state when Capt. R. H. Crosby, regular army inspector, said the troop was the best yet inspected.

Lewiston's troop I was still to be visited. The statement was made at the end of the two-day inspection of Saturday and Sunday.

Others of the inspecting party from Boise were: Sgt. M. Anderson, accompanying officer; and Gen. M. G. McConnel, adjutant general of Idaho. Lt. Col. F. A. Mack, 116th cavalry; Lt. Col. J. B. Gowen, 41st squadron, and Maj. Russel Clore, commanding officer of the third squadron, Caldwell.

Saturday afternoon was devoted to an inspection of the armory and contents, including administration. Sunday morning the troopers appeared for formal inspection. Close order mounted drill, machine rifle drill, topography and mapping, pistol drill, and saddle packing were demonstrated in turn. The entire staff of officers of the R. O. T. C. was present.

## SECOND LARGEST CLASS TO RECEIVE DEGREES JUNE 12

### 379 Will Receive Bachelor's and Master's Degrees This Spring

The 38th commencement exercises at the University of Idaho will be held June 10, 11, and 12. Saturday, June 10, will be "Alumni day," the baccalaureate services will be Sunday, and commencement proper Monday.

The graduating class of 1933 will be the second largest class in the school's history, counting only 25 less than the record set last year of 404. Three hundred and seventy-nine will receive degrees, 290 bachelors and 89 masters.

The Rev. Canon S. H. Middleton, principal of the St. Paul's Residential school at Cardston, Alberta, Canada, will preach the baccalaureate sermon on Sunday morning. The commencement address will be delivered by Chester H. Rowell, editor of the San Francisco Chronicle, lecturer, and educator.

Those who will receive degrees are:

**COLLEGE OF LETTERS AND SCIENCE**  
**Bachelor of Arts**  
Howard C. Altnow, Spokane, Wn.; Irene Mae Ash, Rupert; Beulah Elizabeth Barker, Buhl; Lloyd Wesley Berg, Pocatello; Andres Bandayre, Bigona, Philippine Islands; Teresa Elizabeth Connaughton, Boise; Muriel Leyrer Cruikshank, Moscow; Louella Rosalind DeGero, Spokane, Wn.; Robert Benjamin Dunlap, Caldwell; Elsa Suzanne Eisinger, Moscow; Grace Elizabeth Eldridge, Moscow; Edna May Florell, Moscow; Anna Thorne Fulton, Moscow; Virginia Elinas Gascoigne, Spokane, Wn.; Eileen Hale, McCammon; Jessie Edith Hutchinson, Moscow.

Kathleen Adella Keener, Pocatello; Frances Elton Larson, Boise; Simon Longley, Craigmont; Evelyn Louise McMillan, Sandpoint; Virginia Lea Maguire, Spokane, Wn.; Susan Sidona Malcolm, Spokane, Wn.; John Forrest Mellinger, Spokane, Wn.; John Smith Miller, Spokane, Wn.; Ardath Carol Moore, Ashton; Luella Blanche Moore, Pocatello; David Reynold Nelson, Moscow; Catherine Helen O'Brien, Spokane, Wn.; Catherine Jane O'Neil, Coeur d'Alene; Edwin Earl Ostroff, Moscow; Hsien-Ju Shih, China; Ora Dorothy Spoor, Sandpoint; Eugenia St. Clair, Idaho Falls; Rhoda Hollingsworth Swayne, Moscow; Marthalene Ellen Tanner, Twin Falls; Edward Ronald Wahl, Moscow; Harry Randall Wallis, Blackfoot; Roy Harvey Weipert, Reardan, Wn.; La Grace Jane Wilson, Pocatello; Gladys Mae Wilson, Pocatello.

**Bachelor of Science**  
Al Edward Bjaun, Moscow; Ellen Dorothy Chandler, Emmett; Charles Alexander Douglas, Camano, Wn.; Mary Ellen Kiosness, Spokane, Wn.; Annette Jane Lockett, Boise; Elbert Monroe Long, Kenilworth; Dale Riggin, Moscow; Emmet Elmer Spicer, Lewiston; Ross Bartlett Thompson, Troy.

**Bachelor of Science in Pre-medical Studies**  
Oscar William Anderson, Coeur d'Alene; John Ellwood Blair, Jr., Spokane, Wn.; Flora Sibley Corkery, Spokane; John Ripley Corry, Jr., Spokane, Wn.; Oliver Roland Johnson, Marysville; Edward William McDratney, Boise; Quentin Winfield Mack, Boise; Pampilo Matong Pamatian, Philippine Island.

**Bachelor of Science in Pre-Nursing Studies**  
Lorna Kerr Moore, Wallace.

**Bachelor of Science in Home Economics**  
Ethel Mae Anderson, Jackson, Mont.; Williamina Elizabeth Armstrong, Moscow; Evelyn Marie Barnes Pocatello; Roberta Bell, Spokane, Wn.; Bessie Lois Clare, Cambridge; Lillian Eberdene De Winter, Moscow; Mary Maude Gallo, Weiser; Ethelyn Cornelia Gibbs, Moscow; Margaret Luella Hill, Moscow; Marie Hutcheson, Cambridge; Bernice Bergetta Keating, Rock Springs, Wyo.; Marie Margaret Lew, Moscow; Dorothy Evt McFarland, Spokane; Ruth Etta Parker, Moscow; Florence Elizabeth Pratt, Grangeville; Fern Evelyn Spencer, Prescott, Wn.; Marjorie Helen Stone, Ashton; Nita Winn, Buhl.

**Bachelor of Music**  
Agnes Matilda Ramstedt, Moscow.

**COLLEGE OF AGRICULTURE**  
**Bachelor of Science in Agriculture**  
David Henry Bolingbroke, Malad; Harry Franklin Cline, Emmett; Donald Edward Corless, Freewater, Ore.; Carey Leonard Day, Eden; Myrthos Wesley Evans, Malad City; John Vincent Freis, Twin Falls; George Joseph Fuchs, Cottonwood; Elwyn Wallace Hampton, Genesee; Wilfrid Martin Hasfurther, Moscow; Carl Oscar Hennings, LaMoure, N. D.; Herman George Hilliker, Filer; William Walter Ingle, Kendrick; Carl Kenneth Lunstrum, Boise; Wilbert Ray McLean, Muscatine, Ia.; Ralph Lauren Magnuson, Worley; Karam Singh Mann, Punjab, India; James Norbert Marshall, Idaho Falls; Carl Floyd Mays, Howe; Galford William Mix, Jr., Moscow; Brigham Dallas Murdoch, Ashton; George Lowell Palmer, Obisidian; Russel Asoph Rasmussen, Moscow; George Rudolph Schmeider, Moscow; Irvin W. Slater, New Plymouth; Matthew Benard Spencer, Victor; Floyd Watson, Trail; Caldwell; Gerald Metter Whitney, Norwood; Milton Morse Williams, Boise.

**COLLEGE OF ENGINEERING**  
**Bachelor of Science in Civil Engineering**  
George Edward Barclay, Burley; Rogino Jose Daunig, Philippine Islands; Arthur Jerome Davidson, Moscow; Frederick Eugene Dragow, Bellevue; Lawrence Donald Hankins, Coeur d'Alene; Sydney Harris, Payette; Allen Sheeley Janssen, Moscow; Charles LeMoine, Jr., Boise.

**Bachelor of Science in Electrical Engineering**

## DEVELOPS CORN FOR CALIFORNIA

Professor Tells of Triumph of Science Over Nature

Science has again combatted and defeated nature. This time the triumph has been in the corn field. The history of the event was related recently by Prof. W. W. Mackie of the agronomy department of the University of California.

"California is not and never was a corn state and, though several scientists have tried to start the grain here, they were never successful," Mackie said.

"However, about 25 years ago an old farmer living on the Consumers river planted the eight-rowed King Philip Flint corn of New England beside the Reids Yellow Dent corn of the Mississippi valley," he continued.

"The two crossed naturally and the King Philip hybrid resulted."

The hybrid has proven itself to be the finest quality of corn in the United States. It is California's product and is grown no place else in the world.

## Pep Band Show Attracts Wide Acclaim From Large Audience

The Pep Band Show was received both nights by enthusiastic audiences... This weekend's activities start out with the annual Delta Gamma and Gamma Phi Beta freshmen dances at the Gamma Phi Beta house tonight. The Miami Triad Saturday night which is held every year by the Sigma Chi, Phi Delta Theta and Beta Theta Pi fraternities will be at the Blue Bucket Inn this year.

### ANNUAL MIAMI TRIAD SATURDAY NIGHT

The Miami Triad, an annual affair will be given at the Blue Bucket Inn Saturday night. The dance is a joint affair of the Beta, Phi Delta, and Sigma Chis. Patrons and patronesses will be Mrs. Lenore Scott, Mrs. and Mrs. Frank Stanton, Gen. and Mrs. E. R. Christman, Dr. and Mrs. Jesse Buchanan, and Dr. and Mrs. J. W. Barton. The decorations will be flowers and soft colored lights following the theme of spring. The programs are of white leather cut in a triangular shape with the crests of the three fraternities stamped in silver on the cover and black and white cords. The Blue Bucket orchestra will furnish the music.

### GAMMA PHI AND DELTA GAMMA FROSH DANCE

Gamma Phi Beta and Delta Gamma freshmen are giving a lantern dance at the Gamma Phi house Friday night. The house will be decorated with Japanese lanterns and daffodils. The color scheme is to be carried out with yellow programs. Patrons and patronesses are Dean and Mrs. J. A. Kostalek, Dean and Mrs. T. S. Kerr, Mr. and Mrs. F. C. Blanchard, Miss Harrison Deveraux, and Mrs. E. C. Given. Music will be furnished by the Beta orchestra.

### TIKES ENTERTAIN DELTA DELTA DELTA

Tau Kappa Epsilon entertained the Tri Delta at an exchange dinner Tuesday night. Guests were Mrs. W. A. Ritchie, Esther Hunt, Geraldine McCarty, Lorene Mitchell, Ruth Cook, Virginia Merrick, Lillian Sorenson, Eva Oberg, Geneal McKinney, Loda McGrath, Irene McKiernan, and Edith Brown.

Prof. George Luke was a dinner guest of Lambda Chi Alpha Tuesday.

Luncheon guests of Pi Beta Phi Tuesday were Mary Jane Pace, Eleanor Lewart, Harriet Norris and Betty Dahl.

Tau Kappa Epsilon announces the initiation of George M. Klein, Oak land, Cal.; Lee Kipling King, Lewiston; Wilbur R. Smith, Lewiston; and Kenneth R. Gosling, New York city.

Sigma Nu entertained members of Kappa Alpha Theta at a dinner exchange Wednesday.

John Brosnan was a dinner guest of Beta Theta Pi Wednesday.

Morton Brigham was a dinner guest of Delta Tau Delta Wednesday.

Hays Hall held a formal birthday dinner honoring those whose birthdays came in May.

Irby Lou Dunlap was a dinner guest of Alpha Phi Thursday evening.

Dean Permeal J. French was a dinner guest of Sigma Nu Thursday.

Alpha Phi entertained the following at dinner Wednesday: Bertha Mae Wilburn, LaRene Richards, Fern Paulsen and Eleanor Martin.

Kappa Alpha Theta entertained three Moscow girls at a fireside Sunday night. The guests were Carol Jean, Kathleen Samms, and Rosanna House.

Chi Alpha Pi announces the pledging of Frank Klein, Fairview Village, Ohio.

Ridenbaugh hall students were guests of Gamma Phi Beta at an exchange dance Thursday.

Evelyn Fuller, Grangeville, is visiting at the Kappa Alpha Theta house.

Margaret Misselhorn, Pullman was a dinner guest of Delta Gamma Wednesday.

Dr. G. M. Miller and Jean Wilson were guests of Kappa Kappa Gamma at lunch Thursday.

Members of Pi Beta Phi entertained members of Phi Gamma Delta at an exchange dance Thursday.

Eleanor Merriam, Wallace, is a guest at the Delta Gamma house this weekend.

Members of Pi Beta Phi were guests of Sigma Alpha Epsilon at an exchange dance Wednesday.

## EDITOR CHOOSES WOMEN'S STAFF

Theta Sigma Argonaut is Edited Each Year

Evelyn McMillan, who has been chosen editor of the Theta Sigma edition of the Argonaut to be published May 12, completed the selection of her staff recently. Norma Longate will be night editor; Fern Paulsen, features; Eileen Hale, society; Lucile Moore, assistant; Mary Axtel, sports; and Frances Hanley, copy desk.

The custom of having a Theta Sigma edition of the Argonaut was started five years ago, and each year since members of the honorary have put out the edition unaided by outsiders.

The first Theta Sigma Argonaut was edited on a communistic basis, each member contributing to several departments. Since 1926 the women have considered it a better plan to elect an editor and various department heads in order to obtain better organization.

One of the features of this edition will be a special cut which was designed by Geraldine McCarty.

## The CO-ED MANNEQUIN

Shoulders! Shoulders! Shoulders! You have 'em. I have 'em. It's all in the way we cover 'em. This blouse has a double ruffle that does the trick cleverly. Can't you just hear the material swish? Striped taffeta is the thing of the minute with plaid a close second. The ruffle collar is good too. It must be admitted that a soft neck-line is more becoming to most of us.

A distinctive point about the jumper is the double breasted effect that gives that tailored feeling. The simple lines of the skirt put the attention on the upper part of the outfit, which is as it should be this season. However, pleated skirts are expected to be seen a great deal later on. Very fine pleating is used in heavy chiffons and sheer crepes.

From bows we advance to flowers of all sorts and sizes. Large white organdy blossoms trim black crepe frocks in many different ways.

## Jeanne

## THE CINEMANIAC

at the Kenworthy BLONDE JOHNSON

Friday, Saturday and Sunday stars who have risen from the ranks of the Wampus Baby stars. Picked every year, out of 20 or 30 girls, only three or four on the average get beyond the ranks of slapstick comedy. Miss Blondell in the past year has shown such promise that she was given the lead in this picture. The story concerns an ultra-modern gold digger who is out for what she can get, and she doesn't mind how she gets it. Chester Morris plays opposite her.

## THE GRAND SLAM

Sunday If you have been annoyed by the well known kibitzer pest, you will have an opportunity to have your laugh at the expense of this nefarious tribe in the latest national picture. Altogether there are 50 kibitzers in the picture, who sit or stand around to annoy the players in a world championship tournament, which is one of the high lights in this picture. The picture is acted by a splendid cast with Paul Lukas and Loretta Young in the leading roles. The theme of the story concerns a Russian waiter who was so lucky he beat the champion.

## THE BIG CAGE

Friday, Saturday Clyde Beatty is known as the world's greatest animal trainer, and this is the first time he has ever appeared on the screen. The story is one of the circus and features Beatty and his acts with 43 lions and tigers in the cage at the same time. Heart throbs, tears, laughs and excitement make this one of the most exciting pictures ever filmed. Anita Page, Andy Devine, Wallace Ford, and Raymond Hatton are in the supporting cast.

## MODERN YOUTH SHORT IN FAITH

Professor Criticizes the Young Man of Today

There are two fundamental shortcomings characteristic of modern American youth. It is the view of Dr. Broadus Mitchell, associate professor of political economy at the Johns Hopkins University, who addressed the Liberal Club recently.

What is lacking in the make-up of the American youth today, said Dr. Mitchell, is, first, a lack of belief in expressing beliefs. In pointing out the necessity for reform, the economist stated that inasmuch as the current depression affects every individual in the nation any social reform which would alleviate the condition would undoubtedly benefit each individual.

Courage as well as intelligence is needed to make a leader, the Hopkins man said. Dr. Mitchell also added that one should have a sense of humor about one's self and a sense of proportion.

Speaking of some of the great problems that society is facing today, Dr. Mitchell discussed the question whether the intellectual pursuits of college students lead only to their own gratification or to a decided effect upon life and society as a whole.

Overproduction was attributed by the Liberal Club speaker to technological progress. The depression today is the result of too much technological efficiency and, as in the past, to an insufficient supply of commodities. "We need to accompany our technological progress by social reasoning," Dr. Mitchell asserted.

## W. A. A. SPONSORS ANNUAL PLAY DAY

A Play Day sponsored by A. W. S. at which girl representatives from Troy, Potlatch, Lewiston, and Moscow high schools will be held on May 5. This is an annual affair and gives the visiting girls an opportunity to familiarize themselves with certain phases of college lives and strike up acquaintances with college women. Eighteen women will come from each school.

In the morning they will compete among each other in baseball, basketball, field events, and organized games. The guests will be entertained at lunch by the various sorority houses. In the afternoon there will be challenge rounds in ping-pong, tennis, horse shoes, clock golf, and swimming events.

Forty-three Denver university seniors will not be graduated until they pay fraternity bills.

## AWAY WITH BLEMISHES!

The advantages of youth are often exaggerated. Those who are no longer young are apt to remember their youth as entirely gay; women are inclined to refer to their great beauty when in the teens.

As a matter of fact, the smart young things of today know better. And if they don't their friends, with charming frankness, soon point out the defects. Young girls are very apt to have blemished skins, chiefly because they have not learned the value of regular daily beauty care. There is little harm done if the condition is cleared up at once. But if it is allowed to linger, it spoils may con-

facts at college and in later life. What to do about it? Well, first, consider the way you are cleansing your skin. A hasty dab of soap and water before rushing off to class? Vigorous scrubbing an hour before a dance? Neither method is calculated to make you look like heaven's gift to the stag line. Instead, the morning cleansing should be with a good pasteurized cream that will remove all impurities, smooth and firm skin. Then a skin toning lotion should be used to close the pores and serve as a powder base. It takes only a few minutes more to clean your face right, and it saves hours of worry about a poor complexion. After you've been playing golf or tennis or walking, you will probably want to wash. If the skin is normal, I would suggest a grainy wash that not only cleanses perfectly but whitens the skin too. If you already have some blemishes and blackheads, then use a paste that will overcome blackheads and open pores even while you wash! And incidentally, if there is some occasion for which you want to look your best and your complexion starts to act up, just touch a bit of acne cream to blemishes, before you go to bed, and let it stay on all night. It seems like a malignant fate, doesn't it—the way blemishes appear as if by magic, just when we want our skins to be perfectly clear. But instead of blaming fate, learn your lesson in proper cleansing. Then you will be sure of a beautiful, clear skin all the time. Class Dismissed.

# District Track Meet Friday To Bring Many Teams Here

### Moscow High School to Enter Men in Most Track Events and in Some of Field Competitions

All arrangements have been completed for the annual north central district track meet to be held at McLean field Friday at 2 p. m. According to Leo Calland, who is in charge of the meet, nearly all the high schools in the district will be represented and it promises to be one of the most hotly contested in years.

Moscow high school will be well represented in most of the events. The following men from Moscow will compete: 100-yard dash—O'Donnell; 220-yard dash—O'Donnell and Hungerford; 440-yard run—Lemon and B. Randall; 880-yard run—Johnson; mile run—F. Randall; Pole vault—R. Nelson; and Huff; high jump—R. Nelson and Nelson. According to Coach Gale Mix, some of the local boys have been training for two months.

Enter Northern Meet

Winners of first, second and third places in each event will compete with the winners of the Penhandle district meet to be held at Wallate on the same day, for the north Idaho championship. This later event will be held here Saturday, May 6.

Ribbons for winners in each event will be given by the athletic committee of the chamber of commerce. There will be no admission charged.

The following high schools will compete: Lewiston, Nez Perce, Kamiah, Lapwai, Bovill, Genesee, Deary, Kendrick, Troy, Juliaetta, and Moscow.

Below is the time schedule of events:

2 p. m.—120-yard hurdles, shot put and pole vault; 2:15 p. m.—100-yard dash; 2:25 p. m.—1-mile run; 2:30 p. m.—Discus and high jump; 2:55 p. m.—440-yard run; 3:10 p. m.—220-yard hurdles; 3:25 p. m.—880-yard run; 3:30 p. m.—javelin and broad jump; 3:35 p. m.—half-mile relay.

## SPRING FOOTBALL TEAMS WILL MEET

### Whites Earn Right to Battle Blues by Defeating Reds

The White team of Coach Leo Calland's spring football squad earned the right to meet the Blues tomorrow defeating the Red shirts 7-0 in a game played last Wednesday afternoon.

This game was a close contest throughout, each team driving down the field to come within scoring distance but failing in the final push. With but a half minute to play in the last half, "Lefty" Inman tossed a long pass to Ed Elliott, who ran 40 yds. for a touchdown. The try for point was good, with Inman kicking it between the uprights.

Resort to Air

Both teams made frequent attempts to gain yardage by the aerial route, and also resorted to quick kicks in one or two instances. As for yards made from scrimmage, there was little difference in the estimated totals of both teams. According to Calland, the boys are improving rapidly every day. The men in new positions have the swing and are now playing good ball. Several freshmen members of the squad are showing up well.

During the past week a few players have signed up for the injured list. Nels Fowles twisted his ankle Wednesday; Russ Honsowitz hurt his leg in the game last Saturday, Les Holmes is out with a bad knee, and Russ Garst, with a sprain. With so many vacancies in the Calland is not certain who he will use in the game tomorrow. Worthington will play in place of Brailsford at guard, and Moore will take McInerney's berth at tackle on the White team. Earl Smith, who has been out for track since the first of the season, will run the team from the quarterback position for the Blue shirts, substituting for Holmes. The lineup for tomorrow's game, with the exception of a few last minute changes, will be:

Whites  
Randall..... LE..... Elliott  
Davis..... IT..... Ehler  
Iverson..... RT..... Moore  
Beatty..... C..... Williamson  
Schmitz..... RG..... Worthington  
Hager..... RT..... Herbig  
Garst..... RE..... Owens  
Parker..... LH..... Jacoby  
Spaugo..... RH..... Luvaas  
Cordon..... FB..... Ward  
Smith..... QB..... Inman

## ELIMINATES SPORT AS FINANCIAL ACT

### University of Wyoming Does Away with Football

Elimination of all football on the campus as a means of balancing the budget is to be recommended to the trustees of the University of Wyoming by Dr. A. G. Crane, president.

The budget of the university recently was reduced by the state legislature. Dr. Crane admitted, however, that he did not believe the trustees would accept his recommendation in full, but expressed the belief that his recommendation would result in a greatly reduced football program for the university.

Canada produces 8 per cent of the world's supply of asbestos.

In an attempt to make geometry a popular subject, the University of Chicago professor has prepared a text in which theorems are applied to football.

## BASEBALL TEAMS TANGLE SATURDAY

### Idaho and Whitman Schedule Double Header on Vandal Field

The Whitman-Idaho baseball double header here Saturday afternoon starting at 1:30 will mark the Vandals' first stand on the home diamond. The Missionaries hold a three to one advantage in games as the result of Idaho's invasion of Walla Walla two weeks ago.

Two victories scored over Lewiston Normal last week-end helped to prime the Foxmen for their attempt to even the score with Borleske's nine when they tangle Saturday. Neil Spiers, who pitched sensational ball against the Normals—letting them down with four hits, will probably get the call to start the opening game here according to an announcement made by Coach Rich Fox today.

### Lacy Has Sore Arm

Because of an arm ailment which has kept him on the bench all week, Ed Lacy, who pitched three-hit ball to aid Idaho in taking a 3-0 victory over Whitman two weeks ago, will probably be unable to see duty this week. Swanson, Hurley, or Anderson will be given the assignment if Lacy does not start.

Swanson handcuffed the Whitman batters without a hit for six innings in the first contest at Walla Walla, but in the seventh the Missionaries found his range, and Anderson was called in for relief duty. In the fourth game at Walla Walla, Spiers and Hurley were both bombarded—Whitman collecting 15 safe blows.

Although his thumb is still bandaged, Bill Kliner returned to the squad this week and will probably start at second base Saturday. He broke the appendage in the first week of outdoor practice. Alvin Jacobson, left fielder, will be out of the lineup Saturday as he sprained an ankle at Lewiston.

### Good Hitters

Haynes, center fielder, and Ernest, first baseman, were hefty with the bat against Idaho in their first meeting. Haynes got six hits and Ernest connected for seven. In the pitching department Records gave the Vandals the most trouble—allowing them only six hits in the third game three of which were in the first inning.

The probable starting lineups: Idaho Spiers..... P..... Records McNealy..... C..... Edwards Hayden..... 1B..... Earnest Kliner..... 2B..... Lyons Kline..... 3B..... Olson Sather..... SS..... Dorsky Anderson..... LF..... Harper Geraghty..... CF..... Haynes Albee..... LF..... Wootin

## VOICES PROTEST ABOUT CLOSING

### Economist Makes Statement at the Finance Committee

"Closing our schools because there is a depression is like closing our hospitals because there is an epidemic," said William Trout, noted economist, in a recent statement made at the request of the United States senate committee on finance in connection with the investigation of economic problems.

## HARNESSES WATER BY GIGANTIC PLAN

### Huge Project to Generate Electric Power is Outlined

A gigantic scheme for harnessing the tidal water of the River Severn to generate electric power is being outlined in London.

It is contained in the final report of a committee appointed in 1925 by Stanley Baldwin, then prime minister, to investigate the possibility of constructing a barrage on the estuary.

## RECEIVE VICTORIES IN VARIOUS SPORTS

### Lehigh University Wins in Three Different Fields

Lehigh university's athletes sat down recently added up their winter's defeats and victories, and found that in three sports they had won 15 out of 27 encounters.

The wrestling squad went undefeated in seven dual meets with large eastern universities. The basketball squad entered nine wins in 16 starts and the swimming team even in four dual meets.

The wrestlers, champions of the Eastern Intercollegiate Wrestling association had, defeated Harvard, Princeton, Cornell, Navy, Syracuse, Pennsylvania and Yale in that order.

The shortest football schedule in the history of the school is to be played by the University of Pennsylvania football squad next year, as well as board and room charges, are substantially lower than those of former sessions.

## Forty Receive Bids to "I" Club Party Monday at 12:45 p. m.

## BETAS AND LINDLEY REMAIN UNDEFEATED

### Progress in Intramural Horseshoes is Slow, Reports Manager

Beta Theta Pi remained the only undefeated intramural horseshoe team in a league by defeating Lambda Chi Alpha Wednesday evening in two singles matches, and moved into the semi-finals bracket, where they will play the winner of the consolation match for the right to enter the finals.

The winner of the Kappa Sigma-Tau Kappa Epsilon match will meet the Lambda Chi in the other semi-final match. Phi Gamma Delta and Delta Tau Delta are slated to meet in the consolation bracket, the winner to play Tau Mem Aleph.

Progress Slow

No progress was made in the B league tourney this week. Lindley hall is still undefeated, and will meet the winner of the Chi Alpha Pi-L. D. S. match. Alpha Tau Omega has also reached the fourth round and will meet the loser of the Chi Alpha Pi-L. D. S. match.

## PASSES LEGISLATION

Congress recently passed legislation authorizing the payment of \$19,357 in claims to the descendants of Sioux Indians in North and South Dakota who have contended that in battles between Gen. Custer and Sitting Bull their ancestors were merely interested spectators, and should not have lost horses and guns which were taken from them.

Thieves attempted recently to steal the basketball receipts at DePauw university, but the only loss revealed was \$3 from one of the offices.

## IDAHO TRACK TEAM TO MEET WHITMAN AT WALLA WALLA

### Better Showing is Expected As a Result of More Experience

The Idaho track quad travel to Walla Walla tomorrow to meet the Whitman Missionaries in a dual meet after a week's rest following the Cheney Normal meet held last Saturday. This is the second contest for Coach Otto Anderson's boys so far this spring.

"We hope to make a better showing tomorrow," said Coach Anderson, "because the fellows have had a little experience in some of the fine points of the meet. At Cheney we were weak on our starting, losing time in several of the races on that point. We hope that this will be remedied for the Whitman contest."

### Has Strong Squad

"Nig" Berleske is reported to have a team equal to those in past years, which is good enough to upset the Vandals if caught off guard. Track conditions at Walla Walla will be much the same as at Cheney. A soft soggy cinder path, which will hold down the runners' time, is expected.

Anderson plans to take 23 men to Whitman, thus giving everyone of

promise a good chance to show. Because of the poor condition of Cheney another trial is being given to those who have made a creditable attempt this spring. Those who will go to Walla Walla are Kalbus, Felton, Livingston, Arnett, deMeel, Thomas, Ridings, Bowler, Frederics, Cline, Squance, P. Jones, J. Jones, Nelson, Nowhouse, P. Berg, R. Wilson, A. Berg, Norby, Aukitt, and possibly two or three others.

### Berg is Stronger

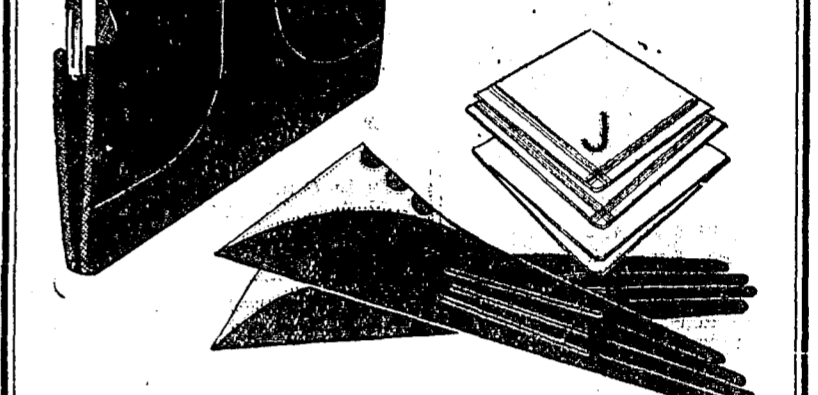

Although the Vandals were weak against Cheney last Saturday in the weight division, Anderson feels that Ap Berg will come out near the top, for last night he tossed the 16 pounder 44 feet 8 inches and managed to put his other two tries over the 44 foot mark with ease. This is nearly a foot better than his performance at Cheney.

Nelson has also shown improvement in the last two days, having cleared 12 feet in the pole vault. Nelson stands a good chance to place first or second if he maintains this stride. Kalbus and Felton have perfected their starts so that a first and possibly a second are almost certain.

"If the track is in any decent shape at all" concludes Anderson, "the boys will do much better than previously. Faster times are expected in the case of Thomas and Livingston in the quarter, half mile, and mile. We stand a good chance of winning, but the loss of any one event may prove our undoing."

Intramural tennis will start May 1 according to an announcement by Coach Leo E. Calland. The schedules for the tournament will be placed in the mail either today or Saturday.

## Smart, New Hand Bags and Gloves
